CORN—A fair trade, and while the market was somewhat unsettled, the tone was weak and the close ⅛@¼c to 1c lower than yesterday. Market was inclined to fluctuate with Wheat and the trade was largely local. Elevator interests sold with considerable freedom and commission houses also had a good deal to sell. Professionals were among the principal buyers. The weather was looked upon as favorable, though Kansas and Nebraska had considerable rain, and fair and cooler conditions generally indicated. Country acceptances of new Corn to arrive in December were liberal and placed at about 250,000 bu. The *Price Current* reported favorable progress in most sections in Corn ripening and the crop position bettered, but there will necessarily be considerable soft Corn, probably not exceeding last year. Argentine shipments this week estimated 3,200,000 bu. Receipts were small, 106 cars, against 375 cars last year, and 119 cars estimated for to-morrow. Liverpool quoted spot steady to ¼d higher and futures unchanged to ¼d better. Southwestern markets were easy. Receipts at primary markets 251,000 bu, against 530,000 bu last year, and shipments 532,000 bu and 480,000 bu respectively. Local arrivals 158,000 bu and shipments 420,000 bu. Withdrawals 127,000 bu and exports 10,000 bu. Shipping demand moderate and sales 65,000 bu. Seaboard reported 2 boat loads accepted. Car lots were in good demand, with offerings small. Prices were steady. Sales almost entirely by sample. No 2 closed about 52¾c. No. 2 Yellow closed at 51¾c. No. 3 closed at 52¼c. No. 3 Yellow sold at 55c and closed at 54½c.

Corn by sample—Compared with yesterday's sales, prices were unchanged to ½c higher. Offerings were small. Demand fair. Sales on track and free on board: No Grade sold at 49½@50½c. No. 4 at 50@55c. No 3 at 53@54c. No 3 Yellow at 55@55¼c. No. 2 at 55¼c. No. 3 White at 53½c. Billed through: No Grade at 48½c. No. 4 at 48½@53¼c. No. 3 Yellow at 53¾@54½c. No. 2 Yellow at 54¼c.

Future Deliveries of No. 2 Corn—Fairly active and weaker, closing ⅛@¼c to 1c lower.

SEPTEMBER—Sold at 53¼@54¼c. Opened at 54c to 54¼c and sold at 53¾c, to 53⅞c, to 53½c, to 54c, to 53¼c, to 53½c, and closed at 53½c.

DECEMBER—Quotable at 1¼c to 2@2½c over May. Sold at 50¾@51⅞c. Opened at 51⅝c to 51⅞c and sold at 51¾c, to 51⅝c, to 51¾c, to 51½c, to 51¼@51⅜c, to 51⅝c, to 51⅛c, to 51¼c, to 51⅛c, to 50¾c, to 50⅞c, and closed at 50⅞c.

MAY—Sold at 48¾@48⅞c and 48¾@49⅞c. Opened at 49⅝c to 49¾@49⅞c, and sold at 49¾c, to 49½@49⅝c, to 49⅜c, to 49⅝c, to 49¼@49⅜c, to 49½c, to 49¼@49⅜c, to 49⅝c, to 49¼c, to 49⅜c, to 48¾@48⅞c, to 48⅞@49c, and closed at 48⅞@49c asked.

JULY—Sold at 48⅞@49⅝c. Opened at 49½c, sold at 49⅝c, off to 48⅞c, and closed at 48⅞@49c.

OATS—Were sparingly traded in early, but became active in the last thirty minutes. September was firm and gained ⅜c on light trading. December closed ⅛c lower, and May after ⅜c range closed ⅛c lower. Country acceptances were small, prices being too low for farmers to sell freely. Cash sales were 50,000 bu and charters for 100,000 bu. Arrivals were 123 cars and 121 cars estimated for to-morrow. Duluth had 113,000 bu and Minneapolis 117 cars. Withdrawals were 16,850 bu. Seaboard clearances were 17,000 bu. Car lots to go to store were steady to ¼c higher. No 3 sold at 30½c. No. 3 White at 30½@30¾c. Standard at 31½c. Standard in store closed at 30c.

Oats by sample were in lighter supply and steady to ¼c higher. Demand better. Sales on track and free on board: No Grade at 29½@30½c. No 4 White at 29½@30½c. No. 3 White at 30@32c. Standard at 31½@32c. No. 2 at 30½@30½c. No. 2 White at 32c. Billed through: No. 3 White at 30½@31c. Standard at 31¼@32c. At the river. No. 4 at 28c. No. 4 White at 28¼@29¼c. No. 3 White at 28¼@29¾c. Standard at 29¾@30½c.

Future Deliveries of Contract Oats—Were rather slow and irregular.

SEPTEMBER—Slow; sold at 30c.

DECEMBER—Sold at 30½@30⅝c and at 30⅞c. Opened at 30¾c to 30⅞c, sold to 30½@30⅝c, to 30⅝c at close.

MAY—Moderate trading. Sold at 32⅞c and at 33⅛@33¼c. Opened at 33@33⅛c to 33⅛c, sold to 33⅛@33¼c, to 32⅞c, to 33@33⅛c, to 32⅞c at close.

RYE—Ruled firm. More doing in cash and September in a speculative way. General offerings light and demand fair. There were seven cars received and two cars withdrawn from private warehouse. No exports from New York. No. 2 in store sold to the extent of 25,000 bu at 75c and fresh receipts free on board sold at 77c and billed through at 77c.

Future Deliveries of No. 2 Rye—Ruled firm. September sold at 75c. December 77c asked. May sold at 79c, and closed at 79c bid.

BARLEY—The market was much the same as for a couple of days past; it favored buyers. There was a good trade in the under grades. The range of prices was not changed, but buyers got rather better goods at the range, which was equivalent to shading of prices. It was an easy market, some buyers taking very little, they rather looking to do still better. In the higher grades but little was done; offerings of such small. Buyers indifferent. They say prices for better qualities are out of proportion compared with the cheaper grades. Ninety-two cars inspected in to-day. Sales of Screenings were made at 28@37½c for poor dirty to choice, and the outside named as the top price obtainable. Low-grade or feed Barley was about 36@37c, more quiet; little offered. Low-grade malting, thin, or better weight, but stained or dirty, sold at 38@39c. Fair to good ranged at 40@43c, high-grade to choice at 46@49c, and fancy nominally up to 50@5?c.

SEEDS—In the Flax market there was a further small improvement, but aside from this no essential change occurred, and aside from a fair cash Timothy trade the market ruled quiet.

Timothy—March delivery sold at the bid price of the last few days and that looked like a small concession to buyers, but the change was trivial and the rest of the market was about steady. Nothing was done in other futures. Cash Seed in fair supply, yet not so much on sale as of late and it was taken at about unchanged prices. Country lots remained at $2 30@2 40 for fair to good, high-grade Seed at $2 45@2 50; choice to fancy nominally $2 55@2 65; poor Seed quotably down to $1 85@2 25; inferior lower. For September and October deliveries $2 70 was bid. January was nominally $2 80. March sold at $2 85 and closed at that bid.

Flax—The tendency was again toward improvement, directed by still firmer markets in the Northwest. There was ½@1½c advance over yesterday's prices. The business doing, however, remains unimportant, owing to an absence of offerings. No 1 Northwestern or No. 1 from the Northwest sold at $1 18½. No 1 was $1 12 bid and Rejected was quotable at $1 08@1 16 depending on quality. September was nominally $1 12 bid and December was nominally $1 14 bid, with $1 15 asked.

Clover—Was quotably steady. There were no offerings to-day. Prices unchanged. October delivery was quoted at $12 25. Contract spot Seed at the same. Country lots, common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 50.

Other Seeds—Millets, common or German, quotable at 75@90c for common to choice, and Mustard also about 75@90c.

HOG PRODUCTS—A fairly good speculative trade was reported in Hog Products, and the undertone to the market was rather steady for the near and easy for the deferred deliveries. Local operators are anticipating a material reduction in stocks to be reported on Saturday, especially of Lard and Short Rib Sides. Hogs were in larger supply and lower, and the aggregate receipts at the leading Western packing points were estimated at 48,200, compared with 49,700 one year ago. Returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited a decrease of 70,000 Hogs. Foreign markets were quiet, and Lard was quoted 3d lower. Domestic markets were steady. Receipts of Products were good of Lard and Meats about 29 cars. Shipments were fair—of Lard and Meats about 111 cars. Outside speculative orders were moderate, and local trading was good. Offerings were fair, and the demand was not particularly urgent. Market opened rather easy, in sympathy with the Hog market, and prices ruled slightly lower. Later, the market showed a little strength in a general way, and prices were advanced all around. Toward the close, the feeling was somewhat easier, and prices settled back again, especially on the deferred deliveries. Market closed rather steady. Demand on shipping account was quite active for all descriptions, excepting Pickled Meats, and the offerings were moderate. Sales were fair, and prices were without material change.

Mess Pork—Only a fair business was transacted in Mess Pork, and the feeling was easier. Offerings were not very large, and the demand was moderate. Prices ruled 10c lower at the opening, but a little miscellaneous buying caused a rally of 5@10c. Toward the close, the feeling was easier again, and prices receded 5@10c, but rallied 2½@5c, and closed comparatively steady. Shipping demand was light, and offerings were small. Cash lots quotable at $11 40@11 50.

SEPTEMBER—Quiet and quotable at the close at $11 40.

OCTOBER—Offerings were moderate, and demand was only fair. Sales were made at $11 37½@11 42½. Opened at $11 40, sold to $11 37½, to $11 42½, to $11 40, and closed steady.

DECEMBER—In moderate request, and offerings were only fair. Sales were made at $11 40@11 47½. Opened at $11 47½, sold to $11 40, to $11 45 to $11 42½, to $11 45, to $11 42½, to $11 45, and closed steady.

JANUARY—Demand was moderate, and offerings were fair. Sales were made at $13 05@13 15. Opened at $13 05 to $13 10, sold to $13 15, to $13 05, to $13 10, to $13 07½, and closed steady.

Lard—The Lard market attracted considerable speculative attention and trading was fairly active. Operators looking for a material reduction in supplies during the month. Foreign advices less favorable to holders. Offerings were moderate, and the demand was fair. "Shorts" bought fair quantities. Market opened rather easy, and prices were about 2½c lower. Later, a stronger feeling was developed, and prices rallied 15@17½c on the near and 5@7½c on the deferred deliveries, but receded again 2½@5c, and the market closed comparatively steady. Demand on shipping account was good with moderate offerings. Cash lots quotable at about 2½c premium on October figures, closing at $7 55. Loose lots in fair request, with very small offerings. Prices quotable at 10c discount on October figures. Leaf Lard was in good demand, with very limited offerings. Quotably steady at about $7 62½ for very small lots. Neutral in light demand, with moderate offerings. Prices quotably steady at $9 00@9 12½ for No 1, and $8 50@8 62½ for No. 2.

SEPTEMBER—Called for sparingly and offerings were light. Small sales at $7 65@7 55 and closed at $7 55.

OCTOBER—In good request and offerings were only fair. Sales were made at $7 35@7 52½. Opened at $7 35 to $7 40, sold to $7 45, to $7 42½, to $7 50, to $7 47½, to $7 52½ to $7 50, to $7 52½ to $7 50 to $7 52½, and closed steady.

NOVEMBER—Quiet, with small sales at $7 50.

JANUARY—Offerings were fair, and the demand was moderately active. Sales were made at $7 35@7 42½. Opened at $7 35, sold to $7 42½, to $7 37½@7 37½, to $7 40, to $7 37½, to $7 40, to $7 37½, and closed steady.

MAY—Quiet with small sales at $7 50.

Short Rib Sides—Trade was fairly active in the market for Short Rib Sides, and the feeling was steadier. Offerings were fair, and the demand was moderately active. Market was a little easy at the opening, and prices ruled about 2½c lower. Later, a steadier feeling prevailed, and prices rallied 5@7½c. Toward the close, the market was not quite so strong, and prices settled back 2½@5c, and the market closed rather steady. Shipping demand was fair, and offerings were not very large. Stocks on hand gradually decreasing. Cash lots quotable at $7 75@7 87½, according to weight.

SEPTEMBER—Quiet and quotable at the close at $7 72½.

OCTOBER—In rather good demand, with fair offerings. Sales were made at $7 70@7 77½. Opened at $7 70 to $7 75, sold to $7 75@7 77½, to $7 72½, to $7 75, to $7 72½, to $7 75, to $7 72½, and closed steady.

JANUARY—Offerings were fair, and the inquiry was only moderate. Sales were made at $6 80@6 85. Opened at $6 80 to $6 82½, sold to $6 85, to $6 80, to $6 82½, to $6 80@6 82½, to $6 82½, and closed steady.

MAY—Quiet, with small sales at $6 95@6 97½.

Other Meats—Trade was fairly active and mainly on domestic account. Exporters bought sparingly. Offerings moderately free and inquiry was good. Green Meats in moderate supply with light inquiry and prices ruled steady. Pickled Meats were dull and slow sale with fair offerings, and prices favored buyers. Dry Salted Meats were in active demand with moderate offerings, and prices ruled steadier. Smoked Meats called for moderately and prices were steady. Closing prices were as follows:

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city.

Last week showed another increase in output for the Minneapolis mills. While the total did not quite reach 325,000 brls., the figure is counted by the *Northwestern Miller*, it showed an increase of 30 555 brls over the week immediately preceding. To-day seventeen mills are running and the output for the current week is likely to reach 325,000 brls.

The volume of sales by Minneapolis mills continues fair, though for the most part millers say that they have fewer orders on their books now than a year ago. Last year mills were selling Clears freely for export and were placing some Patents for export. This year exporters of mills are doing absolutely no export business, either in Clears or Patents, though other mills report fair export sales of Clears. The domestic demand for Clears has improved considerably in the last few days, and second Clears. The latter are coming in good demand for use as a Rye mix.

Some millers report difficulty in getting cars promptly as required. The Wheat receipts at Minneapolis are increasing in a satisfactory manner, yesterday's receipts of 777 cars being the heaviest of the season. The spread of the Wheat market, however, work to the detriment of the miller. A break of 4c, such as occurred Sept. 22, naturally makes buyers hold off, while this being followed by an advance of 2c on the next day, as was the case to-day, leads buyers to distrust both the decline and the advance, so that the trade does not know what to think of values and accordingly is in a position to wait. Some packers appear to have reached a settled basis there is no doubt that there will be a good influx of orders to the mills.

The price of feed has fallen off somewhat, but it is still in good demand and large quantities of feed are changing hands. While the mills are not disposed to discount future delivery of feed, one for season shipment has been sold on 'Change at slightly under the current mill prices. Minneapolis and outside mills quote Patent in wood f. o. b. Minneapolis at $4.80@5 in 98lb cotton sacks is quoted at $15 25@15 75 f. o. b. Minneapolis.

Eastern prices to-day (Sept 27) asked by Minneapolis and outside mills for Patent in wood, were: Boston rate points, 86 65; New York, 86 60; Baltimore rate points, 86 50; Philadelphia rate points, 86 35; Albany rate points, 86 60; Rochester and Syracuse rate points, 86 60; Buffalo rate points, 86 45, Michigan, 86 15 in sacks; Iowa, Illinois and Wisconsin, 86 20 in sacks, Missouri points, 86 65 in sacks.

GAP IN HOG SUPPLY.

[From the Chicago Drovers' Journal, Sept. 22.]

In the opinion of most expert traders of long experience at this market, packers and Hog consumers are facing a rather broad gap in supplies of good Hogs. The fact that the late Hog prices have not attracted larger supplies of Hogs this week than have been in evidence and the general tenor of the old Hogs coming here pointed to by many as conclusive proof that supplies ready or anywhere near ready for market are meager.

The argument is also advanced by some of the best posted men in the trade that the supply of Hogs this fall than in any recent year.

We are now entering the period when feeders begin to start their Hogs on new Corn, but the situation this year is somewhat different than heretofore. In other recent years farmers and country traders and others have contained a considerable stock of old Corn. This year it is generally conceded that the supply of old Corn has been more nearly swept clean than any time in years.

Farmers having practically no old Corn to mix in must this year start their Hogs on the unseasoned new crop, and old-time feeders know that it takes more time and Grain to make the Hogs from new Corn than from a mixture of new and old.

If Hogs are crowded with new Corn too fast at the beginning troubles akin to cholera show up, the young Hogs get out of condition and often so badly out that it is necessary to start them off to market before they are in even fair condition for market With Hogs as high as they now are farmers will use caution not to endanger their crop of Hogs by overfeeding the new Corn.

This caution not to overfeed and the fact that Swine in general have been absolutely off Corn for months must leave the crop of Hogs this year rather more backward than usual, and packers are falling down to a volume that indicates that it is hard work to make up shipments even at the fairly attractive prices prevailing. Advices coming here for four days this week stated about 12,500 head short of the marketing the same period last year, and 16 of the same limited volume as two years ago. At that time best Hogs were selling about $1 80 above present prices.

Under present indications packers who usually make a determined effort at this time of year to break prices down to a level to open up the winter packing season Oct 1 are facing a situation that actually renders their chances of a successful raid against the markets a very shadowy one. It appears that if packers are to secure any very cheap Hogs this season it must be in the latter part of the season, when the crop of young Hogs that is conceded to be fairly large this year has been matured, and wait until the good big crop of Corn now almost ready has been well seasoned.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 84 to 50; light general rains Northwest Temperature 48 to 56, generally clear, except Sta rain Duluth. West Temperature 46 to 58; rains general. South West -Temperature 64 to 74; rains in Kansas and South. Ohio Valley—Temperature 70 to 76; fair. Lake Region—Temperature 60 to 70; rains. North Dakota South Dakota, Nebraska Kansas and Iowa, fair and cooler Illinois, Indiana, Missouri and Wisconsin, generally fair and cooler. Lower Michigan, threatening showers and thunderstorms

Earnings of the Aurora, Elgin and Chicago Railway for the month of August compared unfavorably with last year, there being a decrease in net earnings of $7,342.

BRITAIN'S GRAIN PROBLEM.

[From the Winnipeg Commercial, Sept. 24.]

Not only is Great Britain dependent upon other countries for her supply of breadstuffs, but any interruption to the stream of supplies would be felt almost immediately. It is estimated that, under normal conditions, the United Kingdom has on hand only a few weeks' supply. This increases the hazard of her dependence on other countries for supplies, and is the subject of an investigation by an important association, of which Lord Brassey is chairman, of Sailors and Land Owners. As a result of their inquiries, the association has proposed the establishment of a system of government subsidized Grain storage in Great Britain, a proposition which has met with some favor among Western Grain men.

At a recent meeting of the Winnipeg Grain Exchange the proposal was explained by Professor Saunders, whose name is familiar to Canadians in connection with that gigantic enterprise, the Manchester ship canal.

"The scheme," he said, "favors a recommendation asking the government to subsidize storage in Great Britain so that shippers may send forward cargoes of Wheat on bills of lading and hold the documents which have been during storage or freight until such time as the Grain is sold. The ability to obtain supplies easily has been a factor in developing the present system, whereby it is absolutely necessary, in order to avoid loss, to sell the Wheat afloat, as it is impossible for the shipper to collect storage charges from the purchaser, and besides the expense for the existing state of things to be along the line of least resistance, and think the scheme proposed could be put in effect without any great change in the existing system. It is considered the accumulating of such stocks, the mother country would naturally look to the colonies and consider what would be helpful to them.

"I have always held the world's exports of Wheat and Flour for ten years, and for convenience this has been prepared in the form of percentages. During the period named the United States exported 43.5 per cent of the whole; Canada, 4 per cent; Russia, 24 per cent; Eastern Europe, 10 per cent; Australasia, 15 per cent; Argentina, 9.3 per cent, and India and Roumania exported the United Kingdom received 43.5 per cent.

"We expect, in years to come, that Canadian shipments will greatly increase, and we think this increasing of facilities for storage will help both you and us. I found difficulty in obtaining the amounts of Canadian Grain shipped through American ports, but finally, through Prof. James W. Robertson, I found the following report prepared by Mr Johnston, the statistician at Ottawa. During 1903 the total Wheat production of Canada was 107,412,000 bushels, and exported was 28,888 000 bu, the direct export to Great Britain 17,889,001 bu, in bond through United States ports 18,707 000 bu, and for home consumption in the Dominion 3,000,000 bu, all through."

Provided that the accumulation of large stocks at ports where the market was depressed, when 100 miles away from it, owing to a keen demand and a good market, was avoided, and grading into common stock bins adopted, and the interest and cooperation of the railways secured, the meeting approved the idea

DEMAND FOR HORSES.

[From the Chicago Drovers' Journal, Sept. 26.]

The question is frequently raised whether the present demand for good horses will become a permanent feature of the industry. So many radical changes in motor power have been inaugurated which indirectly aim to supplant the use of horses that breeders frequently are timid about enlarging their operations. However, the increased movement of horses thus far the current season indicates it has agreatly expanded the current year. This is particularly true as to the broader demand for draft horses.

At the Chicago market the fiscal year all previous price records have been broken and draft animals have sold as high as $260 The heavy business here is due largely to the fact that for all competition, but also has met a more urgent demand and sold at higher values than at any time in the history of the industry.

The trend of the general development foreshadows a broader consumption of heavy draft horses. The paving of cities makes possible the transportation of five and ten ton loads, which requires increased weight and strength in the motor power horses. The transformation in agricultural operations has created increased demand for heavy draft animals. Not many years ago a farmer was content with a walking plow that turned a single furrow, to-day on the same farm he is riding a gang plow that turns three furrows The far-mer must necessarily have heavy horses to-day that vests the crop with a horse-power machine. Improved labor-saving machinery is being used on farms which requires heavy horses to operate, and the general trend of industrial methods has called for the increased use of heavy draft horses. The draft animal is helping solve the labor problem. Present indications are that the demand will continue to exceed the supply. Now is the time for the breeder to prepare to meet the demand for many years to come.

AGRICULTURE IN ARGENTINA.

[From the Buenos Ayres Standard, Aug. 28.]

Considering our small population, it is really marvelous how cultivation is expanded every year, and we do not suppose there is another country in the world which can show such results in relation to working population Every year marks an increase in the areas broken up for cereals, the figure this season of increase being set down at 800,000 hectares Even discounting this liberally it is most remarkable and can only be accounted for by improved methods and by stretching the work out over all the period available. Even with the lack of sufficient hands is most noticeable, especially at harvest time, and it is very palpable that unless the supplies of immigration are quickened the expansion will soon disappear and the cultivation touch the limit. That the growth of the railways has facilitated the handling of products is, of course, obvious, and that the profits produce principally the development pointed out, while another advantageous factor is the shipping in bulk, which is a great saving in labor. We see by official returns of the Department of Agriculture that of 63,540,000 bu of Wheat exported this year to the end of July nearly 36,000,000 bu was in bulk.

The Northern Trust Company, Chicago, has declared the regular quarterly dividend of 2 per cent, payable Oct. 1 to stockholders of record Sept 15.

ITEMS OF GENERAL INTEREST.

Springfield, Ill., says: "Won't need any Corn for feed for three months, as pastures are good."

C. B. Gillette wood finishing plant in Indianapolis, was destroyed by fire. Tuesday. Loss, $60,000.

The second quarterly dividend of 1¼ per cent on the stock of the Colonial Trust and Savings Bank, Chicago, will be paid Oct 1 to stockholders of record Sept. 20.

The directors of the First National Bank, Chicago, have declared the regular quarterly dividend of 4 per cent, payable Oct. 1 to stockholders of record Sept. 30.

The American Type Founders Company has declared the regular quarterly dividend of 1¾ per cent on the preferred stock and 1¾ per cent on the common, payable Oct. 15 to stockholders of record Oct. 10.

The Illinois and Wisconsin Railroad Company, principal offices in Chicago, capital stock $5,000, was incorporated at Springfield, Ill., Tuesday. It is to be constructed from Chicago to Barrington, Ill.

The Buenos Ayres *Handels Zeitung*, Aug. 28, reports that the outlook for the next Wheat crop continues very favorable. The weather lately has been satisfactory for furthering the growth of the young Wheat Seed plants and the germination of the late sowings.

The Swift Refrigerator Transportation Company has ordered 200 refrigerator cars of 60,000 lbs capacity from the Pullman Palace Car Company for delivery on October and November delivery. The company is also building 100 cars of the same kind at its own shops.

There was more persistent report in Wall Street Saturday, that Kuhn Loeb & Co. had completed a transfer of 450,000 shares of Atchison common stock to the Rockefeller interests, and that a very close co-operation between Atchison and St. Paul was being arranged.

The National Telegraph News Company says: "A strong impression prevails locally that the National Biscuit Company will absorb the Sawyer Western competitor, namely, the Sawyer Biscuit Company, whose growth during the past three years has been little short of marvelous."

The American Tobacco Company has declared the regular quarterly dividend of 1¾ per cent on its preferred stock, payable Oct. 15. Books close Oct. 3 and reopen Oct 17 This makes the twenty-second consecutive quarterly dividend, amounting to $38 50 per share, and $7,700,000 in the aggregate.

According to a Portland paper the Hop crop of Oregon is being scaled down to 80,000 bales instead of 90,000, as figured on previously. It is reported that the greater part of the crop will be classed as medium. The Seattle *Post-Intelligencer* states that the Washington crop will be 30 bales less than last year, or not to exceed 30,000 bales.

The weekly Weather Bureau report Tuesday, said: "Cotton opened rapidly in all sections, premature only in Georgia and Mississippi, and picking is being pushed, but was delayed somewhat by rains in Florida, Mississippi, Oklahoma and Georgia. The bulk of the crop is gathered and marketed in the central and southern States. Picking now continues to rust and shed, but the adverse conditions are not so general as previously reported. In Texas the scarcity of pickers is reported from localities in the central and eastern districts, but the last-named State little injury to the staple by showers and the crop is too far advanced for further damage by boll weevil."

It is stated that prominent interests in the Consolidated, American, and Continental Tobacco Companies, which worked out the plan to consolidate them into one company, to be known as the American Tobacco, are not at all concerned regarding the reports that litigation hostile to the merger is to be begun. It is known that when this plan was first proposed to the interests mentioned it was considered was its legality, and that no steps were taken toward formulating a plan until the legal status was fully established. It is stated that $10,-000,000 Consolidated stock will have been issued to for exchange under the proposed plan of merger and readjustment of capital.

The Western Trust and Savings Bank is offering for investment in Chicago the opportunity to subscribe for a new issue of stock contemplated by the National Bank of Cuba This institution proposes increasing its present issued capital from $1,000,000 to $2,000,000, in order to extend its growing business. A portion of the shares can be subscribed for in Chicago at $115 a share, payable $35 a share on subscription, $40 on Jan. 1, 1905, and the remaining $40 on March 1, 1905. Interest accrues, entitling the owner to participate in all dividends declared, will be issued upon allotment, and will be transferable. There is no stock holders' liability.

"The Northwest will have more Wheat than was figured on three weeks ago," said a Minneapolis miller who is one of the largest Flour millers in the Western Wheat trade. "The yield is exceeding early expectations. There is some poor and some very good Wheat, but on the average the Wheat is not as bad as anticipated. To get a fair idea of how uncertain the Wheat runs this year I will cite one instance. A man with thirty-six acres at Lamplton, Minn., was approached by every one who looked at his crop not to cut it. He did not follow the advice, and secured a yield of 22 bu per acre of medium quality. In the Red River Valley the yield is not so bad as that was expected early, and in the west and north is shown a larger increase. Prices are the highest since 1898, and there will be a large movement, as farmers are willing to sell. The Flour situation is different from last year. A few mills have a good trade, but a majority say sales are light. Last year the mills were sold largely ahead. Now they have less sold ahead than usual for this season"

One of the New York Chamber of Commerce men whose commission business takes him every year through New York State has recently returned to that city and says: "I do not know what relation the capital of New York Central has to the business in New York State, but I know that the New York Central Railroad has one of the biggest business in New York State that it has had for fifteen years. I have recently spent several weeks in Western New York and I never saw anything like the agricultural prosperity of that region. The Hay crop is the biggest ever gathered in the State. It was so big that it could not be mowed in June or July, and they were mowing in the fields continuously from Hay making in June until well into August. Such a crop of Hay was never before harvested in the State. There is, also, the heaviest crop of Oats and other Grains that the State has ever raised, and I don't believe that the New York Central can furnish the equipment to move the crops that have been raised on its lines in that State. It will require 4,000 cars to move the Grape crop alone that has this year been gathered in Western New York. For 200 miles between Albany and Buffalo there are being gathered the greatest crops of all kinds that have ever been seen in this State."

The United States Steel Corporation for the quarter ending Sept 30 will not be made public officially for about one month. There is good reason for believing, however, that they will be about 10 per cent below the figures of 1903, or less than that figure. This is considerably better than was expected at the beginning of the quarter. With the outlook for increased business during the last quarter of the present year, it is believed that the final results for 1904 will be considerably above expectation. If nothing unfavorable develops, it is believed that there will be considerably more than a normal year for the United States Steel Corporation. It is understood that the directors' statement to stockholders of the Crucible Steel Company giving details of the sale of the Clairton plant to the United States Corporation shows a clear loss of nearly $4,000,000 to the Crucible Steel Company Naturally the Steel Corporation did not advertise the fact, because a great percentage was in losses sustained through keeping the Clairton plant idle. It is said, however, that the Steel Corporation made over $2,000,000 by not buying Clairton under the original agreement. The Steel Corporation is now operating the Clairton open hearth furnaces, making billets, and breaking all records for high returns.

Cotton in New York weakened in sympathy with Liverpool, which lost 10 to 11 points and on heavy receipts, the week's movement being estimated at 545,000 to 550 000 bales. Crop reports were "bullish," but liquidating sales were the feature. Closing prices were 10@17 points lower.

The shipments of Flax Seed from Argentina this week were reported at 400,000 bu, compared with 312,000 bu last week and 72,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 35,724,000 bu, compared with 22,011,000 bu for the corresponding time last year.

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 700,000 bu, against 657,000 bu for the previous week and 1,124 000 bu for the corresponding week last year. Exports since July 1 were 7,482,000 bu, compared with 12,717,000 bu for corresponding time last year

Stocks in New York were active and averaged higher. "Shorts" were good buyers Room traders were "bearish," and look for a poor bank statement, but prices advanced. Western Railways gained ¼ to 1⅝ points. Industrials were up ½ to 4⅝, and Tractions showed gains of 1¼ to 1⅞ points Money 2 per cent.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,182 000 bu, against 854,000 bu for the previous week, and 4 082,000 bu for the corresponding week last year Exports since July 1 were 18,197,000 bu, compared with 40,361,000 bu for the corresponding time last year.

Broomhall's cable says: "Argentine weather conditions are favorable and Wheat growing well Conditions surrounding Argentine Wheat market have completely changed in the last week, tone now being firm with good demand for export. Arrivals from interior liberal and quality satisfactory. Corn dull. Light foreign demand. Arrivals at ports large and quality satisfactory."

The following table exhibits the inspection of Grain at Chicago during September in the past six years:

The *Modern Miller's* weekly crop summary says: "There are complaints of delayed plowing and seeding of Winter Wheat, but these are generally of a local character and of little consequence in the surplus States. In some localities there has been too much rain, in others not enough. There is a tendency to delay seeding as long as possible in order to avoid the Hessian fly. The plant is up to a good stand in the southern part of the Wheat belt. Mills located in Illinois, Indiana and south of Ohio River are drawing upon the accumulative points for Wheat supplies."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand good and market in healthy condition.

WINTER WHEAT—Ruled steady, with top prices about 1c better than yesterday. Soft Wheat is scarce Offerings consist mostly of Hard Wheat. Demand only moderate No 2 Red in store ranged at $1 11¾@1 13¼ and fresh arrivals free on board quotably $1 16@1 17. No 3 Red fresh receipts free on board sold at $1 11½@1 15½ No 4 Red fresh receipts free on board sold at $1 02@1 11 and No Grade at 99c $1 05. No 2 Hard fresh arrivals free on board nominally $1 11@1 14 No 3 Hard fresh receipts free on board sold at $1 06@1 07½ and at the river at $1 08. No. 4 Hard at the river sold at 99c.

SPRING WHEAT—Offerings small and demand moderate. Market firmer. No. 1 Northern fresh arrivals free on board quotably $1 20 and No 2 Northern fresh arrivals nominally $1 16@1 18. No 3 Spring nominally $1 15@1 15 for poor to very choice, with a sale at $1 13. No 4 sold at 67c for poor, to $1 00 for fair, and $1 08 for good.

REGULAR WHEAT—The close showed the December ¾@⅞c higher, while May gained 1@1⅛c. Market was moderately active, with the trade of fair volume. The start was steady, but prices gradually declined, liberal receipts in the Northwest, easy cables and enlarged Argentine shipments being among the "bear" factors. Liverpool quoted spot steady to ½d higher, while futures were off ⅛@⅜d. Receipts there past three days were 56,000 bu, and none from America. Liverpool cabled there was more of a disposition to work for a reaction. London came ½d lower. Paris was up 1c on spot, while futures were ¼c lower. Berlin declined ½c and Buda Pesth ½c Argentina shipped 976,000 bu, making 82,293,000 bu, against 58,764,000 bu last year Visible there was reported 3,352,000 bu, against 2,800,000 bu last week and 1,512,000 bu one year ago. London cabled that Argentine advices indicated a material advance in condition. Locusts were reported in portions of Western Buenos Ayres, though no special harm as yet. *Broomhall* cabled "Cables just received from Australia say the Wheat market there is excited and added shippers can offer nothing." Northwest cars were 239 larger than a year ago, and primary receipts 239,000 bu greater. Duluth wired stocks would increase 1,000,000 bu this week and Minneapolis expected to increase 200,000 bu. Duluth reported the receipt of 41 cars from Oregon. Minneapolis inspection: 71 cars were No. 1 Northern, 80 cars No. 2 Northern, 79 cars No. 3 Northern, 79 cars No 4 Northern, 81 cars Rejected, 35 cars No Grade, 2 cars Macaroni, 11 cars Mixed, and 74 cars Winter. Winnipeg had 165 cars, against 2-3 cars one year ago; 4 cars No. 1 Hard, 18 cars were No 1 Northern, 44 cars No. 2 Northern, 23 cars No. 3 Northern, 8 cars No. 4, 6 cars feed, 6 cars Rejected, and 53 cars No Grade. Kansas City wired the rains were fine for seeding and growing Wheat. *Modern Miller* "bullish" on movement and "bearish" on plowing and seeding. Kansas City advices as to the prospective movement were quite "bullish" and helped bring about the recovery in prices Receipts at Kansas City and St Louis were 2 7.0 0 bu, against 278,000 bu last year. Clearings for the week were small at 1,182,000 bu, and total since January 1 18,197,000 bu, against 40,364,000 bu one year ago Seaboard reported 5 loads Receipts at Duluth 283 cars and at Minneapolis 655 cars, a total of 938 cars, against 796 cars yesterday, 911 cars a week ago, and 703 cars last year. Local receipts included 23 cars Winter, 9 cars Spring and 16 cars mixed, a total of 48 cars, against 43 cars last year. Included in the above was none of contract grade. There were 17 cars and no bu taken from unlicensed elevators The estimated receipts for to morrow are 68 cars. Withdrawals were 10,000 bu. The receipts at Western points were 1,351,928 bu, against 1,113,246 last year. At Eastern points 22,409 bu, against 156 319 last year. Shipments from Western points were 441 824 bu, against 807,752 last year, and from Eastern points 4,546 bu, against 13,400 bu last year. Shipments of Flour were 23,930 brls. Exports of Wheat in Flour were equal to 111,131 bu

CORN—Just a fair trade, with sentiment quite divided, the close showing December 1-16c lower and May unchanged. Early tone was weak on large Argentine shipments, lower cables and fairly favorable weather. "Longs" sold May, one large local line being liquidated, while commission houses sold the December. Floor traders and professionals were the best buyers and later on the market developed a steadier tone. Country offerings were smaller and receipts 152 cars, making 13,578 cars this month, against 14,533 cars last September. For to-morrow 153 cars are estimated. Argentina shipped 3,216,000 bu making 63 757,000 bu since Jan. 1, against 55,345,000 bu one year ago. The visible was larger at 5,475 000 bu, against 4,882,000 bu one week ago and 3 856,000 bu one year ago. Argentine markets cabled as dull, with the foreign demand slow. Arrivals at ports large and condition giving satisfaction. Map showed general rains in Nebraska and local rains in Kansas. Showers were predicted for Missouri and Nebraska, generally fair weather for Illinois and Kansas. Omaha wired, "The last four days have been fine, but it is now cool and raining this morning." Rumor that the Missouri State report was out was officially denied. Southwestern markets were firm and part of the late buying orders were credited to that section. Western receipts 319,000 bu; last year 626,000 bu. Shipments 376,000 bu and 621,000 bu respectively. Local arrivals 160,000 bu; shipments 312,000 bu Withdrawals here 336,000 bu. Exports for the week 700 000 bu, and since July 1 7,482,000 bu, against 12,717,000 bu one year ago. Seaboard reported no loads accepted. Shipping demand here moderate and sales small Car lots in good demand and prices steady. No. 2 closed about 52¾c. No. 2 Yellow closed at 51¾c No. 3 closed at 52½c. No. 3 Yellow sold at 55¼c and closed at 54½c. No. 4 sold at 53½@55c, outside for yellow.

Corn by sample—Offerings were small and demand fair. Feeling steady and prices without material change. Sales on track and free on board: No Grade sold at 48@51¼c No. 4 at 50½@55c. No 3 at 53@54½c. No 3 Yellow at 55@55½c No 3 White at 53c Billed through: No Grade at 49c. No. 4 at 51@53c. No. 3 at 52½@53½c. No 3 Yellow at 53½@54c.

Future Deliveries of No. 2 Corn—Fairly active and rather irregular, closing 1¾c lower for September, while other deliveries were little changed.

SEPTEMBER—Sold at 51¾@53¼c. Opened at 53¼c and sold at 53c, to 53⅛c, to 52¾c, to 52⅞c, to 52½c, to 52¼c, off to 51⅝c, to 52¼c, to 51¾c, and closed at 51¾c.

DECEMBER—Sold at 50½@51¼c. Opened at 50⅞c to 50⅝c, and sold at 50¾c, to 51⅛c, to 50⅝c to 50½c, to 51⅛c, to 51c, to 51¼c, to 50¾c, to 50¾@50⅞c, and closed at 50¾@50⅞c bid.

JANUARY—Sold at 48⅝c.

MAY—Sold at 48½@48⅝c and 49¼c Opened at 48⅞c to 48⅝@48¾c, sold at 48¾@48⅞c, to 48⅝c, to 48¾c, to 48½@48⅝c, to 49¼c, to 48⅞c, to 48⅞@49c, and closed at 48⅞@49c bid.

JULY—Sold at 48⅝@48¾c and 49c. Opened at 48¾c and sold at 48⅝@48¾c, to 49c, to 48⅞c, and closed at 48⅞c.

OATS—Were weaker and closed ⅜c lower for September and practically unchanged for other months "Shorts" were the best buyers and scattering "longs" and hedgers sold moderately. Arrivals were small at Chicago—128 cars—with 148 cars expected to-morrow Minneapolis had 161 cars and there were 408 000 bu at Duluth. Country offerings are decreasing Cash sales were 40,000 bu Withdrawals were 93 825 bu. Seaboard clearances, 76,000 bu Car lots to go to store were steady to ½c higher. No. 4 at 29½c. No. 4 White sold at 30c. No. 3 White at 31½@32c Standard closed at 29⅝c

Oats by sample were in lighter supply and better demand Prices steady to ¼c higher. Sales on track and free on board No 4 White at 29½@31c. No. 3 at 30½@30¾c. No. 3 White at 30½@32c Standard at 32@32¼c No. 2 at 30¾@31c No 2 White at 32½@32¾c. Billed through. No. 4 White 27c. No 3 White at 30@31¾c. Standard at 31¼@31¾c. At the river, No 4 White at 28@29½c No. 3 White at 28¾@30½c Standard at 30@31¼c.

Future Deliveries of Contract Oats—Were rather slow within a narrow range.

SEPTEMBER—Sold at 29⅝c and at 29¾@29⅞c Opened at 29¾c, sold to 29¾@29⅞c, to 29⅝c at close.

DECEMBER—Sold at 30½@30¾c. Opened at 30½c, sold to 30¾c, to 30⅝c at close.

MAY—Moderate trading. Sold at 32¾@33⅛c. Opened at 32¾c to 32⅞c, sold to 33⅛c, to 32⅞@33c at close.

RYE—Was quiet for futures, with a good cash demand for fresh arrivals on milling and distilling account. Prices unchanged Only three cars were received and four cars withdrawn from private warehouse. No export clearances from the seaboard. No. 2 in store nominally 75c and fresh arrivals free on board sold at 77½@79½c—depending on quality—outside choice. No 3 sold at 76¾c.

Future Deliveries of No. 2 Rye—Quiet. September 77c asked. December 77c asked and 76½c bid. May 79c bid

BARLEY—It was different in the market today from what it has been the previous days of the week. There was a marked decrease in the offerings. Receivers did not have to urge their goods, but could be a little more independent. There was a steadier feeling The low grades did not have to be sold down to late inside prices. In some cases the sales would reflect a slight reaction in prices, but the change was mainly in malting Barley, which has been selling at lowest prices. Other grades not materially changed. Demand was not urgent at all, rather indifferent in fact. Most buyers have secured a good deal lately Some call for to arrive Barley, but only for very choice or the cheap kind, not for medium grades. Feed Barley quiet: demand and offerings both small. Screenings were quoted as dull Posted inspected in 96 cars Market for Screenings quotable at 18@37½c for poor dirty to choice. Low-grade or feed Barley quiet at 35@37c. Low-grade malting, thin, or better weight, but stained or dirty, sold mainly at 38@39c Fair to good ranged at 40@43c, high-grade to choice quotable at 46@49c, and fancy nominally up to 50@51c.

SEEDS—Less was done in Timothy Seed and all other lines, as they have been of late, were very quiet. A shade easier market for contract grade Clover was quoted and there was some reaction from late advance in the case of Flax Seed

Timothy—Nothing developed that was of the least interest. There were no changes in prices noted. Cash Seed was in smaller supply than for some time. At former prices it was salable; nothing urgent, however, to the demand Futures were neglected For these former prices were obtainable Country lots quotable at $2 30@2 40 for fair to good; high-grade Seed at $2 45@2 50; choice to fancy nominally $2 55@2 65; poor Seed quotably down to $1 85@2 25; inferior lower. September and October deliveries were quotably $2 70 bid. January was nominally $2 80. March sold at $2 85 and that bid, with $2 90 finally asked

Flax—Influenced by quotations from the Northwest over a lower range of prices, the market here was weaker with 1@1½c decline A sale of No 1 Northwestern cash Seed was made at $1 17½. For No. 1 bids were reduced to $1 10½ and Rejected, depending on quality, was nominally $1 07@1 15. September $1 10½ bid. The only future delivery trading was in December, which sold at $1 13 Local receipts 1 cars or 3,600 bu Output 1 car, or 506 bu, by rail, and 27,536 bu by lake: total, 28,042 bu. Minneapolis receipts were 63 cars and Duluth got 35 cars.

Clover Quoted a shade weaker on the contract grade. Advices from outside were of a weaker tone No transactions reported. October delivery was quoted at $12 15. Contract spot Seed at the same Country lots, common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 50.

Other Seeds Millets, common or German, quotable at 75@90c for common to choice, and Mustard also about 75@90c.

HOG PRODUCTS—Only a fair business was transacted in Hog Products, and a comparatively easy feeling prevailed. Offerings were not very free, and the demand was fair Outside orders were moderate, and local trading was fairly active. Prices were somewhat irregular, with comparatively slight changes—inclining in favor of buyers, excepting for Lard "Shorts" bought moderately of some articles. Deferred deliveries rather steady. Foreign markets were rather quiet for Meats, and Backs were quoted 6d lower. Lard was firmer, and prices quoted 6d higher Domestic markets steady Receipts of Hogs were light, and prices slightly higher. Receipts at the leading Western packing points were estimated at 33,000 compared with 44,700 one year ago. Receipts of Products were rather liberal—of Lard and Meats about 35 cars. Shipments were small of Lard and Meats about 80 cars. Demand on shipping account was fairly active, and offerings were moderate Sales were fair, with little change to note in prices. Trading chiefly on domestic account

Mess Pork—Trading was fair in the market for Mess Pork, and the feeling was rather easy, especially for the near deliveries. Offerings were fair, and the demand was moderately active. October and December deliveries were 5@10c lower, while January was 2½@5c higher. Market closed rather steady. Shipping demand was light, and offerings were moderate. Cash lots quotable at $11 45@11 50

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Sept. 26.]

In most of the important Corn-growing regions the past week has been favorable for progress in bringing to maturity such portion of the crop as needed such conditions of weather, so that the basis for calculations as to the ultimate results has been fully maintained or strengthened. As yet there has been but little injury to the crop outside or very limited areas from frosts. In some localities recent rains have therefore been encouraged some apprehension of unfavorable influence on the Grain where the stalks have been prostrated by winds and rains, but such will necessarily be considerable of soft Corn from this crop. There was last year, and the present situation does not seem to make it probable that the proportion of soft Corn will be greater than last year. It may prove to be less.

The wide range in estimates of the yield of Corn has more or less unsettled trading men as to expectations concerning the Grain. The estimates as low as 1,900,000,000 bu from sources assuming to be entitled to consideration, and others ranging up to 2,500,000,000 bu, the latter very well puts and perhaps be justified in accepting a medium quantity, say 2,200,000,000 bu to 2,300,000,000 bu, as a fair representation of indications. The September data of the Government, with the allowance of 2 per cent loss from the reported area planted, as compared with last year's data from the same sources, imply 7 per cent better promise than a year ago, which means 2,000,000,000 bu. It does not follow, however, that the final official calculations will be equal to this, but the present situation makes this quite within range. It may well pass as the relative size of the crop, as compared with last year's returns.

Turning to the question of prices of Corn the past year, the monthly average for ten months, November to August inclusive, has been as follows, for No. 2 cash Corn at Chicago, per bushel:

November	41⅞@42⅜	April	46 @46⅝
December	41 @43⅜	May	47⅛@48
January	42⅝@47⅝	June	47⅝@50⅛
February	46 @47⅝	July	48⅞@51⅜
March	49 @56½	August	51⅛@53⅝

The average of the low prices here quoted is 46c and of the high prices 52c, making a general average of 49c for these ranges.

This year's Hay crop is decidedly larger than last year's and the Oats crop is also much larger, which are factors liable to have an influence on the Corn market. Against these elements which may count for the easy side of values is the fact that the foreign markets are less favorably situated than a year with reference to resources for feeding material. While it may seem reasonable to expect prices of Corn in our markets to rule lower than now with the advance of the season, there is little likelihood of what may be called low prices.

Some later estimates in regard to the Wheat crop of the Northwest have been suggested the past week, which do not appear to invite a lowering of the previous calculations in regard to the probable outcome of this portion of the Wheat crop. The situation may be considered with confidence as pointing to approximately 540,000,000 bu for the entire crop. The forthcoming Government report for October will offer the yield per acre by States and general average for Spring Wheat. The August report gave 12·3 bu as the average per acre for Winter Wheat. On this basis this portion of the crop should be about 335,000,000 bu. If the Spring Wheat portion should prove to be equal to 215,000,000 bu, which is within possibility, these quantities would represent a total of 550,000,000 bu for the entire crop.

The Paris *Bulletin des Halles* estimate of the world's exportable Wheat the current year from all exporting countries indicates a total of 56,425,000 quarters, or 451,400,000 bu, and the total amount of importing countries as 63,060,000 quarters, or 504,500,000 bu. This represents an estimated deficiency of 53,600,000 bu. This means only 89 per cent of the world's crop. And even this may be wiped out of the comparison by the later records of the year's production. In any event, the world's "deficiency," from present indications, is by no such as to imply any particular pinch in Wheat supplies for the current year. The possibilities appear to be that various values for Wheat in the world's markets will look high before the season has progressed many months.

THE AUSTRALIAN WHEAT CROP.

[Special Correspondence of Dornbusch, Sept. 19.]

SYDNEY, Aug. 16.—Climatic conditions over the principal Wheat growing areas of Australia are all that could be desired. The recent rainfall has been further supplemented by light showers, which are exercising a beneficial effect upon the Spring crops. Everything points to a Commonwealth yield of fully 75,000,000 bu, which would leave about 45,000,000 bu available for export. There is, however, the usual danger of scorching hot winds prior to harvesting, and as the present season is a late one, we will necessarily be a greater liability of damage from the same mentioned than usual. Up to the present the Commonwealth exports total close upon 31,000,000 bu. It is estimated that there remains not less than 9,000,000 bu of Wheat fit for export. The Sydney market has touched 3s 4d per bushel to-day, which is the highest point reached this season, although similar prices were paid in February last. The steamer Indralema is loading 7,000 tons of Wheat at Sydney, which is the largest cargo ever shipped from Australia in one line. Very extensive purchases of Wheat have been made during the past week and the present month will witness a large increase in exports.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Sept. 28.]

The attached table shows the output of Flour and approximate consumption of Wheat in Minneapolis and Duluth together with that of all "outside mills" with a daily capacity of 31,000 bbls from Jan 1, 1904, to Sept. 17, '04, with comparisons:

	1904.		1903.	
	Flour, bbls.	Wheat, bu.	Flour, bbls.	Wheat, bu.
Minneapolis	9,259,145	41,534,000	9,402,635	48,210,000
Duluth	856,585	4,50 ,000	702,685	3,102,000
41 outside mills				
	4,684,085	21,082,000	4,799,325	21,597,000
Totals	14,470,815	65,118,000	14,904,645	72,909,000

These figures represent the approximate consumption of 7,948,000 bu less Wheat this year than in 1903. There has occurred from the mills of Minneapolis and Duluth as well as from the outside mills turning out 1,763,740 brls less Flour than in 1903.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Sept. 29.]

There is a continuance of moderate supplies of Hogs in the prominent markets. Total Western packing 360,000 Hogs, compared with 310,000 the preceding week and 365,000 two weeks ago. For the corresponding time last year the number was 270,000 and two years ago 300,000. From March 1 total is 11,350,000, against 11,440,000 a year ago, a decrease of 90,000. The quality is irregular, from poor to fair, and in some markets indicating a good average. Prices at the close are but moderately at variance with the previous record, indicating an average of about $5·95 per 100 lbs for prominent markets, compared with $5·90 a week ago, $5·75 two weeks ago, $5·95 a year ago, $7·05 two years ago, and $6·80 three years ago.

The speculative Provision market was fairly active the past week, and prices for the leading articles at Chicago ruled higher. The strength in the foreign markets and the moderate offerings of Hogs with well maintained prices for the features of strength in the Provision trade. With the settlement of the strike a more liberal movement of Hogs to the packers may reasonably have been expected, but as the movement does not increase materially and as the consumptive demand is good with foreign markets firm, shipments are of good volume, and stocks are believed to be decreasing, the situation in Provisions seems to justify a maintenance of prices. The export clearances of Products were fairly large and exceeded over the preceding week and a gain over the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding week last year:

	Past week.	Last year.
Pork, pounds	484,000	598,000
Bacon, pounds	2,690,000	12,324,000

The forecast for 36 hours: Minnesota—Fair; frost to-night. North and South Dakota—Generally fair. Iowa—Cloudy; cooler. Missouri, Nebraska and Kansas—Mostly fair; cooler. Lower Lakes—Fair; cooler in some portions. Illinois—Fair except showers in extreme south. Indiana—Fair; cooler.

ITEMS OF GENERAL INTEREST.

The Indianapolis Beat Wood Works, Indianapolis, was burned, Tuesday, with a loss of $60,000

The Buckeye Cotton Gin Company, Olean, N. Y., was destroyed by fire, Tuesday. Loss, $10,000.

Fire in Wiconisco, Pa., Tuesday, destroyed the hosiery mill of W. H. Sheaffer and twelve other buildings. Loss, $50,000.

A Winnipeg dispatch, Thursday, said: "No export or Eastern business in Wheat. Showers delayed threshing and made considerable No Grade and tough."

Directors of the Great Western Cereal Company have declared the regular quarterly dividend of 2 per cent on the preferred stock, payable Oct. 1. Books close Sept. 20, 1904, at noon.

According to the *Bulletin de la Societe des Agriculteurs de France*, the more threshings proceed the greater is the disappointment in the yield of Wheat in the North, and it is believed that the outturn of Wheat will prove to be not more than 100,000,000 hectolitres (276,000,000 to 303,000,000 bu).

A Boston dispatch says: "The Southern Cotton Growers' Association adopted resolutions, yesterday, urging Cotton growers to withhold from the market all Cotton of inferior grades until 10c a pound could be had for it. A corresponding call by bankers, growers and business men of the South is also to be formed to prevent glutting of the market."

The Chicago Southern Railway Company, principal offices in Chicago, capital stock $ 00,000, was incorporated Tuesday. It is to be constructed from Chicago in a southeasterly direction through the counties of Will, Cook, Kankakee, Iroquois, Vermillion and Edgar to Paris, Ill., with a branch from a point in Vermillion County, Illinois, southwesterly to East St. Louis, and with another from a point in Shelby County to Salem, Ill.

The treasurer of the E. I. du Pont de Nemours Powder Company has issued to the stockholders of the Eastern Dynamite Company a circular, dated Aug. 17, 1904, offering for each share of their stock $230·87 preferred and $43·64 common stock of the E. I. du Pont de Nemours Powder Company and $65·52 in cash. The du Pont Company has purchased the Chattanooga Powder Company, whose mills are at Cottewah, Tenn., for a sum said to be more than $1,000,000.

Heavy rains have delayed the maturity of the Corn crop in Central and Southern Illinois, according to the weekly crop report of the weather bureau, but the whole Corn crop in the northern part of the State is practically out of danger from frost. In Northern Illinois the Apple crop is good, but it is exceptionally poor in the other portions of the State. There is a good crop of Peaches and Grapes. Potatoes are being dug and the crop is a good one. Pastures are excellent and Stock is in good condition, even though the high price of Corn prevents its feeding to Cattle.

The Buda Pesth *Pester Lloyd* of Sept. 17 says: "The Flour mill men continued quiet during the week. Only small transactions amounting to not more than about half the week's capacity chiefly in late positions. Consumers continue to cover their wants from second hands. An encouraging feature is the sale of considerable parcels to Germany, but whether these exports will continue steadily or not depends entirely upon American advices. Stocks have increased somewhat. Speculative buyers have withdrawn their full prices in view of the increasing output."

The reports from Odessa, Montreal, and other Canadian points to the effect that the United States Steel Corporation is a good buyer of Pig Iron, United Steel plant some place across the border, and that it now has a score of experts looking up available property for its purposes, seem to be somewhat exaggerated. Officials of the Steel Corporation say that it is true that some of the individual directors have looked up data and made inquiry in an informal way regarding such a possibility of a Canadian plant, but that nothing definite has been taken by the board of directors regarding the matter.

The *Times of India*, Sept. 3, says: "The unsatisfactory state of food Grains shows no improvement, but, on the other hand, the position is daily becoming more serious. The scarcity of the rains, combined with that dreaded enemy the locust, is making progress to the outlook darker. The only ordinary course of events agriculturists should soon be turning to their autumn sowings, but at present the outlook for a Rabi crop is anything but encouraging. At the same time it is as yet too early to take too pessimistic a view, as good rains within the next week would considerably improve the state of affairs."

According to a report recently issued by the Roumanian Ministry of Domains, the Corn crop in the districts of Tulcha, Buzeo, Covurlui, Gorj, and Braila has been practically destroyed by the summer drouth, with the exception of the communes in the last-named district. Elsewhere the destruction has been more or less partial owing to the beneficial effects of the rainfall in June, the Suczawa district alone the outlook is favorable. The Bulgarian harvesters, who repair in large numbers to Roumania every autumn, have not returned home. Exportation of Corn has also been suspended since the 9th inst in virtue of a Ministerial decree.

According to the Portland *Oregonian*, over half of the Wheat crop of Umatilla County has been sold, the average price since the beginning of the season being between 67c and 68c a bushel. Most of the buying has been done on the field, the purchasers paying for the Grain and taking the risk of storing the Grain a small margin less than the market price is paid. The system has been in operation for the past two or three weeks, and it is estimated that over 2,000,000 bu of Wheat have been bought in that manner. So far no complaints have been heard concerning any of the Wheat deals that are made. Up to the present time, scarcely more than 1,000,000 bu of the crop have been brought in the city offices. For that reason, it was not generally known that much of the Umatilla Wheat was moving.

The *Mark Lane Express* of Sept. 19 says: "Since Thursday morning anti-cyclonic conditions of weather have prevailed over Northwestern Europe, including the United Kingdom. Farmers have been glad of a drier time for ingathering, and they will help their own position this autumn by a policy of some reserve. The undoubted great quantity of Wheat in position of England will add to the demand for good English, to which the American comes next in flavor. The Wheat of Argentina and India, though excellent in strength, is comparatively dear. Russian Wheat, which, after America, sends us the Wheat most favored by the average miller, is reputed to have a crop some 40,000,000 bu smaller than the very big yield of 1903, on which account it has also been making such large drafts since February."

The Indianapolis correspondent of the *Northwestern Miller*, writing under date of Sept. 26, says: "Reports from the best sections of the Ohio Valley are to the effect that there will be a good crop of fine quality Corn. A certain amount of the Indiana Corn crop which was lowered by the recent rains will yet make a large crop and the rains previously expected, owing to a certain portion of it touching the ground. This condition is of no material consequence as the general crop, as it covers so small an area, has been repaired, however, by the speculators for effect. There is not the slightest doubt that the Ohio Valley generally will have an average Corn crop in spite of frosts and other calamities that are supposed to have visited the Central States. The result of the recent cyclone in Indiana has kept the farmers from sowing the Wheat broadcast in rows, as the furrows are blocked by fallen and bent Corn stalks. From this has not visited the Ohio Valley this season. The farmers are now enjoying warm weather, and a few days more of it will see the Corn crop safe from frost."

The Buenos Ayres *Standard* of Aug. 22 said: "Advices from Santa Fe assert the crops are most favorable. The rains came at the right time, and everything looks most promising. If there are any drawbacks the harvest will be a record one. The acreage of Wheat will be large and crops are in good prices. The demand for Wheat from Europe and North America is now keenly felt, and the result is that the Argentine Republic is the gainer. Corn from the Argentine Republic bears a favorable comparison with the Wheat of any other country on earth. So the end of the season promises to be very good indeed. Oats were in much demand and a good yield next season will see a much larger crop than ever before; they will be very plentiful in a few years' time, as it is one of the best foodstuffs known to date. Corn is a very good crop, as it can be raised on any kind of land and at such small expense that the crop rents alone can injure it. Anyone with a piece of low bad camp can get a splendid crop at such a modest outlay that no matter how low the price be is bound to make money. Flax Seed is very much in demand and how low it is so low in price in view of its great scarcity."

The Chicago *Inter Ocean* says: "Visitors of the shares of the several railroads on the local Stock Exchange, Wednesday, on orders that were said to have their origin in New York City, was taken by many of the people doing business on La Salle Street as evidence that the talked of combination of the elevated railroads was considerably advanced. According to the deductions drawn by many of the brokers the Metropolitan, Northwestern, and Oak Park Elevated roads would figure in the combination, while the acquisition of the South Side line would be reserved for a more favorable opportunity. Such improvement plans were carried out and the effect of the big bond issue was better known. It has been known for a long time that the agreement existing between Blair & Co. in Chicago is the combination of the elevated roads into one system. When it is completed it will probably be put into the surface line company, in which Blair and his associates have taken an advantage of the low prices and fairly heavy selling of the stock of the Metropolitan Elevated Railroads for months to accumulate a large line of the shares. While no director of it this has appeared, there are many reasons for thinking that it has been done."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—A fair demand reported and market is firm, as quoted on the second page. Liverpool stocks 66,000 brls, decreased 2,000 brls last month.

WINTER WHEAT—Was steady. Demand moderate and choice Wheat sold well, and poor Wheat dull No. 2 Red in store ranged at $1 12¾@1 13¾ and fresh arrivals free on board at $1 17@1 18. No. 3 Red fresh arrivals free on board sold at $1 14½@1 15. No. 4 Red fresh receipts sold at $1 08@1 12 and No Grade Red at $1 13½. No. 2 Hard fresh receipts free on board nominally $1 12@1 15. No 3 Hard fresh arrivals free on board quotably $1 08@1 13, and sold at the river at $1 07@1 08. No. 4 Hard at the river sold at 96½c@$1 03.

SPRING WHEAT—Offerings small and demand moderate. Market firmer for choice Wheat. Most of the offerings consisted of poor light weight Wheat, which was very dull. No. 1 Northern fresh arrivals free on board quotably $1 20@1 22 and No. 2 Northern fresh arrivals nominally $1 16@1 18. No. 3 Spring nominally $1 05@1 15 for poor to very choice. No. 4 sold at 70@75c for poor, to $1 05¾ for good, with sales at the river at $1 05@1 06.

REGULAR WHEAT A more moderate trade was reported, and the close showed December ¼c higher, with May unchanged. October closed 1⅛c higher. Market started out somewhat weaker, influenced by the clear weather in the Northwest, large receipts, liberal addition to the Liverpool stocks of 568,000 bu and heavy Australian shipments, 968,000 bu. Selling was quite general for a time, but at the decline "shorts" covered The buying of December by Northwest houses was a feature and helped bring about the recovery. Liverpool quoted spot unchanged and futures steady to ⅛d lower. London was up ¼d. Paris and Antwerp unchanged. *Broomhall* estimated the world's shipments at 9,600 000 bu and predicted a further decrease on ocean passage. Arrivals in the United Kingdom this week estimated at 4,000,000 bu, against 3,700 000 bu last week and 4,700 000 bu one year ago. English farmers' deliveries were 448,000 bu at 90¼c, against 424,000 bu last week at 90¼c, and 456,000 bu one year ago at 79½c. Local weekly receipts 812,000 bu and shipments 576,000 bu. Primary receipts this week 8,144,000 bu, against 7,130,000 bu last week and 7,215,000 bu last year. Receipts in the Northwest 5,766 cars, compared with 4,723 cars last week and 4,816 cars in 1903. The English visible increased 234,000 bu, against an increase of 1,431,000 bu same week in 1903. *Broomhall* cabled that reports of a very poor crop in Portugal were confirmed, and that it will probably be necessary to import 4,000 000 bu. Baltimore reported the sale of 50,000 bu cash at the highest price on the crop, with bids there for 60,000 bu more. Winnipeg had 250 cars, against 257 cars last year. Included in the same were 7 cars No. 1 Hard and 35 cars No. 1 Northern. Ten cargoes were off the English coast awaiting sale, against two cargoes yesterday. Kansas City and St. Louis receipts were 231,000 bu, against 321,000 bu one year ago. Kansas City expects 164 cars Monday. Clearings small, and 7 boat loads accepted at seaboard. A large Continental Grain house claimed the Russian Wheat crop was estimated at 412,000,000 bu to 472,000,000 bu, against 511,700,000 bu last year A late feature was the narrowing of the December-May spread to ⅝c. A local elevator concern sold about 1,000,000 bu May near the close, 500,000 bu being taken in one lot by a large professional operator. Duluth advices on movement, grading and Eastern cash demand were quite "bearish." Receipts at Duluth 499 cars and at Minneapolis 510 cars, total of 1,009 cars, against 938 cars yesterday, 723 cars a week ago, and 633 cars last year. Local receipts included 73 cars Winter, 6 cars Spring and 12 cars mixed, a total of 91 cars, against 38 cars last year. Included in the above was 36 cars contract grade. There were 13 cars and no bu taken from unlicensed elevators The estimated receipts for Monday are 40 cars. Withdrawals were 51,000 bu The receipts at Western points were 1,064,705 bu, against 1,141,705 last year. At Eastern points 14 317 bu, against 241 935 last year Shipments from Western points were 704,546 bu, against 827,816 last year, and from Eastern points 1,650 bu, against 59,016 bu last year. Shipments of Flour were 18,467 brls. Exports of Wheat in Flour were equal to 84,951 bu.

Future Deliveries of Regular Wheat—Moderate trade and market steady.

OCTOBER—Sold at $1 10⅝@1 11⅝ Opened at $1 10⅝, sold to $1 11½, and closed at $1 11½.

DECEMBER—Sold at $1 11⅞@1 13¼. Opened with sales at $1 12½ to $1 12¼; sold to $1 11⅞, to $1 12, to $1 12⅞, to $1 12½, to $1 13, to $1 12⅞, and closed at $1 12⅞ bid.

MAY—Sold at $1 12¾@1 13¾ Opened with sales at $1 13 to $1 13¼; sold to $1 12¾, to $1 13⅛, to $1 13½, to $1 13¼, to $1 13⅝, to $1 13¼, to $1 13⅜, to $1 13½, and closed at $1 13⅜@1 13½ sellers.

CORN—Just a fair trade, with undertone rather firmer, closing prices being ⅛c to ¼@⅜c higher. The start was easy with Wheat and on "bearish" private crop report, but the offerings, which were not heavy, were quite readily taken by "shorts." Floor traders, too, favored the buying side and market assumed a better tone. The market was indirectly helped by reports of soft Corn in Iowa. The map showed heavy rains in Missouri, Nebraska and Kansas and light in Iowa, but fair weather was generally indicated Liverpool was ⅛d lower for spot and ⅛d higher for futures. Stock there last month increased 806,000 bu and are now 1,252,900 bu, against 801 000 bu last year. Receipts were 140 cars against 390 cars a year ago, and 177 cars are estimated Monday Local weekly receipts were 1 603,000 bu, and shipments 2 311,000 bu Primary receipts 2 614 000 bu, against 3,727,000 bu last week and 4,565,000 bu same time a year ago. *Broomhall* estimated that Portugal would require 1,600,000 bu foreign Corn this season. Southwestern markets were steady Withdrawals here 222,000 bu and exports 79 000 bu. Shipping demand moderate; sales 165,000 bu Car lots were in good demand and prices were firm Sales practically all by sample. No. 2 closed about 52¾c and No. 2 Yellow at 51¾c No. 3 closed at 52½c and No. 3 Yellow at 54½c. No. 4 sold at 51½@55c, outside for yellow.

Corn by sample—Offerings were small and demand only fair. Feeling steady and prices without essential change. Sales on track and free on board: No Grade sold at 51c. No. 4 at 52¼@55c. No 3 at 54@54½c. No 3 Yellow at 55½c Billed through: No Grade at 50c No. 4 at 51@53¾c. No. 3 Yellow at 54@54½c. No. 3 White at 51½c.

Future Deliveries of No. 2 Corn—Moderately active and firmer, and closed ⅛c to ¼@⅜c higher.

OCTOBER Sold at 51¾@52c. Opened at 51¾c, and sold at 52c, and closed at 52c.

DECEMBER—Sold at 50⅝@51⅛c. Opened at 50⅝c, and sold at 50⅝c, to 51⅛c, to 51c, to 51@51⅛c, and closed at 51@51⅛c bid

MAY—Sold at 48¾@49¼c Opened at 49c to 48⅞c, and sold at 48¾@48⅞c, to 48¾c, to 49c, to 48⅞c, to 49¼c to 49⅛c to 49¼c, to 49@49⅛c, to 49¼c, and closed at 49¼c asked.

JULY—Sold at 48¾@49c. Opened at 48¾c, and sold at 49c, to 48¾c, to 49c, and closed at 49c.

OATS—Were stronger and closed ⅜c higher. A feature was the reduced offerings and better buying by speculators and by cash houses, the latter suggesting cash business Sales here for shipment were 85 000 bu and 80 000 bu at New York. Seaboard clearances were 82,000 bu; charters, 100,000 bu Arrivals were 130 cars, with 147 cars expected Monday. Withdrawals, 80,901 bu Car lots to go to store were steady to ¼c higher No 3 White sold at 30¾c. Standard in store closed 30½c

Oats by sample were in better request with supplies lighter and prices steady to ¼c higher Sales on track and free on board No Grade at 26@30¼c No 4 White at 30¾@32¼c. No. 3 White at 31¼@32¾c. Standard at 32@32½c. No. 2 at 30½@31c No 2 White at 33c Billed through: No. 4 White at 30½c. No 3 White at 31¼@32¼c. Standard at 31½c. No. 2 at 30c. At the river: No. 4 White at 28½@29¼c. No. 3 White at 29¼@30c.

Future Deliveries of Contract Oats Were stronger and higher

OCTOBER—Sold at 29⅜@30½c. Opened at 29⅜c, sold to 30½c and closed there.

DECEMBER—Sold at 30½@30⅝c and at 31@31⅛c. Opened at 30⅝c, sold to 30½@30⅝c, to 31@31⅛c, to 30⅞@31c at close.

MAY—Fair trading Sold at 32⅞c and at 33¼@33⅜c. Opened at 33c, sold at 32⅞c, to 33¼@33⅜c, to 33¼c at close.

RYE The feeling was firm and prices slightly better, say about ½c higher. Demand fair and offerings small. A few cars of choice Rye were taken by local manufacturers and brought highest prices paid for some time. There were seven cars received and two cars were withdrawn from private warehouse. No exports from New York. No. 2 in store nominally 75c, and a choice car fresh arrivals free on board sold at 80c. No. 3 fresh receipts free on board sold at 77@78c.

Future Deliveries of No. 2 Rye—Firm Some demand and offerings light. October nominally 75c, December sold at 77c, and closed with 77¼c bid and 77½c asked. May 80c bid.

BARLEY—Was steady. Rather more Barley was offered. Buyers responded very fairly. Prices have have got down to a level where Barley seems to be wanted. Holders were firm; in a few instances they said they had scored a little better. As a rule the market was called steady and unchanged Buyers were averse to paying any more. It was expected that the opening of next week would witness good offerings. Supply was mainly of low grade to good malting, a few choice cars on sale, but market about bare of fancy goods Mixing demand tame, and Screenings slow; some cars held over. Inspected in as posted to-day 57 cars. Sales of Screenings, only a few cars sold were at 26@38c for poor to very choice. Barley, low-grade or fair, but very dirty, ranged at 37@39c Clean, fair to good, at 40@43c, and choice cars at 45@47c Fancy sold at 50c, extra fancy possibly a shade over, but not on sale.

SEEDS Under a further decrease in offerings cash Timothy was a shade firmer. It was here alone that any business was done and the rest of the market which very quiet was also unchanged.

Timothy—There was a further decrease in offerings Cash market firm; some viewed it as a shade better. Nothing was done in futures and they were nominally steady and unchanged. Country lots quotable at $2 35@2 45 for fair to good, high-grade Seed at $2 50@2 55, choice to fancy nominally $2 60@2 65; poor Seed quotably down to $1 85@2 25; inferior lower. October delivery quotably $2 70 bid. January nominally $2 80 March $2 85 bid. No deliveries to-day on October contracts were learned of.

Flax—There was no Flax offered either for present or for future delivery. The market was entirely lifeless; it was nominal and quoted at prices just the same as yesterday Only 1 car or 900 bu came in and 2 cars or 3,111 bu reported taken out At Minneapolis the receipts were 52 cars; at Duluth 41 cars. No. 1 Northwestern or No 1 from the Northwest cash Seed quotable at $1 17½, No. 1 at $1 10½, and Rejected, depending on quality, was nominally $1 07@1 15 October quoted at $1 10½. December about $1 13.

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, September 30, 1904.

There is a strong tone to the money market, with a liberal demand from Grain and general business interests. Rates are firm and 4½ to 5 per cent and most of the new loans are at the outside figures. Some of the banks are talking of raising their general rate to 5 per cent in the near future. Currency is moving to the country in good volume. A good deal of money is being absorbed by investment in securities, and money that has heretofore gone to New York for profitable investment has of late been used in this way. The position of the country banks is little changed Some are ordering currency, others are buying paper here In New York there is a strong market, with rates on the Stock Exchange 1¾ to 2 per cent. Time money was 2½ to 4 per cent depending upon the length of the loan In London a firmer feeling existed due to arrangements for quarterly settlements

New York Exchange was steady at 20@25c discount per $1,000 and closed at 20c.

Foreign Exchange was in good supply and steady at 481¾@482¼ for shippers' sixty-days documentary Sterling bills on London.

In the New York Cotton market an unsettled feeling existed. Crop news was mostly unfavorable conditions deteriorating in numerous sections Picking is progressing as rapidly as the scarcity of help will permit The movement is free and is being well cared for On the advances selling for profits caused sharp reactions Closing prices were at losses of 57@62 points compared with the previous week

Local Securities were active and averaged higher A feature was the activity and advance in Metropolitan Elevated shares. They were bought on a rumor that earnings for the first half of the year are equal to 5 per cent on the $9,000,000 of preferred stock The earnings for the year ending June 30 were only 2 per cent There were also rumors that a merger of all the elevated roads was contemplated, but it is very remote. The merger of the surface traction lines is progressing favorably, the New York interests having it under consideration the past week Trading, however, in Union Traction and City Railway shares was small Of the Industrials Biscuit and Can shares were the most active and averaged slightly higher Illinois Brick had a dividend of 2 per cent on preferred but prices sold off after its declaration. The Bond market was active and averaged higher.

Stocks in New York averaged higher. There was a strong professional interest at work and many rumors affecting the various Western roads, several important mergers being intimated as under way. There were more cheerful crop reports from the West, and a good deal of buying of Western and Eastern Railway shares by Western operators. A feature was the activity and continued advance in Steel shares under heavy buying, but it reacted on realizing sales. There was large buying of Reading and all the Coal shares and a higher level made London sent more cheerful news and buying orders, and the "short" interest was a liberal buyer on hard spots. It was announced that the voting trust in Ontario and Western had been dissolved, the minority stockholders gaining their point. Rumors of a harmonious settlement of the Northern Securities was circulated, but no great credence given to it, although Northern Securities sold at higher prices. Total sales on the New York Stock Exchange for the week were 4,227,000 shares, against 3,678,000 shares the previous week, and 4,492,000 shares for the same time last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

A more cheerful feeling pervades the mercantile trade Prospects of the Corn crop have improved and there is increased disposition to buy goods in sections where the crop is practically made. Politics are not entering into business to any extent so far, and with good prices for everything that the farmers raise there is a disposition on the part of interior retailers to buy fair stocks of goods, but they show no disposition to anticipate future requirements Prices on wide Cottons were recently reduced ¼c. Raw Cotton continues to bring high prices and the outlook is not favorable for for very low figures this year. The general dry goods trade is large. Clothing and shoe houses report increased sales. Tanners are closely sold up on all kinds of leather. The buying of pig Iron was of good volume and the market firm but sales were not as large as the previous weeks. Finished materials were taken fairly, prices being more attractive Light and heavy hardware was in better request. The movement of Coal is increasing and prices on low grade steam Coals are easy. Building materials and lumber were bought more extensively. Groceries were well distributed with a steady feeling on all staples. Paints, colors, drugs and chemicals were all taken liberally and no change was made in prices. Collections were satisfactory.

COMMERCIAL.

A very fair business was transacted in commercial circles on the Chicago Board of Trade during the week just closed Speculative operations were of fair volume and the leading markets attracted considerable local, as well as outside, attention. Prices were governed to a great extent by the movement and prospective supplies, as the principal crops are now about to be, or are already, gathered. The movement abroad and trend of the foreign markets, too, were influential factors in shaping the course of values on this side Sentiment was very much divided at times and fluctuations in consequence frequent. "Bull" leaders were hardly as agressive in their operations as lately noted and liquidation by "longs" was in order on the hard spots. The forthcoming Government report will no doubt form a basis for future operations in Corn, owing to the great variance in the private estimates. The receiving branch of the trade is in a satisfactory condition, and will no doubt enlarge in the near future. Offerings of coarse Grains for forward delivery were larger, and indications are for freer receipts.

Weather conditions abroad were not altogether favorable the past week. Threshing returns from the United Kingdom show little or no improvement from former estimates. Some rain fell in in Germany and native Wheat was reported in plentiful supply Drouth was reported in Spain, while heavy rains in Roumania delayed seeding operations Good rains, however, occurred in Russia where needed. Grain supplies were reported as light. Advices from India and Argentina were favorable. Reports from Australia were less favorable, and the Wheat crop was estimated at 65 per cent of last year, when the yield was 79,530,000 bu. The French crop was officially estimated at 68,000,000 bu short of last year.

There is no particular change to note in crop conditions in the United States and Canada. Spring Wheat threshing is progressing rapidly in the Northwest, and while the yields varied greatly, the results in many instances exceeded previous indications The crop is about all under cover in Washington where the yields were large Fall plowing is well advanced and a large area is going in. In some sections of the Southwest dry weather interfered with plowing. The Corn crop is maturing rapidly and is now practically beyond danger from frost, except in the more northerly sections of the Corn belt. Estimates as to the probable yield vary from 1,900,000,000 bu to 2,400,000,000 bu It is expected the forthcoming Government report will show some little improvement over the September figures.

The movement of Grain from the farms and interior elevators were rather liberal during the past week. Railway officials in the Northwest report the demand for cars most urgent, indicating growers are marketing their crops freely. Arrivals of Wheat at terminal points were larger than a year ago at this time and the quality better than previously expected. Across the line in Manitoba the movement was liberal. Coarse Grains are coming forward freely, though the receipts of Corn were smaller than a year ago. In the Southwest the movement of Wheat fell off considerably at country stations, but is not expected to show up at distributing centers until next week. Oats are coming forward from all directions and stocks at receiving points are steadily accumulating. The movement of Grain toward seaboard were moderate. Considerable Corn is going forward lake and rail. Exports of Flour and Wheat were small and very moderate of Corn and Oats Bookings for forward shipments on the coast were meager. Large quantities of Washington and Idaho Wheat are now in transit to the East and it is estimated 3,000,000 bu will pass through Duluth from Washington and go down the lakes on boats before the close of navigation. Three thousand cars will be required to move the cereal, which will tie up that amount of rolling stock, which has never before been employed in this work, only a little of Washington Wheat ever having come East. According to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was another increase in Wheat, Corn, Oats, Rye and Barley.

A good speculative trade was witnessed in the leading markets on 'Change the past week Transactions, however, were more of a professional character than recently noted, but fluctuations at the same time frequent. Wheat was again the leader in the cereal list, ruling weak at the start under free and general liquidation, influenced by the increased movement and indifferent shipping demand Later the situation was stronger, due to the reduced estimates on the French and Austrian crop and reports of lighter marketings in the Southwest, but advance did not hold, the weakness in cash values Northwest inducing further liquidation. Corn was governed a good deal by the weather and crop estimates, and undertone was easier Oats were unsettled. Available supply increased 2,053,000 bu and is 29,436,000 bu. Stocks in Chicago in all positions are 10,177,000 bu, an increase of 251,000 bu. Rye was quiet. Hog Products were fairly active Near deliveries were rather firm and prices were higher, influenced to a great extent by the strength manifested in foreign markets, and the active consumptive demand at home. Stocks are being reduced rapidly, and holders are quite firm in their views. Deferred deliveries were not quite so strong, though changes in prices were slight. Outside orders were fair and local trading was rather active. Prices averaged higher. Hogs were in moderate supply and prices firmer. Packing of the West for the week was reported 70,000 short of last year and for the season 11,380,000, against 11,540,000 last year, a decrease of 160,000 Hogs.

A fair trade was reported in cash Grain the past week. Offerings were not as large and the demand rather good Choice Wheat sold well, millers and speculators taking the same freely Corn was in better request and sold more readily, the receipts showing some decrease. Cargoes were firmly held The demand for Oats was improved, there being a better call from the East Rye was quiet, with a fair trade in Barley. More doing in Seeds. Timothy was weak and Flax easy, also Clover. Hog Products were in more active request; in fact, the demand was brisk. Offerings were fairly large. Holders firm in their views, especially for Dry Salted Meats, and buyers accepted good quantities Prices inclined somewhat in favor of buyers Receipts of Cattle were fair and prices firmer. Sheep were marketed in fair numbers and prices well supported

FREIGHTS—The movement of Grain Eastbound by rail is light, but of Provisions larger. Eastern and Western roads are readjusting Grain rates on a more satisfactory basis for Chicago shippers. The tariff is as follows:

To—	From Chicago. Domestic.	From Chicago. Export.	From Miss. River. Domestic.	From Miss. River. Export.
Boston..........	19½	13½	24½	16
New York........	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News...	14½	11	16½	14½

Flour rates are 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 3c per bu on Wheat and Corn.

Ocean rates on Grain are steady, with a small demand for tonnage. Rates on Grain are 1d per bu from New York and 1d from Boston. Through rate on Wheat from Chicago to Liverpool is 6.27c per bu and Corn 6.15c. Flour 19c per 100 lbs and Provisions 35⅛c per 100 lbs.

Lake rates are steady, with a good demand for boats, at 1⅛c on Wheat and 1¼c on Corn to Buffalo.

FLOUR—The local Flour market is in good healthy condition, the demand being general and sales steadily enlarging. Most dealers held off buying and stocks in many cases were practically exhausted and had to be replenished. Millers in most instances were firm in their ideas and dictated prices. Bids from abroad were the best in months and several large lots just missed sale, as millers were not inclined to grant concessions. Indications are for a revival in the foreign branch of the trade and next week should witness a good business with the other side. Southwestern millers are placing a good deal of Flour in the local market and at very satisfactory prices "In all my life I have never sold as much Flour as since the first of this month," said the city salesman of a Flour concern, who also do a large export business. "The trade was practically down to its last barrel before it bought anything. Then everybody began buying at once, and wanted immediate delivery. Millers are tightening up on their prices every day. Kansas Flour is 50c per barrel higher than it was three days ago." The output in the Northwest this week was 507,000 brls, compared with 429,000 brls for the same week in 1903. *Dornbusch's* Buda Pesth correspondent writing under date of Sept 10 says: "The Flour situation has been quieter this week. The business done was for home demand only, the total quantity sold representing about half the week's production, while export trade was at a standstill. A fair quantity was, however, required for completing old contracts, and stocks have therefore been appreciably reduced. The demand in mill feedingstuffs is being met from second hands and sellers are rather easier." The week closed firm at the following prices:

MILLSTUFFS—The market has been quiet the past week. Not much demand existed and the offerings at the same time have been light Feeling a trifle easier. Bran in 100-lbs sacks, sacks included sold at $17 00@17 50 Shorts in sacks, sacks included sold at $20 00 Middlings sold at $20 25.

WINTER WHEAT—No very important changes occurred in the market during the past week. Prices did not vary particularly, although some sales were made at slightly higher figures than were paid last week, while the character of the demand was the same. Really no new features were presented. A good business was transacted but the demand perhaps was not so urgent, buyers not being so eager. Millers both local and outside have show some indifference and did not buy very freely they bought a few round lots, besides the car lots, but generally were cautious in their bids. Speculators secured a good part of the offerings, and a considerable part of the Wheat was bought for the purpose of placing in storage and was sold against for future delivery. The inquiry centered in good to choice Wheat of the various grades, especially choice, while the poor Wheat ruled dull. The stock of No. 2 Red in store was 315,000 bu, against 323,000 bu the previous week. For the week receipts were 390 cars, against 448 cars the previous week. There were withdrawn from public elevators 35,100 bu, and from private warehouses 181 cars and 41,400 bu. No. 2 Red in store ranged at $1 13½@1 16¾, to $1 11⅝@1 13½, and up to $1 14¾@1 14⅝. Fresh arrivals free on board ranged at $1 15@1 18. No. 3 Red fresh arrivals free on board sold at $1 12@1 13, and at the river at $1 08. No. 4 Red fresh arrivals free on board sold at 96c@$1 00 for common, to $1 03@1 08 for fair to good, and at $1 10@$1 12 for choice, with a sale at the river at $1 06. No Grade Red sold at 90c@$1 05. No. 2 Hard fresh arrivals free on board ranged at $1 10@1 16. No. 3 Hard fresh receipts sold free on board at $1 03@1 12½, and at the river at $1 04½@1 09. No. 4 Hard sold free on board at $1 00, and at the river at 99c@$1 01½ No. 4 White sold at $1 08.

SPRING WHEAT—Business has been of a limited character, being restricted by the small receipts. There has been a demand for all the Wheat received—all offerings were taken up readily by the different buyers, especially the choice of the hard variety, which brought a good premium Some very poor Wheat was received and that was dull and difficult to dispose of and sold at very liberal discount, as the sales would indicate, when a range of 40c between the poor and the best No. 4 Wheat existed. Millers wanted the choice Spring Wheat, especially the hard variety. The receipts for the week were 115 cars, against 130 cars the previous week. There were withdrawn from public elevators 7,700 bu and from private warehouses 16 cars No 1 Northern fresh arrivals free on board ranged during the week at $1 20@1 22, and No. 2 Northern at $1 16@1 20. No. 3 Spring fresh receipts free on board ranged at $1 05@1 16 for poor to choice, with sales of a fancy car at $1 18½. No 4 Spring sold at 07@82½c for poor, at 85c@$1 00 for common, at $1 02@1 09 for fair to good, and at $1 12@1 13 for choice.

REGULAR WHEAT—A good trade was witnessed this week, but was largely on the professional order. The feeling was very unsettled at times, with final figures showing December 1⅜c lower and May off full 1c Sentiment at the start was "bearish" and under general liquidation the market ruled weak. Stop loss orders were uncovered on the break, which was not checked until December touched $1 10¼ and May $1 11⅛. The larger receipts in the Northwest, absence of any shipping demand of consequence, and weakness on the Continent all acted as "bear" influences and brought about the liquidation. "Bear" interests became quite aggressive in their operations, but around $1 10¼ for December and $1 11½ for May "shorts" took hold freely and the market assumed a stronger undertone and advanced to $1 14½ and $1 15½ respectively. Liverpool predicted a large decrease in the quantity afloat during the next three months. and the arrivals from Russia were reported of very poor quality. Denmark as well as France was reported a buyer of cargoes off coast, and the English markets in consequence displayed a much stronger undertone. At the improvement in prices "bear" leaders sold more freely and prices again turned downward, December touching $1 10¼ and May $1 11⅛, and would have worked lower but for the buying by prominent "shorts," who took advantage of the weakness to cover. The weakness in cash values in the Northwest was one of the principal "bear" factors. The unfavorable reports from Australia were "bull" helps and caused the closing rally. A large London importer gave the following views on the recent Government report and its effect on values: "Crop experts seem generally agreed that the total crop should be 550,000,000 bu or 540,000,000 bu. Of course, there are still good authorities who take extreme views in both directions, but the public impression seems to be in favor of the lower estimates Advances in Europe are not proportionate with those in America, and prices in the last mentioned country are now about 7s per quarter above the parity on this side. In connection therewith we were struck with the extraordinary report cabled from America on Tuesday that a part of the advance was attributed to the large demand for Flour for export to Europe, one mill being mentioned as having sold its entire output up to November. How Flour milled from Wheat costing 40s plus freight can compete with Wheat at 33s on this side is something we do not understand, and can only conclude that the reporters must have been seriously misled. That trade with the Orient could and will be kept up we are quite ready to believe, and we should not be at all surprised to find that even in spite of the difference in value of the raw material some of the American millers will keep their brands before European buyers even at a loss in order not to lose their trade, but that American Flour importers can hope to compete successfully with British millers we cannot for one moment believe." *Broomhall's* weekly foreign crop summary said: "United Kingdom—The weather continues most favorable, but there is no improvement in the threshing returns Germany—Some rain has fallen. Native Wheat continues plentiful. The condition of pastures on Sept. 15 was officially estimated at 60 per cent. Potatoes were placed at 62 per cent, against 74 per cent a year ago. Spain-Denmark—Drouthy conditions prevail. Roumania—Very heavy rains have stopped seeding. Supplies of Grain are very light. Russia-Good rains have occurred, which were needed. Supplies of Grain are very light. India-Argentina—The news continues favorable. Australia—There are rumors that drouth is affecting crops, but the chief shippers cannot confirm them. Visible increased 1,193,000 bu, against 1,312,000 bu increase one year ago, and total reported at 15,203,000 bu, against 17,239,000 bu in 1902, and 24,642,000 bu in 1903. Local public stocks increased 220,000 bu, to 2,250,000 bu, compared with 2,943,000 bu same week last year. Stocks here in all positions reported 4,739,000 bu, an increase of 332,000 bu last week. Stock a year ago 7,116,000 bu. Contract stocks decreased 10,669 bu, to 315,519 bu, compared with 2,411,338 bu in 1903. *Bradstreet's* available supply increased 3,058,000 bu, compared with 7,669,000 bu increase one year ago. The Bureau of Statistics of the Department of Commerce and Labor gave out the following: "The quantity of Wheat retained for consumption—food and seed—in the United States never reached 275,000,000 bu prior to 1880. In 1881 it passed the 300,000,000 bu line and slowly increased with the population; in 1899 it was over 400,000,000 bu; in 1902 it exceeded 500,000,000 bu, and in the fiscal year ending June 30, 1904, was 517,000,000 bu—a greater total than in any preceding year." The DAILY TRADE BULLETIN reported 523,000,000 bu in July. The Government weekly weather bureau report stated the harvest of Spring Wheat was completed and threshing well advanced in the northern portion of the Spring Wheat region although delayed by rains in Minnesota and North Dakota, and the crop is nearly all stored in Washington. Three million bushels of Wheat, it was claimed, would pass through Duluth from the State of Washington and go down the lakes on boats before the close of navigation Three thousand cars will be required to move the cereal. The editor of the *Commercial Review*, Portland, Ore., who just returned from an extended trip through the Wheat districts of Oregon, Washington and Idaho, estimated the yield as follows: Oregon, 15,000,000 bu; Washington, 23,000,000 bu; Idaho, 5,000,000 bu—total, 53,000,000 bu. His estimate last year, 32,500,000 bu. Primary receipts the past week were very heavy, and total from June 27 to Sept. 26 aggregates 58,615,000 bu, compared with 64,858,000 bu in 1903 and 81,963,000 bu in 1902. Exports for the week were limited to 1,182,000 bu, making a total of 18,197,000 bu since July 1, as compared with 40,364,000 bu for the same period in 1903. Argentine shipments are larger, the clearances this week being 976,000 bu, making an aggregate of 82,293,000 bu since Jan 1, as against 58,764,000 bu one year ago. The visible supply is reported as 3,325,000 bu, against 2,800,000 bu last week and 1,512,000 bu one year ago.

CORN—A good trade and unsettled market, last trades showing gains of ⅛c for December and ¼c for the May. The situation the opening days was weak and under general liquidation, part of which was credited to the large Eastern holders, prices weakened and sold off sharply, December touching 50c and May 48⅛c. Support at the time was of the indifferent sort, the liberal offerings of new Corn to arrive in December, together with the weakness in Wheat and generally warmer weather through the Corn belt, all combined to create a "bearish" tone and considerable "long" property came out on stop orders on the decline Private crop reports were as a rule more encouraging and selling by the country indicated the danger from frost was past. The Government weekly weather report was interpreted as "bearish," stating that in the principal Corn producing States west of the Mississippi River, late Corn experienced favorable weather conditions. The crop is generally maturing rapidly, except in Northern Missouri, with no material damage from frost. In Iowa, a week of warm and dry weather is required to mature the greater part of the late planted; needs ten days in Missouri; mostly safe from frost in Kansas, and the bulk of the crop is beyond injury by frost in Nebraska. East of the Mississippi, Corn has ripened slowly on account of cool weather. In Illinois, a part of the crop is safe in the southern portion, and the bulk will be beyond danger by Oct. 10. In Indiana, much is in danger from frost, and in Ohio, while it is practically safe in the south, the staple requires one to two weeks more in the north. Frosts caused some injury in the northwestern part of the last named State and considerable damage in New England, the northern portion of the Middle Atlantic States, Upper Lake Region and Upper Mississippi Valley. A party who is in a position to be well informed and who just returned from a trip over Eastern Kansas, Oklahoma, Indian Territory, and Northern Texas, said: "I examined personally many of the fields by driving into the country above mentioned, and, in addition to this, had our various representatives cover the territory and report to me the result of their investigations. We figure that Kansas will grow 180,000,000 bu; Oklahoma and Indian Territory combined, 100,000,000 ... about 25,000,000 bu more than last year; Texas, 160,000,000 bu, or 20,000,000 bu more than last year. I found the Corn in Southern Kansas and Oklahoma contained considerable moisture, and while the Indian Territory Corn was drier, my judgment is that none of that Corn will be marketed before Nov. 1. In Texas the Corn now is dry enough to shell and handle, but all the available help is employed in picking Cotton, and this fact will delay Corn husking in Texas until November." At the decline and around 50c for December and 48⅛c for May the market found better support "Bull" leaders purchased freely and "shorts" provided for outstanding contracts The rains through important sections of the Corn belt were partly responsible for the steadier tone, the upturn in Wheat also tending to stimulate values ... more moderate receipts, liberal outward movement and strength displayed abroad also acted as "bull" factors. September delivery opened ... nominal and was later $1 12 bid and closed ... October improved from $1 11 to $1 14, ...ting finally to $1 13 sales.

...ver—The week just closed witnessed advanced prices. There was about 40c per 100 lbs improvement early in the week. It was occasioned mainly by showery weather in the Clover territory. This, it was figured, would delay threshing and delay movement, for how long no one could ... as that would depend on the lenght of a moist period. It did not seem to have had this effect for the arrivals were larger than last week and they were much larger than the same ... a year ago. The output was fair, not ... to receipts or the corresponding week last year. A few more lots came on the regular market for sale. None were good enough to bring ...side quotations, while some were very inferior, ... about tailings, and had to be sold for much ... than regular quotations. The full advance was not maintained, there following about 15c re...n. The advance, perhaps, checked orders, ... the weather also cleared. Contract spot Seed started at $12 25 from a closing at $11 85 the week before; the previous week there had been 25@35c advance, making 65@75c gain in two weeks; that was a good deal. There was a reaction to $12 15, and the market closed at $12 15. Fair to good country lots were quoted a week ago at $10 00@11 00, and the past week at $10 50@11 50. Choice to fancy was nominally higher, and some poor sold down to ...00. Nothing was done in futures and no interest was shown. Following is the aggregate weekly movement made up from the daily reports:

Receipts—The past week, lbs	316,495
A week ago	164,357
Two weeks ago	370,265
Corresponding week last year	92,390
Shipments—The past week, lbs	189,792
A week ago	58,807
Two weeks ago	76,18…
Corresponding week last year	384,480

Other Seeds—No open market business was done ...de from the sale of some Mustard. There were, however, said to have been samples of Millet, common and German, received; also possibly a few lots of Seed. It became possible to obtain quotations and quotable prices were put at 75@90c per 100 lbs. Mustard sold at 75c@$1 00. Other lines as yet remain without quotations. Movement was smaller than lately reported, aggregating totals as follows:

Receipts the past week, lbs	317,605
A week ago	440,540
Two weeks ago	159,620
Same time last year	650,685
Shipments the past week, lbs	1,362,296
A week ago	1,078,876
Two weeks ago	2,253,669
Same time last year	530,935

HAY—The receipts for the week were 4,525 tons, against ...,832 tons for the previous week. Shipments for the week were 394 tons, against 252 tons for the previous week. Choice grades of Timothy and Prairie Hay were in only moderate supply during the past week, and a rather good demand existed. A steady feeling prevailed and prices show no particular change. The offerings of low and medium grades was large and the demand was very light. The market ruled very dull and prices declined 50c@$1 00 per ton. Quotations at the close ranged as follows: Choice Timothy, $12 00@12 50; No. 1 Timothy, $10 5 @11 00; No. 2 Timothy, $8 50@9 50; No. 3 Timothy, $7 00@8 00. Choice Prairie $10 00@11 00; No. 1 Prairie, $9 00@9 50; No. 2 Prairie, $8 00@8 50; No. 3 Prairie, $6 00@6 50; No. 4 Prairie, $5 00@5 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $6 00@12 50 for poor to choice Timothy, $5 50@7 50 for State, and $9 00@10 00 for Kansas and Iowa Prairie Hay. Rye Straw sold at $7 00@8 50, and Oat Straw at $6 00.

COOPERAGE—Only a limited business was reported in the market for Cooperage during the past week, and there were no particular changes to note. Offerings were moderate, and the demand was light. Local packers not inclined to purchase, and outside orders small. Ash Pork Barrels were in moderate demand and quotable at 97½c@$1 00. Oak Pork Barrels were called for sparingly, and quotable at $1 07½@1 10. Lard Tierces were in small demand and pricess quotable at $1 25@1 27½. Iron bound Lard Tierces quiet and quotable at $1 17½@1 20 for six hoop and $1 25@1 27½ for eight hoop. Oleo Tierces quiet and steady at $1 27½@1 30.

HOGS—The receipts of Hogs during the past week were only fair, and the quality was not quite so good. The supply was lighter than generally anticipated, as farmers are quite busy at present, especially in the Central West and Southwest, with fall seeding and in portions are cutting Corn. Higher prices appeared to have little effect—farmers preferring to sell Corn at present prices. Proportion of light averages somewhat enlarged. Market was fairly active throughout the week. Packers purchased a fair proportion of the offerings, and shippers provided for fair orders. The feeling was somewhat unsettled. Early, the market was quite strong, as the receipts fell below the estimates, and prices were advanced 15@20c on the whole range. During the latter part of the week, the market weakened, and prices settled back 25@30c, and the market closed rather steady. Sales during the week were made at $5 55@6 32½ for light, $5 30@5 75 for rough packing, $5 50@6 37½ for mixed, and $5 60@6 30 for heavy packing and shipping lots, with the bulk of the trading within the range of $5 65@6 20 for fair to good averages. At the close about 3,500 Hogs remained in the pens unsold. Pigs were in only moderate supply, with a good inquiry, and sold at $5 00@6 15 according to size and condition. Supply of Hogs at the other large Western packing points were fair, and the quality rather good.

PACKING—Only a fair business was reported in packing circles during the past week. Hogs were not in very large supply, and prices were not very satisfactory to packers. Manufacture of Products was moderate, and adjusted as much as possible to such descriptions as generally required by the trade. Pork of all kinds neglected. Lard produced rather freely and the average yield was fairly good. A moderate proportion placed in tanks. Domestic cuts of Hams made in fair quantities, and the bulk cured by packers. Skinned Hams made moderately. Foreign cuts of Hams neglected. Shoulders made sparingly. Picnic Hams moderately, and chiefly packed by manufacturers. Long Clear Sides and Extra Long Clear Sides made in limited quantities. Short Clear Sides cut sparingly. Extra Short Clear Sides made in fair quantities. Short Rib Sides cut moderately. Extra Short Rib Sides made sparingly. Backs and Bellies cut in limited quantities. Loins cut in fair quantities for current requirements. Foreign fancy and special cuts of Meats made sparingly.

PROVISIONS—Rather a good speculative business was transacted in the market for Hog Products during the past week, and the feeling was considerably unsettled, with frequent fluctuations in prices. Outside orders were fairly large, and local trading was moderately active. Hogs were in only fair supply, with prices considerably higher early in the week, and receding again toward the close. The speculative market to some extent followed the changes in the Hog market, though the fluctuations in prices of Grain had some influence at times. With the moderate Hog supply and the quality not quite so good, and the brisk demand on shipping account for most descriptions of Products, with the supplies decreasing rapidly, the undertone to the market was rather firm, especially for the near deliveries. The continued good weather for Corn, with prospects of a fairly large yield, encouraged a little more selling of the deferred deliveries—January and beyond. Foreign markets were stronger, and prices generally higher, excepting for Hams, while the domestic markets were quite active. Packing returns of the West for the week, compared with the corresponding week in 1903, exhibited a decrease of 70,000 Hogs. Receipts of Products from the interior were rather liberal, as packers were selling and delivering freely, and the shipments were quite large, especially to domestic distributing points. Exports for the week were only fair. Speculative trading is gradually working into the deferred deliveries, and operators are anticipating a liberal reduction in supplies of the speculative articles, especially of Lard and Short Rib Sides. Early in the week, the feeling was firmer, with good miscellaneous buying and only moderate offerings, and prices were advanced materially on all the leading articles. At the advance, there was a little inclination to realize, and prices receded somewhat, especially on Mess Pork. Toward the close, a little more steadiness was manifested in the near deliveries, while the deferred deliveries were easy. Prices ruled in favor of sellers for the former, while the latter to some extent followed in the wake of Corn. Market in a general way closed comparatively steady. The demand on shipping account was brisk, and sales were larger than for some time past. Exporters bought limited quantities, while the domestic demand was active, particularly to supply the wants of the Southern trade. Offerings were not very large, and holders rather firm in their views. Supplies of some descriptions have been materially reduced—in fact, desirable averages are about exhausted. Some of the packers have closed out all descriptions, except of small, odd lots. Prices were advanced on all the leading articles, excepting Pickled Meats, which ruled slightly lower under a little pressure to sell.

Pork—Rather an active business was transacted in Mess Pork during the past week, and the feeling was somewhat unsettled. The stock on hand is quite liberal—more than required for the general wants of the trade, and it is not deliverable on contracts maturing after the close of the year. Considerable trading in contracts for January. Toward the close, there was a fair business in December contracts. Early in the week, the feeling was stronger in a general way, with a fair miscellaneous demand, and only moderate offerings, and prices were advanced 25@30c on the whole range. At the improvement, the offerings were somewhat enlarged, while the demand was less urgent, and an easier feeling prevailed. Prices gradually receded 27½@35c, but rallied again 5@10c, and the market closed rather steady. Inquiry on shipping account was moderate and for small lots, while the offerings were somewhat limited. Holders rather firm in their views. At the close, cash lots were quotable at $11 40@11 50. Other cuts of Pork were in moderate request, and offerings were not very large. Prices rather inclined in favor of buyers, as holders are a little desirous to close out the odd lots they may have on hand.

Lard—Quite a good business was transacted in Lard during the past week, and the undertone to the market was rather firm. A good miscellaneous demand prevailed, and the offerings were only moderate. Manufacture was somewhat limited, and the shipments were liberal, consequently stocks were reduced. Foreign markets were stronger, and prices ruled higher. "Shorts" were anxious about their outstanding contracts and accepted fair quantities, especially of the near deliveries. Trading was mainly in contracts for October and January, with scattering transactions in November, December and May. Early in the week, the feeling was rather firm, and prices irregularly advanced 30@32½c on the near and 17½@20c on the deferred deliveries. At the improvement, the offerings were slightly enlarged, while the demand was less urgent, and prices receded 7@10c on the near and 12½@15c on the deferred deliveries. Toward the close, there was a good demand for the former and prices were advanced 25@27½c, while the latter followed 7½@10c in sympathy. Market closed rather steady. Demand on shipping account was quite good and offerings were not very large. Some round lots were accepted by exporters. Prices generally ranged at 2½@5c premium on October figures. Refined was in fair request for export, but prices were not made public. Loose lots were in good request, but the offerings were meager. Holders firm in their views. Prices quotable at 10c discount on October figures. Leaf Lard was in rather good demand, and the offerings were light. Small trades were made at $7 50@7 75, and the market closed rather steady at

$7 75. Neutral was called for moderately, with no particular pressure to sell. Feeling was stronger and prices were higher, closing at $9 00@9 12½ for No. 1, and $8 50@8 62½ for No. 2.

Short Rib Sides—Considerable interest was manifested in the market for Short Rib Sides during the past week and the market in a general way was quite firm, especially for October delivery. Offerings were not very free, while there was quite a good general demand. A little more was done on outside account, and packers were considerably interested in the market. Manufacture at present is somewhat limited, while the shipments are liberal and the stocks are being gradually reduced. Trading chiefly in October and January contracts, with occasional trades in May. Early in the week the feeling was strong and prices were advanced 22½@25c on October and 12½@15c on January contracts. Later, there was a little pressure to sell and the feeling was easier. Prices settled back 12½@15c. Toward the close, the feeling was stronger and prices were advanced 5@10c, and the market closed rather steady. There was quite a good demand on shipping account, and from packers who are short in their supplies for their regular trade. Offerings were fairly liberal, and some round lots changed hands. Holders firm in their views. Sales were made at October figures to 12½c premium, and prices closed at $7 75@7 87½, according to weight.

Green Meats—Very little business was transacted in Green Meats during the past week, or at least very little was made public. Demand was limited, as it is the season of the year when buyers are out of the market, holding off until they can purchase on a new basis. Offerings were moderate, and held above the views of buyers—in sympathy with the prices current for Live Hogs. Local curers out of the market, and outside orders were very small. No trades made public for future delivery. Prices for November, December and January quotable at 8½@8¾c for 14@16 lbs regular Hams, and 9¼c for Skinned Hams. Demand for Hams was light, and prices nominally unchanged. Skinned Hams were quiet, and prices were steady. Shoulders inactive, and prices favored buyers. Picnic Hams were called for very sparingly, and prices without material change. Bellies were quiet, and prices comparatively steady.

Pickled Meats—Trade was fair in the market for Pickled Meats, but the undertone to the market was rather easy. Supplies on hand are fairly liberal, and there evidently was a little pressure on the part of holders to reduce them, though they were slow to grant concessions. A few scattering orders were provided for to meet home wants, and the export trade was small. No figures named for future delivery. Hams were in moderate request, and offerings were fair. Prices ruled ⅛@¼c lower, especially for medium and heavy averages. Skinned Hams were called for moderately, and a few trades were made at ⅛@⅜c decline. Shoulders were in small request and prices were without material change. Picnic Hams were in fair request to fill small orders, and prices inclined in favor of buyers. Bellies were in rather good demand, with fair offerings, and prices were well maintained.

Dry Salted Meats—An unusually good trade was reported in Dry Salted Meats during the past week, and the market was quite strong in a general way. Offerings were fairly liberal, while the demand was brisk, and where desirable lots could be obtained there was not much time wasted in agreeing on prices. Export orders were only moderate, notwithstanding the strength in foreign markets, while the demand for home wants was unusually heavy. It is Cotton picking season in the South, and the demand from that quarter for Meats was unusually large. Supplies of all kinds were reduced materially, and averages, usually slow sale, were readily disposed of. Round lots of "converted" Meats were accepted freely. Packers accepted liberal quantities for shipment to distributing points. Some inquiry for partly cured lots. Manufacture was on a moderate scale. Foreign cuts of Hams were in small demand, and prices without material change. Shoulders were in moderate request, and prices comparatively steady. Long Clear Sides were inactive, and prices entirely nominal. Short Clear Sides were called for sparingly, and prices were slightly advanced. Demand chiefly for delivery two or three months ahead. Extra Short Clear Sides were in active request, and sales were larger than for some time past. Stocks on hand rather light. Prices ruled materially higher, and were quotable at 5@10c advance on Short Rib Sides for October delivery, and at the close ranged at $7 80@7 85. Extra Short Rib Sides were actively called for, and sales were unusually large. Prices ruled considerably higher—about 5@10c discount on October prices for Short Rib Sides; closed at $7 70@7 75. Rough Sides were quite actively called for, and offerings were fair. Prices were advanced materially, and at the close ruled at $7 75@7 87½, according to weight. Plates were in good request, and prices ruled ⅛@¼c higher. Backs were in rather good demand, with a few lots of light averages accepted for export. Prices were advanced ⅛@¼c on desirable averages. Bellies were in active request and sales were larger than usual. Prices ruled ⅛@¼c higher. Foreign fancy and special cuts of Meats were in only moderate request, and prices inclined in favor of sellers.

Smoked Meats—A fairly good business was reported in Smoked Meats during the past week, and the feeling was not very strong, excepting for Sides. Offerings were fair, and the demand was rather good, especially for the Southern trade. Supplies are fair. Hams were in rather good request, and prices favored buyers. Skinned Hams were dull and sold slowly at ⅛@¼c decline. Shoulders were called for sparingly, and prices were steady. Picnic Hams called for moderately, and prices were about ⅛c lower. Sides of all kinds were in rather good demand and prices were advanced ⅛@¼c. Breakfast Bacon in good request and prices ruled ¼@½c higher.

Beef Products—Only a fair trade was reported in Beef Products during the past week, and there were no particular changes to note. Cattle in rather good supply, and prices inclined in favor buyers. Manufacture of Products moderate. Supplies of all kinds are fair. Foreign markets were rather steady, and there were few changes in the domestic trade. Shipments of Dressed Beef were rather large. Beef Hams in moderate request and prices ruled steady. Extra Mess Beef in light demand and prices unchanged. Plate Beef called for moderately, and prices inclined in favor of sellers. Extra Plate Beef in moderate request and prices ruled steady. Tallow was rather quiet, with moderate offerings. Prices ruled steady. Oleo-Stearine was called for in fair quantities and prices well maintained at 7⅞@8c.

Greases—Only a fair trade reported in Greases

during the past week. Feeling rather steady, especially for the better qualities. Offerings were not very large, and the demand was only fair Prices without material change

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 32 to 46; generally fair. Northwest Temperature 42 to 52; clear West—Temperature 48 to 56, rains in Nebraska and Iowa. Southwest Temperature 50 to 70; rains. Ohio Valley—Temperature 54 to 64, generally clear.

Indications are for generally fair weather in this forecast district to Sunday evening, except a few showers in Missouri and lower Ohio Valley. Temperature will rise somewhat in this section Sunday.

WHEAT SURPLUS AND CONSUMPTION.

The Duluth *Commercial Record* presents the following estimate of the quantities of Wheat required for Bread and seed in the United States:

Sections—	Bread bu	Seed bu	Total, bu.
Hard Winter States	39,000,000	14,400,000	53,400,000
Soft Winter States	125,575,000	18,000,000	143,575,000
Southern States	49,200,000	2,000,000	51,200,000
Northwest, Montana, Iowa Wisconsin	43,175,000	22,475,000	65,650,000
North Atlantic	150,618,000	6,745,000	157,363,000
Rocky Mount. States	8,175,000	905,000	9,080,000
Pacific States	16,500,000	6,750,000	23,250,000
Total	432,243,000	71,275,000	503,518,000

The population of the United States is estimated at 82,935,000. The estimate of the Treasury Department is 81,818,000.

The following is the estimated Wheat crop of the United States in the different sections for 1904, and the estimated surplus and deficiency:

Sections—	Crop, bu	Surplus, bu	Deficiency, bu.
Hard Winter States	130,600,000	77,200,000	......
Soft Winter States	95,800,000	......	47,775,000
Southern States	10,930,000	......	40,270,000
Northwest, Montana, Iowa, Wisconsin	177,000,000	111,350,000	......
North Atlantic	52,000,000	......	105,363,000
Rocky Mount. States	9,100,000	80,000	......
Pacific States	67,600,000	44,350,000	......
Total	542,030,000	232,980,000	193,408,000

In this calculation it will be observed that the surplus, after Bread and seed consumption, is about 39,500,000 bu

ITEMS OF GENERAL INTEREST.

The American Chicle Company has declared the regular monthly dividend of 1 per cent, payable Oct. 20. Books close Oct. 14 and reopen Oct. 21

The Manufacturers' Light and Heat Company of Pittsburg has declared a dividend of 1½ per cent, payable Oct. 20 to stockholders of record Oct. 1

The Union Stock Yards, Chicago, received 204,-385 cars of Live Stock during the past nine months, compared with 221,571 cars for the corresponding time in 1903

The directors of the Commercial National Bank, Chicago, have declared the regular quarterly dividend of 3 per cent, payable Oct. 1 to stockholders of record Sept. 30.

The directors of the Continental National Bank, Chicago, have declared the regular quarterly dividend of 2 per cent, payable Oct. 1 to stockholders of record Sept. 30.

The Virginia Lumber Company has sold 10,000,000 feet of Norway pine to be shipped to Chicago. The Lumber will be shipped green from the saw. About $150,000 is involved

The Delaware, Lackawanna and Western Railway Company has declared the regular quarterly dividend of 1¾ per cent, payable Oct. 30. Books close Oct. 3 and reopen Oct. 20

At the semi-annual meeting of the Grand Trunk Railway held in London, Thursday, the board of directors adopted a report favoring the purchase of the Canada Atlantic Railroad.

A man who has affiliation with Cuban banking interests says: "I do not know whether American Sugar shares are going up or going down, but I do know that the American Sugar Refining Company has corralled the Cuban Sugar crop, and has to date a profit of more than $15,000,000 on the raw Sugar it has purchased."

Corn Trade News of Sept. 19 says: "Sufficient rains have now fallen in France, and growers want a period of dry weather for plowing and seeding. There is still uncertainty as to the deficit of the Wheat crop, but the sharp advance last Saturday and the buying of foreign cargoes indicate that some traders believe in a small yield."

Reports from Iowa are that a number of Grain dealers have withdrawn from the Iowa Grain Dealers' Association The association has held weekly meetings of late to decide upon the margin of profit to be asked in handling Grain. It has ranged from 2c to 4c. A number of dealers have become dissatisfied, thinking that 2c was enough, and for this and other reasons have withdrawn.

France imported in August the first month of the new cereal campaign, 2,230,000 bu of Wheat, of which 814,000 bu as Wheat and Flour were delivered from bond for consumption, the rest being either exported or received as 'temporary admissions,' or consigned to entrepots. The quantities delivered for consumption in the corresponding month of the two previous years were 2,468,610 bu and 1,517,920 bu respectively.

The London *Agricultural Gazette* of Sept. 19 says: "The greater part of last week was fine, so that the harvesting of Grain crops in the late parts of the kingdom was carried on with but little interruption, and another week of fair weather would allow of the completion of the work, excepting, perhaps, a little in the Highlands of Scotland and a few bleak portions of Wales and Ireland. So far, it may be said, no damage of any consequence has been done to the Grain crops during the whole of the harvest period, nearly all the stacks having been put up under such favorable conditions that they can be threshed at any time Reports on threshing results are almost universally unfavorable, and many farmers complain of the present season being one of the worst in this respect that they have ever experienced. Autumn work is well forward, Rye, tares, winter Beans and some Wheat having been sown in many districts"

A New York financial firm, in their monthly circular, says: "We have entered upon the third quarter of 1904 without having experienced any of the national disasters which have been vociferously heralded by speculators in both commodities and securities. The logic of those who for two years have confidently predicted a disastrous business depression as the necessary sequence of our years of prosperity from 1897 to 1901 has proved faulty Such periods of gloom as were experienced from 1893 to 1897 have not afflicted the land, nor are they in sight. The prosperity of the farming community continues It is true that there is a substantial shortage in our Wheat crop. In place of 637,000,000 bu, which was harvested in 1903, the crop this year is expected to show not exceeding 540,000,000 bu, and this may be reduced to but little over 500,000,000 bu But 545,000,000 bu at $1 00 per bushel (and the price this year exceeds that) count for more dollars than 637,000,000 bu at 80c. Barring disaster in the next few days, we shall have a great crop of Corn, and Corn gives more tonnage to the railways than Wheat. The Cotton crop is practically certain to exceed 10,000,000 bales, and 10,000,-000 bales at, say, 10c per pound, means $500,000,000 cash to the Cotton districts of the South. Add this to the enormous selling value of the last year's crop, and the two years' output will mean the paying off of old debts, the affluence of the planters, the activity of the merchants, the increase of deposits in Southern banks, the advance of land values, and the satisfactory tonnage of Southern railways. The minor crops—of Hay, Barley, Oats, and Fruits—will be large and prices satisfactory Altogether, the agricultural outlook for 1904 and 1905 is exceedingly good."

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were increases of 2,373,000 bu Wheat, 1,859,000 bu Oats, 56,000 bu Rye, and 1,017,000 bu Barley, and a decrease of 492,000 bu Corn.

Local Securities were mainly stronger and higher, Can, Steel, Carbon, Quaker Oats and Ship Building leading. City Railway declined 1¼ in the face of the announcement that control has passed into the hands of Union Traction interests at $200 a share.

Stock of Wheat in country elevators of the Northwest on October 1 reported at 4,704,000 bu, compared with 814,000 bu on September 1, and 4,665,000 bu on October 1, 1903. Increase during September, 3,890,000 bu, compared with an increase of 3,869,000 bu in September, 1903.

The Government crop report gives the condition of Cotton at 75.8 for final condition—gives it a record equal to the average of the four best crops grown since 1890. The yield per acre is estimated at 2.0 lbs of lint. A New York authority estimates the crop at about 12,000,000 bales.

Stocks in New York were irregular. A number of the important Railways sold off fairly, and Missouri Pacific, Rock Island, and Wabash preferred advanced. Pennsylvania, Reading, and Delaware and Hudson declined. Of the Industrials, Republic Iron, United States Steel, and Copper advanced, and all Gas shares declined. Money 1¾ to 2 per cent.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is reported firm with a fair local and domestic demand. Local stocks are now 30,000 brls.

WINTER WHEAT—A fair demand existed, and several small lots were sold to millers, besides the car lots of fresh arrivals. Speculators also buying and market ruled steady. No. 2 Red in store quotable at $1 12¼@1 14⅛ and fresh arrivals free on board quotably about $1 10@1 17. No. 3 Red fresh receipts free on board sold at $1 14@1 15. No. 4 Red fresh receipts free on board sold at $1 08@1 12. No. 2 Hard fresh receipts free on board quotably $1 13@1 15 and sales of 25,000 bu in store were reported at $1 11½. No 3 Hard fresh receipts sold free on board at $1 10@1 13, and at the river at $1 05@1 09. No. 4 Hard sold at the river at $1 01. No. 4 White sold at $1 12.

SPRING WHEAT—Offerings small and demand moderate. Market firm for choice Wheat. Most of the offerings consisted of poor light weight Wheat, which was very dull. No. 1 Northern fresh arrivals free on board quotably $1 20@1 21 and No. 2 Northern fresh arrivals nominally $1 15@1 18. No. 3 Spring sold free on board at $1 11@1 16 for fair to choice outside hard variety, and at $1 12¾ at the river. No. 4 sold at 71@78c for light weight, at 87c for ordinary, and at $1 06@1 10 for good to choice, with sales at the river at $1 05@1 07.

REGULAR WHEAT—Was nervous and rather unsettled with the trade of moderate volume. Final figures showed the December ⅛@⅜c higher, while May was unchanged. The early tone was weak on the large Northwest receipts, lower cables and foreign statistics. At the decline there was a quick recovery, the feature being the buying of December, which for a moment sold at the same price as May. Talk of smaller country offerings in the Northwest, reports of the Russian Government buying Flour at Seattle and claims that the Liverpool market was affected by advices from this side. Provision interests were credited with buying at the decline; also the Southwest. Private Liverpool cables stated the market was easy on "bearish" advices from America and offerings of new crop Argentine Wheat. Minneapolis reported country elevator receipts were falling off, one concern claiming 50 per cent in two days. Another Minneapolis message read "Country deliveries have fallen off 25 to 30 per cent, partly due to fall work and to having sold about all they want to sell at present prices; plowing up to the present time smallest in years." Oklahoma Millers' Association was credited with estimating two-thirds of the crop in that territory had left farmers' hands. Portland, Oregon, mills reported the sale 10 cars Flour to New England, the first sale ever made on the Pacific to the far East. Antwerp cabled: "Plate reports prospects excellent. Market weak, affected by accumulation of stocks." An estimate was in circulation placing the probable yield in Argentine at 131,000,000 bu, against 118,000,000 bu last year. Northwest cars were 195 cars larger than a year ago and primary receipts 448,000 bu larger. Liverpool quoted spot steady to ½d lower and futures ⅛@⅜d lower. London steady to ⅛d lower. Paris ⅛@¼c lower. Antwerp unchanged. Berlin was off ¼c and Buda Pesth up ⅛c. Northwestern interior elevator stocks increased 3,890,000 bu last month, and are now 4,704,000 bu, against 4,665,000 bu one year ago. Winnipeg had 189 cars, against 244 last year. Kansas City and St. Louis received 447,000 bu, against 264,000 bu last year. Liverpool stocks 3,440,000 bu, increased 352,000 bu last week. Seven cargoes were awaiting buyers off the English coast, against 10 cargoes on Saturday. The visible increased 2,373,000 bu, against 2,250,000 bu increase one year ago. Total is now 17,576,000 bu, against 19,489,000 bu in 1903 and 25,624,000 bu in 1902. Local public stocks increased 67,000 bu, and now include 2,317,000 bu, against 2,715,000 bu one year ago. World's shipments were 10,816,000 bu, against 8,810,000 bu previous week and 12,288,000 bu one year ago. Quantity on ocean passage decreased 288,000 bu, and is now 38,144,000 bu, against 32,352,000 bu one year ago. Exports were small, and 5 boat loads accepted at the seaboard. Receipts at Duluth 333 cars, at Minneapolis 1,094 cars, total of 1,430 cars, against 1,069 cars Saturday, 1,080 cars a week ago, 1,135 cars last year. Local receipts included 19 cars Winter, 12 cars Spring and 7 cars mixed, a total of 38 cars, against 75 cars last year. Included in the above was 1 car of contract grade. There were 20 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 101 cars. Withdrawals were no bu. The receipts at Western points were 1,865,818 bu, against 1,410,848 last year. At Eastern points 28,515 bu, against 330,454 last year. Shipments from Western points were 751,531 bu, against 743,534 last year, and from Eastern points 24,680 bu, against 260,415 bu last year. Shipments of Flour were 25,731 brls. Exports of Wheat in Flour were equal to 140,639 bu.

Future Deliveries of Regular Wheat—Fair trade, and after early decline ruled stronger.

OCTOBER—Sold at $1 11½@1 12. Opened at $1 11¾, sold to $1 11½, to $1 12, to $1 11⅝, and closed nominally $1 11⅝.

DECEMBER—Sold at $1 11⅞@1 14—only sparingly at the top figure. Opened with sales at $1 12⅛ to $1 12½; sold to $1 12⅜, to $1 11⅞, to $1 12½, to $1 12, to $1 13¼, to $1 12⅝, to $1 13¼, to $1 13⅛, to $1 13½, to $1 13, to $1 14, to $1 13⅜, to $1 13⅛, to $1 13⅞, and closed at $1 13⅛@1 13¼.

MAY—Sold at $1 12¼@1 14⅛. Opened with sales at $1 12⅞ to $1 12⅝; sold to $1 12¾, to $1 12⅞, to $1 12¼, to $1 13¼, to $1 13, to $1 13⅛, to $1 13½, to $1 13, to $1 13⅜, to $1 13, to $1 14⅛, to $1 13⅞, to $1 14, to $1 13½, to $1 13⅝, to $1 13¼, to $1 13⅝ and closed at $1 13⅝@1 13½ asked.

CORN—Just a fair trade, mainly local and professional, with the tone rather unsettled, the close showing losses of ⅛c to ⅛@¼c. There was a rush to sell at the start, but the offerings were well taken by floor traders and professionals. Commission houses, too, made moderate purchases, part of which was for the Southwest. Later, market was inclined to follow Wheat. Cables were firm, receipts small, and world's shipments were moderate. Liverpool quoted spot unchanged and futures ¼d higher. Stocks there, 806,000 bu, increased 70,000 bu last week. World's shipments were 3,976,000 bu, against 4,110,000 bu previous week, and 3,276,000 one year ago. The quantity on ocean passage decreased 456,000 bu, and is now 20,228,000 bu, against 10,152,000 bu one year ago. The visible decreased 492,000 bu, against an increase last year of 764,000 bu. Total is now 5,979,000 bu, against 9,090,000 bu in 1903, and 8,075,000 bu in 1902. Local public stocks increased 528,000 bu to 2,196,000 bu, against 2,934,000 bu a year ago. Receipts, 146 cars; last year, 476 cars, and 191 cars are estimated for to-morrow. Fair and somewhat warmer weather was indicated. Kansas City wired weather never was better and Lincoln wired the weather was perfect over Sunday. Western receipts were 374,000 bu, against 536,000 bu a year ago. Shipments, 499,000 bu and 921,000 bu, respectively. Local arrivals 162,000 bu, and shipments 410,000 bu. The professor of the agricultural department of the University of Nebraska estimated the Corn crop at 211,000,000 bu. Withdrawals 183,000 bu, and exports 67,000 bu. Shipping inquiry fair, but holders firm and business restricted. Seaboard reported 7 boat loads. Cold weather in England will increase consumption. Southwestern markets easy. No. 2 closed about 53c. No. 2 Yellow closed about 55¼c. No. 3 closed about 52¾c. No. 3 Yellow sold at 55½c, and closed at 55c.

Corn by sample—Was in good demand and offerings very moderate. Prices unchanged to ¼c higher. Sales on track and free on board: No Grade sold at 48@53c. No. 4 at 51½@55c. No. 3 at 53½@55½c. No 3 Yellow at 55½@56c. No. 2 Yellow at 56¼c. No 3 White at 53¼c. Billed through: No. 4 at 51½@54¼c. No 3 at 53@54¼c. No. 3 Yellow at 53¾@54½c. No. 3 White at 52¾c.

Future Deliveries of No. 2 Corn—Moderately active and prices irregular, closing ⅛c to ⅛@¼c lower.

OCTOBER—Sold at 52⅛@52¼c; closed 52½c asked.

DECEMBER—Sold at 50¾c and 51⅜@51½c. Opened at 50⅞c to 50¾c and sold at 51⅛c, to 51c, to 51⅛@51½c, to 51⅛@51¼c, to 51¼c, to 51⅛c, off to 51c, and closed at 51c bid.

MAY—Sold at 48⅞@49½c. Opened at 49c to 48⅞c, and sold at 48⅞@49c, to 49⅛c, to 49c, to 49⅛c, to 49½c, to 49½c to 49c, to 49@49⅛c; closed 49@49⅛c.

JULY—Sold at 48¾@49¼c. Opened at 48¾c, and sold at 49⅛c, to 48¾c, and closed at 48¾c sellers.

OATS—Were stronger and more actively traded in. Prices advanced ½@⅝c, and closed ⅛@¼c higher. The advance was on investment buying and taking off of cash hedges. On the advance Northwestern cash interests sold. Cash sales were 65,000 bu here and 80,000 bu Canadian sold at New York to Manchester, England. Statistics were "bearish." The visible supply increased 1,859,000 bu, and local stocks gained 315,000 bu in public houses. Arrivals 201 cars, with 200 cars expected to-morrow. Withdrawals 61,700 bu. Seaboard clearances 17,000 bu. Car lots to go to store were steady to ½c higher. No. 4 White sold at 30@30½c. Standard in store closed at 30¾c.

Oats by sample were in good supply and met a better demand, shippers taking hold more freely. Prices were steady to ½c higher. Sales on track and free on board: No Grade at 31c. No. 4 White at 29½@32½c. No. 3 at 30¼c. No. 3 White at 31@32¾c. Standard at 32@32¾c. No. 2 at 30½@31c. No. 2 White at 33@33½c. Billed through: No. 4 White at 30¾@31c. No. 3 White at 31½@32½c. Standard at 31¾@32½c. No. 2 at 31½@31¾c. At the river: No. 4 White at 29@30½c. No. 3 at 30c. No. 3 White at 30@30½c. Standard at 30½@32¼c.

Future Deliveries of Contract Oats—Were stronger and higher.

OCTOBER—Sold at 30⅜@30⅞c. Opened at 30⅜c, and closed at 30¾c.

DECEMBER—Sold at 30⅞@31½c. Opened at 30⅞c to 31c, sold to 31½c, to 31@31⅛c at close.

MAY. Active. Sold at 33⅛@33⅝c. Opened at 33⅛c, sold to 33⅝c, to 33¼c to 33¼c at close.

RYE—Was firm and prices were 1c higher. Demand good and offerings light. There were eight cars received and six cars withdrawn from private warehouse. No export clearances from the seaboard. The visible supply increased 56,000 bu. No. 2 in store nominally 75c and fresh arrivals free on board sold at 80c. No. 3 sold at 78c, No. 4 at 73@76c, and a part car not graded at 78c.

Future Deliveries of No. 2 Rye—Firmer. October 7?c bid. December sold at 77½c to 78½c and closed at 78½c. May 8?c bid.

BARLEY—As was natural for Monday, there was an increased supply on the market. The offerings, at the same time, were not so much larger as some had expected they might be. The customary buyers were present. There was enough Barley for the demand. Very thin Barley was slow and easy unless sold for feed; maltsters did not care for it. The feed and mixing demand was very fair. Barley going in that class was steady to firm; it sold mainly at the outside of late quotations. There were more or less cars of stained or dirty malting Barley and they were easy, though salable by accepting the views of values as entertained by buyers. Clean and otherwise good Barley was steady and firm. In some cases sellers reported having done a little better. Such goods sold well. Choice Barley also good sale and fancy salable and firm, but only an occasional car appears. There were 157 cars posted inspected in. Visible supply increased liberally; the gain was mostly in Barley afloat, going East by lake. Market for Screenings quotable at 26@38c for poor to very choice. Barley, feed or mixing, sold at 36@37c, at 37c mainly; malting, low grade or fair, but very dirty, ranged at 37½@39c. Clean, fair to good, at 40@44c, and choice cars at 46@18c. Fancy sold at 51c; extra fancy possibly a shade over, but not on sale.

SEEDS—No material change in prices for any line of Seed quoted. General market quiet. In the case of Timothy there was a heavy feeling. The rest were quotably steady.

Timothy—There was a heavy feeling for cash Seed and near futures. Little sold and were offered at last quotations. Cash offerings not large but demand tame. March delivery seemed firmer, for to-day it sold above the figure which on Saturday was bid. Cash sales were at $2 40@2 55 and market for country lots quotable at $2 35@2 45 for fair to good; high-grade Seed at $2 50@2 75; choice to fancy nominally $2 80@2 85; poor Seed quotably down to $1 80@2 25; inferior lower. October delivery sold at $2 70, several cars, and was offered at that. January sold at $2 80, and was $2 80 sellers. March sold at $2 90 and more on sale at that.

Flax—There was no trading; no Flax offered, though a cargo came in by lake. Former prices were bid all around, which made the market quotably steady to firm. Local receipts 1 car or 900 bu by rail and 110,000 bu by lake; taken out 5 cars or 5,735 bu. Minneapolis receipts 90 cars and Duluth got 24 cars. No change in local regular stock, remaining 16,091 bu, against 87,437 bu the same time last year. No. 1 Northwestern or No. 1 from the Northwest cash Seed salable at $1 17½, No. 1 at $1 10½, and Rejected, depending on quality, was nominally $1 07@1 15. October quoted at $1 10½ bid, and December $1 13 asked with $1 12½ bid.

Clover—Was about steady and unchanged. The market was without offerings and quotable as follows: October delivery was nominally $12 15. Contract spot Seed the same. Country lots, common to choice, $8 00@12 00, very poor lower, and fancy above. Fair to good, $10 25@11 50.

Other Seeds—Millets, common or German, quotable at 75@90c for common to choice, and Mustard also about 75c@$1 00.

HOG PRODUCTS—Rather a good trade was reported in Hog Products, and the undertone to the market was stronger. The supply of Lard—both at Chicago and the larger markets of the world—was materially decreased and this was a stimulating feature, and the market for other articles followed in sympathy. Outside orders were larger, and local trading was rather active. Offerings were not very large, and the general demand was good. Apparently strong parties are purchasing the deferred deliveries. Prices ruled higher on all the leading articles, but extreme figures were not fully supported to the close. Trading chiefly in October and January contracts. Hogs were in fair supply, and prices ruled lower. Receipts at the leading western packing points were estimated at 46,900, compared with 41,500 one year ago. Foreign markets exhibited a quiet feeling in Meats and Hams were quoted 6d lower, while Lard was stronger and 3d higher. Domestic markets were steady. Receipts of Products were good—of Lard and Meats about 27 cars. Shipments were fairly large—of Lard and Meats about 160 cars. Shipping demand was only moderate—buyers a little backward. Offerings were fair, with holders firm in their views. Sales were moderate. Prices without material change. Exports for the week, compared with the corresponding week in 1903, exhibited a decrease of 4,807,000 lbs Lard, and increases of 1,240 brls Pork and 9,604 boxes Meats.

Mess Pork—Trade was quite active in the market for Mess Pork, and the feeling was stronger. Offerings were not very large, and the demand was quite active. Market opened rather strong and prices were 5@7½c higher, which was followed by a further improvement of 10@25c, mainly on January. Toward the close, the feeling was not quite so strong, and prices receded 2½@5c, and the market closed comparatively steady. Shipping demand was moderate, and the offerings were rather light. Cash lots quotable at $11 80@11 90.

OCTOBER—In moderate request and offerings were somewhat limited. Sales were made at $11 67½@11 80. Opened at $11 70, sold to $11 67½, to $11 75, to $11 70, to $11 80, to $11 75, to $11 80, and closed steady.

DECEMBER—Offerings were fair, and the demand was fairly active. Sales were made at $11 70@11 97½. Opened at $11 75, sold to $11 70, to $11 80, to $11 75, to $11 90, to $11 87½, to $11 97½, to $11 95, and closed steady.

JANUARY—Offerings were fair, and the demand was rather active. Sales were made at $13 40@13 65. Opened at $13 40, sold to $13 45, to $13 42½, to $13 52½, to $13 42½@13 45, to $13 65, to $13 60, and closed steady.

MAY. Demand light and offerings rather small. A few trades were made at $13 45@13 47½.

Lard—An active business was transacted in the Lard market, and the feeling was stronger, due to the reported decrease of 65,000 tcs in local stocks and about 70,000 tcs in the world's supply. Offerings were moderate and the demand was quite active. Foreign markets were stronger, and Liverpool was quoted 3d higher. Market opened rather strong and prices were 5c higher on January and 22½c on October, and prices further improved irregularly 10@12½c. Toward the close was not quite so strong, and prices receded about 5c, and the market closed rather steady. Demand on shipping account was light, with moderate offerings. Cash lots quotably firm at 2½c over October figures, closing at $7 80@7 82½. Loose lots in fair request, with very small offerings. Prices quotable at 15c discount on October figures. Leaf Lard was in good demand, with very limited offerings. Quotably steady at about $7 87½ for very small lots. Neutral in light demand, with moderate offerings. Prices quotably steady at $9 25@9 37½ for No. 1, and $8 75@8 87½ for No. 2.

OCTOBER—In good request and offerings were moderate. Sales were made at $7 75@7 85. Opened at $7 75, sold to $7 77½, to $7 75, to $7 77½, to $7 75, to $7 85, to $7 80, and closed steady.

NOVEMBER. Called for moderately and offerings were fair. Sales were made at $7 72½@7 80.

DECEMBER. Quiet, with small sales at $7 67½.

JANUARY. Offerings were fair, and the demand was active. Sales were made at $7 62½@7 75. Opened at $7 62½ to $7 65, sold to $7 67½, to $7 62½, to $7 75, to $7 67½, to $7 72½, to $7 67½, and closed steady.

MAY—In moderate request and offerings were not very large. Sales were made at $7 70@7 77½. Opened at $7 70, sold to $7 75, to $7 72½, to $7 75@7 77½, to $7 75 and closed quiet.

Short Rib Sides—A fairly good business was reported in Short Rib Sides, and the feeling was stronger. Offerings were not very large, and the demand was fairly active. Stock decreased about 6,968,000 lbs during September. Market opened rather firm, and prices were about 2½c higher, which was followed by a further appreciation of 12½@17½c, and closed steady. Shipping demand was moderate, and the offerings were small. Cash lots quotable at $7 87½@8 00 according to weight.

OCTOBER—In good request, and offerings were fairly liberal. Sales were made at $7 82½@8 00. Opened at $7 82½, sold to $7 87½, to $7 82½@7 85, to $8 00, and closed steady.

JANUARY—Offerings were fair, and the demand was good. Sales were made at $6 92½@7 05. Opened at $6 92½, sold to $7 02½, to $7 00, to $7 05, to $7 02½, and closed steady.

MAY—Called for moderately, and offerings were not very large. Sales were made at $7 07½@7 15, and closed steady at $7 15.

Other Meats—Trade was only fair and mainly on domestic account. Exporters bought sparingly. Offerings were not very large and inquiry was moderate. Green Meats in moderate supply with light inquiry and prices ruled steady. Pickled Meats were dull and slow sale with fair offerings, and prices favored buyers. Dry Salted Meats were in fair demand, with moderate offerings, and prices favored sellers. Smoked Meats called for moderately and prices were steady. Closing prices were as follows:

CROPS IN FOREIGN COUNTRIES.

(From Broomhall's Corn Trade News, Sept 20.)

United Kingdom—There have been some complaints that the showery weather, which we mentioned last week, has hindered the finish of harvest, but at time of writing the weather has again turned very fine and bright, and growers should now be able to make a clean finish of 1904 crops, and push on rapidly with the necessary cultivation for the crops of 1905. The official average price of our native Wheat was reduced last week by 5d per quarter to 29s 7d, but the quantity was well maintained, and even with the reduction mentioned the price is higher than for any corresponding week since 1897.

Russia—The weather keeps too dry in the Southwest. The movement of Grain to ports in the Southeast is very large, and the quantities coming forward in the Southwest are much larger than they were, although there is still some complaint from Odessa. Shipments continue on a large scale, particularly as regards Wheat and Barley. The *Journal of Industry and Commerce*, which is a semi-official organ connected with the Ministry of the Interior, has estimated the Wheat crop of European Russia at, roundly, 352,000,000 bu. as against 448,000,000 bu, the final estimate of the Central Statistical Committee for 1904; Rye 720,000,000 bu, against 744,000,000 bu; Oats 564,000,000 bu, against 544,000,000 bu; Barley 204,000,000 bu, against 276,000,000 bu.

Roumania—Braila reports that plowing and sowing is being pushed on actively, but rain will soon be wanted again. Supplies to shipping ports continue to decrease.

Bulgaria—This grower has been favored with good weather for fall plowing and seeding. The last Wheat crop is officially estimated at 52,000,000 bu of good quality, against 56,000,000 bu in 1903.

Austria-Hungary. Rains fell in Hungary last week and the temperature was lower; the change in the weather was very favorable for fall field work. Supplies of both native and foreign Wheat are liberal.

Argentina—Crop reports continue quite favorable, both as regards Wheat and Flax Seed. Our agent at Buenos Ayres now estimates that the area under Wheat has increased 20 per cent, while the Flax Seed acreage has somewhat diminished. Wheat shipments last week were moderate, Corn large.

Australia—Our latest mail advices report a small increase in the Wheat acreage of Victoria, but at date of report the condition of the crop was not very promising. However, favorable news has been since received by cable, and besides, the continued shipments and charterings indicate that general prospects keep fairly good.

India—With the exception of one Western district, the country has now had sufficient rain. Shipments keep liberal and the outward movement is expected to be well maintained in the coming months.

France—Sufficient rains have fallen to put the land into condition for fall plowing and seeding, and a period of fine weather is now wanted. No further definite estimates of the Wheat crop have been issued, and opinions show the usual wide variations. Growers say that the yield is indeed very short, but consumers claim that the deficit is offset by the exceptionally fine quality of the new Wheat.

Germany—The rainfall is still insufficient to give the rivers sufficient water for inland navigation to be generally resumed, but the additional showers of last week should have given sufficient moisture for autumn cultivation in most districts. The Potato harvest is now in full swing; it is confirmed that the yield is short but of good quality. Native cereals continue to be freely offered.

Sweden—Wheat and Rye have been harvested, but not in good condition. On the other hand, the spring crops in Southern Sweden have been gathered in good weather, and good quality is expected generally if the weather continue fine.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 32 to 46; light but general rains. Northwest—Temperature 32 to 64; partly cloudy. West—Temperature 44 to 54; generally fair. Southwest—Temperature 54 to 74. Ohio Valley—Temperature 40 to 68; frosts general.

Indications are for mostly fair weather and warmer in most of the district; cooler Northwest; showers in Western lake region and Upper Mississippi Valley.

ITEMS OF GENERAL INTEREST.

Directors of Streets Western Stable Car line have declared the regular quarterly dividend of one-half of 1 per cent on the common stock, payable Oct 25. Books close Oct. 11 and reopen Oct. 26.

A dispatch from New Haven, Conn., reports that president Mellethe of the New York, New Haven and Hartford is continuing his policy of buying up trolley lines either feeders for or competitors with the New Haven line.

The hot winds and warm, fine weather are the best thing for the Corn crop. Reports from all over the Corn belt are the most favoable, late Corn being pushed along toward maturity at a rapid rate, placing it out of danger of frost.

The pamphlet report of the Boston and Maine Railroad Company for the year ended June 30 shows a surplus after charges and dividends of $70,458, an increase of $18,270. The annual meeting of the company will be held in Lawrence, Mass., Oct. 12.

The New York *Journal of Commerce* makes the condition of Cotton for September at 69.9, against 77.4 in August. Another private report makes it 70.27, against 75.72 last month and 84 88 last year. Based on a general killing frost in the middle of October, the latter estimates the crop at 11,250,000 bales.

The president of the Republic Iron and Steel Company is reported to have been in conference with the leading New York interests of the corporation there, and the matter of a bond issue has been gone over very thoroughly. If it is decided to create new bonds several of the New York banks will participate in the issue.

Figures of the amount of dividends to be distributed by industrial corporations in October, based on the declarations already made, show an increase in the total over last year of about $2,800,000. This is shown despite the fact that two dividends amounting to nearly $800,000, which were in the list last October, are now missing. The total disbursements for the month by industrial corporations is estimated at $21,315 371.

Chicago Bank Clearings to-day, $38,428,907.

Minneapolis reports the sale of 50,000 brls Flour, mostly for export.

Crop of Flax Seed in Argentina estimated at 40,000,000 bu, with 30,000,000 bu for export.

Reported that 24,000 bu Wheat and 128,000 bu Corn were taken at the seaboard to-day for export.

Nine packers purchased 8,500 Hogs to-day; shippers, 3,000; left over, 2,000. Market closed steady.

A Topeka dispatch says: "Recent flood damage to the Atchison Railway will amount to $500,000."

Average cost price of Hogs at Chicago, Monday, was $5 85, against $6 07 a week ago and $5 83 a year ago.

Deliveries on October contracts to-day were 10,000 bu Wheat, 15,000 bu Corn, 4,750 brls Mess Pork, and 2,000 tcs Lard.

There will be no session of the Chicago Board of Trade, Saturday, Oct. 8, 1904—Chicago Day at the St. Louis Exposition.

The failure of Van Tassel & Condeno, of No. 66 Broadway, New York, was announced on the Consolidated Stock Exchange.

Estimated receipts for to-morrow: Wheat, 59 cars; Corn 97 cars; Oats, 134 cars; Rye, 4 cars; Barley, 126 cars; Hogs, 23 000.

Stock of Wheat at Odessa on Oct. 1 was reported at 6,090,000 bu, compared with 1,600,000 bu on Sept. 1, and 11,200,000 bu on Oct. 1, 1903.

The visible supply of Wheat in South Australia and Victoria on Sept. 24 amounted to 4,720,000 bu, compared with 5,610,000 bu a month ago, and 1,152,000 bu at this time in 1901.

The receipts of Wheat at Liverpool during the past three days were 248,000 bu, of which 3,000 bu were American. Receipts of Corn, 384 000 bu, of which 200,000 bu were American.

Directors of the Boston and Providence Railroad Company have declared the regular dividend of 10 per cent. payable in four quarterly installments—January, April, July and October.

Cotton in New York was weak and averaged lower. Liverpool closed 14 to 15 points lower. Realizing sales were the feature, and "bears" were more aggressive. Closing prices were 2@5 points higher.

In Local Securities the feature was the activity in Can shares and Metropolitan preferred. Can common advanced ⅝ and preferred 1⅛ point. Metropolitan preferred gained 3 points, while common lost 1. Chicago Telephone advanced 2½.

Bradstreet's report of the available supply for the past week shows the following changes:

	1904, bu.	1903 bu.
Wheat east of Rockies	Inc. 4,997,000	Inc. 4,028,000
Europe and afloat	Inc. 4,900,000	Inc. 8,900,000
Total	Inc. 9,897,000	Inc. 12,928 000
Corn	Dec. 1,899,000	Inc. 1,298,000
Oats	Inc. 2,117,000	Inc. 43,000

Stocks in New York were heavily traded in. The feature was the advance of 7¼ in St. Paul, 2 points in Union Pacific, 1⅝ in Missouri Pacific, part of which was lost. There were rumors affecting the ownership of control of St. Paul and Atchison, which had a great deal to do with the advance. Coalers were lower and Industrials irregular. Copper advanced, and Steel and other shares declining. Money 2 per cent.

The Winnipeg *Commercial* says: "According to the Canadian Pacific Railway report issued early in the week the damage by either rust or frost is comparatively slight. Ten per cent is the most admitted. An average of the yields reported is about 20 bu to the acre, and generally better than expected. The average grade was put at No. 2 Northern. Threshing has been greatly delayed by wet weather, but was generally under way. The report of the Canadian Northern Railway was practically to the same effect."

Broomhall's weekly foreign crop summary says: "United Kingdom and France—Weather is most favorable: farmers holding their Wheat firmly. Germany—Good rains have fallen: offerings of native Grain are large and continue to increase in volume; better reports being received regarding the forage and Potato crops. Hungary—The weather has been favorable for seeding. Roumania Fall seeding progressing rapidly; supplies of Grain continue to decrease. Russia—Weather conditions generally favorable; some ports report large supplies, while in others a decrease is shown from a month ago. India and Argentina—Crop reports continue favorable. Australia—The latest news is that the drouth was not complete, but only partial in effect."

WEATHER BUREAU REPORT.

The Weather Bureau weekly crop report, issued at noon to-day, is as follows:

Spring Wheat—Threshing much delayed by rain in Minnesota in early part of week. This work was resumed later, and is now generally well advanced in that State, and is progressing rapidly in the Dakotas.

Corn—Has experienced another week of favorable conditions, but frost was injurious in Wisconsin, much was blown down and damaged in Illinois, and dry weather is needed in Iowa to prepare the crop for cribbing. It is practically safe in Nebraska. Less than 5 per cent in danger from frost in Michigan and Eastern Kansas, 10 per cent in Ohio, Central Indiana, Iowa, and South Dakota, 20 per cent in Northern and Central Illinois and Missouri. Cutting is progressing rapidly in all sections, being completed in portions of Southern Missouri, and nearing completion in Kansas.

Cotton—With high temperatures and practically no rain during the week in the Cotton region, the staple has continued to open rapidly in all sections, prematurely in Georgia and Mississippi, and picking has progressed under favorable conditions.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Millers report a firm market, with sales, however, confined almost exclusively to the local and domestic trade.

WINTER WHEAT—Was rather more quiet and a shade lower. Millers made small purchases and speculators bought moderately. No. 2 in store ranged at $1 12⅝@1 13¾ and fresh arrivals free on board nominally $1 16@1 17. No 3 Red sold to the extent of 15 000 bu free on board out of store at 1c over May, and fresh receipts quotably $1 12@1 15. No. 4 Red fresh receipts free on board sold at $1 00@1 13. No. 2 Hard fresh receipts free on board ranged at $1 12@1 15. No 3 Hard fresh receipts free on board sold at $1 06½@1 11. No. 4 Hard sold free on board at $1 03@1 05 and at the river at $1 01.

SPRING WHEAT—The offerings were a little larger. Demand fair for choice Wheat, but poor, light weight, shrunken Wheat was dull. A considerable portion of the receipts comprised poor, shrunken Wheat. Feeling weaker. No. 1 Northern fresh arrivals free on board quotably about $1 20. No. 2 Northern fresh receipts free on board quotable at $1 12@1 18. No. 3 Spring fresh receipts free on board quotable at $1 05@1 15½, with a sale at $1 10, and sales at the river at $1 15@1 15½. No. 4 Spring sold free on board at 70@75c for poor, light weight, at 80@90c for ordinary, at $1 00@1 05 for good and $1 08@1 12 for choice hard variety. No. 4 White sold at 96c at the river.

REGULAR WHEAT—The market was rather erratic and the trade a good deal on the spasmodic order. Final figures showed the December ⅝@¾c lower, while May lost ⅝@¾c. The start was fairly steady, with light offerings, the map showing general rains in Manitoba, and receipts were not so large as expected. The demand, however, was soon satisfied, and on moderate commission house selling prices weakened. Floor traders turned sellers, but the market ran into resting orders and the break was checked. The prediction of rain or snow for the Northwest had a tendency to change local sentiment from the "bear" to the "bull" side of the market, and on buying by many of the early sellers the market turned stronger. Toward the close general liquidation again set in and last prices were the lowest of the session. Minneapolis wired that the local weather bureau predicted snow for the entire Northwest to the Canadian line. Private Liverpool cables stated that the Australian Wheat prospects were again poor. Duluth reported the sale of 75,000 bu to go to Eastern millers. Toledo reported an Ohio miller purchased 50,000 bu cash there yesterday for immediate shipment. France was again reported a buyer of cargoes on passage, paying 37s for a cargo of Blue Stem Pacific Coast Wheat. Primary receipts were 147,000 bu under those of a year ago, though arrivals in the Northwest were 112 cars larger. Kansas City and St. Louis received 229,000 bu, against 421,000 bu same date one year ago. Minneapolis wired: "Sure indications of continued good receipts to ability of roads to furnish cars; some country elevators blocked already." Kansas City wired: "220 cars of cash Wheat carried over yesterday unsold; cash men say could not have been sold on less than a 3c decline; Wheat is a drug here last two days." Galveston Wheat shipments for September were 32,000 bu, against 3 224,311 bu last year. Stocks in all positions reported 4,779,000 bu, an increase of 40,000 bu. Stocks one year ago 6,840,000 bu. Contract stocks increased 1,143,155 bu and now include 1,458,714 bu, against 2,247,093 bu one year ago. The large addition was due to No. 2 Hard now being contract. *Bradstreet's* available increased 9,897,000 bu, against 12,928,000 bu increase same week in 1903. Minneapolis reported stocks increased 375,000 bu past three days. Exports were most limited and 2 boat loads accepted at the seaboard. A late Minneapolis message placed Flour sales for export at 50,000 brls. Receipts at Duluth 675 cars, at Minneapolis 508 cars, total of 1,183 cars, against 1,430 cars yesterday, 918 cars a week ago, 1,081 cars last year. Local receipts included 33 cars Winter, 21 cars Spring and 5 cars mixed, a total of 59 cars, against 113 cars last year. Included in above was no car of contract grade. There were 26 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 59 cars. Withdrawals were 52,400 bu. The receipts at Western points were 1,390,194 bu, against 1,537,026 last year. At Eastern points 13,269 bu, against 171,562 last year. Shipments from Western points 1,011,209 bu, against 734,405 last year, and from Eastern points no bu, against 91,385 bu last year. Shipments of Flour were 6,163 brls. Exports of Wheat in Flour were equal to 27,733 bu.

Future Deliveries of Regular Wheat—Moderate trade and prices lower.

OCTOBER—Sold at $1 10⅞@1 11¼. Opened at $1 11⅛; sold to $1 11¼, to $1 10⅞, and closed nominally $1 10⅞.

DECEMBER—Sold at $1 12½@1 13½. Opened with sales at $1 13¼ to $1 13⅛; sold to $1 13½, to $1 13⅛, to $1 13½, to $1 12½, to $1 13⅛, to $1 12⅞, to $1 13⅛, to $1 12¾, to $1 13, to $1 12½, to $1 12⅝ to $1 12½, and closed at $1 12½ bid.

MAY—Sold at $1 12⅝ and at $1 13¾@1 13⅞. Opened with sales at $1 13¼ to $1 13½; sold to $1 13⅜, to $1 13¾@1 13⅞, to $1 13⅜, to $1 13⅝, to $1 12¾, to $1 13½, to $1 13¼, to $1 13⅜, to $1 13, to $1 13¼, to $1 12⅝, to $1 12¾, to $1 12⅝; closed at $1 12⅝ bid.

CORN—Just a fair trade, and mainly local with the close ⅛c higher for December, while May was ¼c lower. Scattered commission house buying of December, coupled with moderate offerings caused that delivery to rule very firm and the premium over May widened out to 2⅜@2½c. Receipts were small, which with the prospect of wet and colder weather was mainly responsible for the better undertone. The strength of the cash article was also a factor, 150,000 bu No 3 Corn selling at 3½c over December in store. Arrivals were 186 cars, against 545 cars last year, and but 97 cars were estimated for to-morrow. Liverpool quoted spot and futures unchanged, though receipts the past three days were 381,000 bu of which 200,000 bu came from America. The Government weekly crop bulletin was regarded as favorable, and there was free selling of May the closing hour. *Bradstreet's* reported a decrease in the available supply of 1,899,000 bu, compared with 1,298,000 bu increase for corresponding week in 1903. Local stocks in all positions decreased 229,000 bu last week and are now reported 6,324,000 bu, compared with 6 962 000 bu one year ago. Contract stocks were increased 532,652 bu and now include 2 181,027 bu, against 2,611,329 bu same date in 1903. A large elevator system in Nebraska estimated the probable yield in that State between 225,000,000 bu and 250,000 000 bu. Western receipts, 308,000 bu, were 404 000 bu smaller than a year ago, and the shipments, 284,000 bu, were 581,000 bu smaller. Local receipts, 180,000 bu; shipments, 153,000 bu. Withdrawals here, 216,000 bu, and exports at the seaboard limited to 362 bu. Seaboard reported 16 boat loads accepted. Car lots were in good demand and with limited offerings. Prices were ¼@½c higher. No. 2 closed about 53c and No. 2 Yellow at 55¼c. No. 3 closed at 52¾c and No. 3 Yellow at 55c.

Corn by sample—Demand good and offerings small. Early sales were at ½c advance, but later the market weakened to about yesterday's prices. Sales on track and free on board: No. 4 at 52½@55½c. No 3 at 53½@54½c. No 3 Yellow at 56@56½c. No. 2 at 54½c. No. 2 Yellow at 56¼c. No. 3 White at 52¾c. No. 2 White at 54½c. Billed through: No. 4 at 51½@54¼c. No. 3 Yellow at 55@55¼c. No. 3 White at 52¾c.

Future Deliveries of No. 2 Corn—Moderately active and closed ⅛c higher to ¼c lower.

OCTOBER—Sold at 52¼@52¾c and closed at 52¼c.

DECEMBER—Sold at 51⅛@51¾c. Opened 51⅛c to 51¼c, and sold at 51½@51⅝c, to 51⅛c, to 51⅜c, to 51¼c, to 51¾c, to 51¼c, to 51⅜c, to 51⅛c, and closed at 51⅛c bid.

JANUARY—Sold at 49c and later 49⅛c bid.

MAY—Sold at 48¾c and 49⅜@49¼c. Opened at 49c to 49⅛c, and sold at 49⅜@49½c, to 49@49⅛c, to 49¼c, to 49⅛c, to 49⅜c, to 48¾c, to 48¾@48⅞c, and closed at 48¾@47⅞c bid.

JULY—Sold at 48½@49c. Opened at 49c, and sold at 48½c, and closed at 48½c.

OATS—Were stronger and closed ⅛@¼c higher. Trading was fair. A feature was the reduced offerings and the buying of December against sales for May by cash houses. Shipping business was better, with sales of 220,000 bu for shipment. Charters were for 100,000 bu. Arrivals were 232 cars, with 194 cars expected to-morrow. Withdrawals were 54,000 bu. Seaboard clearances 16,000 bu. Car lots to go to store were stronger to a shade higher. Standard in store closed at 30⅞c.

Oats by sample were in better request with prices steady to ¼c higher. Offerings were lighter. Sales on track and free on board: No. 4 White sold at 29@31⅝c. No. 3 White at 31@32½c. Standard at 32@33c. No. 2 at 30½c. Billed through: No. 4 White at 31c. No 3 White at 31½@3.¼c. Standard at 32¼@32½c. At the river: No. 4 White at 29@30¼c. No. 3 White at 30@31c. Standard at 30½@31¼c. No 2 White at 30¾c.

Future Deliveries of Contract Oats—Were stronger and higher.

OCTOBER—Neglected. Closed at 30¾@30⅞c.

DECEMBER—Sold at 31⅛@31½c. Opened at 31¼c, sold to 31⅛c, to 31½c, to 31¼c, to 31¼@31⅜c at close.

MAY—Good trading. Sold at 33⅜@33⅝c. Opened at 33⅜c to 33½c, sold to 33⅝c, to 33⅜c, to 33⅛@33½c at close.

RYE—Ruled firm. Demand fair and offerings light. Seven cars were received and none taken out of elevators. No exports from New York. No 2 in store nominally about 76c; fresh receipts free on board sold at 79@80½c, and No. 3 billed through sold at 79c.

Future Deliveries of No. 2 Rye—Firm. October nominally 76c. December sold at 78½@79c, and closed to 78½c bid. May 81c bid.

BARLEY—The market was weak and heavy, especially for the low grades. Offerings were large and the demand, while good, was not at all urgent. Maltsters and mixers were on the market and all grades of Barley were salable. To day's postings showed 159 cars inspected in, 147 cars of which graded No 3 and No. 4. Market for Screenings quotable at 21@37c for poor to very choice. Barley, feed or mixing, quotable at 36@37c; malting, low grade or fair, but very dirty, ranged at 37½@39c. Clean, fair to good, at 40@43c, and choice 46@48c. Fancy quotable at 51c; extra fancy possibly a shade over, but not on sale.

SEEDS—Flax and Timothy ruled lower. Clover was unchanged. Cash markets fairly active.

Timothy—The market for cash Seed was easy and in some instances a shade lower. Offerings were fairly liberal and the demand was moderate. Futures were inactive and just about steady. Cash sales were mainly at $2 40@2 42½, and market for country lots quotable at $2 30@2 42½ for fair to good; high-grade Seed at $2 50@2 55; choice to fancy nominally $2 60@2 65; poor Seed quotably down to $1 85@2 25; inferior lower. October delivery closed at $2 65 bid. January was offered at $2 80, and $2 75 was bid. March was offered at $2 90.

Flax—Was lower for both cash and futures. There was a small business done in cash Seed, but future deliveries were inactive. Receipts were 32 cars at Minneapolis, 97 cars at Duluth and 6 cars or 5,400 bu here. Local output was 1 car or 1 004 bu. No. 1 Northwestern or No 1 from the Northwest sold at $1 16½ down to $1 16 and closed at $1 16 bid. No 1 was salable at $1 10. Rejected ranged at $1 05½@1 14½ as to condition. For October $1 10 was bid and December was offered at $1 13.

Clover—Was nominally unchanged. There was nothing done in either cash or future deliveries. October delivery was nominally $12 15. Contract spot Seed the same. Country lots, common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 50.

Other Seeds—Millets, common or German, quotable at 75@90c for common to choice, and Mustard also about 75c@$1 00.

HOG PRODUCTS—A fairly good trade was reported in Hog Products, with the deferred deliveries gaining in favor. Outside orders were fair, and local trading was moderately active. Offerings were fair, and the demand was rather good. Market was fairly steady at the opening, and the filling of a few miscellaneous orders tended to check any decline in prices temporarily. After these were provided for, an easier feeling prevailed and prices declined moderately, and the market closed rather steady around inside figures. Hogs were in fair supply and prices higher. Receipts at the leading Western packing points were estimated at 61,200, compared with 49,100 one year ago. Foreign markets were dull and prices ruled ¼ lower on Backs and Cumberland Sides. Domestic markets steady. Receipts of Products were liberal—of Lard and Meats about 45 cars. Shipments were fair—of Lard and Meats about 152 cars. Demand on shipping account was fair, with no marked pressure to sell. Sales were fair. Prices on Dry Salted Meats were well maintained, while prices of Green and Pickled Meats inclined in favor of buyers.

Mess Pork—Trade was fairly active in Mess Pork, with the bulk of the business in January contracts. Offerings were fair, and the demand was moderately active. Market opened rather easy, and prices were 2½@5c lower, which was followed by a further reduction of 5c. Later, there was moderate miscellaneous buying and prices rallied 7½@10c. Toward the close, the feeling was easy and prices settled back 12½@15c, and the market closed rather steady. Shipping demand was light, and offerings were moderate. Cash lots quotable at $11 75@11 80.

OCTOBER—Quiet with small sales at $11 75@11 80, and closed at $11 75.

DECEMBER—Rather quiet, with small sales at $11 87½@11 95, and closed at $11 87½.

JANUARY—In fair request and offerings were moderately free. Sales were made at $13 45@13 60. Opened at $13 55 to $13 57½, sold to $13 50, to $13 60, to $13 52½, to $13 57½, to $13 45, to $13 50, to $13 47½, to $13 50, to $13 45@13 47½, and closed steady.

MAY—Called for moderately and offerings were limited. A few trades were made at $13 47½@13 50.

Lard—Quite an active business was transacted in the market for Lard, and the feeling was not quite so firm. Offerings were a little more free, and the demand was fair. Foreign advices were unchanged. More doing in January and May contracts. Market was a trifle steadier at the opening, and prices were slightly higher on the deferred deliveries. Later, an easier feeling prevailed, and prices receded 10@12½c, and the market closed rather steady. Demand on shipping account was fair, with moderate offerings. Cash lots quotably firm at 2½@5c over October figures, closing at $7 72½@7 75. Loose lots in fair request, with very small offerings. Prices quotable at 15c discount on October figures. Leaf Lard was in good demand, with very limited offerings. Quotably steady at about $7 87½ for very small lots. Neutral in light demand, with moderate offerings. Prices quotably steady at $9 25@9 37½ for No. 1, and $8 75@8 87½ for No. 2.

OCTOBER—Demand was moderate, and offerings were light. Sales were made at $7 70@7 77½. Opened at $7 77½, sold to $7 70, and closed quiet.

NOVEMBER—Called for moderately and offerings were fair. Sales were made at $7 70@7 80. Opened at $7 80, sold to $7 70, to $7 72½, to $7 70, and closed quiet.

DECEMBER—Inquiry was light and offerings were moderate. Sales were made at $7 55@7 65, and closed quiet at $7 55.

JANUARY—Offerings were fair, and the demand was moderately active. Sales were made at $7 60@7 72½. Opened at $7 67½ to $7 72½, sold to $7 62½, to $7 65, to $7 62½, to $7 65, to $7 60, to $7 62½, to $7 60, and closed steady.

MAY—In better demand and offerings were fair. Sales were made at $7 65@7 75. Opened at $7 70 to $7 75, sold to $7 70, to $7 72½, to $7 65, to $7 67½, to $7 65, and closed steady.

Short Rib Sides—Only a fair business was transacted in Short Rib Sides, and the feeling was not quite so strong. Offerings were fair, and the demand was moderate. Prices were about 2½c higher early, but an easier feeling was developed, and prices settled back 2½@5c, and the market closed comparatively steady. Trading chiefly in January and May. Demand on shipping account was fair, and offerings were light. Cash lots quotable at $8 00@8 25 according to weight.

OCTOBER—Demand was light and offerings were small. Sold sparingly at $7 95@8 00, and closed steady at $8 00.

JANUARY—Demand fairly active, and offerings were not very large. Sales were made at $6 97½@7 05. Opened at $7 02½ to $7 05, sold to $6 97½, to $7 00, to $6 97½, and closed steady.

MAY—Offerings were moderate, and the demand was fair. Sales were made at $7 10@7 15. Opened at $7 15, sold to $7 10, to $7 12½, to $7 10, and closed quiet.

Other Meats—Trade was fairly active and mainly on domestic account. Exporters bought sparingly. Offerings were not very large and inquiry was moderate. Green Meats in moderate supply with light inquiry and prices ruled easier. Pickled Meats were dull and slow sale with fair offerings, and prices ruled lower. Dry Salted Meats were in fair demand with moderate offerings, and prices favored sellers. Smoked Meats called for moderately and prices were steady. Closing prices were as follows:

DAILY TRADE BULLETIN.

Devoted Exclusively to

FINANCIAL AND COMMERCIAL NEWS.

HOWARD, BARTELS & CO., Publishers, 28 Sherman St.

Chicago, Tuesday, October 4, 1904.

Communications addressed to the publishers of the DAILY TRADE BULLETIN *will not receive attention unless postage is enclosed for reply.*

Important Notice.

In March, 1884, when it was alleged that certain market circulars compiled for the use and benefit of members of the Chicago Board of Trade, were being furnished daily to alleged "bucket shops," the following resolution was passed by the Board of Directors:

Resolved, That the President of this Board notify the above mentioned firms that such action on their part is detrimental to the interests of this Board, and that they are requested to discontinue sale of said circulars to such "bucket shops."

Apparently there was more "frost" in the "pits" than in the fields.

⁂

Supplies of Wheat and Corn in store in Argentina are unusually heavy.

⁂

The crop of Clover Seed is small, with light receipts, and prices are higher.

⁂

It is claimed that there are fewer Cattle feeding in the West this year than last.

⁂

Movement of Cattle and Sheep to market during the past week was quite large.

⁂

The Flax Seed crop of the Northwest will be about 15 per cent less than last year.

⁂

The quantity of Durum or Macaroni Wheat raised this year is estimated at 15,000,000 bu.

⁂

Estimates on the Wheat crop of France are about as wide as those of the United States.

⁂

Farmers in the Northwest evidently are satisfied with the prices paid in that quarter for Wheat.

⁂

Owing to the good crop of Barley in the Northwest, buyers are a little independent in their views.

⁂

The receipts of Grain at Chicago in September were the largest for that month since September, 1900.

⁂

Timothy Seed being marketed quite freely during the past month, and prices inclined in favor of buyers.

⁂

The area of Winter Wheat will be increased materially, except in sections where good seed Wheat is scarce.

⁂

The reported stock of Lard at the close of September—only 78,000 tcs—was somewhat of a surprise to the trade.

⁂

Receipts of Flax Seed are moderate at all the leading markets, and prices are a little more favorable to sellers.

⁂

The packing of Hogs at Chicago during the summer season has decreased about 18 per cent, partially due to the strike.

⁂

Do not be alarmed over the wants of the miller—he is evidently taking care of himself as far as Wheat supplies are concerned.

⁂

The general estimates of the Wheat crop indicate a surplus of about 40,000,000 bu for export, without drawing on supplies held over.

⁂

It is claimed that elevator proprietors at the larger central Grain markets have been free purchasers of Wheat at the Pacific Coast markets.

⁂

Private estimates make the Rye and Barley crops somewhat larger than indicated by the Department of Agriculture, and the quality of both crops rather good.

⁂

The quarterly edition of the "Red Book Annex" will be issued about October 15. It will contain the latest news of the crops and general statistics up to date.

⁂

As a rule, the reports of the yields of Grain per acre are generally slightly larger than indicated by the reported conditions of the crops during the growing season.

⁂

Very little business transacted so far in Green Meats for November, December and January delivery, as buyers and sellers are somewhat apart in views.

⁂

An unusually active demand for Lard in tanks has prevailed during the past two weeks, resulting in prices considerably out of line with the general course of trade.

⁂

The moderate Hog supply during the strike at the packing houses curtailed the production, and the active consumptive demand during the past six weeks has reduced supplies materially.

⁂

Speculators in Hog Products for delivery in January and beyond should remember that only Products made on and after October 1 are a regular delivery on such contracts. Present stocks of the speculative articles are not available.

⁂

It is evident that there is some error in the reports of the exports of Flour and Grain from the United States. While Grain may be shipped from the seaboard markets, it is not always exported—may be shipped into the interior.

⁂

Parties who sold Neutral for future delivery were a little unfortunate. The small Hog supply reduced the offerings of Leaf Lard, and the competition between buyers resulted in an advance in prices sufficient to make the contracts unprofitable.

⁂

The quality of the Oats this year still commands attention, and reports indicate that the weight is unusually heavy. Instances are frequent in some sections of the country where the weight ranges 38@40 lbs. The yield per acre is not as large as usual. The average weight is 5@7 lbs heavier than last year.

⁂

According to the statements of the railroads in the Northwest, as presented in the Duluth *Commercial Record*, the shipments of Wheat and the requirements of millers was 157,668,000 bu in the harvest year of 1903, and allowing 20,000,000 bu for seeding, would make the aggregate crop of the Northwest 177,668,000 bu for 1903.

⁂

Hogs are not arriving very freely, and this is a disappointment to the packing interest and the Provision trade generally. The high prices prevailing for Grain probably encouraged the belief among farmers that prices of Live Stock will advance. Farmers, however, are busy with their fall work, and this may be a factor in curtailing the movement.

In referring to the fact that the DAILY TRADE BULLETIN makes the only detailed statement of the Corn crop, the Duluth *Commercial Record* adds: "In this connection it should be borne in mind that all estimates of Wheat, Corn and Oats are made prior to the annual report of the Agricultural Department, and largely based on the DAILY TRADE BULLETIN figures. In making up its figures for the United States crops, the *Commercial Record* has always drawn on the DAILY TRADE BULLETIN for data, outside of the three Northwestern States."

⁂

The public should not confound the crop reports of "experts" with those of statisticians. An individual may be a "crop expert" and not be able to compile a crop report, nor give any definite particulars thereto, and his assumed knowledge may be confined to certain sections. Estimates by statisticians, as a rule, are made on reports of individual correspondents, covering as near as possible the whole area desired, and the result given to the public is the combined knowledge of numerous individuals who are supposed to know the condition of the crop in their localities. It is not the guess work of the compiler—it is the work of correspondents carefully and systematically arranged.

⁂

The branch of the Department of Agriculture known as "field agents" is a very important and useful one, and it should be enlarged to meet general requirements. These under-officials are called upon to investigate the crop conditions in a general way—in fact, to reinforce the reports of the township and county correspondents—and when considered necessary are instructed to make special investigations where there have been marked changes by an enlarged area, late seeding, violent storms, excessive moisture and floods, unusual drouth, or serious damage by insects. To do good work of this character, the territory of each official should be within reasonable bounds, and where the duties would not be excessive in cases of emergency. Possibly two or three more good and efficient field agents could be employed to advantage by the Department of Agriculture.

It is stated that there will be no contest of any sort at the annual meeting of the American Steel Foundries Company, which will be held Oct. 4. The report of the company for the year ended July 31 is now in the hands of the auditors. According to an official of the corporation, the statement will be more favorable than anticipated in August, 1903, when the depression in the Iron and Steel business began. Regular dividends at the rate of 6 per cent a year on the preferred stock will doubtless be maintained.

ITEMS OF GENERAL INTEREST.

A fire at Middlesboro, Ky., Sunday, caused a loss of $50,000.

Fire Sunday in the business section of Chillicothe, Ill., destroyed property to the extent of $75,000.

All of the $3,000,000 new bonds offered at par to the stockholders of the South Side Elevated Railroad Company, Chicago, have been subscribed.

Ranchers from Northern Montana say hundreds of thousands of Sheep are moving from their section of the State into the Yellowstone Valley to be fed on Alfalfa.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to Sept. 17 have amounted to 328,000 bu, against 576,000 bu in the previous year, and 508,000 bu in 1902.

Official announcement has been made that the proposed new mill of the Republic Iron and Steel Company will be equipped to manufacture sheet bars and steel rails.

The president of the Vera Cruz and Pacific Railroad has let a contract for the building of culverts, abutments and retaining walls all along the line, amounting to $1,000,000.

The return of the total revenue of the United Kingdom for the half year ending Sept. 30 shows a decrease of $15,253,525, compared with the corresponding period of 1903. The total revenue was $303,851,640.

During the first fortnight of September Germany imported 2,400,000 bu Wheat and exported 295,000 bu. The net importation from Aug. 1 to Sept. 15 was 7,696,000 bu, compared with 6,384,000 bu in the corresponding period of last season.

The Rock Island is said to be back of a scheme to build a new north and south line through the Wheat belt of Kansas, connecting on the north with the through line to Denver and on the south at Enid for the Gulf and Old Mexico points.

Average price of good Beef Cattle at Chicago last week, $5.15, against $5.25 the previous week, $4.85 a year ago, and $6.35 two years ago. Top price this week, $6.55, against $6.40 the previous week, $6.10 a year ago, and $8.30 two years ago.

Announcement was made at Sharon, Pa., Saturday, that the United States Steel Corporation is preparing to start its mines at Slippery Rock this week. The mines have been idle since the miners struck against a reduction in wages last January.

The new management of the Cincinnati, Hamilton and Dayton Railroad has given a "rush" order for 3,000 box cars, 50 cabooses and 70 passenger coaches. Another will soon be placed for 40 big engines, for both freight and passenger service.

Receipts of Western range Cattle at Chicago the past week, 18,000, the same as the previous week, and 2,000 less than a year ago. Receipts for the season to date, 104,000, against 97,000 in the same period last year, 167,000 in 1902, 67,000 in 1901, 101,000 in 1900, and 95,000 in 1899.

The shipments of Flax Seed from India from April 1 to date amounted to 13,952,000 bu (Calcutta 8,896,000 and Bombay 5,056,000 bu), against 13,192,000 bu last season (Calcutta 8,592,000 bu and Bombay 4,600,000 bu), and 10,176,000 bu in 1902 (Calcutta 6,912,000 bu and Bombay 3,264,000 bu).

The receipts of Flax Seed at Bombay for the week ended Sept. 1 amounted to 1,888 tons, against 1,028 tons in the previous week and 915 tons in the same week last year. The total receipts at Bombay from Jan. 1 to Sept. 1 amounted to 187,550 tons, against 132,745 tons in the same period last year.

American Malting preferred stock was bought at intervals last week by operators identified with the management. A deficit of $1,200,000 has been entirely wiped out, it is said, and the company now has a working capital created entirely out of earnings, equal to 4 per cent on the preferred stock.

East bound shipments of the past week are as shown in the following table:

The stockholders of the American Tobacco Company, the Consolidated Tobacco Company and the Continental Tobacco Company met at Jersey City, Friday, to consider the plan to merge the three concerns into one $400,000,000 corporation, but an injunction obtained by stockholders who are opposed to the project prevented the merger from going through.

Clearings of the Chicago banks for the month of September barely held the same rate of gain over last year as during the previous months of this year. The increase over September of last year was $3,051,171, or .81 of 1 per cent. For the nine months of the year to date the increase has been $62,339,618 or .81 of 1 per cent.

A Chicago Live Stock man is of the opinion that the heavy runs of Cattle featuring trade in the past few weeks will continue for several weeks longer, he believing that supplies of medium Cattle are very liberal in many sections, and with the shortage of old Corn and prevailing high prices for that cereal owners will be forced to ship.

The Detroit correspondent of the *Northwestern Miller*, under date of Sept. 26, says: "Michigan has been favored with almost perfect weather for preparing the ground and seeding the new crop. Good progress has been made and the ground is in nearly all localities in the best of condition for receiving the seed. The acreage is quite large. Seed Wheat is still in good demand."

The official crop bulletin for Italy, covering the period September 1 to 10, says that the Rice crop is being harvested, and promises to be abundant and of good quality. Corn, which has suffered from drouth, varies as to quantity and quality in different districts. A good vintage is expected throughout the country, except in the provinces where the hail has damaged the vines.

Interests closely affiliated with the United States Steel Corporation are said to hold a controlling block in the Northern Steel and Iron Company, Limited, organized with a nominal capital of $2,500,000, to take over and operate the Cramp Steel Works at Collingwood, Canada. It is said the new company will ultimately be used as the Canadian subsidiary of the Steel Corporation.

The following statement regarding the business improvement was made by a representative of the Republic Iron and Steel Company: "Within the last several days a number of consumers who have been holding back have come into the market and placed orders for future delivery. The consensus of opinion among consumers is that any further price changes will be confined to an advance."

The Fitchburg Railroad stockholders, at the annual meeting, Wednesday, approved an issue of $3,660,000 bonds, of which $3,160,000 are to replace an equal amount of bonds authorized but unissued. The remainder of the new issue is to be used to pay bonds maturing June 1, 1905, and negotiable promissory notes which were issued in connection with additions and improvements.

Announcement is made that there will be no contest at the annual meeting of the American Steel Foundries Company Oct. 4. The report of the company for the year ended July 31, according to an official of the corporation, will be more favorable than anticipated in August, 1903, when the depression in the Iron and Steel business began. Regular dividends at the rate of 6 per cent a year on preferred stock will be maintained.

Business has not sufficiently revived in the railroad equipment field to warrant increased activity or higher prices for locomotives. Engines that were selling at $18,000 last year are now on the list for $14,500. Directors of the American Locomotive Company say that the company is now passing through the period of depression for which the company piled up its large surplus instead of paying dividends on the common stock, which stock will earn a great deal less this year than it did for the period just reported in its annual statement.

Comment on the proposed issue of bonds and the payment of a 3 per cent conditional dividend on Ontario and Western stock is not particularly favorable, as it is claimed that the amount of the dividend is excessive, and can be provided for only out of the sale of the bonds. It is pointed out, however, that as a special meeting will be held on Nov. 9 to vote on the plan, it is obvious that the insiders must have the requisite amount of stock in order to insure its adoption, and that this should serve to check any considerable liquidation in the meantime.

A Minneapolis dispatch says: "Vast quantities of Flour are being shipped to all parts of the United States from Minneapolis and mills are enjoying a most prosperous run. Sales aggregating many thousands of barrels a day are reported. The world's record was completely eclipsed by the Washburn-Crosby Company on Sept. 22, when 110,000 brls, or about 550 car loads, of Flour was sold, all but an insignificant fraction of it being for domestic consumption. All mills are running at full capacity at present, daily sales of the larger firms varying from 30,000 to 70,000 brls."

Announcement is made that the prominent interests of the Pacific Packing and Navigation Company, commonly known as the "Salmon Combine," are working on another plan of reorganization. The first plan was a dismal failure. Many of the security holders of the corporation refused to enter into the agreement, but it is now understood that the relations of all concerned are harmonious and indications are that the second plan will be favorably received. A financier in close touch with the situation says that no definite statement in connection with the second plan of reorganization will be made for two or three weeks.

The opinion in Chicago railroad circles is that the sale of the Alton preferred stock deposited with New York bankers means that the road has passed into the hands of the Union Pacific and Rock Island, and will be operated as an independent system for their joint benefit. As a matter of fact it has already begun to be so operated, the exchange of traffic between the three systems having been much larger of late than formerly. It has been known for some time that the Rock Island interests have a large holding of Alton securities, and refuse to part with them on the terms offered by the trustees.

In answer to an inquiry as to what the item of $316,430, given as "income from other sources" in the annual report of the Chicago, Milwaukee and St. Paul Railroad means, the St. Paul officials state that the item is made up principally of money received from investments in stocks and bonds of other companies held by the St. Paul and interest on cash balances in banks and money loaned. The St. Paul company is well provided with cash, and without doubt a large part of the money in question came from interest on the cash carried in banks. The story that the St. Paul has a cash surplus of $20,000,000 always on hand, however, is decidedly improbable.

The *Wall Street Journal* says: "The pipe line owned by the Prairie Oil Company, which is subsidiary to the Standard Oil Company, has been completed from the Kansas and Osage Indian reservation Oil fields to Kansas City. One end of the line begins at Chanute, Kan., from which lines run southerly to Bartlesville and across the Osage territory to Red Fork in the Creek Nation, and to Caney in the extreme southern portion of Kansas. It is understood that the Standard Oil Company will extend its line into Kansas City on to Whiting, Ind., to connect with a line which runs all the way through to Bayonne, N. J. This will bring Kansas and Osage Oil through to the refineries on the Atlantic Coast."

"Southern Minnesota, South Dakota, Northwestern Iowa and Northern Nebraska have the best Corn crop they ever raised," said a Minneapolis elevator man who was in Chicago, Monday. "I was out over that territory four days last week. An examination of the Corn crop shows it to be well matured, and a light frost would help it. But there is an occasional ear that is in the milk that will be left in the field. In Northern Nebraska there are fields that will go 70 to 80 bu per acre. The point on Corn this year will be the reduced feeding demand, leaving a larger surplus for market. From our stations in Northern Nebraska last year we shipped 700,000 bu to feeders in Iowa. This year we expect to ship 1,500,000 bu to terminal markets, and very little to feeders, as less Cattle will be fed."

The Portland correspondent of the *Northwestern Miller* says, under date of Sept. 22: "Eastern Wheat buyers in Portland were nearly as numerous this week as the local operators. There are about a dozen of the Eastern buyers roaming around Oregon, Washington and Idaho, and despite the slump in the East in the past few days they are still buying freely. Sales already made for Eastern shipment have now reached a total of 10,000,000 bu, and for the first few days this week the Easterners have been taking it at the rate of about 500,000 bu a day. Thus far the railroads have been handling it about as fast as it was wanted, but as the amount already sent forward is so small in comparison with that which is to go, there are fears of a car shortage later in the season, especially if the foreign markets should improve so as again to start the Grain moving in this direction, where cars would be badly needed."

For the nine months of the calendar year ending Sept. 30 the United States Steel Corporation has made approximately $50,693,000 net. This compares with $94,333,970 the first nine months of 1903 and $101,323,000 the first nine months of 1902. While returns show unfavorably compared with the figures of last year, the conditions this year are vastly different from what they were a year ago. The fourth quarter of 1903 was the poorest of the year. The outlook for business was gloomy. The net returns for the month of December were only $3,292,139, nearly 700 per cent below the best month of the year. This year the fourth quarter will open with mills running above 70 per cent, with the capacity in operation constantly increasing and the production correspondingly advancing. It is probable that the fourth quarter will be the best this year, whereas in 1903 it was not only the poorest of the year but the poorest in the history of the corporation.

The Congress Hotel Company, Chicago, is now getting in such excellent financial shape that extra dividends at any time will not greatly surprise the stockholders. The disbursement of the present quarter resulted from exceptionally good business during the summer, partly caused by the holding of the Republican National Convention in the city. The profits were sufficiently large to permit of retiring another $100,000 of the second mortgage bonds, besides giving a part of the earnings to the holders of the common stock. The issue of second mortgage bonds, which was made by the company in 1899, has now been reduced from $325,000 to $149,000. As the bonds are closely held by the stockholders, no great difficulty is experienced by the company in securing them for the purposes of retirement. The first mortgage bonds have also been reduced $10,000 each year through the operation of the sinking fund. The company has no floating debt.

New York Exchange 25c discount.

Documentary Sterling steady at 482¼.

Chicago Bank Clearings to-day, $34,567,698.

The first trades in Wheat for July delivery in this market were made to-day.

The Ohio report makes the Wheat crop 1,811,000 bu more than the Department of Agriculture.

Deliveries on October contracts to-day were 1,000 brls Mess Pork and 200,000 lbs Short Rib Sides.

Galveston cleared only 32,000 bu Wheat for export in September. Last year exports were 3,224,-811 bu

Reported that 64,000 bu Wheat, mostly Manitoba, were sold for export to-day. There were also 48,000 bu Corn.

Nine packers purchased 11,400 Hogs to-day; shippers, 4,000; left over, 5,000. Market closed with the advance lost.

Average cost price of Hogs at Chicago, Tuesday, was $5 93, against $5 88 Monday, $6 02 a week ago, and $5 69 a year ago.

The Union Elevator and Annex, at Chicago, were made regular by the Chicago Board of Trade Directors, Tuesday.

Estimated receipts for to-morrow: Wheat, 92 cars; Corn, 119 cars; Oats, 192 cars; Rye, 7 cars; Barley, 137 cars; Hogs, 16 000.

E. B. Boyd, Esq., late of the Rock Island road, has been elected Traffic Manager of the Chicago Board of Trade Freight Bureau.

The 5,251,410 Hogs received at Chicago the first nine months of 1904 averaged 215 lbs. The same period of 1903 arrivals were 5,351,922 and the average 226 lbs.

The Milwaukee *Sentinel* claims that Milwaukee is the largest Barley market in the United States. Chicago received 1,441,000 bu last week and Milwaukee 966,000.

The Northern Pacific has announced that, beginning on Oct. 6, the rate on Wheat from Northern Pacific Coast points to St. Louis will be 52½c, or equal to the present rate to Chicago.

Cotton in New York was strengthened by better cables and by predictions of frost for the northern part of the belt. "Shorts" were scared into covering. Closing sales were 18@23 points higher.

The Ohio crop report for October makes the yield of Wheat about 18,000,000 bu, compared with 28,000,000 bu last year. Condition of Corn 73, compared with 78 one month ago and 85 one year ago. Crop maturing slowly.

President Jackson, of the Chicago Board of Trade, has been empowered to appoint a committee to represent the Chicago Board of Trade at the meeting of the Inter-State Commerce Law Convention at St. Louis, Oct. 28.

The Chicago Board of Trade Mutual Benefit Association paid out $61,604 during the past year. The following are the officials: Directors—J. W. Fernald, Chairman; Geo. W. Stone, C. L. Dougherty, Frank Marshall, and John W. Broughton. Secretary—M. D. Stovers.

For the purpose of preserving a record of the stockholders who would be entitled to rental on Oct. 15, 1904, the books of the North Chicago Street Railroad Company will close at the close of business, Wednesday, Oct. 5, and reopen at the commencement of business Monday, Oct. 17, 1904.

The *Northwestern Miller* estimates the Wheat crop of Minnesota, North Dakota and South Dakota at 173,000,000 bu, of which 164,000,000 bu is milling Wheat. The quality of the crop is estimated at 16 per cent No. 1 Northern, 36 per cent No. 2 Northern, and 48 per cent other grades.

The Iowa crop report says: "A general killing frost at any time before October 10 would unquestionably impair the quality of about 10 per cent of the Corn crop of the State, but with that percentage entirely destroyed the output of sound Corn would be above the average of the past fifteen years."

In Local Securities the feature was the renewed activity in Can shares. Common advanced ⅜ point, but sold off on profit taking; preferred advanced ⅝ and held it. Biscuit common and South Side Elevated lost ½ point. Other shares were steady. Ship Building preferred sold 7 points above the last previous trade.

The New York Stock market was a broad, active affair, with a higher range early and a good reaction later. Important developments in the leading Railway interests of the country are under way, and likely to be announced at any time. St. Paul advanced 3⅜, and reacted 2 points. Union Pacific weakened slightly, after a small rally. All other Western Railways were higher, except Wabash preferred, which declined ½ point. Industrials closed higher, save Republic Iron preferred, which lost 1 point. Coalers were ⅛ to ⅞ higher. Money 1¾ to 2 per cent.

The New York and Chicago offices of the Paper Products Company were closed down indefinitely on Saturday. It is believed that the end of the company has been reached and that there is little or no chance of its being revived. For months it has done practically no business, as the various mills have been allowed to get their own business and make their own sales and prices. The offices were kept open, however, until Oct. 1, when they were closed. The shutting down of the offices of the Paper Products Company is taken as confirmation of the stories that the plan to "lease down" a part of the mills of the country and thus curtail the production of box board has been definitely abandoned.

The president of the First National Bank of Mount Carmel, Ill., was in Chicago, Tuesday, and brought flattering accounts of the prosperity of the southwestern part of Illinois, which is one of the most fertile regions in the United States. He said: "The farmers in the Wabash Valley are rolling in plenty this fall. In the first place the Wheat crop was good, and very high prices were obtained for it. Then the Clover crop was of unusual excellence, and brought much money to the farmers. Lately, the Corn crop is one of the best, if not the best, ever seen in the section. There was so much rain during the year that the Corn, particularly in the lowlands, grew to splendid size. It is now practically out of danger from frost, and nothing can prevent a magnificent yield."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand continues very fair and prices well maintained.

WINTER WHEAT—Was slower and feeling weaker, but soft Wheat did not decline as much as futures. Millers not particularly anxious, but some little business doing. Speculative demand moderate. Among the offerings was some poor No. 4 Red. No. 2 Red in store ranged at $1 16⅞@1 12⅝ and fresh arrivals free on board quotably $1 16@1 17. No. 3 Red fresh receipts free on board sold at $1 13@1 14 and at the river at $1 12¼, with sale of 15,000 bu out of store on private terms. No. 4 Red fresh receipts free on board sold at $1 04@1 11. No. 2 Hard fresh receipts free on board quotably $1 11@1 14. No. 3 Hard fresh receipts free on board sold at $1 09 and quotable at $1 02@1 10, with sales at the river at $1 05@1 07.

SPRING WHEAT—Was quoted lower to-day, and the large premiums were somewhat reduced. Demand fair and all kinds selling, even the poor Wheat moving a little better. No. 1 Northern fresh arrivals free on board quotably $1 18@1 19. No. 2 Northern nominally $1 12@1 16. No. 3 Spring fresh arrivals sold at $1 10 for good and at $1 13 for hard variety. No. 4 Spring sold free on board at 80@85c for ordinary, at $1 00@1 05 for good and at $1 09@1 10 for hard variety, with a sale at the river at $1 04.

REGULAR WHEAT—Just a fair trade with the feeling weaker, the close showing December 1⅛c lower, while the May lost 1⅛@1¼c. Considerable "long" property came out around the opening, and as the session advanced selling became general and quite a number of stop orders were executed on the decline. The prospect of clearing weather in the Northwest, large receipts, and estimate of the *Northwestern Miller* were among the principal "bear" influences. The weakness in the Northwest was also a factor. The *Northwestern Miller* estimated the crop at 173,000,000 bu and approximate volume of milling Wheat 164,000,000 bu for the three States based on over one thousand reports. The actual acreage, it was claimed, has been greatly underestimated. Primary receipts were heavy and 716,000 bu larger than a year ago, the arrivals in the Northwest being 600 cars larger, but this showing was partially due to the heavy rains last year and mill strike at Minneapolis. Kansas City and St. Louis received 218,000 bu, against 237,000 bu last year. Minneapolis wired stocks had increased 550,000 bu the past four days. Winnipeg received 231 cars. The Ohio report made the Wheat yield 18,000,000 bu, against 28,000,000 bu last year. Liverpool quoted spot unchanged and futures were ⅜d lower. London came ⅛d lower to ⅛d higher. Liverpool was steadied to some extent by the lack of Manitoba offerings and to the Continent paying 36s for Walla Walla Wheat not yet shipped. Paris was ¼c higher. Antwerp and Berlin were unchanged. Buda Pesth came ⅜c lower. Kansas City estimates for to-morrow 139 cars, and the Wheat carried over from day to day is said to consist entirely of low grades. Clearings were again small and only 2 boat loads accepted at the seaboard. Duluth reported 2 loads for direct export and 65,000 bu to Eastern mills. Cash sales here were small. Receipts at Duluth 293 cars, at Minneapolis 774 cars, total of 1,067 cars, against 1,183 cars yesterday, 995 cars a week ago, 467 cars last year. Local receipts included 18 cars Winter, 15 cars Spring and 8 cars mixed, a total of 41 cars, against 80 cars last year. Included in above was no car of contract grade. There were 8 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 92 cars. Withdrawals were 3,000 bu. The receipts at Western points were 1,052,343 bu, against 936,624 last year. At Eastern points 37,561 bu, against 273,337 last year. Shipments from Western points 631,267 bu, against 51,347 last year, and from Eastern points no bu, against 228,115 bu last year. Shipments of Flour were 29,432 brls. Exports of Wheat in Flour were equal to 131,614 bu.

Future Deliveries of Regular Wheat—Closed lower.

OCTOBER—Sold at $1 09½@1 10¼. Opened at $1 10 and closed about $1 09⅞.

DECEMBER—Sold at $1 10⅝@1 12½. Opened with sales at $1 12½ to $1 12⅜; sold to $1 11½, to $1 12, to $1 11⅛, to $1 11¾, to $1 10⅝, to $1 11¼, to $1 10⅞, to $1 11¼, to $1 10¾, to $1 10⅞, to $1 11⅜, and closed at $1 11⅝.

MAY—Sold at $1 10⅞@1 12⅝. Opened with sales at $1 12⅝ to $1 12⅜@1 12½; sold to $1 12½, to $1 12⅛, to $1 12¼, to $1 12, to $1 12⅜, to $1 11¾, to $1 12, to $1 11⅜, to $1 11¾, to $1 11, to $1 11½, to $1 10⅞, to $1 11⅜, to $1 10⅞, to $1 11½, and closed at $1 11⅜@1 11½.

JULY—Sold at 97½c@$1 00. Opened at $1 00; sold to 98½c, to 97½c, to 98½c, to 97½c, to 99½c, to 99c, to 99¾c, to 99½c, to 99¾c, and closed at 99¾c.

CORN—Only a moderate speculative trade, but market, considering the weakness in Wheat, displayed quite a steady undertone. Closing prices showed December 1-16c lower and May unchanged. Receipts were small and map showed a good deal of rain West, which had a tendency to limit offerings. As the session advanced, however, there was more pressure to sell, but at 48¾c for May there was scattered commission house buying, which checked the decline. The Ohio report for October made the condition of Corn 73 per cent, against 78 per cent last month and 85 per cent last year, and crop reported maturing slowly. Liverpool quoted spot ⅛d lower and futures unchanged. Receipts were 126 cars, against 374 cars last year, and but 119 cars estimated for to-morrow. Clear and colder weather was predicted in the Corn belt. Iowa crop bulletin reported 90 per cent of crop safe from frost danger. Western receipts, 403,000 bu, were 204,000 bu less than a year ago and shipments, 452,000 bu, were 617,000 bu less than a year ago. Local arrivals were 230,000 bu and shipments 352,000 bu. Withdrawals here were 121,000 bu and exports were larger than of late at 195,000 bu. Local shipping demand moderate, with holders very firm. The East in some instances offered to resell. Southwestern markets were steady. Seaboard reported 5 boat loads accepted. Car lots were in good demand and moderate supply. Prices were easy and sales almost exclusively by sample. No. 2 closed at 53c and No. 2 Yelow at 55¼c. No. 3 closed at 52¾c and No. 3 Yellow at 55c.

Corn by sample—Was quiet. Offerings were small. Demand fair. Feeling easy and prices unchanged to ¼c lower. Sales on track and free on board: No Grade sold at 50@52½c. No. 4 at 53@56c. No. 3 at 53¼@55½c. No. 3 Yellow at 56@56¼c. No. 3 White at 54c. Billed through: No. 4 at 51@54¾c. No. 3 at 55c. No. 3 Yellow at 54@55¼c. No. 2 Yellow at 55½c. No. 3 White at 52¾@53c.

Future Deliveries of No. 2 Corn—Moderately active and comparatively steady and closed about the same as yesterday.

OCTOBER—Quiet. Sold at 52c and closed at 52c.

DECEMBER—Sold at 50⅞c and 51⅜@51½c. Opened at 51¼c to 51⅜c and sold at 51⅜@51½c, to 51¼c, to 51⅜c, to 51@51⅛c, to 51¼c, to 50⅞c, to 51⅛c, to 51@51⅛c, and closed at 51@51⅛c.

JANUARY—Sold at 48⅞c.

MAY—Sold at 48⅝@49⅛c and 49⅛c. Opened at 49c to 49⅛c and sold at 48⅞@49c, to 49c, to 48¾c, to 48⅞c, to 48⅝@48¾c, to 48⅞c, to 48¾@48⅞c, and closed at 48¾@48⅞c.

JULY—Closed about 48½c.

OATS—Were stronger and slightly higher early, but weakened and closed ⅛c lower. Trading was fair. Cash houses were buying to take off hedges, but business was slow—50,000 bu. Arrivals were 147 cars, with 192 cars expected to-morrow. Duluth had 230,000 bu and Minneapolis 150 cars. Seaboard clearances were 15,000 bu. Car lots to go to store were rather slow and easier. No. 4 White sold at 31@31¼c. No. 3 White at 31½c. Standard in store closed at 30¾c.

Oats by sample met with less demand and while supplies were not heavy they were ample, and prices steady to ½c lower. Sales on track and free on board: No Grade 29@31c. No. 4 White at 31c. No. 3 White at 30½@32c. Standard at 31¼@32½c. No. 2 at 30¼@31c. No. 2 White at 32½@33c. Billed through: No. 4 at 30¾c. No. 4 White at 27@30¾c. No. 3 at 30¾@31c. No. 3 White at 31½c. Standard at 31¾@32c. No. 2 at 30½c. No. 2 White at 32¾c. At the river: No. 4 White at 29@30c. No. 3 White at 30@31c. Standard at 30½c. No. 2 at 29¼c. No. 2 White at 31@31¼c.

Future Deliveries of Contract Oats—Were stronger early and easier later.

OCTOBER—Slow. Closed at 30¾c.

DECEMBER—Sold at 31¼@31½c. Opened at 31⅜c, sold to 31½c, to 31¼c, and closed there.

MAY—Active. Sold at 33⅜@33⅝c. Opened at 33½c to 33⅝c, sold to 33⅜c, to 33½c, to 33⅜c at close.

RYE—Was firm. Demand good and offerings light. There were six cars received and none withdrawn from store. No export clearances from New York. No. 2 in store nominally 76½c, and fresh arrivals free on board sold at 78½c for poor and at 80¼c for choice. Billed through No. 3 sold at 78c, and No. 2 at the river at 77c.

Future Deliveries of No. 2 Rye—Firm. October nominally 76½c. December sold at 78½c. May 82½c bid and 81c asked.

BARLEY—One thing favorable could be said of the market. It was that feed or mixing Barley, the grade below malting, was in very fair demand, salable and a shade firmer, going mainly at around the outside of late quotations. Malting Barley was in a dumpy state. There was a good deal of the low grade and medium. Only a few buyers were operating to any extent. Usually they took only a few cars or none. Sellers complained a good deal. The feeling was weak and prices were variously quoted as not materially changed to 1@2c lower. Considerable Barley by some was held over because the bids were not up to views of holders. Eighty-nine cars inspected in. Screenings quiet and quotable over a range of 26@37c for poor to very choice. Barley, feed or mixing, local, sold at 37c; malting, low-grade or fair, but very dirty, ranged at 38@39c. Clean, fair to good, at 40@41c, and choice quotable at 46@48c. Fancy up to 49@50c and extra fancy possibly a shade over.

SEEDS—Dullness and quietness prevailed in this market. A good supply of cash Timothy appeared, but otherwise little cash seed was offered. Tone of the market inclined to be easy for all but Clover, which was stronger.

Timothy—There was a slow, heavy cash market. Fair offerings appeared, of an uneven quality, and demand was tame. Some concessions had to be made by sellers. Speculative market entirely neglected. Sales made from $3 12½ for rather high grade to $2 25 for rough Seed, $1 80 for poor, and below for inferior. Country lots quotable at $2 30@2 40 for fair to good; high-grade Seed at $2 42½@2 50; choice to fancy nominally $2 55@2 60; poor Seed quotably down to $1 85@2 25; inferior lower. October delivery was $2 70 asked. January was nominal at $2 80. March was offered at $2 87½ and $2 80 was bid.

Flax—Nothing to speak of was done and the sale of a car of cash Flax was the full extent of the business done. Market generally neglected. Local receipts only 2 cars or 1,800 bu, and taken out 7 cars or 7,864 bu. At Minneapolis the receipts were 83 cars; at Duluth 60 cars. No. 1 Northwestern or No. 1 from the Northwest sold at $1 16, which was ½c lower, and marked the only change in prices. No. 1 was salable at $1 10. Rejected quotable at $1 05@1 14 as to condition. October $1 10 bid and December again offered at $1 13.

Clover—Was called firmer, about ½c better for the contract grade. Rainy weather in some parts of the Clover territory was cited as the cause. There were no offerings here and no transactions. October delivery was nominally $12 25. Contract spot Seed the same. Country lots, common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 50.

Other Seeds—Inactive. Millets, common or German quotable at 75@90c for common to choice, and Mustard also about 75c@$1 00.

HOG PRODUCTS—Trade was rather active in the market for Hog Products, and the feeling was easier. Outside orders were fair, and local trading was quite active. Packers inclined to sell the longer deliveries with considerable freedom. Near deliveries were easier, with rather light trading. Prices ruled lower on all the leading articles, and the market closed around inside figures. Hogs were in fair supply and prices higher. Receipts at the leading Western packing points were estimated at 55,700, compared with 54,000 one year ago. Foreign markets were dull and easy, with a reduction of 6d in prices of Hams, Lard and Cumberland Sides. Domestic markets steady. Receipts of Products were unusually heavy—of Lard and Meats about 63 cars. Shipments were quite large—of Lard and Meats about 222 cars. Shipping demand was fair, and offerings were not very free. Sales were fairly large, and prices were without material change.

Mess Pork—A fairly good business was reported in Mess Pork, and the feeling was easier. Offerings were rather free, especially for January delivery, and the demand was only fair. Market opened rather steady, but soon weakened, and prices declined 20@22½c. Toward the close, the feeling was steadier, and prices rallied 2½@5c, and the market closed comparatively steady. Shipping demand was light, and offerings were moderate. Cash lots quotable at $11 60@11 70.

OCTOBER—Demand was light and offerings were limited. Sales were made at $11 50@11 70. Opened at $11 70, sold to $11 50, to $11 52½, to $11 50, to $11 52½, and closed quiet.

DECEMBER—In rather light request and offerings were moderate. Sales were made at $11 65@11 85, and closed at $11 65.

JANUARY—Offerings were free and the demand was fair. Sales ranged at $13 27½@13 50. Opened at $13 47½ to $13 50, sold to $13 35, to $13 37½, to $13 30, to $13 32½, to $13 30, to $13 32½, to $13 27½, to $13 32½@13 35, to $13 32½, and closed steady.

MAY—In moderate demand and offerings were rather light. Sales were made at $13 30@13 42½, and closed quiet at $13 30.

Lard—A fairly good trade was reported in the Lard market, and the feeling was easier. Offerings were moderately free, and the demand was fair. Foreign advices less favorable to holders. Market opened rather steady, but soon weakened, and prices declined 10@12½c, and closed steady around inside figures. Demand on shipping account was fair with moderate offerings. Cash lots quotably firm at 2½c over October figures, closing at $7 60@7 62½. Loose lots in fair request, with very small offerings. Prices quotable at 10c discount on October figures. Leaf Lard was in good demand, with very limited offerings. Quotably steady at about $7 87½ for very small lots. Neutral in light demand, with moderate offerings. Prices quotably steady at $9 25@9 37½ for No. 1, and $8 75@8 87½ for No. 2.

OCTOBER—Offerings were fair and the demand was moderate. Sales were made at $7 57½@7 62½. Opened at $7 62½, sold to $7 57½, to $7 60, to $7 57½, to $7 60, and closed steady.

NOVEMBER—Sold sparingly at $7 57½.

DECEMBER—Demand light and offerings were moderate. Sales were made at $7 45@7 50, and closed at $7 45.

JANUARY—In fair request and offerings were rather free. Sales were made at $7 50@7 62½. Opened at $7 62½, sold to $7 50, to $7 52½, and closed steady.

MAY—Called for moderately and offerings were only fair. Sales were made at $7 57½@7 65. Opened at $7 65, sold to $7 57½, and closed quiet.

Short Rib Sides—Trade was fair, and the feeling was easier during most of the session. Offerings were fairly liberal, and prices ruled 7½@10c lower for January and May, and closed easy around inside figures. October was stronger early, and sold 7½c higher, but receded again 15@17½c, and closed rather steady. Shipping demand was fair, and offerings were small. Cash lots quotable at $8 00@8 25 according to weight.

OCTOBER—Demand moderate, and offerings were light. Sales were made at $7 90@8 07½. Opened at $8 07½, sold to $7 95, to $7 97½, to $7 90, to $7 92½, and closed steady.

JANUARY—Offerings were fair, and the demand was moderate. Sales were made at $6 90@7 02½. Opened at $7 02½, sold to $6 92½, to $6 95, to $6 90, to $6 92½, to $6 90, and closed steady.

MAY—Demand was somewhat limited and offerings were fair. Sales were made at $6 95@7 05. Opened at $7 05, sold to $6 95, to $6 97½, and closed steady.

Other Meats—Trade was only fair and mainly on domestic account. Exporters bought sparingly. Offerings were not very large and inquiry was moderate. Green Meats in moderate supply with light inquiry and prices ruled steady. Pickled Meats were dull and slow sale with fair offerings, and prices ruled steady. Dry Salted Meats were in fair demand with moderate offerings, and prices favored sellers. Smoked Meats called for moderately and prices were steady. Closing prices were as follows:

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Sept. 29.]

Wheat—The great activity noticed in our previous two issues continues throughout the country and farmers are all busy hauling their season's crop to local warehouses. Work is about over and the entire crop secured. This is the first time in years that threshing was finished by October 1. From on farming with the comparatively considerable time in speculating whether they should dispose of their crop. Sales are made daily on the basis of 70c to 72c at interior points; that means from 80c to 82c for Club and 85c to 87c for Bluestem. For Eastern shipment Red and Club Wheat is quoted 86c. coast, and Bluestem 88c. Considerable Wheat is coming down to Portland at present for shipment abroad, and quite a number of vessels were chartered during the week, for spot loading both at Portland and Tacoma. Opinions differ about the quality of Wheat sold for Eastern markets, but the conservative people in the trade say the same will not exceed 7,000,000 bu. One of the greatest drawbacks in the shipment of Wheat East is the scarcity of cars, and shippers are unable to move promptly the great demand existing. The railroads are taxed to the utmost in trying to give shippers cars, but must look after the regular channels of trade as well.

Warehouses are filled to the utmost capacity all over the country; in some sections platforms had to be erected to accommodate the overflow. Foreign cargo markets have responded to a certain extent during the past week and vessels were chartered for loading Wheat abroad. Never in the history of the Wheat trade have farmers sold so early in the season as they have this year. The showers that have fallen during the week were very opportune, breathing life into the entirely dry weather this country has known for twenty years. Rain is badly needed for fall seeding and other farm work. The little rain has caused farmers to begin plowing and seeding, the latter being point to a very large acreage of fall Wheat, as recent experiences have shown that fall Wheat yields far better than that sown in the spring. The high prices obtained for Wheat during 1903 also have a tendency to increase the acreage of Wheat throughout the different sections of Umatilla, Sherman, and Palouse country, as well as in sections of Idaho

Flour—This market has taken a change. Instead of heavy demands from the Orient for our output, orders are coming in more actively from Eastern States, and European and South African have placed orders to be shipped to the respective places mentioned. The demand from Eastern centers does not in our best knowledge continue during the week, and the mills in the interior of the State are enjoying a lucrative trade and obtaining prices that could not be obtained from Orient ports. Japan is not in need of any Flour for the present, and the demand from China is only fair. The mills in the country would have been in a bad shape if they had not secured the Eastern and Western orders, but as it is there is hardly a mill, no matter how small, which is not grinding Flour for shipment outside of its own territory. The demand from South America and Australia and California is calling for more Flour than usual. Coast mills are handicapped in securing orders from Eastern and Southern points on account of the freight rate, but they are supplying other sections. The export shipments for the week would total fully 55,000,000 bu. On May 2 we issued a report saying that the acreage of Spring and Winter Wheat was close on to 2,500,000, and estimating the crop, barring climatic conditions at 60,000,000 bu. On Aug. 1 we reduced those figures 5,000,000 bu, owing to the drouth in the Willamette Valley and Shade of Wheat in two counties by frost, to 55,000,000 bu. On Sept 4 the editor left for a tour over the entire Northwest, and returned after an absence of twenty-three days, in which time he visited the principal Wheat stations. We find that the Spring Wheat crop was entirely raised on dry ground, and owing to the drouth that prevailed in June, July and early August the crop was cut down from 16 to 20 bu per acre in some sections over the first estimate made. The crop damage was entirely overestimated by some parties, and greatly exaggerated. In submitting these figures we desire to say that the same have been made conservatively, and in some sections large amounts of Wheat will be retained by farmers for seeding and home consumption. The crop of 1901 was 53,290,000 bu, so our readers can see that, notwithstanding the very large acreage this year, the crop of 1901 was not exceeded this year. One week of rain the latter part of last month would have given us a crop of 60,000,000 bu and over of Wheat.

The *Commercial Review* submits the following figures as its final report of the Wheat crop of 1901:

The second installment of subscriptions to Southern Pacific preferred stock, amounting to 25 per cent, were paid in New York, Monday, and the stock is now being quoted with 50 per cent paid in. It will not be issued until some time in early December. These payments were made without any disturbance whatever in the call money market.

THE HOP SITUATION.

[New York Producers' Price Current, Oct. 1.]

Oregon and Washington are now reported to be almost through picking Hops. Buying has been so active in all three Pacific Coast States that it is now figured that California is 90 per cent and Oregon and Washington 80 per cent sold out. This, combined with the fact that New York State is about 60 per cent sold, and that occurrences in that have not happened in the trade for many years. Ordinarily at this season of year dealers are only beginning to look at samples, but this year buying has been so active that it is hard to find anything. The buying on the Coast is almost entirely for London orders. It is reported that 30c has been paid in Sonoma and 28c in the Russian River section. In Oregon and Washington also the going price. New York State prices remain unchanged with steady buying. Reports from England, especially from London, are that it would appear that English dealers are neglecting their own Hops, as producers are holding values at too high a figure. Choice East Kent Goldings are quoted at 230s. A report of the Hop crop received in Germany and Austria, with prices ranging from 170 to 190 marks. The local market continues quiet, but very strong.

OUTLOOK FOR COTTON.

WASHINGTON, Oct. 3.—The monthly report of the chief of the Bureau of Statistics of the Department of Agriculture shows the average condition of Cotton on Sept. 24 to be 68.9 per cent, as compared with 84 last month, 65.1 on Sept. 25, 1903, 58.6 on Sept. 25, 1902, and a ten-year average of 66.8.

The following table shows the condition by States on Sept. 25 in each of the last three years, and that on Aug. 25, 1901, with the ten-year averages:

States—	Sept. 25, 1901.	Aug. 25, 1901.	Sept. 25, 1902.	Sept. 25, 10-yr. av.

LARGE BUCKWHEAT CROP.

The *American Miller* publishes a report on the crop by millers in the principal Buckwheat sections. The reports indicate that while the acreage is, if anything, slightly smaller than last year, the yield is considerably larger and the quality of the grain good. So far frost has not been in evidence to any great extent and harvesting has proceeded under favorable conditions. The average condition on Sept. 1, as reported by the Government, was 91.5, against 91 at the corresponding date in 1903, and a ten-year average of 85.5. Last year the final returns showed a crop of 14,597,000 bu, which was 383,126 bu under the crop of 1901. Present reports indicate that the 1904 crop will be as large, if not larger, than those of the last two years, which were larger than any crop since 1891 years. A feature of the situation is the high prices at which the early crops are being marketed. Last year the average price of Buckwheat per bu was 60.7c, but this year, owing to the strength in Oats, the opening prices range from 70@75c. Well-posted millers look for a slight decline as soon as the crop begins to move freely, but it is probable that the lover of Buckwheat will pay a good price for the delicacy throughout the season.

ILLINOIS CROP BULLETIN.

SPRINGFIELD, Oct. 4.—The crop bulletin for the week ended Oct. 3 says:

Cloudy weather, with temperatures considerably above the seasonal average, prevailed throughout the week. Sept. 29 to Oct. 2 inclusive was a very excessive rainfall, but the latter part was mostly rainless, and farming operations, which had been suspended because of the wet conditions, were resumed. Plowing for Wheat and Rye is practically finished, and seeding made some progress, except in the southern districts.

The condition of the Corn crop continues very satisfactory. Scarcely more than one-fifth of the crop remains exposed to frost in northern sections, and the portion remaining exposed in the central counties will be matured sufficiently by less than one-twentieth. Many fields of Corn throughout the northern and central districts have been down for some time, and considerable damage probably will ensue.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 39 to 84; warmer, general, Southwest—Temperature 30 to 44; light-general rains, heaviest on Sept. 29 to 30. West—Temperature 39 to 86; cloudy; rains in Iowa. Southwest—Temperature 50 to 72; cloudy; light rains in Missouri, showers in Kansas. Ohio Valley—Temperature 56 to 72; cloudy.

Weather forecast is that threatening weather in this section will pass away to-night and be fair Thursday, with cooler weather of the season.

ITEMS OF GENERAL INTEREST.

The annual meeting of the stockholders of the Northern Pacific Railway Company has been adjourned to Dec. 6.

A telegram from Minneapolis, Tuesday, said: "Country elevators full. Receipts of Wheat limited by scarcity of cars."

Texas Cattle receipts at Chicago last month were 14,373 Cattle and 3 914 Calves, against 9,083 Cattle and 6,649 Calves for the previous month.

A permit was issued, Saturday, by the State Auditor at Springfield, Ill., to Organizer Van Security Life and Casualty Company, with a capital stock of $200,000.

A canvass of the exporters at Atlantic and Gulf ports shows that practically no Corn has been sold abroad for forward shipment. Last year considerable business had been booked by this time.

The London *Standard* Tokio correspondent reports that a conference of Japanese bankers met to issue immediately a third domestic war loan of $40,000,000, completing the loans for the current fiscal year.

It is reported that the Louisville and Nashville Railroad Company will erect shops at Louisville at a cost of $2,500,000, which will build Locomotives and every kind of equipment needed by the road.

The London Stock Exchange committee has granted an official quotation to the Southern Railway Company's additional extended voting trust certificates for $50,400,000 common stock and $14,000,000 3 per cent non-cumulative preferred stock.

The fight for the control of the Chicago and Alton Railroad ended, Monday, when the contending factions reached an agreement under which the road will be operated for two-year periods by the Illinois Pacific and Rock Island interests alternately.

Directors of Atchison Railway Company will hold their regular monthly meeting, Wednesday. This is the regular time for action on the semi-annual dividend on the common stock, and there is no reason for doubting that the regular rate of 2 per cent will be declared.

The latest returns of the earnings of the American Railways Company show noticeable improvement, particularly on the Joliet line, due partially to the recent increase of its wearing forces by the Illinois Steel Company, and it is anticipated that the business during the latter half of this month will be substantially better than for the first two weeks, when the gross showed an increase of about 25,000.

Railroad officials expect a heavy west bound movement of freight during the coming winter. They base their expectations on the high prices which farmers are now obtaining for their products. While at times in the past prices for Wheat or other Grain may have reached a level as high as or higher than at present, it is doubtful if there ever was a year when the farmer stood in a position to obtain as high prices for all the Products of his farm as he does now

One of the most modern blast furnaces in the United States, that of the Buffalo Iron Company, Lackawanna Iron Company, has just been successfully blown in at Buffalo. Its annual output will be about 225,000 tons. The plant represents the most modern ideas in blast furnace construction, and is undoubtedly be an important factor in the country's iron trade. The company controls its Ore mines, Coke supply, its Limestone, and through subsidiary corporations, the transportation of all these raw materials

The total capitalization of corporations chartered in Eastern States during the months of September and October is reported at $60,000,000. This indicates an increase of over 100 per cent from the August total, which, however, was the low water mark of a long period. Perhaps the most significant suggestive feature of the September returns is that whereas in 1903 the total capitalization decreased from $166,000,000 in July to $49,000,000 in September and $48,000,000 in October, the September of this year there has been an improvement from the July total.

A Buenos Ayres cable says: "The chief of statistical division of agriculture of Argentina, says: 'Area under cultivation in Wheat and Linseed is considerably in excess of last year.' Assuming that climatic and other conditions will be normal, the estimated crop of Wheat at 3,500,000 hectares, Flax Seed at 1,600,000 tons. Deducting necessary quantities for internal consumption and for seed, he estimates Wheat surplus available for export at 2,300,000 tons and Flax Seed at 750,000 tons. A total of 93,000,000 bu available for surplus out of a total Wheat crop of 131,400,000 bu."

The Chicago and Oak Park Elevated Railroad, in connection with other elevated railroads in the city, experienced a decrease of traffic for the month of September, as compared with September of last year. On the main line, not including transfers from the Consolidated Railway Company, the daily average of passengers carried during the month was 39,338, as compared with 41,248 in September of 1903. This is a decrease of 1,910, or nearly 5 per cent. On the entire system, including transfers, the decrease was 2,815 passengers daily, or 6.29 per cent.

The annual report of the South Side Elevated Railroad Company, for the fiscal year ended June 30 has been made to the Illinois Railroad and Warehouse Commission It is in many respects the best ever made by the company. Receipts from passengers increased $142,000 over the previous year, while total operating expenses, including loop rental, increased only $91,971. The amount applicable to stock increased $41,971, although $15,000 more was charged off to depreciation than in the previous year. The total applicable to stock was $576,516, which amounts to 5.6 per cent on the outstanding issue. The reduction was made in the ratio of operating expenses to gross earnings.

A serious difficulty has arisen between the Canadian Pacific Railway and the Dominion Government, and as a result of their differences they have agreed to submit the case to the Supreme Court of Canada at the coming term. By its agreement with the Government the Canadian Pacific is forced to allow the Government to have control of its rates when the net income of the company exceeds 10 per cent per annum of profit upon the capital actually expended in the construction of the line. The Minister of Justice says that the company has now reached this stage, while the officials of the company strenuously maintain that it has not.

The Chicago *Inter Ocean* says: "The Rockefeller interests are declared to have secured an option on the estate of the late P. B. Cornwall, and if the report is true the Bingham Bay and British Columbia Railway may fall into the hands of the Chicago, Milwaukee and St. Paul railway as an outlet to the Pacific. J. O. Mills, one of the principal stockholders of the new transcontinental line, regularly friendly to the Rockefeller interests. The Bellingham Bay and British Columbia Road now extends fifty miles from the country direction. Its route to the extreme eastern part of the State has been surveyed, and construction, it is said, is planned to begin next year."

Regular the amalgamation of the Chicago and Oak Park Elevated Railroad Company, it is known that the Blairs of New York have changed their plans with regard to it considerably since the reorganization. Propositions were made to stockholders in the road regarding the operation of the road after the reorganization have not been kept. Some of the larger independent stockholders who have protested regarding the matter have been met with offers to purchase their shares. Several have taken advantage of the offer, and a number of the stock in the company have passed to the Blairs rather recently at prices ranging 10 to 15 points. It is suggested that the Blairs can hold control of the Oak Park and Northwestern Elevated lines with considerably less capital by thus combining them than by keeping them separate.

A plan has been perfected and underwritten for the readjustment of the capital and finances of the St. Louis Transit Company and United Railways Company of St Louis, by which the latter assumes certain obligations of the Transit company and the operation of its street railway properties The transit stock is to be exchanged for the common stock of the United Railways Company, in the form of voting trust certificates, in the proportion of two shares of the United Railways common for five shares of Transit stock The plan and contracts for the carrying out of the plan of readjustment have been formally accepted and approved by the boards of both companies. There is a reduction in capitalization of $33,000,000. Working capital has been provided for the United Railways Company and a reserve of preferred way stock to meet future requirements.

A telegram from Wellsville, Ohio, says: "One of the most sweeping orders ever adopted for the discharge of men who had attained a certain age limit was put into effect, Friday, by the Pennsylvania Railway system. It is far more stringent than that recently made operative by the Carnegie Steel Company, placing a ban on the employment of men over 35 years of age, in that it not only provides against the employment of men who have reached that age, but even goes so far as to decree that all men who were hired after they were 35 shall not be retained. As a result of the company's edict more than 1,000 employes on the Northwest and Southwest systems of the company were thrown out of their positions Friday. The investigation into the number of men hired after they were 35 has not been completed, but it is expected that several hundred more will be discharged within the next few days."

Trade Review of Sept. 24 says: "The French Millers' Association estimates the Wheat yield of France at 110,000,000 hectolitres (304,000,000 bu), while companies with 146,000,000 hectolitres (400,000,000 bu) are estimated by the same authority in 1903. The official estimate for 1903 was 355,000,000 bu. The French home requirements are roundly 344,000,000 bu per annum, and even if we allow very liberally for stocks in hand and for imports, the estimated for this year cannot be held to represent more than 320,000,000 bu, but this deficit of 24,000,000 bu could be easily covered by the quantity carried over from last season, and there is still a surplus of 56,000 000 bu It must be remembered, however, that the Millers' Association naturally leans towards big figures in its estimates, as demonstrated by last year's data, and besides some reserves must always be held. The estimate is not of an alarmist character, but it indicates that France may be expected to look to foreign Wheat for home consumption this season."

The Atchison Topeka and Santa Fe Railway Company has declared the regular semi-annual dividend of 2 per cent on its common stock, payable Dec. 1. Books close Nov. 10 and reopen Dec. 2.

Cotton in New York was unsettled, but averaged higher. On the advance heavy selling for profits gave the price a good setback. "Bull" leaders were active buyers on all breaks. Closing sales were at declines of 10@15 points.

Local Securities were irregular, with trading reduced. Can common broke ⅜ point and recovered part. Box Board common was the most active and averaged lower. Swifts and South Side Elevated advanced ½, and Street's common lost ½.

Since the summer of 1895 over $1,000,000,000 of bonds have been created and sold in New York as a result of the merger principle, the purchase of railroad stocks by other railroad companies, and the issue of non-voting securities in place of the stock bought.

The average yield of Wheat in the Northwest, according to the *Northwestern Miller*, is 11.1 bu, compared with 10.95 bu by the DAILY TRADE BULLETIN. The difference between the former and all reports presented in detail is in the largely increased returns of acreage.

Weekly statement of the Bank of England shows a decrease of £5,087,205 in Bullion. The proportion of the bank reserve to liability is now 53.30 per cent, against 57 50 per cent last week, and compares with a decline from 43⅞ per cent to 42⅞ per cent for the same week one year ago.

A voluntary petition in bankruptcy was filed in the United States District Court, Chicago, Wednesday by Frank E. Roberts, Produce Commission dealer at 227 South Water Street. Liabilities amounting to more than $279 000 were scheduled, the assets aggregating but $4,500.

Stocks in New York were weak and lower for the greater part. Heavy realizing sales were the feature. Western Railway shares lost ¼ to 1¼. Eastern were off ⅛ to ⅝. A feature was the break of 3¾ in Anaconda, and an advance of 4 points, with a reaction of 1½, in Delaware and Hudson. Money, 2 per cent.

The Cincinnati *Price Current* reports the packing of the West for the week at 330,000 Hogs, compared with 330,000 for the week previous and 295,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 11,680,000 Hogs, compared with 11,835,000 for the corresponding time last year—a decrease of 155,000 Hogs.

The Cincinnati *Price Current*, in its weekly crop summary, says: "Favorable week for Corn. Crop practically made and considerably exceeding last year, with total above 2,400 000 000 bu. Rains have favored Wheat seeding, increasing the area considerably over last year. Moderate marketing of all Grains, with the holding sentiment widely prevailing."

The Missouri Corn crop this year will be 175,000,000 bu. The State report for October confirms the report issued in September. The condition is 77, or 2 points more than in September, and 23 per cent of the crop is safe from frost. The yield last year was 204,000,000 bu. A loss of 5 per cent is reported in the area sown to Winter Wheat for the harvest of 1905, and condition is 92.

The *Northwestern Miller* estimates the area of Spring Wheat of 19.4 in the Northwest, and the yield, as follows.

States—	Acres.	Yield per acre, bu.	Total yield, bu.
Minnesota	6,090,200	12.0	72,989,200
North Dakota	5,460,000	11 7	63,954,000
South Dakota	4,116,000	9.0	37,037,030
Three States	15,666,200	11.1	173,978,200

Traffic over the Baltimore and Ohio in the month of September was the largest in that road's history. In the house or merchandise freight handled at the big Baltimore and Ohio freight station at Pittsburg the tonnage exceeded the highest record of any other month by several thousand tons. Large gains were also made at other important centers on the record.

The Ohio crop report for October gives the yield of Wheat at 18,693,067 bu, compared with 28,000,000 bu last year. The area harvested was the lowest in twenty-five years, with the exception of 1896 and 1900. Of the Wheat area seeded last fall 18 per cent, or 338,128 acres, were plowed up. The yield is less than half of a full crop for the State, the product per acre being about four bushels short of a good average.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—A fair demand is reported and market is in healthy condition. Prices steady.

WINTER WHEAT—A good demand was reported for choice Wheat, and sales of 25,000 bu besides several car lots were reported. The market for cash held relatively steadier than the futures, and prices did not suffer as much decline. Prices about 1c lower. No. 2 Red in store quotably $1 09¾@1 11⅛ and fresh arrivals free on board quotably $1 15@1 16. No 3 Red fresh arrivals free on board sold at $1 10@1 15½—outside very choice. No. 4 Red sold at 95c@$1 05 for poor to good, and a very choice car sold at $1 15. No. 2 Hard fresh receipts free on board quotably $1 11@1 13. No 3 Hard fresh receipts free on board sold at $1 03½ and quotable at $1 03@1 10. No 4 Hard at the river sold at 90c.

SPRING WHEAT—Was off about 1c in sympathy with the speculative market. Demand good for choice Wheat and receipts small. No. 1 Northern fresh arrivals free on board quotably $1 17@1 18. No. 2 Northern nominally $1 12@1 15. No. 3 Spring fresh receipts free on board sold at $1 05@$1 12 for ordinary to good and a car hard variety sold at $1 14, with a sale at the river at $1 07. No. 4 Spring sold at 72c for poor, at 80@90c for common, at 95c for fair, at $1 02@1 03 for good and $1 12 for hard variety.

REGULAR WHEAT—The close was 2c lower for the December, while the May lost 1½. The market was moderately active and rather unsettled early, but later developed a weak tone and closed as noted above. Receipts were large, cables lower and Corn weak, all of which affected values adversely, and liquidation of "long" property became general as the session advanced. There was a lack of support and the decline was not checked until December touched $1 09⅛ and May $1 09¾. Northwest cars were 205 ahead of last year and primary receipts 303,000 bu larger. Minneapolis reported stocks increased 675,000 bu the past five days. Kansas City and St. Louis received 160,000 bu, against 169 000 bu last year. The Northwest markets were weak and the Southwest was credited with selling freely on the decline. The *Price Current* stated that rains had favored Wheat seeding, increasing the area considerably over last year, and the Missouri October report showed the area of Wheat sown for the next crop 5 per cent less than last year and the condition 92 per cent. Liverpool quoted spot steady to ⅛d lower and futures were off ¾@⅞c. London came ¼d lower. Liverpool was easy on the reported rains in Australia and cheaper Manitoba offerings. Paris declined ¼@½c and Antwerp was off ⅛c. Berlin was steady and Buda Pesth off ⅛c. London reported a good demand for cargoes on ocean passage. Argentine shipments estimated at 800 000 bu. Kansas City estimated receipts to-morrow at only 89 cars. Italian crop was estimated at 112,000,000 bu to 130 000,000 bu, as against 181,450,000 bu one year ago. Winnipeg had 211 cars, against 620 cars for two days one year ago. July sold at $1 10 at Toledo yesterday and at $1 00 to-day. Duluth wired the situation was healthier and Eastern demand improved, that country offerings were not burdensome and predicted Eastern requirements would easily take care of offerings. Clearings at the seaboard were limited and only 8 boat loads accepted, mostly Manitoba. Sales here 25,000 bu. Receipts at Duluth 269 cars, at Minneapolis 528 cars, total of 797 cars, against 1,087 cars yesterday, 796 cars a week ago, 572 cars last year. Local receipts included 55 cars Winter, 17 cars Spring and 9 cars mixed, a total of 81 cars, against 101 cars last year. Included in above was no car of contract grade. There were 10 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 18 cars. Withdrawals were 6,700 bu. The receipts at Western points were 1,192,547 bu, against 889,928 last year. At Eastern points 8,740 bu, against 19,264 last year. Shipments from Western points 624,391 bu, against 963,870 last year, and from Eastern points no bu, against 6,661 bu last year. Shipments of Flour were 8,500 brls. Exports of Wheat in Flour were equal to 38 277 bu.

Future Deliveries of Regular Wheat—Fair trade at lower prices.

OCTOBER—Not much doing and ranged from $1 09½ to nominally $1 07⅞ and closed about $1 07⅞.

DECEMBER—Sold at $1 09⅛@1 11½. Opened with sales at $1 11¼ to $1 11⅛; sold to $1 11½, to $1 11¼, to $1 11, to $1 11½, to $1 10⅞, to $1 11¼, to $1 10⅝, to $1 10¾, to $1 10 to $1 10¼, to $1 10½, to $1 09⅛, and closed at $1 09⅜ bid.

MAY—Sold at $1 09¾@1 11⅝. Opened with sales at $1 11¼ to $1 11⅛; sold to $1 11⅝, to $1 11⅛, to $1 11⅛, to $1 11⅛, to $1 11⅛, to $1 10⅞, to $1 11, to $1 10½, to $1 10⅝, to $1 10⅜, to $1 10⅝, to $1 10¼, to $1 10, to $1 10⅛, to $1 09¾@1 09⅞, to $1 10, to $1 09¾, and closed at $1 09⅞@1 10.

JULY—Sold at 98@99¼c. Opened at 99¼c; sold to 98⅞c, to 99¼c, to 98½c, to 99c, to 98½c, to 99c, to 98c, and closed at 98c sellers and 97½c bid.

CORN—A heavy trade and weaker tone the close showing December 1⅜@1½c lower and May off 1⅝@1¾c. Crop reports were "bearish" and the early selling was led by cash and receiving interests. Selling became general as the session advanced, while support was poor, and considerable "long" property came out on stop-orders. The *Price Current* reported the past week favorable for Corn and the crop practically made and considerably exceeding last year, with the total above 2,400,000,000 bu. The Missouri State report made the condition of Corn 77 per cent, against 75 per cent last month, and 73 per cent safe from frost, and yield 175,000 000 bu, against 204,000,000 bu one year ago. Private and press dispatches from Iowa estimated crop of that State at 300,000,000 bu to 305,000,000 bu. The large shipments estimated from Argentina this week, 3 200,000 bu, was also a "bear" factor. Liverpool quoted spot steady to ¼d lower and futures down ⅜d. The map showed heavy frosts in Iowa and frosts were predicted for Illinois and Indiana, but weather received less consideration. Receipts were small, 140 cars, making 718 cars for five days, against 2,066 cars last year, and but 78 cars estimated for to-morrow. Country acceptances of old Corn increasing, but moderate of new—about 50,000 bu new for December delivery. Western receipts only 291,000 bu; last year 423 000 bu. Shipments 684,000 bu and 193,000 bu respectively. Local arrivals 153,000 bu and shipments 532,000 bu. Withdrawals large 700,000 bu. Exports light—1,000 bu. Southwestern markets were weak. The *Orange Judd Farmer* estimated crop outlook on October 1 about same as on September 1, fully maintaining a crop above 2,200,000,000 bu. Shipping demand moderate and sales 50 000 bu. Seaboard reported 5 boat loads accepted. Car lots were in good demand and offerings small. Prices ½@1½c lower. No. 2 sold at 54⅜c and closed at 51¾c. No 2 Yelow closed at 54c. No. 3 sold at 52¾c and closed at 51½c. No. 3 Yellow closed at 53¾c.

Corn by sample—Offerings were small and the demand only fair; in fact a little slow. Feeling weaker and prices unchanged to ½c lower. Sales on track and free on board: No Grade sold at 50c. No. 4 at 52½@55¼c. No 3 at 53¼c. No 3 Yellow at 55@56c. No. 2 Yellow at 56¼c. Billed through: No. 4 at 50¾@51¼c. No. 3 at 52@53½c. No 3 Yellow at 53½@55c. No. 3 White at 52c.

Future Deliveries of No. 2 Corn—Fairly active with much weaker undertone, the close showing losses of 1⅜@1¾c.

OCTOBER—Inactive; closed nominally 50⅝c.

DECEMBER—Sold at 49¼@51⅛c. Opened at 51@51⅛c and 51c, and sold at 51⅛c, to 50⅝c, to 50⅝@50¾c to 50⅛c, to 50¼c, off steadily to 49¾c, to 50c, to 49½@49⅝c, to 49⅝c, and closed at 49⅝c bid.

MAY—Sold at 46⅝@48⅞c. Opened at 48⅝c to 48⅞c, and sold at 48⅛c, to 48¼@48⅜c, to 48¼@48⅛c, off steadily to 46⅝c, to 47¼c, to 47c, to 47⅛c, and closed at 47⅛c asked.

JULY—Sold at 47@48⅛c. Opened at 48⅛c, and sold off to 47c, and closed at 46¾c nominally.

OATS—Were steady early, but weakened with other Grains and closed at the bottom at losses of ½@¾c. The break was started by the liquidation of a line of December. It precipitated selling by holders of May and met little resistance in the shape of buying orders. At 33c for May, however, resting orders in hands of commission houses absorbed a good part of the offerings, but a l buyers were filled up. Arrivals were 203 cars, with 112 cars expected to-morrow. Cash sales were slow—25,000 bu here and 30 000 bu at New York, the latter for export. Seaboard clearances were 510 bu. Car lots to go to store were steady to ½c lower. No. 3 White sold at 30¾c. Standard at 31½c.

Oats by sample were steady to ¼c lower. Supply not heavy, but demand showed a falling off. Sales on track and free on board: No. 4 White at 29½@31c. No. 3 White at 30¾@32c. Standard at 31¼@32½c. No. 2 at 30½c. No. 2 White at 31¾c. Billed through. No. 4 White at 29¾@30½c. No 3 White at 30¾@31c. Standard at 31¼@31½c. At the river: No. 4 White at 28¾@30c. No. 3 at 29½c. No. 3 White at 29½@30½c. Standard at 30¼@30¾c. No. 2 at 29c.

Future Deliveries of Contract Oats—Were active and lower.

OCTOBER—Closed at 30½c.

DECEMBER—Weak. Sold at 30½@31¼c. Opened at 31⅛c to 31⅛@31¼c, sold to 31¼c, to 30½c, and closed there.

MAY. Active. Sold at 32¾c and 33⅝@33½c. Opened at 33⅜c to 33¼c; sold to 33¾c, closed at 32⅞c.

RYE—Was firm early and weakened off later, in sympathy with decline in other Grains. Demand light and offerings moderate. There were eight cars received and 2,000 bu withdrawn from public elevators. No export clearances from New York. No. 2 in store nominally 76½c, and fresh receipts free on board sold at 80c, and billed through at 79c.

Future Deliveries of No. 2 Rye—Light trading. Early prices were advanced 1c, then declined ½c, and closed easy. October nominally 76½c. December sold at 79c to 79½c and closed at 79c sellers. May, 81c asked.

BARLEY—The low grade or feed Barley was salable at the late price. For malting grades the experience was not so satisfactory. By most buyers an indifference was shown. Most of them took but little, they report ample stocks. Supply was good. Some Barley held over was sold and some fresh in was again held over. Sellers found it impossible in some cases to obtain what they thought was fair value, or what would approach the views of shippers. Some called the market steady and some called it lower. It was a dull market. Demand as stated was light and competition entirely absent. Bulk of trading at the inside range of quotations. Of choice to fancy Barley only occasional cars appear. Ninety-three cars inspected in. Sales of Screenings were made over a range of 27@37c for poor to choice, and even over so wide a range only a few cars were sold. Barley, feed or mixing, local remained at 37c; malting, low-grade or fair, but very dirty, ranged at 38@39c. Clean, fair to good, at 40@42c, and choice quotable at 45@48c. Fancy possibly a shade over. Main sales at 37@41c; only scattering cars above.

SEEDS—A fair quality of cash Timothy offered caused for that line an easy feeling; futures also weaker. Lower prices prevailed in the Flax market. All other lines were nominally unchanged.

Timothy—A weak feeling prevailed in the cash market. Offerings fair and demand tame. To sell cash lots prices had to be shaded. cash Seed said to be going at about inside prices so far on the crop. Nothing was done in futures; buyers and sellers apart. January was quotably 2½@5c lower and the rest without change. The sales were at $2 00@2 50 for poor to choice. Country lots quotable at $2 25@2 35 for fair to good; high-grade Seed at $2 40@2 45; choice to fancy $2 50 and possibly a shade over; poor Seed quotably down to $1 85@2 15; inferior lower. October delivery was offered at $2 70. January was on sale at $2 77½ and $2 75 bid. March again offered at $2 87½ and $2 80 was bid.

Flax—To-day's quotations, and they were for the most part nominal, indicate 2c decline. The market was lower in the Northwest and it seemed to be this which had the influence in shaping prices here. No offerings aside from a car or so of cash Seed. Only 2 cars or 1,800 bu came in and 2 cars or 2,083 bu taken out. Minneapolis received 62 cars and Duluth 55 cars. No. 1 Northwestern or No. 1 from the Northwest sold at $1 14. No. 1 was $1 08 bid. Rejected quotable at $1 01@1 12 as to quality. October $1 08 bid and December $1 11 bid.

Clover—No Clover offered and the market received no attention whatever. It was nominally unchanged. October delivery was nominally $12.5. Contract spot Seed the same. Country lots, common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 50.

Other Seeds—No market; nominal as follows: Millets, common or German quotable at 75@90c for common to choice, and Mustard about 75c@$1 00.

HOG PRODUCTS—Only a moderate business was transacted in Hog Products. Outside orders were lighter, and local speculators and packers were not inclined to do much trading. Offerings were not very large, and the demand in a general way was somewhat limited. Hogs were in fair supply and lower, and the receipts at the leading Western packing points were estimated at 45,000, compared with 49,700 one year ago. Returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited an increase of 35 000 Hogs. Foreign markets were quiet and easy, and Liverpool quotations were reduced 6d on Cumberland Sides and Hams, and 3d on Lard. Domestic markets rather quiet. Receipts of Products were good—of Lard and Meats about 31 cars. Shipments were small—of Lard and Meats only about 70 cars. Prices were rather irregular for Mess Pork and Short Rib Sides, while Lard was stronger and prices slightly higher. Shipping demand was only fair and offerings were not very large. Sales were moderate, and prices rather inclined in favor of buyers.

Mess Pork—A comparatively small business was reported in Mess Pork, and the feeling was rather easy. Offerings were moderate and the demand was light. Market opened rather steady, and a few trades were at 2½@5c advance, but a weaker feeling was soon manifested, and prices settled back 5@10c. Toward the close, January rallied 15@20c, but settled back 10@12½c, and the market closed rather steady. Shipping demand was light, and offerings were moderate. Cash lots quotable at $11 55@11 65.

OCTOBER—Demand light and offerings small. A few trades made at $11 52½@11 60. Opened at $11 50, sold to $11 52½, to $11 55, and closed steady.

DECEMBER—Inquiry light and offerings were moderate. Sales were made at $11 62½@11 65, and closed steady at $11 65.

JANUARY—Offerings were fair and the demand was moderate. Sales were made at $13 20@13 40. Opened at $13 35, sold to $13 20, to $13 40, to $13 27½, to $13 27½@13 30, and closed steady.

MAY—Demand fair and offerings were moderate. Sales were made at $13 22½@13 30, and closed steady at $13 30.

Lard—A fair business was reported in the Lard market, and the feeling was stronger. Supplies are steadily decreasing, and "shorts" are a little anxious about their outstanding contracts. Market opened rather steady at about the closing figures of Wednesday, but a stronger feeling was developed, and prices rallied 7½@10c. Toward the close, settled back 2½c, and the market closed rather steady around outside figures. Foreign advices were unfavorable to holders. Demand on shipping account was fair with moderate offerings. Cash lots quotably steady at 2½c over October figures, closing at $7 70@7 72½. Loose lots in fair request, with very small offerings. Prices quotable at 15c discount on October figures. Leaf Lard was in good demand, with very limited offerings. Quotably steady at about $7 87½ for very small lots. Neutral in light demand, with moderate offerings. Prices quotably steady at $9 25@9 37½ for No. 1, and $8 75@8 87½ for No. 2.

OCTOBER. In fair demand and offerings were small. Sales were made at $7 60@7 72½. Opened at $7 60, sold to $7 72½, to $7 70, and closed steady.

DECEMBER. Inquiry was moderate and offerings were rather light. Sales were made at $7 52½@7 55 and closed quiet at $7 55.

JANUARY—In fair request and offerings were only moderate. Sales were made at $7 52½@7 60. Opened at $7 52½, sold to $7 57@7 57½, to $7 52½@7 55, to $7 60, and closed steady.

MAY. Called for sparingly and offerings were moderate. Sales were made at $7 57½@7 65. Opened at $7 57½, sold to $7 60, to $7 57½, to $7 65, and closed steady.

Short Rib Sides—Only a moderate business was transacted in Short Rib Sides, and the market was comparatively steady. Offerings were not very large, and the demand was rather light. Prices exhibited very little change. Shipping demand was only fair, and offerings were not very large. Cash lots were quotable at $7 90@8 10, according to weight.

OCTOBER—Offerings were light and the demand was limited. Sales were made at $7 92½@7 95. Opened at $7 95, sold to $7 92½, to $7 95 and closed steady.

JANUARY—Demand was moderate and offerings were only fair. Sales were made at $6 87½@6 92½. Opened at $6 90, sold to $6 92½, to $6 87½@6 90, to $6 92½, to $6 90, and closed steady.

MAY—Quiet, with small sales at $6 97½@7 00.

Other Meats—Trade was only fair and mainly on domestic account. Exporters bought sparingly. Offerings were not very large and inquiry was moderate. Green Meats in moderate supply with light inquiry and prices ruled steady. Pickled Meats were dull and slow sale with fair offerings, and prices ruled steady. Dry Salted Meats were in fair demand, with moderate offerings, and prices favored sellers. Smoked Meats called for moderately and prices were steady. Closing prices were as follows:

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city

Again the Minneapolis mills have increased their output. As compared with the week immediately preceding, last week's output showed an increase of 8,230 brls. For the current week the output is likely to be about the same as for last week. Possibly it will be slightly less than last week, but this week's output should be about 320,000 brls

While Minneapolis millers are not enthusiastic about market conditions they generally admit having sold about as much as their output, though some report sales last week as somewhat behind those of the week before. The orders continue to come mostly from domestic markets in scattering lots. Many Eastern dealers are still "bearish" on the situation and averse to buying for more than immediate needs, instead of stocking up rather heavily as usual at this time of the year.

This reticence on the part of buyers is not altogether an evil from the millers' standpoint; some millers on the contrary think they see in it a promise of a steadier business throughout the season.

The inquiry from abroad, which has not been active for a long time, is even slacker than usual this week. Especially is it poor from the Continental markets like Holland. There is some inquiry for cears from London, but this has dwindled off considerably and with any talk of advanced price· buyers seem to lose interest altogether.

Wheat receipts at Minneapolis continue on the increase Oct 3 they were no less than 1,094 cars, a considerable advance over 777 cars, the record receipts a week ago. This makes it much easier for millers to obtain supplies for their mills. In spite of the heavy receipts, however, the Wheat market shows a tendency to advance, which cuts into the milling profits in a manner not relished by millers.

Feed continues to have a downward tendency, most grades showing a decline of 50c on the week At the same time prices are still on a fairly high level and mills have no difficulty in disposing of their output. Many mills are sold ahead on Feed. Bulk Bran ranges from $14 00 to $14 50 per ton on track here.

Minneapolis and outside mills quote Patent Flour at $5 90@6 10 in wood, f.o.b Minneapolis.

Eastern prices to-day (Oct 1) asked by Minneapolis and outside mills for Patent in wood were: Boston rate points, $6 65; New York rate points, $6 60, Baltimore rate points, $6 50; Philadelphia rate points, $6 55; Albany rate points, $6 60; Rochester and Syracuse rate points, $6 55; Buffalo rate points, $6 45; Michigan, $6 15 in sacks; Iowa, Illinois and Wisconsin, $6 20 in sacks; Missouri points, $6 05 in sacks.

PRODUCTION OF GOLD AND SILVER.

Australia	89,210,100	5,225,700
Totals	$325,527,200	$92,039 600

The total number of ounces produced is given as 170,443,670.

These figures show a gain over the output of 1902 of $29,637 600 in Gold and 9,109,331 ounces in Silver. The commercial value of the Silver output is $6,532,400 greater than in 1902, at the average price of 54c per ounce, compared with 53c in the previous year

The most important gains in Gold were $28,974,000 in Africa and $7,631,300 in Australia, and the most serious loss was in the United States. The most important change in Silver production was in Mexico, which reports an increase of 10,323,338 fine ounces. Australasia shows a gain of 1,656,819 ounces.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Oct. 5]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of 41 "outside mills" with a daily capacity of 31,800 brls, from Jan. 1, 1904, to Sept. 24, 1904, with comparisons:

	1904— Flour, brls.	1904— Wheat, bu.	1903— Flour, brls.	1903— Wheat, bu.
Minneapolis	9,642,605	42,948,000	10,948,825	49,270,000
Duluth	576,565	2,595,000	724,810	3,262,000
41 outside mills	4,921,470	22,147,000	4,960,050	22,320,000
Totals	15,040,640	67,684,000	16,633,685	74,852,000

These figures represent the approximate consumption of 7,168,000 bu less Wheat this year than in 1903. This has occurred from the mills of Minneapolis and Duluth as well as the outside mills turning out 1,593,045 brls less Flour than in 1903.

NINE MONTHS' BANK CLEARINGS.

Clearings of Chicago banks in September show a slight increase over those of the corresponding month last year. About the same percentage of increase is shown for the first nine months this year. The total amount of checks passed through the clearing house this year up to the close of business Sept. 30 was slightly in excess of $6,500,000 000, the increase over the figures for the corresponding period of 1903 being $52,500,000, or about .8 per cent. These figures do not indicate any active increase in general business over that of last year, a large part of the gain in clearings being due to the extremes of speculation on the Board of Trade

Following are the figures on the clearings by months so far this year as compared with those of last year:

	1904.	1903.	Increase.	Per cent

A Boston dispatch says: "A free movement of Wool continues in the Boston market. Some stocks of Wool have become surprisingly low for his early in the season. This is especially true of medium grades. Territory Wools are selling actively at firm prices. Pulled Wools are steady. There is little doing in foreign Wools on spot."

The Pennsylvania Railroad Company has awarded contracts for 600 Steel hopper Coal cars to the Pressed Steel Car Company and the Cambria Steel Company, each concern to build 300. Eighty passenger coaches will be built in its various car shops in Philadelphia, Wilmington, Del., and Altoona, and at Meadow, N. J. Orders have also been issued for the building at the Altoona shops of twenty-five powerful freight engines, to be used on the lines west of Pittsburg.

The annual report of the Minneapolis and St. Louis Railway shows a gross earnings decrease of $414,907, a net earnings decrease of $196,331, and a surplus of $206,077. Dividends were paid of 5 per cent on preferred and 2½ per cent on common, leaving a net deficit of $51,622. The decrease in business is attributed to two causes, bad crops in the road's territory for two consecutive years and the loss of the Rock Island connection, that system having built its own road into the Twin cities.

The statement of operations of the American Ship Building Company for the fiscal year ended June 30 last reflected the great depression in the shipbuilding business on the great lakes. Net earnings fell off $1,184,666, being more than cut in two. Charges were considerably lighter, and the preferred stock dividend was paid with a moderate surplus over. The amount applicable to the common stock was $187,127, or 2.46 per cent. This compares with $868,754, or 11.43 per cent, earned in the previous year, and $1,184,257, or 15.58 per cent, earned in 1902.

A New York dispatch says: "The Union Pacific Railroad has sold out its entire holding of Northern Securities to a syndicate consisting of the Missouri Pacific and St. Paul, representing the Rockefeller-Gould interests, and hereafter the Northern Pacific, St. Paul and Missouri Pacific will be operated in close harmony with the Burlington, while the Atchison and Union Pacific will form a close alliance, and the Great Northern will again assume its independence, with James J. Hill and J. P. Morgan as its dominating interests."

The Chicago *Inter Ocean* says: "Kansas City deluged the trade here, Wednesday, with assorted reports regarding the quantity of Wheat on track there. One report said '100 cars on the tables and no sales. Considerable held in drawers which have not been sold, estimated at 300 cars. There is no demand, and 2 cars sold at 2c decline.' Another message said: 'No demand for cash Wheat; quite a little offered, but no one seems interested at the moment; 200 cars on track.' Another message said: 'Five hundred cars on track, the accumulation since last Saturday.'"

New Jersey may no longer be the State of trusts. Western States, it is declared, will amend their laws to make possible the organization of immense combines The odium of "New Jersey trusts" cast upon corporations formed there is cited as the reason for the disbandment of many firms organized under New Jersey laws, and the reorganization in other States The National Grocery Company, incorporated under Michigan laws, Saturday, with a capital of $3,500,000, is the leader of what it is claimed will become a trust exodus from New Jersey.

The exports for August stand at $90,090,659, as against $87,556 344 last year, or an increase of about 3 per cent. The exports for the eight months are $833,095,727, against $859 659,331, which is also a decrease of about 3 per cent

A Sioux City, Iowa, dispatch says: "Homesteaders of land formerly in the Government grant to the Sioux City and St. Paul Railroad won a decisive victory in the Federal Court here, Tuesday, when eleven cases were disposed of in their favor. The values involved in these cases are $125,000. It is taken to mean that the homesteaders in scores of other suits pending, involving more than $1,000,000, will win. The fight has been in progress for years. The homesteaders first got patents and the purchasers from the railroad sued for possession in the State and Federal Courts."

With one exception, that of 1902, last month was the best September in the history of the New York Stock Exchange so far as volume of transactions are concerned, and it nearly equaled even September, 1902. The par value of the listed and unlisted stocks and State and railroad bonds in the two years was as follows:

September—	Par value
1902	$2,179,589,700
1904	1,976,438,400

It was in September, 1902, it will be remembered, that the "boom" reached its speculative height, and the average price of twenty railroad stocks touched 129.30.

Theodore P. Wilcox, president of the Portland Flouring Mills Company, Portland, Ore., says: "Notwithstanding that prices are much higher than they were last year, the farmers will not sell their Wheat. Six million bu have already been bought in this territory for Eastern account, but I do not believe that all of our Wheat is going in that direction. Notwithstanding predictions which are being so freely made, I expect quite a heavy demand for Europe, and during the past few days the Portland Flour Mills Company has chartered two vessels which will be sent Wheat laden in that direction. The immediate tendency is toward higher prices for Wheat, and I will risk my reputation on the prediction that dollar Wheat will rule the market before next April "

Official announcement was made, Wednesday, by the president of the First National Bank, Chicago, of the completion of the plan to take up the floating debt of the Republic Iron and Steel Company and provide the company with the money needed for completing its plan of improvements and extensions Two and three-year notes to the amount of $7,000,000 have been made, secured by an issue of $10,000,000 first mortgage bonds deposited with the First Trust and Savings Bank, trustee under the mortgage. Enough of the notes have already been sold to take up the Republic Company's floating debt and give it needed cash, and the remainder have been placed so that the company will have the rest of the money ready as fast as it needs it None of the notes are to be offered to the public. The entire deal, in fact, is already completed.

The whole situation as regards bank credits is summed up in the following table showing the deposits and loans and percentages of loans to deposits in the month of September in the past seven years:

Sept.	Deposits.	Loans and discounts.	Percentage of loans to deposits.
1898	$2,479,687,044	$2,155,961,627	87.0
1899	3,031,463,016	2,495,751,907	82.3
1900	3,280 985 590	2,686,753,612	81.8
1901	3,661 614 311	3,018,615,918	82 4
1902	3,844,365 339	3,280, 27 480	85.3
1903	3 863,512,112	3,481,166,722	90.1
1904	4,400,000,000	3,726,151,419	84.6

This shows to what dangerous heights the volume of credits was raised last year. There has been in the past year a notable reduction, but the percentage of loans to deposits is still higher than in any year except 1903, 1902, and 1898. Banks have relieved themselves to a large extent of a burden which at one time seemed almost too heavy for them.

The *Paper Mill* says: "Something entirely new has been developed in the Box Board industry during the past few days. Heretofore the efforts of the United Box Board and Paper Company have been directed toward securing a firmer and more complete control of the entire industry than it has heretofore held, either by means of the operations of the Paper Products Company in controlling the sale of the product of the entire industry, or by the means of what is generally termed 'the leasing down plan.' But the results have not been as satisfactory as the officials of the United Box Board and Paper Company could wish, and therefore they have virtually executed an 'about face' by offering to lease to the owners of the independent mills all the cylinder machines controlled by the company, at a price equivalent to about 7 per cent of its bonds, and something more than 2 per cent on its preferred stock. The idea is imposing in its simplicity, but whether the independent mills can get together in an organization of sufficient cohesion and of sufficient financial strength to accept the proposition is another matter. At all events, the offer is something entirely new in the history of the operations of large industrial consolidations "

For the corresponding week last year the exports were 227,000 brls of Flour and 842,000 bu of Wheat.

REVIEW OF TO-DAY'S MARKETS.

WINTER WHEAT—Was quotably about 2c lower, and ruled relatively not so weak as the futures. The demand was fair and the offerings light—soft Wheat especially scarce. No. 2 Red in store quotably about 2c over May, while a few days ago it was quoted the same as May and ranged at $1 10@1 12; fresh arrivals free on board quotably $1 14@1 15. No. 3 Red fresh arrivals quotably $1 09@1 12, but no sales reported. No. 4 Red a choice car soft sold at $1 12 and ranged down to 95c for common. No Grade Red sold at 85c. No. 2 Hard fresh arrivals free on board quotably $1 10@1 14, with sale of a car at the top figure. No. 3 Hard fresh arrivals free on board sold at $1 02½@1 09½ for ordinary to good. No Grade Hard at the river sold at $1 03. No. 3 White free on board sold at $1 09.

SPRING WHEAT—Ruled weaker and prices about 1@2c lower. Receipts small, offerings light and demand fair. Hard variety of Wheat of good grade wanted. No. 1 Northern fresh arrivals free on board ranged at $1 15@1 17. No. 2 Northern fresh receipts free on board sold at $1 16. No. 3 Spring fresh receipts free on board quotably $1 04@1 14, with sale of a car hard variety at $1 14, and a car at the river at $1 08. No. 4 was quotable at 70@75c for very poor, to $1 06½ for good, with sales free on board at $1 06½ and at the river at $1 02@1 04.

REGULAR WHEAT—A good trade, with the feeling a continuation of that prevalent yesterday, liquidation being general and the close ⅞c to 1@1⅛c lower than yesterday. Favorable weather, lower cables, "bearish" advices on the Flour situation at Buda Pesth, weakness in coarse Grains, favorable Argentine crop news and continued liberal receipts all combined to discourage holders, and "long" property came out in large quantities. Rumors, which were unconfirmed, of trouble at Minneapolis also exerted the same influence on values. Liverpool quoted futures ⅝@¾d lower, and London came 1¼@1¾d lower. Paris declined 1@1¼c. Antwerp unchanged. Berlin advanced ⅜c and Buda Pesth 1⅛c. Argentina shipped 928,000 bu, making 83,221,000 bu since January 1, against 58,998,000 bu for same period in 1903. Visible reported at 3,016,000 bu; last week 3,352,000 bu, and 1,328,000 bu one year ago. Primary receipts five days 7,201,000 bu; previous week 8,144,000 bu, and 6,995,000 bu one year ago. Local weekly receipts 588,000 bu and shipments 313,000 bu. Receipts in the Northwest five days 4,258 cars; previous week 5,766 cars, and a year ago 4,535 cars. Minneapolis stocks expected to increase 900,000 bu and Duluth increase 1,000,000 bu. Exports this week again very moderate at 1,103,000 bu and since July 1 aggregate 19,303,000 bu against 42,712,000 bu one year ago. Duluth reported 250,000 bu sold yesterday for shipment East. Flour sales at Milwaukee and Minneapolis were reported liberal. Winnipeg had 271 cars; last year 164 cars. India shipped 1,304,000 bu. *Modern Miller* was "bearish." The *Orange Judd Farmer* estimated the crop at 550,000,000 bu. Receipts at Duluth 326 cars, at Minneapolis 555 cars, total of 881 cars, against 797 cars yesterday, 938 cars a week ago, 667 cars last year. Local receipts included 24 cars Winter, 14 cars Spring and 8 cars mixed, a total of 46 cars, against 64 cars last year. Included in above was no car of contract grade. There were 16 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 78 cars. Withdrawals were 6,025 bu. The receipts at Western points were 1,235,715 bu, against 1,040,797 last year. At Eastern points 44,613 bu, against 120,042 last year. Shipments from Western points 480,797 bu, against 661,737 last year, and from Eastern points no bu, against 42,992 bu last year. Shipments of Flour were 4,579 brls. Exports of Wheat in Flour were equal to 20,605 bu.

Future Deliveries of Regular Wheat—Good trade and market irregular.

OCTOBER—Almost entirely nominal and closing about $1 08¾.

DECEMBER—Sold at $1 07@1 09½. Opened at $1 09⅛ to $1 09⅜; sold to $1 09½, to $1 08⅞, to $1 09, to $1 08⅝, to $1 09⅛, to $1 08⅝, to $1 08½, to $1 07⅝, to $1 07¾, to $1 07⅜, to $1 07⅞, to $1 07, to $1 08⅛, to $1 08, to $1 08½, to $1 08¼@1 08⅜, and closed at $1 08¼@1 08⅜.

MAY—Sold at $1 08@1 10⅛. Opened at $1 09⅞ to $1 09½, sold to $1 09⅝, to $1 10@1 10⅛, to $1 09⅝, to $1 09⅞, to $1 09½, to $1 10⅛, to $1 09¼, to $1 09⅜, to $1 08½, to $1 08¾, to $1 08⅜, to $1 08¾, to $1 08, to $1 09, to $1 08⅝, to $1 09, and closed at $1 09 bid.

JULY—Sold at 96½@97¼c. Opened at 97¼c; sold to 97⅛c, to 97¼c, to 96½c, to 97c, and closed at 97c.

CORN—Liquidation of "long" property was again much in evidence and the close ⅞c lower for December, while the May lost ¾c. Favorable weather, lower cash values, weak cables, the holiday and fear of a "bearish" showing in the Government report Monday were among the depressing influences. Support was of the indifferent sort. Liverpool was ⅝d lower on futures and ½@¾d lower on spot. Argentine shipments heavy at 3,670,000 bu, making 67,127,000 bu since January 1, against 57,573,000 bu one year ago, and visible there 5,400,000 bu; previous week 5,476,000 bu, and 3,914,000 bu last year. Southwestern markets weak. Showery warmer weather indicated. Receipts 96 cars and 222 cars expected Monday. Kentucky State report indicated yield below an average. Local weekly receipts 874,000 bu; shipments larger at 1,710,000 bu. Exports this week 652,000 bu and since July 1 aggregate 8,495,000 bu against 13,818,000 bu one year ago. Primary receipts this week (five days), 1,631,000 bu; previous week, 2,614,000 bu; year ago, 3,141,000 bu. New York reported a good export demand, with 48 loads worked or working, mostly new and for December and January shipment. Withdrawals here 90,000 bu. Shipping demand moderate. Car lots were weak and 2@3c lower. Sales all by sample. No 2 closed at 50¾c. No 2 Yellow closed about 52¼c. No. 3 closed at 50½c. No. 3 Yellow sold at 52¼ and closed at 52½c. No 4 sold at 50c. Cash sales here 150,000 bu.

Corn by sample—Compared with the sales of yesterday, prices showed a reduction of 2@3c. Demand fair at the decline. Offerings very moderate. Sales on track and free on board: No. 4 sold at 50@54c. No 3 at 51½c. No 3 Yellow at 52½@54½c. No. 3 White at 51@52c. No 2 White at 51½c. Billed through. No. 4 at 48½@52c. No 3 at 51½c. No. 3 Yellow at 53½c. No. 3 White at 50@51c.

Future Deliveries of No. 2 Corn—Active and weak and closed ¾c to ⅞c lower.

DECEMBER—Sold at 48¼@49½c. Opened at 49½c to 49⅜c, sold at 49½c, to 48⅞c, to 49⅛@49¼c, to 49⅛c, to 49¼c, off to 48¼c, to 48⅞c, to 48½c, to 49c, to 48¾c, and closed at 48¾c bid.

MAY—Sold at 45¾@47c. Opened at 47c to 46⅝c, sold at 46⅞c, to 46⅜@46½c, to 46¾c, to 46½@46⅝c, to 46⅞c, to 46⅛@46¼c, to 46⅝c, to 46c, to 46¼c, to 45¾c, to 45¼c, to 46c, to 46⅝c, to 46⅜c, and closed at 46⅛c bid.

JULY—Sold at 45½@46¼c. Opened at 45⅞c, and sold at 46¼c, off to 45½c, to 46c, and closed at 46c bid.

OATS—Were liberally traded in early, but became quiet later. Prices receded ⅜c, and were only ⅛c off at the close. Provision interests and Northwestern "shorts" were the best buyers. The selling was led by "longs" and by the pit element. Cash business was 25,000 bu. Arrivals were 126 cars, with 230 cars expected to-morrow. Withdrawals were 137,550 bu in all positions. Duluth had 152,000 bu and Minneapolis 91 cars. Seaboard clearances 48,000 bu. Car lots to go to store were ½c lower. No. 3 White at 30½c. Standard in store closed at 30c.

Oats by sample were in rather indifferent demand and prices ½c lower. Offerings increased. Sales on track and free on board: No. 4 White at 29@31¼c. No 3 at 29½c. No. 3 White at 30@31½c. Standard at 30¾@32c. No 2 at 29½@30c. No 2 White at 32c. Billed through: No 4 White at 30¼c. No 3 at 29½c. No 3 White at 30¼@31c. Standard at 30½@31c. At the river: No 4 White at 28¼@29¼c. No. 3 at 29c. No. 3 White at 28¾@29¼c. Standard at 29½@30c.

Future Deliveries of Contract Oats—Were weaker and lower, but rallied at the close.

OCTOBER—Slow. Closed at 30c.

DECEMBER—Sold at 30⅛@30½c. Opened at 30⅜c to 30⅜@30½c, sold to 30½c, to 30⅛c, to 30⅜c, to 30¼@30⅜c at close.

MAY—Fair trading. Sold at 32½@32⅞c. Opened at 32¾c to 32⅞c, sold to 32½c, to 32¾c at close.

RYE—Ruled firmer for cash and easy for futures. There was a fair demand for fresh arrivals from local manufacturing industries and choice especially wanted. Some demand also existed for round lots in store, but a slight difference between buyers and sellers prevented trading. Futures offered moderately. There were three cars received and none withdrawn from store. No exports from New York. No. 2 in store nominally about 77½c and car lot fresh arrivals sold at 80@81c. No. 4 billed through sold at 77c.

Future Deliveries of No. 2 Rye—Some trading. October was firm and quotably 77½c. December was easy and sold at 79c to 78½c, and closed at 78½c. May sold at 81c, and closed at 81c bid.

BARLEY—The market to-day was very steady; it may be said to have been a shade stronger. The demand for all grades was equal to the offerings and the market cleaned up well. Nothing of a very fancy grade noticed or reported in the sales. There was a good demand for feed or mixing Barley and Screenings sold very well. There was less of the low-grade malting sold at the recent inside quotations there was a little less of it offered. The market all around was in good form. Inspected in, 79 cars. Sales of Screenings were at 30@37½c for poor to choice. Barley, feed or mixing, local good sale at 37c; malting, low grade or fair, but very dirty, ranged at 38@39c. Clean, fair to good, at 40@42c, and choice quotable at 45@47c. Fancy possibly a shade over.

SEEDS—There was an easy and dull market for Timothy, while Flax was stronger and slightly better. The rest were lifeless and entirely nominal.

Timothy—Dullness prevailed, for there was little interest shown. There was an easy undertone. Futures in some instances depreciated slightly, yet in no particular was there any important change. Contract spot or October delivery was nominally $2 65@2 70. January sold finally at $2 75. March offered at $2 85 and $2 80 bid. Country lots quotable at $2 35@2 40 for fair to good; high-grade Seed at $2 40@2 45, choice to fancy $2 50 and possibly a shade over; poor Seed quotably down to $1 85@2 15; inferior lower.

Flax—A little stronger tone was imparted to the market by somewhat more favorable advices from the Northwest. Only about one car of Flax was offered, so there was little chance for any business to speak of being done. A round lot came in by lake, but it did not get on the market. Receipts were 1 car or 601 bu, and 115,000 bu by lake. Taken out, 5 cars, or 5,722 bu. Minneapolis got 57 cars and Duluth 50 cars. No 1 Northwestern or No. 1 from the Northwest sold at $1 14½. No 1 nominally $1 08½ bid. Rejected quotable at $1 04@1 13, as to quality. October $1 08½ nominal and December about $1 11.

Clover—Was quotably steady to firm at nominally unchanged prices. None coming on the regular market for sale. Trade said to be quiet in an order way. Quotable: October delivery at $12.5. Contract spot Seed the same. Country lots, common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 50.

Other Seeds—Nominal as follows: Millets, common or German quotable at 75@90c for common to choice, and Mustard about 75c@$1 00.

HOG PRODUCTS—Trade in Hog Products was on a moderate scale, and the feeling was comparatively easy in sympathy with the Hog and Grain markets. Operators not inclined to trade to any extent, owing to the holiday to-morrow. Outside orders were small, and local trading moderate. Offerings were fair, and the demand was somewhat limited. Prices ruled lower on all the leading articles, and the market closed quiet around inside figures. Hogs were in fair supply and prices lower. Receipts at the leading Western packing points were estimated at 48,200, compared with 51,200 one year ago. Foreign markets were rather easy for Meats, and Backs were quoted 6d lower, while Lard was steady at 3d advance. Domestic markets were steady. Receipts of Products were fair—of Lard and Meats about 19 cars. Shipments were good—of Lard and Meats about 113 cars. Demand on shipping account was fairly active, and offerings were not very free. Sales were fair at about former prices.

Mess Pork—Only a moderate trade was reported in Mess Pork, and the feeling was easier. Offerings were not very large, and the demand was somewhat limited. Prices were about 25@30c higher early in the session but settled back again 20@25c, and the market closed easy. Trading chiefly in January contracts. Shipping demand was moderate, and offerings were small. Cash lots quotable at $11 40@11 50.

OCTOBER—Demand light and offerings were moderate. Sales were made at $11 35@11 55. Opened at $11 55, sold to $11 35, to $11 40, and closed steady.

NOVEMBER—Sold sparingly early at $11 65.

DECEMBER—In small request and offerings were moderate. Sales were made at $11 50@11 70. Opened at $11 70, sold to $11 50, to $11 60, to $11 55, and closed steady.

JANUARY—Offerings were rather free and the demand was moderate. Sales were made at $13 02½@13 35. Opened at $13 27½ to $13 30, sold to $13 35, to $13 10, to $13 15, to $13 07½, to $13 10, to $13 05, to $13 10, to $13 02½, and closed steady.

MAY—A few scattering trades were made at $12 95@13 25, and closed quiet at $12 95.

Lard—Trade was moderate in the Lard market, and the feeling was somewhat unsettled. Offerings were not very large, and the demand was only fair. Foreign advices more favorable to holders. Market opened rather steady, but a stronger feeling developed later, and prices advanced 2½@5c. Toward the close the feeling was easier again, with a little pressure to sell, and prices receded 15@17½c, and the market closed steady. Demand on shipping account was fair, with moderate offerings. Cash lots quotably steady at 2½c over October figures, closing at $7 60@7 62½. Loose lots in fair request, with very small offerings. Prices quotable at 15c discount on October figures. Leaf Lard was in fair demand, with very limited offerings. Quotably steady at about $7 87½ for very small lots. Neutral in light demand, with moderate offerings. Prices quotably steady at $9 25@9 37½ for No. 1 and $8 75@8 87½ for No. 2.

OCTOBER—Demand moderate and offerings were limited. Sales were made at $7 60@7 75. Opened at $7 70, sold to $7 75, to $7 60, and closed quiet.

NOVEMBER—Quiet with small sales at $7 65.

DECEMBER—Offerings were rather light and demand was moderate. Sales were made at $7 45@7 57½, and closed steady at $7 45.

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO THURSDAY EVENING, October 6, 1904.

The money market is holding its own. There is a good demand from all classes of borrowers and rates are holding steady with most of the loans at 4½ per cent on call, although an occasional large loan on gilt edge securities might be made at 4 per cent. On new loans some of the banks are getting as high as 5 per cent. There is an abundant supply of money and real estate loans are being made for five years at 5 per cent. Commercial paper pays 4 to 5 per cent and is in urgent demand while the supply is small. Grain interests are using a large amount of money and the movement of currency to the country is rather above an average. New York money is holding firm at 3½ to 4½ per cent for time loans, and 1¾ to 2 per cent for sharp call on the Stock Exchange.

New York exchange was easier with sales at 20c to 25 discount and closed at 30c.

Foreign exchange was easy with supplies of bills larger. Shippers' sixty day documentary sterling bills on London ranged at 481¾ to 482¼; closed at the outside.

Cotton in New York averaged lower in the face of unfavorable crop reports. The Government report made the condition 75.8, which is a good average for October the past four years. Realizing sales were the feature and prices yielded materially under the offerings but reacted from the low point. The consumptive demand is good and export business fair, while the movement is being stimulated by the good prices secured. Closing sales were at losses of 3@12 points for the week.

Local Securities were active a good part of the week. The feature was the heavy trading in Can shares, nearly 8,000 shares being handled in one day. The buying of preferred advanced it while the taking of profits in common gave it a decline at the same time. In the other Industrials there was only a small trade and price changes not important, the tendency for the greater part being in the way of gains. In cable shares there was the announcement that control of City Railway had passed to interests owning the Union Traction at 200 a share which is about 25 points higher than the price in the open market. Elevated shares were strong most of the week and it was announced that there is to be no consolidation for the present at least. Bonds were fairly handled and prices held well.

The New York Stock market was a sensational affair, with dealing on several days reaching over 1,000,000 shares. On Tuesday they were 1,351,000 shares, of which 137,000 shares were St Paul, and it had a rise of 7 points. In Union Pacific trading was even heavier than in the other roads and 170,-000 shares were sold. The advance was attributed to rumors affecting the complexion of Western railways and making a change in the relations existing between the different roads. Most of them seemed plausible. It was claimed that the Northwestern will get Union Pacific, the St. Paul and Erie make a combination, and get the Northern Securities holdings of Union Pacific; also that Hill will get back both the Great Northern and the Northern Pacific. There was a great deal of comment on the conditions and the strongest interests seemed to be active in driving in the largest "shorts" in Western railway shares which advanced to the highest point of the year. Steel shares were active and advanced in the early dealings, and sold off under heavy realizing sales toward the last, the impression being that manipulation had run its course for the present. In the other Industrials there was an irregular movement in values. Eastern railway shares were rather weak, while Westerns advanced. At the close prices on the list were irregular, although there were more gains than losses. Total sales on the New York Stock Exchange for the week were 5,113,000 shares, against 1,227,000 shares the previous week, and 2,637,000 shares for the same time last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

A better feeling prevailed in the mercantile trade. The change of sentiment produced by the maturing of the greater part of the Corn area in the West has brought a more confident feeling among merchants and manufacturers and the movement of goods is increasing. Purchases are in small lots, but the volume is large. Prices on Woolen goods are 2½ to 5 per cent better and on Cottons steady, although raw Cotton is considerably lower. Clothing and shoes had a large sale. In the Iron and Steel interest business is picking up. There have been heavy sales of pig Iron at 75c better than prices prevailing in July. Purchases of finished material are enlarging and specifications on old orders are more numerous. Light and heavy hardware was taken more readily. The movement of lumber is increasing. In the North supplies of white pine are small, and at Southern mills stocks of yellow pine show a reduction. There is a congestion of bituminous Coal on the Chicago market and some grades are selling at lower prices, while others show no change. Sugars sold at a reduction of 10 points on granulated. The distribution of groceries generally was fully up to the average. Linseed Oils are higher and paints are selling more readily.

COMMERCIAL.

Just a fair business was reported in commercial circles on the Chicago Board of Trade the past week. Speculative operations were more of a local professional character, outside interest being confined chiefly to the larger speculative centers. The activity in the Stock market has detracted interest from Grain to some extent. Outside orders were for more moderate quantities, but some increase in the general trade is anticipated, with the issuance of the Government report next Monday. The receiving and shipping branch of the trade is also expected to improve. Interior shippers should not overlook the fact that Chicago is the largest Grain market in the world and offers every facility to shippers for obtaining the best possible prices for their consignments. Board of Trade officials are offering every inducement to encourage buyers in Eastern and foreign markets to seek their supplies in this market. Considering the fact that the Presidential election is drawing near, business in speculative circles may be called very satisfactory.

Foreign crop news was more favorable the past week. Climatic conditions in France and the United Kingdom were most favorable but farmers were said to be holding their Grain for better prices. Good rains fell in Germany and offerings of native Grain reported large. Seeding is progressing rapidly in Hungary, which is also the case in Roumania. In Russia the weather has been generally favorable and stocks at seaboard ports are increasing rapidly. Stocks at Odessa increased 4,000,000 bu last month. Reports from Argentina were favorable and an estimate as to the possible yield placed the same at 134,000,000 bu against 118,000,000 bu last year. Reports from India were satisfactory. Drought still prevails in Australia and where a short crop is probable.

The weather conditions in the United States and Canada were fairly favorable the past week. Rather too much rain, however, fell in the extreme Northwest and in Manitoba and threshing was in consequence delayed. In other parts of the Spring Wheat belt threshing is progressing rapidly. Fall plowing and planting is well advanced in the Southwest, while in the Northwest less plowing than usual is completed for this time of the year. Corn experienced another favorable week and cutting is progressing rapidly in all sections being completed in portions of the Missouri Valley and through the South. The crop is practically safe in Nebraska, where the yield is estimated anywhere from 210,000,000 bu to 250,000,000 bu. Less than 5 per cent is in danger from frost in Michigan and Eastern Kansas, 10 per cent in Ohio, Central Indiana, Iowa, and South Dakota, 20 per cent in Northern and Central Illinois and Missouri.

The movement of Grain from the farms and interior elevators was fair the past week. Some falling off was reported in the arrivals of Wheat in the Northwest this week which was presumably due to the fact that farmers are busy plowing. Arrivals at terminal points, however, were liberal, and possibly would have been larger had shippers been able to get enough cars. Stocks of Wheat in country elevators of the Northwest on October 1 reported at 4,704,000 bu. compared with 814,000 bu on September 1, and 4,665,000 bu on October 1, 1903. Increase during September 3,890,-000 bu, compared with an increase of 3,869,000 bu in September, 1903. Through the West and Southwest the movement of Grain was fair, though some falling off in the Wheat receipts was noted. Corn was marketed with less freedom and some let up in the Oats movement was noticeable. The movement of Grain on the Pacific Northwest was liberal and considerable Wheat is headed for this side of the Rockies. The movement of Grain Eastward was fair, but consisted principally of coarse Grains. Arrivals at the seaboard were fair. Exports of Flour and Wheat were light and very moderate of coarse Grains. Bookings for future shipment were also limited. According to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was another increase in Wheat, Oats, Rye and Barley and a decrease in Corn.

A fair speculative business was transacted in the leading Grain and Provision markets the past week. Operations were, however, more of a local character, with only a moderate amount of outside interest. The feeling prevalent at the same time was quite unsettled and fluctuations frequent within the limits established. Grain values were weakened to a considerable extent by the movement and probable supplies, while the prospective run of Hogs was a leading factor in Hog Products. A feature was the relative strength of the December deliveries compared with May. Deliveries on October Grain contracts were small, while fair quantities of Product were sent out October 1. The Wheat movement in the Northwest is likely to be the ruling influence in Wheat for some time at least, while the weather is still the dominating factor in Corn. Rather a good trade was reported in Hog Products, and the undertone to the market was stronger. The supply of Lard—both at Chicago and the larger markets of the world—was materially decreased and this was a stimulating feature, and the market for other articles followed in sympathy. Apparently strong parties are purchasing the deferred deliveries. Prices ruled higher on all the leading articles, but extreme figures were not fully supported to the close. Trading chiefly in October and January contracts. The total amount of Products on hand is about 121,182,000 lbs, against 171,659,000 lbs one month ago, and 135,353,000 lbs one year ago. The stocks of Provision on hand at Chicago are 50,477,-000 lbs less than on Aug 31, and 14,171,000 lbs less than one year ago. Packing of the West for the week was reported 35,000 short of last year and for the season 11,680,000, against 11,835,000 last year, a decrease of 155,000 Hogs.

Just a moderate trade was reported in the market for cash Grain the past week. The offerings showed some decrease and the demand was fair. Rather a good demand prevailed for Wheat and anything of full weight sold well. Corn, too sold quite readily the offerings being small. Shippers took fair quantities for Eastern account and holders asked relatively higher prices. Oats were in fair request, the Eastern inquiry gradually improving. Rye was quiet, with a fair trade in Barley. The trade in Seeds was moderate. Flax and Timothy easy and Clover little changed. Hay was dull except for the best grades; offerings large. Hog Products were in fair demand, with no pressure on the part of holders to sell. Sales were fair. Prices on Dry Salted Meats were well maintained, while prices of Green and Pickled Meats inclined in favor of buyers. Cattle were marketed in fair numbers and prices were steady. Receipts of Sheep were heavy and prices lower.

FREIGHTS—Railroads East and West are fairly supplied with cars, and are having a good traffic. Rates are holding steady. The tariff is as follows:

To—	From Chicago. Domestic.	From Chicago. Export.	From Miss. River. Domestic.	From Miss. River. Export.
Boston	19½	13½	22½	16
New York	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News	14½	11	16½	14½

Flour rates are 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 3c per bu on Wheat and Corn.

Ocean rates on Grain are unchanged, with a small demand for tonnage. Rates on Grain are 1d per bu from New York and 1d from Boston. Through rate on Wheat from Chicago to Liverpool is 6.27c per bu and Corn 6.1c. Flour 19c per 100 lbs and Provisions 35⅝c per 100 lbs.

Lake rates are steady, with a light demand for boats, at 1⅝c on Wheat and 1¼c on Corn to Buffalo.

FLOUR—A fair local and domestic business was reported in Flour the past week. Foreign bids, too, were closer to working but still out of line. All the city mills are running full time and stocks are not accumulating. The demand of late has been of the most urgent sort, outside orders are as a rule being for immediate shipment, indicating that stocks are low at points tributary to this market. Indications are for a good business during the fall and winter months. In prices there is no particular change to note, last week's figures being maintained. The production in the Northwest was liberal and sales in that section heavy, one mill booking 850 car loads in a single day which is said to be the largest business on record. Considerable controversy was aroused on Tuesday by the report from Minneapolis that 50,000 brls of Flour had been sold for export. Several messages were received confirming the report, but saying nothing of the quality. One of the leading millers there wired: "We are selling some Bakers for export, but Patents are $1 25 per brl out of line." Local stocks on October 1 were reported 30,000 brls, compared with 30,150 brls Sept. 1 and 33,700 brls October 1, 1903. Stocks at Liverpool were 56,-000 brls, against 58,000 brls Sept. 1 and 61,000 brls October 1, 1903. Closing prices were as follows:

MILLSTUFFS—The offerings have been larger during the past week, the receipts having increased some, and the demand has been fair. No change occurred in prices and the market ruled steady. Bran in bulk sold at $16 00 and a faulty car sold at $15 00, and in sacks, sacks included, at $16 50@17 00. Shorts in sacks, sacks included, sold at $18 25@18 50 per ton. Middlings in 100-lb sacks, sacks included, sold at $19 75.

WINTER WHEAT—A rather steady feeling existed in the market during the past week, and no important changes occurred in prices. A fair business was transacted. Millers made moderate purchases, taking some round lots out of store, generally of sample lots out of private warehouses, and made some purchases of the fresh arrivals. Both local and outside millers were buyers. Speculators secured a portion of the offerings and a part of the fresh arrivals were bought for the purpose of placing in storage and sold against for future delivery. The inquiry centered in good to choice Wheat of the various grades, especially choice, while the poor Wheat ruled dull. Soft Wheat has been scarce. The stock of No. 2 Red in store was 297,000 bu, against 315,000 bu the previous week. For the week receipts were 198 cars, against 390 cars the previous week. There were withdrawn from public elevators 50,000 bu, and from private warehouses 102 cars and 62,400 bu. No. 2 Red in store ranged at $1 09¾@1 14⅛, and fresh arrivals free on board at $1 15@1 18. No. 3 Red fresh arrivals free on board ranged at $1 10@1 16. No. 4 Red fresh arrivals free on board sold at 92c@$1 13, and No Grade Red at $1 13½. No. 2 Hard fresh arrivals free on board ranged at $1 11@1 15, with but few cars offered and a round lot in store sold at $1 11½. No. 3 Hard fresh receipts free on board sold at $1 03½@1 13, and at the river at $1 05@1 09. No. 4 Hard free on board sold at $1 03@1 05 and at the river at 96½c@$1 03. No. 4 White sold at $1 12.

SPRING WHEAT—Only a light business was transacted during the past week, the small receipts restricting trading. There has been a good demand for the choice Wheat received, all the offerings being taken up readily by the different buyers, especially the hard variety, which brought a premium. Some very poor, shrunken light weight Wheat was received, and that was found to be slow sale, and could only be disposed of at a very large discount. The sales of No 4 during the week showed a range of 42c between the poor and the best. Millers wanted the choice Spring Wheat, especially the hard variety. The receipts for the week were 112 cars, against 115 cars the previous week. There were withdrawn from public elevators 29,100 bu and from private warehouses 18 cars. No 1 Northern fresh arrivals free on board were quotably early $1 20@1 22, and later at $1 17@1 19, but no sales were reported. No. 2 Northern fresh arrivals ranged nominally at $1 12@1 18. No 3 Spring fresh arrivals free on board ranged at $1 05@1 16 for poor to choice, and sold at the river at $1 07@1 15½. No. 4 Spring fresh receipts free on board sold at 70@78c for poor shrunken light weight Wheat, at 80@90c for common and ordinary, at $1 00@1 06 for good and at $1 08@1 12 for choice hard variety, with sales at the river at $1 0 @1 07. No. 4 White sold at the river at 96c.

REGULAR WHEAT—A fair business was witnessed in this market the past week and the feeling developed was somewhat unsettled. Transactions were in the main more local and professional, outside interest being less marked, and closing prices showed the December 3¼c lower, while the May lost full 3¼c. The week started out with the undertone easy, influenced chiefly by the reports of considerable Wheat coming down from Duluth, weaker tone abroad and generally "bearish" statistics. The favorable reports from Argentine also had a "bearish" influence on values. An estimate was in circulation placing the probable yield in Argentine at 134,000,000 bu, against 118,000,000 bu last year. Another "bearish" factor was the large Northwestern receipts and indifferent demand for the cash article in that section. "Grain men and millers from Chicago, St. Louis, Louisville, Minneapolis, Duluth and at many intermediate points were buying the far Western Wheat while I was there," said the representative of a large elevator concern who returned from the Pacific Coast Monday. "Thus far there have been about 10,000,000 bu of that Wheat bought to come into the Mississippi Valley, mainly for October and November shipment. There is plenty more that could be bought for December, January and February shipment if the car situation should loosen up. The Illinois Central recently let the Southern Pacific Road have 1,000 cars for this Wheat, and if other roads would do relatively as well it would be easy to move a great deal more. The car situation out there is not yet tight, but the Grain men are afraid that it will be. I was offered Wheat in lots as high as 200,000 bu to 300,000 bu by single dealers, providing I would agree to furnish cars. There is no export outlet for the Grain this year, so it has to come East." At the decline and around $1 11⅞ for December and $1 12¼ for May the demand improved and market displayed a much better undertone. December rallied to $1 14 and the May to $1 14⅛, but the advance proved to be temporary. Talk of smaller country offerings in the Northwest, reports of the Russian Government buying Flour at Seattle and reports that foreign markets were affected by advices from this side were among the strengthening influences. Minneapolis reported country elevator receipts falling off, one concern claiming 50 per cent in two days. Another Minneapolis message read: "Country deliveries have fallen off 25 to 30 per cent, partly due to fall work and partly to having sold about or want to sell at present prices; plowing up to the present time smallest in years." Oklahoma Millers' Association was credited with estimating two-thirds of the crop in that territory had left farmers' hands. Portland, Oregon, mills reported the sale 10 cars Flour to New England, the first sale ever made on the Pacific to the far East. A feature on the decline was the active demand for the December which for a time sold at the same price as May. The visible increased 2,378,000 bu, against 2,250,000 bu increase one year ago. Total is now 17,576,000 bu, against 19,189,000 bu in 1903 and 25,624,000 bu in 1902. Local public stocks increased 67,000 bu, and now include 2,317,000 bu, against 2,716,000 bu one year ago. World's shipments were 10,616,000 bu, against 8,610,000 bu previous week and 12,288,000 bu one year ago. Quantity on ocean passage decreased 288,000 bu, and is now 38,144,000 bu, against 32,352,000 bu one year ago. Stocks in all positions reported 4,779,000 bu, an increase of 40,000 bu. Stocks one year ago 6,840,000 bu. Contract stocks increased 1,143,155 bu and now include 1,458,714 bu, against 2,247,093 bu one year ago. The large addition was due to No 2 Hard now being contract. *Bradstreet's* available increased 9,807,000 bu, against 12,928,000 bu increase same week in 1903. Stocks of Wheat in country elevators of the Northwest on October 1 reported at 4,734,000 bu, compared with 814,000 bu on September 1, and 4,665,000 bu on October 1, 1903. Increase during September, 3,890,000 bu, compared with an increase of 3,869,000 bu in September, 1903. Stocks of Wheat in public warehouses in Liverpool reported at 3,440,000 bu, against 3,792,000 bu one week ago and 2,834,000 bu one year ago. Odessa stocks were reported 5,600,000 bu on October 1, against 1,600,-000 bu Sept. 1, an increase of 4,000,000 bu during September. The Government weekly weather crop bulletin claimed threshing much delayed by rain in Minnesota in early part of the week. This work was resumed later, and is now generally well advanced in that State, and is progressing rapidly in the Dakotas. The *Northwestern Miller* estimated Wheat crop of Minnesota, North Dakota and South Dakota at 173,000,000 bu of which 161,000,000 bu is milling Wheat. Quality of crop is estimated at 16 per cent No. 1 Northern, 36 per cent No. 2 Northern, and 48 per cent other grades. Winnipeg *Commercial* said: "According to the Canadian Pacific Railway report issued early in the week the damage by either rust or frost is comparatively slight. Ten per cent is the most admitted. An average of the yields reported is about 20 bu to the acre, and generally better than expected. The average grade was put at No 2 Northern. Threshing has been greatly delayed by wet weather, but was generally under way. The report of the Canadian Northern Railway was practically to the same effect." Toward the close the market again turned weaker, fear of showing of the Government report on Monday, continued heavy receipts in the Northwest and break in Corn inducing holders to liquidate and stop loss orders were uncovered on the decline, December selling off to $1 09⅛ and May to $1 09¾. *Broomhall's* weekly foreign crop summary said: "United Kingdom and France—Weather is most favorable; farmers holding their Wheat firmly. Germany—Good rains have fallen; offerings of native Grain are large and continue to increase in volume; better reports being received regarding the forage and Potato crops. Hungary—The weather has been favorable for seeding. Roumania—Fall seeding progressing rapidly; supplies of Grain continue to decrease. Russia—Weather conditions generally favorable; some ports report large supplies, while in others a decrease is shown from a month ago. India and Argentina—Crop reports continue favorable. Australia—The latest news is that the drouth was not complete, but only partial in effect." Primary receipts were again liberal this week and from June 27 to Oct. 3 66,754,000 bu, as against 63,156,000 bu in 1903 and 90,661,000 bu in 1902. Clearings at the same time were small and bookings at the seaboard were light.

CORN—Considerable interest was manifested in this market the past week, notwithstanding the fact that the trade was largely local and of a professional character. The feeling, all things considered, was weak and close shows December 1⅛@1¼c lower, while May lost 1¾@1⅞c. A feature the opening days was the strength of December, which at one time was quoted 2⅝@2½c over the July. The strength abroad, small receipts, and moderately "bullish" statistics were among the principal supporting influences at the start, and "shorts" were good buyers. Local professional operators were inclined to favor the "long" side of the market, and speculative offerings were readily absorbed, resulting in an advance to 51¾c for December and 49½c for the May. Weather conditions were not of the best, the West having too much rain and was an indirect "bull" help. Both the Liverpool and London markets were firm, the advent of cold weather in Great Britain having a stimulating tendency abroad. The demand for the cash article was good and a larger business would have been closed but for the firm views of holders, relatively higher prices being asked. Round lots of No. 2 Corn for shipment sold equal to 3½c over the May in store. World's shipments were 3,976,000 bu, compared with 4,110,000 bu previous week, and 3,276,000 one year ago. The quantity on ocean passage decreased 455,000 bu, and is now 20,225,000 bu, against 19,152,000 bu one year ago. The visible decreased 492,000 bu, against an increase last year of 764,000 bu. Total is now 5,979,000 bu, against 9,090,000 bu in 1903, and 3,075,-000 bu in 1902. Local public stocks increased 59,000 bu to 2,196,000 bu, against 2,921,000 bu a year ago. Local stocks in all positions decreased 229,000 bu last week and are now reported 6,324,000 bu, compared with 6,962,000 bu one year ago. Contract stocks were increased 532,052 bu and now include 2,184,027 bu, against 2,614,329 bu same date in 1903. *Bradstreet's* reported a decrease in the available supply of 1,899,000 bu, as compared with 1,[illegible] bu increase for corresponding week one year ago. At the advance and around 49½c for May there was influential selling by several of the larger commission houses and the price settled back sharply to 46⅝c. December sold off quickly in sympathy, but at 49¼c the decline was checked. The *Price Current* estimated the crop at 2,400,000,000 bu and *Orange Judd Farmer* 2,200,000,000 bu. Missouri report made crop 175,000,000 bu, and Iowa estimate placed at 300,000,000 bu, all of which depressed the price and discouraged longs who liquidated freely. Government weekly weather crop bulletin was looked upon as favorable, claiming that the crop had experienced another week of favorable conditions, but frost injurious in Wisconsin, and considerable was blown down and damaged in Illinois. Dry weather is needed in Iowa to prepare the crop for cribbing. It is practically safe in Nebraska. Less than 5 per cent in danger from frost in Michigan and Eastern Kansas, 10 per cent in Ohio, Central Indiana, Iowa, and South Dakota, 20 per cent in Northern and Central Illinois and Missouri. Cutting is progressing rapidly in all sections, being completed in portions of Southern Missouri, and nearing completion in Kansas. Professor Davis of the Agricultural Department of the University of Nebraska estimated the Corn crop of that State at 211,600,000 bu, while a large elevator system in that State placed the probable yield anywhere from 225,000,000 bu to 250,000,000 bu. Receipts the past week were small, forming a total of 718 cars for five days, against 1,473 cars last week and 2,066 cars five days in 1903. Exports were moderate and the new business booked with Europe continues small and disappointing. Shipping demand locally was fair, but holders were firm in their views and transactions were restricted. A good demand existed for car lots all the week and No. 2 was quoted to go in at 2c over December and No. 2 Yellow 4¼c over. No 3 was quotable 1¾c over and No. 3 Yellow was 4c over.

OATS—Had a firmer undertone early and advance, but weakened at the last, and closed with losses of ⅜@½c for the week. A feature was the buying of December and selling of May by cash interests and the taking off of hedges by them. There were sales of 2,000,000 bu of White Clipped last week from the Northwest at ⅜c under May c. i. f. Buffalo, and the price this week was even with May. There were also good sales from Chicago, but not in comparison with the Northwest, the latter having filled up a good part of the Eastern trade. Low prices were an inducement for investors to load up, and with farmers' deliveries lighter in all sections, offerings from cash interests which have been a factor of late, were greatly reduced. May had a range of 32⅞@33⅝c, and closed at 32⅞c. In the sample market, receipts were lighter demand for car lots better and prices advanced 1c, but lost it in the closing day. Arrivals for the week 913 cars, against 969 cars last week and 1,089 cars last year. Export clearances 12,100 bu, against 195,000 bu the previous week and 151,000 bu last year. Stocks continue to pile up. *Bradstreet's* available increased 2,117,000 bu, making it in excess of 30,000,000 bu. The visible supply increased 1,858,000 bu, and for the first time on record crossed the 20,000,000 bu mark, being 2[illegible]-000 bu, compared with 6,453,000 bu last year. Stocks in all positions in Chicago increased 439,000 bu and are 10,616,000 bu. In public houses there were 3,471,000 bu. Contract stocks are 3,108,000 bu, an increase of 95,946 bu for the week.

RYE—A firm feeling existed during the past week and prices were advanced 2@2½c. The demand has been good and the offerings have been light. Both cash and futures were inquired for and the market has acted somewhat independent of the other Grain markets. Fresh receipts were taken mostly by manufacturing industries—millers and distillers taking several cars. The receipts have been small and comprised some ordinary and some very choice Rye. The receipts for the week aggregated 36 cars, against 33 cars the previous week. There were withdrawn from public elevators 2,000 bu and from private warehouses 8 cars. The visible supply increased 56,000 bu and was reported at 1,460,000 bu, against 884,000 bu a year ago. Local stock in store was 694,000 bu and a year ago was 447,000 bu. No 2 in store was quiet, and nominally 75@76½c; fresh arrivals free on board sold at 78½c for poor, at 79c for fair and 80@80½c for choice, with a sale at the river at 77c and one sale billed through at 79c. No. 3 fresh receipts sold free on board at 77@78c and billed through at 78@79c. No. 4 local sold at 73@76c. For future deliveries of No. 2 the market was firm. October nominally 75c early and 76½c later. December sold at 77c and advanced to 79½c and closed at 79c sellers. May started in with 80c bid, and later 82½c bid, and closed at 82c asked.

BARLEY—There was a fairly active trade in car lots, not so large a business as during preceding weeks, for there was less Barley offered. There was no improvement from late low prices. Feed Barley firmed up some. The market attracted rather more attention from shippers. Malting grades remained weak for common to fair. These grades comprised the main supply, and they were abundant. Maltsters were not all buying regularly. Some would take considerable one day and little or none the next. They all seemed to be keeping their wants amply supplied. To arrive lots were dull. Some were sold, but the facts were kept private. It seems buyers were feeling for the rock bottom of the market, and were not disposed to take round lots to arrive until satisfied they were getting in just right. Receipts were 585 cars compared with 712 cars a week and 521 cars two weeks ago. No output from regular houses reported; there has been none for several weeks. Exports from New York were 8,462 bu, against 33,337 bu the previous week. There was no change in regular local stock; it remained at 41,729 bu. A year ago there was none in regular houses. Visible supply increased 1,017,000 bu, appearing as 4,144,000 bu, against 3,347,000 bu the same time last year. Screenings were quiet. They were slow and prices very irregular, owing to so great a difference in quality; poor sold down to 24c and very choice up to 37c. Feed Barley was 36@37c early and became strong at 37c, with some sold back through on a basis a little above that. Low grade malting was plenty and easy; it was thin, off color or else if better in these respects it was dirty. It sold freely at 38@39c. Fair to good, clean, sold very well at 40@43c, and choice cars at 45@48c with an occasional car of fancy at 50@52c. The close was very heavy.

SEEDS—The Seed market was very quiet. The trade was centered mainly in cash Timothy. That was a shade easier, slightly lower, and in Flax Seed there was a moderate decline in prices. Speculative business in all lines was rather neglected. Clover showed some little gain, and this seemed to be the only line having about it an element of strength.

Timothy—An easy feeling prevailed the past week. Prices did not change a good deal, and they were slightly more in favor of buyers. There was about 5c decline. It has got to the season where fall trade has passed its most active stage

Orders begin to wane. Shipments as reported were very much smaller than for several previous weeks. Receipts also became less. They, however, remained large enough to leave a good surplus after trade needs. Buyers under the circumstances were somewhat slow to purchase and their offers of values were apt to prevail. The speculative market was exceedingly quiet. With the opening of October no contract deliveries were made, so that there were few speculative orders. October delivery contract Seed was early sold, while later the bids were reduced to $2.85. January was called nominally $2.80 and March was offered at $2.90@2.95 bid. March was usually quoted at $2.97½. Country lots of fair to good quality sold at $2.85@2.95 early, declining to $2.75@2.80. Sound to prime trade lots sold at $2.85@2.90, and for choice to fancy at a quotation of $2.95@3.05, but none enough to bring this extreme range was noted. Low-grade was quoted down to $1.85@2.15, and an occasional very poor lot selling even lower than that.

Receipts and shipments were as follows:

Receipts the past week, lbs	2,646,857
Same time last year	5,492,561
Two weeks ago	6,047,562
Corresponding week last year	5,207,611
Shipments the past week, lbs	1,342,000
Same time last year	1,342,000
Two weeks ago	2,683,379
Corresponding week last year	783,195

Flax—So very slow and quiet a market as was experienced the past week leaves very little to be said about it. Speculation was neglected. The few transactions were usually limited to a few hundred bushels. Although at one time a cargo of Flax came in, only a few cars were on sale. Car arrivals were small. The output was very much smaller than for several weeks, and it was also expressive of a slow shipping business. Not for the last Northwestern visible supply reports was 43,000 bu. increase. Chicago stock did not change and Duluth decreased 49,943 bu, while Minneapolis increased 92,163 bu. Stocks at the points with comparisons were reported as follows:

	1904.	1903.
Chicago, bu	16,091	82,497
Duluth, bu	4,102,157	1,358,837
Minneapolis, bu	196,553	781,017
Total	4,318,901	2,222,291

The same time in 1902, stocks at above points aggregated only 724,246 bu. Receipts during the week were 11 cars and 110,000 bu by lake, against 9 cars a week ago and 28 cars two weeks ago. There were reported taken out 10,751 bu, the previous week 32,312 bu and two weeks ago 29,468 bu. Prices changed moderately during the week. The feeling was just heavy enough so that there was about 2c decline in prices. No. 1 in a nominal way ranged at $1.10½ to $1.08. No. 1 Northwestern from $1.12½ to $1.10. Rejected was quoted at $1.07 @1.16 depending on quality to $1.01@1.12. October delivery was nominally $1.10½ to $1.08, and December was usually $1.13 sellers to finally $1.11 nominal.

Beer—Only a few consignments came on sale. To some days there were none. Even when there were consignments they comprised small lines. Demand was distinctly low, too, they were of the under grades. There seems to be no choice Seed coming the cash regular offerings. The market was called about steady and no changes were announced from day to day. The receipts as reported were very fair, larger than the same week last year, also in excess of the shipments. The latter were considerably smaller than last year. Choice to fancy trade grade was quoted early at $12 15, at the close at $12 25. Common to choice Seed was quoted over a range of $8.00@12.00, while very poor sometimes sold down to $5.00. Fair to good Seed brought a quotable range of $10.25@11.50. Following is the aggregate weekly movement made up from the daily reports:

Receipts—The past week, lbs	388,027
A week ago	816,495
Two weeks ago	664,195
Corresponding week last year	47,990
Shipments—The past week, lbs	48,500
A week ago	58,800
Two weeks ago	58,800
Corresponding week last year	228,445

Other Seeds—So far as could be learned on the regular market there was absolutely nothing new. There was an absence of consignment offerings. Only a few lines had even nominal quotable values and they are shown in the table below. The moderate movement was reported, but the Seed reported as received did not appear on sale on the open market. Movement was smaller than lately reported, aggregating to date as follows:

Receipts the past week, lbs	254,320
A week ago	490,540
Two weeks ago	664,840
Same time last year	664,840
Shipments the past week, lbs	1,362,206
A week ago	1,078,976
Two weeks ago	1,078,976
Same time last year	1,473,476

Hay—The receipts for the week were 3,700 tons, against 4,525 tons for the previous week. Shipments for the week were 146 tons, against 314 tons for the previous week. The demand for choice Timothy and Prairie Hay was good throughout the week and a firm feeling prevailed. The offerings were only of good consignments and readily. They exhibit no material change Medium and low grades were in only moderate supply, but the demand was light and the market ruled quiet. Only a few consignments came in. Local dealers want only choice Hay. Prices were weak, but not particularly lower. Quotations at the close ranged as follows: Choice Timothy No. 1, $16.00@17.00; No. 2, $15.00@16.00; No. 3 Timothy, $7.00@8.00; Choice Prairie, $10.00@11.00; No. 1 Prairie, $9.00@10.00; No. 2 Prairie, $8.00@8.50; No. 3 Prairie, $6.00@7.00; No. 1 Upland, $8.00@8.50. Inside prices on Prairie Hay for State and outside for Kansas. Nebraska and Iowa Hay. Sales ranged at $7.00@13.00 for loose to choice Prairie, $7.00@8.00 for packed and $7.50@10.00 for Kansas and Iowa Prairie Hay. Rye Straw sold at $6.00@8.50, and Oat Straw at $6.00 @6.50.

Cooperage—Very little business was reported in the Cooperage market during the past week, and there were no particular changes to note. Offerings were moderate and the demand was limited. Local packers backward about purchasing, and outside orders were small. Ash Pork Barrels were in moderate request and ruled steady at 97½@98c. Oak Pork Barrels were in fair demand and prices quotably steady at $1.07½@1.10. Lard Tierces were quiet and prices unchanged at $1.42½@1.47½, from bound Lard Tierces at $1.47½@1.52½ and from bound Lard Tubs at $1.28@1.37½ for eight hoop. Oleo Tierces quiet and steady at 92½@97½c.

Hogs—The supply of Hogs was only fair during the past week, and the quality was rather good as good as during the week previous. Packers are still busy with their fall farm orders and buying less attention to the slaughter of Live Stock. Market was rather active in a general way. Packers purchased rather freely, and shippers provided for moderate orders from the Eastern markets. Fluctuations in prices were frequent within comparatively narrow ranges—and in a general way exhibited little change in the aggregate. Sales during the week were made at $5.55@5.70 for light, $5.50@5.75 for rough packing, $5.50@5.70 for mixed, and $5.55@6.25 for heavy packing and shipping lots, with the bulk of the trading within the range of $5.70@5.80 for fair to good averages. At the close about 5,000 Hogs remained in the pens unsold. Pigs were in fair supply, and in rather good demand, and sold at $5.00@5.10 according to size and condition. Supply of Hogs on the other large Western packing points was fair, and the quality rather good.

Packing—Only a fair business was transacted in packing circles during the past week. Supply of Hogs was not very large, with little change in prices, and packers purchased rather freely. Manufacture of Products was fair. Mess Pork was neglected. Other cuts of Pork made quarters. Lard produced rather freely, and the average yield was fair. A moderate proportion placed in tanks. Domestic cuts of Hams made moderately, and only a small proportion made from the block. Skinned Hams in fair quantities, and the bulk cured by manufacturers. Foreign cuts of Hams neglected. Shoulders made sparingly. Picnic Hams cut in moderate quantities, and only a small proportion sold from the block. Long Clear Sides made in very small quantities. Extra Long Clear Sides neglected. Short Clear Sides made in limited quantities. Extra Short Clear Sides made moderately. Short Rib Sides cut in only fair quantities. Extra Short Rib Sides made in limited quantities. Rough Sides made moderately, the bulk chiefly of medium grades. Lobs cut in fair quantities for general requirements. Foreign fancy and special cuts of Meats made in small quantities.

PROVISIONS—Considerable interest was manifested in the market for Hog Products during the week just closed, and the volume of speculative trading was quite active. Outside orders were fair and local trading was rather active. The undertone to the market was stronger and prices ruled higher on all leading articles, though outside prices were not supported to the close. The receipts of Hogs were somewhat below expectations, and there is an impression in the interior that the supply of Hogs will be on a much smaller scale during the early portion of the winter packing season, and this feature encourages fair miscellaneous buying. The outlook for the Corn crop is regarded more favorable for an average yield, and on the strength of this there is considerable Product offered by manufacturers. The packing of the West for the week, compared with the corresponding week in 1903, exhibited an increase of 35,000 Hogs, and this feature had a little influence on the market in a general way. Probably the most important factor bearing on the market was the reduction of 55,000,000 lbs in the aggregate supplies on hand during September. The reduction of 55,000 tcs of Lard was a surprise, and this strengthened the market for that article, and the other speculative articles followed suit. While the domestic markets were rather firm, the advices from abroad indicated an easier feeling in the first quarter, and prices were reduced on all the leading articles, especially in the markets of the United Kingdom. The receipts of Products from the interior were quite large, and the shipments were rather limited, while they exhibited sympathized with the weakness generally. Market closed rather steady. Deliveries on October contracts were not very large, and the property tendered was readily accepted by strong parties. Trade in the near deliveries is gradually decreasing, while the business in January and May is steadily enlarging. Domestic cash shipping account was fair, but almost exclusively for the wants of the domestic trade. Exporters not inclined to do much business, owing to the easy feeling abroad. Offerings of all kinds were moderate, except only for Packed Meats, which holders were a little anxious to sell, and for which slightly reduced prices were accepted. Merchants in the Southern markets bought in fair quantities. Stocks of all kinds are only moderate. Prices, with the exceptions referred to, were fairly well maintained, and in some instances fair advances were gained, and modest gains were made for the close.

Pork—Quite a good business was reported in Mess Pork during the past week, and the feeling was somewhat unsettled. Offerings were fairly liberal, and the demand was quite active. Fluctuations in prices were rather frequent, and in some instances within fairly wide ranges. Supplies on hand were reduced about 7,000 bbls during September, and the deliveries on October contracts were about 4,000 bbls. Toward the close, trading was reduced in the near deliveries, while more interest was manifested in January and May contracts. Packers credited with selling the latter with considerable freedom. Early in the week, there was quite a good miscellaneous demand, while the offerings were moderate, and the market exhibited considerable strength. Prices were advanced 42½@45c. At the appreciation there was some inclination to realize, and the undertone to the market was easier. Prices regularly receded 40@50c on the whole range, but rallied again toward the close 7½@10c, and the market closed comparatively steady. Demand at the close of the week was fair in the main. Filling small orders, and offerings were moderate. Prices at the close were quotable at $13.80@13.85. Other outs of Pork were in better request, and prices ruled higher at slightly advanced figures. Stocks rather light.

Lard—The Lard market was the center of attraction in the Hog Product lines during the past week. The reduction in the aggregate supplies on hand during September, and a corresponding reduction in the world's supply of about 70,000 tcs, was the leading feature in the market. Shipments were quite large, and stocks are gradually decreasing. Deliveries on October contracts about 7,000 tcs. Foreign advices were quite encouraging early in the week, but prices declined slightly toward the close. Trading was mainly in October, January and May contracts—the deferred delivery months. Offerings were fairly liberal early in the week, the market exhibited considerable strength, with good miscellaneous buying, and prices were advanced 10@25c on the whole range. Later, there was some realizing, and the demand was less urgent. Packers were credited with selling the deferred deliveries. A weak feeling was developed, and prices declined 12½@15c, and the market closed comparatively steady. Demand on shipping account was fairly good and offerings were not very large. Sales were readily made at prices quoted by exporters. Prices generally ranged at 25c premium on October figures. Refined was in fair request for export, but prices were 50c lower. Local trade was quiet and dull. Offerings were meager. Holders firm in their views. Prices quotable at 7c discount on October figures. Leaf Lard was in rather good request, and offerings were light. Small trades were made at 7 7/8@7 87½, and the market closed rather steady at 7 87½. Neutral was called for moderately, with no particular pressure to sell. Feeling was stronger and prices were higher, closing at 29 25@9 37½ for No. 1, and 8 87½@9 for No. 2.

Short Rib Sides—Rather a quiet speculative business was reported in Short Rib Sides, and the feeling was stronger in a general way. Stock on hand was reduced about 6,000,000 lbs during September, and on October contracts were about 2,500,000 lbs. Offerings were moderately free, especially of the deferred deliveries. Demand was fair, including some inquiry from "shorts." Packers credited with selling January and May contracts. Manufacture at present rather light. Early in the week, the feeling was rather firm, with a good demand, and prices were irregularly advanced 22½@25c on near and 17½@20c on the deferred deliveries. Toward the close, there was some pressure to sell, while the demand was only moderate, and prices gradually declined 12½@15c, and the market closed comparatively steady. There was quite a good demand on shipping account, and from packers who are short in their supplies of the regular trade. Offerings were rather light. Holders firm in their views. Sales were made at October figures to 10c premium, and prices closed steady to 5c decline from the close of the week.

Green Meats—Trade was light in the market for Green Meats during the past week, and the feeling was easier. Offerings were fair in a quiet way, and the demand was on a limited scale. Local curers not inclined to purchase and outside orders were small. No trades made public for future delivery. Prices for November, December and January as follows: Long Cut Hams at 9½@9¾c for 16@18 lbs regular Hams, and 9½@9¾c for regular Skinned Hams. Inquiry for Hams was light, and prices ruled 1@2c lower. Skinned Hams were in light request and prices ruled ½@¾c lower. Shoulders were called for sparingly and prices ruled ½@¾c lower. Picnic Hams were in small request and prices ruled ½@¾c lower. Bellies in small supply and prices unchanged.

Pickled Meats—Only a fair business was reported in Pickled Meats during the past week, and the feeling was easy. Offerings were moderately free in a quiet way, and the demand was on a limited scale. Foreign advices were unfavorable to holders, and Hams were quoted lower. Orders from that quarter were somewhat limited. Merchants in the domestic trade were slow to purchase. Holders inclined to make sales concessions in prices, but not sufficient to induce very large trading. Stocks are fair. Lots of old cured rather slow sale. Hams were in only moderate request, with fair offerings, and prices ruled ½@¾c lower. Skinned Hams were in moderate demand and prices declined ½@¾c. Shoulders were in moderate demand and prices declined ½@¾c. Picnic Hams were in limited demand and prices declined ½@¾c. Bellies were in moderate request and prices were unchanged.

Dry Salted Meats—A fairly good trade was reported in Dry Salted Meats during the past week, and the undertone to the market was rather firm. Supplies of all kinds are moderate, and Packers are short in their views. Export orders were light, and the advices from abroad indicated an easy feeling in that quarter, with a material decline in the prices for all descriptions. Demand for the home trade was good, but toward the close buyers were a little slow to meet the extreme views of sellers. Southern markets are pretty well supplied temporarily, though fair orders were received for moderate quantities. Manufacture on a moderate scale. Foreign cuts of Hams were inactive, and prices nominally unchanged. Shoulders were in small demand and prices were slightly lower. Long Clear Sides were inactive and prices nominally unchanged. Short Clear Sides were in fair request and prices steady. Extra Short Clear Sides were in fair request, with limited offerings, and prices ruled higher—closing at 8@8⅛c. Extra Short Rib Sides were in fair demand and prices ruled higher—closing at 8@8⅛c. Offerings were moderate. Prices ruled higher, and closed at 8?@8?5. Rough Sides were in fairly good request and offerings were not very large. Prices were steady on all averages, and closed at 8?.87½@8.12½ according to weight. Plates were in fair demand and prices ruled ½@¾c higher. Backs were in moderate demand and prices ruled ½@¾c higher. Bellies were in rather good demand, and prices were well maintained. Foreign fancy and special cuts of Smoked Meats in only moderate request. Supplies small. Shoulders ..... 7 87½@8 00
Picnic Hams ..... 9 50@9 62½
Bellies ..... 10 50@10 62½

Smoked Meats—A fair business was reported in Smoked Meats during the past week, but the market was unsettled and prices irregular. Offerings were fair, and the demand was moderate. Supplies of all kinds fair. Hams were in moderate request and easy. Prices declined ½@¾c. Skinned Hams were in only fair request and prices declined ½@¾c. Shoulders were in small demand, and prices ruled steady. Picnic Hams were called for moderately, and prices ruled ½@¾c lower. Sides of all kinds were in good request, and prices were advanced ½@¾c. Breakfast Bacon in fair demand and prices well maintained.

Beef Products—Trade was only fair in the market for Beef Products during the past week, and the feeling was stronger in a general way. Cattle were in fair supply, and prices ruled higher on the better grades. Manufacture of Products was moderate. Foreign markets comparatively steady. Domestic trade moderate at slightly improved prices. Shipments of Dressed Beef were fairly liberal. Beef Hams were in moderate request and prices were unchanged. Extra Mess Beef in only fair demand but firmer, and prices about 25c higher. Plate Beef ruled quiet but steady, and prices ruled about 25c higher. Extra Plate Beef in fair demand and prices were unchanged. Canned Beef was in moderate demand with rather light offerings, and prices ruled slightly higher. Oleo Stearine was in good request with fair offerings and prices ruled higher, closing at 8⅝@8¾c.

Greases—Trade was fair in the market for Greases during the past week, and the feeling was firm, with prices about 1@2c higher on all grades. Offerings were moderate and demand was fair.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Oct. 6.]

There has been a moderate gain in numbers of Hogs marketed. Total Western packing 330,000 Hogs, compared with 300,000 the preceding week and 310,000 two weeks ago. For corresponding time last year the number was 295,000 and two years ago 315,000. From March 1 the total is 11,680,000, against 11,735,000 a year ago, a decrease of 55,000. With some exceptions the quality of current marketings is only fair. Prices are being well sustained, the average of prominent markets at the close indicating about $5.90 per 100 lbs. compared with $5.95 a week ago, $5.90 two weeks ago, $5.70 a year ago. $7.20 two years ago, and $6.15 three years ago.

The speculative Provision market was firm the past week, and there was an advancing tendency shown by the leading articles at Chicago. Lard led in the advance, and there was some buying in sympathy with the advance in this article. There was no material increase in the receipts of Hogs, and prices for same were well maintained. This in addition to the strength in the Corn market encouraged holders to firm views. The export clearances of product were fair, but show a slight decrease as compared with the preceding week, and there was practically the same movement as for the corresponding week last year.

The stocks of Cut Meats at centers making monthly returns show the comparisons as to totals, in pounds, according to Cincinnati *Price Current* compilations, as follows:

	Oct. 1, 1904.	Sept. 1, 1904.	Oct. 1, 1903.
Chicago	84,712,000	108,307,000	87,937,000
Kansas City	33,4.6,000	40,004,000	26,917,000
Omaha	23,643,000	36,288,000	27,145,000
Milwaukee	11,35,000	16,036,000	13,337,000
St. Joseph	22,5.7,000	29,652,000	22,016,000
Total, lbs	175,933,000	230,277,000	177,402,000

This indicates a decrease of 54,000,000 lbs in the total, compared with a month ago, while the stocks were decreased 60,000,000 lbs last year for the corresponding period. The total at these points is now 1,000,000 lbs less than a year ago and 60,000,000 lbs more than two years ago. The total stocks of Lard at the five centers named in the foregoing table on Oct. 1 were 94,000 tcs, compared with 175,000 tcs a month ago and 132,000 a year ago.

The total stocks of Cut Meats, of Short Rib Sides, of Sweet Pickled Hams, in pounds, and of Lard in tierces, at Chicago, Kansas City, Omaha, Milwaukee and St. Joseph, compare as follows, for dates indicated:

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Oct. 6.]

There has been practically no occasion for complaint in regard to weather conditions the past week in influence upon agricultural interests. The Corn crop has progressed in the maturing process in a manner quite favorable in nearly all sections where this is an important crop. In sections of the West where dry weather was retarding or interfering with Wheat seeding operations there have been rains, so that needful relief in this particular has been secured. Fall pasture has been benefited, and this feature now counts for much in its service in Stock feeding and saving of Grain.

So small a proportion of the Corn crop now could be seriously injured by hard frosts that it is practically admissible to say the crop is secure, and certain to result in considerable increase in yield compared with last year, when the crop was more than average in proportions, and quality will average better this season, in the light of present indications. There will be considerable soft Corn necessarily, and in localities where the stalks have been prostrated there will be some damage to the Grain. But these drawbacks will not disturb the generally favorable situation of the crop, which now justifies expectation of 2,400,000,000 bu or more.

The current marketing of Grain is restricted, under the prevailing disposition to hold for higher prices. In some sections, however, the surplus of Wheat appears to have been largely disposed of. The reserves of old Corn are reduced to low proportions. The large crop of Oats is not being offered freely in a general way.

The recent rains west of the Mississippi River have given an impulse to Wheat seeding operations, and under the high prices prevailing for this Grain there is shown a disposition to increase the acreage very decidedly. In some of the regions eastward from the Mississippi, where a decrease in the Wheat acreage has been reported as intended, there has been a manifest effort to lessen such decrease. Taken as a whole the Winter Wheat area will probably considerably exceed that of last year.

The Government crop report for October will be made public the coming week. For Wheat it will represent average yield of spring Grain per acre in bushels. This average should not be much if any below 12½ bu per acre, and should not imply less than 210,000,000 bu for this portion of the crop. If the later commercial estimates relating to the three Northwestern States are meritorious, total Spring Wheat production should closely approach 225,000,000 bu, but the official data will undoubtedly fall short of indications equal to this. The October report with the previous data relating to winter Grain may be regarded as likely to imply approximately 540,000,000 bu for the entire crop. For Corn the average condition should not be lower than last month, and may with reason point to 2,400,000,000 bu to 2,450,000,000 bu, or possibly more.

WHEAT AT PRIMARY MARKETS.

The following table shows the receipts of Wheat at Winter and Spring Grain markets for fourteen weeks, from June 27 to Oct. 3, with comparisons, as compiled by the Cincinnati *Price Current:*

1895	13,918,000	44,489,000	58,407,000

ITEMS OF GENERAL INTEREST.

The United States Steel Corporation has over $55,000,000 cash on hand subject to check. This is nearly $5,000,000 greater than the amount on Dec. 31, and is almost the largest amount it ever held at any one time.

Hogs received at Kansas City last month averaged 206 lbs, against 210 lbs in August, 232 lbs a year ago, 208 lbs two years ago, and 185 lbs in September, 1901, when the average was around the lightest on record.

A prominent Philadelphia financier and a personal friend of President O G Murray of the Baltimore and Ohio is quoted as saying: "From the assurances I have received there is not the slightest doubt that the next dividend on Baltimore and Ohio will be at the rate of 5 per cent per annum, or an increase of 1 per cent over the present rate."

Speculative interests at Minneapolis have proposed a change by which 50 per cent No. 1 Northern and 50 per cent No. 2 Northern can be delivered on sales for future delivery. The No 2 Northern is to pay a penalty of 5c. As the percentage of No 2 is much larger than No. 1 Northern, it will benefit the former. Millers oppose the new move unless there is a larger percentage of the No 1 Northern to be delivered. They want to know what they are likely to get when they buy futures.

The market has held steady all the week. Trade has been about the same in characters as noted of late and prices held up to the quotations recently established. There has not been any urgent demand, but just a moderate steady call from day to day sufficient to keep the offerings of fair weight on the market, excepting it was the undergrades, which moved in slower and these did not always clean up on the day of arrival. However, no accumulation was reported, and the market was in a good healthy condition.

The demand has been on local and shipping account. Local consumption has held up well and there were some orders received for outside points.

The receipts have been moderate, showing a steady decrease, and fell short of the arrivals of last week and were smaller than for the corresponding week a year ago.

There has been some complaint about the quality, many of the factories which have been passing the Extras up to so the paper was not what it had to go in as Firsts. The reason given for this was a faulty condition due, it was claimed, to the smutty weather of the early part of the week and possibly some to a change in feed.

To-day the market unchanged. Nothing new developed. Demand just moderate and prices remained the same as quoted lately.

Extras in Creameries are quoted at 25c and packing 20c. Offerings light and demand moderate.

Firsts in Creameries are quotably 17@18c. Offerings moderate and more is wanted by a moderate demand.

Seconds in Creameries are quiet and quotable at 14@15c.

Thirds in Creameries quotable at 12½@13c.

Imitation Creameries in light supply and in light demand. Quotably about 15c.

Process Butter (renovated) is quotable at 15@16c per lb.

Ladies are quiet. Offerings moderate. Demand light. No. 1 quotably about 15c.

Dairies are only in moderate supply and selling well. They are holding firm. Extra makes are quotable at 16c. Firsts are quotable at 14@15c. Seconds or such goods as lack flavor and not of uniform color are quotably 13@13½c.

Packing stock in fair supply and in good demand. Quality varies considerably. For choice, sweet, solid stock buyers are paying 12½c, but stock cheesy and strongly acted by heat, ranges down to 8c. Butter in paper-lined barrels brings a premium.

BEANS—There was a very quiet, uninteresting market. Demand was slow and not more than equal to the offerings. A lot of very choice have been small, yet those that have been received have met with slow sale. There was no special change in prices. Quotable:

Pea Beans.

Hand-picked, good to choice ..... $1 85 @2 58

Receipts Apr. 1, 1899, to Oct. 14, 1899.. 1,281,920 "

The market has ruled steady during the past week. No change to refer to, however, excepting that the receipts have fallen off steadily. A good demand existed for the fresh stock, and nice graded stock sold readily and received with no difficulty in keeping cool until sold, but the miscellaneous receipts, some of which were quite ordinary, were rather slow. The demand was chiefly local, but occasional outside orders were filled, which helped to clean up the offerings. Receipts were smaller than last week and also smaller than for the corresponding week a year ago.

The receipts to-day were offered on sale during the week and met with very little demand, and sales were made at 17¢@18¢c, including storage to January 1st.

To-day the market was steady for fresh graded stock, and easy for the ordinary lots. Storage eggs were slow.

Fresh Eggs at mark, as received, cases returned, cover a wide range of values and quality, as follows:

Fresh Eggs at mark, as received, cases returned, cover a wide range of values and quality, as follows:

"Prime Firsts" are quotably 20c per doz. To meet this description the Eggs must be fresh gathered, be packed in new white wood 30-dozen cases, unless otherwise specified, shall be reasonably uniform in color and of average size, and shall contain 45 per cent fresh, reasonably full, average fancy Eggs, from May 15 to June 15 The balance other than the ones may be defective in strength and fullness, but must be sweet. There may be a light sprinkling of Dirties or Checks per case, but if the loss exceeds this amount by not over 50 per cent the Eggs shall be good delivery upon allowance of 50c per case.

"Firsts" are quotably 19c per doz. To meet this description the Eggs must be fresh gathered, packed in new white wood 30-dozen cases, unless otherwise specified, shall be reasonably uniform in color and of average size, and shall contain 45 per cent fresh, reasonably full, average fancy Eggs, from May 15 to June 15 The balance other than the ones may be defective in strength and fullness, but must be sweet. There may be a light sprinkling of Dirties or Checks per case, but if the loss exceeds this amount by not over 50 per cent the Eggs shall be good delivery upon allowance of 50c per case.

"Extras" are quotably 22c. This is a very high grade of Eggs, put up by some of the city merchants to meet the requirements of their trade for high class of trade. It requires going through a good many cases to get one case up to this standard, as nothing but the very strictly fresh Eggs are taken.

Prices in good supply and demand light. Quotably 12@15c—outside for candled stock.

Seconds, including small, shrunken and dirty and cracked, are quotably 10@11c, but not over 50 per cent the Eggs shall be good delivery upon allowance of 50c per case.

Refrigerator Eggs, April storage, storage paid until January 1, are quotably at 17½c.

FRESH FISH—Moderate sale. The receipts of limited lines and over fish were liberal.

The quotations given are for small lots received to be sold here on commission. The quotations are for top prices the price obtained by the regular fish houses.

POULTRY—Live—Ruled firmer to-day on prices for Chickens are higher, while other descriptions were unchanged.

There was a moderate stock on sale to-day. The market cleaned up closely last night and the morning receipts to-day were small, so that the offerings were comparatively light.

A good demand existed. Dressers had a good week and were cleaned up closely, and in want of stock for their morning trade. They were anxious for stock and paid the advance noted

Live Turkeys were in light supply. Old Turkeys sold well, and young Turkeys also met with a fair demand.

Live old Chickens were in moderate supply, and in moderate demand. They were firmer. Fat heavy stock sold in light but some small scrubby stock around which was slow, and to sell prices had to be cut by

Live Spring Chickens were firmer. There was a light supply and a good demand. Small Chickens preferred and they command a premium.

Ducks in fair supply The demand was moderate Dark feathered Ducks do not sell as well as white.

Live Geese in fair demand when fat and nice. The receipts were moderate and the weather was good and favorable for trade in Geese

GRAPES—The market for New Yorks ruled just about steady. There were liberal offerings, also a fair demand for Saturday. Michigans were in good supply and steady. Receipts were liberal. Some of the Michigan Grapes are not desirable on account of being mussy or slack packed.

Peaches—Purchases of all kinds continue to meet with slow sale.

Quotable:

Two cars of New York in bulk were received and sold at $35 per ton delivered.

The Michigan Grapes are very good in quality and the trade is using them instead of New York.

HOW TO DRESS CALVES.

Calves from three to six weeks old, and weighing from one hundred pounds, or say from eighty to one hundred and twenty pounds, are the most desirable weights for shipment. The head should be cut out, so as to leave the hide of the head on the skin. The legs should be cut off at the knee joint. The entrails should all be removed, excepting the kidneys; the liver, lights and heart should be taken out. Cut the carcass open from the throat through the entire length—from head to bumgut. If this is done they are not so apt to sour and spoil during hot weather. Many a fine carcass has spoiled in hot weather because of it not being cut open. Dash cold water in and out with water, but wipe out with a dry cloth. Then hang up by the animal heat is entirely out of the body, and never tie the carcass up in a bag, as this keeps the air from circulating, and makes the meat more liable to become tainted.

It is very essential that the directions for dressing Calves followed, especially in regard to letting the Calves cool off properly before shipping in hot weather, as hundreds of Calves are received in bad order and sold for not much more than charges and some do not bring freight. Numerous carcasses are also ruined by the health officers. They should hang up 6 to 8 hours or over night in an airy place to properly cool off before shipping.

Calves under fifty pounds should not be shipped, and are liable to be condemned by the health officers as being unfit for food. Merchants, too, are liable to be fined, if found selling these slunks, for violation of the law. Very heavy Calves, such as have been fed on buttermilk, never sell well in any markets—they are neither veal nor Beef.

Fasten the shipping tag with your name and address written plainly thereon to the hind leg.

The best selling days for Calves are Tuesday, Wednesday, Thursday and Friday morning. The Monday and last days of the week there is not much demand, and Calves are not coming, only a Monday afternoon and Saturday—buyers generally have their wants supplied.

Of course there is some demand every day, but usually the best days to sell Calves are Tuesday, Wednesday, Thursday and Friday morning.

A prominent Philadelphia financier and a personal friend of President G. Murray of the Baltimore and Ohio is quoted as saying: "From the assurances I have received there is not the slightest doubt that the next dividend on Baltimore and Ohio will be the rate of 6 per cent per annum, or an increase of 1 per cent over the present rate."

TO SHIPPERS OF LIVE POULTRY.

Commission merchants would like to call attention of shippers to a few points. Shippers should see that the coops are in good condition before using, so that they are not liable to come apart while in transit, as they are roughly handled sometimes. The coops should also be high enough to allow whatever kind of Poultry is shipped room enough to stand up. Low coops should not be used, it not alone being cruel, but a great deal of Poultry is lost every year by suffocation. For Turkeys higher coops than for Chickens should be used.

Fitting of Coops—Coops may be loaded heavier in cold weather than in warmer. Do not overcrowd the coops. Putting too much stock in a coop at any time is wrong, but in hot weather especially do not crowd too much stock into a coop. This should be carefully attended to in order to prevent any more shrinkage than possible. Coops often arrive with a good deal of dead stock. Do not blame the commission merchant for heavy shrinkage or Poultry smothered in transit through carelessness in overcrowding coops.

In hot weather do not put more than 100 lbs of live old Hens in a regular coop; in cold weather about 150 lbs in regular size coops. Of Spring Chickens, when small about 50 to 60 lbs and large 70 to 90 lbs.

Keep different stock seperate as much as possible. If a shipper has sufficient stock to fill coops, it is best to ship the Hens, Spring Chickens, Roosters, Turkeys, Ducks and Geese seperately. Of Turkeys, Ducks and Geese not enough stock of each kind to fill a coop separately, mixed coops can be sent.

Spring Chickens weighing less than one pound should not be shipped as they become a drug on the market. Pound and one-half to two pound Chickens sell best, and later in the season two pound weights are preferred. In the early Spring, when Chickens first come in, some small Chickens will sell, but as soon as Chickens begin to be plentiful, then the small ones are not wanted. Later in the summer, when Chickens are scarce, a pound is fancy, and from a half pound to two pounds are preferred, so take it the year round, two-pound stock, or as near to two pounds as possible, sells best.

Attention is also called to the fact that darkfeathered Ducks are not as desirable as the white-feathered, chiefly for the reason that they do not dress out as white and clean as the white-feathered stock.

Poultry should be shipped so as to arrive on the market from Tuesday to Friday. Receipts generally increase toward the end of the week, and there is enough carried over stock on hand Saturday to supply the demand. Poultry that will not than carry stock over Sunday, would sell at a sacrifice, as the stock, when in coops, loses considerable in weight by shrinkage, and does not appear fresh and bright. Besides Monday is usually a poor day to sell Poultry.

Tags with the name of the commission merchant and the shipper should be tacked on the end of the coops. Tack two tags, one on each end, so that if one gets destroyed the other is likely to remain all right.

Never tack the tag on the tops of the coops.

Be sure and write your name and address on the tag. Your name alone, or the town alone, will not be sufficient, as the commission merchant receiving your shipment could not tell to whom or where to send the pay for the stock.

PRODUCTION OF GOLD AND SILVER.

Totals	$325,547,200	$92,039,600

The total number of ounces produced is given as 170,443,670.

These figures show a gain over the output of 1902 of $27,507,700 in Gold and 3,000,000 ounces in Silver. The commercial value of the Silver output is $6,532,400 greater than in 1902, at the average price of 56c per ounce, compared with 53c in the previous year.

The most important gains in Gold were $28,974,600 in Africa and $7,691,300 in Australia, and the most serious loss was in the United States. The most important change in Silver production was in Mexico, which reports an increase of 10,483,338 fine ounces. Australasia shows a gain of 1,556,819 ounces.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Oct. 5.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth together with that of all "outside milling" with a daily capacity of 31,000 bris. from Jan. 1, 1904, to Sept. 24, 1904, with comparisons:

	1904— Flour. bris.	Wheat, bu.	1903— Flour, bris.	Wheat, bu.
Minneapolis	9,542,665	42,948,000	10,948 825	49,270,000
Duluth	876,585	2,980,000	784,810	3,262,000
Outside mills	4,021,470	22,147,000	4,990,050	22,330,000
Totals	15,040,640	67,584,000	16,623,685	74,862,000

These figures represent the approximate consumption of 7,156,000 bu less Wheat this year than in 1903. This has occurred from the mills of Minneapolis and Duluth as well as the outside mills turning out 1,583,045 bris less Flour than in 1903.

THE FLOUR PRODUCTION.

MINNEAPOLIS Oct. 5.—The *Northwestern Miller* reports the weekly Flour output at milling centers for two weeks, with comparisons, as follows:

	Oct. 1, 1904. Bris.	Sept. 24, 1904. Bris.	Oct. 3, 1903. Bris.	Oct. 4, 1902. Bris.

Kansas City	43,950	40,800	46,400	33,900
Toledo	12,000	12,000	45,000	30,400

*Outside mills, Dakota and Iowa mills outside of Minneapolis and Duluth.

*Flour made by mills outside of St. Louis, but controlled in that city.

Again the Minneapolis mills have increased their output. As compared with the week immediately preceding, last week's output showed an increase of 8,330 bris. For the current week the output is likely to be about the same as for last week. Possibly it will be slightly less than last week, but this week's output should be about 320,000 bris.

While Minneapolis millers are not enthusiastic about market conditions they generally admit having secured enough business, although to-day's established transactions reached the immense total of 81,640,353,025,530

The American Car and Foundry Company has declared the usual quarterly dividend of 1¾ per cent on the preferred stock, payable Nov. 1. Books close Oct. 10 and reopen Nov. 2. Earnings for four months. May, June, July and August, were shown to be $617,000, and for the quarter a little over $600,000.

A Boston dispatch says: "A free movement of Wool continues in the Boston market. Some stocks of Wool have become surprisingly low for this stage of the season. This is especially true of medium grades. Territory Wools are selling actively at firm prices. Pulled Wools are steady. There is little doing in foreign Wools on spot."

The Pittsburg Terminal Railroad Company has awarded contracts for 600 Steel hopper Coal cars to the Pressed Steel Car Company and the Cambria Steel Company, each concern to build 300. Eighty passenger coaches will be built in the various car shops in Philadelphia, Wilmington, Dover and Altoona, and at Meadow, N. J. Orders have also been issued for the building at the Altoona shops of 10 Mogul and 10 Consolidation engines, to be used on the lines west of Pittsburg

The annual report of the Minneapolis and St. Louis Railway shows gross earnings decrease of $414,000; net earnings decrease of $196,331, and a surplus of $206,077. Dividends were paid of 5 per cent on preferred and 2½ per cent on common, leaving a net deficit of $54,522. The decrease in business is attributed to the poor crop prospects in the road's territory for two consecutive years and the loss of the Rock Island connection, that system having built its own road into the Twin Cities.

The statement of operations of the American Ship Building Company for the fiscal year ended June 30 last reflected the great depression in the shipbuilding interest of the great lakes. The earnings fell off $1,184,666, being more than out in two. Charges were considerably lighter, and the preferred stock dividend was paid, with a moderate surplus over. The amount applicable to the common stock was $187,127, or 2.46 per cent. This compares with $658,754, or 14.43 per cent, earned in the previous years, and $1,184,257, or 15.88 per cent earned in 1902

A New York dispatch says: "The Union Pacific Railroad has sold out its entire holding of Northern Securities stock, amounting to $30,000,000 Great Northern and St. Paul, representing the Rockefeller-Gould interests, and hereafter the Northern Pacific, St. Paul and Missouri Pacific will be operated in close harmony with the Burlington and the Atchison and Union Pacific will form a close alliance, and the Great Northern will again assume its independence, with James J. Hill and J. P. Morgan as its dominating factors."

The Chicago *Inter Ocean* says: "Kansas City deluged the trade here, Wednesday, with assorted reports regarding the quantity of Wheat on track there. One report was to the effect that there and no sales. Considerable held in drawers which have not been sold, estimated at 300 cars. There is no demand and 3 cars sold at 2c decline." Another message said: "Kansas City has 2,000 cars of Wheat; quite a little offered, but no one seems interested at the moment; 20 cars on track." Another message said: "Kansas City has 2,000 cars on track, the accumulation since last Saturday."

New Jersey may no longer be the State of trusts Western States, it is declared, will amend their laws so as to make it the favorite location of insurance combines. The edition of "New Jersey Incorporations" cast upon corporations formed there is cited as the reason for the disbandment of many firms organized under the New Jersey laws, and the organization in other States. The National Grocery Company, incorporated under Michigan laws, Saturday, with a capital of $3,000,000, is the leader of what is claimed will become a trust exodus from New Jersey

The classified statement of imports and exports for August and for the eight months ending August 31, 1904, as compared with 1903, 1902, 1901, against $87 049,362 last year, or an increase of approximately 7 per cent; for the eight months, imports of $657,244,760, against $670,981,531 last year, a decrease of approximately 2 per cent. The exports for August stand at $90,093,659, as against $87,855 344 last year, or an increase of about 3 per cent; for the eight months, $598,923,727, against $650,639,331, which is about a decrease of about 9 per cent

A Sioux City, Iowa, dispatch says: "Interesting developments in the Government grant to the Sioux City and St. Paul Railroad, a declarative victory in the Federal Court here, Tuesday, when seven cases were disposed of in their favor. The value involved in these cases are in dispute. It is taken to mean that the homesteaders in scores of other suits pending, involving more than $1,000,000, will win. The fight has been in progress for years. The homesteaders first got title, and the purchasers from the railroad sued for possession in the State and Federal Courts."

With one exception, that of 1902, last month was the best September on record on the New York Stock Exchange so far as volume of transactions are concerned, and it nearly equaled even September, 1902. For par value of the listed and unlisted stocks and State and railroad bonds in the two years was as follows:

September—	Par value.
1902	$2,172,852,700
1904	1,976,438,100

It was in September, 1902 it will be remembered, that the Northern Pacific corner took its height, and the average price of twenty railroad stocks touched 129 20.

English visible supply of Wheat decreased 84,000 bu, compared with an increase of 234,000 bu last week, and an increase of 1,696,000 bu the corresponding week last year.

The Michigan crop report to-day repeated the Wheat crop estimate—its "farewell appearance" for the season—of about 5,500,000 bu. Area sown, 86 per cent of an average crop.

Cotton in New York was active and lower at the start, but advanced on covering by "shorts" and buying for the "bull" interests. Closing sales were at 14@19 points higher.

Stocks of Wheat in public warehouses in Liverpool reported at 3,992,000 bu, against 3,440,000 bu one week ago and 3,000,000 bu one year ago. Stocks of Corn reported at 900,000 bu, against 806,000 bu one week ago and 624,000 bu last year.

Stocks in New York were active, strong and higher. Foreign buying was a feature. Western Railway shares gained ¼ to ¾, but reacted and lost most of the advance. Industrials were up 1¼ to 1¾, but lost part. Money, 2 to 2¼ per cent.

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were increases of 3,221,000 bu Wheat, 2,523,000 bu Oats, 39,000 bu Rye, and 1,160,000 bu Barley, and a decrease of 1,424,000 bu Corn.

Local Securities were active and strong, with decided advances in Industrials. Swifts was the feature. There is little stock in the open market and it advanced 8⅝ but reacted 4 points. Edison advanced 5, Carbon preferred and Diamond Match 2 points. Can and Biscuit made small gains. Metropolitan and Northwestern Elevated preferred sold lower.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand fair, and prices 5@10c lower than last week

WINTER WHEAT—Ruled steady for choice Winter, especially soft Wheat, but all other descriptions ruled dull, and for No. 3 Hard prices were quoted 2@3c lower. Demand light and considerable Wheat was not sold and carried over. No. 2 Red in store quotably $1 10¾@1 11⅜ and fresh arrivals free on board ranged at $1 11@1 16. No 3 Red fresh receipts free on board sold at $1 11@1 13 and ranged down to $1 09c for common. No 2 Hard fresh receipts free on board sold at $1 12 and ranged down to $1 09. No 3 Hard fresh arrivals free on board ranged at 96c@$1 10 for common to choice, and sold at the river at 96c@$1 04.

SPRING WHEAT—Choice hard variety of Wheat was steady, but the poor Wheat was very dull and 1@2c lower, with some samples of poor No. 4 showing 5@5c decline. There was too much of this poor, shrunken No. 4 Wheat received, and there was no demand for it. No. 1 Northern fresh arrivals free on board quotably $1 15@1 17. No 2 Northern fresh receipts free on board quotably $1 08@1 15. No. 3 Spring fresh receipts free on board sold at $1 06@1 11 and ranged at $1 05@1 12 for common to choice, with a sale at the river at $1 07¼. No. 4 fresh receipts free on board sold at a wide range of prices, with poor at 62@75c and good to choice at $1 02@1 07 and hard variety at $1 08@1 10; sales at the river at 98c@$1 05¼

REGULAR WHEAT—A very fair trade was witnessed, and the feeling, while rather unsettled, was firm, and the close was ¼c to ½@⅝c higher. The start was easy on the cables and "bearish" foreign statistics, the liberal movement and favorable Argentine advices also having a depressing influence. At the decline, local warehouse interests were credited with large purchases, and the Northwest was also a buyer, and the situation for a time was stronger. Later the market again ruled easy, the increase in the visible and fear of the showing of the Government report being the weakening factors, but again rallied and the close was quite steady. World's shipments were heavy at 11,381,000 bu—Russia contributing 5,661,000 bu; previous week 10,616,000 bu, and 11,592,000 bu one year ago. Quantity on ocean passage increased 1,968,000 bu, and is now 40,120,000 bu, against 31,920,000 bu one year ago. Visible increased 3,221,000 bu; last year increased 1,579,000 bu. Total is now reported 20,797,000 bu, against 20,563,000 bu in 1903, and 26,111,000 bu in 1902. Local public stocks increased 1,000 bu, and are 2,318,000 bu, compared with 2,428,000 bu last year. Stocks at Liverpool increased 552,000 bu to 3,992,000 bu, as compared with 3,000,000 bu same date last year. Railroad officials were reported as unable to handle the enormous accumulations of Grain from the large harvest in the Southeast of Russia. Liverpool quoted spot 1d higher to ½d lower and futures ⅛d lower. London and Antwerp were unchanged. Paris was ¼c lower and Buda Pesth ¼c higher. English visible decreased 84,000 bu; last year increased 1,696,000 bu. Antwerp cabled Argentine crop prospects excellent. Both Milwaukee and Minneapolis reported large Flour sales. Duluth reported sales back to Minneapolis, which showed 2c profit. Minneapolis stocks increased 400,000 bu the past two days. Oregon mills reported an order for 80,000 sacks of Flour, presumably from Japan. The London *Statist* of Oct. 1 contained a very "bullish" summary of the world's supply of Breadstuffs. English farmers' deliveries last week were 440,000 bu and the price 1c higher. Roumanian Wheat crop was officially reported at 32,400,000 bu, against 73,700,000 bu last year and a four-year average of 69,712,000 bu. Exports moderate; 5 boat loads accepted at seaboard. Receipts at Duluth 274 cars, at Minneapolis 926 cars, total of 1,200 cars, against 881 cars Friday, 1,430 cars a week ago, 937 cars last year. Local receipts included 56 cars Winter, 55 cars Spring and 46 cars mixed, a total of 157 cars, against 165 cars last year. Included in above was 1 car of contract grade. There were 34 cars and 71,000 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 112 cars. Withdrawals were 25,200 bu. Receipts at Western points 2,658,033 bu for three days, against 2,220,000 last year. At Eastern points 34,167 bu, against 238,000 last year. Shipments from Western points 998,610 bu, against 1,341,577 last year; from Eastern points 62,077 bu, against 303,000 bu last year. Shipments of Flour were 13,313 brls. Exports of Wheat in Flour were equal to 121,981 bu

Future Deliveries of Regular Wheat—Fair trade and market firm

OCTOBER—Entirely nominal.

MAY—Sold at $1 08¼@1 09⅜. Opened with sales at $1 08⅞ to $1 08¼; sold to $1 08⅝, to $1 08⅞, to $1 08¼, to $1 08⅞, to $1 08½, to $1 09⅜ to $1 09, to $1 09⅛, to $1 08⅜, to $1 09¼, to $1 08⅝, to $1 09, to $1 08⅝, to $1 09¼, to $1 08⅞, to $1 09¼@1 09⅜, and closed at $1 09¼@1 09⅜.

JULY—Sold at 96¼@97½c. Opened with sales at 97c; sold to 96¾c, to 97½c, to 96¼c, to 97c, and closed at 97c bid.

CORN—A large trade and easy tone, the close being ⅝@¾c to ¾c lower than Friday. Favorable weather and fear of a "bearish" showing in the Government report induced further liquidation and the selling was general the first half of the session. Floor traders and local "shorts" were the principal buyers. World's shipments were 4,138,000 bu, against 3,976,000 on previous week and 3,924,000 bu one year ago. Quantity on ocean passage decreased 86,000 bu and is now 20,142,000 bu, against 18,942,000 bu in 1903. The visible decreased 1,424,000 bu, against 962,000 bu decrease one year ago. Total is now 4,555,006 bu, against 8,398,000 bu in 1903 and 2,541,000 bu in 1902. Local public stocks decreased 162,000 bu and are now 2,034,000 bu, against 1,718,000 bu one year ago. Stocks at Liverpool are now 900,000 bu. Stock last year 624,000 bu. Receipts 298 cars and 173 cars estimated to-morrow. Liverpool spot steady to ¼d higher, futures ¼d lower. New York claimed fair buying of May Corn there for Continental account—first of season. At the close 65 boat loads were reported accepted, part for deferred shipment. Showers indicated for Illinois, Indiana and Missouri, fair for Iowa, Nebraska and Kansas. Local arrivals 281,000 bu and shipments 323,000 bu. Withdrawals 169,000 bu and exports 162,000 bu. Local shipping demand fair, and a sale of 125,000 bu No. 2 reported at 3¾c over December c. i. f. Buffalo. Car lots were in fair demand and offerings moderate. Feeling easier and prices 1c lower. No. 2 closed at 50c. No. 2 Yellow sold at 52¼c and closed at 52c. No. 3 sold at 52c and closed at 49¼c. No 3 Yellow sold at 52½c and closed at 51¾c. No. 4 sold at 52@52¼c.

Corn by sample—Offerings were rather freer and the demand fair. Feeling weaker and prices 1c lower than the sales of Friday. Sales on track and free on board: No Grade sold at 49c. No. 4 at 49@52½c. No. 3 at 50½@52½c. No 3 Yellow at 52½@53c. No. 2 at 52c. No. 2 Yellow at 53½c. No. 3 White at 50¾@52c. Billed through: No. 4 at 48½@51½c. No 3 at 49@50¾c. No 3 Yellow at 50½@52c. No. 3 White at 50¼@50½c.

Future Deliveries of No. 2 Corn—Active and weaker and closed ⅝@¾c to ¾c lower.

OCTOBER—Inactive and closed nominally 49¼c

DECEMBER—Sold at 47⅝@48½c. Opened at 48½c to 47⅞c, and sold at 47¾c, to 48c, to 47⅞c, to 47⅝@47¾c, to 47½c to 47¾c, to 47½@47⅝c, to 47⅞c, to 47⅝c, to 47¾c, to 47½c, to 48c, to 47⅞c, to 48c, and closed at 48c asked.

MAY—Sold at 45¼@46½c. Opened at 46½c to 45¾c, and sold at 45⅞c, to 45⅝c, to 45⅞c, to 45⅜@45½c, to 45⅞c, to 45⅝c, to 45¾c, to 45⅝c, to 45¼c, to 45¼c to 45¾@45⅞c, to 45⅝c, to 45¾c, to 45⅝@45¾c, and closed at 45⅝@45¾c bid.

JULY—Sold at 45⅜@46¼c and 45⅝c. Opened at 45⅝c, and sold at 45⅝@45¼c, to 45¼c, and closed at 45¼c bid.

OATS—Were active, weak and lower, establishing a lower level of values for the season. The break was in sympathy with other Grains and on general liquidation. The buying was to cover "shorts" and for a new class of investors. Prices receded ⅜@⅝c and closed with a loss of ½@⅝c. Statistics were "bearish." The visible supply increased 2,523,000 bu and is 22,538,000 bu. Chicago stocks in public houses increased 277,000 bu and are 4,548,000 bu. Arrivals were 388 cars for the three days, and 185 cars are expected to-morrow. Duluth had 30 cars and Minneapolis 213 cars. Seaboard clearances were 26,000 bu. Cash demand was good on the break, with sales of 150,000 bu, including 25,000 bu Standard. Car lots to go to store were ¼@½c lower. No. 4 White sold at 29½c. No. 3 White at 30¼c. Standard in store closed at 29½c.

Oats by sample were in good supply and sold moderately. Prices receded ¼@½c with futures. Sales on track and free on board: No Grade at 29½c. No 4 White at 29@30½c. No. 3 at 29@29½c. No. 3 White at 29¾@31¼c. Standard at 30¼@31½c. No. 2 at 29¾@30½c. No. 2 White at 31½@32c. Billed through: No 4 White at 29¾c. No 3 at 29c. No. 3 White at 30½@31c. Standard at 30½@31c. No. 2 White at 31@31¼c. At the river: No. 4 at 28c. No. 4 White at 28@28¾c. No. 3 at 28@28½c. No. 3 White at 28½@30c. Standard at 29@29½c. No. 2 White at 29½@30c.

Future Deliveries of Contract Oats—Were weaker and lower.

OCTOBER—Slow. Closed at 29½c.

DECEMBER—Fair trading. Sold at 29½@29⅝c and at 30¼@30⅜c. Opened at 30¼c, sold at 30¼@30⅜c, to 29½c, to 29⅞c, to 29¾c at close.

MAY Active. Sold at 31⅞@32⅝c. Opened at 32½c to 32⅝c, sold to 31⅞c, to 32⅛c, to 32@32⅛c at close.

RYE—Ruled firm. Demand fair and offerings only moderate. There were 17 cars received and 5,800 bu were withdrawn from public elevator. No exports from New York. The visible supply increased 39,000 bu. No. 2 in store nominally 77½@78c, and fresh arrivals free on board sold at 80c. No 4 sold at 76@76½c, and No. 3 billed through sold at 76c. A car No Grade sold at 74c

Future Deliveries of No. 2 Rye—Ruled firm. October 78c asked. December sold at 78½c and closed with 79c asked. May sold at 80¾c and closed at 81c bid

BARLEY—Was heavy for low grade to good malting. There was a liberal supply. Some buyers were out, being filled up. Those on the market could easily get all they wanted and more too. Sellers were not satisfied with the bids. A good many cars are going at prices that mean losses to shippers. There was nothing to do but concede to the views of buyers and sell. Buyers were taking Barley within a certain range of prices, and not a very wide range, so that the distinction between common and good Barley was smaller than it would seem quality sometimes would warrant. Choice Barley steady and quiet, not much of this, and demand tame. Fancy appears on sale only occasionally, and then in small quantity. Inspected in since Friday 170 cars. There was a good demand for feed Barley. This grade ruled steady and served as a prop, in fact, it was about the only support for low grade malting. A good many cars of Barley were sold Saturday. There being no Board on that day, quite an office business was done. Cars in this way sold relieved to-day's market to the extent of such sales. Screenings were dull, some good to choice sold at 34@35c; poor seedy nominally down to 26@28c. Barley, feed or mixing, local, active at 37c; malting, low-grade or fair, but dirty, ranged at 37@39c. Clean, fair to good, at 39@42c, and choice quotable at 45@47c. Fancy a shade over; a sale made at 50c.

SEEDS—There was little trade, and what was done was at at about former prices. Timothy was dull and heavy. No special feature to other kinds.

Timothy—Dullness prevailed. Not much cash offered, usually small lots and common to poor quality. Demand very tame. Speculative market neglected and futures nominal. Contract spot or October delivery nominally $2 65. December $2 70 and January about $2 76. March offered at $2 87½ and $2 82½ bid. Country lots quotable at $2 35@2 40 for fair to good, high grade Seed at $2 40@2 45, choice to fancy $2 50 and possibly a shade over; poor Seed quotably down to $1 85@2 15; inferior lower.

Flax—A few cars of Northwestern Flax came on sale. They were taken at the recent quotation, and in other particulars prices were called unchanged. Local receipts were 9 cars, or 6,100 bu, and output was 4 cars or 4,189 bu. Local stock today reported showed 556 bu increase. It was 16,047 bu, against 70,294 bu a year ago. Northwestern receipts increasing; 113 cars reported at Minneapolis and 92 cars at Duluth. No. 1 Northwestern or No. 1 from the Northwest sold at $1 14½. No 1 nominally $1 08½ bid. Rejected quotable at $1 04@1 13, as to quality. October $1 08½ nominal and December about $1 11.

Clover—Was very quiet. None offered. Market called about steady and unchanged. Weather dry and if continued will favor resumption of threshing. Quotable. October delivery at $12 25. Contract spot Seed the same. Country lots, common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 60.

Other Seeds—Some Mustard on sale, but nothing else noticed. Quotable Millets, common or German quotable at 75@90c for common to choice, and Mustard about 75c@$1 00

HOG PRODUCTS. A fairly good trade was reported in Hog Products, and the feeling was easier. Some liquidation on behalf of outside operators, and local speculators and packers favored the selling side. Hogs were in larger supply than last year, and the undertone to the Grain markets was easy. Buyers were backward. Prices declined on all the leading articles, but rallied slightly from the inside figures reached. Trading mainly in the deferred deliveries. Hogs were in fair supply and lower. Receipts at the leading Western packing points for two days were 82,900, compared with 47,600 for the corresponding time last year. Foreign markets were easy for Meats, and Liverpool quotations were reduced 6d on Backs and Cumberland Sides, while Lard was steady at former figures. Domestic markets were steady. Receipts of Products were good—of Lard and Meats about 66 cars. Shipments were liberal—of Lard and Meats about 263 cars. Exports for the week, compared with the corresponding week in 1903, exhibited decreases of 850 brls Pork and 614 boxes Meats, and an increase of 5,811,000 lbs Lard. CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Sept 27.]

United Kingdom—The fine weather we mentioned a week ago has generally continued to prevail since, and our farmers are having a splendid time for fall cultivation Probably not much Wheat has yet been sown, but the seed demand is in evidence in the markets, and we may reasonably expect to see a fair increase in the Wheat acreage seeded in the United Kingdom during October and following months. Although the official average price for English Wheat last week was below 30s, recent markets have ruled quite firm and dearer by 6d to 1s per quarter, 31s and 25s being mentioned as top prices for good lots at Colchester and Canterbury respectively The official average of 29s 10d for last week was again the highest of any corresponding week since 1897.

Russia—The period of drouthy weather in the Southwest has been relieved by good rains. Supplies to the ports keep liberal, but shipments last week were smaller and merchants complain that only poor qualities are now offering.

Roumania Heavy rains fell last week and stopped plowing and sowing Only small supplies are now coming forward, but good quantities of Grain are firmly held at the ports and shipments have dropped to small figures, even including the Bulgarian quantities.

Austria Hungary—Good rains fell last week and were beneficial, but growers would now like a finer period for plowing and seeding, which are in full swing throughout the country. Offerings of Wheat at Buda Pesth are not large, but sufficient for the demand; the quantities afloat are the chief depressing influences.

Argentina—The condition of the new crop continues to give satisfaction Locusts have appeared in Santa Fe, but the authorities are taking active measures to destroy the insects. Shipments further decreased last week and it is again asserted that supplies from the last crop are almost exhausted.

Australia—It is reported here to-day that unfavorable, dry weather prevails. Latest mail advices, dated Aug 18-20, are only moderately favorable, the crops then being rather backward, but of fair promise. Since then some good rains have fallen and crop prospects have been reported by cable to be favorable, but the Australian crop, to make it a real success, seems to need occasional rains almost up to harvest, and it is just about at this time (October) when the dreaded hot winds come

India -Even the drouthy Gujerat district of the Bombay Presidency has now had beneficial rains, and the general outlook is favorable. The seeding of the new Wheat crop, which starts in September in the early districts, is continued in the following months until December. Shipments continue liberal.

France—Weather is very favorable for autumn plowing and seeding. The French Millers' Association estimates the Wheat crop at 317,600,000 bu, against 413,000,000 bu last year, but expresses the opinion that no imports will be required beyond what can be obtained from Tunis and Algeria. This authority however, naturally leans toward big figures in its estimates, and it is not surprising to find that its opinions as to imports are not generally shared by the trade, who have been making purchases of Indian and other Wheats. Some estimates of the crop are as low as 280,000,000 bu, to provide requirements of at least 344,0 0,000 bu, but, of course, some part of the deficit would be provided from the reserves of old Wheat carried over from last season Country markets keep very firm for Wheat, and prices have been further advanced 1s 6d per quarter

Germany—There are still some complaints of insufficient moisture in Northern Germany, but some rains fell last week and improved the outlook for seeding The condition of the Potato crop on Sept 15 was returned officially as equaling 62 per cent, Clover 58 per cent, pastures 60 per cent Native Wheat is in good supply, and it is thought there would be a good outlet for it abroad if the state of the rivers permitted the Grain to reach the ports under normal conditions.

Denmark—Dry weather prevails and binders plowing, but there is plenty of time yet for the work. The last harvest gave good average crops of Wheat and Barley both as to quality and quantity; Rye and Oats are of fine quality, but rather short as to quantity. This country has just bought a cargo of Indian Wheat, which marks a new departure.

Spain—There are some complaints of drouth.

COMPARATIVE STOCKS OF LARD.

The Cincinnati *Price Current* submits the following comparisons of stocks of Lard on Oct 1 for the years mentioned, held in Chicago and New York, and reported in European markets and afloat, with totals, represented in tierces.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 26 to 46; partly cloudy Northwest—Temperature 38 to 52; rains general. West—Temperature 50 to 70; rains in Iowa and Illinois. Southwest—Temperature 48 to 74; partly cloudy; light scattered rains Ohio Valley -Temperature 66 to 72; partly cloudy.

Indications are that unsettled weather in this section will pass away to-night and be followed by fair and much cooler to-morrow

ITEMS OF GENERAL INTEREST.

A Peoria buyer wired, Thursday: "We bought 6,000 bu old Corn at one station to-day. With this fine weather we believe all the rest of the old Corn in the country will come out."

An Italian official bulletin for the period September 10 to 20 says that a fall in the temperature was expected to damage the Corn where the crop was unripe. Rains had fallen and put the land in good condition for plowing.

The plant of the National Refining Company, Findlay, Ohio, was completely destroyed by fire, Wednesday, entailing a loss of $200,000. The fire was started through lightning striking a 30,000-brl tank which at the time was about two-thirds full.

Estimated receipts for to-morrow: Wheat, 93 cars; Corn, 54 cars; Oats, 114 cars; Rye, 10 cars; Barley, 89 cars; Hogs, 21,000.

Average cost price of Hogs at Chicago, Monday was $5.89, against $5.88 Saturday, $5.88 a week ago, $5.53 a month ago, and $5.42 a year ago.

Cotton in New York was unsettled. Most of the influences were against the price, but it advanced early only to decline. Closing sales were at losses of 2@5 points.

The receipts of Wheat at Liverpool during the past three days were 264,000 bu, of which 24,000 bu were American. Receipts of Corn, 184,000 bu, of which 48,000 bu were American.

Local Securities were fairly handled and prices moved irregular. Swift's advanced 1 point and reacted 1¼. Can preferred broke ⅛. Street's and South Side Elevated declined, and Chicago Telephone and Metropolitan Elevated preferred gained 1 point.

The weather bureau weekly Cotton report, issued to-day, says: "Weather for Cotton picking throughout the week has been ideal. Picking is well advanced generally, and is nearly completed in Florida, in portions of Georgia, Louisiana, and Texas."

Stocks in New York were active and higher despite heavy selling of a few specialties by the leading "bull" interests. Western Railway shares gained ⅝ to 1¼, but a few lost it. Industrials and Coalers were irregular at the last. Money 1¾ to 2¼ per cent.

A Chicago commission man who was in Minneapolis, Monday, wired: "While the percentage of strictly good Wheat is small, the milling value of the off grades is better than I expected to find it. The average test weight is heavier than I supposed, and the amount of Wheat below 50-lb test is not nearly so great."

Bradstreet's report of the available supply for the past week shows the following changes:

	1904, bu.	1903 bu.
Wheat east of Rockies	Inc. 4,598,000	Inc. 1,993,000
Europe and afloat	Inc. 4,600,000	Inc. 2,202,000
Total	Inc. 9,198,000	Inc. 4,195,000

Oats	Inc. 2,671,000	Inc. 1,000,000

WORLD'S SUPPLY OF BREADSTUFFS.

The following table shows the supplies of Breadstuffs afloat for Europe and in store in Europe and Argentina on the dates named.

	Oct. 1, '04. Bu.	Sept. 1, '04. Bu.	Oct. 1, '03. Bu.
Afloat for Europe	38,140,000	38,900,000	32,160,000
In store in Europe	54,930,000	40,450,000	45,740,000
In store—Argentina	3,325,000	3,016,000	1,512,000
In store—America	60,474,000	42,611,000	61,522,000
Total	156,869,000	124,977,000	140,934,000

The increase during September equalled 31,892,000 bu, compared with an increase of 13,825,000 bu during August, and an increase of 37,097,000 bu during September, 1903.

GOVERNMENT CROP REPORT.

According to the report of the Department of Agriculture the yield of Spring Wheat is about 218,000,000 bu and of Winter Wheat 333,000,000 bu, or a total of 551,000,000 bu. The yield in the Northwest is placed at 154,000,000 bu, and the average yields per acre for the three States vary little from those the *Northwestern Miller* published last week. Revisions in the final report will probably increase the crop in Ohio and reduce the aggregate yield considerably in California. Yield of Corn approximately 2,328,000,000 bu. Yield in the surplus States 1,443,000,000 bu, compared with 1,271,000,000 bu in 1903. Yield of Oats largely increased—estimated at 883,500,000 bu. Indications point to a yield of 28,500,000 bu Rye, and 140,000,000 bu Barley.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Was in fair request with prices rather more in buyers favor.

WINTER WHEAT—Ruled steady with a fair demand on milling account, and sales of 25,000 bu were reported. However, it was choice Wheat that was wanted, poor Wheat slow. No. 2 Red in store nominally $1 09¾@1 11⅛ and fresh arrivals free on board quotably $1 15@1 16. No. 3 Red fresh receipts free on board sold at $1 11@1 12, and No. 4 Red at $1 07@1 10. No Grade Red sold at $1 10. No. 2 Hard fresh arrivals free on board quotably $1 09@1 12. No. 3 Hard fresh arrivals free on board quotable at 96c@$1 10, and sold at the river at $1 04½@1 05½. No. 4 Hard at the river sold at 90c. No. 3 White sold at $1 10.

SPRING WHEAT—For choice Wheat, especially the hard variety, the market was steady under a good demand and very light receipts, while the poor shrunken Wheat ruled dull and weak. No. 1 Northern fresh receipts free on board ranged at $1 16@1 17. No. 2 Northern fresh arrivals free on board quotably $1 08@1 15. No. 3 Spring fresh receipts free on board quotable at $1 05@1 12, with a sale at $1 05. No. 4 Spring sold free on board at 63@75c for poor and at $1 00@1 06 for fair to good, and sold at river at $1 02@1 03½.

REGULAR WHEAT—Moderately active and unsettled, the close showing December up ⅛c and May ⅛c higher. Commission house selling was general early in the session, and considerable "long" property was liquidated, the Government report liberal receipts and favorable weather being among the chief "bear" influences. "Shorts" accepted large quantities at the decline and situation turned stronger. Buying by Southwest was a feature. The Spring Wheat yield was placed at 12.7 bu and indicated a crop of 223,675,000 bu, which with 329,811,000 on Winter makes a combined yield of 553,626,000 bu, against 637,821,000 bu 1903. Northwest cars were 552 ahead of last year, while primary receipts were 229,000 bu less. According to the monthly report of the DAILY TRADE BULLETIN the world's supply of Breadstuffs increased 31,892,000 bu last month, against 37,097,000 bu increase during September 1903. *Bradstreet's* available supply increased 9,200,000 bu, against 4,195,000 bu increase same week in 1903. Duluth wired that it was generally conceded that the Manitoba crop is 5,000,000 to 10,000,000 bu greater than last year. Liverpool spot was steady to ⅛d lower, futures steady to ⅛d higher. Receipts past three days 264,000 bu, with only 24,000 bu from America. London came ⅛d lower. Paris, Antwerp and Berlin unchanged and Buda Pesth ⅛c lower. Australian crop reports were less favorable, as also those from Argentine, reports from the latter country claiming the ground was tilled poorly. Total local stocks now 4,413,000 bu, a decrease of 366,000 bu. Stock year ago 6,128,000 bu. Contract stocks increased 27,000 bu to 1,485,600 bu, against 1,880,000 bu in 1903. Kansas City estimates for to-morrow only 60 cars. Minneapolis stocks reported increased 575,000 bu first half of week. Signal service predicted fair weather for the Northwest. Receipts at Duluth 516 cars, at Minneapolis 602 cars, total of 1,118 cars, against 1,200 cars yesterday, 1,183 cars a week ago, 770 cars last year. Local receipts included 72 cars Winter, 30 cars Spring and 21 cars mixed, a total of 123 cars, against 195 cars last year. Included in above was 2 cars of contract grade. There were 13 cars and 39,200 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 93 cars. Withdrawals were 12,700 bu. Receipts at Western points were 1,462,559 bu, against 1,692,347 bu last year. At Eastern points 14,537 bu, against 382,900 last year. Shipments from Western points 440,500 bu, against 741,900 last year and from Eastern points no bu, against 184,007 bu last year. Shipments of Flour were 27,880 brls. Exports of Wheat in Flour were equal to 12,460 bu.

Future Deliveries of Regular Wheat—Fair trade and after early break recovered full decline.

OCTOBER—Ranged at $1 06½@1 07⅜. Opened at about $1 06½, and closed about $1 07⅜.

DECEMBER—Sold at $1 07⅞@1 09¼. Opened at $1 08⅛ to $1 08; sold to $1 07⅞, to $1 08¼, to $1 07½, to $1 08¼@1 08⅜, to $1 07¾@1 07⅞, to $1 09¼, to $1 09, and closed at $1 09 asked.

MAY—Sold at $1 07¾@1 09⅝. Opened with sales at $1 08¾ to $1 08⅝, sold to $1 08½, to $1 08¾@1 08⅞, to $1 07¾, to $1 08½, to $1 08⅛, to $1 08⅝, to $1 08⅜, to $1 09⅛, to $1 09⅝, to $1 09½, and closed at $1 09⅛@1 09½ asked.

JULY—Sold at 95⅝@97c. Opened at 96⅛c; sold to 95⅝c, to 96c, to 95⅝c, to 97c, and closed at 97c.

CORN—Moderately active, with a good trade, close being ⅛@¼c higher for December and ⅛c for May. Liquidation of "long" property was general early, and stop-loss orders were executed, the Government report being the chief bear factor. At the decline there was general covering by "shorts," December ruling quite firm and 2½c over the May. The small receipts, active cash demand, and decreasing stocks of old Corn were among the strengthening influences. Government report made condition 82.9 per cent and indicated yield of 2,318,542,000 bu, against 2,244,000,000 bu in 1903. Yield in surplus States 1,443,000,000 bu, against 1,271,000,000 bu last year. Map showed rain in the Ohio Valley and Illinois, but fair weather generally indicated. Receipts 178 cars, with only 54 cars expected to-morrow. Local stocks in all positions, 4,350,000 bu, a decrease of 974,000 bu. Stock a year ago, 5,025,000 bu. Contract stocks decreased 166,000 bu and are now 2,018,000 bu; last year, 1,150,000 bu. Liverpool futures were off ⅛d. Austria-Hungary requirements were reported provided for only as regards Wheat. Bids for cash relatively ¼@½c better than yesterday, with offerings light. Sales restricted. Seaboard reported 3 boat loads accepted. Western receipts, 328,000 bu; last year, 503,000 bu. Shipments, 159,000 bu and 307,000 bu, respectively. Local arrivals, 195,000 bu; shipments, 114,000 bu. Withdrawals, 178,000 bu. Exports, 9,000 bu. *Bradstreet's* decreased 2,415,000 bu; last year decreased 1,203,000 bu. Car lots in good demand and light supply. Prices ¼@1c higher. Kansas City reported large sales of cash Corn for export, December shipment via Galveston. No. 2 closed at 50¾@51c. No. 2 Yellow closed at 53½c. No. 3 closed at 50½c. No. 3 Yellow closed at 53¼c.

Corn by sample—Was scarce. Mixed was steady and yellow and white ½@1c higher. Demand was good. Sales on track and free on board: No. 4 sold at 50@53c. No. 3 at 50½@53¼c. No. 3 Yellow at 53@53¾c. No. 3 White at 51@52½c. Billed through No. 4 at 49@51½c. No. 3 at 50¼@51c. No. 3 Yellow at 51½@52½c. No. 2 Yellow at 53c. No. 3 White at 50½@52c.

Future Deliveries of No. 2 Corn—Fairly active and unsettled, closing unchanged to ⅛@¼c higher.

OCTOBER—Inactive and closed nominally 49¾c.

DECEMBER—Sold at 47½@48½c. Opened at 47¾c to 48c, and sold at 47¾@47⅞c, to 48c, to 47½c, up to 48½c, to 48c, to 48⅛@48¼c, to 48⅛@48¼c, and closed at 48⅛@48¼c.

MAY—Sold at 45⅛@45¼c and 46c. Opened at 45⅝c to 45⅝c, and sold at 45⅛c, to 45⅜@45½c, to 45⅝c, to 45¼@45½c, to 45½c, to 45⅞c, to 45⅝c, to 45¼@45⅝c, to 45⅝c, to 45½c, to 45⅞c, to 45¾c, to 46c, to 45½c, to 46c, to 45¾c, to 45¾@45⅞c, and closed at 45¾@45⅞c bid.

JULY—Sold at 45c and 45¼@45⅜c. Opened at 45⅛c and sold at 45c, to 45¼@45⅜c, to 45¼c, and closed at 45¼c.

OATS—Were heavy. Prices declined 1c and the close was at a net loss of ⅝c. The depressing factor was the government crop report, showing 888,500,000 bu, or 110,000,000 bu more than a month ago and 104,000,000 bu in excess of 1903. The yield per acre is 32.1 bu, and quality 91.4. This started general liquidation and "short" selling. Support early was poor, but later "shorts" covered and hedgers bought fairly. This, with the advance in other Grains, brought out a rally of ⅜c. Stocks in all positions here are 10,811,000 bu, an increase of 195,000 bu. Contract stocks are 3,228,285 bu, an increase of 120,000 bu over the previous week. Available supplies increased 2,671,000 bu. Arrivals were 215 cars, with 114 cars expected to-morrow. Cash sales 155,000 bu. Seaboard clearances 2,000 bu. Car lots to go to store were ½@¾c lower. No. 3 sold at 29½c. No. 3 White sold at 29½c and Standard at 31½c. Standard in store closed at 28⅞c.

Oats by sample were rather slow, and, although offerings were lighter, prices receded ½@¾c with futures. Sales on track and free on board: No. 4 at 28@28½c. No. 4 White at 27@30½c. No. 3 White at 29½@31c. Standard at 30⅛@31½c. No. 2 at 29¾@30¼c. No. 2 White at 31¼@32c. Billed through: No. 4 White at 29¾c. No. 3 White at 29⅛c. Standard at 30½c. No. 2 at 29@30c. At the river: No Grade at 26@28c. No. 4 at 27@28c. No. 4 White at 26@28½c. No. 3 at 27¼c. No. 3 White at 28@29c. Standard at 29@30c. No. 2 White at 29¼@30c.

Future Deliveries of Contract Oats—Were easier, with active trading.

OCTOBER—Closed at 28⅞c.

DECEMBER—Active. Sold at 28¾@28⅞c and at 29½c. Opened at 29⅛c to 29½c, sold to 28¾@28⅞c, to 29⅛c at close.

MAY—Active. Sold at 31⅛@31¾c. Opened at 31⅝c to 31¾c, sold to 31⅛c, to 31½@31⅝c, to 31½c at close.

RYE—The market was easier. The car lot offerings were larger and there was more doing, while futures were very quiet and no trading reported. The receipts were 15 cars, and there were withdrawn from public elevator 3,100 bu. No exports from New York. No. 2 in store nominally 77c, and fresh arrivals free on board sold at 79@80¼c, depending on quality, with sales billed through at 79½c and at the river at 76¼@77c. No. 3 sold at 77@78½c.

Future Deliveries of No. 2 Rye—Quiet. October 78c asked. December 78½c bid and 79c asked. May nominally 81c.

BARLEY—There appeared to be less Barley offered, at the same time, there was enough. The fact of Oats being lower caused bids for feed Barley to be reduced 1c. Not so much of this grade offered, and sales smaller than for some days. Steadiness, recently, of feed Barley, has been the main prop under the market for low grade to common and fair malting. With this support withdrawn malting goods of the grades named also settled about 1c lower. Malting demand was very tame. Most maltsters are well stocked. Offerings were mainly of Dakota and Iowa small-berry Barley. It was said that perhaps heavy Minnesota was salable and about steady, very little of this coming. There were 95 cars inspected in. Good Screenings in demand and poor dull; just fair to choice sold at 30@35½c, for some fine clean a shade over was bid, very poor Seedy quotably down to 25c. Barley, feed or mixing, local, quiet at 36c and sold at the river at 31½c; malting, low grade or fair, usually small berry, some heavy, but dirty, ranged at 37@38c. Clean, fair to good, at 39@42c, and large berry, heavy quotable at 45@48c, with fancy a shade over.

SEEDS—There was a good cash business in Timothy, but none in futures. All other lines were very quiet. Flax showed both slight improvement and slight loss in prices, but otherwise there were no changes to speak of.

Timothy—Considerable cash Seed came on sale, more than has been seen of late. The Seed was taken, and although it is the slow season, the market did fairly well, though there was a heavy feeling. Futures were entirely neglected and nominal. Ten cars were tendered as contract grade. They passed as such and were delivered on October delivery sales. Market for country lots quotably $1 75@2 65 for poor to fancy. Good to high grade $2 35@2 42½. Bulk cars sold at $2 30@2 40, depending on quality. Rough Seed ranged at $2 10@2 25. Futures were nominal at $2 65 for October, $2 75 for January, and $2 85 asked with $2 80 bid for March.

Flax—Values were slightly changeable. No. 1 Northwestern brought ⅛c advance for a few cars, while in the rest of the market there appears ½@1c decline. Only a very small business was done. A few cars of No. 1 Northwestern sold at $1 15. No. 1 was nominally $1 05 bid. Rejected, depending on quality, quotable at $1 04@1 13. For October $1 05 was bid, and December sold sparingly at $1 10. Local receipts were 8 cars or 7,200 bu, there was none taken out. Minneapolis got 45 cars and Duluth 104 cars.

Clover—A few small lots of good quality appeared on sale. There was no change in the market. It was steady. To-day there was rain, how widespread was not known. Rainy weather at this time tends to promote firmness, for it interferes with threshing. No change in prices. Quotable: October delivery at $12 25. Contract spot Seed the same. Country lots, common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 50.

Other Seeds—Inactive and nominal. Millet, common quotable at 75@90c for common to choice. German at 80c@$1 00, Broom Corn Millet at 90c@$1 05, Siberian at 60@85c, and Early Fortune about 75@90c. Mustard about 7½c@$1 00.

HOG PRODUCTS—Trading was only fair in the market for Hog Products, and the feeling was easier. Offerings were moderately free, and the demand was fair. Hogs were in fair supply and prices lower, and the Grain markets were comparatively easy during the greater portion of the session. Outside orders were fair, and local trading was moderate. Market opened rather easy, with fair miscellaneous selling, and prices ruled lower on all the leading articles. Later, the feeling was steadier, and prices rallied slightly, and the market closed rather steady. Bulk of the business in January and May contracts. Receipts of Hogs at the leading Western packing points were estimated at 56,200, compared with 38,700 one year ago. Foreign markets were quiet and dull, and Liverpool quotations were reduced 6d on Lard, Cumberland Sides and Backs. Domestic markets were quiet. Receipts of Products were good—of Lard and Meats about 36 cars. Shipments were fair—of Lard and Meats about 160 cars. Shipping demand was light, and offerings were moderate. Sales were lighter than for several days past, and prices favored buyers.

Mess Pork—Only a fair business was reported in the market for Mess Pork, and the feeling was somewhat unsettled. Offerings were moderately free, and the demand was fair. Trading mainly in January contracts. Market opened rather easy, and prices were 12½@15c lower, and a further reduction of 2½@5c was submitted to. Later, a steadier feeling prevailed and prices advanced 15@17½c, and the market closed rather steady. Shipping demand was light, and offerings were small. Cash lots quotable at $11 10@11 20.

OCTOBER—In rather light demand, and offerings were limited. Sales were made at $11 00@11 10, and closed at $11 10.

DECEMBER—A few scattering trades were made at $11 15@11 30, and closed quiet at $11 25.

JANUARY—Offerings were quite free and the demand was fairly active. Sales were made at $12 55@12 75. Opened at $12 57½ to $12 62½, sold to $12 60, to $12 62½, to $12 55, to $12 70, to $12 65, to $12 70, to $12 67½, to $12 70, to $12 67½, to $12 75, and closed steady.

MAY—Inquiry was rather light, and offerings were moderate. Sales were made at $12 60@12 72½. Opened at $12 60, sold to $12 72½, and closed steady.

Lard—Trade in Lard was on a moderate scale. Offerings were fair, and the inquiry was not very large. Foreign advices were unfavorable. Prices were about 2½c lower at the opening, and a weak feeling was developed, and prices further receded 7½@10c. Later, rather more steadiness prevailed, and prices rallied 7½@10c all around, and the market closed comparatively steady. Demand on shipping account was fair, with moderate offerings. Cash lots quotably steady at 2½c over October figures, closing at $7 50@7 52½. Loose lots in fair request, with very small offerings. Prices quotable at 20c discount on October figures. Leaf Lard was in fair demand, with very limited offerings. Quotably steady at about $7 87½ for very small lots. Neutral in light demand, with limited offerings. Prices quotably steady at $9 12½@9 25 for No. 1, and $8 62½@8 75 for No. 2.

OCTOBER—Inquiry rather light and offerings were small. Sales were made at $7 47½@7 52½. Opened at $7 47½, sold to $7 50@7 52½, to $7 50, and closed steady.

DECEMBER—Quiet, with small sales at $7 32½@7 35.

JANUARY—Offerings were fair and the demand was moderate. Sales were made at $7 30@7 40. Opened at $7 37½ to $7 40, sold to $7 30, to $7 40, to $7 37½, to $7 40, and closed steady.

MAY—In moderate request and offerings were not very free. Sales were made at $7 35@7 45. Opened at $7 40, sold to $7 35, to $7 42½, to $7 40, to $7 45, and closed steady.

Short Rib Sides—A fair business was transacted in Short Rib Sides. Near deliveries were steadier, with limited trading, and prices were 10@15c higher, while the deferred deliveries were fairly active, with prices 5@10c lower, and closing at about outside figures. Offerings were rather free of the latter and moderate of the former. Demand on shipping account was light, and offerings were moderate. Cash lots quotable at $7 62½@7 75, according to weight.

OCTOBER—In fair request and offerings were not very large. Sales made at $7 52½@7 60. Opened at $7 52½, sold to $7 60, to $7 55, to $7 57½, and closed steady.

JANUARY—Offerings were moderately free, and the demand was fair. Sales were made at $6 57½@6 65. Opened at $6 62½, sold to $6 60, to $6 65, to $6 62½, to $6 57½, to $6 65, to $6 62½, to $6 65, and closed steady.

The Benson and St. John elevators at Heron Lake, Minn., have been destroyed by fire. Sixteen freight cars were also consumed. The loss is placed at $50,000.

Bank Clearings of the leading financial centers of the United States for the past week aggregated $2,588,078,911, an increase of 18.8 per cent, compared with the corresponding week last year.

Judge Adams of the Federal Circuit Court at St. Louis, Friday, appointed Jeremiah Sullivan of Cleveland, Ohio, receiver for the Altman Company of Canton, Ohio, because much property of the concern is in Missouri.

The pamphlet report of the Southern Railway for the year ended June 30 shows an increase in gross of 6½ per cent. There was a relatively large gain in surplus, but improvements and betterments to the extent of $773,806 caused a decrease compared with the previous year.

East bound shipments of the past week are as shown in the following table:

Traffic officials of Western roads who have returned from their conference in New York with the officials of Eastern roads and the Atlantic port lines say an understanding was reached by which harmony is expected to be restored and export rates, both by the Atlantic and the Gulf ports, maintained

A Des Moines paper estimates the Corn crop of Iowa at 300,000,000 bu. Farmers are husking the crop raised on the uplands, which matured earliest A large percentage of the Corn is sufficiently dry for farmers to commence cribbing. More than the usual quantity is being cut and shocked, as it saves it for feed

At a meeting of the directors of the Erie and Western Transportation Company, held in Philadelphia, Wednesday, an issue of $1,500,000 of bonds was authorized. They will be secured by a mortgage upon certain terminal properties and will be for twenty years The loan will be used to pay outstanding obligations for improvements

The Ohio crop report for October gives the yield of Wheat at 18 093,007 bu, compared with 28,000,000 bu last year The area harvested was the lowest in twenty-five years, with the exception of 1896 and 1900. Of the Wheat area seeded last fall 18 per cent, or 328 128 acres, were plowed up. The yield is less than half of a full crop for the State, the product per acre being about four bushels short of a good average.

At a recent conference in New York of the executive officers and traffic officials of the Western and Eastern roads and the Gulf and Atlantic port lines, an understanding was reached by which harmony is expected to be restored and traffic rates maintained. A good deal will depend, however, upon the traffic officials of the Mallory and Savannah Steamship lines, which still have some points of difference to settle.

The directors of the National Bank of America, Chicago, on Wednesday declared the first dividend to the stockholders of the bank. The declaration is a quarterly one of 1¼ per cent, or at the rate of 5 per cent per annum. It is payable Oct. 10 to stockholders of record Oct. 8. The National Bank of North America began business in June of 1902. It had undivided profits on Sept. 6 last of $77,425.

The Illinois State Railroad Warehouse Commission, at the request of the Chicago Board of Trade, changed the rule governing the inspection of Hard Winter Wheat to read: "The grades of Nos. 1, 2, 3, and 4 Hard Winter Wheat shall correspond in all respects with the grades of Nos. 1, 2, 3, and 4 Red Winter Wheat, except that they shall be of the varieties known as Hard Winter Wheat. In case of mixture of Hard Winter Wheat with Red Winter Wheat it shall be graded according to the quality thereof and classified as Hard Winter Wheat."

The sensational cut in wages put into effect by the United States Steel Corporation caused consternation among the men in South Chicago on Wednesday. For some time the men have been expecting a reduction, as a notice was given them to that effect sixty days ago, in accordance with the provisions of the wage agreements which expired Oct. 1. Such a radical reduction, which in many cases amounts to 40 per cent, was not expected, however. There is much dissatisfaction among the men as a result, although there has been no open protest.

In spite of reports that business of the great lakes is falling off, the records of arrivals and departures of boats at the port of Chicago for the year to Sept. 30, after considering the effects of the strike last spring, do not indicate that the business has been bad after all More than 1,100 steamers and sailing vessels entered port, a decrease of 591 craft compared with the same period last year. The clearances aggregate a total of 4,164, or a decrease of 579. The difference in either case is not equivalent to an average month's business, while the labor troubles of the early part of the season kept business pretty thoroughly tied up for six weeks or more.

In his report to the stockholders of the Northern Pacific Railroad, at their annual meeting, Wednesday, President Elliott stated that no charges were made during the year to income account other than for the construction of branch lines and purchases of real estate and terminals, all the expenditures for improvement and equipment having been made out of income. He says that notwithstanding that the Wheat yield in the States served by the railway was somewhat less than for the previous years, the general results have been satisfactory and indicate a growth of business. The undisposed of acrenge of land grant on June 30 last is estimated at 10,000,000 acres.

A Des Moines, Iowa, dispatch says: "Negotiations are now in progress between representatives of the Rock Island Railroad and the owners of elevator systems along the former's lines in Iowa whereby the Rock Island seeks to become sole owner of all elevators along its Iowa branches. The Counselman elevators constitute the largest holdings of any of the Grain firms doing business in Iowa and the Rock Island is now confining its negotiations to this firm alone. It is supposed that the Rock Island's failure to move Grain stored for shipment along branch lines was for the purpose of showing the elevator companies that they were to a certain extent at the railroad's mercy and were in no position to dictate terms."

"Packers are evidently after the heavy Hogs with a big club," says the *Drovers' Journal* "They are now inclined to pound prices on such pretty hard, and are putting forth an effort to force values to a much lower level It was one year ago this week that they forced prices down fully 75c in four days Prices one year ago to-day showed a break of 25@50c, and the average cost one year ago to-day stood 65c lower than the opening day of the week. On Friday of that week a packer bought a drove of good 281-lb packers at an average cost of $5 07. But, fortunately for farmers, buyers are facing a different situation at this time. It seems certain that the supplies of Hogs for the next sixty days are to hold far short of the volume of offerings during the same period last year."

During the past ten days business has grown so large with the railroad steamship companies that nearly all of the Chicago-Buffalo lines have found it necessary to place in commission some of their boats which have been lying idle all summer. The big steamer Wilkesbarre, which has made but one trip this year, was being loaded by the Lehigh Valley line here Friday. The concern now utilizes its entire fleet except the Mauch Chunk, and the officials state that if shipments further increase it will be necessary to put that immense carrier in service. The Western Transit Company recently brought out the steamers Yonkers and Auburn, and now uses thirteen of its fleet of eighteen boats The steamers Clarion and Lehigh of the Anchor Line have been added, and the Ramapo of the Union Steamboat Line, now being repaired, will be put into commission in two weeks. All seven of the Ogdensburg Line are running

Chicago Bank Clearings to-day, $32,617,141.

Deliveries on October contracts to-day were 6,250 tcs Lard and 300,000 lbs Short Rib Sides.

The weekly Government weather crop bulletins have been discontinued, as the season is over.

Reported that 48,000 bu Wheat and 88,000 bu Corn were taken at the seaboard to-day for export.

Estimated receipts for to-morrow: Wheat, 61 cars; Corn, 102 cars; Oats, 124 cars; Rye, 8 cars; Barley, 125 cars; Hogs, 24,000.

Nine packers purchased 19,400 Hogs to-day; shippers 2,600; left over, 10,000. Market closed weak and 15@20c lower than yesterday.

Average cost price of Hogs at Chicago, Tuesday, was $5 80, against $5 89 Monday, $5 93 a week ago, $5 74 a month ago and $5 53 a year ago.

Top prices of Cattle at leading markets thus far this week: Chicago, $6 60; Kansas City, $5 55; Omaha, $5 85; St. Louis, $5 80; St Joseph, $5 60.

Bradstreet's available supply of Oats exceeds all records. It increased 2,671,000 bu last week, and 34,221,000 bu, compared with 11,876,000 bu last year.

In a cable from Austria-Hungary, giving more details, *Broomhall* states that the requirements of that country are provided for only as regards the Wheat.

Cotton in New York was depressed by poor cables and good weather South. Realizing sales were a feature. A rally followed the break. Closing sales were 7@8 points lower.

There was deposited at San Francisco to-day $2,316,000 in Australian Gold for payment in New York. There was also deposited $531,000 in new Gold at San Francisco for payment in New York.

The President of the Chicago Board of Trade has appointed the following delegates to the Inter-State Commerce Law Convention, at St. Louis, Oct. 28: John T. Sickel, R. S. Lyon, and Richard Gambrill.

Broomhall cabled: "The area of the growing Argentine Wheat crop is officially estimated at 20 per cent larger than last year, or 12,271,404 acres, against 10,226,170 in 1903, 8,859,780 in 1902, and 8,030,130 acres in 1901."

Broomhall cables that the Wheat area of New South Wales is officially estimated at 1,985,000 acres, against 1,847,000 acres in 1903, an increase of 7 per cent. The acreage in 1902 was 1,279,760 acres. Present prospects are for an average crop.

A New Orleans Cotton man is quoted as saying that this year's supplies will not equal demands from world's spinners. He claims there were virtually no visible or invisible supplies at the beginning of the season, and supplies of Cotton goods the world over are very small.

Local Securities were active and unsettled. Can was the feature, advancing sharply. There were also gains in Diamond Match, Title and Trust, Chicago Telephone, and Street's Stable Car. Swift's, which has been advanced of late by "shorts," broke ½. Box Board preferred lost ¾.

Stocks in New York developed good activity and strength early, and advanced under good buying by the "bull" leaders and on foreign orders. Western Railway shares advanced ⅜ to 1½, but reacted and several closed lower. Steel preferred sold lower, but other Industrials advanced. Coal shares closed lower.

A Chicago Cattle buyer, Tuesday, said: "There is no doubt that really good Cattle are a scarce commodity in the country, and some good prices will be paid between now and Christmas. Those who have Cattle that possess good quality, but lack flesh, are working against their own interests when they ship such Cattle to market, for it will pay them to make Cattle of this kind good and fat."

Broomhall's weekly foreign crop summary says: "United Kingdom—Weather conditions very favorable for seeding and larger acreage expected. France—Growers are busy plowing and seeding. Offerings of native Wheat restricted. Germany—Weather favorable for seeding. Supplies native Grain smaller. Italy, Spain, Belgium and Turkey—Beneficial rains have fallen. Hungary and Roumania—Good progress fall seeding. Russia—Conditions in South favorable. Central Governments drouthy. Supplies slackening, but still continue liberal. Our correspondents are raising previous estimates. India—Wheat crop is being seeded under favorable conditions."

After a thorough test, with entirely satisfactory results, the Pennsylvania has decided to adopt for its entire system the uniform plan for handling freight. This provides for the movement of several classes separately. Each class is made up at Eastern terminal points and hurried through to Pitcairn, east of Pittsburg. There special trains are made up for Columbus, Cleveland, Cincinnati, Indianapolis, Chicago and St. Louis, and run direct to their destination. It has been proved that freight may be carried from Philadelphia to Chicago or St. Louis in six days—about half the time required under the old plan. Cars can be used twice as much as formerly and with little extra cost. East bound freights are handled in a similar manner.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—A fair local and domestic demand is reported and prices are steady at the recent decline.

WINTER WHEAT—Ruled steady and without special change, excepting for choice Wheat, which was quotably about 1c higher. Demand only moderate, with sales of 40,000 bu mixed lots reported on milling and shipping account. No 2 Red in store nominally $1 11@1 13 and fresh arrivals free on board quotably $1 16@1 17. No. 3 Red fresh arrivals free on board quotably $1 10@1 14, with a sale at $1 14. No 4 Red fresh receipts free on board sold at $1 02@1 10. No. 2 Hard fresh receipts free on board sold at $1 13 and was quotable at $1 10@1 13. No 3 Hard fresh arrivals free on board sold at $1 03 and was quotable at 98c@$1 10.

SPRING WHEAT—The market was reported steady for choice, and dull for the poor Wheat. A few cars of good Wheat are being received and some very poor Wheat also arriving. Choice, especially the hard variety, sells readily. No one cares to buy the poor Wheat. No 1 Northern fresh arrivals free on board quotably $1 16@1 18. No. 2 Northern fresh receipts free on board quotably $1 10@1 16. No 3 Spring fresh arrivals free on board ranged at $1 05@1 12½, and sold at the river at $1 08@1 10. No 4 Spring fresh receipts free on board sold at 60@73c for poor, at $1 05 for good, and $1 03@1 08 for hard variety, with a sale at the river at $1 03.

REGULAR WHEAT—Was fairly active, with the feeling again rather unsettled, but undertone on the whole firm. Closing prices showed the December 1⅜c higher, while May gained 1⅜@1½c. Pit temper was "bullish" and part of the buying was credited to the Southwest and local elevator interests. Outside markets were all stronger, and was an indirect "bull" help, as also the showing of the Liverpool market, which came ⅛@¼d higher on futures, while spot was steady to ¼d higher. Receipts at Kansas City and St. Louis were 162,000 bu, against 265,000 bu last year, and advices from the first named city were "bullish" as to the prospective movement. The secretary of the Kansas Grain Dealers' Association estimated fully 60 per cent of the Kansas crop marketed, and millers' stocks were reported small. Kansas City reported the sale of 80,000 bu No 2 Hard late yesterday, the same to go to Cleveland. The map was favorable, clear and cold in the Northwest and fair weather indicated. London came ¼@1d lower and Paris was off ⅛@¼c. Antwerp unchanged. Berlin was up ¼c and Buda Pesth ⅛c higher. Primary receipts were 110,000 bu larger than last year, the arrivals in the Northwest being 218 cars ahead of 1903. Minneapolis reported stocks increased 800,000 bu so far this week. Crop news from Argentina was "bearish." *Broomhall* reported the area of the growing Argentine Wheat crop was officially reported 20 per cent larger than last year at 12,271,404 acres, compared with 10,226,170 in 1903, and 8,859,780 in 1902. Area in New South Wales was officially estimated at 1,985,000 acres, against 1,847,000 acres in 1902, an increase of 7 per cent, and present prospects for an average Wheat crop. Rains were reported where much needed in New South Wales and Queensland, Australia. *Broomhall* cabled that Continental holders were endeavoring to resell white Wheat cargoes they bought recently. St. Louis wired: "Two hundred offers to sell Red Wheat were sent out by two prominent cash concerns last night covering a wide territory, and only two acceptances received so far." Buying May and selling July at 12½c difference was one of the early features. Duluth advices on the cash situation were "bearish." Local milling demand was reported better and sales about 40,000 bu. Receipts at Duluth 228 cars, at Minneapolis 505 cars, total of 733 cars against 1,118 cars yesterday, 1,067 cars a week ago, 515 cars last year. Local receipts included 40 cars Winter, 16 cars Spring and 2 cars mixed, a total of 58 cars, against 104 cars last year. Included in above was none of contract grade. There were 22 cars and 20,800 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 61 cars. Withdrawals were 8,100 bu. Receipts at Western points were 1,292,912 bu, against 1,152,905 bu last year. At Eastern points 7,210 bu, against 284,469 last year. Shipments from Western points 705,505 bu, against 457,353 last year and from Eastern points no bu, against 207,327 bu last year. Shipments of Flour were 15,882 brls. Exports of Wheat in Flour were equal to 71,469 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher.

OCTOBER—Entirely nominal. Was quoted one time at $1 08¾ and closed nominally about $1 08¾.

DECEMBER—Sold at $1 08⅞@1 10½. Opened at $1 09⅛ to $1 09; sold to $1 10¼, to $1 09⅜, to $1 08⅞, to $1 09⅛, to $1 08⅞@1 09, to $1 09⅝, to $1 09⅝, to $1 09⅜, to $1 09¼, to $1 09¾, to $1 10@1 10⅛, to $1 10⅛, to $1 10⅛, to $1 10⅜, to $1 10½, to $1 10@1 10⅛, to $1 10¼, to $1 10⅛, to $1 10⅜, to $1 10¼, to $1 10½, to $1 10⅜, and closed at $1 10⅜ bid.

MAY—Sold at $1 09@1 09⅛ and at $1 11. Opened with sales at $1 09¼ to $1 09½; sold to $1 09⅜, to $1 09¼, to $1 09⅝@1 09¾, to $1 09@1 09⅛, to $1 09⅜, to $1 09⅝@1 09¼, to $1 09½, to $1 10⅜, to $1 09¾@1 09⅞, to $1 10¼, to $1 10⅛, to $1 10⅛, to $1 10¼, to $1 10⅝, to $1 10½, to $1 10⅝@1 10¾, to $1 10⅜@1 10½, to $1 10¾, to $1 10⅞, to $1 10⅝, to $1 10⅝@1 10¾, to $1 10½, to $1 10⅝, to $1 11, to $1 10⅞, and closed at $1 10⅞ bid.

JULY—Sold at 97@98½c. Opened at 97c; sold to 97⅛c, to 97⅜c, to 98⅛c, to 98c, to 98½c, and closed nominally 98½c.

CORN—A fair trade with the interest centering more in contracts for December. The feeling manifested was stronger and the close was 1½c higher for December, while the May gained ⅝@½c. The December-May spread widened out at one time to about 3½c. Better tone was attributable chiefly to the strong position of cash Corn, better cables and small receipts. A feature was the buying of December by shippers. Bids for No. 2 Corn were at hand equal to 2¼c over December in store and holders not inclined to accept same. Receipts were only 66 cars, against 282 cars last year and but 102 cars estimated for to-morrow. Liverpool quoted spot unchanged and futures ⅛d higher. Liverpool reported a better demand for La Plata parcels and a fair inquiry for spot. The map was a favorable one and fair conditions were predicted. Southwestern markets were stronger. Western receipts were 374,000 bu, against 538,000 bu last year. Shipments 360,000 and 809,000 bu respectively. Local arrivals were 151,000 bu and shipments 200,000 bu. Withdrawals here 91,000 bu and exports at the seaboard 90,000 bu. New York at the close reported 11 boat loads accepted. Cash sales here were 325,000 bu. Car lots were in good demand and small supply. Prices were ½@1c higher. No. 2 closed to go to store at about 51⅝c, and No. 2 Yellow at 54½c. No. 3 closed at 51½c. No 3 Yellow sold at 54c, and closed at 51@51¼c.

Corn by sample. Demand was good and offerings very light. Feeling strong and prices were ½@1c higher. Sales on track and free on board: No 4 sold at 50@53½c. No. 3 at 51½@54c. No 3 Yellow at 53¾@54½c. No. 3 White at 53½c. Billed through: No. 4 at 50@53c. No. 3 at 50½@53c. No. 3 Yellow at 52¼@53½c. No. 3 White at 52c.

Future Deliveries of No. 2 Corn—Active and stronger, and closed ⅜@½c to 1½c higher.

OCTOBER—Quotable 2@2¼c over December. Sold at 51⅝c, and closed nominally at 51¾c.

DECEMBER—Sold at 48¼@49¾c. Opened at 48⅝@48½c and 48½c, sold at 48⅝c, to 48¼c, to 48⅝c, to 48¼c, to 48⅝@48½c, at 49⅛c, to 48⅞c, to 49½@49⅝c, to 49¼c, to 49½c, to 49¼c, to 49¾c, to 49⅝c, to 49⅝@49¾c, and closed at 49⅝@49¾c.

JANUARY—Sold at 46c.

MAY—Sold at 45⅝@45¾c and 46¼c. Opened at 45⅞@46c and 46⅛c, and sold at 46c, to 45¾c, to 45⅞@45⅞c, to 46c, to 45¾c, to 45⅞c, to 45⅝@45¾c, to 46c, to 45¾c, to 46⅛c, to 46@46⅛c, to 46⅛@46¼c, to 46⅛c, to 46¼c, to 46c, to 46¼c, and closed at 46¼c asked.

JULY—Sold at 45⅜@45¾c. Opened at 45⅜c to 45½c and sold at 45⅜@45½c, to 45½c, to 45⅝c, to 45¾c, and closed at 45¾c bid.

OATS—Were actively traded in. Liquidation by "longs" and "short" selling caused a break of ⅛@⅝c. Covering by "shorts" later and the strength in other Grains caused a reaction and last sales were ⅛c higher for December and ⅛c lower for May. October was traded in late in the day at ¼c over December, being bid up by cash houses. Sales for shipment were 245,000 bu, including 100,000 bu Standard. Charters were for 100,000 bu. Arrivals were 113 cars with 124 cars expected to-morrow. Withdrawals 14,100 bu. Seaboard clearances 3,000 bu. Car lots to go to store were steady to ¼c lower. Standard in store closed at 29¼c.

Oats by sample were steady to ¼c lower. Supply smaller. Demand fair. Sales on track and free on board. No 4 at 29c. No 4 White at 27½@29¼c. No. 3 at 29c. No 3 White at 29½@30½c. Standard at 30¼@32c. No 2 at 29½@30¼c. No 2 White at 31½c. Billed through: No. 4 at 28¼c. No. 4 White at 28¼@29c. No 3 White at 29¼c. Standard at 30¼c. No. 2 at 28¾c. No 2 White at 30¼@30¼c. At the river: No 4 White at 27¼@28¼c. No. 3 White at 28@29c. No 2 White at 30¼c.

Future Deliveries of Contract Oats—Were active and averaged lower, but closed on a good reaction.

OCTOBER—Sold at December price to ¼c over; closed at 29¼c.

DECEMBER—Sold at 28⅝@29¼c. Opened at 29¼c, sold to 28⅝c, to 29¼c, to 29⅛@29¼c at close.

MAY Active. Sold at 30⅞@31⅝c. Opened at 31½c to 31⅝c, sold to 30⅞c to 31⅝c at close.

RYE—Ruled quiet and steady. Few cars of fresh arrivals comprised the day's trading. Demand only moderate and no special feature presented. Receipts were eight cars and the withdrawals from store 8,100 bu. No exports from New York. No. 2 in store nominally 78c, and fresh arrivals free on board sold at 78½@81c, depending on quality, and sold billed through at 77c. No Grade sold at 67½c.

Future Deliveries of No. 2 Rye—Quiet. October closed 78c asked, December 79c asked, and May 81c bid.

BARLEY—Less was offered and little of it was of good quality. Supply consisted mainly of small berry or dirty Dakota Barley. Maltsters showed an indifference toward it. A good deal of this Barley was a little green when cut. It makes a hard flinty malt, and maltsters really prefer a larger berry from other quarters, even if the color is not so good. There existed a fair export demand for feed and a grade above, and this took enough to relieve to market, and it after all ruled about steady. For good malting Barley, that is good weight and sound, there was a fair demand. Choice to fancy could be quoted as salable and reasonably firm, but of such grades there were no offerings. Arrivals decreased as indicated by posted inspection, falling to 69 cars. Sales of Screenings were over the wide range of 26@37c for poor, thin, chaffy to very choice. Barley, feed or mixing, local, steady at 36c and sold at the river at 34½c; malting, low grade or fair, usually small berry, some heavy, but dirty, ranged at 37@38c; taken both by local trade and for export. Clean, fair to good, at 39@43c, and large berry, heavy quotable at 45@48c, with fancy a shade over.

SEEDS—There was a small advance in Flax Seed prices, and no other changes. The business done was confined to cash Timothy; this being the only line of which there were any offerings.

Timothy—A fair volume of business in cash Seed transpired. There was the usual wide range in quality. The Seed on the market was taken and everything about the market indicated steadiness. Sales were at $2 50 for choice Seed, all the way down to $1 50 for low grade. Country lots quotably $1 75@2 65 for poor to fancy. Fair to good quality at $2 35@2 40. Rough Seed $2 10@2 25. Futures were not traded in and were nominal at $2 65 sellers for October, $2 75 asked for January, and $2 85 asked with $2 80 bid for March.

Flax—There was a nominal advance of ½c. At the quotations there were buyers, but no sellers and no business was done. This left the market without any feature of interest aside from the improvement noted. This was due to a favorable turn in the Northwest. No Flax received the past twenty-four hours according to to-day's posting, and 1 car or 600 bu taken out. Minneapolis got 63 cars and Duluth 63 cars. No. 1 Northwestern was salable at $1 15½, and No. 1 at $1 08½. Rejected, depending on quality, quotable at $1 04@1 13. For October $1 08½ was bid, and December salable at $1 10½.

Clover—Was called steady and firm at unchanged prices. There were no fresh lots offered on sale. October delivery quotable at $12 25. Contract spot Seed the same. Country lots common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 50.

Other Seeds—Nominally unchanged. A little Buckwheat was shown for value. Good milling Buckwheat if here would bring perhaps $1 25@1 35 but buyers were not disposed to make bids to arrive. Millet, common quotable at 75@100c for common to choice. German at 80@$1 00. Broom Corn Millet at 90c@$1 05. Siberian at 80@85c, and Early Fortune about 75@90c. Mustard about 75c@$1 00.

HOG PRODUCTS—A fairly good business in a speculative way was transacted in Hog Products, and the feeling was easier. Offerings were moderately free, largely credited to packers, while the demand was only fair. Hogs were in liberal supply and lower, and this feature had a weakening effect on the market. Prices ruled lower on all the leading articles until near the close, when a steadier feeling prevailed, and prices rallied slightly and closed steady. Outside orders were moderate. Trading chiefly in January and May contracts. Receipts of Hogs at the leading Western packing points were 73,000 compared with 41,100 one year ago. Foreign markets were dull and easier, and Liverpool quotations were reduced 1s 6d on Cumberland Sides, 6d on Hams and 3d on Lard. Domestic markets were steady. Receipts of Products were liberal of Lard and Meats about 53 cars. Shipments were moderately large of Lard and Meats about 203 cars. Shipping demand was moderate and offerings were fair. Sales were not very large, and prices rather inclined in favor of buyers.

Mess Pork—Trade was fair in the market for Mess Pork, and the feeling was easier. Offerings were moderately free, and the demand was not very active. Bulk of the trading was in January contracts. Market opened rather easy at 5@7½c decline, and a further reduction of 27½@30c was submitted to. Toward the close, the feeling was steadier, and prices rallied 10@12½c and the market closed steady. Shipping demand was light, and offerings were moderate. Cash lots quotable at $11 00@11 0[illegible].

OCTOBER—Quiet, with small sales at $10 95@11 05, and closed at $10 95.

DECEMBER—Demand light and offerings were small. A few trades made at $10 95@11 15, and closed at $11 05.

JANUARY—Offerings were rather free and the demand was fair. Sales were made at $12 30@12 60. Opened at $12 57½ to $12 60, sold to $12 50, to $12 52½, to $12 60, to $12 55, to $12 52½, to $12 52½@12 55, to $12 47½, to $12 55, to $12 30, to $12 42½, to $12 40, to $12 42½, and closed steady.

MAY—Demand light and offerings moderate. Scattering sales at $12 32½@12 50. Opened at $12 50, sold to $12 32½, to $12 40, and closed steady.

Lard—A fairly good trade was reported in the Lard market, and the feeling was easier. Offerings were rather free, and the demand was fair. Foreign advices were unfavorable to holders. Shipments quite liberal. Prices ruled 5@7½c lower at the opening, and prices receded 17½@20c on all deliveries. Later, the market was steadier in a general way, and prices rallied 7½@10c and the market closed rather steady. Demand on shipping account was light, with moderate offerings. Cash lots quotably steady at about October figures, closing at $7 22½@7 25. Loose lots in fair request, with very small offerings. Prices quotable at 20c discount on October figures. Leaf Lard was in fair demand, with very limited offerings. Quotably steady at about $7 87½ for very small lots. Neutral in light demand, with limited offerings. Prices quotably steady at $9 12½@9 25 for No. 1, and $8 62½@8 75 for No. 2.

OCTOBER—Offerings were not very large, and the demand was fair. Sales were made at $7 15@7 32½. Opened at $7 30, sold to $7 27½, to $7 32½, to $7 15, to $7 22½, and closed steady.

DECEMBER—Quiet and sold sparingly at $7 12½@7 17½, and closed at $7 17½.

JANUARY—Offerings were moderately free, and the demand was fair. Sales were made at $7 15@7 35. Opened at $7 32½ to $7 35, sold to $7 42½, to $7 27½, to $7 20, to $7 27½, to $7 20, to $7 22½, to $7 15, to $7 25, to $7 22½, and closed steady.

MAY—In fair request and offerings were moderate. Sales were made at $7 17½@7 32½. Opened at $7 32½, sold to $7 25, to $7 30, to $7 17½, to $7 25 and closed steady.

Short Rib Sides—Trade was fair in the market for Short Rib Sides and the feeling was easier. Offerings were liberal and the demand was fair. Trading mainly in January contracts. Opening trades were made at 5c decline and a further reduction of 17½@20c was submitted to. Toward the close, a little more steadiness prevailed and and prices rallied 7½@10c, and the market closed rather steady. Demand on shipping account was light, and offerings were moderate. Cash lots quotable at $7 37½@7 50 according to weight.

OCTOBER—Offerings moderate and demand light. Sales were made at $7 15@7 25. Opened at $7 15, sold to $7 25, and closed steady.

JANUARY—Offerings were quite free and the demand was fair. Sales were made at $6 40@6 60. Opened at $6 60, sold to $6 55@6 57½, to $6 57½, to $6 52½, to $6 55, to $6 47½@6 50, to $6 52½, to $6 50@6 52½, to $6 52½@6 55, to $6 40, to $6 50, and closed steady.

MAY—In rather light demand and offerings were small. A few trades were made at $6 50@6 60. Opened at $6 60, sold to $6 50, at $6 57½, and closed steady.

Other Meats—Trade was rather light and mainly on domestic account. Exporters bought sparingly. Offerings were not very large and inquiry was moderate. Green Meats in moderate supply with light inquiry and prices ruled easier. Pickled Meats were dull and slow sale with fair offerings, and prices favored buyers. Dry Salted Meats were in fair demand with moderate offerings, and prices were lower. Smoked Meats called for moderately and prices favored buyers. Closing prices were as follows:

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review Oct. 6.]

Wheat—There was more activity displayed in the Wheat markets on the Coast the past week, and some very good-sized parcels of Wheat passed into the hands of exporters as well as millers. The demand came principally from abroad, buyers in Europe increased their bids to a good proportion, which enabled the local buyers to compete with the Eastern demand for Wheat At present the call for Wheat going East has let up on account of the inability of sellers to secure cars to move the Wheat purchased Eastward A very conservative estimate of Wheat purchased for Eastern sections of the country on Oct 1 makes the total about 8,000,000 bu with not over 2,500,000 bu shipped so far. The inability to secure cars has caused a cessation of buying for the present; but there is no doubt within a short time this car famine will be raised and renewed buying will once more prevail. A great many inquiries have come in asking for an estimate of how much of the present crop remains unsold. We have made diligent inquiries of the same and find that about 60 per cent of this year's Wheat crop remains unsold Buying has been quite active all season, and in many places in the country the entire crop has been sold Growers have been receiving good prices and are profiting by former experiences, and prefer to sell now rather than hold on for future market activity. Some very large growers in the Palouse and Walla Walla counties have placed a limit on their crop at 75c per bu at home, and if they secure this price will cheerfully let go. In the Idaho country three-quarters of the crop has been disposed of for Eastern markets The quality of the Wheat raised this year is better than for many years, and the same is free from smut and very little wild Oats prevailing. The rains that occurred last week proved of great benefit to the farmers in the Inland Empire The showers at intervals have proven much more beneficial than if a heavy rain had fallen at once. Plowing and seeding is in full swing at present, and there is no doubt that the fall acreage sown this year will be the largest in the history of the Grain trade. Quotations for Club Wheat range from 82c to 84c -the former is the export value, Blue Stem, 86c to 88c per bu Valley Wheat is cutting little figure in this market, as all sales are based on the part of millers, who are the only purchasers of the same, and the prices run from 81c to 87c per bu

Net earnings showed a decrease of $3,273,,87 The surplus after charges and dividends amounted to $2,636 357, as compared with $3,757,032 the previous year, a decrease of $1,120,675. The surplus for the year was almost exactly one-third of the surplus for the previous year.

Corn Trade News of Sept 28 says: "Our Paris correspondent says that it is true some people on the Paris market are talking of a reduction of the import duty on Wheat, but for the moment no one seriously believes that the Government are likely to take such a measure, so unpopular with agriculturists, in the near future, for the new season has only just commenced, and reserves of old Wheat are still in evidence. However, if anything untoward should happen to the new crop in the winter or spring, and prices should go too high, a reduction might then be made; but our correspondent is of opinion that it would be done for a short time only"

The American Steel and Wire Company exported in September 4 774 tons of products, being an increase of 25 per cent over August The National Tube Company exported 3,114 tons of pipe in September, against 1,877 tons in August. Exports of wire nails for September were 1,232 tons, against 1,8 1 tons in August. The Steel Products Company, which handles the foreign business of the United States Steel Corporation, is figuring on a large contract for rails for the new railroad to be built by the Chilian Government The contract is expected to be closed this week A representative of the Chilian Government who is now in New York will purchase various other railroad material to the amount of about $5,0 0,000.

Mark Lane Express of Sept 28 says: "Seasonable weather has enabled the threshing and plowing operations of late, September to proceed apace, the first to place upon sale the produce of one year, the second to prepare for the production of the next year's crop The farmer who notes that 31s 5d per quarter is now averaged in London for 480 lbs of British Wheat, say 33s per quarter for a heavy sample, 50[illegible] to 503 lbs to the quarter, may be tempted to increase the area of his Wheat land. Unfortunately, the conditions of price which will prevail thirteen or fourteen months hence are absolutely beyond the power of any expert to forecast, and the fairly good prices of 1904-5 may be succeeded by very low terms in 1905 6 None the less, there is some genuine encouragement to the English farmer in the increased home use of Wheat in the United States"

The following statement comes from a prominent representative of the United States Steel Corporation: "No definite action has as yet been taken in the matter of a project to convert additional stock into bonds. As is well known, the directors meet weekly, and at these meetings the question of reducing the preferred stock has come up, but it has been discussed in a casual way only. The minute books of the Steel corporation will show this It is likely that if anything is done at all the stockholders will not hear about it in the immediate future. There will be no further reductions in finished Steel prices. In fact, the question of prices is now rarely discussed at the recent meetings of the directors While the production of finished material in the last quarter of the current year is likely to be small, we will be very much surprised if 1905 is a poor year. I have kept close tab on the growth of Iron and Steel production. To be exact, wire production has doubled every eight and a half years. Within the next ten years the yearly output of wire will be in the neighborhood of 2,000,000 tons. Earnings in the year 1905 will be sufficient to pay preferred dividends, provide for fixed charges, etc., and leave a handsome surplus."

Bombay *Price Current* of Sept 9 says: "The weather reports to hand for the past few days show some improvement in the Central Provinces and Khandesh districts, where moderate showers of rain have fallen and crop prospects have improved The increased rainfall received during the week has relieved the extreme anxiety prevailing when last mail left, and the prospects have undoubtedly improved over a large tract of land in the interior. Our local markets have shown signs of this relief in a perceptible decline from the high rates then ruling for some of our staple articles of Produce, and there seems to be more hope in the Native Bazaar of a further extension of the rains in the near future. The prospects of the Cotton crop have greatly improved during the week, and though it seems improbable at present that there will be a heavy outturn, except in the Bengal districts, there is every possibility of a good crop in Oomras descriptions. Reports of the Broach crop are also fairly satisfactory to date, notwithstanding the light rainfall in that district. Throughout the Dhollera districts absence of rain is causing anxiety and the drouth still continues. From the Punjab reports are generally satisfactory and early arrivals of Cotton are expected from irrigated lands where the plants are healthy and flourishing The same reports are to hand from the United Provinces, where a continued spell of fine weather is now required after the heavy rain they had last month."

AVAILABLE STOCKS OF BREADSTUFFS.

On the second page of this issue of the DAILY TRADE BULLETIN will be found an interesting statement of the Breadstuffs supply in Europe, America and Argentina on October 1. It is very complete. It includes the European and Argentina stocks as collected by Broomhall's *Corn Trade News*, Liverpool, a portion of the visible supply as compiled by the Secretary of the Chicago Board of Trade, the stocks in the Northwest collected by the Minneapolis *Daily Market Record*, returns from about forty points (including Denver and Pittsburg) estimated, with balance of report collected and compiled by the DAILY TRADE BULLETIN.

ITEMS OF GENERAL INTEREST.

New York Exchange 25c discount.

Documentary Sterling steady at 482¼

Chicago Bank Clearings to-day, $30,991,993.

The Bank of England sold to-day $250,000 gold to Egypt.

Deliveries on October contracts to-day were 4,500 tcs Lard and 150,000 lbs Short Rib Sides.

The Potato crop of the United States is estimated at 305,000,000 bu, against 247,000,000 bu last year.

Yield of Buckwheat in the United States is estimated at 15,000,000 bu, against 14 000,000 bu last year

Nine packers purchased 17,300 Hogs to-day; shippers 4,000, left over, 7,500 Market closed steady at the decline.

Reported that 124,000 bu Wheat, 68,000 bu Corn and 10,000 bu Oats were taken at the seaboard to-day for export.

On the basis of the Government report the Flax Seed crop is estimated at 24,000,000 bu, against 27,-300,000 bu last year.

Stocks of Hog Products at Chicago estimated at 38,000 brls Mess Pork, 48,500 tcs Lard, and 12,000,000 lbs Short Rib Sides.

Estimated receipts for to-morrow: Wheat, 70 cars; Corn, 63 cars; Oats, 76 cars; Rye, 14 cars; Barley, 101 cars; Hogs, 14,000

Top price of Hogs at Chicago, Wednesday, was $5 90, against $6 10 Monday, $6 30 a week ago, $6 20 a year ago, and $7 50 two years ago

The plant of the Philadelphia Wool Stock Company at Cooper's Point was destroyed by fire, Wednesday. Loss, $50,000; partially insured.

The secretary of the Kansas Grain Association says: "Fully 60 per cent of Kansas Wheat crop has been marketed, and mills hold no stocks."

The Homestake Mining Company has declared the regular monthly dividend of 25c a share for September, payable Oct. 25. Books close Oct. 20.

Average cost price of Hogs at Chicago, Wednesday, was $5 62, against $5 80 Tuesday, $5 89 Monday, $5 69 a week ago, $5 74 a month ago, and $5 74 a year ago.

Cotton in New York was higher early, showing surprising steadiness, but weakened under realizing sales and on lower closing cables. Sentiment was rather "bearish." Closing sales were 15@16 points lower.

Local Securities were irregular with a good general trade. A feature was a break of 3 points in Swift's and small losses in Can and Box Board. The advances were in Street's, Chicago Telephone and Quaker Oats preferred

Chicago's top price for Cattle, Wednesday, was $1 35 higher than Kansas City, 95c higher than Omaha, 75c higher than St. Joseph, and 70c above the top at St. Louis. The top at Chicago was 25c higher than last week, and $1 00 higher than a year ago.

There is no change in the Chicago money market. Rates are 4½ to 5 per cent, with demand only slightly better than a week ago. The very best class of borrowers are able to get their accommodations at even lower figures, but there is said to be very little of this demand.

Stocks in New York were actively handled The feature was the early advance, and sharp break later on heavy realizing sales, which have been under way for two days. Western Railway shares closed mostly lower, save for the advance of 1 to 1¼ in Wisconsin Central Coalers were 1¼ lower to ⅜ higher. Steel advanced ½ to 1. Tractions gained ⅞ to 3¼. Money 1¾ to 2 per cent.

A Philadelphia dispatch says: "Included in the freight which the Allan Line steamer Siberian will take to Glasgow this week are 29,750 bu of Oats, which is the first shipment of this cereal from Philadelphia to Europe since September, 1902. The Oat crop this year is large and of excellent quality, and Grain men look for a revival of business for export, but thus far there has been no general demand, as prices have been above a shipping basis Now that a big Corn crop is assured, there is a prospect of increased foreign trade in this Grain also, but it is not likely to assume liberal proportions until late in December or January, when the new Grain will begin to be freely marketed."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The demand is fair and market is holding steady. City mills were reported as selling 10,000 brls yesterday.

WINTER WHEAT—Ruled firm and at one time during the session prices were about ½c higher for choice. Demand good and sales of 250,000 bu of Hard Winter were reported for late shipment No. 2 Red in store was quotably $1 14@1 15, and fresh arrivals free on board quotably $1 16@1 17 No. 3 Red fresh arrivals free on board quotably $1 10@1 14. No 4 Red fresh receipts free on board sold at $1 00@1 11 for ordinary to choice, and at 91c for poor. No 2 Hard fresh arrivals free on board sold at $1 14, and ranged down to $1 10 for ordinary. No. 3 Hard fresh receipts free on board sold at $1 02@1 11 and at the river at $1 00@1 05. No. 4 Hard, a poor car, sold at 85c.

SPRING WHEAT—The market was quotably steady for choice, and dull for the poor Wheat. A few cars of good Wheat are being received and some very poor Wheat also arriving. Choice, especially the hard variety, sells readily. No one cares to buy the poor Wheat. No. 1 Northern fresh arrivals free on board quotably $1 16@1 18. No. 2 Northern fresh receipts free on board quotably $1 10@1 16. No 3 Spring fresh arrivals free on board ranged at $1 05@1 12½. No. 4 Spring fresh receipts free on board sold at 90c@$1 03 for ordinary to good and at $1 11 for hard variety; poor, light weight quotably 60@75c. No Grade sold at 75c. No. 4 White sold at 92c.

REGULAR WHEAT—Was only moderately active, the trade being mainly local and professional, with the tone rather easy. Closing prices showed the December the same as the resting figures of yesterday, while the May lost ½@⅝c The early feeling was stronger, due largely to the moderate offerings. Better cables and more moderate movement were among the sustaining influences, though the large Flour sales reported at Minneapolis and St. Louis also tended to impart strength to the situation. Sales of Flour yesterday at the first-named point were estimated as high as 275 000 brls. Liverpool quoted spot steady to ¾d higher and futures ⅝d higher. London came ¾@1¼d higher. Paris was ¼@¾c lower. Antwerp unchanged. Berlin came ⅜c higher and Buda Pesth ½c better. Liverpool strengthened to some extent by prospect of smaller Argentine shipments, forecast this week being 800,000 bu. A direct Rosario cable stated that Argentine prospects for the Wheat crop were very encouraging. The *Price Current* placed the exportable surplus of the United States and Canada at 100,000 000 bu or more Kansas City wired that 70,000 bu cash sold there to go to a Northwestern mill and a bid for 50,000 bu more received. Primary movement was 107,000 bu larger than a year ago, the Northwest cars being 24 cars larger. Clearances were small and 16 boat loads were reported accepted at the seaboard. Minneapolis reported stocks increased 875,000 bu the past five days. Further beneficial rains were reported by *Broomhall* in Australia. A sale of 250,000 bushels Hard Wheat was reported here mostly for forward shipment. Receipts at Duluth 127 cars, at Minneapolis 578 cars, total of 705 cars, against 733 cars yesterday, 797 cars a week ago, 631 cars last year. Local receipts included 44 cars Winter, 49 cars Spring and 29 cars mixed, a total of 122 cars, against 80 cars last year. Included in above was 1 car of contract grade. There were 18 cars and 38,500 bu taken from unlicensed elevators The estimated receipts for to-morrow are 70 cars. Withdrawals were no bu. Receipts at Western points were 1,109,-775 bu, against 1,003,036 bu last year. At Eastern points 50,778 bu, against 315,800 last year Shipments from Western points 472,863 bu, against 820,690 last year and from Eastern points no bu, against 152,298 bu last year. Shipments of Flour were 17,047 brls. Exports of Wheat in Flour were equal to 80 761 bu

Future Deliveries of Regular Wheat—Moderate trade and market steady.

OCTOBER Very quiet Quotable at $1 09@1 10⅜, and closed at about $1 10.

DECEMBER—Sold at $1 09⅞@1 11⅛ Opened with sales at $1 10⅞ to $1 10¾, sold to $1 10⅜, to $1 11⅛, to $1 10¾, to $1 11, to $1 10⅝, to $1 11, to $1 11⅜, to $1 10¾, to $1 10¼, to $1 10⅞ to $1 09⅞, to $1 10⅜, and closed at $1 10⅜ bid.

MAY—Sold at $1 09¾@1 11¼ Opened with sales at $1 11 to $1 11⅛, sold to $1 10⅝, to $1 11¼, to $1 10⅞, to $1 11, to $1 10½, to $1 11⅛, to $1 10½, to $1 11, to $1 09¾, to $1 10¼@1 10⅜, and closed at $1 10¼@1 10⅜.

JULY Sold at 97½@98⅞c Opened with sales at 98¾c; sold to 98⅝c, to 98⅞c to 98¼c, to 98½c, to 97½c, to 97⅞c, and closed at 97⅞c

CORN—Just a fair trade, with the feeling somewhat unsettled, closing prices showing the December ¼@⅜c lower, while May lost ⅜@½c. Market started out stronger, influenced by the higher cables, cash situation and small receipts, the December at one time being quoted 3⅞c over May. At the improvement established in prices offerings increased materially, considerable December coming out, and values settled back. Professionals also sold the May more freely. Receipts were light, only 88 cars, against 200 cars last year, and but 62 cars estimated for to-morrow. Liverpool quoted spot steady to ½d higher and futures ½d better. The map showed rains in Kansas and light local showers through Nebraska. Showers were predicted for the West. The *Price Current* was "bearish," claiming the crop was maturing well and a yield of 2,400,000 000 bu or more assured, and much more marketable Grain than last year. Argentine shipments this week were estimated at 3,200 000 bu Shipping demand was not as urgent as on yesterday and sales were 150 000 bu. Primary receipts were 249,000 bu, against 468,000 bu. Shipments were 311,000 bu and 425,000 bu respectively. Withdrawals here were 328 000 bu and exports 20 000 bu Seaboard reported 11 boat loads accepted Southwestern markets were easier. Country acceptances were light of both old and new Corn Nebraska sold 25,000 bu Car lots were in good demand and limited supply. Prices were 1@1½c higher. No 2 closed to go to store at 53c and No 2 Yellow about 56c No 3 closed at 52¾c and No 3 Yellow at 55½@55¾c.

Corn by sample Was again scarce with the demand quite urgent Feeling stronger and prices about 1½c higher. Sales on track and free on board. No Grade sold at 51c. No. 4 at 53@55½c. No. 3 at 53½c. No 3 Yellow at 55½@55¾c. Billed through: No. 4 at 52@54½c No. 3 at 52c. No. 3 Yellow at 55c. No. 2 Yellow at 55c. No. 3 White at 53½c.

Future Deliveries of No. 2 Corn—Moderately active and unsettled, closing ¼@⅜c to ½c lower.

OCTOBER—Inactive but quotable 1¾c to 2c over December, and nominal close 51¼c.

DECEMBER—Sold at 49⅛@50c. Opened at 50c to 49¾c, and sold at 49⅞c, to 50c, to 49⅝c, to 49⅞c, to 49½c, to 49⅝c, off to 49⅛c, to 49⅜@49½c, to 49⅜c, and closed at 49⅜c bid.

JANUARY—Sold at 46c and later offered at 45¾c.

MAY—Sold at 45½@46⅜c Opened at 46⅜c to 46¼c, sold at 46c, to 46⅛@46¼c, to 46c, to 46½c, to 45¾@45⅞c, to 46c, to 45½c, to 45⅞c, to 45¾@45⅞c, and closed at 45¾@45⅞c asked

JULY—Sold at 45¼@45⅞c Opened at 45⅞c and sold off to 45¼c, and closed at 45¼c bid.

OATS—Were liberally traded in. At their best prices were ¼c over yesterday's close. A break of ⅝c followed and the close was at the bottom, at a net loss of ⅜c. The advance was on covering by "shorts" and the break in sympathy with other Grains, on realizing sales, and on selling by Northwestern hedgers. Cash sales yesterday were over 400,000 bu, but to-day only 100,000 bu, the demand having been filled up Country offerings were small and receipts light, 123 cars, with 76 cars estimated for to-morrow Withdrawals were 58,100 bu. Seaboard clearances 8,000 bu. Car lots offered sparingly and prices advanced ¼@½c. No. 3 White sold at 30c Standard in store closed at 28⅞c

Oats by sample were in good demand and lighter supply. Prices were firmer and ¼@½c higher Sales on track and free on board No. 4 at 29c. No. 4 White at 28½@30½c. No. 3 White at 29¼@31c. Standard at 29½@31½c. No 2 at 29¾@30c. No. 2 White at 31½@31¾c. Billed through: No 4 White at 29c No. 3 White at 29½@30¼c. Standard at 30½@30¾c. No. 2 at 29½c. At the river No. 4 White at 27½@28½c No. 3 White at 28½@29c. Standard at 29¼@30c.

Future Deliveries of Contract Oats—Were higher early, but reacted and closed at the bottom.

OCTOBER—Sold about the same as December, closed at 28⅞c

DECEMBER—Sold at 28¾@29⅜c Opened at 29¼c, sold to 29⅜c, to 28¾c, to 28⅞c at close.

MAY—Active. Sold at 31@31⅜c. Opened at 31⅜c to 31½c, sold to 31⅜c, to 31c, and closed at 31c bid.

RYE—Ruled firm for cash and easier for future deliveries. There was a good local demand and the fresh arrivals were taken at full late prices and even at a slight advance. The receipts were 12 cars and there were 10,000 bu withdrawn from public elevators No exports from New York No. 2 in store nominally 77¼c and fresh arrivals free on board sold at 79½@80½c. A bag lot not graded sold at 75c.

Future Deliveries of No. 2 Rye—Quiet. October 77¼c asked. December 78½c asked. May 81c bid and 82c asked.

BARLEY—The offerings were smaller again. Supply to-day may be said to have been actually light. Of the common Dakota much has appeared on sale, and good Barley, as has been the case right along, was in small supply. For latter kind there were ready buyers, and a firm market was quoted. For lower grade malting demand was light. Some maltsters who have taken it were holding off, saying they were waiting to see the result in malting. Others were buying a little, and an account of small supply formed prices, and in some cases ½c advance was obtained. Feed Barley continued in demand at late reduced quotations, but less was secured. Screenings quiet. Posted inspected in, 90 cars. Some cars were carried over, the bids received not being satisfactory. There were some poor, dirty cars of Screenings on the market, and sales were made down to 25@27c. Some old musty sold at 32c. Choice clean quotably around 34@36c, but no sales reported at such figures. Barley, feed or mixing, local, remained steady at 36c and river billed about 31½c; malting, low grade or fair, usually small berry, some heavy, but dirty, ranged at 37@38½c. Clean, fair to good, at 39@43c, and large berry, heavy quotable at 45@48c, with fancy a shade over

SEEDS—There was a firmer Flax market, with an advance in prices, but in Grass Seeds no changes especially developed. All were quiet, in fact no business doing, as do from cash Timothy Seed sales.

Timothy—Several cars and a number of smaller lots were offered on the cash market, all of which made up a good supply Some of the cars were made up of numerous lots of widely varying quality. Tone of the market was easy, for buyers have no urgent wants to provide for. Bids were hardly up to former prices, but sellers had to concede some. Fair to good quality, country lots, quotably $2 25@2 35, high grade Seed about $2 40@2 45, and very choice to fancy $2 50@2 70; none so fine, however, on sale Rough, dirty, or badly hulled about $2 10@2 20, and low grade $1 75@2 00; inferior lower Futures remain neglected and nominally easy at $2 65 sellers for October, $2 75 asked for January, and $2 65 asked for March.

Flax—In consequence of higher quotations being telegraphed down from the Northwest the feeling here was stronger. Our quotations also reflected improvement Trading very quiet, however Some increase in receipts, but only a few cars came on sale. The speculative part of the market did not receive any particular attention. Local receipts 10 cars, or 9,000 bu, and output 1 car, or 1,031 bu Minneapolis got 53 cars and Duluth 41 cars. To-day's quotations exhibit 1c advance. No. 1 Northwestern sold sparingly at $1 10½, and No 1 was $1 09½ bid. Rejected, depending on quality, quotable at $1 06@1 14. For October $1 09½ was bid, and December salable at $1 11½.

Clover—Nothing could be learned any more than that steadiness prevailed with former prices again quotable In the absence of offerings there was no trading. October delivery quotable at $12 25 Contract spot Seed the same Country lots common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 50

Other Seeds—No change was quotable No open market offerings appeared For Hungarian there was given a nominal range of 80c@$1 05 for common to choice Millet, common, was quotable at 75@80c for common to choice, German at 80c@$1 00, Broom Corn Millet at 90c@$1 05, Siberian at 60@80c, and Early Fortune about 75@90c Mustard about 70c@$1 00 Samples of new Buckwheat are coming in, but no consignments. Good milling spot Wheat said to have a value around $1 30@1 35, but no quotations or bids to arrive.

HOG PRODUCTS—Trade was only fair in the market for Hog Products, and the feeling was somewhat unsettled. Outside orders were moderate, and local trading was only fair. Offerings were not very large, and the demand was only moderate. Trade in general was somewhat scattering, with some irregularity in prices Market opened rather steady at about the closing figures of Wednesday, and a firmer feeling was developed, accompanied with a moderate advance all around Later, there was a little pressure to sell, and an easier feeling was manifested and prices receded to inside figures, and the market closed rather steady. Bulk of the trading was in January and May contracts Receipts of Hogs were fair, and prices were lower Receipts at the leading Western packing points estimated at 55 100, compared with 41,100 one year ago. Packing of the West for the week exhibited an increase of 5,000 Hogs compared with the returns of the corresponding week in 1903 Foreign markets were dull and neglected Liverpool quotations were reduced 1s on Cumberland Sides and 9d on Lard. Domestic markets were quiet and rather easy Receipts of Products were good—of Lard and Meats about 23 cars. Shipments were moderate—of Lard and Meats about 106 cars. Shipping demand was moderate, and offerings were fair. Feeling rather easy, with limited sales, and prices favoring buyers.

Mess Pork—Only a moderate business was reported in the market for Mess Pork, and the feeling was not very strong. Offerings were fair, and the demand was moderate Market opened rather steady at 2½c advance, and a further improvement of 7½@10c was gained. Later, the feeling was easier, and prices settled back 15@17½c, but rallied again 2½@5c, and the market closed comparatively steady. Shipping demand was light and offerings were moderate. Cash lots quotable at $11 00@11 12½.

OCTOBER—Quiet, with small sales at $10 95@11 00, and closed at $10 95.

DECEMBER—Quiet, with a few trades at $11 10@11 12½, and closed at $11 10

JANUARY—Offerings were fair, and the demand was moderate. Sales were made at $12 35@12 52½ Opened at $12 45, sold to $12 42½, to $12 52½, to $12 35 to $12 40, and closed steady.

MAY Called for sparingly, and offerings were moderate Sales were made at $12 35@12 40. Opened at $12 37½, sold to $12 35, to $12 40, to $12 35, and closed quiet

Lard—Trade in Lard was fair, and mainly in the deferred deliveries. Offerings were not very free, and the demand was moderate. Foreign advices unfavorable to holders Market opened rather steady, but a firmer feeling was manifested later, and prices rallied 5@7½c. Toward the close the feeling was easier again, and prices settled back 2½@5c, and the market closed steady Demand on shipping account was light, with moderate offerings Cash lots quotably steady at about October figures, closing at $7 27½@7 30 Loose lots in fair request, with very small offerings. Prices quotable at 20c discount on October figures Leaf Lard was in fair demand, with very limited offerings Quotably steady at about $7 87½ for very small lots. Neutral in light demand, with limited offerings. Prices quotably steady at $9 12½@9 25 for No 1, and $8 62½@8 75 for No. 2.

OCTOBER—Offerings moderate and the demand rather light Sales were made at $7 27½@7 37½, and closed quiet at $7 27½@7 30

DECEMBER—Quiet, with small sales at $7 20@7 25, and closed at $7 20

JANUARY—In fair demand and offerings were not very free. Sales were made at $7 22½@7 30. Opened at $7 25, sold to $7 22½@7 25, to $7 30, to $7 25, and closed steady.

MAY—Offerings were moderate, and the inquiry only fair. Sales were made at $7 27½@7 35. Opened at $7 27½, sold to $7 35, to $7 30, and closed steady.

Short Rib Sides—Trade was fair in Short Rib Sides, and the feeling was stronger in a general way. Offerings were fair, and the demand was moderately active. Trading chiefly in January contracts. Prices were advanced 2½@5c early in the day, but settled back again 2½@5c toward the close, and the market closed steady Offerings of October were light, with a limited inquiry and prices ruled 2½@3c higher Shipping demand was fair, and offerings were moderate. Cash lots quotable at $7 62½@7 75 according to weight

OCTOBER Called for sparingly and offerings were moderate Sales were made at $7 25@7 55. Opened at $7 25, sold to $7 55, to $7 52½, and closed quiet.

JANUARY—In fair request and offerings were not very large Sales were made at $6 50@6 55 Opened at $6 50, sold to $6 52½, to $6 50@6 52½, to $6 55, to to $6 52½, to $6 55, to $6 50, and closed steady

MAY Offerings were moderate and the demand was rather light Sales were made at $6 57½@6 62½. Opened at $6 60, sold to $6 62½, to $6 57½, and closed steady

Other Meats—Trade was rather light and mainly on domestic account. Exporters bought sparingly. Offerings were not very large and inquiry was moderate. Green Meats in moderate supply with light inquiry and prices ruled easy. Pickled Meats were dull and slow sale with fair offerings, and prices favored buyers. Dry Salted Meats were in fair demand with moderate offerings, and prices were steadier. Smoked Meats called for moderately and prices favored buyers. Closing prices were as follows:

AVAILABLE SUPPLY OF BREADSTUFFS.

EUROPE AND AMERICA.

Compiled by Broomhall's Corn Trade News, Chicago Daily Trade Bulletin, and Minneapolis Market Record.

Foreign Supplies of Breadstuffs.

According to the special cablegram from Broomhall's *Corn Trade News*, Liverpool—correspondent of the Chicago Board of Trade, and regarded as the leading commercial authority in Europe—to the DAILY TRADE BULLETIN, the supplies of Breadstuffs—Flour and Wheat—in second hands in store in the principal countries of Europe, in Argentina, and afloat for Europe on October 1, 1904, exhibited an increase equal 11,029,000 bu during September, compared with an increase of 8,354,000 bu during August, and an increase of 19,982,000 bu during September, 1903. The aggregate quantity of Breadstuffs afloat for Europe on October 1, 1904, exhibited a decrease of 760,000 bu during September, compared with an increase of 190,000 bu during August, and an increase of 730,000 bu during September, 1903. Supplies afloat for the United Kingdom were enlarged 1,570,000 bu, those for the Continent increased 520,000 bu, and those "for orders" reduced 2,850,000 bu. The aggregate supplies afloat for Europe on October 1, 1904, were 5,980,000 bu larger than reported one year previous, and 5,360,000 bu larger than reported two years previous. During September, 1904, the aggregate supplies in store in the principal countries of Europe were increased 14,486,000 bu, compared with a decrease of 8,500,000 bu during August, and an increase of 16,210,000 bu during September, 1903. Stocks in the United Kingdom were increased 180,000 bu, those in France were enlarged 520,000 bu, those in Germany, Belgium and Holland increased 800,000 bu, those in Russia enlarged 10,800,000 bu, and those in other portions of Europe increased 2,350,000 bu. Stocks in Russia were increased 5,940,000 bu during August, and increased 14,000,000 bu during September, 1903. Supplies in store in Russia are about 1,150,000 bu more than those reported one year ago, and 8,210,000 bu more than reported two years ago. The aggregate stocks in store in Europe on October 1, 1904, were 9,180,000 bu more than reported one year previous, and 25,024,000 bu more than reported two years previous. Compared with the returns of one year ago, the supplies of Breadstuffs in store and afloat for the United Kingdom on October 1, 1904, were 3,870,000 bu more, those for the Continent 3,930,000 bu more, and those "for orders" 7,370,000 bu more. The aggregate supplies of Breadstuffs credited to Europe in all positions on October 1, 1904, were 15,170,000 bu more than reported on October 1, 1903, and 30,884,000 bu more than on October 1, 1902. Advices from Europe indicate that the weather is rather favorable for fall seeding, and that the areas will be enlarged in most countries. Good rains have fallen where most needed. Farmers are not selling Grain very freely, excepting in Russia, though supplies of home Grains are gradually increasing in all quarters. Reports from Argentina are rather favorable—very little damage by frosts so far, and the acreage of Wheat is somewhat larger than in 1904—estimated by some authorities at 20 per cent. Advices from Australia are not quite so favorable—the yield of Wheat will be curtailed owing to the dry weather, though the yield may be an average. In India, good rains have prevailed, and seeding of Wheat is progressing favorably. Russia, India and Argentina are shipping Wheat in good quantities, while other countries are forwarding only moderately.

Domestic Supplies of Breadstuffs.

The aggregate supplies of Breadstuffs—Flour and Wheat—in the United States and Canada, on October 1, 1904, as compiled by the DAILY TRADE BULLETIN and the Minneapolis *Market Record* exhibited an increase during September equal to 17,803,000 bu, compared with an increase of 5,471,000 bu during August, and an increase of 17,115,000 bu during September, 1903. The increase was well distributed throughout the country, though more marked in the Northwest, on the Pacific Coast and in Canada, largely due to the liberal movement of Spring Wheat. Millers purchased rather freely in some sections Supplies of Flour in the United States and Canada exhibited an increase of 143,000 bbls, compared with an increase of 3,000 bbls during August, and an increase of 145,000 bbls during September, 1903. The enlargement was moderate through the Central West and South, in the Northwest, on Pacific Coast and in Canada. Little change in the aggregate in the stocks at the seaboard markets. The following table exhibits the stocks of Flour in some of the principal markets of the United States on the dates named:

Cities—	Oct. 1, 1904. Brls.	Sept. 1, 1904. Brls.	Oct. 1, 1903. Brls.
Philadelphia	117,000	125,000	75,000
New York	86 400	54,800	90,400
Chicago	30,000	30,150	38,700
St. Louis	48,666	35,800	48,870
Toledo	3,500	4,000	4,000
Baltimore	38,000	37,000	39,000
Detroit	13,000	12,000	7,000
Boston	55,004	49,320	64,580
Milwaukee	59,100	50,570	86,700
Duluth	230,000	200,000	224,000
Total	679,670	608,140	672,700

Stocks of Flour at these points were enlarged 71,530 brls during September, compared with a decrease of 104,689 brls during August, and an increase of 98,004 brls during September, 1903. The aggregate supplies of Flour at these markets on October 1, 1904, were 6,970 brls more than reported one year previous. Stocks of Flour at the Atlantic seaboard markets on October 1, 1904, were 296,404 brls, compared with 275,620 brls on September 1, and 268,900 brls on October 1, 1903. The aggregate supplies of Flour in all positions on October 1, 1904, were 188,000 brls more than reported one year previous, and 114,000 brls more than reported two years previous.

During the month of September the supplies of Wheat in the United States and Canada were enlarged 17,320,000 bu, compared with an increase of 5,467,000 bu during August, and an increase of 16,463,000 bu during September, 1903. The increase was chiefly in the Spring Wheat sections—the high prices prevailing inducing farmers to sell freely, especially of the lower grades. Supplies in the Northwest were enlarged 5,590,000 bu, compared with a reduction of 2,861,000 bu during August, and an increase of 7,505,000 bu during September, 1903. Supplies in the interior elevators of the Northwest were increased 3,890,000 bu, compared with an increase of 478,000 bu during August, and an increase of 3,869,000 bu during September, 1903. Stocks were reported at 4,704,000 bu, compared with 814,000 bu on September 1, and 1,665,000 bu on October 1, 1903. The aggregate supplies of Wheat in the United States and Canada on October 1, 1904, were 1,669,000 bu less than reported one year previous, and 13,124,000 bu less than reported two years previous.

Supplies at Home and Abroad.

The aggregate supplies of Breadstuffs afloat for Europe, in store in Europe and Argentina, and in store in second hands in the United States and Canada on October 1, 1904—incinding a larger number of points than in any other compilation—were equal to 156,869,000 bu, against 124,977,000 bu on August 1, and 140,934,000 bu on October 1, 1903. The increase during September was equal to 31,892,000 bu, compared with an increase of 37,097,000 bu during September, 1903. The aggregate supplies in all positions in America, Europe and Argentina on October 1, 1904, were 15,935,000 bu more than reported one year ago, and 21,329,000 bu more than reported two years ago.

Flour Trade During September.

According to the reports received by the DAILY TRADE BULLETIN, the Flour trade of the United States and Canada was rather active during the month just closed—more so than generally supposed. The production was fairly liberal—in fact, the majority of the reports indicate a better business than at any time since the Wheat was harvested. There was some increase in supplies in the aggregate, and millers felt a little more confidence in the future in view of the fairly good general trade, and were disposed to slightly enlarge their production. Fair export orders received, but sales were extremely small, as bids generally were below the views of sellers, and to a great extent based on the prices current in other exporting countries. In the aggregate, the millers' supplies are fairly good, and they were inclined to sell their Flour at fair prices, and replenish their stocks of raw material on the "soft spots" in the market. The domestic trade was good, and at some of the large distributing points some round lots were disposed of. Millers generally, even at the smaller points, were enabled to dispose of conservative quantities. Supplies in general have been reduced materially—allowed to run very low in anticipation of a turn in the market for satisfactory prices. Retailers' stocks were light, and they were a little more inclined to purchase, especially in the larger manufacturing districts In New England, the Flour trade was considerably improved, but sales were almost exclusively to meet home requirements. Very small export demand. In New York, trade was rather active, but chiefly for home wants. A few export orders were accepted on close margins. Merchants at the larger manufacturing centers enlarged their supplies. In Pennsylvania, there was quite a good general trade at all the principal towns, though largely for home wants. A few export orders were accepted, chiefly for specified brands. In Maryland, the demand for Flour was quite good, but mainly for domestic requirements. Export orders very small. Millers in Virginia and West Virginia reported quite a good trade in moderate quantities, mainly to supply home wants. In Kentucky, the Flour trade was rather good, and almost exclusively for home requirements. Reports from Tennessee indicated a little irregularity in the market—some millers reported a fair trade, while others intimated that business was a little dragging. Sales chiefly for home wants. In Ohio, there was a fairly good miscellaneous domestic trade in Flour, and supplies were somewhat reduced. Manufacture was moderate, and millers a little cautious in view of rather small offerings of Wheat. Millers in Michigan enjoyed a fair trade in moderate orders, and chiefly for home requirements. In Indiana, the manufacture was fair and it was readily disposed of to meet the requirements of the home trade. In Illinois, the home demand was quite good, though orders were for conservative quantities. Some export bids were received for round lots, but were below the views of sellers. In Missouri, the home demand for Flour was good, but the manufacture was considerably larger, and stocks were increased, especially at St. Louis and Kansas City. Export orders were small. Millers in Kansas produced fair quantities of Flour and they disposed of it quite readily to the domestic trade. Nothing of consequence done in export lots. In Oklahoma, the demand for Flour was rather good, but sales were mainly in moderate quantities. In Texas, there was quite a good business reported in supplying home wants, and the supplies were slightly reduced. In Iowa and Nebraska, there was a fair, general trade in Flour, with an occassional export order accepted. Reports from Wisconsin indicated a fairly good demand for home wants. In the Northwest, the demand for Flour was considerably improved, and some round lots disposed of. Manufacture was larger, and, as usual at the opening of the season, there was a good inquiry for new Flour. Export orders were limited—great bulk of the business to meet the wants of the domestic trade. In the Rocky Mountain districts, trade was moderate, and mainly to supply local wants. On the Pacific Coast, there was rather a good inquiry for Flour in a general way. Production somewhat larger, and stocks slightly increased. Domestic trade was good, and a fair business was reported for export to China and Japan. In Canada, millers reported a fair miscellaneous trade, though largely for home requirements. A few export orders were provided for.

Wheat Movement During September.

The movement of Wheat from the farms of the United States during September was quite liberal—about 54,000,000 bu in the aggregate, compared with 48,000,000 bu during August, and 60,000,000 bu in September, 1903. The offerings in the Central West were moderate and generally in small quantities, while in the Southwest the movement was fairly liberal. With the increase in threshing in the Spring Wheat sections, the offerings were materially enlarged. While the reports of the threshers do not indicate as light weight as anticipated, the Grain received at some of the larger distributing markets does not grade very well. Farmers in all sections of the country are retaining their best Wheat for seed—in some sections, the area has been reduced owing to a lack of good seed—and as about 75,000,000 bu will be required for that purpose, it will to some extent draw upon the usual proportion of good Wheat required for milling and export. According to the report of the Department of Agriculture, the quality of the Spring Wheat is about ten per cent poorer than reported in 1903. With no demand to speak of for export, millers have "the right of way," but farmers are quite independent in their views in some sections, especially in the older settled portions of the country. While exporters will not purchase to any extent at present prices—regarding them as too high in comparison with those of other countries—millers toward the close of the month were a little conservative in their ideas, though willing to maintain supplies if prices were on a basis of those current for Flour. In the aggregate, the supplies of Wheat were considerably enlarged during the month, and are now nearly as large as those reported one year ago, when the crop was fifteen per cent larger. In New England, the receipts were small, with no export demand to speak of. Stocks are somewhat smaller than reported one month ago. In New York, the arrivals from the West were fair at the seaboard markets, and the offerings in the interior were moderate. In Pennsylvania, there were rather good offerings early in the month, especially in the southeastern portion of the State, but farmers were a little more independent toward the close. In Maryland, the movement was moderate—about equal general requirements. In Virginia and West Virginia, farmers sold moderately and supplies somewhat enlarged. In Kentucky, the offerings of Wheat were not very large—about equal current requirements. In Tennessee, farmers sold a little more freely, and supplies were enlarged moderately. In Ohio, the movement of Wheat was on a moderate scale—farmers a little independent in their views, as their supplies are comparatively small. Movement of Wheat in Michigan was on a limited scale, as farmers have only small quantities to dispose of. Deliveries of Wheat in Indiana were about equal general requirements; and were comparatively small. In Illinois, outside of Chicago, the movement of Wheat was moderate—about sufficient for current wants. In Missouri, farmers were disposed to sell fair quantities, especially early in the month, and supplies were somewhat enlarged. In Kansas, the movement of Wheat was fair, with a good proportion forwarded to points outside the State, and local supplies show a moderate decrease. Some millers report good offerings, and others rather light. In Oklahoma, the offerings were moderate, and it is estimated that two-thirds of the crop has been marketed. In Texas, the movement was fair for the season of the year, and there is some increase in supplies. In Iowa, the offerings of Wheat were not very large, while in Nebraska they were moderately free in some sections and only fair in other portions of the State. In Wisconsin, farmers were inclined to sell Wheat more freely, and stocks are gradually enlarging. In the Northwest, the movement was quite large, and supplies were increased, both at interior and terminal points. Farmers apparently willing to accept current prices, and threshing returns rather more favorable than anticipated. In the Rocky Mountains district, the offerings were only fair. On the Pacific Coast, the offerings were materially increased, and supplies show a considerable enlargement. Prices are lower proportionately than in other sections of the country, and this has encouraged liberal buying in that quarter for distribution in the Central West and East; in the aggregate estimated at 10,000,000 bu. In Canada, the movement was on a moderate scale in the East, but in the Northwest, the offerings were considerably larger, and supplies were materially increased. Farmers apparently willing to sell at current prices.

Wheat Crop of 1904.

The report of the Department of Agriculture for October indicated an increase of about 21,000,000 bu in the Spring Wheat over the quantity credited to the same authority on the basis of the report for September. The aggregate Spring and Winter Wheat crop may be placed at the present time, on the basis of the returns to the Department of Agriculture, around 551,000,000 bu. A revision of the figures will be made in the final report in December, and it is probable that slight increases may be made in two or three States, and quite a material reduction made in the quantity credited at present to California

Statistical Position of Wheat.

The movement of Wheat to the primary of the United States from July 1 to October 1, was about 66,000,000 bu, compared with 62,000,000 bu for the corresponding time in 1903. The exports of Flour and Wheat during the same period were about 10,000,000 bu, compared with 36,000,000 bu for the same time last year—a decrease of 26,000,000 bu, or 72 per cent. The official visible supply of Wheat on October 1 was about 1,900,000 bu less than one year previous. Estimating the Wheat crop of the United States at 550,000,000 bu, and allowing 72,000,000 bu for supplies in all positions on July 1, 1904, the aggregate supplies for twelve months would be approximately 622,000,000 bu. Allowing 415,000,000 bu for consumption and 75,000,000 bu for seeding purposes, and 10,000,000 bu for export to date—thus accounting for 500,000,000 bu—there would remain for export during the next nine months and for supplies on hand July 1, 1905, about 122,000,000 bu. The exports from October 1, 1903, to July 1, 1904, were about 85,000,000 bu, or an average of about 9,400,000 bu per month.

Seeding of Winter Wheat.

Advices received by the DAILY TRADE BULLETIN indicate that the area seeded to Winter Wheat in the United States east of the Rocky Mountains will be somewhat larger than reported last year. Farmers have delayed seeding in some quarters, as they regard late sown Wheat less liable to damage from insects. High prices have had a stimulating influence in most sections and where the crop was damaged last season, and the yield was light, farmers are endeavoring to regain their lost ground. In sections where it is customary to seed Winter Wheat on Corn ground, there has been some delay, owing to the lateness of latter crop. There will probably be a moderate increase in the areas seeded to Winter Wheat, except in Indiana and Missouri —in these two States it is doubtful if the areas will reach those of 1903. In some sections of the Southwest dry weather checked seeding slightly. Lack of good seed also curtailed seeding in some quarters. The Pacific Coast States will probably seed a good area.

Corn Crop of 1904.

The estimates made of the Corn crop of the United States for 1904 have been varied and wide. While the DAILY TRADE BULLETIN has not made any special investigation regarding the Corn crop, it has kept in touch to a certain extent with the general situation, sufficiently so, to obtain an approximate idea of the aggregate yield. The returns presented by the Department of Agriculture are quite in line with advices received from our correspondents, and the crop may be conservatively estimated at 2,300 000,000 bu to 2,350,000,000 bu. At no time during the past three months could the reports received by the DAILY TRADE BULLETIN from its correspondents be regarded as indicating less than about 2,275,000,000 bu to 2,300,000,000 bu. While frost may have inflicted some damage in portions of Ohio, Michigan, Wisconsin and Iowa—in the aggregate covering an area not exceeding 50,000,000 bu—the balance of the country has secured rather a good Corn crop. There will be a moderate proportion of unmatured and soft Corn—as is generally the case—which will be fed on the farms. The yield in what is known as the surplus States, according to the report of the Department of Agriculture, will probably be 150,000,000 bu to 175,000,000 bu more than in 1903.

Oats Crop of 1904.

The report of the Department of Agriculture of the Oats crop of the United States for 1904, showing a larger yield than their previous reports were interpreted to represent—about 100,000,000 bu—was not much of a surprise to the trade generally, as former estimates were regarded too low. The returns of the Department of Agriculture are understood to be in measured bushels—not in weight—but it is barely possible that correspondents in some instances have taken the quality of the Oats crop into consideration in making their returns. Taken as a whole, the Oats crop of 1904 is of unusual good quality—contracts being made in some cases guaranteeing weights in excess of legal requirements. The visible supply of Oats is now the largest on record, and it is understood that interior elevators contain larger stocks of Oats than usual, especially where the yield of other crops was light.

To Correspondents.

The DAILY TRADE BULLETIN has issued a full four-page circular of the supplies of Breadstuffs and crop advices during the past four months. Until more important information regarding the Wheat crops—until next spring—the report will be reduced, as formerly, to two pages, but will contain all the news in regard to stocks of Breadstuffs, and the movement of Grain in the leading counties. Correspondents are respectfully requested to forward their reports promptly, and in full—all the minute details of which are not made public. Five minutes time only is required for an individual report, while days work are spent in making the monthly compilation.

CORN YIELD IN SURPLUS STATES

The following table exhibits the estimated yield of Corn for 1904, as indicated by the October report of the Department of Agriculture, in what are known as the Corn surplus States, compared with the yield in the past two years:

	1904, bu.	1903, bu.	1902, bu.

Total	1,443,000 000	1 271,000,000	1,703,000,000

A Boston dispatch says: "Increasing strength is shown in the local Wool market from week to week. Recently there has been a heavy demand for almost all grades of Wool, a condition of affairs which, if it continues, will mark the season as unique. Territory grades occupy a firm position and are freely sold. Pulled Wools show activity, but foreign grades are quiet."

Surveys are in progress for an extension of the Atchison, Topeka and Santa Fe from Tulsa, Ind. T., southwesterly to Shawnee, Ok., seventy miles. The new line will parallel the St. Louis and San Francisco between these points. Connection will be made with the Eastern Oklahoma division of the Santa Fe at Shawnee. The present southern terminus of the Atchison, Topeka and Sante Fe is Owasso, Ind. T., and the connection between this point and Tulsa, twelve miles, is now being built. When these two lines are completed the Santa Fe will have a direct line from Chicago via Kansas City to the Gulf. The Eastern Oklahoma division from Shawnee south connects with the Topeka, Santa Fe and Gulf division at Pauls Valley, Ind. T.

ITEMS OF GENERAL INTEREST.

The directors of the Automatic Electric Company, Monday, declared the regular quarterly dividend of 2 per cent, payable Nov. 1. Books close Oct. 26 and reopen Nov. 2.

The directors of the Daly-West Mining Company have declared the regular monthly dividend of 40c a share, payable Oct. 15 to stockholders of record Oct. 10.

The Auditor of Public Accounts of Illinois has issued a permit to organize the Calumet Trust and Savings Bank at Morgan Park, Ill. The capital stock is $25,000.

The Edison Illuminating Company of Boston has declared the regular quarterly dividend of 2½ per cent, payable Nov. 1 to stockholders of record Oct. 12. Books do not close.

The Milwaukee Railway and Light Company has declared the regular quarterly dividend of 1½ per cent on the preferred stock, payable Nov. 1. Books close Oct. 20 and reopen Nov. 2.

The regular quarterly dividend of 1½ per cent has been declared on the preferred stock of the Michigan State Telephone Company, payable Nov. 1 to stockholders of record Oct. 10.

It is announced that the Carnegie Steel Company will open its armor plate mills at Homestead, Pa., and run in full blast to meet urgent demand for armor from Japan and Russia.

Schwartz, Schiffer & Co., glove manufacturers, with a factory at Gloversville, N. Y., were petitioned into bankruptcy at New York, Tuesday. Liabilities are reported at $500,000.

The Grand Rapids Railway Company has declared the regular quarterly dividend of 1¼ per cent on the preferred stock, payable Nov 1 to stockholders of record at the close of business Oct. 18.

The Associated Merchants Company has declared a quarterly dividend of 1¼ per cent on the first preferred stock, and 1½ per cent on the second preferred stock, payable Oct. 15. Books close Oct. 8 and reopen Oct. 17.

Secretary Wilson of the Department of Agriculture has already prepared his estimates for the appropriation for the Department for the coming year. For the year commencing July 1, 1905, he will ask for $5,699,810 This is an increase of $265,-270 over the appropriation this year, and includes further appropriation for breeding experiments.

The city comptroller of Buffalo, N. Y., Tuesday awarded the $150,000 3½ per cent semi-annual one to twenty-year consolidated school bonds at 100 58. The $268,478 3½ per cent semi-annual five-year tax bonds and the $61,000 3½ per cent semi-annual one to ten-year grade crossing bonds were disposed of at private sale.

The rate of discount of the Imperial Bank of Germany was raised from 4 to 5 per cent, Tuesday, and the lending rate was advanced to 6 per cent. The advances, followed as usual by an advance to the same rates by the Saxon, Bavarian, and other note issuing banks, were directly the result of the unfavorable money situation and the shrinkage of the Imperial Gold stock, although $4,250,000 was imported from London during the last few days.

The schedule of new vessel tonnage under contract on the lakes shows that orders have been placed with the various shipyards for nineteen boats, to be delivered at the opening of navigation next year. Of the total the American Shipbuilding Company will build eleven, the Great Lakes Engineering Works of Detroit six, and the Craig Shipbuilding Company of Toledo two. Orders are said to be pending for a large number of additional new craft.

A New York dispatch, Friday, said: "E. H Harriman and his associates are negotiating for the control of the Chicago, Milwaukee and St. Paul Railroad in a manner similar to the acquisition of the Burlington by the Hill transcontinental lines. Wall street has been mystified by the disappearance of large blocks of St Paul stock from the market, but careful investigation has led to the discovery that interests representing Mr. Harriman have purchased the stock."

In a communication to stockholders President Mackay of the Commercial Cable Company offers $1,000,000 unissued share capital of the company pro rata at par upon the following conditions: Each shareholder of record Oct. 25 shall have the privilege to subscribe to one new share for every fifteen held on that date. Subscriptions must be made not later than Oct. 25, and accompanied by payment in full for shares subscribed for. The right to subscribe will cease on that date.

The Cramp Steel Company of Collingwood has sued its president and most of its shareholders in Collingwood, Toronto and Philadelphia for damages for alleged malfeasance. The company seeks the cancellation of preference shares valued at $106,000 and common shares of $200,000, for an injunction to prevent them from voting in the meantime upon these shares in any "pretended reorganization of the plaintiff company" and also for an injunction to prevent the transfer of the plant and assets of the company to the Northern Iron and Steel Company, limited, of Toronto, or to any other company or individual.

During the month of September there were chartered thirty-two national banking associations, with capital stock of $1,550,000. Of these banks twenty had a capital of less than $50,000, the total being $525,000, and twelve a capital of $50,000 or over, aggregating $1,025,000. Since March 14, 1900, there have been chartered 2,153 national banking associations, with authorized capital stock of $122,737,300, the bonds deposited at date of organization amounting to $30,594,200. Of that number of banks, 1,413, with a capital of $36,791,500, were organized under the act indicated, and 740, with capital of $85,942,800, under the act of 1864.

Interests closely affiliated with the United States Steel Corporation are said to hold a controlling block in the Steel and Iron company organized with a nominal capital of $2,500,000 to take over and operate the Cramp Steel works at Collingwood, Canada. In this connection it is said that the new company, which is called the Northern Steel and Iron Company, Limited, will ultimately be used as the Canadian subsidiary of the Steel Corporation, and that the new plan may be in operation much sooner than if the corporation undertook to build an entire new plant at any point in Canada.

Monday, Oct. 17, the stockholders of the Colorado Fuel and Iron Company will hold their annual meeting at Denver, Colo. At least 90 per cent of the outstanding issues will probably be voted in favor of the financial rehabilitation plan, which is intended to give back to the control of the company subsidiary properties taken over by the Rockefeller-Gould combination to secure the payment of nearly $13,000,000 which they loaned the company when they got control in 1903. John D. Rockefeller and George J Gould, through Edward V. Carey, have conveyed to the Colorado Industrial Company the properties of the Fuel company which they took over as collateral. The stockholders at their meeting Monday week will vote to acquire the capital stock and part of the bonds of the Colorado Industrial Company, and to guarantee the mortgage bonds of the Industrial company to an aggregate amount not to exceed $45,-000,000. To insure the return of their property the stockholders must also authorize an additional issue of $8,200.000 common stock of the Colorado Fuel and Iron Company.

THE FLOUR PRODUCTION.

MINNEAPOLIS, Oct. 12.—The *Northwestern Miller* says. Minneapolis Flour output last week decreased 9,850 brls, compared with the previous week. The total quantity turned out (week of Oct 8) was 312,040 brls, against 189 870 brls in 1903, and 143,830 brls in 1902. A year ago the Minneapolis mill operatives were out on strike. For the current week the total output is likely to approximate 300,000 brls, or a little more.

Trade in Flour during the past week has not been particularly satisfactory to Minneapolis millers. The majority of buyers seem to be rather "bearish" and do not care to take hold in any volume Still, the sales for the week approximate the output, and were made up, for the most part, of scattering small lots One miller, more fortunate than the rest, reported having sold two large lots to domestic buyers, which brought his sales up to the output. These were isolated cases and do not represent the general condition of business. Millers think the Wheat prices are above a legitimate basis and for this reason do not expect heavy buying There are, however, some exceptions to this, and one miller, when asked for his opinion of the present range of prices, said he thought that in a few weeks buyers would become accustomed to the higher prices compared with previous years, and that good business might be looked for about that time. Export business is reported dull for a profit or not at all, and for this reason Flour prices follow those of Wheat quite closely. Concessions are made to get business, are reported to be the exception rather than the rule.

Inquiry from foreigners is better than for some time past and an occasional small lot of Patent is reported to have been worked. Demand for Clears is not very brisk and prices do not sell good. Generally speaking, the United Kingdom displays more interest than the Continent, where a state of apathy seems to have taken hold of importers. Prices of Patent are getting nearer to a basis where it is hoped that large lines can be worked. Millers think that if Minneapolis markets decline, foreigners' ideas, contrary to custom, will not decline also, and that it looks more likely than it did a month ago that export business in Patent may again be resumed and sales reach something like their former level.

Millers are firm in their asking prices for millfeed, being quite generally well sold ahead Against this, Eastern markets have developed a rather "bearish" However, sales and deliveries on old contracts take care of about all that is made.

Minneapolis and outside mills quote Patent Flour at $5.25@5.40 in wood, f. o. b. Minneapolis.

Eastern prices to-day (Oct 8) asked by Minneapolis and out-side mills for Patent in wood were: Boston rate points, $6.55; New York rate points, $6.50; Baltimore rate points, $6.40; Philadelphia rate points, $6.45; Albany rate points, $6.30; Rochester and Syracuse rate points, $6.45; Buffalo rate points, $6.35, Michigan, $6.05 in sacks; Iowa, Illinois and Wisconsin, $6.10 in sacks; Missouri points $5.95 in sacks.

SIXTY MILLION BUSHELS

[From the Winnipeg Commercial, Oct. 8.]

Sixty million bushels of Wheat for Manitoba and the Northwest Territories is the estimate of this year's production made by C. C. Castle, warehouse commissioner. This is a most important estimate as Mr. Castle is exceedingly well informed, conservative and disinterested. Many sources of information are open to him, owing to his position, and in addition he has recently made a personal investigation of the situation. It is a significant fact that he has previously refrained from rushing into print before he had sufficient information to justify him in making an estimate, and it is hardly likely that he is now on the side of optimism, as his attitude throughout this exceedingly nervous season has been notably conservative. In fact, should Mr. Castle be has been inclined to accept the more pessimistic estimates.

Mr Castle has just returned from a trip over an extensive territory, and from his observations he states his estimate was based on a conservative one. The yield for Manitoba is put at 39,740,000 bu, being an average yield of 15 bu on an acreage of 2,356,000 acres, as compared with a yield last year of 40,116,-978 bu on an acreage of 2,443,878 and an average of 17 bu

In the Territories this year the total yield, as estimated by Mr. Castle, is 20,260,000 bu. The acreage is 1,058,000, and the average yield 19 bu. Last year the acreage in the Territories, according to official figures, was 837,231 acres, and with an average yield of 19 bu, the total yield was 16,329,-144 bu.

With prices of Wheat at a level the highest in years, Mr. Castle says this year's crop will be of far more value than any ever before grown in the West.

THE HOP SITUATION.

[New York Producers' Price Current, Oct. 5.]

The buying of Hops in the Pacific Coast States during the past week has continued with unabated strength and values have been advanced 1c per lb all around. The buying has not been alone for English account, but considerable speculative buying. It is said that three quarters of the Pacific Coast crop has now passed out of growers' hands. Sales have been made at 28@29c for shipping quality and at 27@28c for choice brewers. In New York some buying has also been very heavy, but only for American account. The Western dealers seem to have taken the bearish buyers of late, which appears to show that the Western brewers are pleased with the State quality Large quantities have been dealt in and two and three large counties are practically cleaned up. It is thought by some observers of the Hop trade that at this stage so many Hops should have passed out of growers hands as is the case this year As high as 32c has been paid for fancy growths and from 26c to 33c for lower grades. The London market continues firm, but it is reported that the English growers are obstinately refusing the offers which are being made by the dealers. In Germany a strong and steady market prevails at unchanged prices

AGRICULTURE IN GREAT BRITAIN.

[From the Agricultural Gazette, Sept. 26.]

A dry September is valuable for many reasons, at least in relation to arable land. Apart from its benefit in respect of arrears of Grain harvesting, its value for the preparation of the land for the crops of next year can hardly be overestimated. The destruction of weeds, which has been effected with rare efficiency this season, is only one item in the set of advantages Even more important is the plowing of the land in a dry and friable condition for winter and spring crops, insuring its free working during the two periods of sowing. Forage crops have been put in under the most favorable conditions, and, where land has been plowed Wheat that could not be sown earlier can hardly fail to be well sown a so Similarly, land plowed in a dry and loo e condition for spring crops will bear almost any amount of winter rain without being run into a compact mass, as it was last year, when plowed in a wet state.

A dividend of 2 per cent has been declared on the stock of the Central Railroad of New Jersey, payable Nov. 1, as registered Oct. 19.

ITEMS FROM INDIA.

[From the Times of India, Sept. 10.]

The agricultural department of the United Provinces have, in addition to their experimental farms at Cawnpore and Meerut, started a Wheat breeding station and a Seed depot, the latter at Sultanpur in Oudh. The former is believed to be doing excellent work, the experiments having for their object the producing of rust-resisting Wheats. A special staff of Wheat-breeders are engaged in the operations of the station.

So far as the general agricultural prospects go, the only provinces in which some anxiety is felt, judging from the official weekly reports, are those of Bombay and the Central Provinces. In both of these parts of the country rain is required, though in several districts of the two Bombay seems to be the worst off. In addition to the failure of the rains there has been much damage done, there has been a great visitation of that agricultural pest—the locust—to contend with, and vigorous measures are being taken by the authorities to deal with the situation caused by the ravages of the insects. We hope that Bombay's great commercial crop—Cotton—will escape these ravages

The present season's Cotton crop in the Central Provinces is also in need of rain, and what it is a pity to learn that, while certain parts of the country are crying out for rain, in other tracts heavy and excessive rains have been and are still doing Cotton plants There has, as we have lately mentioned, been a great increase in the Cotton-growing area in the provinces this year, but if the injurious phase of the monsoon is going to be prolonged, Cotton, which has promised well, may probably be adversely affected by the present conditions of the season.

Since our last report there has been an improvement in the rainfall in several of the up-country districts, although in parts where most needed little or no rain has fallen. Good rains have been received in the Central and Deccan Cotton districts of Khandeish, light rain in parts of the Bombay Presidency and Hyderabad (Deccan), and in Gujarat, Cutch, Kathiawar, Rajputana and Punjaub little or none. The weather conditions have been of a cyclonic character. The Cotton crop generally is favorable, and food grains have much benefited in parts where rain has fallen The late rains in the Central Provinces, the Berars and Khandeish are expected to do much good to the Gingelly crop, more especially where late sowings were made, at the same time, it is anticipated that the crop is sure to suffer in quantity.

From Gujarat, Kathiawar, Rajputana and parts of Central India and of the Bombay Presidency advices are not encouraging. Immediate rain is required. Otherwise the crops in these districts will be very poor, both in quality and quantity.

RUSSIAN CEREAL CROPS.

[From St. Petersburg Russian Journal, Sept 25.]

The Central Statistical Committee have this year for the first time issued a preliminary computation of the probable yield of the principal crops in European Russia previous to the definite results being ascertained

As an initial attempt in this direction it is assured that the figures given above may be of a less defective or inaccurate with respect to the anticipated yield Moreover, the estimate furnished by the committee, according to the July data, even at the present date, is generally apparently belated, when in a short period the total outturn of the harvest would be obtained.

The committee have yielded the cereal crops in the sixty Governments of European Russia, including Poland, as defined by the committee, compared with the actual outturn of 1902 and the quinquennial average 1897 1902, are as follows:

	Estimated, 1904. Quarters.	Actual outturn, 1903. Quarters.	Quinquennial aver., 1898-1902. Quarters.
Winter Wheat	14,100,000	18,800,000	15,750,000
Spring Wheat	13,000,000	17,100,000	12,225,000
Total	27,528,000	29,025,000	27,975,000
Winter Rye	90,825,000	100,725,000	95,025,000
Oats	80,250,000	74,362,000	78,750,000
Barley	22,500,000	27,360,000	26,040,000
Corn	3,700,000	4,650,000	4,350,000

Therefore, according to the returns of the committee this season's crops Oats excepted, will be inferior to last year's, still, it is evident from these figures that the decrease in the crops will not be so large as to designate the cereals under the average in many countries would represent them. In fact this year's harvest may be justly estimated as a good average.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Oct. 19.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of 42 "outside" mills, with a daily capacity of 31,950 brls. from Jan. 1, 1904, to Sept. 30, 19 4, with comparisons:

	1904		1903	
	Flour, brls.	Wheat, bu	Flour, brls.	Wheat, bu
Minneapolis	9,954,253	41,520,000	11,079,820	49,819,000
Duluth	660,815	2,717,000	775,910	3,326,000
42 outside mills	5,666,610	22,800,000	8,240,750	33,583,000
Totals	15,334,810	67,037,000	17,178,580	86,840,000

These figures represent the approximate consumption of Wheat in the crop year than in 1903 This has occurred from the mills of Minneapolis and Duluth as well as the outside mills turning out 6,168,080 brls less Flour than in 1903.

THE WEATHER CONDITIONS.

Extreme Northwest Temperature 26 to 50: clear. Northwest Temperature 38 to 56, generally cloudy. West Temperature 44 to 54: rains in Nebraska; fair in two sections, cloudy in three—Temperature 54 to 64; cloudy in Kansas. Ohio Valley—Temperature 44 to 62; clear

Indications are for continued showers west of the Mississippi River Weather in this section fair, with no decided change in temperature.

ITEMS OF GENERAL INTEREST.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to Sept. 24 have amounted to 576,000 bu, against 704,000 bu in the previous year, and 666,000 bu in 1902.

A New York dispatch says: "The Rockefellers have acquired a controlling interest in the New York Central and their methods are soon to be introduced on that system."

The Columbus, Ohio, Railway Company has declared the regular quarterly dividend of 1¼ per cent on its preferred stock, payable Nov. 1 to stockholders of record Oct. 25.

The rise in Missouri, Kansas and Texas securities reflects belief in an early rehabilitation of the company's finances and management under the auspices of Messrs. Gould and Sage.

The International Smokeless Powder and Chemical Company has declared the regular semi-annual dividend of 2 per cent on its preferred stock, payable Nov. 15 to stockholders of record Oct. 25.

Application has been made to the New York Stock Exchange to list $5,000,000 additional mortgage 3½ per cent bonds of 1997 of the New York Central & Hudson River Railroad Company.

A dispatch from Des Moines recently claimed that Rock Island Railroad was negotiating for the Consumers' line of elevators. The owners of the elevators claim that there is no truth whatever in this statement.

The Canadian Pacific Railroad Company will issue $18,000,000 additional ordinary capital stock. The stock will be offered to the shareholders of record at the closing of the books for the purpose on Oct. 27 at par on the basis of 2½ per cent of their respective holdings.

The shipments of Flax Seed from India from April 1 to date amounted to 14,680,000 bu (Calcutta 9,852,000 and Bombay 4,828,000 bu), against 13,740,000 last season (Calcutta 9,660,000 bu and Bombay 4,068,000 bu), and 10,248,0 0 bu in 1902 (Calcutta 6,968,000 bu and Bombay 3,280,000 bu).

The receipts of Flax Seed at Bombay for the week ended Sept 24 were 1,100 tons, against 1,400 tons, 1,888 tons in the previous week and 1,09 tons in the same week last year. The total receipts at Bombay from Jan 1 to Sept. 8 amounted to 191,70 tons, against 153,839 tons in the same period last year.

The Chicago *Drovers' Journal* says: "With the inferior grass Steers selling below $3.00 and the best Corn Steers worth close to $5 00 it is proper for country shippers to know where they are going to 'land' in marketing the in-between grades of Steers. Fairly decent killing Steers sell around $4.50 and desirable ones at $5.00."

The Cincinnati *Price Current* reports the packing of the West for the week at 285,000 Hogs, compared with 330,000 for the week previous and 450,000 for the corresponding week in 1903. The Cotton packing since March 1 reported at 11,965,000 Hogs, compared with 12,115,000 for the corresponding time last year—a decrease of 150,000 Hogs.

"There has been no movement of territorial Corn," says the Southern Elevator Company, of Oklahoma City, Okla. "There will not be much of this Corn moving for some time, as the people are too busy Cotton picking. The yield of the Cotton country in Oklahoma our Corn will not be in shelling and shipping condition for perhaps ten days yet with favorable weather."

The chairman of the American Ship Building Company says that before the end of November the capacity of all the yards of the company will be taken for the balance of the fiscal year ending June 30, 1905. The new plants are completed and in the very largest type, and lower of them will mean greater earnings than formerly, when a far larger number of smaller craft were built

A member of the Moffy reorganization committee in the Consolidated Lake Superior Company says: "It had been expected to have the new secondary Steel Rail delivery in October, but it is doubtful if the engravers will have them ready. The executive committee has this in hand, and as soon as the certificates are ready a general meeting of the entire membership will be called, and the exchange can be effected."

The Cincinnati *Price Current* in its weekly crop summary says: "Weather has continued favorable for crop gathering, the past week, and the Crop of 2,400,000,000 bu or more assured. Much more than last year of marketable Grain. Total of cereals only once previously equaled and is 8 per cent greater than average of past five years. Exportable Wheat of United States and Canada 190,000,000 bu or more."

Officials of the Illinois Central Railroad, Monday, secured the incorporation of the branch roads or cut-offs in the Calumet district. One was the Kensington and Eastern Railroad Company, with $5,000 capital, to build a road from near the Kensington station of the Illinois Central to a point on the State line between Illinois and Indiana opposite Hammond, on the Chicago, Lake Shore and Eastern Road, owned by the Steel trust. The other new corporation is the Hammond, Kensington and Kensington Railroad Company, also with $5,000 capital, to build a line northwesterly from a point near Hammond to the Illinois Central tracks near Kensington.

The statement of earnings of the American Car and Foundry Company for four months ending April 30, 1904 shows a loss of $1,091,158, or about 60 per cent, net, as compared with the corresponding period of 1903 Earnings were slightly in excess of the 7 per cent on the preferred for the four months. As the fiscal year of the railroad equipment industry began about a month later, it is impossible to figure just what the company can show for its shares in a lean year. It is estimated that for the twelve months ending Aug. 31, 1904, the company earned, after fair charges for maintenance and improvements, 7 per cent on the preferred and about 3 per cent on the common.

It is considered certain that the Pressed Steel Foundries Company in his annual report says: "The company has suffered by the reduced commercial activity of the past year in common with all other industrial enterprise. to which the figures now shown by the fact that the gross sales for the year ending July 31, 1904, are 46 per cent less than the preceding year. The condition of the company's plant has been improved during the year, thereby materially increasing the directors believing that the work could now be done to advantage, so that the company is prepared to turn out a large tonnage as soon as the industrial conditions have improved "

An official bulletin prepared by the Inter-State Commerce Commission shows that during the past year 9,84 people were killed in railroad wrecks and 78,241 injured. An officer of the commission says that the increase annually is running growing with the extension of the railroads and the population We have received reports from England, where the average is less than 6,000 miles of track to our 202,000, yet they do greater per mile business than we do. They haul more passengers than we do, yet there was not one passenger killed last year." The records of the Inter-State Commerce Commission show that during the past ten years 78,152 people have been killed in railroad accidents. These deaths are distributed annually as follows: 1893, 6,136; 1895, 5,845; 1897, 6,937; 1899, 6,712; 1900, 7,865; 1901, 8,455; 1902, 8,588; 1903, 9,840; 1901, 9,961.

The Savannah line of steamers running from New York to the Gulf ports has renewed the Sugar rate of 22c, which was declared off a few weeks ago. The Savannah line is offering a 32c rate, the former rate being 35c. The new rate is announced in connection with the Plant System to Missouri River points by way of the Gulf ports. The Illinois Central Railway, to offset this cut and for the purpose of handling the products of the New Orleans plants over its line, has put in a rate of 20c, which is a cut of 12c under the former 32c rate from New Orleans to Missouri River points. Chicago roads threaten and probably will put on a rate of 6c to Missouri River points. Traffic men from Eastern and Western roads are in New York discussing the Gulf situation, and as the Sugar rate is one of the important features some action is expected. This cut is important to the Eastern lines because Sugar comprises about 45 per cent of the Western tonnage originating in New York.

DAILY MOVEMENT OF GRAIN AND PRODUCE.

The following were the Receipts and Shipments of Flour, Grain and Produce for the past 24 hours, as compared with the same time last year:

Stocks were extremely active, over 600,000 shares being sold the first two hours. An undercurrent of strength prevailed. London bought 35,000 shares and commission houses had increased buying orders. Western Railway shares advanced 1 to 2 points, Industrials 1¼ to 2¼, and International Power 5½. Coalers were up 1⅜ to 1¾. Money, 1¼ per cent.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Local sales are on the increase, the demand being more general and prices are holding steady.

WINTER WHEAT—Sold well to-day and prices 1@2c higher. Demand good on milling and speculative account. No. 2 Red in store quotably $1 13¾@1 17, and fresh arrivals free on board nominally $1 16¼@1 18. No. 3 Red fresh receipts free on board sold at $1 13@1 16. No. 4 Red fresh arrivals free on board sold at 95c@$1 12. No Grade Red sold at $1 13. No. 2 Hard fresh receipts free on board ranged at $1 12@1 15, and No. 3 Hard at $1 09@1 12.

SPRING WHEAT—A firm feeling existed for choice Wheat, which was 1@2c higher under a good demand, but the poor Wheat, while it sells, is moving at low price. No. 1 Northern entirely nominal and quotably $1 18 or higher for fresh arrivals. No. 2 Northern fresh receipts free on board quotably $1 12@1 17. No. 3 Spring fresh arrivals free on board quotable at $1 00@1 15, with a sale at $1 13, and sold at the river at $1 11¾@1 14. No. 4 Spring covered a range of 51c to-day, with sales at 58@68c for poor, thin, badly shrunken light weight, at 75@80 also light thin and light weight, at 90c@$1 00 fair and $1 08@1 10 for choice. No. 4 White at the river at 98c.

REGULAR WHEAT—Was active and unsettled and closed with December up 2⅜c, while the May gained 1⅞c. The early tone was easy, the liberal receipts in the Northwest, 313 cars larger than last year, being something of a factor, also those at Winnipeg, 367 cars, against 122 cars one year ago. At the decline the demand became general, the feature being the call for the December, which sold at ⅝c premium over the May. Houses with Northwestern connections were conspicuous on the buying side and "shorts" became frightened and hastened to cover. The strength in outside markets, better tone to the cash situation and estimate on the French crop were also "bull" factors. Duluth wired the cash premium was up 2c on a good Eastern demand and light offerings. Kansas City reported a Minnesota mill buying 70,000 bu there yesterday. The French Minister of Agriculture estimated the crop at 287,410,000 bu, against 363,010,000 bu last year, and 317,600,000 bu in 1902. Map showed general rains in North and South Dakota and further showers probable. Argentine shipments were 752,000 bu, and since Jan. 1 aggregate 83,973,000 bu, against 59,272,000 bu one year ago. Visible there is now 2,576,000 bu, against 3,016,000 bu last week, and 1,472,000 bu one year ago. Argentine markets reported weak, with no export demand. Weather there in some districts cabled as cold and unseasonable. Direct were the reverse. Exports this week were 1,357,000 bu and since July 1 aggregate 20,620,000 bu, against 45,608,000 bu one year ago. Primary receipts June 27 to Oct. 10 foot up 74,050,000 bu against 68,960,000 bu in 1903 and 98,411,000 bu in 1902. *Modern Miller* was moderately "bullish." Duluth stocks are expected to increase 270,000 bu and Minneapolis increase 1,200,000 bu this week. Liverpool quoted spot steady to ½d lower and futures ⅜@½d lower. London was steady to ¼d lower. Paris unchanged to ¼c lower. Antwerp declined 1¼d. Berlin unchanged and Buda Pesth ⅝c higher. Duluth wired: "We just sold Duluth Elevators 10,000 bu Manitoba Wheat, duty paid; this is first imported Wheat on this crop." Receipts at Duluth 178 cars, at Minneapolis 718 cars, total of 896 cars, against 705 cars yesterday, 881 cars a week ago, 583 cars last year. Local receipts included 17 cars Winter, 8 cars Spring and 17 cars mixed, a total of 42 cars, against 104 cars last year. Included in above was 1 car of contract grade. There were 21 cars and 18,000 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 78 cars. Withdrawals were 4,050 bu. Receipts at Western points were 1,356,821 bu, against 1,011,545 bu last year. At Eastern points 16,733 bu, against 215,180 last year. Shipments from Western points 675,676 bu, against 528,033 last year and from Eastern points no bu, against 288,000 bu last year. Shipments of Flour were 8,278 brls. Exports of Wheat in Flour were equal to 37,251 bu.

Future Deliveries of Regular Wheat—Fair trade and prices higher.

OCTOBER—Ranged at $1 10@1 11½. Opened at $1 10, and closed at $1 11½.

DECEMBER—Sold at $1 09⅞@1 13. Opened with sales at $1 10¼ to $1 10⅜; sold to $1 10, to $1 10⅛, to $1 09⅞, to $1 11¼, to $1 11, to $1 11⅝, to $1 11½, to $1 12, to $1 11½, to $1 12½, to $1 12, to $1 13, to $1 12¾, and closed at $1 12¾.

MAY—Sold at $1 09⅞@1 12½. Opened at $1 10 to $1 10½; sold to $1 09⅞, to $1 10¼, to $1 10⅛, to $1 11¼, to $1 11⅛, to $1 11⅝, to $1 12, to $1 11¼, to $1 12½, to $1 12¼, to $1 12½, to $1 11⅝, to $1 12¼, to $1 12⅛@1 12¼, and closed at $1 12⅛@1 12¼ asked.

JULY—Sold at 97½@99¼c. Opened at 98c; sold to 97½c, to 98¾c, to 98½c, to 99⅛c, to 99c, and closed at 99⅛c.

CORN—A fair trade with the feeling unsettled, final trades showing the December up ¾c, while the May gained ⅛c. Selling was general at the start, led by commission houses, and lower prices were recorded. Argentine shipments were heavy and crop reports favorable. At the decline the demand improved, the feature being the call for December, which sold at 4⅛c premium over the May. Professionals and cash houses were conspicuous on the buying side, the former taking the May. Argentine shipments were 3,360,000 bu, and since Jan. 1, 70,787,000 bu, against 59,485,000 bu one year ago. Visible there reported at 4,773,000 bu, against 5,400,000 bu last week and 3,852,000 bu one year ago. Country acceptances were light and receipts were small at 67 cars, making 691 cars in this week, against 1,589 cars last year, and 102 cars were estimated for to-morrow. Liverpool quoted spot steady to ½d higher, notwithstanding the receipt of 912,000 bu the past three days, 248,000 bu of which came from America. Futures unchanged. Liverpool strength reported due to the large spot trade and rumors that American shippers had oversold on old Corn contracts and trying to buy the Corn back. Map showed general rains in Kansas and local rains in Iowa, Nebraska and Missouri. Cloudy weather predicted with showers probable over the West. Exports this week 602,000 bu, and since July 1 aggregate 9,253,000 bu, against 15,226,000 bu one year ago. Kansas City reported the receipt of a car of new Corn which graded No. 3 and predicted liberal arrivals there soon. Western receipts 277,000 bu; last year 337,000 bu. Shipments 481,000 bu and 509,000 bu respectively. Local arrivals 113,000 bu; shipments 106,000 bu. Withdrawals 89,000 bu. Cash demand good and sales 85,000 bu. Seaboard reported 5 boat loads accepted. Car lots scarce and prices ½c higher. No. 2 closed about 53½c to go to store and No. 2 Yellow at 53¾c. No. 3 closed at 53½c and No. 3 Yellow closed at 56¼@56½c. No. 4 sold at 55c. Corn by sample. Demand was good and offerings small. Feeling strong and prices unchanged to ½c higher. Sales on track and free on board: No. 4 sold at 52@55c. No. 3 at 53½@56½c. No. 3 Yellow at 56¼@57c. No. 2 Yellow at 56½c. No. 3 White at 5.¾@55c. Billed through: No. 4 at 54@55c. No. 3 at 53¾c. No. 3 Yellow at 55@55½c. No. 2 Yellow at 55¾@56c. No. 3 White at 51c.

Future Deliveries of No. 2 Corn—Fairly active and stronger and closed ⅛@¾c higher.

OCTOBER—Better demand. Sold at 51¾c and 52c and closed at 52⅛c nominally.

DECEMBER—Sold at 48⅞@50½c. Opened at 49⅛c to 49⅜@49¼c and sold at 48⅞c, to 49⅛c, to 49c, up to 50⅛c, to 49⅞c, to 50½c, to 50c, to 50⅛c, and closed at 50⅛c asked.

MAY—Sold at 45¼c and 46@46⅛c. Opened at 45⅝c to 45⅝@45¾c and sold at 45¾c, to 45¼c, to 45⅝@45¾c, to 45⅝c, to 45¾@45⅞c, to 45⅝c, to 46@46⅛c, to 45⅞c, to 45⅞@46c, and closed at 45⅞@46c.

JULY—Sold at 45⅛@45½c. Opened at 45¼c and sold at 45⅛c, to 45½c bid, and closed at 45½c.

OATS—Were actively traded in. Prices were off ¼@⅜c early, but advanced ½@⅝c and closed at ⅛@¼c gain for the day. The advance at the last was with other Grains and on covering by "shorts," also on fair buying by cash houses. The selling was mainly by hedgers. Cash sales were 125,000 bu, part Standard. The Eastern demand slackened, there being good supplies in transit. Seaboard clearances were 23,600 bu. Arrivals 95 cars, with 146 cars estimated to morrow. Withdrawals, 266,000 bu. Car lots in store and to go were easier. No. 4 White sold at 28¼c. Standard at 31½c. Standard in store ⅛@¼c over December bid; closed at 29⅛c.

Oats by sample did not meet with as much demand and closed easier. Offerings slightly increased. Sales on track and free on board: No. 4 White at 29@30¼c. No. 3 at 30¼c. No. 3 White at 30@32c. Standard at 31¼@31½c. No. 2 at 29½@30c. No. 2 White at 32c. Billed through: No. 3 White at 30c. Standard at 30½c. No. 2 at 29c. No. 2 White at 31c. At the river: No. 4 White at 27½@28½c. No. 3 White at 28@29½c.

Future Deliveries of Contract Oats—Were lower early, but reacted and closed higher.

OCTOBER—Sold at 29⅛; closed at 29⅛c.

DECEMBER—Moderate trading. Sold at 28½@29⅛c. Opened at 28¾c, sold to 28½c, to 29⅛c, and closed at 29c.

MAY—Active. Sold at 30¾@31¼c. Opened at 31c, sold at 30¾c, to 31¼c at close.

RYE—Was steady with a moderate business, both in cash and futures. Receipts five cars and withdrawals from store 5,000 bu. No exports from New York. No. 2 in store nominally about 77½@78c, and fresh arrivals free on board sold at 78@81c for ordinary to fancy. No. 3 sold at 76c and No. 4 at 63@76c.

Future Deliveries of No. 2 Rye—Some trading and market steady. October 78c asked. December sold at 78@78½c and closed at 78½c bid. May sold at 81c and closed at 81c bid and 81¼c asked.

BARLEY—An increased and brisk demand appeared for feed or export Barley. There were new buyers as well as the old ones present. Some early sales made at the last quotation, and this was followed by ½c advance. Screenings also in better request, steady and firm for nice, sweet, clean goods. Some musty, very dirty and seedy cars on the market which had to be sold low. Low grade malting, especially Dakota Barley, was heavy, easy to buy; few cared for it, some would not have it at all. Iowa of low grade sold fairly and was steady. Barley of good size berry, good color and clean, good sale and firm, with little for sale. Choice to fancy very scarce. An increased quantity of to arrive Barley was taken, 66,000 bu. It was good to choice, but prices at which it sold were not made public. There were posted 68 cars inspected in. Poor to common, thin, dirty cars of Screenings sold at 24@24½c and good to choice at 32@37½c. Barley, feed or mixing, local, was active early at 36c and advanced to 36½c; river billed sold at 34½c. Malting, low grade, usually small berry, some heavy, but dirty, ranged at 37@38½c. Clean, fair to good, at 39@43c, and large berry, heavy quotable at 45@48c, with fancy a shade over.

SEEDS—In Grass Seeds there was nothing of interest developed. Cash Timothy trade fair and everything else very quiet. The market for Flax displayed strength, with a further advance in prices.

Timothy—There were a few future delivery trades and a fair volume of cash business. There was a tone of steadiness about the market. No feature especially developed, and prices exhibited no change. October delivery sold sparingly at $2 65 and January at $2 75. March inactive; offered at $2 85. Country lots of fair to good quality quotably $2 25@2 35, high grade seed about $2 40@2 45 and very choice to fancy $2 50@2 70; none so fine, however, on sale. Rough, dirty, or badly hulled about $2 10@2 20, and low grade $1 75@2 00; infer or lower.

Flax—Trading was absent, due to the fact that there were no sellers. Nominal prices were 1½c above yesterday's quotations. From the quotations received there was an active, unsettled and withal a higher market in the Northwest, and it was this influence which caused an advance here. No. 1 Northwestern salable at $1 18, and No. 1 at $1 11. Rejected, depending on quality, quotable at $1 08@1 16. For October $1 11 was bid, and December salable at $1 13, with $1 14 asked.

Clover—Was quotably steady. No change in the market. The market also remains without offerings, hence inactive. October delivery quotable at $12 25. Contract spot Seed the same. Country lots common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 50.

Other Seeds—Nothing doing. The several lines were salable as follows: Hungarian quotable at 80c@$1 00 for common to choice. Millet, common, was quotable at 75@90c for common to choice. German at 80c@$1 00. Broom Corn Millet at 90c@$1 00. Siberian at 60@80c, and Early Fortune about 75@90c. Mustard about 75c@$1 00. Buckwheat, good milling spot Wheat quoted at $1 30@1 35, but no quotations or bids to arrive.

HOG PRODUCTS—Only a fair business was reported in Hog Products, and the market was somewhat unsettled and prices irregular. Offerings were moderately free and the demand was only fair. Outside orders were moderate, and local trading was not very active. Some trading in October, but the bulk of the business was in January and May. Hogs were in fair supply and prices lower. Receipts at the leading Western packing points were estimated at 49,000, compared with 37,100 one year ago. Foreign markets unchanged. Domestic markets rather easy. Receipts of Products were good—of Lard and Meats about 20 cars. Shipments were small—of Lard and Meats about 8 cars. Speculative markets were steady at the opening, but soon weakened, and prices receded on all the leading articles. Toward the close, the feeling was steadier, with a slight rally in prices, but the market closed rather quiet. Shipping demand was fair, with offerings pressing for sale. Transactions were somewhat larger, and prices inclined in favor of buyers.

Mess Pork—Trade was fair in the market for Mess Pork, and the feeling was easier. Offerings were moderately free, especially of the deferred deliveries, and the demand was moderate. Market opened rather steady, but soon weakened and the active deliveries declined 10@15c. Toward the close, a little more steadiness was manifested, and prices rallied 2½@5c, and the market closed rather steady. Shipping demand was light and offerings were small. Cash lots quotable at $10 87½@11 00.

OCTOBER—Quiet, with small sales at $10 80@10 87½, and closed at $10 85.

DECEMBER—Offerings were fair, and the demand was moderate. Sales were made at $10 95@11 00. Opened at $11 00, sold to $10 95, to $11 00, to $10 97½, to $11 00, and closed steady.

JANUARY—In moderate request and offerings were fair. Sales were made at $12 25@12 40. Opened at $12 40, sold to $12 30, to $12 32½, to $12 25, to $12 30, to $12 25, to $12 27½@12 30, to $12 27½, and closed steady.

MAY—Demand was rather light and offerings were moderate. Sales were made at $12 15@12 25. Opened at $12 25, sold to $12 15, to $12 20, to $12 17½, to $12 20, and closed steady.

Lard—A fair business was transacted in the Lard market, and the feeling was easier. Offerings were moderately free, and the demand was only fair. Foreign advices were unchanged. Market opened rather easy, and prices were about 2½c lower, which was followed by a further reduction of 5@7½c. Toward the close, the feeling was steadier, and prices rallied 2½c, and the market closed comparatively steady. Demand on shipping account was limited, with moderate offerings. Cash lots quotably steady at about October figures, closing at $7 22½@7 25. Loose lots in fair request, with very small offerings. Prices quotable at 20c discount on October figures. Leaf Lard was in fair demand with very limited offerings. Quotably steady at about $7 75 for very small lots. Neutral in light demand, with limited offerings. Prices quotably steady at $9 12½@9 25 for No. 1, and $8 62½@8 75 for No. 2.

OCTOBER—Offerings were fair and the demand was moderate. Quotable about 2½c over January. Sold at $7 22½@7 25, and closed at $7 22½.

NOVEMBER—Quiet, with small sales at $7 25.

DECEMBER—Demand was light and offerings were moderate. Sales were made at $7 12½@7 20, and closed quiet at $7 12½.

JANUARY—Offerings were fair, and the demand was moderate. Sales were made at $7 15@7 25. Opened at $7 22½ to $7 25, sold to $7 15@7 17½, to $7 17½, and closed steady.

MAY—Demand rather light and offerings moderate. Sales were made at $7 22½@7 25. Opened at $7 25, sold to $7 22½, and closed quiet.

Short Rib Sides—Rather a good business was reported in Short Rib Sides, and the feeling was easier. Offerings were moderately free, and the demand was moderate. Trading almost exclusively in January and May contracts. Prices declined 7½@10c early in the day, but rallied about 2½c later, and the market closed comparatively steady. Shipping demand was moderate, and offerings were fair in a quiet way. Cash lots quotable at $7 50@7 62½, according to weight.

OCTOBER—Quiet. A few scattering trades made at $7 45@7 60, and closed with sellers at $7 50.

JANUARY—Offerings were rather free, and the demand was fair. Sales were made at $6 40@6 50. Opened at $6 47½@6 50, sold to $6 45, to $6 47½, to $6 40, to $6 42½@6 45, to $6 40@6 42½, to $6 42½ and closed steady.

MAY—In light request and offerings were moderate. Sales were made at $6 50@6 57½. Opened at $6 57½, sold to $6 50, to $6 52½, to $6 5.@6 52½, and closed steady.

Other Meats—Trade was only fair and mainly on domestic account. Exporters bought sparingly. Offerings were not very large and inquiry was moderate. Green Meats in moderate supply with light inquiry and prices ruled easier. Pickled Meats were dull and slow sale with fair offerings, and prices favored buyers. Dry Salted Meats were in fair demand with moderate offerings, and prices were easier. Smoked Meats called for moderately and prices favored buyers. Closing prices were as follows:

WHAT AMERICAN CROPS MEAN.

Frank Fayant, of the *Wall Street Journal*, contributes to the September number of *Success*, an article presenting the relative position and importance of American crops, one of a series of articles written by him on great American industries. We abstract as follows:

Between the two oceans we raise one-fifth the world's Wheat, four-fifths its Corn, one quarter its Oats and four-fifths its Cotton. The harvest's abundance is of vital importance to the railroads, which carry 60,000,000 tons of Grain, to ocean shipping carrying out $500,000,000 worth of Grain and Cotton, to the English spinners, who pay us $150,000,000 for Cotton; to the makers of $100,000,000 worth of agricultural implements a year; to England's 40,000,000 people, who need 160,000,000 bu of our Wheat and Flour.

To form an adequate conception of the magnitude of our crops, one must turn to the figures of values:

	1903.	1902.	1901.
Cereals	$1,746,000,000	$1,828,000,000	$1,745,000,000
Cotton	453,000,000	411,000,000	469,000,000
Hay	556,000,000	542,000,000	506,000,000
Total	2,755,000,000	2,781,000,000	2,720,000,000

In the past seven years the world has produced only Gold enough to buy one year's yield of our six leading cereals.

It is the American farmer who has paid off our huge debt to Europe. In the past three years agriculture's share has been nearly $900,000,000 of average total exports of $1,400,000,000. We have shipped one third our Wheat and two-thirds our Cotton, but Wheat exports are contracting while Cotton are expanding. The day is probably near when we shall have no surplus Wheat for export. Recent Wheat and Cotton exports total:

1904	$474,000,000	1901	$479,000,000
1903	478,000,000	1900	382,000,000
1902	468,000,000	1899	386,000,000

Every year nearly $500,000,000 worth of American farm products is shipped to England, our best customer. English roast Beef comes from Texas Cattle; English Cottons, worn the world over, from southern plantations; English bread from Minneapolis Flour. England normally has in store only a few weeks' supply of food, at times a few days': hence her need of a large navy. Some years ago Russia proposed to our Government an agreement to keep up the price of export Wheat, but we did not take kindly to such an international Wheat "corner." Four of every five loaves of English bread are made of foreign Wheat.

American railroads handle $1,500,000,000 worth of Grain a year, and hundreds of millions of bushels of Corn indirectly in the form of Cattle and Hogs. Then there is the resulting return tonnage of exchange products back to the farm regions, beside the great passenger traffic stimulus of agricultural development. The harvest brings to the railroads a gross revenue approaching $400,000,000, or one-fifth their entire revenue. A quarter of the earnings of a great system like St. Paul or Southern Pacific comes from agricultural products.

Freight rates have been steadily reduced. In thirty years the cost per ton of Grain from Chicago to Liverpool has fallen from $16 00 to $4 50. Since the war the all-rail rate from Chicago to New York has fallen from 40c to 10c a bu; the lake-and-canal rate from 25@35c to 5c. The ocean rate is now only 2c a bu.

The world's Wheat crop is 3,000,000,000 bu. Europe raises half; United States and Canada one-quarter; India one-tenth; South America, Northern Africa and Southwestern Asia the rest. There are two groups, the export or surplus countries—America, Russia, the Balkans, Argentina, and India—and the importing countries—England, Germany, Belgium, and Italy. England must buy over 200,000,000 bu a year and the Continent an equal amount.

Flour making and Wheat raising go hand in hand. In the past twenty five years, in which invention has revolutionized milling, the Minneapolis Flour output has risen from 1,000,000 brls to 16,000,000 brls a year. "Pillsbury's A," the world's largest Flour mill, has a capacity of 14,000 brls a day. The Minneapolis mills use at maximum 1,750,000 bu of Wheat a week. The average profit per barrel has in twenty years fallen from 75c to 10c, and the price to the consumer has been cut in two. Our annual Flour exports are nearly 20,000,000 brls, worth nearly $80,000,000.

Crop news is gathered most eagerly and in astonishing volume. The Government and all sorts of private interests have estimates prepared; statistics cover every field and cargo. Some men make crop study a life vocation and every year travel the whole crop country. Long before the world's Wheat crop is harvested, the probable yield and export movement are fairly well known.

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Oct. 13.]

The favorableness of weather conditions with reference to agricultural interests has continued, so that the maturing process of the Corn crop has progressed well, the seeded Wheat has secured a good beginning, the fall pasture has been maintained or improved, and other seasonable features have been and are attended with a situation of satisfactory nature, in nearly all sections and particulars. The Corn crop information is supporting the position which has been maintained by the *Price Current*, and the later official reports are more nearly in line with the deductions reached heretofore by this paper in regard to the Wheat crop. The aggregate production of food and feeding material this season exceeds any previous year with a single exception. There are large crops of Corn, of Oats, of Hay, of Potatoes, of Apples—the only deficiency of significance being Wheat, and of this there is ample for all home requirements and a fair surplus for exportation.

A careful survey in regard to the indicated production of Corn leads to the conclusion that the seven surplus States—Ohio, Indiana, Illinois, Iowa, Missouri, Kansas and Nebraska—will yield about 300,000,000 bu more than last year, and very much more of marketable quality Grain than last year, the average as to the condition of the Grain being much better than a year ago in the greater portion of the sections of large supplies. The aggregate crop may confidently be recognized as fully 2,400,000,000 bu, and possibly 2,450,000,000 bu—it being hardly reasonable to calculate on a higher result than the larger figures here suggested.

The *Price Current* submits the following compilation as an approximation of the season's crops, the Corn and Wheat figures representing the present views of this publication, the other exhibits being based on the official data, these quantities being compared with official returns for 1903 and 1902—the latter being the year of the greatest outturn in such farm products in the aggregate.

	1904—bu.	1903—bu.	1902—bu.
Corn	2,400,000,000	2,244,000,000	2,523,000,000
Wheat	560,000,000	638,000,000	670,000,000
Oats	900,000,000	784,000,000	988,000,000
Barley	140,000,000	132,000,000	135,000,000
Rye	28,000,000	29,000,000	33,000,000
Buckwheat	15,000,000	14,000,000	15,000,000
Total	4,043,000,000	3,841,000,000	4,364,000,000

For the five years prior to the present season, which includes the high aggregate for 1902, the annual average total production of these cereals was about 3,725,000,000 bu, compared with which there is an excess of over 8 per cent this season.

With regard to the question of exportable surplus of Wheat, it may be safely calculated that the United States and Canada can readily furnish 100,000,000 bu for the current year, and that in case of urgency this quantity can undoubtedly be somewhat enlarged.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Oct. 13.]

There is a more liberal movement of Hogs into market channels, and the numbers for the week make a total greater than previously for three months, and decidedly in excess of corresponding time last year, carrying the total for the season above that of a year ago, and overcoming the deficiency heretofore shown. With the enlarged marketings, prices of Hogs have naturally receded rather sharply from the seemingly high position previously prevailing, under the influence of moderate offerings and the position of the Corn market. Total Western packing 325,000 Hogs, compared with 310,000 the preceding week and 300,000 two weeks ago. For corresponding time last year the number was 280,000 and two years ago 310,000. From March 1 the total is 12,065,000, against 12,015,000 a year ago, an increase of 50,000. The offerings include a good proportion of satisfactory quality, and more or less of undesirable quality. Prices are decidedly lower, showing an average for prominent markets of about $5 50 per 100 lbs, compared with $5 90 a week ago, $5 95 two weeks ago, $5 60 a year ago, $6 95 two years ago, and $6 15 three years ago.

The speculative Provision market was easier the past week, but trading was fairly active. The receipts of Hogs were considerably larger than for the corresponding time last year and prices for same declined. The Grain markets were lower. These influences caused buyers to hold off, and values declined for all the leading articles at Chicago. The export clearances of Product were liberal and show an increase over the preceding week and a gain as compared with the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	524,000	789,000
Bacon, pounds	10,763,000	11,070,000
Total, Meats	11,291,000	11,858,000
Lard, pounds	17,016,000	11,215,000
Total, Product	28,307,000	23,073,000

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since March 1, at undermentioned places compared with last year, as follows:

March 1 to Oct. 12—	1904.	1903.
Chicago	2,920,000	3,520,000
Kansas City	1,535,000	1,155,000

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 28 to 54; cloudy. Northwest Temperature 46 to 54; rains general, but mainly light. West—Temperature 42 to 54, raining in Iowa. Southwest—Temperature 46 to 58; raining. Ohio Valley—Temperature 38 to 62; partly cloudy.

Indications are that showery conditions West will overspread Upper Mississippi Valley, but probably not reach the lake region. Temperatures will change but little.

ITEMS OF GENERAL INTEREST.

Five stores and other property at Ligonier, Ind., were burned, Thursday. Loss, $35,000.

Seats on the New York Stock Exchange are selling at $75,000—unchanged from the last previous sale.

The Canadian Pacific's gross earnings in the first week of October were $1,057,000, an increase of $75,000.

Late cables, Thursday, reported further beneficial rains in New South Wales and Queensland, Australia.

A canvass of the mills in the Southeast discovered twenty mills having over 4,000,000 bu of Wheat on hand.

Walter S. Keene, Leather Merchant of Stoneham, Mass., has filed a petition in bankruptcy, with liabilities at $252,782 and assets at $11,615.

The underwriting price at which the $15,000,000 Lehigh Valley bonds were sold to the Drexel-Smith syndicate is said to have been 95½.

The Underground Electric Railways Company of London, Limited, has applied to the New York Stock Exchange to list $16,550,000 5 per cent profit-sharing secured notes.

Vice Chancellor Emery, at Trenton, N. J., has appointed a temporary receiver for the Commonwealth Tobacco Company. Liabilities are given at $775,000 and assets at $75,000.

An Omaha dispatch, Thursday, said: "Some new Corn is coming into Omaha. The quality is good and the yield is said to be fully up to former estimates. Farmers will not crib Corn until the weather turns cool."

At the annual meeting of the Boston and Maine Railroad Company, Wednesday, it was voted to authorize the issue of $525,000 in redemption bonds to take up bonds issued in 1885 and due in 1905. The new bonds will run twenty years, at 4 per cent interest.

It is reported that action will be taken on a dividend on the common stock of the Mackay Companies before the close of the current month. The first dividend declared will be 2 per cent, but it is not likely that it will be designated as either a quarterly, semi annual, or annual dividend.

The full report of the Greene Consolidated Copper Company for the year is not yet ready for publication, but the president at the annual meeting, Wednesday, stated that the net profits for the year ended July 31 amounted to $1,236,578. There was expended for improvements $1,202,000. The total production for the year was 55,000,000.

A St. Louis party, commenting on the cash demand for Wheat, Thursday, said: "One firm in the Southeast has 1,000,000 bu Oregon Wheat bought, and another 400,000 bu. This will supplant the demand for our Wheat, as these millers usually supply their wants from here. By Jan 1 you will find every miller and Flour dealer loaded with high priced Wheat and Flour far above the market."

Reports have been current of late to the effect that the dividends on Baltimore and Ohio, Norfolk and Western, and Chesapeake and Ohio would be increased in the near future. A particularly circumstantial statement was put out to this effect last week. These reports are said to be unfounded. Chesapeake and Ohio will declare the regular 1 per cent dividend in the next few weeks, and Norfolk and Western will declare the regular 1½ per cent dividend. The Baltimore and Ohio dividend next winter will be 2 per cent semi-annual, as was the last one. It is officially stated there is not the slightest intention at present of increasing any of the dividends.

When the General Electric Company was started as the Thomson-Houston Company in 1881 it had forty-seven employes and twelve customers. Now it has 25,000 customers and 25,000 employes, of whom 15,000 are employed directly in connection with the factories at Schenectady and Lynn and 10,000 are in allied agencies and companies. While at the beginning orders were from a few people for large electric installations connected with credit financing bond and share issues, the great business now is from innumerable small consumers who pay cash within the month. The losses of the General Electric Company on its trade accounts do not exceed one-eighth of 1 per cent, and the number of orders it receives in all its departments and companies at the present time will average about 700 daily.

The Republic Iron and Steel Company will use all the money necessary to complete its new plant at Youngstown in the shortest possible time. Representatives of the company estimate that by the end of the first half of next year the new rail mill will be ready for operation, and that the second half of the year the company will be able to take its place among the Steel rail makers. According to the present plans, the new mill will have a rail capacity of from 20,000 to 30,000 tons per month, and at need can stretch that several thousand. It has not yet been determined whether the company shall take rail orders for next year's delivery, but it is assumed that it will do so as soon as there is no doubt as to the completion of the mill. For the coming year the present company cannot prove a rate disturber, although it is not a member of the pool, and probably will not sign the pool agreement. By 1906, however, it will have to be considered when rates for Steel rails are being framed.

The Iron and Steel outlook for the first half of the coming year is said by Steel and Iron men to be growing distinctly better. While it is true, they say, that most of the railroads are still holding back their rail orders for 1905 delivery, they are buying freely of all other materials, and it is now only a question of a short time when there will be no longer reason to delay their orders for rails. Some of the largest users of Steel rails have not entirely abandoned their belief that the rail makers may yet make some concessions in the matter of prices. There appears no more likelihood of any reduction this year than there was when the year opened, and the rail consumers were then confident that they could force the schedule below $28 per ton for rails for domestic consumption. On the basis of the orders on the books the rail consumers will this year use only 60.7 per cent as many rails as they did in 1903. The great falling off in rail consumption this year will call for a correspondingly big increase when the roads renew their consumption in full. That this will come early in the new year is the confident expectation of the largest interest.

The general outlook for the car building industry is improving somewhat under the prospect of larger purchases by railroad interests. It is reported that the New York Central is negotiating for 5,000 Steel cars, while the Cincinnati, Hamilton and Dayton and Pere Marquette Railroad has placed an order for 4,000 cars with the American Car and Foundry Company. The Pennsylvania road also has placed an order for 600 Steel cars, to be divided between the Pressed Steel Car Company and the Cambria Steel Company. The placing of contracts for 3,000 cars by the Erie with the American Car and Foundry Company and the Pressed Steel Car Company has been reported previously. In addition, the Delaware and Hudson Company has ordered 100 composite Steel cars, and the New York, Susquehanna and Western 100 cars. The Canadian Pacific is reported in the market for 500 box cars, the Tennessee Central for 700 cars, and the Long Island Railroad for 125 cars. In all, contracts placed and pending for railroad cars aggregate a little less than 15,000 cars, the construction of these cars requiring upward of 100,000 tons of Steel plates and shapes.

A holder of Pennsylvania Railroad shares says: "You will see the difference very shortly between 'bull' and 'bear' times, between stockholders invited to take stock on a rising market and stockholders forced to take it on a falling market. The raising of the $100,000,000 of money from Pennsylvania Railroad stockholders put the stock down to 110, not because of anything in relation to its intrinsic value, but because people did not like to buy stocks on receding valuations. Now the times have changed, and the privilege of taking the next $100,000,000 Pennsylvania shares will be regarded as very valuable. It should be remembered also that there are more shares and more shareholders to take it. The average share holdings of the Pennsylvania Railroad to-day are sixty-eight shares per shareholder. The recent and the forthcoming steady appreciation in Baltimore and Ohio, Norfolk and Western, Chesapeake and Ohio, Reading, etc., add enormously to Pennsylvania's value, and, with the corner turned, you will see the difference between stock taking on rising values and stock taking on falling values. Pennsylvania now represents a settled trunk line situation, a settled railroad rate situation, and a settled money investment situation."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—In fair demand and steady, as quoted on the second page.

WINTER WHEAT—A good demand existed and the feeling was firm, with prices a shade better. Choice Wheat especially wanted and poor Wheat slow. Sales of 180,000 bu of mixed lots were reported, besides the car lots of fresh arrivals. No. 2 Red in store nominally $1 16¾@1 18, and fresh arrivals quotably $1 17½@1 19. No. 3 Red fresh arrivals free on board quotably $1 14@1 16, with a sale at $1 14. No. 4 Red sold at $1 00@1 04, and a very choice car at $1 14. No. 2 Hard fresh arrivals free on board quotably $1 13@1 15½. No. 3 Hard fresh receipts free on board sold at $1 05½, and a choice car at $1 15.

SPRING WHEAT—Choice Wheat firmer under a good demand, but the poor Wheat, while it sells, is moving at low price. No. 1 Northern entirely nominal and quotably $1 20 or higher for fresh arrivals. No. 2 Northern fresh receipts free on board quotably $1 18@1 20, with a sale at the river at $1 18¼ No. 3 Spring fresh arrivals free on board quotable at $1 00@1 15, with a sale at river at $1 13. No. 4 Spring covered a range of 41c to-day, with sales at 65@75c for poor, light weight Wheat and at $1 06 for good.

REGULAR WHEAT—A very fair trade, with the feeling stronger. The close was ⅞c higher for December, while the May gained but ¼c. Principal influence was the strength of the December, which at one time was quoted 1⅜c over the May, "shorts" and warehouse interests being the chief buyers. The strong position of the cash article was a factor, also the importation of Manitoba Wheat by Duluth. Part of the early December buying was said to be for foreign account. The Northwest was credited with purchases and there was general covering by "shorts." At the advance several of yesterday's best buyers turned sellers. Canadian millers were reported buyers of May here, said to be the first time in six months. Liverpool quoted spot steady to ¼d higher, and futures ⅜@⅝d higher. London came unchanged to ½d higher Berlin was up ½c and Buda Pesth 1¼c higher. Liverpool was steadier on reports of unfavorable crop news from Argentine. Crop conditions in Australia reported improved. Primary receipts this week were 9,735,600 bu against 7,204,000 bu last week and 7,107,000 bu one year ago. Receipts in the Northwest 5,582 cars; last week 4,358 cars and 4,042 cars one year ago. Local weekly receipts were 1,048,000 bu and shipments 619,000 bu. *Broomhall* estimated the world's shipments at 10,400,000 bu, those from Russia again heavy, and predicted some decrease on ocean passage. Imports into the United Kingdom 5,600,000 bu, against 3,600,000 bu last week and 4,700,000 bu one year ago Australian shipments were liberal at 1,296,000 bu. Paris was quoted ¾c higher. Map showed generally fair weather, with light rains in the Northwest. Clear weather and rising temperatures indicated. Winnipeg had 263 cars; last year 232 cars Minneapolis reported stocks increased this week 1,150,000 bu. Clearances were small, and only 3 boat loads were accepted at the seaboard Kansas City estimates for Monday 102 cars. Duluth stocks this week are expected to increase 200,000 bu Receipts at Duluth 273 cars, at Minneapolis 675 cars, total of 948 cars, against 896 cars yesterday, 709 cars a week ago, 549 cars last year. Local receipts included 21 cars Winter, 22 cars Spring and 6 cars mixed, a total of 49 cars, against 100 cars last year. Included in above was none of contract grade. There were 18 cars and no bu taken from unlicensed elevators. The estimated receipts for Monday are 135 cars. Withdrawals were 1,000 bu. Receipts at Western points were 1,243,670 bu, against 1,198 242 bu last year. At Eastern points 28,004 bu, against 201,656 last year. Shipments from Western points 416,916 bu, against 726,603 last year and from Eastern points no bu against 191,572 bu last year. Shipments of Flour were 10,176 brls. Exports of Wheat in Flour were equal to 45 522 bu

Future Deliveries of Regular Wheat—Good trade and prices higher

OCTOBER—Almost entirely nominal—was quoted one time at $1 12⅝, and closed at $1 12¼ bid.

DECEMBER—Sold at $1 12¾@1 14¼. Opened with sales at $1 12¾ to $1 13⅜; sold to $1 13¼, to $1 14⅛, to $1 13⅝, to $1 13¾, to $1 13⅝, to $1 14¼, to $1 13¾, to $1 14⅛, to $1 13⅝, to $1 14⅛ to $1 14, to $1 14⅛@1 14¼, to $1 13⅝, and closed at $1 13⅝ asked.

JULY—Sold at 99@99¾c. Opened at 99¼c; sold at 99¾c, to 99c, to 99⅝c, and closed at 99⅝c sellers.

CORN—Only a moderate trade with the feeling weaker, the close being ⅞c lower for December, while the May lost ½c. Commission houses were liberal sellers of May, while the demand was confined chiefly to floor traders. The Southwest was a moderate buyer. December was in fair demand at the decline. Weather was favorable, but receipts were small—112 cars, against 385 cars last year and 101 cars estimated for Monday. Liverpool quoted spot steady to ½d higher and futures ¼d higher. Local weekly receipts were 945,000 bu, and shipments 1,640 000 bu. Primary receipts this week were 2,132,000 bu, against 1,651,000 bu last week and 2 719,000 bu for same week one year ago London quoted cargoes on ocean passage firm and held 1½d higher. Withdrawals were liberal at 373,000 bu and shipments 446,000 bu, against receipts of 88,000 bu. Generally fair and warmer weather was predicted. Exports were small at 8,000 bu and the seaboard reported 2 boat loads accepted. Shipping inquiry fair, but holders firm and sales 100,000 bu. Private crop advices from Central Illinois and Nebrasko were quite "bearish" on the crop situation. Car lots were in good demand and scarce. Prices ¼@½c lower. No. 2 closed to go to store at about 53c No 2 Yellow closed at 56¼c. No 3 closed at 52½c. No 3 Yellow sold at 56¼c, closed at 55¾@56c.

Corn by sample—Offerings moderate, and the demand fair. Feeling was weaker, and prices ¼@½c lower. Sales on track and free on board: No Grade sold at 52c. No. 4 at 50@55½c. No 3 at 53@53½c. No 3 Yellow at 56@56½c No. 2 at 57c No. 2 Yellow at 56½@57c. No 3 White at 54@55c. Billed through: No. 4 at 53¼@54¼c. No. 3 at 52½@54½c. No. 3 Yellow at 54½@55¾c No. 3 White at 52½@53¾c.

Future Deliveries of No. 2 Corn—Moderately active and easy, closing ½@⅞c lower

OCTOBER—Inactive, but quotable 2c over December, closing nominally at 51¼c

DECEMBER—Sold at 49¼@50¼c. Opened at 49⅞c to 49¾@49⅞c and sold at 50⅜c, to 49⅞c, to 50c, to 49¾c, to 49⅞c, to 49½@49⅝c, to 49⅝c, to 49½c, to 49⅝c, to 49¼c, and closed at 49¼c bid.

MAY Sold at 45⅜@46c Opened at 46c to 45¾@45⅞c, and sold at 45⅞c, to 46c, to 45⅝c, to 45¾c, to 45½@45⅝c, to 45⅝c, to 45½c, to 45⅝@45¾c, to 45⅜@45½c, to 45⅝c, to 45⅜c, to 45⅜@45½c, and closed at 45⅜@45½c.

JULY—Sold at 45⅛@45½c Opened at 45½c sold to 45⅛c, and closed at 45⅛c sellers

OATS—Were steadier early with other Grains, and advanced ⅛@¼c early, but declined ¾c and closed at the bottom at ½@⅝c decline from yesterday. The break was on "short" selling and liquidation. Trading in the aggregate was fair. Receipts 160 cars, with 194 cars expected Monday Withdrawals 36,300 bu. Seaboard clearances 2 100 bu. Cash sales 100,000 bu. Car lots to go to store were slow and ½c lower. No. 4 White at 28½c. No. 3 White at 30¼c. Standard at 31c and in store closed at 28½c

Oats by sample were in moderate demand with prices steady to ½c lower. Offerings were liberal. Sales on track and free on board: No 4 White at 27@29½c. No. 3 at 29c. No. 3 White at 29@31c Standard at 30½@31c. No. 2 at 29¼@29¾c No. 2 White at 31¼@32c. Billed through: No. 4 White at 29½c. No. 3 White at 30c. Standard at 30@30¼c. No. 2 at 29¼c. No. 2 White at 30c. At the river: No. 4 White at 27@29c. No. 3 White at 28@29¼c Standard at 29@30¼c No. 2 at 29¼c No. 2 White at 30c.

Future Deliveries of Contract Oats—Were stronger early and lower later.

OCTOBER—Slow; closed at 28½c.

DECEMBER—Sold at 28½@29¼c. Opened at 29c, sold to 29¼c, to 28½c at close.

MAY—Active. Sold at 30⅝@31⅝c. Opened at 31¼c, sold at 31⅝c, to 30⅝c at close.

RYE—The market to-day was quiet Buyers and sellers apart. Cash ruled firm and the fresh arrivals taken by millers and distillers. There were seven cars received, and there were no withdrawals. No exports from New York No 2 in store nominally 78@78½c, with sales of fresh arrivals free on board at 81@81¼c. Choice No 3 fresh receipts free on board sold at 79@80c.

Future Deliveries of No. 2 Rye—Quiet and firm. October 78½c asked. December 78½c bid. May 81c bid and 82c asked.

BARLEY—Low grade Barley or feed was in good demand It evidently is wanted for export. For local cars full late quotation was bid and few obtained. Billed through and cars river billed sold at prices which suggested some advance, but some held that better prices were obtained because the Barley was of better quality. The market for malting grades was steady. The offerings were smaller than has been customary of late on Saturday. Demand was only moderate. Inspected in 78 cars. No sales of Screenings reported; there was quotable a nominal range of 25@37c for poor to very choice Feed Barley local was 30½c bid by several buyers and very little secured, sales billed through reported at 36@36½c and at the river at 34@35¼c, mainly at the outside Malting, low grade, usually small berry, some heavy, but dirty, ranged at 37@38c. Clean, fair to good, at 39@43c, and large berry, heavy quotable at 45@48c, with fancy a shade over. For some very choice Barley to arrive 50c was to-day bid

SEEDS—There was little business done Demand and offerings in all parts of the market were exceedingly small. Prices for Flax took a slump but in Grass Seeds no price changes especially developed.

Timothy—The market was neglected to-day. Cash supply was moderate, not large, and Seed on the market did not all sell. Demand very tame. Some buyers gave the market hardly any attention January delivery sold sparingly at $2 75 and aside from this nothing was heard regarding the futures. Values all around without quotable change October was quotably $2 65, and March about $2 85. Country lots of fair to good quality quotably $2 25@2 35, high grade Seed about $2 40@2 45, and very choice to fancy $2 50@2 70. Rough, dirty, or badly hulled about $2 10@2 20, and low grade $1 75@2 10; inferior lower.

Flax—Nearly all of the advance gained by a gradual creeping up of prices during the week was lost in one swoop. To-day values exhibit 2c depreciation, and the decline was due to break in the Northwest. No business done aside from a car lot sale Three cars or 1,800 bu came in, none taken out. Minneapolis got 35 cars and Duluth 110 cars. No. 1 Northwestern salable at $1 16, and No. 1 at $1 09. Rejected, depending on quality, quotable at $1 06@1 14. For October bids reduced to $1 09 and for December to $1 11.

Clover—No change quotable. Some small lots on the market sold at $6 00@11 25 for low grade to good. October delivery quotable at $12 25. Contract spot Seed the same. Country lots common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 60.

Other Seeds—There were no offerings. Market inactive and nominal with prices as follows: Hungarian quotable at 80c@$1 00 for common to choice. Millet, common, was quotable at 75@80c for common to choice German at 80 @$1 00. Broom Corn Millet at 90c@$1 00, Siberian at 60@80c, and Early Fortune about 75@90c. Mustard about 75c@$1 00 Buckwheat, good milling spot Wheat, quoted at $1 30@1 35, but no quotations or bids to arrive.

HOG PRODUCTS—Trade was only fair in the market for Hog Products and the feeling in a general way was stonger. Offerings were moderate and the demand was fair Outside orders were rather light and local trading was moderate Prices ruled somewhat higher on all the leading articles, and the market closed rather steady. Trading chiefly in January and May contracts Hogs were in fair supply and prices lower. Fair supply is expected during the coming week. Receipts at the leading Western packing points were estimated at 27,000, compared with 41,000 one year ago. Foreign markets were quiet and easy, and Lard was quoted 3d lower Domestic markets were quiet and easy. Receipts of Products were good—of Lard and Meats about 27 cars Shipments were small—of Lard and Meats about 81 cars. Demand on shipping account was light and offerings were fair. Market was dull and prices favored buyers Sales somewhat limited.

Mess Pork—Trade was moderate in the market for Mess Pork, and the feeling was stronger in a general way. Offerings were rather light, and the demand was fairly good. Feeling was rather steady early, with little change in prices, but was stronger later, and prices advanced 17½@20c Advance fairly well supported to the close. Demand was light, and offerings were small. Cash lots quotable at $11 00@11 12½

OCTOBER—Called for moderately and offerings were fair. Sales were made at $10 77½@11 00. Opened at $10 80, sold to $10 77½, to $11 00, and closed steady.

NOVEMBER—Quiet, with small sales at $11 00; closed nominal at $11 05.

DECEMBER—Offerings were fair, and the demand was moderate Sales were made at $10 97½@11 15. Opened at $10 97½, sold to $11 15, and closed steady.

JANUARY—In good demand and offerings were fair. Sales were made at $12 25@12 45 Opened at $12 25, sold to $12 27½, to $12 25, to $12 45, to $12 40, to $12 45, to $12 40, and closed steady.

MAY—Offerings were fair and the demand was moderate Sales were made at $12 30@12 42½. Opened at $12 30, sold to $12 42½ to $12 37½, and closed steady

Lard—Only a small business was transacted in Lard, and the feeling was stronger Offerings were moderate, and the demand was only fair Foreign advices unfavorable to holders Market opened rather easy, and a few trades were made at 2½c decline. Later, the feeling was stronger, and prices rallied 10@12½c all around, and the market closed comparatively steady Demand on shipping account was limited, with moderate offerings Cash lots quotably steady at about October figures, closing at $7 32½@7 35 Loose lots in fair request, with very small offerings Prices quotable at 20c discount on October figures Leaf Lard was in fair demand, with very limited offerings Quotably steady at about $7 75 for very small lots. Neutral in light demand, with limited offerings Prices quotably steady at $9 12½@9 25 for No 1, and $8 62½@8 75 for No. 2.

OCTOBER—In fair request, with light offerings. Sales were made at $7 25@7 35. Opened at $7 25, sold to $7 35, and closed steady.

JANUARY—Offerings were not very large, and the demand was fair Sales were made at $7 15@7 25. Opened at $7 15, sold to $7 25, and closed steady

MAY—In fair request and offerings were moderate. Sales were made at $7 20@7 32½ Opened at $7 20, sold to $7 32½, and closed steady

Short Rib Sides—A fair business was transacted in Short Rib Sides, and the feeling was steadier. Offerings were not very large, and the demand was fair Deferred deliveries most in favor Market opened rather steady at Friday's closing figures, but a stronger feeling was developed later, and prices advanced 7½@10c, and the market closed rather steady around outside figures Shipping demand was moderate and offerings were rather light. Cash lots quotable at $7 62½@7 75, according to weight.

OCTOBER In moderate demand and offerings were limited Sales were made at $7 52½@7 55, and closed steady at $7 55.

JANUARY—In rather good request and offerings were moderate Sales were made at $6 40@6 52½ Opened at $6 42½ sold to $6 40@6 42½, to $6 50@6 52½ to $6 50, to $6 52½, to $6 50@6 52½, and closed steady

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO FRIDAY EVENING, October 14, 1904.

There has been no change in the general money market. Loans are being made at 4½ to 6 per cent. The urgency of the demand is less noticeable than a few weeks ago, but best informed bankers are looking for a more active call for funds and the hardening in interest rates. The movement of currency to the country is fair, and about at the usual average for this season. In New York rates were unsettled at 1½ to 2¼ on the Stock Exchange and 2¾ to 4½ per cent on time loans. Supplies of commercial paper in all the leading markets are not large and there is an active demand for it in Chicago at 4 to 5 per cent.

New York Exchange was steady at 15 to 30c discount per $1,000 and closed at 15c.

Foreign Exchange was firmer, with a fair supply of bills. Shippers' sixty day documentary sterling bills on London ranged at 482 to 482¼.

Cotton in New York was bought largely by the "bull" interests and "shorts." The New Orleans "bull" party was a buyer on the weak spots. Crop reports were more favorable, but farmers are slow to sell at less than 10c. Foreign and Southern buying was a factor, and prices moved irregularly within a good range. The close was at about the same prices as the previous week.

Local Securities were active and higher. Can shares were bought freely, furnishing a larger part of the trading than any other issues. The buying was scattered and for investment. The business of the company is picking up, and earnings are said to be more attractive to speculative buyers. A feature was the sharp advance in Swift shares due to buying by "shorts" and to rumors that the dividend might be increased, but it had a break later. There was also a revival of the reports that a consolidation is probable. Box Board shares dragged. Elevated shares were unsettled, declining early and reacting. Cable shares were neglected. Bonds were in active demand and firm.

In the New York Stock market there was an active and firmer market during the greater part of the week, with a higher average to all important stocks. Significant features were an easier money market and increased exports of domestic products and especially of Cotton. A better showing of the Grain crops in the West was also a help in increasing confidence of leading operators. There were important developments in the Western railway situation which cut a figure in shaping values. The increased interest in Union Pacific by the Standard Oil party was a factor. There were also intimations of a new plan whereby Missouri, Kansas and Texas can be materially benefitted. The leading "bull" interests were active on the buying side of many of the good stocks. Developments in the Iron and Steel trade were more favorable for future business and large gold receipts counted as one of the "bull" helps and offset the effect of any of the adverse influences. Foreigners were active on the buying side and the rises in most shares, while checked at times by heavy selling for profits, were quite marked. A rumor that Illinois Central is to increase its dividends led to good buying of its shares and a fair advance. At the close all the active list showed fair gains for the week. Total sales on the New York Stock Exchange for the week were 5,944,000 shares, compared with 5,113,000 shares the previous week, and 3,163,000 shares for the same time last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

In the mercantile trade there was a good business in all lines, with a confident feeling of the continuation of liberal buying for the next few months. The favorable weather of late has matured the Corn crop, so that it is larger than expected. This has had a great deal to do with restoring confidence among interior distributors, who have bought goods more freely. Merchandise traffic with the railroads is enlarging. Interior distributers who bought stocks early in the season were replenishing them to an extent greater than was expected thirty days ago. Cottons and woolens were steadily held. Clothing sales were interfered with somewhat by warm weather, but business to date is ahead of last year. Buying of shoes and leather was of good volume. Pig Iron advanced last week and business was somewhat checked, although of fair volume, consumers covering the requirements for the next six months. On extended deliveries $1 00 a ton advance is asked. The confidence with which consumers are covering requirements is a good feature, and shows an enlargement of consumption. Purchases of finished material were of moderate size, and specifications on old orders liberal. The Coal market is showing more activity, the West and the Northwest taking hold freely. Lumber and building materials are moving in increased volume. Supplies of white pine in the North are smaller than a year ago, and there is no pressure to sell. Good sales of groceries, drugs, chemicals, paints and oils were reported by distributers and prices were unchanged.

COMMERCIAL.

Some little improvement was noted in the volume of trade in commercial circles on the Chicago Board of Trade the past week. Speculative operations at the same time were largely of a professional character, though outside orders in Grain were somewhat more numerous. The Government crop report which came out this week no doubt formed a guide for many speculators in shaping their transactions and in some instances more decided views were manifested as to future values. Price changes from now on are likely to be governed to a considerable extent by the foreign demand and probable supplies. The movement, too, will be an important factor in shaping the course of the leading markets. Parties with capital, and who are speculatively inclined, should study existing conditions as reported from day to day at home and abroad in the DAILY TRADE BULLETIN. It is a well known fact that the Chicago Board of Trade is the largest Grain and Provision market in the world and every facility is afforded its patrons for prompt service. Fluctuations as established here are reflected in the leading markets in this country and in Europe. Speculators should therefore forward their orders here they can rest assured they will be executed in the open market.

Advices from abroad this week indicated that weather conditions were favorable for fall work and that plowing and seeding is progressing rapidly. A larger acreage than last year is expected in the United Kingdom, and the outlook on the Continent is very satisfactory. Beneficial rains fell in important growing districts. The movement of Grain is liberal and crop estimates are being raised in Russia. Seeding is taking place in India under favorable conditions. Argentine reports were somewhat conflicting, advices from private sources intimating the crop was making slow progress owing to poor tilling, while other advices claimed the outlook was excellent.

Weather conditions in the United States and Canada were seasonable the past week and work on the farms made good progress. Reports indicate that a large acreage is being devoted to Winter Wheat and the new plant doing well. Threshing returns from the Spring Wheat belt in many instances showed yields larger than expected, and the same was true in Manitoba. Reliable authorities estimated the Wheat yield in Manitoba 5,000,000 bu to 10,000,000 bu larger than last year. Temperatures through the Corn belt were favorable for maturing the crop. According to the report of the Department of Agriculture the yield of Spring Wheat is about 218,000,000 bu and of Winter Wheat 333,000,000 bu, or a total of 551,000,000 bu. The yield in the Northwest is placed at 154,000,000 bu, and the average yields per acre for the three States vary little from those the *Northwestern Miller* published last week. Revisions in the final report will probably increase the crop in Ohio and reduce the aggregate yield considerably in California. Yield of Corn approximately 2,328,000,000 bu. Yield in the surplus States 1,443,000,000 bu, compared with 1,271,000,000 bu in 1903. Yield of Oats largely increased—estimated at 883,500,000 bu. Indications point to a yield of 28,500,000 bu Rye, and 140,000,000 bu Barley.

The movement of Grain from the farms and interior elevators was liberal of Wheat and moderate of Corn and Oats. Barley is being marketed with considerable freedom and stocks at accumulating centers increasing. In the Northwest Spring Wheat receipts were liberal and stocks at distributing centers were materially enlarged. Through the West and Southwest the movement of Grain fell off which was due to some extent to farmers being busy with fall work. In the Central West the marketing of Grain was moderate, which was also the case through the South. On the Pacific Coast the movement was enlarged and large quantities of Wheat are headed for this side of the Rockies. The movement of Grain Eastward was fair. Exports were moderate. Acceptances of Wheat and Flour from abroad were small, but considerable new Corn was sold for December and January shipment. According to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was another increase in Wheat, Oats, Rye and Barley and a decrease in Corn. According to the monthly report of the DAILY TRADE BULLETIN the world's stock of Breadstuffs increased equal to 31,592,000 bu, compared with an increase of 13,825,000 bu during August, and an increase of 37,097,000 bu during September, 1903. The total is now 166,869,000 bu, against 140,944,000 bu same date in 1903.

There was a fair amount of interest centered about the leading speculative markets during the week just closed. Rather an unsettled feeling was prevalent and fluctuations were quite frequent within the limits established. Surrounding conditions apparently favored the "short" or selling side of the Grain markets the first of the week and lower prices ruled on all the principal articles. The Government report was the chief "bear" influence and induced quite general selling by local as well as outside "longs." At the declines established, the demand improved and a fair rally occurred. The strong position of the cash article and prospective movement helped both Wheat and Corn and Oats advanced in sympathy. Trading was only fair in the market for Hog Products and the feeling was weaker. Offerings were moderately free and credited to packers, and the demand was fair. Hogs were in fair supply and prices lower. Bulk of the business was in January and May contracts. Foreign markets were dull and easier, and Liverpool quotations were reduced. Packing of the West for the week was reported 5,000 ahead of last year and for the season 11,965,000, against 12,115,000 last year, a decrease of 150,000 Hogs.

The trade in cash Grain was again moderate the past week. Spot offerings were smaller for all descriptions, while the demand was fair. Wheat was in fair request on milling account, that is, Grain of choice quality. The off grades were a little slow. Corn was in brisk demand for car lots and cargoes. Higher prices ruled for all grades. The East was after yellow Corn and much better prices were obtainable for round or shipping lots. Oats, too, sold more readily. Rye was firm. Barley was in moderate demand and prices easy. Seeds were in better request. Prices were steady. Hog Products were in moderate request and offerings were fair. Sales were not very large and prices rather inclined to favor buyers. Hay was in fair demand for choice, while low grades were quiet. Cattle sold more readily and prices were firm. Sheep were marketed in large numbers and prices rather easier.

FREIGHTS—Eastern roads are getting short of cars, as general traffic is heavy. In the West there are enough for the present traffic, although there is no surplus. The tariff is as follows:

To—	From Chicago. Domestic.	From Chicago. Export.	From Miss. River. Domestic.	From Miss. River. Export.
Boston	19½	13½	22½	16
New York	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News	14½	11	16½	14½

Flour rates are 17½c domestic and 16c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 3c per bu on Wheat and Corn.

Ocean rates on Grain are steady with a fair demand for tonnage. Rates on Grain are 1d per bu from New York and 1d from Boston. Through rate on Wheat from Chicago to Liverpool is 6.27c per bu and Corn 6.15c. Flour 19c per 100 lbs and Provisions 35⅝c per 100 lbs.

Lake rates are steady, with a light demand for boats, at 1⅜c on Wheat and 1¼c on Corn to Buffalo.

FLOUR—The local market is reported in good shape and the city mills are all busy executing orders, both for prompt and future shipment. A very fair demand prevailed all the week and a fair percentage of the purchases were called speculative. The large consumers and jobbers of Flour were in the market for good sized amounts and greater confidence was apparently manifested in current values. The Eastern demand was fair and now and then a round lot was booked for export. Foreign buyers, however, do not take hold with any degree of freedom, and in many instances are inclined to keep out of the market. Considerable Flour was bought this week in the Southwest as well as the Northwest, and prices at times were somewhat irregular. Early there was a decline of 10@15c, but as the week advanced the loss was recovered. Millers were in the market for choice Wheat and in some quarters there is more disposition to stock up, many evidently anticipating a "bull" movement in futures. The output at the principal Spring Wheat points this week was 312,000 brls, compared with 190,000 for the corresponding week in 1903. Stocks in the United States and Canada as compiled by the DAILY TRADE BULLETIN showed an increase during September of 143,000 brls or 1,816,000 brls, compared with 1,677,000 brls on October 1, 1903. The week closed firm at the following prices:

MILLSTUFFS—The market ruled easier during the past week. The receipts have been larger, and the demand only moderate. Bran in bulk sold at $15 50@16 00 and in 100-lb sacks, sacks included, $16 50@17 25. Middlings in 200-lb sacks sold at $18 00, sacks included, and in 100-lb sacks at $19 50.

WINTER WHEAT—The market ruled easier during the past week, and prices receded slightly from the extreme top figures reached. There has not been any very rushing trade, just a moderate demand existing. Millers made moderate purchases and bought both some round lots out of store and the fresh arrival by sample on track. Both local and outside millers were buyers, but not at any time was the demand active. The break in the speculative market influenced by the Government crop report, which indicated an aggregate crop of Spring and Winter Wheat larger than had been estimated a month ago, made buyers a little more reserved in their buying, but this was overcome later and trading larger. Speculators secured a portion of the offerings and a part of the fresh arrivals were bought for the purpose of placing in store and sold against for future delivery. The inquiry centered in good to choice Wheat of the various grades, especially choice, while the poor Wheat ruled dull. Soft Wheat has been scarce. The stock of No. 2 Red in store was 297,000 bu, against 297,000 bu the previous week. For the week receipts were 255 cars, against 198 cars the previous week. There were withdrawn from public elevators 44,900 bu, and from private warehouses 138 cars and 166,500 bu. No 2 Red in store ranged at $1 10@1 12, down to $1 09¾@1 11, and up again to $1 14@1 17, while fresh arrivals free on board were quotable at $1 14@1 18. No. 3 Red fresh arrivals free on board was quotable at $1 09@1 16. No. 4 Red fresh receipts sold at 91c@$1 12. No Grade Red sold at 85c@$1 13. No. 2 Hard fresh arrivals free on board ranged at $1 09@1 15. No. 3 Hard fresh receipts free on board sold at 96c@$1 12 for poor to good, and at the river at 96c@$1 05½. No. 4 Hard sold free on board at 85c for poor, and at the river at 90c. No Grade Hard at the river sold at $1 03. No. 4 White sold free on board at $1 09@1 10.

SPRING WHEAT—Ruled comparatively steady during the past week for good and choice Wheat, but decidedly easier and some 5@10c lower for the very poor Wheat. There has been more business done the past week, the larger receipts admitting of an increased trade. There has been a good demand for the choice Wheat received, all the offerings being taken up readily by the different buyers, especially the hard variety, which brought a premium. Some very poor, shrunken light weight Wheat was received, and that was found to be slow sale, and could only be disposed of at a very large discount. The sales of No. 4 during the week showed a range of 5½c between the poor and the best. Millers wanted the choice Spring Wheat, especially the hard variety. The receipts for the week were 203 cars, against 112 cars the previous week. There were withdrawn from public elevators 6,175 bu and from private warehouses 12 cars. No. 1 Northern fresh arrivals free on board were quotably at $1 16@1 18. No. 2 Northern fresh arrivals free on board ranged at $1 08@1 16. No. 3 Spring fresh arrivals free on board ranged at $1 05@1 15 for ordinary to choice hard variety, with sales at the river at $1 07¼@1 10. No. 4 Spring sold at 56@75c for very poor and common light weight, at $1 00@1 07 for fair to good and at $1 05½@1 10 for hard variety, with sales at the river at 98c@1 05¼.

REGULAR WHEAT—Speculative operations in Wheat were of fair volume the past week, though chiefly local and of a professional character. The feeling manifested was unsettled and market sensitive and nervous at times, but the close showed the December 3⅜c higher, while May gained 2¼c. There was general selling the first of the week, liquidation being much in evidence, under which December touched $1 07⅜ and May $1 07⅝. Long property came out in large quantities, the Government report being the principal "bear" influence. The liberal receipts, favorable weather, and "bearish" domestic and foreign statistics were also governing factors. The Government report made the preliminary estimate of the average yield per acre of Spring Wheat 12.7 bu, subject to revision when the final estimate is made in December. The following table shows for each of the five principal Spring Wheat States the estimated average yield per acre this year and the final estimates of average yield in 1903 and 1902:

	October, 1904, bu.	Final, 1903, bu.	Final, 1902, bu.
Minnesota	12.8	13.1	13.9
North Dakota	11.8	12.7	15.9
South Dakota	9.3	13.8	12.2
Iowa	11.4	13.1	12.8
Washington	15.9	20.5	20.8
United States	12.7	14.0	14.7

The average quality of Spring Wheat was 75.7, as compared with 85.5 in 1903 and 87.7 in 1902. On an area of 16,736,500 acres this indicated a crop of 223,875,000 bu, which, with 329,811,000 bu Winter Wheat, made a total of 553,876,000 bu, as against 637,821,000 bu in 1903. These figures indicated about 21,000,000 bu more Wheat than one month ago, and naturally had a depressing effect on values. The *Orange Judd Farmer* claimed "that final thrashing returns did not materially change previous crop indications. They show a crop of approximately 550,000,000 bu. The average rate of yield is a fraction under 12 bu. The estimate for the Spring Wheat crop of Minnesota and the two Dakotas totals 162,000,000 bu, although the average quality is low." Winnipeg advices claimed it was generally conceded that the Manitoba crop was 5,000,000 to 10,000,000 bu greater than one year ago. World's shipments last week were heavy at 11,384,000 bu—Russia contributing 5,664,000 bu; previous week 10,416,000 bu, and 11,692,000 bu one year ago. Quantity on ocean passage increased 1,968,000 bu, and is now 40,120,000 bu, against 31,920,000 bu one year ago. Visible supply increased 3,221,000 bu; last year increased 1,570,000 bu. Total is now reported 20,797,000 bu, against 20,863,000 bu in 1903, and 26,111,000 bu in 1902. Local public stocks increased 1,400 bu, and are 2,318,000 bu, compared with 2,428,000 bu last year. Total local stocks now 4,413,000 bu, a decrease of 366,000 bu. Stock year ago 6,128,000 bu. Contract stocks increased 27,000 bu to 1,485,600 bu, against 1,880,900 bu in 1903. *Bradstreet's* available supply increased 9,200,000 bu, against 4,195,000 bu increase same week in 1903. English visible supply of Wheat decreased 84,000 bu, compared with an increase of 234,000 bu last week, and an increase of 1,696,000 bu the corresponding week last year. The following table shows the supplies of Breadstuffs afloat for Europe and in store in Europe and Argentina on the dates named:

	Oct. 1,'04. Bu.	Sept. 1,'04. Bu.	Oct. 1,'03. Bu.
Afloat for Europe	38,140,000	38,900,000	32,160,000
In store in Europe	54,930,000	40,450,000	45,740,000
In store-Argentina	3,325,000	3,016,000	1,512,000
In store-America	60,474,000	42,611,000	61,522,000
Total	156,869,000	124,977,000	140,934,000

The increase during September equalled 31,592,000 bu, compared with an increase of 13,825,000 bu during August, and an increase of 37,097,000 bu during September, 1903. Around $1 07½ for December and $1 07¾ for May "shorts" came in freely, and investment buying was more general, part of which was for the Southwest. Market acted oversold, and before the demand was satisfied December sold to $1 13 and May to $1 12½. Houses with Northwestern connection were on the buying side and "shorts" became frightened and hastened to cover. The strength in outside markets, better tone to the cash situation and estimate on the French crop were also "bull" factors. The French Minister of Agriculture estimated the crop in that country at 287,440,000 bu, against 363,040,000 bu last year, and 317,600,000 bu in 1902. The London *Statist* of Oct. 1 had the following "bullish" figures on the world's Wheat situation: "It estimated the requirements of European countries for the current year at 538,000,000 bu, and estimated supplies of exporting countries at 421,200,000 bu. It estimated contributions from the United States and Canada at 66,000,000 bu. It also estimated India 29,400,000 bu in excess of last year, and Australia at same as last year, but added that in neither of these two latter countries are crop prospects as good as a year ago. It estimated Argentina at same as last year. Primary receipts this week were liberal, and between June 27 and October 10 aggregate 74,059,000 bu, compared with 68,960,000 bu in 1903, and 98,411,000 bu in 1902. Exports this week were 1,357,000 bu, making only 20,620,000 bu since July 1, against 45,608,000 bu for the same period last year. Argentine shipments were moderate at 752,000 bu, which makes a total of 83,973,000 bu since January 1, compared with 59,372,000 bu one year ago. The visible there was reported 2,576,000 bu, against 3,016,000 bu last week, and 1,472,000 bu one year ago. Crop reports were somewhat conflicting. Private cables claimed the plant was not doing well, while others stated prospects were excellent. The area of the growing Argentine Wheat crop was officially estimated at 20 per cent larger than last year, or 12,271,404 acres, against 10,226,170 in 1903, 8,889,780 in 1902, and 6,030,130 acres in 1901. European crop news was more favorable. Seeding is well under way in Great Britain, and a larger area than last year indicated. Farmers in France were reported busy plowing and seeding, and weather conditions in Germany, Austria-Hungary and Roumania continue favorable for fall work. The movement in Russia is liberal, and indications are for continued large exports. Reports from India as to crop prospects were favorable. The first sales of Manitoba Wheat to come this side the Canadian line were made on Friday. Duluth elevators made the purchase.

CORN—A fair speculative trade was witnessed under this head the past week and the feeling prevalent was rather unsettled. The closing prices showed December ½c higher, while May gained ¼@⅜c. The early tone was weak and lower prices were established, December selling off to 47½c and May to 45⅛@45¼c. At the decline the demand became more general and the situation turned stronger, December rallying to 50½c and May to 46⅝c. Liquidation was general the opening days, "long" Corn coming out freely, a good many stop-loss orders being uncovered on the break. The Government report was the chief "bear" incentive. The monthly report of the Chief of the Bureau of Statistics of the Department of Agriculture showed the condition of Corn on Oct. 1 to have been 83.9, as compared with 84.0 one month ago, 80.0 on Oct. 1, 1903, 79.6 at the corresponding date in 1902, and a ten-year average of 78.3. On an area of 91,894,000 acres, this indicates a crop of 2,328,512,000 bu, against 2,244,176,000 bu last year. The following table exhibits the estimated yield of Corn for 1904, as indicated by the October report of the Department of Agriculture, in what are known as the Corn surplus States, compared with the yield in the past two years:

	1904, bu.	1903, bu.	1902, bu.
Ohio	92,000,000	88,000,000	122,000,000
Indiana	137,000,000	143,000,000	171,000,000
Illinois	308,000,000	264,000,000	372,000,000
Missouri	163,000,000	203,000,000	264,000,000
Kansas	176,000,000	172,000,000	223,000,000
Iowa	288,000,000	229,000,000	298,000,000
Nebraska	279,000,000	172,000,000	253,000,000
Total	1,443,000,000	1,271,000,000	1,703,000,000

The above figures were looked upon as "bearish" in view of the "bullish" statistics compiled by private individuals, whose estimates of 1,800,000,000 bu to 1,900,000,000 bu had heretofore received some consideration. The *Orange Judd Farmer* stated that complete returns on Corn showed a condition on Oct. 1 of 82.4, against 82.7 on Sept. 1. This indicated a crop of slightly above 2,500,000,000 bu, or practically the same as last year. Some frost damage was reported in Ohio, Michigan and Wisconsin, but elsewhere the crop matured in fair shape and the average quality is better than in 1903. At the decline and around 47½c for December and 45⅛c for May "shorts" covered freely, particularly the December, the premium over May widening out again to 4⅛c. The more urgent and general demand for the cash article and rapidly decreasing stocks of old Corn, coupled with the light local receipts, caused "shorts" some uneasiness. Buying at the decline, which was credited to Eastern "longs," also induced interests with outstanding contracts in December to provide for the same. Routine statistics were interpreted as moderately "bullish." World's shipments were 4,433,000 bu, against 3,976,000 bu the previous week and 3,924,000 bu one year ago. The quantity on ocean passage decreased 88[illegible] bu and is now 20,142,000 bu, against 18,942,000 bu [illegible]. The visible decreased 1,424,000 bu, against [illegible] bu decrease one year ago. Total is now [illegible] bu, against 8,398,000 bu in 1903 and 2,54[illegible] in 1902. Local public stocks decreased 162,0[illegible] and are now 2,031,000 bu, against 1,718,000 bu one year ago. Local stocks in all positions 4,350,000 bu, a decrease of 974,000 bu. Stock a year ago, 5,0[illegible]. Contract stocks decreased 106,000 bu and are now 2,018,000 bu; last year, 1,450,000 bu. *Bradstreet's* [illegible] decreased 2,415,000 bu; last year decreased [illegible] bu. Receipts this week were limited to [illegible] cars, against 718 cars five days last week and 1,5[illegible] one year ago. The outward movement was [illegible] and indications are for a further reduction in local supplies this week. Relatively higher prices ruled for cargoes and 3⅜c over May c. i. f. Buffalo was paid for No 2 Corn. The foreign demand was improved and considerable new Corn was [illegible] at the Atlantic seaboard, as well as at Gulf ports for December and January shipment. [illegible] were moderate at 652,000 bu for the week and since July 1 aggregate 9,353,000 bu, against 15,2[illegible] for the same period in 1903. Receipts at primary markets were much smaller than a year ago. Argentine shipments this week were again quite liberal at 3,360,000 bu, and since Jan. 1 total 70,3[illegible],000 bu, against 59,485,000 bu for the corresponding time last year. The visible supply there is now 4,773,000 bu, against 5,400,000 bu last week and 8,632,000 bu one year ago.

OATS—Were actively traded in and prices irregular, selling to a lower level, December touching 28⅝c and May 30⅝c. A fair rally followed, and the close was at 29c for the December and 31⅛c for the May. Trading was moderate. The decline was due to liquidation by "longs" and active "short" selling induced by continued increasing stocks, which are now the largest in record. *Bradstreet's* available supply increased 2,671,000 bu and is 34,224,000 bu, compared with 11,87[illegible] bu last year. The visible supply is 22,53[illegible] bu, against 6,821,000 bu last year. Stocks in Chicago are 10,811,000 bu, an increase of 195,000 bu last week. Of contract they are 3,228,000 bu, an increase of 120,000 bu last week. Country offerings are smaller and receipts are only fair. The decline developed a better Eastern demand, and larger sales were made at ¼c under to May price c. i. f. Buffalo for Standard. The general interior shipping demand has improved, as prices are down to a point where consumers are stocking up more readily. Arrivals for the week were 934 cars, against [illegible] car the previous week and 1,220 cars last year. In the Northwest arrivals were liberal, although somewhat smaller. Seaboard clearances were 64,000 bu, against 132,000 bu the previous week and 159,000 bu last year. On the decline a feature of the trading was the active buying by cash houses against sales for shipment and to take off hedges. Country acceptances are smaller, which is forcing more buying of stored lots. Most of the stock in public houses here has been sold against for May and is not available for shipment at present prices.

RYE—The market has been rather steady during the past week. There has been more doing made possible by the larger receipts. The demand has been good, the various interests buying. Both cash and futures were inquired for and the market at times has acted somewhat independent of the other Grains markets. The fresh receipts were taken by the manufacturing industries, millers and distillers, and speculators also secured a part of the receipts, which showed some increase over the arrivals of the previous week. The quality of the receipts has graded from No. 2 to No Grade—chiefly No. 2. The receipts for the week aggregated 60 cars, against 30 cars the previous week. There were withdrawn from public elevators 33,000 bu and from private warehouses none. The visible supply increased 39,000 bu and was reported at 1,499,000 bu, against 958,000 bu a year ago. Local stock in store was 685,000 bu and a year ago was 451,050 bu. No. 2 in store ranged nominally 77½@78c; fresh receipts free on board sold at 80@81c to 78½@80c up to 78@81c, prices depending somewhat on the quality, billed through sold at 77@79½c and at the river at 76½@77c. No. 3 fresh receipts free on board sold at 76@78c and billed through at 76c. No. 4 fresh receipts free on board sold at 73@78c and billed through at 77c. No Grade sold at 67½@74c. For future deliveries of No. 2 a moderate business was transacted. October was nominally 77[illegible]. December sold at 78@79c. May sold at 80⅝@[illegible].

BARLEY—There was a heavy market for low grades. Prices sustained about 1c decline. A very liberal part of the supply consisted of small berry or dirty Dakota Barley; some Iowa of the same kind. Maltsters showed an indifference toward the Dakota. A good deal of the Barley was a little green when cut. It makes a hard flinty malt, and maltsters really prefer a larger berry from other quarters, even if the color is not so good. There existed a good export demand for feed and a grade above, and this took enough to relieve to market. A decline in the price of Oats caused bids for the feed and other export Barley to be reduced 1c. Steadiness of feed Barley early gave some support to low grade and so when feed settled the other went with it. At the close feed recovered ½c from the early decline, but poor Dakota Barley remained dull; other and better malting goods at the close ruled firm. Maltsters were buying irregularly. Some would buy considerable one day and little the next and so the demand kept changing about. Good weight plump clean sound Barley was at all times fair sale. There was not much of it and ruled steady. When of bright color it was reasonably strong, there was very little of that. Some choice Barley sold to arrive, still there was little such business. Receivers have had a good deal to contend with. There was an established price for feed, and when it came to malting, of the common to fair grade, the bids were so little above feed price that it did not [illegible] right. Sellers also knew that a good deal of Barley selling was making losses to their shippers and they were disappointed because this could [illegible] they could not avoid or overcome. Receipts for the week were 572 cars, compared with 565 cars a week and 712 cars two weeks ago. No output from regular houses; there have been none for two weeks.

Carlot receipts remained small. There also was a very moderate output. A liberal addition was made to the shipping stocks, 3,222 bu, principally in Duluth decreased 80,112 bu, and our own stock was ...t materially changed. Buckwheat—A little new Buckwheat was shown the past week; merely a sample or two, and it was for the most part of poor quality. Quotable at ...spot, good milling Wheat, $1.20@1.35 was given as nominal value. No one would venture a value on Wheat to arrive.

Hay—The receipts for the week were 4,683 tons, against 3,760 tons for the previous week. Shipments for the week were 168 tons, against 140 tons; for the corresponding week last year were considerably larger than during the previous weeks and the bulk consisted of medium and low grades. The demand for this class of Hay was extremely light and dealers experienced great difficulty in disposing of consignments more especially Prairie Hay. For strictly choice grades there was a fair call throughout the week and the market ruled firm. The offerings were of poor quality and exhibit no material change. Quotations at the close ranged as follows: Choice Timothy, $13@13.50; No. 1 Timothy, $11.5.@11.50; No. 2 Timothy, $9.00@10.00; No. 3 Timothy, $8.00@9.00; Clover, Prairie, $10.50@11.00; No. 1 Prairie, $9.00@ ...; No. 2 Prairie, $8.00@8.50; No. 3 Prairie, $6.00@ ...; No. 4 Prairie, $5.00@5.50. Inside prices for Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $7.00@13.50 for Timothy, $5.00@7.00 for Slate, and $5.00@11.50 for Iowa and Kansas Prairie Hay. Rye Straw sold at $5.00@5.50. Wheat straw at $6.50, and Oat Straw at $4.50@5.00.

COOPERAGE—Trade in Cooperage during the past week was somewhat limited—at least few sales were reported. Local packers were not inclined to purchase, and outside orders were light. Offerings were moderate. Ash Pork Barrels were quiet and prices nominally unchanged. Oak Pork barrels were quiet and prices were nominally unchanged. Last Tierces were in light request and prices quoted at $1.52@1.57½. Iron-bound Lard Tierces were in moderate demand at $1.70@1.80 for six-hoop and $1.25@1.27½ for eight-hoop. Oleo Tierces were quiet, and prices were nominal at $1.25@1.27½.

HIDES—There was a fair increase in the supply of Hogs during the past week, and the quality was fairly good. The market was dull and dragging throughout the week. Packers accepted a good proportion of the offerings, as shipping was provided for moderate orders from the Eastern markets. On the whole range prices declined 5@5.30c, and the market closed rather easy at the reduction. Sales were reported as follows: 80 at $5.10; 60 for light, $5.10@5.15; 60 for rough packing, $5.10@5.20 for mixed, and $5.15@5.30 for heavy packing and shipping lots, with the bulk of the sales at $5.20@5.25. Within a range of $5.2.@6.00 for fair to good averages. At the close about 10,000 Hogs remained in the pens unsold. Pigs were in fair supply, and rather good demand, and prices ruled steady to 5c decline, according to size and condition. Supply at other large Western packing points were fairly liberal, and the quality rather good.

PACKING—With a larger supply of Hogs and a material reduction in prices, packers were inclined to purchase. Hogs a little more freely. Manufacture of Products somewhat enlarged and particulars of a wider range of prices. "Regular" action is now open. Mess Pork neglected. Other cuts of Pork made in limited quantities. Lard produced in fair quantities and average yield rather good. Only a moderate price was placed on the tanks. Domestic cuts of Hams made in larger quantities, but only a small proportion delivered from the block. Shinned Hams made in fair quantities, and the bulk packed by manufacturers. Foreign cuts of Hams neglected. Shoulders made sparingly. Picnic Hams cut in fair quantities, and only a small proportion delivered from the block. Long Clear Sides made in small quantities. Extra Long Clear Sides neglected. Short Clear Sides met with a little more favor to provide for export order. Extra Short Clear Sides made sparingly. Short Rib Sides made only moderately. Extra Short Rib Sides made in limited quantities. Rough Sides made in fair quantities and chiefly of medium averages. Backs and Bellies made in moderate quantities. Loins cut in fair quantities for current requirements. Foreign fancy and special cuts of Meats cut in limited quantities.

PROVISIONS—A fairly good speculative business was reported in Hog Products during the past week, and the feeling was unsettled and rather weak. Hogs were in good supply, and receipts were heavy, and this fact, coupled with prospects of a good Corn crop, encouraged speculators and packers to sell the deferred delivery. Parties who were "long" on the near deliveries became a little weary of their holdings and sold a fair quantities. "Longs" accepted fair quantities on the receding scale, as some parties anticipate a moderate supply of Hogs during the early part of the winter packing season. Trade quiet generally in January and May contracts. Supplies of the speculative articles are gradually decreasing, and manufacture of Products is on a moderate scale. Foreign markets were weak and unsettled, and Liverpool quotations were materially reduced on all descriptions. Domestic markets were rather quiet, and prices inclined in favor of buyers. The receipts of Products from the interior were quite liberal, as packers were disposed to sell Products rather freely, while the shipments were moderately large, with a fair proportion going for foreign markets. Deliveries on October contracts were quite liberal—mainly of Lard and Short Rib Sides. During the early part of the week the feeling was rather easy, considerable miscellaneous selling by manufacturers and "longs", and prices started in a downward turn, when certain figures were reached. "Stop loss orders" came out and checked the decline, and the decline in prices. Around inside figures "shorts" were disposed to purchase fair quantities, while the offerings were fairly liberal, and after feeling was decidedly easy. Prices ruled moderately all around, but toward the close settled back again and the market in a general way closed rather steady. In the shipping branch of the trade there was less business transacted. Offerings were fair, while the demand was considerably lighter. Exports are virtually out of the market, as the cut-quarters for the foreign trade are held above their views. Orders from the domestic trade were moderate, and only sufficient to meet current wants. Stocks of all kinds are fair. Packers are not very large in the aggregate, and prices ruled lower on all the principal descriptions

Pork—Rather a good speculative business was transacted during the week, and the feeling was dull closed, and the feeling was weak during the greater portion of the time. Offerings were quite free of the deferred deliveries, while the demand was only fair. Packers were not very large in the aggregate, and prices ruled lower on all the principal descriptions

Lard—Rather a good business was reported in the Lard market during the past week, and an unsettled feeling prevailed. Offerings were quite free, and the demand was only fair. Packers were moderately large, and manufacture only fair. Stocks on hand gradually decreasing. Deliveries on October contracts were quite free—about 15,000 tcs. Prices ruled lower, closing at 7@7.05c for January and May contracts. Foreign advices were unfavorable to holders. Exports quite large. Market opened with some pressure to sell, and prices ruled lower, and closed steady. Prices irregularly receded 10@20c on the latter on October. At the reduction, the demand improved, partially credited to "shorts," and prices ruled steadier and closed at a partial 15@20c, but settled back again 12½@15c, and market closed comparatively steady. Demand on shipping account was fairly good and offerings were not very large. Some round lots were accepted by exporters. Prices generally ranged at 25c premium to Oct. bur figures. Refined was in fair request for export, but prices were not made public. Offerings were in good request, but the offerings were meager. Holders firm in their views. Prices quotable at 20c discount on October figures.

Leaf Lard was in rather good demand, and the offerings were fairly light. Small trades were made at $7.15@7.20, and the market closed rather steady at $7.75 Neutral was called for moderately, with no particular pressure to sell. Feeling was not strong, and prices were lower, closing at 39 1½@39 ¾ for No. 1, and 38 ¾@38 ¾ for No 2.

Short Rib Sides Rather a good business was reported in Short Rib Sides during the past week, and the feeling was easier. Offerings were rather free of the deferred deliveries by manufacturers, while "longs" appeared to be anxious to unload the near deliveries. Demand was only fair, and prices credited to "shorts" at the receding scale of prices Stocks on hand being gradually reduced. Manufacture is moderate. Early in the week there was considerable pressure to sell, while the demand was on a moderate scale. Prices irregularly receded 7½@8c on the near and 15@30c on the deferred deliveries. Later the demand improved, while the offerings were moderate, and a steadier feeling prevailed. Prices rallied 35@40c on the near and 12½@30c on the deferred deliveries, but receded again 15@20c, and the market closed rather steady. Fair deliveries were made on October contracts. The demand on shipping account was moderate and offerings were only very free. At the close, lots were quotable at $7.50@7 62½, according to weight.

Green Meats—Only a limited business was reported in Green Meats during the past week, and the feeling was easier. Offerings were rather good in a quiet way, and the demand was only moderate. Local curers were a little backward about purchasing, and outside orders were small. A little trading rumored for future delivery, but no sales made public. Prices were a little more favorable to buyers, and 14@16 lb regular Hams for November, December, and January were quotable at 8¾@8¾c, and 8¾@9c for Shinned Hams. Demand for Hams was light, and prices were quotable 1@2c lower. Shinned Hams were in small request, and prices ruled ¼@½c lower. Shoulders were in light request, and prices were about ½c lower Hams were in a small demand, and prices ruled ¼@½c lower. Bellies in small demand, and prices with material change.

Pickled Meats Trade was only fair in the market for Pickled Meats during the past week, and the feeling was comparatively easy. Offerings were moderately free in a quiet way, while the demand was only fair and for moderate quantities. Foreign advices were unfavorable to holders, and exports were small. Merchants in the distributing markets a little slow to purchase. Holders inclined to grant slight concessions, and supplies of all kinds are good. Trade only fair to rather slow sale Hams were in moderate request with fair offerings, and prices ruled about ½c lower. Skinned Hams were rather slow sale and ¼c decline. Shoulders were in moderate and prices favored buyers. Picnic Hams were in rather light demand and prices were about ½c lower Bellies called for sparingly, and prices were without material change.

Dry Salted Meats—Less interest was manifested in the market for Dry Salted Meats during the past week, partially due to the unsettled feeling in the speculative market. Offerings were not very free, and the demand from all sources was only on a moderate scale. Foreign markets were dull and prices ruled considerably lower on all descriptions. Orders from that quarter were small. Supplies of all kinds only fair, but manufacturers not very anxious to unload their stocks. Inquiry from the home trade was fair, but not for very large quantities. Foreign cuts of Hams were quiet and prices favored buyers. Shoulders were in small request, and prices were about ½c material change Long Clear Sides were inactive, and prices nominally ¼@½c lower. Extra Long Clear Sides were neglected, and prices rather slow sale. Short Clear Sides were larger sales and prices ruled ¼@½c lower bids from abroad decidedly below the views of sellers Extra Short Clear Sides were in moderate request, with fair offerings, and prices ruled lower—closing at $7 55@7 60. Extra Short Rib Sides in fair demand so provide for small orders and prices ruled lower, closing at $7 45@7 50 Short Rib Sides in moderate request and offerings were fair. Prices ruled lower, closing at $7 50@7 62½ Plates were in only fair request and prices ruled comparatively easy Backs were in moderate demand with fair offerings, and prices ruled with material change -rather inclined in favor of buyers. Bellies were in fair demand to provide for small orders, and prices ruled steady. Jowls in good request and offerings were in small request and prices inclined in favor of buyers.

Smoked Meats—Trade was fair in the market for Smoked Meats during the past week, and the feeling was easier Offerings were moderately free, and the demand was somewhat limited. Concessions in prices encouraged a little purchasing by merchants of distributing points. Stocks fairly liberal. Hams were in moderate request and slow sale at ½@¾c decline. Skinned Hams were in rather light demand and dull at ¼c decline. Shoulders were in small request and prices ¼@½c lower. Picnic Hams were in moderate demand and prices ruled ¼@½c lower Sides of all kinds sold slowly and prices were reduced ¼@¾c all around. Breakfast Bacon in moderate demand and prices favored buyers.

Beef Products—Trade was only moderate in the market for Beef Products during the past week, and the feeling was not quite so firm. Offerings were a trifle larger in a general way, while the demand was only fair. Cattle were in rather good supply, and prices ruled higher, especially on the better qualities Foreign markets were comparatively steady Domestic trade was moderate. Shipments of Dressed Beef were quite large. Beef Hams were in moderate request and prices ruled steady. Extra Mess Beef in small demand and prices were unchanged. Plate Beef in small demand and prices ruled steady. Extra Plate Beef in light request and prices were a trifle lower. Tallow was in moderate demand, with a little pressure to sell, and the feeling was easier Prices declined about ¼@¾c on all grades. Oleo-Stearine was in fair request early, and held steadily, but toward the close was rather easy and declined ¼@¾c closing at ¾@7¾c.

Greases—Trade was moderate in the market for Greases during the past week, and the feeling was

comparatively easy. Offerings were fair, while the demand was rather light. Prices ruled about ¼@½c lower, especially on the common qualities.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 32 to 52; rains light, but general in Manitoba. Northwest—Temperature 38 to 52; partly cloudy; scattered rains. West—Temperature 42 to 58; cloudy. Southwest—Temperature 50 to 60; clear. Ohio Valley—Temperature 44 to 50; generally clear.

ITEMS OF GENERAL INTEREST.

Fire, Thursday, at Akron, Ohio, destroyed property to the extent of $100,000.

The rate of discount of the Bank of Bombay, India, has been raised from 3 to 4 per cent.

Profits of the Pullman Company for the year ended July 31, 1904, applicable to dividends were $9,681,601, equal to 13.06 per cent on the capital stock.

The United States Graphite Company has declared the first quarterly dividend of 2½ per cent, payable Oct. 25. Books close Oct. 15 and reopen Oct. 25.

Fire Thursday, destroyed three buildings of the plant of the United Zinc and Chemical Company at Argentine, Kan., causing a loss estimated at $100,000.

Business failures in the United States and Canada for the past week were 214, against 247 the previous week and 220 for the corresponding week last year.

The bag factory of William Scull & Co., Camden, N. J., wholesale dealers in Coffee, Teas and Spices, was destroyed by fire Thursday. The loss is estimated at $100,000.

The John Bowman Hardware and Coal Company, London, Ont., has gone into the hands of a receiver, with reported liabilities of about $100,000 and assets of about $75,000.

Bank Clearings of the leading financial centers of the United States for the past week aggregated $2,436,539,424, an increase of 26.7 per cent, compared with the corresponding week last year.

Secretary Hester of the New Orleans Cotton Exchange makes the amount of Cotton brought into sight for the week 524,659 bales, against 391,516 bales last year; 416,340 bales in 1902, and 432,718 bales in 1901.

The Pere Marquette Railroad has demanded a differential between Chicago and Detroit equal to that enjoyed by the Grand Trunk. The Michigan Central, which always is opposed to differentials, is opposing the claim.

The *Modern Miller* says: "Too much rain in the Southeast and the South and drouth conditions in the Southwest have delayed seeding of Winter Wheat to some extent, yet on the whole, fall farm work is progressing quite favorably."

New York bankers have purchased $8,300,000 Central Pacific 4 per cent bonds, guaranteed by the Southern Pacific, and secured by a first mortgage on the Lucien cutoff, which now forms part of the main line of the Central Pacific.

The State Commissioner of Banking has closed the Bank of Plainfield, Wis. It is capitalized at $5,000 and has deposits amounting to about $60,000. The cashier says the institution became embarrassed through injudicious investment in commercial paper.

The Northern Pacific Railroad Company has made a rate of 52½c per 100 lbs on Wheat from points on the Spokane and Palouse branch and the Washington and Columbia River Railroad to East St. Louis and other common points on the line. This is a reduction of 2½c per 100 lbs.

Coupons due Nov. 1 from the Union Pacific Railroad Company first lien convertible 4 per cent bonds will be paid at maturity upon presentation at the office of the treasurer of the company in New York. Packages of coupons may be left for verification on and after Oct. 24. Books for registration and transfer will close Oct. 22 and reopen Nov. 2.

A preliminary statement of the Great Northern Railroad Company, showing operations of the entire system of the company for the year ended June 30 last, reports gross earnings of $41,414 806, a decrease of $722,684, compared with the previous year. Net earnings are given as $18,518,656, a decrease of $1,209,663. The total income of $19,492,535 is $1,556,855 below that of 1903.

The Chicago *Inter Ocean* says: "With the purchase of Manitoba Wheat at Duluth, duty paid, comes a report from North Dakota that there is wholesale smuggling of Wheat from across the international line into that State. There is no apparent difference between the Wheat grown in the United States and that raised across the border, and those who are able to get it on this side of the line without a duty of 25c have a good thing."

It is reported that the earnings of the Chicago Title and Trust Company, Chicago, this year will be fully $100,000 larger than in 1903. Last year the company earned practically $500,000, or 10 per cent on its capital stock. An addition of $100,000 to that amount would make the earnings this year 12 per cent on the stock, or twice the dividend paid. The stock has advanced sharply in the market recently on buying reported to be for directors of the company.

The secretary of the Northwestern Elevated Railroad, Chicago, Friday, turned over to the city collector a check for $10,6 8, being 10 per cent compensation figured on the gross earnings of the road from Jan. 1 to June 30, less $125,000 bond interest. The check indicates gross earnings by the Union Elevated during the first six months of this year of $291,588. This compares with gross earnings during the same period of 1903 of $284,258, and during 1902 of $261 215.

Broomhall's Liverpool cable says "Wheat opened ¼d lower on private Argentine advices of warmer weather. Later, December steadied ¼d and March ⅛d on scarcity of sellers, but further easiness followed on the larger world's shipments and early advance was lost. Corn opened unchanged, but advanced ⅛d on better demand for Corn parcels."

In the New York Stock market there was one of the largest day's business on record. Sales up to 10 o'clock were 1,253,000 shares. It was a "bull" market with the largest professional trading in two years The most important individual transaction was the purchase of 25,000 shares. London bought heavily Prices advanced materially, but reacted under profit taking, and a number of shares closed lower Missouri Pacific was a feature and gained 1⅝. Northwestern gained 2 points. Steel preferred advanced ⅞ and reacted 1 point. Coal shares were higher Money 2 per cent.

The Nashville correspondent of the *Modern Miller* says "The annual meeting of the Southeastern Millers' Association was held in Nashville Tenn., Oct 11, and was attended by thirty millers of Tennessee, Kentucky, Indiana and Georgia. The main feature of the meeting was a canvass of the Wheat situation, which showed that the millers present have from two to four times as much Wheat as at a corresponding time last year, the aggregate for those present amounting to 4 00 000 bu Most millers had a supply to last about two months, but reported that the principal Wheat sections had been swept clean of supplies and it will be hard to replace the present stocks when they are used up Most millers were decidedly 'bullish' on the situation

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The demand is fair and market is firm as recently quoted

WINTER WHEAT—The market was relatively steady for good milling Wheat, with sales of 40,000 bu mixed lots, besides the sales of car lots Demand good. No 2 Red in store nominally $1 15@1 17 and fresh arrivals free on board quotably $1 17@1 18 No 2 Red fresh arrivals free on board quotably $1 1 @1 15, with a sale at $1 13 No 1 Red fresh receipts free on board sold at $1 10@1 14, and billed through at $1 11¾ No 2 Hard fresh receipts to go to store sold at $1 15, and ranged free on board at $1 11@1 15 No 3 Hard fresh receipts free on board quotably $1 04@1 12 and sold at the river at $1 11. No 4 Hard sold at $1 05

SPRING WHEAT—Ruled relatively firm for choice milling Wheat, and very dull for the very poor Wheat—no one caring to buy the latter. Good milling Wheat in good demand No 1 Northern fresh receipts free on board nominally about $1 20 No. 2 Northern nominally $1 13@1 18 No 3 Spring fresh arrivals free on board sold at $1 15@1 17 for choice hard variety and ranged down to $1 05 for ordinary No. 4 Spring fresh receipts free on board sold at $1 02@1 06 for good, and quotably down to 60@75c for poor, with a sale at the river at 99c.

REGULAR WHEAT—A very fair trade, with the feeling somewhat unsettled, the close being 1⅛c for December, and the May also lost 1⅛c Sentiment at the start was "bearish," influenced principally by the fine weather, large receipts and foreign statistics. The lower cables were also a factor. Commission houses sold freely and support was indifferent and confined chiefly to local professionals. "Longs" sold December, which weakened the May. At the decline "shorts" and the Southwest bought and the situation became stronger but the upturn failed to hold. World's shipments, 11,368,000 bu; previous week, 11,281,000 bu; one year ago 11,904,000 bu. The quantity on ocean passage decreased 56 000 bu and is now 40,064,000 bu, against 31,632 000 bu one year ago. The visible supply increased 2,622 000 bu, against 1,427,000 bu increase same week in 1903. Total is now 23 419 000 bu, against 22 295,000 bu in 1903 and 27,654,000 bu in 1902 Local public stocks increased 47,000 bu, and are now 2,385 000 bu against 2 121,000 bu same date in 1903 Primary receipts were 536,000 bu larger than a year ago and Northwest cars 176 greater Liverpool quoted spot steady to ½d higher and futures ⅛d lower. Stocks there 4,215,000 bu, increased 218,000 bu last week. Stock one year ago 2,834,000 bu. London came ⅛@¼d lower, Paris advanced ¼@⅜c and Antwerp was unchanged Generally fair weather was predicted by the signal service Duluth reported further sales of Manitoba Wheat Saturday, duty paid, and predicted large importations English farmers' deliveries were 360,000 bu and the price, 92c, was ¾c higher than a week ago. The English visible increased 1,278,000 bu. Kansas City and St Louis received 392,000 bu, against 192,000 bu one year ago. St. Louis reported the sale of 5,000 bu No. 2 Red at $1 21 Exports were small. New York early in the session reported 100,000 bu taken for export Receipts at Duluth 215 cars, at Minneapolis 779 cars, total of 994 cars, against 948 cars Saturday, 1,200 cars a week ago, 818 cars last year. Local receipts included 31 cars Winter, 27 cars Spring and 15 cars mixed, a total of 73 cars, against 11 cars last year. Included in above was none of contract grade There were 28 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 139 cars. Withdrawals were 84,000 bu Receipts at Western points were 1,617,934 bu, against 1,051,753 bu last year. At Eastern points 46,539 bu, against 226 451 last year. Shipments from Western points 710 709 bu, against 400,535 last year and from Eastern points no bu, against 273 103 bu last year. Shipments of Flour were 15,724 brls. Exports of Wheat in Flour were equal to 75 258 bu

Future Deliveries of Regular Wheat—Fair trade at lower prices.

CORN—Just a fair trade and moderately active market, with the close 1⅛@1¼c lower for December, while May lost ½c. The chief feature early was the weakness in December, due more to lack of demand than to heavy offerings, and the premium over the May narrowed to about 2⅜c The fine weather, present and prospective, appeared to be the principal "bear" influence Crop reports were generally favorable and Galveston reported the Corn arriving there grading No. 2. At the decline "shorts" bought the May freely and the situation turned steadier. World's shipments were 4 081 000 bu; previous week 4,438 000 bu, and 3,870,000 bu one year ago The quantity on ocean passage decreased 418,000 bu, to 19,724,000 bu, against 17,624,000 bu one year ago The visible supply decreased 356,000 bu, against 13 000 bu increase one year ago Total is now reported 4,109,000 bu, against 8 411,000 bu last year and 2,231,000 bu two years ago Local public stocks decreased 283 000 bu, and are now 1 751,000 bu, against 1,656,000 bu same time in 1903. Country acceptances were small and receipts were 101 cars last year 519 cars, and 163 cars estimated to-morrow Liverpool quoted spot steady to ¼d lower and futures ¼d higher. Stocks there 856,000 bu decreased 44 000 bu last week London quoted cargoes on passage 1⅛d lower Western receipts 351,000 bu, compared with 621,000 bu in 1903 Shipments 405,000 bu and 371,000 bu respectively. Local arrivals 109 000 bu and shipments 335,000 bu. Withdrawals 256,000 bu and exports 215,000 bu, mostly via New York. Seaboard reported 8 boat loads accepted. Cash demand fair. RYE Was very quiet to-day Cash held firmly and met with a fair demand, but futures were neglected and weak Ten cars were received and five cars were withdrawn from private warehouse No exports from New York The visible supply increased 20 000 bu No 2 in store nominally 78c, and fresh arrivals free on board sold at 79½@81c and billed through at 80c No. 3 sold at 78c.

Future Deliveries of No. 2 Rye Quiet and easy October 78c asked, December 78½c asked and May 81½c asked, with little disposition on the part of buyers to purchase and reluctant about making bids.

BARLEY—There was a steady to firm market. Of the lower grades there was a good supply, of good Barley there were only small offerings, and of choice to fancy the market was practically bare. Demand was good for feed Barley, and market for it strong. Screenings were salable and steady Low grade malting was taken, though few wanted the Dakota Good Barley salable and so were the better grades. Bids up to late quotations for to-arrive lots were made, and it was said bids were not as a rule being accepted; such was the case with some put out Saturday There were 48 cars reported inspected in. Visible supply increased fairly and local stock did not change Sales of Screenings were made at 29@35c for common to good; quotable over a range of 25@35c for poor to very choice. Sales of feed Barley were at 38½c mainly; some at 37c, latter figure said to have been bid late Saturday for nice heavy. CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Oct 4.]

United Kingdom - Rains fell in the United Kingdom toward the end of last week and the fall was very welcome, for, with the exception of some districts in Scotland it was preceded by an exceptionally dry fortnight. The rain will enable farmers to put their Wheat into a capital seedbed and bring on early sown crops; it doubtless caused some little hinderance to Potato lifting but there are really no complaints of such. Speaking generally, threshing reports do not improve in the least, and although the markets keep quite firm, the official average price last week again failed to reach 30s per quarter of 480 lbs. Although the average price last week viz. 29s 10d was the highest since 1897 the quantity was the smallest since 1895. Apparently, growers are inclined to hold their small crop as long as possible.

Russia—Odessa again reports dry weather, but good rains have fallen elsewhere and generally the weather has been very favorable, permitting plowing and seeding to be done in the South and ripening the late spring crops of the North. At some ports arrivals continue on a very large scale, but others mention some decrease; however, the export movement is well maintained and continued liberal shipments are generally expected.

Roumania - The weather is again fine and warm and plowing is being pushed forward vigorously. The rains which have prevailed since the end of August have damaged the Corn crop, both as to quality and condition. Harvesting is expected to commence shortly if the weather keeps fine. The prohibition of the export of Oats is likely to be raised shortly. Arrivals at Braila have dropped to very small quantities, and as stocks are comparatively small and held in strong hands, the export movement is light and likely to continue so.

Austria-Hungary—The weather is favorable for fall seeding. Supplies of Wheat at Buda Pesth are on a liberal scale.

Australia - It has been confirmed that at least a part of the crop has suffered from drouth, and predictions point to light yields, 65 per cent of last year's being mentioned in one cable. Shippers have withdrawn their offers for the present but it is still expected that fair quantities will be shipped between now and Christmas, there being good stocks from which to obtain the necessary material.

Argentina—The new crops are growing well under favorable weather conditions. Shipments increased last week, but the additional quantities went to non-European destinations there was also an unexpected increase in the stocks.

India. The crop situation is now regarded as satisfactory, although it is confirmed that in Bombay the rains came only just in time to avert a serious famine. Shipments are still liberal and are likely to continue liberal.

France—The weather keeps very favorable for fall seeding. Growers are holding their Wheat very tenaciously and keep advancing prices. The official estimate of the crop just harvested is 297,600,000 bu to furnish requirements which are fully 344,000,000 bu. Although this deficit is supposed to be covered by old reserves carried over from last season, it is quite expected that imports of some 32,000,000 bu will be required for home consumption, of which North Africa may furnish 8,000,000 bu.

Germany—Good rains have fallen in the drouthy districts, and the agricultural outlook is now satisfactory. It is also hoped that navigation on rivers and canals will soon be resumed. Native Grain continues to come forward in good quantities and the quality is very satisfactory, while Potatoes and forage crops appear to be better than was expected.

Italy. Rains fell in the middle of last month and put the land in good condition for plowing. The Corn crop, where unripe, was unfavorably affected by a fall in the temperature.

Spain - Light rains have fallen, but there are still complaints of drouth, and of short yields from the last crop.

Portugal—The Wheat crop turned out very poor and imports of 4,400,000 bu will be needed. Corn was also a poor crop, and 1,600,000 bu will have to be imported.

Sweden. The south of Sweden has a large crop of Wheat of good quality, but in other parts the crop is scarcely better than last year's, the quality and condition being poor.

Denmark - The Wheat crop is 10 to 15 per cent smaller than last year's, but of very fine quality. Exports are being made to Sweden.

Belgium—Weather is favorable for fall seeding.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 30 to 50; light general rains; cloudy. Northwest—Temperature 40 to 58; partly cloudy. West—Temperature 35 to 60; clear. Southwest - Temperature 54 to 62; clear. Ohio Valley - Temperature 41 to 66; clear.

Indications are for generally fair weather in this forecast district. Warm weather in this section followed by cooler Tuesday.

WORLD'S EXPORTS OF BREADSTUFFS.

The following table exhibits the exports of Breadstuffs from the following countries from July 1, 1904, to October 15, 1904, compared with the corresponding time in 1903:

Countries—	1904, bu.	1903, bu.

Totals	141,026,000	162,352,000

ITEMS OF GENERAL INTEREST.

A fire Sunday, at Benton Harbor, Mich., caused a loss of $10,000.

It is stated that the orders on the books of the American Car and Foundry Company at present represent 18,000 cars.

The Duluth, South Shore and Atlantic is to be extended from Duluth to Thief River Falls and eventually on into South Dakota.

The Oklahoma Gas and Electric Company of Oklahoma City, Friday, executed a deed of trust to the American Trust and Savings Bank of Chicago to secure a bond issue of $1,000,000 to be expended in betterments.

Interests identified with the Oregon Short Line Railway Company say that no significance whatever attaches to the postponement of the stockholders' meeting at Salt Lake for the election of directors. It was stated definitely that it had no bearing upon the Northern Securities matter.

The improvement in the business of the American Ship Building Company is very marked. The company now has on hand orders for a total of fourteen ships, the contract prices for which will aggregate above $5,000,000. Estimates are being made on a number of other prospective orders.

Representatives of the three Tobacco companies which are to merge the American, Continental and Consolidated - say they will have no difficulty in proving the ownership of nearly $108,000,000 of bonds, which is the only requirement of the Court of Chancery of New Jersey imposed by Chancellor Pitney.

A dispatch from the Mesaba range says that the Killorin Philbin Contracting Company will work during the entire winter uncovering ore on the United States Steel Corporation's mines, since their contract with the Steel Company calls for the uncovering of ore by the spring of 1905. This company has the contract for the stripping of the Monroe mine and is rushing work as much as possible, as it is the intention to make the Monroe a shipper next season.

A new system of lighterage barges, to be used in the transfer of Grain on the Chicago River, has been started. A Grain company, which some time ago built a boat for this trade, has found the experiment so successful that an order for a second craft, to be completed at an early date, has been placed with the Ship Owners' Dry Dock Company, which built the first one. It is stated that more of these boats will be ordered and that the company will continue to add to them until it has a fleet large enough to handle its transfer business, which formerly has been cared for by outside interests. The barges are a great improvement over the old-style canal boat used in handling Grain between elevators on the river.

The railroads in the Pittsburg district have been breaking all previous records for ore traffic. The Bessemer and Lake Erie road, owned by the Steel trust, is handling an average of 25,000 tons of ore daily. In the month of September it transported 625,000 tons of ore. The total freight tonnage of the road that month was 1,015,000 tons, the largest of any month in its history. A big increase in Coal, Coke and Merchandise traffic, as well as in Iron, Steel and Ore, is reported by the Pittsburg lines. The Lake Erie and Western road has just received the last installment of its order of 1,000 Steel cars for Coal traffic, and its officials say they could use as many more cars if they had them. The Pennsylvania has repaired thousands of cars and given a "rush" order for 600 Steel cars of the largest capacity. The Baltimore and Ohio has handled in Pittsburg the past five weeks several thousands of tons of freight more than in any previous five weeks.

Oats	Inc 855,000	Inc 1,304 000

Stocks in New York were again heavily traded in, with professionals doing the greater part. The public is now in the market, and the leading interests are at present very "bullish." St Paul, Erie and Steel were the leaders. Pennsylvania also came in for good attention. Higher prices were realized, but were taken advantage of to secure profits. Most of the advances, however, held well at the last. Money, 2 per cent. Total sales were 1,515 000 shares.

Broomhall's summary of foreign crops as follows: "United Kingdom—Fall seeding is well advanced. France—Seeding is progressing actively with predictions of increased acreage. Offerings from farmers are larger. Germany—The weather continued most favorable for seeding. Supplies of native Wheat are now fair. Sweden—The fall crops were seeded under favorable conditions. Roumania and Bulgaria. Good progress has been made in seeding and an increase in acreage is expected in both countries. Russia—Weather in Southwest is drouthy, but elsewhere conditions are generally favorable. Arrivals of Wheat at the ports are smaller and several railways have a partial Grain blockade which is believed to be owing to scarcity of cars. Australia—Recent reports of beneficial rains are confirmed. India—Crop situation continues favorable."

EXPORTS OF FLOUR AND WHEAT.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The demand continues fairly good and market quotable firm. Standard Patents now held at $5 70.

WINTER WHEAT—There was less doing. One reason for this was the smaller offerings, and another that buyers were not so anxious at the advance. Prices were up fully 1c, and did not quite keep pace with futures. Trade moderate and 25,000 bu Hard Winter was sold besides the car lots offered. No 2 Red in store quotably $1 15½@1 18, and fresh arrivals free on board ranged at $1 17@1 19. No 3 Red fresh receipts free on board quotably $1 14@1 16. No 4 Red fresh receipts free on board sold at 95@98c. No 2 Hard fresh receipts free on board quotably $1 12@1 15. No 3 Hard fresh receipts free on board ranged at $1 11@1 14, with a sale at $1 13. No 4 Hard at the river sold at $1 05.

SPRING WHEAT—There was a fair business in car lots of fresh receipts. Choice Wheat sold well, but the very poor Wheat was very dull. The reported sales do not indicate any special change in prices. No 1 Northern fresh arrivals free on on board were nominally $1 18@1 20. No 2 Northern fresh receipts free on board nominally $1 12@1 18. No. 3 Spring quotable at $1 05@1 15, with sales at $1 07@1 13. No 4 Spring sold at 60@75c for poor, at $1 00@1 02 for fair, and at $1 05@1 12 for good to choice hard variety.

REGULAR WHEAT—A very good trade and unsettled market, lower prices being recorded early, followed by a sharp upturn, the advance being fairly well maintained, the close showing December up 2@2⅛c and May 1⅜c higher. The easier start was attributable mainly to the fine weather and liberal Northwestern receipts. Offerings, however, were well taken and the news from the Southwest coming "bullish," the situation turned about, and market developed a very strong tone. Reports of large cash sales at Kansas City and St. Louis and talk of Hessian fly in Illinois and Missouri were among the strengthening factors. Buying of December by "shorts" and professionals was the chief feature and in turn affected the May. Liverpool quoted spot ½d lower and futures off ¼@⅜c. Receipts there the past three days 240,000 bu and none from America. London came ¼d lower and Paris was down 1/4@1¼c. Berlin declined ¼c and Buda Pesth 1½c. Antwerp was unchanged. Primary receipts were 25,000 bu less than last year, though arrivals in the Northwest were 315 cars larger. Kansas City and St Louis received 140,000 bu and shipped out 215 000 bu. Kansas City reported sales of 150,000 bu cash and St Louis claimed 100,000 bu No 2 Red sold there. Local stocks in all positions were reported at 4 750,000 bu, an increase last week of 347,000 bu. Stocks one year ago, 5,589,000 bu. Contract stocks increased 30,000 bu and are now 1 576,000 bu, against 1,510,800 bu one year ago. *Bradstreet's* available supply increased 7,457 000 bu, compared with 5 280,000 bu increase same week in 1903. Minneapolis stocks were reported increased 700,000 bu so far this week. Duluth shipped 30,000 bu yesterday. Kansas City estimates to-morrow only 69 cars. Duluth reported 97 cars of Oregon Wheat in to-day's receipts. Exports were again small and only 12 boat loads accepted at the seaboard. At one time the December premium over May was 1¾c. Foreign crop news regarding seeding and plowing was quite favorable. Kansas City reported buying orders there from Chicago. Receipts at Duluth 399 cars, at Minneapolis 663 cars, total of 1,062 cars, against 994 cars yesterday, 1,118 cars a week ago, 747 cars last year. Local receipts included 28 cars Winter, 40 cars Spring and 28 cars mixed, a total of 96 cars, against 104 cars last year. Included in above was 2 cars of contract grade. There were 8 cars and 21,000 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 65 cars. Withdrawals were 16,460 bu. Receipts at Western points were 1,328,523 bu, against 1,354 319 bu last year. At Eastern points 17,709 bu, against 158,414 last year. Shipments from Western points 971,030 bu, against 631,541 last year and from Eastern points no bu, against 57,572 bu last year. Shipments of Flour were 9,641 brls. Exports of Wheat in Flour were equal to 13 384 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher.

OCTOBER—Entirely nominal and closed at about $1 13⅜.

DECEMBER—Sold at $1 11½@1 14⅝. Opened with sales at $1 11¾ to $1 11½, sold to $1 12, to $1 11⅝, to $1 12⅝, to $1 12½, to $1 13⅛ to $1 12¾, to $1 13¼, to $1 13⅛, to $1 13⅝, to $1 13¼, to $1 14¼, to $1 14⅛, to $1 14⅝, to $1 14¼@1 14⅜c, and closed at $1 14¼@1 14⅜.

MAY—Sold at $1 10½@1 12¾. Opened at $1 10¾, to $1 10½; sold to $1 11, to $1 10⅞, to $1 11⅛, to $1 10¾, to $1 11¾, to $1 11½, to $1 12⅜, to $1 12⅛, to $1 12¾, to $1 12⅛, to $1 12⅝, to $1 12⅛, and closed at $1 12½@1 12⅝ asked.

JULY—Sold at 96⅞@98⅛c. Opened with sales at 96⅞c to 97¼c; sold to 97c, to 97⅞c, to 97¾c, to 98⅛c, to 98c, and closed at 98c bid.

CORN—Was only moderately active but at the same time a little unsettled. Closing prices were ⅜@½c higher for December, while May gained ¼c. Lower prices ruled at the start, influenced to some extent by the fine weather. "Long" Corn came out in moderate quantities, but at the decline "shorts" covered, and Wheat ruling stronger Corn rallied some in sympathy. Country acceptances were small and receipts only 131 cars, against 435 cars last year, and only 73 cars are estimated for to-morrow. Liverpool quoted spot ¼@½d lower and futures off ¼d. Receipts there the past three days 232,000 bu, of which 96,000 bu came from America. Showers were predicted for Iowa, Missouri and Illinois; showers and colder, turning into snow for Western Nebraska. Total local stocks were reported 3,312 000 bu, a decrease last week of 1 038 000 bu. Stocks one year ago was 4,707,000 bu. Contract stocks were reduced 258 000 bu, to 1,759 000 bu, compared with 1,491,000 bu same date in 1903. *Bradstreet's* available supply decreased 1,078 000 bu, against 42,000 bu increase for the same period last year. Shipping demand fair and sales 200,000 bu. Exports only 13,000 bu, and 9 boat loads accepted at the seaboard. Western receipts 329 000 bu, last year 778,000 bu. Shipments 149,000 bu and 116 000 bu respectively. Local arrivals 166,000 bu and shipments 25,000 bu. Withdrawals 55,000 bu. Car lots were in fair demand and limited supply. Prices were a shade lower. No 2 closed to go to store at 54¼c and No. 2 Yellow at 55½c. No 3 sold at 54¼c for yellow and closed at 52c. No 3 Yellow sold at 55c and closed at 55c. No 4 sold at 52¼@54¼c, depending on quality.

Corn by sample—A fair demand, with offerings very moderate. Compared with the sales of yesterday, prices were unchanged to ½c lower. Sales on track and free on board. No 4 sold at 51@54½c. No 3 at 52@54¾c. No 3 Yellow at 55@55¼c. No 2 Yellow at 55¾c. No 3 White at 53½c. Billed through: No. 4 at 50@54c. No 3 at 50¾@51¼c. No 3 Yellow at 51c. No 2 at 52¾c.

Future Deliveries of No. 2 Corn—Moderately active and weaker early but rallied sharply and closed ¼c to ⅜@½c higher.

OCTOBER—Inactive. Quoted 2⅝c over December and closed nominally 51⅛c.

DECEMBER—Sold at 47½@48⅝c. Opened at 47⅞c to 47⅝c, and sold at 48c, to 47½c, to 48c, to 47⅞c, to 48½c, to 48¼c, to 48⅝c, to 48⅜c, to 48½c, and closed at 48½c asked.

MAY—Sold at 44⅝@45¼c. Opened at 44⅞c to 44⅝c, and sold at 45⅛c, to 44¾@44⅞c, to 45⅛c, to 45c, to 45¼c to 45⅛c to 45⅛@45¼c and closed at 45⅛@45¼c sellers.

JULY—Sold at 44⅜@44⅞c. Opened at 44⅝c, and sold at 44⅜c, to 44⅞c, and closed at 44⅞c asked.

OATS—Were weaker and ⅛@⅜c lower early, but advanced ⅝c and yielded and closed at a net gain of ⅛@¼c. The buying was mainly to cover shorts. The selling was scattered. Trading in the aggregate was good, but market closed weak. Statistics were "bearish." *Bradstreet's* available increased 855,000 bu, the smallest in many weeks. It is 35,079,000 bu, against 13,180,000 bu last year. Stocks in all positions here are 11,005 000 bu, an increase of 194,000 bu. Contract stocks 3 522,000 bu. Arrivals were 224 cars, with 100 cars estimated for to-morrow. Seaboard clearances 26 000 bu. Cash sales 125,000 bu here and 120,000 bu at New York. Car lots to go to store were steady to ¼c higher. No 3 White sold at 29½@29½c. Standard at 30@30½c. Standard in store closed at 28½c.

Oats by sample were in better request and prices steady to ¼c higher. Offerings were smaller. Sales on track and free on board. No Grade at 26½c. No 4 White at 28¼@29½c. No 3 at 28¾c. No 3 White at 28½@30¼c. Standard at 29½@31c. No 2 at 29@29½c. Billed through: No 4 White at 25½@29c. No 3 White at 29¼@30c. Standard at 29½@30½c. At the river: No Grade at 25c. No 4 at 29¼c. No 4 White at 25¾@28c. No. 3 White at 27¾@28½c. Standard at 28¾c.

Future Deliveries of Contract Oats—Were lower early but closed higher.

OCTOBER—Closed at 28½c.

DECEMBER—Sold at 27⅞c and at 28⅛c to 28¼c. Opened at 27⅞c to 28c, sold to 28⅛@28½c, to 28¼c at close.

☞ Opening sales Monday should have read 28c to 28⅛c, instead of 28⅛c to 28⅜c.

MAY—Fair trading. Sold at 30⅛@30¼c and at 30¼@30⅞c. Opened unsettled with sales at 30⅛@30¼c to 30⅜c, sold to 30¾@30⅞c to 30½c at close.

RYE—Was dull for futures with a moderate trade in cash. Quality varied somewhat and prices on the same grade covered a wider range than usual. Speculators and manufacturers bought the offerings. The receipts were 11 cars. No withdrawals from store here and no exports from New York. No 2 in store nominally 77½@78c, and fresh arrivals sold free on board at 77½@81c for ordinary to fancy and at the river at 78¼c. No 3 sold at 73c, and No 4 at 72@73c.

Future Deliveries of No. 2 Rye—Quiet and neglected. October nominally 78c, December nominally 78¼c. May offered at 81c, with 80c best bid.

BARLEY—Was steady to firm. The market was all right for selling. It was not changed so far as prices go. Under grades were in fair supply; good Barley sparingly offered and choice to fancy hardly offered at all. Good to choice was wanted. Since spot offerings remain small, to arrive lots were in fair demand. About 75,000 bu sold to arrive; prices not in all cases quoted. It was said that some round lots which had been on the market were withdrawn. Posted in, posted in 151 cars, but this was mostly receipts on the market yesterday. For Screenings there was quotable a range of 27@35c for poor to choice. To-day's sales were at 29@32c. Sales of Feed Barley were at 34½c mainly; some thin sold at 35c and very little choice heavy at 37c. Malting, low grade, usually small berry, some heavy but dirty, ranged at 37½@39c. Clean, fair to good, at 40@43c, and large berry, heavy quotable at 45@48c, with fancy above.

SEEDS—Under increased offerings cash Timothy was fairly active and heavy. Aside from this trading was very quiet. Flax prices were a shade higher.

Timothy—Offerings were increased. To-day the supply was quite liberal, nearly 15 cars of cash Seed on sale. An easy feeling prevailed, some concessions possibly had to be made and yet, compared with yesterday's quotations, no essential change appears. Sales were at $2 25@2 40 for only fair to a high grade, main trading was at $2 30@2 35. Country lots of fair to good quality quotably $2 25@2 35, high grade Seed about $2 40@2 45 and choice to fancy $2 50@2 70. Rough, dirty or badly hulled about $2 10@2 20 and low grade $1 75@2 00; inferior lower. Futures inactive and dull, buyers and sellers 5c apart. Quotable October delivery at $2 60@2 65, January at $2 70@2 75 and March at $2 80@2 85, inside bid and outside prices sellers.

Flax—Was stronger, with a small lot for December delivery sold at 1c advance and in the rest of the market there was ½@1½c improvement. Offerings remain very small. There were 6 cars or 4,500 bu received and none taken out. At Minneapolis the receipts were 42 cars and at Duluth 189 cars. No. 1 Northwestern sold sparingly at $1 16¼. No. 1 was $1 09½ bid and Rejected, depending on quality, quotable at $1 05@1 15. For October delivery $1 09¼ was bid and $1 12 paid for December.

Clover—Steady and unchanged. Offerings still small, but the country is said to be offering a little more Seed. Quotable. October delivery about $12 25. Contract spot Seed the same. Country lots common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good $10 25@11 50.

Other Seeds—Were lifeless and nominally steady as follows. Hungarian at 80c@$1 00 for common to choice. Millet, common was quotable at 75@80c for common to choice German at $1 00@1 00. Broom Corn Millet at 90c@$1 00. Siberian at 60@80c, and Early Fortune about 75@80c. Mustard about 75c@$1 00. Buckwheat, good milling spot Wheat, quoted at $1 30@1 35, but no quotations or bids to arrive.

HOG PRODUCTS—More interest was manifested in the market for Hog Products and trading was fairly active. Feeling was stronger and prices ruled higher on all the leading articles, mainly in sympathy with the firmer feeling in Grain. Advance fairly well supported to the close. Outside orders were larger and local trading was fair. "Shorts" inclined to purchase, and offerings were only moderate. Hogs were in fair supply, and prices ruled easier. Receipts of Hogs at the leading Western packing points were estimated at 57,000 compared with 45,200 one year ago. Foreign markets were steady for Meats, but easier for Lard at its decline. Domestic markets were inclined to quietness, and prices comparatively steady. Receipts of Products were fair—of Lard and Meats about 21 cars. Shipments were fair of Lard and Meats about 145 cars. Demand on shipping account was a trifle larger, and offerings were fair. Sales were moderate and chiefly to the domestic trade. Prices were without material change.

Mess Pork—A little more business was transacted in the market for Mess Pork and the feeling was stronger. Offerings were not very large and a fair miscellaneous demand prevailed. January delivery met with most favor. Market opened stronger, and prices were about 2½c higher and prices further irregularly advanced 17½@20c. At the advance, offerings were slightly enlarged and prices receded 7½@10c, but toward the close rallied 5@7½c and the market closed steady. Shipping demand was light and offerings were moderate. Cash lots were quotable at $10 85@11 00.

OCTOBER—Quiet and quotable at $10 85.

DECEMBER—Offerings were light and the demand was moderate. Sales were made at $10 92½@10 97½ and closed at $10 97½.

JANUARY—In good request, with only moderate offerings. Sales were made at $12 12½@12 32½. Opened at $12 12½, sold to $12 15, to $12 12½, to $12 16, to $12 12½, to $12 30, to $12 27½, to $12 32½, to $12 12½, to $12 30, to $12 25, and closed steady.

MAY—Offerings were moderate and the demand was fair. Sales were made at $12 05@12 27½. Opened at $12 05, sold to $12 22½, to $12 20, to $12 27½, to $12 15, to $12 22½, to $12 20, and closed steady.

Lard—Only a fair trade was reported in the Lard market, and the feeling was stronger. Offerings were moderate, and the demand was fairly active. Foreign advices unfavorable to holders. Market opened rather firm, and prices were about 5c higher, and prices were further improved 7½@10c. At the advance there was a little pressure to sell, and prices settled back 2½@5c, and market closed comparatively steady. Demand on shipping account was limited, with moderate offerings. Cash lots quotably steady at about October figures, closing at $7 15@7 17½. Loose lots in limited request, with very small offerings. Prices quotable at 25c discount on October figures. Leaf Lard was in fair demand, with very limited offerings. Quotably lower at about $7 50. Neutral in light demand, with moderate offerings. Prices quotably lower at $8 87½@9 00 for No 1 and $8 37½@8 50 for No 2.

OCTOBER—Quiet and steady, with small sales at $7 17½.

DECEMBER—Quiet and sold sparingly at $7 12½.

JANUARY—In fair request and offerings were not very large. Sales were made at $7 12½@7 20. Opened at $7 12½, sold to $7 20, to $7 15, to $7 17½, and closed steady.

MAY—Offerings were moderate and the demand was fairly active. Sales were made at $7 17½@7 27½. Opened at $7 20, sold to $7 17½@7 20 to $7 27½, to $7 25, and closed steady.

Short Rib Sides—Trade was fairly active in the market for Short Rib Sides, and the feeling was stronger, especially for the deferred deliveries. Offerings were not very large, and the demand was fairly active. "Shorts" bought moderately. Market was steadier at the opening and prices were 2½@5c higher, and prices were further advanced 7½@10c. Toward the close, the feeling was not quite so strong, and prices receded 2½@5c, and the market closed steady. Demand on shipping account was fair and offerings not very large. Prices quotable at $7 50@7 62½ according to weight.

OCTOBER—Quiet and sold sparingly at $7 45.

JANUARY—Offerings were fair and the demand was moderately active. Sales were made at $6 35@6 45. Opened at $6 35, sold to $6 45, to $6 40 to $6 42½, to $6 40@6 42½ and closed steady.

MAY—In fair request and offerings were not very large. Sales were made at $6 45@6 52½. Opened at $6 45, sold to $6 52½, to $6 50@6 52½, to $6 50 and closed steady.

Other Meats—A fairly good trade was reported. Offerings were fair and the demand was improved. Domestic trade only fair. Exporters not inclined to trade to any extent, making some inquiries for future delivery but bid below the views of sellers. Green Meats offered moderately with a small inquiry, and prices ruled steady. Pickled Meats were in moderate request, with fair offerings, and prices favored buyers. Dry Salted Meats were in moderate demand with fair offerings, and prices were steadier. Smoked Meats called for moderately and prices without material change. Closing prices were as follows.

AGRICULTURE IN GREAT BRITAIN.

[From the Agricultural Gazette, Oct. 3.]

After a fortnight of almost absolute drouth, the rain which set in on Friday evening was generally welcome, as the arrears of harvesting, even in the latest districts, were small, and rain was needed for many purposes. There has been a capital time for Potato raising so far, and a temporary hindrance will be a relief to the markets, as large supplies have brought prices down. Young crops of Rye, Tares, and other kinds of forage will be the better for the downfall, as well as feed in the pastures, while the moistening of unbroken land was needed in many districts to allow of its being plowed up. Where land has been plowed for Wheat, sowing will be carried on advantageously after the surface has been slightly dried, and the preparations are so well foward that there is every reason to hope for opportunities of drilling a full breadth of Wheat during the present month.

THE HOP SITUATION.

[New York Producers' Price Current, Oct. 15.]

Hop markets in all sections have continued in very firm position. On the Pacific Coast as high as 31½c has been paid for selections, and 30c is now the ruling price for most anything else. In New York State 36c has been paid for choice and 37c by some of the Western brewers for selected lots. The selection is already becoming difficult in New York State on account of the large purchases for American brewers. Qualities have already been advanced, and what were prime three weeks ago are choice grades to-day. On the local market quite some activity has been shown of late and some 1903 Pacific Coast Hops have been purchased by an exporter at 32c. English and Continental advices continue firm.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 26 to 40; generally clear. Northwest—Temperature 32 to 60; generally cloudy. West—Temperature 42 to 58; raining through Nebraska and Western Iowa. Southwest—Temperature 54 to 64; partly cloudy. Ohio Valley—Temperature 44 to 54; clear.

Indications are for showers in the Missouri, Middle and Upper Mississippi Valleys to night, probably extending to Western lake region and Ohio Valley. Wednesday. Warm weather now through out Central Valleys will be followed by much cooler Wednesday.

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Oct. 13.]

Wheat—The foreign demand for Wheat has been unexceptionally good during the past week, and a number of cargoes have been sold. Exporters are liberal buyers of Wheat at ruling quotations, but very little can be secured at figures quoted. Farmers are not very anxious to sell their holdings short of 75c for club in the interior. This is fully 3c to 5c more than at present quoted. Exporters do not see their way clear at present to pay higher figures unless the London cargo market should respond with higher prices. There is no lack of Wheat for vessels now loading in port, and very few new engagements will be made before the buyer is absolutely sure he can secure Wheat to load ships with. The Eastern demand has ceased, and shippers are endeavoring to secure cars in filling orders for Wheat sold. Up to the present time about 3,000,000 bu have been shipped, with almost 2,000,000 bu more to go. The car shortage is still very pronounced, and the demand for shipping Wheat purchased the past month is very urgent. California is not buying as freely as a month ago, and shipments have fallen off considerable. Sales during the week have been small, considering the amount remaining unsold in the country. Considerable Wheat is coming to tidewater points both at Portland and Puget Sound, and if any one is laboring under the delusion that we will not export any Wheat, and that the same will all go East, the individual had better wake up and get a few ideas on the situation. There is no doubt we will ship considerable more Wheat abroad this year than we did the last one. Quotations range from 82c to 83c per bu Club; Bluestem, 85c to 87c, and Valley, 85c per bu.

Flour—There is a good foreign demand for Flour at present, and a number of sales for early shipment have been booked at prices suitable to both buyer and seller. During the week one vessel cleared from Tacoma with 20,000 brls on board for the United Kingdom, the first in many months, and several more will follow, here as well as from the Sound. A very good demand at present exists from Central and South America. California buyers are purchasing quite freely. The new market that came to interior millers this year is meeting with exceptionally good results and orders are piling in on every milling concern in the country, and many of them have orders ahead to keep them grinding for sixty days, day and night. The Orient market at present is dull. Buyers are holding off, expecting millers to make them concessions. In this they will find themselves mistaken, as better prices can be secured for the same quality of Flour in Eastern markets. Jobbers are complaining that they are actually unable to get Flour from the interior mills fast enough to supply their customers. This is something unheard of before, and millers would be very unwise to make any concessions in disposing of their product this season, as the demand will be excellent for all they can make. We quote export brands from $3 60 to $3 75 per barrel; Patents, from $4 50 to $4 75, and local Straights from $3 75 to $7 90, Valley brands, $3 75 per barrel.

ITEMS OF GENERAL INTEREST.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to Oct. 1 have amounted to 416,000 bu, against 840,000 bu in the previous year, and 1 024,000 bu in 1902.

After providing for the dividend on the preferred shares of the Cuba Submarine Telegraph Company, Limited, the directors have declared a dividend at the rate of 5 per cent per annum on the ordinary shares, free of income tax.

The shipments of Flax Seed from India from April 1 to date amounted to 15,100,000 bu (Calcutta 9,672,000 and Bombay 5,328,000 bu), against 11,848,000 bu last season (Calcutta 9,128,000 bu and Bombay 4,720,000 bu), and 10,352,000 bu in 1902 (Calcutta 7,064,000 bu and Bombay 3,288,000 bu).

The receipts of Flax Seed at Bombay for the week ended Sept. 15 amounted to 4,894 tons, against 4,150 tons in the previous week and 547 tons in the same week last year. The total receipts at Bombay from Jan. 1 to Sept. 15 amounted to 196,506 tons, against 134,900 tons in the same period last year.

The Steel workers employed in the rail and sheet departments of the Illinois Steel Company's plant at South Chicago have been notified that when the present agreement expires, Jan. 1, 1905, it will not be renewed. This means that the same reduction in wages and lengthening of the hours will prevail in South Chicago as in the Joliet mills.

It is said that the New York Central has placed an order for 3,000 Steel box cars. The American Car and Foundry will make 1,500 of them and the Western Car Company of Chicago, which is a constituent of the Pressed Steel Car Company, will build the remainder. It is also reported that the Pennsylvania has placed an order for 300 hopper cars.

Dornbusch's Buda Pesth correspondent writing under date of Oct. 1 says: "There is practically no change to report in the Flour market. The tendency has been quiet, sales barely totaling half the week's production. Stocks are increasing. Bran is being offered by second hands, which is having a depressing effect on the prices demanded by millers."

The Chicago Edison Company has sold $500,000 of its first mortgage gold 5 per cent bonds. This issue brings the total of the company's outstanding bonds to $5,500,000. The authorized issue is $6,000,000. The proceeds of the bonds will be used for extensions and improvements, and will supply the money which it was thought a few months ago would be raised by another issue of new stock.

Figures showing the Cotton exported for the month of September indicate that this product is likely to be the most important factor in the exports of the United States this year, with the possible exception of manufactures. As a consequence the total value of all exports in September exceeds that for September in any preceding year, being $134,237,115, against $110,641,840 in September, 1903, and $121,336,364 in September, 1902. More than 41,949,000 lbs of Cotton, valued at $13,742,325, were exported.

The $5,000,000 3½ per cent mortgage bonds of the New York Central Railroad, for which the application to list has been made to the Stock Exchange, are of the series of $100,000,000 3½ per cent 100 year gold bonds due 1997. Fifteen million dollars of this authorized issue is reserved for additions and improvements after 1903, and of this amount $11,000,000 in round numbers has so far been spent. The present issue of $5,000,000 is purely an issue for refunding purposes, the exchange being made bond for bond.

Beerbohm of Oct. 7 says: "The Flour market has been very quiet this week, with little quotable change in prices in any of the chief centers. American Flour remains very scarce and relatively very dear, and is consequently only salable in very small parcels; but the competition among home millers is evidently keen enough to keep prices down. Bakers now hold very short stocks, but owing to the new regulations with regard to bakehouses they are prevented from using their bakehouses as stores, and will consequently have to continue working from hand to mouth, so to speak."

Chanute Oil is now running into the tanks of the big Standard Oil refinery at Kansas City. The initial test of the pipe line between Humboldt, the southern station of the new line, and the refinery at Sugar Creek was made by water last week and when the line was found satisfactory the Oil was sent through. The daily refining capacity will now be 5,000 barrels of crude Oil. The refinery and the pipe line represent an investment of from $3,000,000 to $4,000,000 made by the Standard in six months. Three of the nine tanks of the Standard at Humboldt are complete and a large force is working on the remaining six. All told, the Standard will have 500,000 barrels of storage at that place.

The Chicago *Inter Ocean* says: "Unless the unexpected happens the lease of the majority of the mills of the United Box Board and Paper Company to a syndicate, composed of the managers of the principal independent box board mills, will be signed within a few days. At a meeting of the officials of the United company and the independent manufacturers in New York, the deal was virtually closed. Some changes were made in the form of the lease, as submitted to the United company's officials by the independents, however, and it will probably require a few days for the independents to consider and adjust these changes. Owing to the expressed willingness of both sides to make the deal, however, the straightening out of the lease is regarded as merely a matter of detail."

The *Mark Lane Express* of Oct. 3 says: "The harvest was secured, even in the North, well before the second week of September, and the subsequent weather having been fairly dry, threshings have proceeded with a speed which is not entirely to be praised. The ground is in a splendid state for plowing and drilling, and it is likely that the area of Wheat sown by the end of October will, with ordinary weather for the next four weeks, be almost a record for recent years. Farmers take a much more hopeful view of Wheat prices than the remoteness of next year's harvest warrants, but if the average price of Wheat is over 30s at the sowing season, and the latter is itself favorable, an increased area will almost certainly go under cultivation."

The report that the offer of United Box Board and Paper company to lease its mills to the independent box board manufacturers has been refused is incorrect. No definite reply has yet been given by the independents on the proposition. An extension of the time in which to consider the offer was given by the United Company, and the independents are now making a thorough canvass among themselves to see if all will go into the plan. It is expected that a meeting will be held in a few days in New York, at which a definite answer will be given to the United Company. From the feeling of some of the leaders in the independent fold it appears likely that the offer will be rejected, and the various plans to curtail production and maintain prices will all be dropped.

A Washington dispatch says: "Agents who have been gathering information for the Department of Commerce and Labor in regard to the Beef Trust have about completed their work. Among the complaints is one that agents of the trust, at certain seasons, offer farmers the trust prices for Cattle. If refused, the trust, it is charged, by means of its power with the railroads, holds up the farmers' supply of Cattle feed, compelling sales at whatever figures the combine desires. "We have found," says the report, "that the buyers of the packers are speculating, cornering markets, and doing other things that border on the illegal. So far, however, we have been unable to convict any one of controlling the prices for the whole country or manipulating them for the benefit of the so-called trust."

An executive official of the American Malting Company says that conditions surrounding the company's business are unusually bright. The company has contracted for its supply of Barley at much lower prices than last year, as the Barley crop is unusually good, both in size and quality. Early last year there was in progress a contest between stockholders representing the management and an opposition. This contest hurt the company's business for the first quarter of the year, as large customers among the distillers held off from buying Malt, thinking that a rupture might produce a break in the market. The last three-quarters of the year showed quite satisfactory earnings, but there was no quarter which could be at all compared in point of earnings with the quarter beginning Sept. 1. During the present year it is expected that earnings will exceed 5 per cent on the preferred stock.

Minneapolis wires the following from Comstock Minn.: "One of our big farmers, who owns land in the Northern part of Pembina County, N. D., returned from there this morning and reports Wheat in bad condition there on account of excessive rains, and that not one half of the Wheat has been threshed and was still standing in the shock, and in lots of places water covered the fields."

The Winnipeg *Commercial*, under date of Oct. 15, says "The Grain movement has now attained to maximum proportions and the railways have their hands full transporting the Wheat. The fact that they are now refusing to supply cars for other uses than Wheat shipment is significant The Wheat is grading well and bringing good prices Many of the farmers are doing their own shipping and are storing the Wheat in terminal elevators to wait for an upward turn of the market This is probably one of the reasons why merchants find collections slow. That they are slow is abundantly evident "

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Continues in good demand and prices are firm.

WINTER WHEAT—A fair demand existed—some parties reported a good business and some called it slow There were sales of 125,000 bu of milling Wheat reported besides numerous car lots Prices were about 1c higher. No 2 Red in store quotably $1 17⅜@1 19¼c and fresh arrivals free on board quotably $1 18@1 20 No 3 Red fresh receipts free on board sold at $1 14@1 19—outside for very choice. No 4 Red fresh receipts free on board sold at 99c@$1 14 No Grade Red sold at $1 16@1 18. No 2 Hard fresh arrivals free on board ranged at $1 13@1 16, with a sale at $1 16 No. 3 Hard fresh arrivals free on board quotably $1 06@1 12 and sold at the river at $1 05½ No. 4 Hard fresh receipts free on board sold at $1 04 and at the river at $1 02@1 04½

SPRING WHEAT—Was in fair demand and the feeling was rather firm. Choice Wheat sold well, but the very poor Wheat was very dull. The reported sales do not indicate any special change in prices No 1 Northern fresh arrivals free on on board were nominally $1 19@1 20. No. 2 Northern fresh receipts free on board nominally $1 15@1 17. No. 3 Spring quotable at $1 05@1 15, with sales at $1 10@1 14. No. 4 Spring sold at 60@75c for poor, at 85c for ordinary, at $1 00 for fair, and $1 14 for choice.

REGULAR WHEAT—A better trade and broader market, with final figures showing the December up 1⅛c, while the May gained 1¼@1⅜c. The start was stronger, influenced by the wet weather in the Northwest and reports of delayed threshing. The strong position of the cash article was also a factor, and the buying was of good character, while the early offerings were comparatively small. The Southwest was a buyer and local "shorts" covered on the advance. As the session advanced local and outside realizing became more general and many of the early buyers turned sellers Cable failed to follow the rise on this side yesterday Liverpool quoted spot steady to ½d lower and futures ⅛@¼d higher. A private Liverpool cable read: "Advance in America has no influence on Wheat; market easy, because of free offerings from Argentina and denial of any damage to the growing crop" London was ⅜d higher. Paris was steady to ½d lower Berlin was ⅝c higher and Buda Pesth ⅛c lower Antwerp steady Wichita, Kan., wired "Examined twenty fields and Hessian fly everywhere" Pike and Howard counties, Missouri, confirmed injury to the crop by Hessian fly Showers were predicted for Minnesota and North Dakota Primary receipts were 48,000 bu smaller than a year ago. Arrivals in the Northwest were 152 cars larger. Minneapolis reported stocks increased 650,000 bu the past four days Flour news from the Southwest was rather "bullish," interior mills being reported sold 30 to 60 days ahead Kansas City and St. Louis received 108,000 bu, against 180,000 bu one year ago Better cash demand was reported and sales of 125,000 bu made to go to outside mills. Clearances were small and only 4 boat loads accepted Flour prices were advanced 20c at St Louis and 15c at Minneapolis The recent claims of damage to the Argentine crop by frost denied in to-day's cables. Receipts at Duluth 192 cars, at Minneapolis 538 cars, total of 730 cars, against 1,062 cars yesterday, 733 cars a week ago, and 573 cars last year. Local receipts included 5 cars Winter, 20 cars Spring and 21 cars mixed, a total of 46 cars, against 101 cars last year Included in above was none of contract grade. There were 8 cars and 60,000 bu taken from unlicensed elevators The estimated receipts for to-morrow are 69 cars. Withdrawals were 72,700 bu Receipts at Western points were 1,114,146 bu, against 1,161,542 bu last year. At Eastern points 86,100 bu, against 246,405 last year Shipments from Western points 5,1,814 bu, against 594,892 last year and from Eastern points 8,000 bu, against 112,956 bu last year. Shipments of Flour were 9,370 brls Exports of Wheat in Flour were equal to 51,185 bu

Future Deliveries of Regular Wheat—Good trade and prices higher.

OCTOBER—Entirely nominal and closed at about $1 14¼.

DECEMBER—Sold at $1 14⅜@1 16¼. Opened with sales at $1 14⅜ to $1 14¾; sold to $1 14⅝, to $1 15, to $1 15½ to $1 15⅛, to $1 15½ to $1 16¼, to $1 15⅝, to $1 15⅞, to $1 15⅜, to $1 16. to $1 15¼, to $1 15½, to $1 15¾, to $1 15⅝, to $1 16½, and closed at $1 15⅝@1 15½.

MAY—Sold at $1 12⅝ and $1 14⅜@1 14½ Opened with sales at $1 12⅝ to $1 12⅝; sold to $1 13¼, to $1 13⅛, to $1 13⅝, to $1 12⅞, to $1 13¼, to $1 14⅜@1 14½, to $1 13¾, to $1 14, to $1 13⅝, to $1 13¼, to $1 13½, to $1 13⅞, to $1 13¾, to $1 14⅛, to $1 13¾, to $1 13⅞, and closed at $1 13⅞ sellers.

CORN—A very fair trade and largely local and professional, with tone considerably firmer, the close showing the December up 1c and the May ½c higher than yesterday. Commission houses and "shorts" led in the buying, the selling being scattered and mainly by professionals. The prospect of unsettled weather, small receipts and strength of the cash article were among the "bull" helps. Receipts were only 95 cars, against 293 cars last year, and but 79 cars expected to-morrow Indications are that the Western storm will continue Eastward, accompanied by rain and high winds over Upper Mississippi Valley and Western lake region, followed by much colder weather. Omaha wired that farmers in Nebraska were offering to contract Corn for last half of November and December delivery at 25c. The secretary of the Kansas Grain Dealers' Association claimed to have reports indicating but 123,000,000 bu Corn for the State and was an early "bull" influence Country acceptances were small Southwestern markets were firmer, and Western receipts only 244,000 bu compared with 596,000 bu in 1903 Shipments were 282,000 bu and 433,000 bu respectively Local arrivals 147,000 bu and shipments 154,000 bu Withdrawals here 164,000 bu and exports 137,000 bu. Cash demand good and sales 75,000 bu. Seaboard reported 1 boat loads accepted Car lots were in good demand and light supply Prices ½@1c higher No 2 closed about 53c to go to store and No 2 Yellow at 56c No 3 closed at 52½c, and No. 3 Yellow at 55¼c.

Corn by sample—Was again in good demand, with the offerings small Feeling stronger and prices ½@1c higher Sales on track and free on board No 4 sold at 50@55c No 3 at 52¼@54½c No 3 Yellow at 55½c No 3 White at 53@54c Billed through: No. 4 at 50½@54½c No. 3 at 52@54½c No. 3 Yellow at 54½@55c No. 3 White at 53¼c

Future Deliveries of No. 2 Corn—Moderately active and feeling firmer, closing ½@1c higher

OCTOBER—Inactive, but quotable 2½c over December, closed nominally at 52c

DECEMBER—Sold at 48½@49½c Opened at 48¾c to 48⅞c, and sold at 49c, to 48⅞c, to 49c, to 48⅞@49c, to 48⅝c, to 49¼c, to 49⅜c, to 49⅛c, and closed at 49½c asked.

MAY—Sold at 45⅛c and 45¾@45⅞c Opened at 45⅛c to 45¼@45⅜c, and sold at 45⅜c, to 45⅝@45½c, to 45¼c, to 45½c, to 45¼c, to 45⅝@45⅞c, to 45⅝c, to 45⅝@45¾c, and closed at 45⅝@45¾c bid.

JULY—Sold at 44⅞@45⅜c Opened at 44⅞c, and sold at 45⅛c to 45c to 45⅜c, and closed at 45⅜c bid

OATS—Were more generally traded in and advanced ¾c and closed at the top A feature was the light offerings and good covering by "shorts" The advance in other Grains and lighter country offerings were smaller both West and Northwest Chicago had 116 cars, with 102 cars estimated for to morrow Duluth received 36 cars and Minneapolis 65 cars Cash sales were 150,000 bu. Seaboard clearances 125 bu Car lots to go to store were steady to ½c higher Standard sold at 29¼c and closed in store at 29¼c. New York reported 80,000 bu sold for export

Oats by sample were offered more sparingly and met a better demand Prices were steady to ½c higher, sympathizing with futures Sales on track and free on board No Grade at 28½c No 4 White at 27@29½c. No. 3 at 29@30c. No. 3 White at 29@31½c Standard at 29¾@32c No. 2 at 29½c No 2 31½@32c Billed through No 4 White at 25@30c No 3 White at 29@30¼c Standard at 30@31c No 2 at 29@29¼c At the river No 4 White at 27@28¼c No 3 White at 28¼@29¼c Standard at 29c

Future Deliveries of Contract Oats—Higher, with larger trading

OCTOBER—Closed at 29¼c

DECEMBER Sold at 28½@29c Opened at 28½c, sold to 29c, and closed there.

MAY—Active Sold at 30½@31¼c Opened at 30½c, to 30¼c, sold to 31¼c to 31⅛c, to 31¼c at the close

RYE—Moderate trade in cash but futures neglected Prices unchanged Receipts eight cars No withdrawals from store here and no export clearances from New York No 2 in store nominally about 77½@78c, and fresh receipts free on board sold at 77½@81c—for a car mixed with Oats to fancy, and at the river at 79¼c. No. 3 sold at 77c to go to store

Future Deliveries of No. 2 Rye—Neglected. October nominally 78c. December nominally 79c and May nominally about 81c

BARLEY—There was only a very small volume of trade That sales decreased so much was due to smaller offerings There was a marked decrease in the number of cars on sale Buyers were present for all grades. A strong market was quotable, with full late quotations obtainable all along the line. Some to arrive business reported. Forty cars were inspected in Screenings sold sparingly at 27c for common and were quotable at 25@35c for poor to choice Feed Barley was quiet owing to scarcity, a small business was done at 37c for good local and at 38½c billed through; for very thin or seedy these prices would perhaps have to be shaded Malting, low grade usually small berry, some heavy, but dirty ranged at 37½@39c. Clean, fair to good, at 41@43c, and large berry, heavy quotable at 45@48c, with fancy 50@52c. Some to-arrive Barley sold at 44c, and negotiations were going on for more

SEEDS—There was less trading in Timothy and all of the rest remained very quiet. Flax advanced but nominally, there was none on sale

Timothy Was easy and dull. The market favored buyers of which there were few and there was no competition Cash offerings were fair, but not so large as yesterday. Cash sales were at $1 50@2 35 for very poor to good No choice to fancy offered, and main part of to-day's supply was common, rough, dirty Seed Country lots of fair to good quality quotably $2 30@2 35, high grade Seed about $2 40@2 45 and choice to fancy $2 50@2 65. Rough, dirty or badly hulled about $2 10@2 25, and low grade $1 75@2 10; inferior lower Futures inactive Quotable October delivery at $2 60@2 65, January at $2 70@2 72½ and March at $2 80@2 82½, inside bid and outside prices sellers. Asking prices in most cases 2½c below those of yesterday

Flax—Upward tendency of prices continued and to-day a further advance of 1½@2c occurred There was nothing done because there were no offerings Local receipts only 1 car or 900 bu and none taken out. Minneapolis got 80 cars and Duluth 77 cars. No. 1 Northwestern cash was $1 18 bid, and $1 11 bid for No 1 Rejected, depending on quality, quotable at $1 08@1 15 October was $1 11 bid, and $1 13½ bid for December.

Clover There was said to be a more unsettled market for Clover, with more Seed offered to arrive, but spot lots still scarce Values were said to remain nominally unchanged. Quotable October delivery about $12 25 Contract spot Seed the same. Country lots common to choice, $8 00@12 00, very poor lower, and fancy above Fair to good $10 25@11 50

Other Seeds—A number of samples of wild Mustard were shown. OUTLOOK FOR CLOVER SEED.

[From C. A. King & Co.'s Market Report, Toledo, O.]

Nearly a crop of Clover Seed this year is very short, and the United States has the smallest crop in late years.

Ohio is generally the largest Clover Seed producer. Indiana is a close second and occasionally leads. They trot in pairs being subject to similar crop influences. Both have very short crops this season. It is almost a failure in some of the large Seed-producing counties. A few of the smaller counties had more than an average yield of March month. Weather has been unfavorable and the crop of medium disappointing. Ohio last year raised 835,000 bu. about an average yield. Many years ago they had 421,000 bu. Largest crop was 1,132,000 bu in 1897, followed by the smallest in 1898, which was only 97,000 bu. Indiana has not reported officially on the last crop. Their 1902 crop was 892,000 bu. In 1897 they had 810,000 bu.

Michigan is a very irregular producer. They have a very small crop again this season. It is almost a failure in many counties. Their official figures for 1903 are expected to be around 500,000 bu. Their 1902 crop was only 885,000 bu, but they raised 3,650,000 bu in 1901. They had 1,440,000 bu in 1897, but only 35,000 bu in 1898.

Illinois has been a small producer in late years. They have another short crop, but some sections have a little more than last year, when they had only 30,000 bu their smallest crop. Their largest crop was 193,000 bu in 1897. In 1902 and 1901 they had only 47,000 bu.

Missouri is a small producer. They have less than an average this season. Their crop last year was 63,000 bu. Census report made the 1899 crop 80,000 bu, and in 1901 up to 100,000 bu. In 1898, they had between 60,000 bu and 100,000 bu. It is generally less than enough for their own sowing, although a few counties occasionally report some.

Wisconsin has a small crop. Not quite as short last year, when they had nearly a complete failure. They have a fair amount of Mammoth of good quality this season, but the medium is only fair in some sections. They had 230,000 bu in 1898, but 212,000 bu in 1897. They had only 43,000 bu in 1900 and about that rate since.

Iowa has a very short crop. The winter was very severe and acreage small. Reports indicate that it is much be ow the average of recent years. The official estimate will be issued in December. Their largest crop was 310,000 in 1897. They had 165,000 bu in 1902, but only 15,000 bu in 1899.

Kentucky has a short crop about three-quarters of an average. Their State report bunch al the Grass Seeds, but in 1899 nearly all Clover. Their Grass Seeds were estimated at 197,000 bu in 1903

Maryland has a good crop, but is not a Clover Seed producer.

INDIAN NOTES.

[From the Times of India, Sept. 17]

Wheat cultivation is extending very largely in the Northwest Frontier Province, which shares with the Punjab the reputation of having the Wheat granary of the country. The area of the recent Wheat harvest in the Northwest Frontier Province was as large as 902,856 acres, as against 804,107 acres in 1902, and 753,000 acres in 1901. The total outturn of the late harvest was estimated at 302,094 tons, or 681 lbs per acre, against 558 lbs per acre in 1902, and 401 lbs per acre in 1902. The report on the subject remarks that although only 30 per cent of the crop is unirrigated, this outturn is decidedly good, and the yield all around is said to be the best within living memory. It is by no order that Karachi was, until lately, glutted with Wheat from the Northwest Province and Punjab awaiting shipment to Europe and abroad.

Weather and Crops—Prospects have materially improved since our last weekly report and good rains have been general, practically, over the whole of this side of India.

Upon a large area great deal of anxiety was felt regarding the Gujarat and Kathiawar, but during the past seventy-two hours plenteous rains have been received throughout these provinces, and the word "famine" may now be erased. Unless more rain falls, doubtless much scarcity may still be felt in some districts for the want of water, but crops in many places are looking up fair, while in others only a famine crop is anticipated

To Bombay the Rabi crops, with the exception of Cotton, are of much more importance commercially; last week prospects for these crops were anything but cheerful, but to-day the position looks very satisfactory.

The late rains will have considerably benefitted the Gingelly crop and although as yet too early to form any reliable estimate, in several well informed quarters a 14 anna crop is spoken of. The prospects as they are to-day for the Cotton crop could scarcely be more favorable.

Owing to the anxiety felt regarding the rains shipments have been chary in entering into forward bookings, but with the improvement experienced during the week, we may expect to see a better inquiry in this direction.

BRITISH FARM CROPS.

[From the London Times, Oct. 4.]

The general outcome of the *Times'* fourth and final inquiry this season into the condition of the farm crops of Great Britain is to further emphasize the deplorable position into which the Wheat, Bean, and Hop crops have fallen. During September the Prediction of the Wheat crop in England has receded a couple of points to 91, while Wales and Scotland each register a gain of 1 point. The Oats crop has declined 1 point in England, but an improvement of 3 points is shown in Wales, and one of 2 points in Scotland, while the average for Great Britain remains unchanged. The decline in the condition of the Bean crop, which had been so pronounced in July and August, was also slightly accentuated in September. The final condition works out at the low level of 74 for Great Britain and 74 for England alone. Potatoes, which for Great Britain have recovered 1 point, England at 87 and Scotland at 100 each record a gain of 1 point. Wales remaining stationary at 91. The Hop crop, including Farnhams, Sussex, Mangels, etc., remain stationary for Great Britain; England and Wales, however, have each receded 1 point, while Scotland has advanced to the same extent. Grass lands show a moderate improvement at 92 for Great Britain, 91 for England, and 96 for Wales and Scotland.

In the following table showing the condition of the various crops on Oct. 1 and Sept. 1, 1904, as compared with the average October condition of the previous ten years, the striking features are obviously furnished by the Wheat, Bean, and Hop crops.

Crop—	Oct. 1, 1904.	Sept. 1, 1904.	Oct. average of 10 years.
Wheat	80	83	92.1
Barley	88	89	88.9
Oats	88	88	89.3
Beans	74	75	85.7
Peas	83	85	84.9
Potatoes	90	89	87.2
Roots	91	90	88.9
Grass	92	91	90.2
Hops	49	50	83.0

A fire, Monday, at Salem, Ore., destroyed a Flax Seed warehouse. Loss, $50,000.

PIG IRON OUTPUT ENLARGED.

[From the Iron Age.]

Further proof of expanding consumption is furnished by the monthly blast furnace returns, which are significant in some respects. Our figures show that the production of coke and anthracite pig iron was 1,852,677 tons in September, compared with 1,767,572 tons in August. This increase was due to the enlarged operations of the Steel companies, since their output rose from 747,870 tons in August to 820,000 tons in September.

Statistically, the Iron industry, therefore, is working into better shape every day, and the accumulated supplies must be removed in a comparatively brief period. Additional product may come out when the labor troubles in the South are over, and there is some reserve capacity in the East getting ready for work. But the Central West has completely used up additional Steel company capacity available, so that the outlook is more cheerful for the dull winter period.

That there is a general awakening among buyers is clearly reflected in the reports from leading distributing centers. There is greater business and an advance at some points, accompanied by heavier purchasing for future delivery. Southern furnaces are nearly unanimous in asking an advance, and some large transactions have been closed at higher prices. Among them is the sale of a lot of 100,000 tons of Coke iron for one St. Louis delivery. In the Central West and Northwest, Northern foundry Irons have not quotably changed, save in the actual price higher in the tidewater markets, but the market is decidedly firmer.

In the finished Iron and Steel markets no large transactions are reported, but the interest is greater and there is quite a stream of small orders coming in. Reports concerning the export trade continue favorable. Among the recent sales of Steel rails is one lot of 22,000 tons for the Argentine Republic.

PROGRESS OF THE HARVEST.

[From the Winnipeg Commercial.]

On the third of the threshing had been completed at the 28 stations reporting on the Canadian Pacific Railroad report. The yield is fully up to the more reasonable estimates, and, while there is but little No 1 Hard, there is a large proportion of No. 1 and No 2 Northern. The favorable weather has interfered in some localities, though the area thus affected is of no great extent. The average yield of thirteen districts is 20 bu to the acre of No. 1 and No. 2 Northern. The weekly crop report of the Canadian Northern Railroad shows that during the past week good progress was made in all sections of the country in stacking and threshing, and in another week or ten days, provided we have fair weather, the harvest work will be practically completed. Threshing returns in their e good yields of Wheat, and while the quality is fine the crop in the aggregate will doubtless greatly exceed the expert estimates made early in the season.

OPPOSING BUCKET SHOPS.

The various Exchanges of New York City are joining in a common movement to break up the bucket shop systems of the country by preventing the circulation of continuous quotations. By "continuous" quotations are meant those furnished at intervals of fifteen minutes or oftener. To prevent the circulation of continuous quotations the Stock and Cotton Exchanges have entered into arrangements with the Western Union and Postal Telegraph companies whereby these companies are prohibited from serving the continuous quotations of prices made upon the Exchanges to any person, firm or corporation until such applicant for such continuous quotations has been approved by the Exchange authorities. The Produce Exchange is also considering similar action.

CANADIAN WHEAT STOCKS.

Stocks of Wheat in Canada at principal points of accumulation are reported as follows:

The Twin City Rapid Transit Company has declared the regular quarterly dividend of 1½ per cent on the common stock, payable Nov. 1. Books close on the 20th inst. reopen Nov. 2.

As further evidence of a losing season for some steamboat companies, it has been announced that the Richelieu and Ontario Navigation Company will pay only the usual annual dividend of only 3 per cent, instead of 6 per cent.

The $1,072,000 bonds of the Des Moines and Fort Dodge Railroad Company failing due Jan. 1, 1905, will be paid at par in cash by Redmond & Co., who have purchased from the company an equal amount of new first mortgage 4 per cent bonds.

The Missouri Pacific shows a gain of $60,000 in August net, notwithstanding decrease for eight months, as compared with last year, to $1,675,000. The Rock Island shows a heavy net decrease for August and the Frisco system an increase of $207,000.

The Rushsylvania Bank, owned by Kenyon Bros. at Rushsylvania, Ohio, failed to open, Tuesday. Kenyon Bros have gone into bankruptcy. It is estimated that the deposits amount to $200,000 The assets of Kenyon Bros are estimated at $40,000

There is said to be keen competition between an American syndicate headed by Speyer & Co. and a European syndicate, principally composed of leading Paris banks, for the new $40,000,000 4 per cent fifty year Gold loan of the Mexican government, about to be issued.

The Grand Trunk Railway has issued a statement of earnings for the first six months of the year, which shows the gross receipts of the Grand Trunk Western, between Chicago and Port Huron, were $2,530,785, against $2,700,100 in 1903, a decrease of $239,305. The working expenses were $2,164,300, against $2,397,930, a decrease of $233,660.

The United States Supreme Court, Monday, refused to review the decision of the United States Circuit Court of Appeals in the suit of the late Charles Swan against the Western Union Telegraph Company." The Circuit Court held that a telegraph company must give the sender of a message three notices of an obstruction after the message is filed.

The stocks of Flour in London on Oct. 1, equaled 241,476 sacks, comprising 213,149 sacks of foreign and 28,327 of English. This is 10,000 sacks more than prepared with 185,146 sacks in October, 1903, made up of 159,187 sacks foreign and 35,959 sacks of British. The total quantity in sight of the principal ports of the Kingdom reports is 1,230 sacks, against 817,118 sacks in July last, and 370,287 sacks at this time last year.

The twenty-fourth annual report of the Chicago, Rock Island and Pacific Railway Company, covering the operations of the Rock Island system for the fiscal year to June 30, shows an increase of $2,892,893 in gross earnings, and $1,454,865 net, $.80 in net. The company paid $1.3 4.00 more dividends to the holding company than in the preceding year, and had a surplus of only $43,138, against $1,492,203 in 1902-3.

The United States Steel directors meet next Tuesday, and it is taken for granted that they will declare the regular quarterly dividend of 1¾ per cent on the preferred stock and will likely declare special statement for the quarter ending Sept. 30. The general understanding is that the statement will show surplus earnings of more than $18,000,000 for the quarter, and that is far more than sufficient to the orders ahead will show a heavy increase over the preceding quarter.

Proxies for 60 per cent of the stock were presented at the annual meeting of the Colorado Fuel and Iron Company stockholders at Denver, Monday, three-fourths of the entire issue being in the names of John D. Rockefeller, Jr., and George J. Gould. The bond issue was the only matter legalized, the threatened injunction failing to materialize. The bonds will be used for paying off certain indebtedness, retiring the debenture bonds and providing a working fund of $3,000,000.

The United States Supreme Court Monday, denied the motion of counsel to dismiss the State of North Carolina for a rehearing in the case of the State of South Dakota, vs. the State of North Carolina, decided during the last term of the court favorably to South Dakota. The case involved the validity of North Carolina's guaranty of certain railroad bonds donated to South Dakota for the benefit of the University of South Dakota. The court ordered the sale of the bonds, and the action renders final decision of the case, with the effect of validating other North Carolina bonds of similar character.

Northwestern and Eastern millers are moving for an amendment to the customs laws on Canadian Wheat. It is known as Bill No. 1,000. It is to be introduced into Congress as soon as it meets. Should it pass it is claimed that it would enable American millers to get cheaper Canadian Wheat, paying the customs duty thereon, and on the exportation of Flour made from it, to receive a refund of the duties paid, even though they might not be able to produce identity from the Canadian Wheat as having entered into any particular lot of Flour exported. In other words, by waiving the requirements of "identification" this bill will enable American millers to get cheaper Wheat than millers of Canada and export it in the form of Flour.

The Electrical Securities Corporation has been incorporated at Albany as a holding company for the securities of electric companies. It is backed by the General Electric Company. The company is capitalized at $8,000,000, one-third of which is preferred and two-thirds common. The preferred stock is 5 per cent cumulative. The head office of the company is at Schenectady, N. Y., which is the home of the General Electric Company. This company will principally deal in securities of the securities owned by the General Electric Company. Its plan of operation will be very much like that of the United Electric Securities Company of Boston. The Boston company has issued collateral trust 5 per cent thirty-year bonds, secured by the bonds of the Electric Illuminating Company and two-thirds common stock.

The report of the Rock Island Company for the fiscal year ended June 30 last was issued, Monday. It now owns the entire capital st ck of the Chicago, Rock Island and Pacific Railroad Company, which in turn owns 99.75 per cent of the stock of the stock of the Chicago, Rock Island and Pacific Railway Company, and 526,349 shares—over 50 per cent—of the common stock of the St. Louis and San Francisco system. The combined accounts of the Rock Island Company and the Chicago, Rock Island and Pacific Railway Company show the income during the past year from all sources was $61,817, making the total $6,629,498. Fixed charges required to $5,624,192, leaving on Chicago, Rock Island and Pacific Railroad bonds aggregating $3,465,113, a total of $3,582,037, practically available for dividends $2,677,171. Four quarterly dividends of 1¾ per cent each, amounting in all to $1,974,606, were paid to stockholders of the Rock Island Company, leaving the surplus of the company for the year $702,565.

Atchison's annual report, showing cash in hand of only $6,382 305 clearly suggested the probability of some new financering, in view of the fact that only about $5,000,000 of the general mortgage 4 per cent bonds remain unissued, and that these are under consideration or in progress some important construction enterprises. It is quite likely that the Atchison management expects that the prospect will be met and that the company will take advantage of favorable conditions in the securities market to supply itself with the means to carry on construction work which is expected to result in a large increase of the system's efficiency. It is stated that every dollar which Atchison has spent on its property in the past few years has earned 25 per cent gross, that equally profitable opportunities for investment in increased facilities exist to-day, and that these will be taken advantage of when the condition of the money market permits of money being obtained under favorable terms. It is pointed out that if Atchison is to continue to go forward, it must, like other roads, expend money for additional facilities, and that there is no such thing as a railroad company's position remaining fixed. As soon as it ceases to progress it begins to drop behind, and it is not intended that Atchison shall lose ground.

The Michigan State Telephone Company, for which the American Telephone Company refused to bid more than $4,000,000 at the foreclosure sale last November, is giving a good account of itself. At the time of the reorganization of the old Michigan Telephone Company, formerly a constituent of the old Erie Telephone system, President Jackson of the new Michigan State Telephone Company estimated gross earnings for the year 1904 at $2,000,000. These figures will be exceeded by $200,000 as the 1904 gross receipts will closely approximate $2,000,000. During the first few months of this year the maintenance charges (not including cost of extensions) were about $47,000 per month and they have since been increased to $57,000 per month and in the future will probably amount to $650,000 per annum. The company now has exchange subscribers to the number of over 62,000 and new ones are being added at the rate of about 1,000 per month The reorganization plan provided for the issuance of $4,466,000 5 per cent bonds, $2,235,000 6 per cent cumulative preferred stock, and $3,500,000 common stock. The new operations will show a substantial balance, probably about $200,000 over the 6 per cent on the preferred stock, but this excess will be put back into the property rather than paid to the common shareholders. The Michigan State Telephone Company has the exclusive right to operate under Bell patents in the State of Michigan, and the relations of the company with the American Telephone Interests are declared to be entirely harmonious.

It is said that the unfilled orders on the books of the United States Steel Corporation at this date are in excess of the number on Oct. 1, 1903, when they aggregated 3,725,740 tons. Not all of this improvement at date as to orders will show in the third quarter statement to be made public Oct. 25, because a good percentage of the present orders have been booked since the third quarter closed.

The Bank of England to-day sold $550,000 Gold to Argentina and $62,000 to Bermuda.

Reported that 56,000 bu Wheat and 14,000 bu Corn were taken at the seaboard to-day for export.

The first car load of new Buckwheat to appear on the regular market was offered and sold to-day.

Ten packers purchased 12,900 Hogs to-day; shippers, 3,500; left over, 7,600. Market closed steady.

The Amalgamated Copper Company has declared the usual quarterly dividend of one-half of 1 per cent.

The Manitoba Grain Dealers' Association make the Wheat crop 60,000,000 bu, 30 per cent being No. 4 or lower.

Stocks of Hog Products at Chicago estimated at 37,000 brls Mess Pork, 32,000 tcs Lard, and 11,000,000 lbs Short Rib Sides.

Average cost price of Hogs at Chicago, Wednesday, was $5 10, against $5 06 Tuesday, $5 62 a week ago, and $5 26 a year ago.

Reported that St. Louis received 1 car of new Corn to-day, grading No. 2, and Kansas City received 7 cars, grading No. 3.

Estimated receipts for to-morrow: Wheat, 97 cars; Corn, 104 cars; Oats, 104 cars; Rye, 2 cars; Barley, 57 cars; Hogs, 14,000.

Top Cattle prices at leading Western markets, Wednesday, were: Chicago, $6 90; St. Louis, $6 50; Kansas City, $6 40; Omaha, $6 25, and St. Joseph, $5 80.

The *Orange Judd Farmer* estimates the Wheat crop at 327,489,000 bu Winter and 227,224,000 bu Spring, or a total of 554,713,000 bu. Oat crop estimated at 973,135,000 bu.

Cotton in New York averaged lower. Liverpool closed 5 to 7 off, and surroundings, other than the unfavorable weather South, were "bearish." Closing sales were at losses of 9@12 points.

The Cincinnati *Price Current* in its weekly crop summary says: "Previous crop indications fully supported by later conditions and returns as to Corn, Wheat and Pastures. Corn gathering will soon be under fairly active progress. Evidences of good quality maintained."

Weekly statement of the Bank of England shows a decrease of $972,070 in Bullion. The proportion of the bank reserve to liability is now 56.53 per cent, against 51.90 per cent last week, and compares with an advance from 44 per cent to 44⅞ per cent for the same week one year ago.

Announcement was made, Wednesday, by the Board of Trade Transportation Committee that all members who have complaints to make against the railroad rates affecting Chicago's business are requested to make them in a concise form to E. B. Boyd, the commissioner, at 74 Board of Trade building.

The Cincinnati *Price Current* reports the packing of the West for the week at 395,000 Hogs, compared with 325,000 for the week previous and 300,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 12,460,000 Hogs, compared with 12,415,000 for the corresponding time last year—an increase of 45,000 Hogs.

Stocks in New York had a fair rally after a good break. In nearly all instances the late prices were at moderate gains. Trading was heavy, Western buying being a factor in St. Paul. Profit taking by some of the largest recent buyers was the cause for the break, but Stocks were well taken. News was mainly favorable. Money 1¾ to 2 per cent.

Local Securities were active, with prices irregular. Extensive taking of profits in a few shares forced them lower, while heavy buying of others made substantial gains. Boxboard common was the most active and gained ¼. Swift's advanced 1 point and reacted ½. Radiator, Chicago Edison, Brick, and Chicago Telephone advanced. Metropolitan Elevated broke ¾ to 1 point. South Side Elevated gained 1 point.

The Treasury Department has decided to make no change in ruling regarding grading of Wheat in bond. All of the product has to be exported. This decision makes the importing of Manitoba or other Wheat for export as Flour practically prohibitory, as no profit can be made in the handling of the offal. The Treasury ruling is presumably in fear of the protest that would be raised by farmers if this advantage were given the millers. Latter wished to export equal quantity of low grade Flour with that of Wheat imported without preserving identity of original importation.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The demand is reported good and market firm.

WINTER WHEAT—With the exception of choice soft Winter Wheat, the market was dull and weaker. Choice Wheat ruled firm. There was less demand, local millers being out of the market to-day, and trading mostly speculative. No. 2 Red in store quotable at $1 17¼@1 19, and fresh arrivals free on board quotably $1 18@1 22, with a sale of choice at $1 22. No. 3 Red fresh arrivals free on board sold at $1 16@1 18 and quotably down to $1 14 for good, with a sale billed through at $1 18. No. 4 Red fresh receipts free on board sold at $1 14@1 15. No. 2 Hard fresh arrivals free on board quotable at $1 13@1 16. No. 3 Hard fresh arrivals free on board quotable at $1 05@1 12, with a sale at the river at $1 06½. No. 4 Hard sold at the river at $1 06@1 08.

SPRING WHEAT—Ruled quiet and weaker. Local millers not buying and there were no outside orders, so that trade was slow all around, with poor Wheat especially dull. No. 1 Northern fresh arrivals free on on board were nominally $1 17@1 20. No. 2 Northern fresh receipts free on board nominally $1 12@1 17. No. 3 Spring quotable at $1 07@1 15. No. 4 fresh receipts of hard variety free on board sold at $1 08@1 11 and quotably down to 85@75c for very poor.

REGULAR WHEAT—A very large trade and quite active market, final figures showing the December off ⅝c, while May declined ¼c. The early tone was easy, influenced chiefly by the drop at Minneapolis, liberal receipts and indifferent cables. There was considerable December liquidation and the whole list declined. As the session advanced the demand improved, and on liberal purchases by influential interests the market developed a very strong tone and sold up sharply. The cash situation was looked upon as a strong feature and Minneapolis reported the sale of 25,000 bu No. 1 Northern at 5½c over December. Kansas City reported the sale of 40,000 bu Oregon Wheat to go to Texas at $1 23 delivered. Winnipeg had 249 cars, against 539 two days in 1903. Break in Corn checked the advancing tendency and induced liquidation, resulting in a complete reaction in values. Decline checked by elevator interests. Liverpool quoted spot steady to ½d higher, and futures ⅛d lower. London came unchanged. Paris was steady to ¼c higher. Antwerp unchanged. Berlin advanced ⅝c and Buda Pesth declined ¼c. Liverpool was affected by the offerings of new La Plata Wheat. Primary receipts were 158,000 bu larger than a year ago, those in the Northwest being 228 cars greater. Kansas City and St. Louis received 193,000 bu, against 175,000 bu corresponding day one year ago. Minneapolis stocks increased 750,000 bu the past five days. Kansas City estimates for to-morrow 139 cars. The *Price Current* reported previous estimates as to the crop fully maintained. The map showed quite heavy rains through Minnesota and fair and colder conditions predicted for the Dakotas and Minnesota. Clearings were again meagre. Seaboard reported 7 boat loads accepted. Minneapolis reported receipts at country stations as very light. Argentine was reported as selling a large amount of May Wheat in New York to-day. Receipts at Duluth 237 cars, at Minneapolis 603 cars, total of 843 cars, against 730 cars yesterday, 701 cars a week ago, and 515 cars last year. Local receipts included 11 cars Winter, 17 cars Spring and 7 cars mixed, a total of 35 cars, against 60 cars last year. Included in above was 1 car of contract grade. There were also 8 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 92 cars. Withdrawals were 91,850 bu. Receipts at Western points were 1,059,707 bu, against 901,843 bu last year. At Eastern points 44,318 bu, against 277,298 last year. Shipments from Western points 569,147 bu, against 945,075 last year and from Eastern points no bu, against 240,483 bu last year. Shipments of Flour were 1,668 brls. Exports of Wheat in Flour were equal to 7,506 bu.

Future Deliveries of Regular Wheat—Good trade with closing irregularly lower.

OCTOBER—Entirely nominal and closed at about $1 13⅝.

DECEMBER—Sold at $1 14¼@1 16⅛. Opened with sales at $1 15⅝ to $1 14⅞; sold to $1 14¾, to $1 15¼, to $1 15⅛, to $1 15½, to $1 15½, to $1 16¼, to $1 14⅞, to $1 15⅞, to $1 15½, to $1 16⅛, to $1 15¼, to $1 15½, to $1 14¼, to $1 14⅝, to $1 14¼, to $1 14⅞, to $1 14⅝@1 14¾, and closed at $1 14⅝@1 14¾.

MAY—Sold at $1 12⅞@1 14⅞. Opened at $1 13¾ to $1 14⅛; sold to $1 13½, to $1 14⅛, to $1 13⅝, to $1 13¾, to $1 13½, to $1 14⅜, to $1 14, to $1 14⅞, to $1 13⅞, to $1 14, to $1 13¼, to $1 13½, to $1 12⅞, to $1 13¼, to $1 13⅛, to $1 13⅝, and closed at $1 13⅝ asked.

JULY—Sold at 98¾c@$1 00. Opened at 99c; sold to 99⅝c, to 99c, to $1 00, to 99½c, to 99⅝c, to 98¾c, to 99c, and closed at 99c.

CORN—A good trade and very unsettled market, higher prices ruling early, followed by a sharp break, the close showing the December off 1⅛c and May down ¼@⅜c. Commission houses were fair buyers at the start, the small receipts, better cables and rainy conditions through Kansas and Nebraska being among the "bull" helps, the upturn in Wheat also being a strengthening influence. At the advance established there was increased selling pressure, led by several of the larger commission houses, and floor "longs" liquidated their holdings on the decline. December was relatively weaker than the May, the spread ranging 2½c to 3⅞c. The *Price Current* reported previous crop indications fully supported by later conditions and returns as to Corn, and gathering soon be under fairly active progress. Liverpool quoted spot ¼d higher and futures up ¼@⅜d. Receipts were only 79 cars, against 287 cars last year, and but 101 cars estimated for to-morrow. Showers to-day and fair Friday predicted for Indiana and Illinois; fair and cooler for Missouri, Iowa, Nebraska and Kansas. St. Louis wired Columbia, Tenn., shipped out two cars of new Corn on a basis of 40c. Southwestern markets were weaker. Western receipts were 279,000 bu, against 436,000 bu last year, and shipments 355,000 bu and 547,000 bu respectively. Local arrivals 90,000 bu and shipments 252,000 bu. Withdrawals here 257,000 were bu, and exports nil. Shipping demand good and sales 295,000 bu. Seaboard reported 4 boat loads accepted. It was rumored Kansas City had five cars new Corn, all grading No. 2. A car of old and new mixed was received here, about two-third old. It went low grade and sold at 48c f. o. b. Car lots were in fair demand and light supply. Prices were ½@1c higher. No. 2 closed about 52½c and No. 2 Yellow at 56c. No. 3 sold at 55c for yellow and closed at 52c. No. 3 Yellow closed at 55½c. No. 4 that was yellow sold at 54¾c.

Corn by sample—Was in good demand and offerings moderate. Sales showed an advance of ½@1c over yesterday, but closed with advance lost. Sales on track and free on board: No Grade sold at 48c. No. 4 at 52½@56c. No. 3 at 53@56c. No. 3 Yellow at 56@56½c. No. 2 at 56c. No. 2 Yellow at 56¾c. No. 2 White at 54½c. Billed through: No. 4 at 51@55c. No. 3 at 52@55c. No. 3 Yellow at 55@56c. No. 3 White at 52@53½c.

Future Deliveries of No. 2 Corn—Active and greatly unsettled, closing ¼c to 1⅛c lower.

OCTOBER—Inactive and quotable 2⅜c over December and closed nominally at 50¾c.

DECEMBER—Sold at 48c and 49¾@49⅞c. Opened at 49½c to 49⅝c and sold at 49⅜c, to 49⅝c, to 49¾@49⅞c, to 49½@49⅝c, to 49⅞c, off to 48⅝c, to 48¾c, to 48c, to 48⅜c, to 48¼c, to 48⅜c, and closed at 48⅜c asked.

MAY—Sold at 45⅝@46⅛c. Opened at 45¾c to 45⅞c, and sold at 45⅝c, to 46⅛c, to 46c, to 46¼c, to 46⅛c, to 46⅝c, to 45⅝c, to 45¾c, to 45⅝c, to 45⅞@45¾c, to 45⅜c, to 45½c, to 45⅝c, and closed at 45⅝c bid.

JULY—Sold at 45@45⅞c. Opened at 45⅛c, and sold to 45⅞c, to 45¼c, to 45⅜c, to 45c, to 45⅛c, and closed at 45⅛c asked.

OATS—Were actively traded in and advanced ¼@½c, with a reaction of ½@⅝c, and a net loss of ¼@⅜c. "Shorts," local traders and cash houses bought early but the speculators unloaded on the break later. The weakness in Corn toward the last had a depressing effect. A good cash demand developed, with sales of 200,000 bu. Arrivals were 114 cars, with 104 cars expected to-morrow. Seaboard clearances none. Car lot to go to store were ¼@½c higher. No. 4 White at 29@30c. No. 3 White at 30c. Standard in store closed at 29c.

Oats by sample were in fair demand and ¼@½c higher early on light offerings, but closed relatively easier with futures. Sales on track and free on board. No Grade at 29½c. No. 4 White at 29¼c. No. 3 at 29½c. No. 3 White at 29½@31½c. Standard at 31@31½c. No. 2 at 30c. Billed through: No. 4 White at 29½@29¾c. No. 3 White at 30½@31c. Standard at 30½@31c. No. 2 at 29½c. No. 2 White at 30¾@31½c. At the river. No. 4 at 28c. No. 4 White at 27½@28¾c. No. 3 White at 28½@29½c. No. 2 at 28¾c.

Future Deliveries of Contract Oats—Were higher early and lower at the close.

OCTOBER—Slow. Closed at 29c.

DECEMBER—Fair trading. Sold at 28⅝c and at 29⅜@29½c. Opened at 29c to 29⅛c, sold to 29⅜@29½c, to 28⅝c, to 28¾c at close.

MAY—Active. Sold at 30¾@30⅞c and at 31½c. Opened at 31⅛c, sold to 31½c, to 30¾@30⅞c, to 30⅞c at close.

RYE—The market was quiet. Trading light and checked by small offerings. Feeling firm. There were 11 cars received. There were no withdrawals from store and no exports from New York. No. 2 in store nominally about 78c, and fresh arrivals sold to millers and distillers at 80@81½c.

Future Deliveries of No. 2 Rye—Quiet and firm. October nominally 78½c. December 78⅛c bid and 79c asked. May 81c bid and 81½c asked.

BARLEY—Twenty-four cars inspected in the past twenty-four hours furnished the market with but a very meagre supply. Former prices were obtainable for all grades. A steady to firm feeling prevailed. Buyers got very little Barley today for it was not on sale. Bids were put out on a number of to arrive lots, but they did not come up to the views of holders. A lot of 29,800 bu No. 5 was taken from store. With this out but little Barley remains in regular houses. There were Screenings sold at 36½@37½c for choice; this was 1½@2½c above what has lately been quoted as the outside; market quotable from this all the way down to 27c for poor. Feed Barley, good, was quotably 37c, in demand and scarce, light weight or very dirty nominally below this. Prices all around are a little better than early in the week, perhaps about 1c advance over final quotations of last week. Malting, low grade, usually small berry, some heavy, but dirty, ranged at 38@39c. Clean, fair to good, at 4@43c, and large berry, heavy quotable at 45@48c, with fancy 50@52c. Bids for to-arrive lots ranged from 40c to 50c; no sales were heard of.

SEEDS—There was moderate trading in future delivery Timothy at a small reduction in value, Flax was a shade easier also. The rest were about steady, but no strength particularly in any part of the market.

Timothy—There were fair future delivery sales. For some time there have been buying orders at certain limits, which were below prices asked, but to-day sellers got down to the level of buyers, which made 2½c decline and there was fair trading. Cash Seed in fair supply and market dull and slumpy, at the same time it could not be said cash values were materially changed. October and November deliveries sold at $2 60, January at $2 70, and March at $2 80; there remained sellers at these figures. Cash sales were at $2 00@2 45 for poor to high grade, and country lots of fair to good quality were quotable at $2 30@2 35, high grade Seed about $2 40@2 45, and choice to fancy $2 50@2 65. Rough, dirty, or badly hulled about $2 10@2 25, and low grade $1 75@2 00; inferior lower. Futures inactive.

Flax—To-day the influences governing the market were less favorable, as there was ½@1c decline. No business was done for no Flax was offered. It was mainly because Flax was lower in the Northwest that bids were reduced here. Only 1 car or 900 bu came in; none taken out. Minneapolis got 11 cars and Duluth 93 cars. No. 1 Northwestern cash was $1 17½ bid, and $1 10½ bid for No. 1. Rejected depending on quality, quotable at $1 08@1 14. October was $1 10½ bid, and $1 12½ bid for December.

Clover—Was quotably dull, possibly a little heavy, with values, however, unchanged. Small lots of cash Seed came on the market and sold at $10 50@11 25 for fair to good, down to $4 50 for a little inferior. Contract grade, spot or October-delivery quotable at $12 25. Country lots common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 50.

Other Seeds—There was a car of good new Buckwheat on the market to-day, the first one seen, and it sold at $1 35. There also was some wild Mustard which brought within the late range of prices. Of Hungarian or Millets there were no offerings. Quotable Hungarian at 80c@$1 00 for common to choice. Millet, common, was quotable at 75@90c for common to choice. German at 80c@$1 10. Broom Corn Millet at 90c@$1 00. Siberian at 60@80c, and Early Fortune about 75@90c. Mustard about 70c@$1 00. Buckwheat, good milling spot Wheat, quoted at $1 36, but no quotations or bids to arrive.

HOG PRODUCTS—A little more life was manifested in Hog Products, and the feeling was stronger in a general way. Advices from the Yards indicated a stronger feeling in desirable grades of Hogs, and the Grain markets were stronger early in the day. Foreign markets were firmer and Lard quoted 3d higher, while the domestic markets were steadier. Receipts of Hogs at the leading Western packing points were estimated at 41,600, compared with 32,400 bu one year ago. Returns of the packing of the West for the week exhibited an increase of 95,000 Hogs, compared with the corresponding week in 1903. Receipts of Products were good—of Lard and Meats about 26 cars. Shipments were moderate—of Lard and Meats about 107 cars. Outside speculative orders were slightly larger, and local trading was fair. At the opening, the feeling was rather steady with little change to note in prices. Later the market exhibited considerable strength, with more activity—mainly in January and May contracts—and prices were advances all around. Toward the close, there was a little pressure to sell, owing to the easy feeling in Corn, and prices receded to medium figures, and the market closed steady. Demand on shipping account was only fair, and chiefly for home wants. Offerings were moderate—less pressure to sell. Export orders light. Sales moderate, with little change to note in prices.

Mess Pork—A fairly good speculative business was transacted in Mess Pork and the feeling was unsettled. Offerings were moderate, with a fairly good miscellaneous demand. Trading mainly in January and May contracts. The market opened rather steady at about Wednesday's figures, but a stronger feeling was developed, and prices were advanced 10@12½c. During the latter part of the session the feeling was not so strong, and prices settled back 7½@10c, and the market closed comparatively steady. Shipping demand was light and offerings were moderate. Cash lots quotable at $10 95@11 00.

OCTOBER—Quiet and steady, with small sales at $11 05. Closed nominally at $10 95.

NOVEMBER—Sold sparingly early at $11 05.

JANUARY—Offerings were only fair, and the demand was moderately active. Sales were made at $12 32½@12 47½. Opened at $12 35, sold to $12 32½, to $12 47½, to $12 42½, to $12 45, to $12 37½, to $12 40, to $12 37½, to $12 40, and closed steady.

MAY—Called for moderately, and offerings were fair. Sales were made at $12 35@12 50. Opened at $12 40, sold to $12 50, to $12 35, and closed steady.

Lard—Quite a good business was transacted in the market for Lard, and the feeling was a little unsettled. Prices somewhat irregular. Foreign advices more favorable to holders. Offerings were fair, and the demand was rather active. Market opened rather steady, but a little pressure to sell developed a weaker feeling, and prices receded 2½@5c. Later the market ruled stronger, and prices rallied 5@7½c, but settled back 2½@5c, and the market closed rather steady. Demand on shipping account was limited, with moderate offerings. Cash lots quotably steady at about October figures, closing at $7 22½@7 25. Loose lots in fair request, with moderate offerings. Prices were quotable at 25c discount on October figures. Leaf Lard was in fair demand, with rather light offerings. Quotably steady at about $7 50. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 87½@9 00 for No. 1, and $8 37½@8 50 for No. 2.

OCTOBER—Quiet, with small sales at $7 22½@7 25, and closed at $7 22½.

NOVEMBER—Called for moderately, and offerings not very large. Sales were made at $7 22½@7 30. Opened at $7 22½@7 25, sold to $7 27½@7 30, to $7 25, and closed quiet.

JANUARY—Rather a good demand prevailed and offerings were fair. Sales were made at $7 15@7 22½. Opened at $7 20, sold to $7 15, to $7 22½, to $7 20, to $7 22½, to $7 17½, and closed steady.

MAY—In fair demand, and offerings were not very large. Sales were made at $7 25@7 32½. Opened at $7 27½, sold to $7 25, to $7 32½, to $7 25, to $7 25@7 27½, and closed steady.

Short Rib Sides—A fair business was reported in the market for Short Rib Sides, and the feeling was stronger in a general way. Offerings were fair, and the demand was rather active, with trading mainly in the deferred deliveries. Market opened rather easy, and in some cases 2½@5c lower, but a stronger feeling was developed later, and prices rallied 5@7½c. Toward the close an easier feeling prevailed, and prices settled back 2½@5c, and the market closed comparatively steady. Shipping demand was moderate and offerings only fair. Cash lots were quotable at $7 25@7 37½ according to weight.

OCTOBER—Demand was light and offerings were moderate. A few sales were made at $7 15@7 30, closed quiet at $7 15.

JANUARY—In fair request and offerings were not very free. Sales were made at $6 45@6 62½. Opened at $6 45, sold to $6 62½, to $6 47½, to $6 50 and closed steady.

MAY—Offerings were fair, and the demand was moderately active. Sales were made at $6 57½@6 65. Opened at $6 57½, sold to $6 57½@6 60, to $6 57½, to $6 65, to $6 60, and closed steady.

Other Meats—A moderate trade was reported. Offerings were fair and the demand was moderate. Domestic trade only fair. Exporters not inclined to trade to any extent—making some inquiries for future delivery, but bids below the views of sellers. Green Meats offered moderately with a small inquiry, and prices ruled steady. Pickled Meats were in moderate request, with fair offerings, and prices were unchanged. Dry Salted Meats were in moderate demand with fair offerings, and prices favored buyers. Smoked Meats called for moderately and prices without material change. Closing prices were as follows:

†Flour made by mills outside of St. Louis, but controlled in that city

Minneapolis Flour output last week decreased 2,370 brls, compared with the previous week. A year ago, the settlement of the strike of Minneapolis mill operatives had not yet been arrived at, and the output then was, for that reason, smaller than business warranted. For the current week the output will probably be around 310,000 brls.

Minneapolis millers have found trade during the past week satisfactory as a whole. The general opinion expressed was that buyers were more inclined to take hold of Flour in round lots than they have been for several months Sales during the week aggregated more than the output, but shipping directions were reported as being rather scarce. The bulk of the sales were made during the earlier part of the week ending to-day (Tuesday) The rapid advance of Wheat on Friday and Saturday checked business to some extent, though not as much as might have been expected It is the opinion of some millers that the Eastern trade is stocking up to a small extent, in anticipation of a further advance in the price, and possible shortage in supplies. Others, however, think that stocks have reached such a small compass that holders are compelled to buy in quantity to supply the consumptive demand which is always heavier during cold weather than during warm. Be that as it may, business from the millers' standpoint is satisfactory as regards the volume of sales even though they are generally of the opinion that prices are rather high.

Foreign trade in Patent has furnished millers with disappointment in the last few days Reports are quite general that in the earlier part of last week buyers and sellers were very near together, but the rapid rise in the price of Wheat effectively headed off the business in sight, and to-day a difference of 1s 6d to 2s 6d is reported Some clear has been worked to Scotch markets as well as a little to London, but the Continent appears to have small interest in the market

Millfeed trade is fair. Millers are able to dispose of the output without much effort and are not offering for future shipment.

Eastern prices to-day (Oct. 15) asked by Minneapolis and outside mills for Patent in wood were: Boston rate points, $6 05; New York rate points, $6 00, Baltimore rate points, $6 40, Philadelphia rate points, $6 55; Albany rate points, $6 60; Rochester and Syracuse rate points, $6 55; Buffalo rate points, $6 45; Michigan, $6 05 in sacks; Iowa, Illinois and Wisconsin, $6 15 in sacks. Missouri points, $6 05 in sacks.

There is little demand for American Flour in markets of the United Kingdom, according to the weekly cable received to-day. In Glasgow, both Kansas and Spring Wheat Flours are more inquired for at last week's currencies, but prices asked now are relatively too dear. Buyers are determined to work down stocks. In Liverpool, Flour meets a slow sale, and though sellers offer some concessions, buyers do not respond. London reports that only a small business is passing, but prices weak and in buyers' favor. Amsterdam cables that a more active demand for Flour has been experienced, with Clear Flour in good request at cheaper prices

AS THE LONDON STATIST SEES US.

[From the Boston News Bureau, Oct 17.]

Mr. George Paish, one of the editors of the London *Statist* is in this country to gauge conditions. In response to our request for an expression of his views as to the outlook, he says:

"The American economic position is sound, and with credit good, money in plentiful supply, and with confidence business will again greatly expand This expansion of business must mean large increases in railroad earnings. There have for many years past been no important new lines of railway construction. The growing traffic must, therefore, pass over the old lines, thus increasing the density of the business of the roads and enabling them to work with great economy. Doubtless density of traffic on certain lines of railway has become so great that the construction of additional tracks has to be proceeded with to permit the traffic to be handled with due despatch and without waste. This will probably mean the issue of considerable amounts of new railway capital, both in the form of bonds and stocks The railways, however, will experience no difficulty in earning the interest and dividends on new capital issues, as the growth in traffic with increased economy of operation will result in large additions to the net earnings. Consequently, a fresh spurt in trade will probably mean improved railroad dividends A relatively high value for stocks is, therefore, warranted

"The only adverse feature in the situation is the uncertainty as to what will happen in Europe So far the reverses experienced by Russian troops have not seriously affected the Paris market. But were the Russian armies to meet with irretrievable disaster, there might be unpleasant consequences in Paris. Moreover, there is a latent fear in Europe that the defeat of the Russian armies may bring trouble to the Russian Government. There is no doubt that Russia will, under any circumstances, meet her obligations, but fear of political difficulties in St. Petersburg may seriously affect the French markets Reliable estimates place the quantity of French money invested in Russia as upwards of £300,000 000 sterling. In the event of t ouble in St. Petersburg, it would of course be impossible for the French investors to realize their holdings and keen anxiety might result.

"The desire to prepare for eventualities is in some measure responsible for the very large accumulation of Gold in Paris at the present time, and were serious anxiety to arise French banks would probably seek further to strengthen their resources by calling in money from London and possibly from New York. Apparently the lowness of the French exchange upon London at present is in some measure due to the desire of French bankers to hold large cash reserves. The amount of French money in London is abnormally great and the withdrawal of any considerable sum of money from London for Paris would cause the value of money in London to advance and bring about a rise in the bank rate. The Bank of England now has a reserve of about £27,000,000, a large sum for the time of year, but out of this sum London has to meet the demand for Gold for Egypt and Argentina, amounting in the aggregate to several millions sterling. It has also to provide for the usual demand for cash for the interior experienced up to the close of December. Now the Bank is threatened with withdrawals of Gold for Paris and Berlin, and the American exchange is not much above Gold point.

"If money becomes dear and scarce in London sales of American securities would probably result, especially if the level of prices is attractive. Hence, attention must not be entirely concentrated upon the favorable economic conditions in this country, but due heed should also be taken of the course of events in the far East in St. Petersburg and in Paris."

INDUSTRIALS AND RAILROADS.

[From the Daily Stockholder, Oct. 18.]

That confidence in the industrial situation is the prime factor in the present stock market revival is shown clearly enough by the advances in the different classes of stocks. For instance, the twenty most active industrial stocks dealt in during the past week show a total gain of 83 points between them, making an average gain for each of a little over 4 full points. On the other hand, the twenty most active railway stocks show a total gain of only 54 points, or an average of not quite 2¾ points for each The dealings in these twenty most active railroad stocks during the week amounted to a total of 3,144,000 shares, or over 54 per cent of all the transactions in all stocks dealt in The par value of the shares outstanding of these twenty issues is $1,873,000 000, so that the average increase of 2¾ has added $51,500,000 to the market value. The twenty most active industrial stocks aggregate total sales during the week of 1,785,000 shares, or something less than 37 per cent of all the week's dealings. The total amount outstanding of these twenty industrial issues is, in round figures, $1,500,000,000, so that by the average gain of 4 points in the market value, that value has increased $60,000,000, so that the industrial shares have the distinction of adding to the marketable wealth of investors $8,500,000 more during the week than did the railway shares, and the industrials did this on transactions bearing the ratio of 37 to the railways' 54 Presumably the buyers in Wall Street know more about the increase of business in the big industrial establishments of the country than they do about the growth of traffic on the railroads just now, and they are not reluctant to act on their superior knowledge of the industrial situation.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Oct. 19]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of 42 "outside mills" with a daily capacity of 31,950 brls, from Jan. 1, 1904, to Oct. 8, 1904, with comparisons:

	1904 Flour, brls.	1904 Wheat, bu.	1903 Flour, brls.	1903 Wheat, bu
Minneapolis	10,176 335	45,794,000	11,289,690	50,714 000
Duluth	619,400	2,787,000	795,175	3,578,000
42 outside mills	5,246,680	23,610,000	5,422,505	24,401,000
Totals	16,042,415	72,191,000	17,487,370	78,693,000

These figures represent the approximate consumption of 6,503,000 bu less Wheat this year than in 1903 This has occurred from the mills of Minneapolis and Duluth as well as the outside mills turning out 1,444 955 brls less Flour than in 1903.

The United States Steel Corporation will in December make a third proposition to employes to buy stock to hold for a period of five years. When the preferred stock crossed 83 the 17 379 employes who in January, 1903, purchased 48,983 shares at $82 50 per share under the profit-sharing plan, for the first time in a year and a half saw a chance to get their money back. In the latter part of 1903 the corporation pledged itself to pay $2 50 for each share of stock sold under the profit-sharing plan, provided the men held the stock until 1908. This was followed in December last by a new offer on the part of the corporation to let employes have preferred stock at $55 per share. The second offer was accepted by 10,248 employes, who in January and February last were allotted 32,519 shares at $55 per share. The employes agreed to pay the corporation $1,788,545 for the 32,519 shares worth at par $3,251,900. To-day the shares bought by the workmen at $55 are worth $2,598,077, or $809,532 more than they paid for them.

The report of the Republic Iron and Steel Company, covering the fiscal year ended June 30 last, was issued Wednesday. The report made a very bad showing, reflecting the severe falling of in the Iron and Steel business in the last calendar year and the first half of this year. For the fiscal year reported the company ran at a considerable deficit. The figures of operation showed that the company during the fiscal year ended June 30 suffered a decrease of $3,404,601 in gross sales, as compared with the previous year. Gross profits from operation decreased $2,817,432 There was an increase in the charges for renewals and depreciation of $177,056. The charges for these purposes were in excess of the gross profits, so that a net loss for the year of $254,188 was shown Added to this loss was one quarterly dividend paid on the preferred stock, amounting to $357,207, making a total loss for the year of $611 488. This compares with a surplus after dividends the previous year of $1,813,817, and in the year before that of $824,723

The shipments of Flax Seed from Argentina this week were reported at 168,000 bu, compared with 272,000 bu last week and 136,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 36,260,000 bu, compared with 22,675,000 bu for the corresponding time last year.

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 797,000 bu, against 858,000 bu for the previous week and 1,810,000 bu for the corresponding week last year. Exports since July 1 were 10,150,000 bu, compared with 17,038,000 bu for corresponding time last year

Broomhall cabled: "Liverpool Wheat depressed, with buyers holding back. There is a better inquiry at the decline. Weather in Argentina is too wet. Spot Corn is declining because of large receipts. Demand is fair, but at lower rates. Futures steady at small decline. Argentine shipments are decreasing "

Broomhall cabled to-day: "The Argentine Wheat markets have improved somewhat, being steady with a moderate demand for export The Corn markets are less active, the tone being steady, with the export demand fair. Arrivals from the interior are moderate, while the conditions continue to give satisfaction."

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,036,000 bu, against 1,357,000 bu for the previous week, and 3,790,000 bu for the corresponding week last year Exports since July 1 were 21,686,000 bu, compared with 49,398,000 bu for the corresponding time last year.

Local Securities were irregular, with fair trading. Box Board was the most active and preferred advanced. The buying was induced by reports that the trust has leased its mills to the independents Illinois Brick and Can shares advanced, the latter on a denial of reports that opposition plants are to be started Swift's advanced ¾ on reports of increased earnings, but lost it.

The *Modern Miller* says. "Moisture is needed over a large portion of the Winter Wheat belt, and there is some complaint on this score, yet on the whole the crop is making a seasonable growth. Ideal weather has prevailed for the propagation of the Hession fly, and the pest has made its appearance in the fields of Illinois and Southern Missouri and Kansas, but not to an alarming extent as yet, although prevalent in volunteer Oats. Much of the Wheat in the section where the Hessian fly did most damage in previous years was planted late this year in order to avoid the pest This accounts for the fact that many farmers are still sowing Wheat "

REVIEW OF TO-DAY'S MARKETS.

FLOUR—A good local and fair domestic demand exists and market is holding firm at the recent advance.

WINTER WHEAT—Was dull, without any special change in prices. Demand limited, millers indifferent and not buying, and speculators not anxious The market did not improve with futures No. 2 Red in store quotable at $1 17@1 18¼, and fresh arrivals free on board quotably $1 18@1 22, No 3 Red fresh arrivals free on board sold at $1 19, and ranged $1 15@1 19. No 2 Hard fresh arrivals quotably $1 13@1 16, and No. 3 Hard at $1 05@1 12, with a sale at $1 10 No. 4 White sold at $1 14

SPRING WHEAT—Ruled quiet and unchanged Local millers not buying and there were no outside orders, so that trade was slow all around, with poor Wheat especially dull. No. 1 Northern fresh arrivals free on on board were nominally $1 17@1 20 No. 2 Northern fresh receipts free on board nominally $1 12@1 17. No. 3 Spring quotable at $1 07@1 15, with a sale at $1 13. No. 4 fresh receipts of hard variety free on board sold at $1 09 and poor down to 75c, with very poor, thin Wheat quotably at 60@65c.

REGULAR WHEAT—Only a moderate trade, but the feeling, at the same time, was a little unsettled, and the close showed December up ¾c, while May gained ⅝@¾c. The early tone was easy on general commission-house selling, influenced to some extent by declines in outside markets and lower cables. Receipts were fair and Northwest advices as to the cash situation not as strong as lately noted At the decline "shorts" covered with considerable freedom and local warehouse interests purchased the May, and the situation became stronger Liverpool quoted spot steady to ½d higher, while futures were ⅜@¾d lower Receipts there the past three days, 392,000 bu and none from America. Private Liverpool cables reported the market depressed and buyers holding back. London cabled Argentine crop advices were very satisfactory. London was ¼d lower to ⅜d higher and Paris ½c lower *Broomhall* cabled the Australian crop this season would average only 7½ bu, against 11½ bu last year. Argentine shipments were fair at 1,168,000 bu, and since Jan. 1 aggregate 85,141,000 bu, against 59,616,000 bu one year ago Visible there reported 2,688,000 bu; last week, 2,576,000 bu; last year, 1,696,000 bu Exports this week 1,066,000 bu, and since July 1 foot up 21,686,000 bu compared with 49,398,000 bu for the same period in 1903. Primary receipts were fair and from June 27 to Oct. 17 aggregate 83,167,000 bu, against 74,091,000 bu in 1903 and 116,620,000 bu in 1902. Duluth wired that Eastern millers bought a very large amount of Wheat there yesterday of both grades. Minneapolis wired that North Dakota had marketed 40 per cent of its crop. Another message reported cash Wheat a little heavy. Duluth stocks are expected to show but little change, while Minneapolis will increase 900,000 bu. Northwest cars were 157 ahead of last year. Kansas City estimates for to morrow 87 cars Winnipeg had 229 cars, of which 130 cars were low grades: receipts last year 241 cars Local shipments 245,000 bu, and 160,000 bu of same said to be destined for Milwaukee. Kansas City and St. Louis received 147,000 bu; last year, 233,000 bu. *Modern Miller* reported the new crop on the whole making seasonable growth, but Hessian fly has appeared in the Wheat fields of Southern Illinois and Western Missouri and Kansas, but not to any alarming extent as yet. Kansas City wired: "We can confirm sales of 150,000 bu sold to go to Minneapolis to day and late yesterday, and more working—expect 200,000 bu worked before the day ends " Receipts at Duluth 194 cars, at Minneapolis 601 cars, total of 795 cars, against 843 cars yesterday, 898 cars a week ago, and 668 cars last year. Local receipts included 30 cars Winter, 15 cars Spring and 5 cars mixed, a total of 50 cars, against 90 cars last year. Included in the above was no contract grade. There were also 25 cars and no bu taken from unlicensed elevatore. The estimated receipts for to-morrow are 68 cars. Withdrawals were nothing. Receipts at Western points were 1,056,069 bu, against 1,041,064 bu last year. At Eastern points 98,989 bu, against 194,835 last year. Shipments from Western points 792,973 bu, against 674,268 last year and from Eastern points no bu, against 218,800 bu last year. Shipments of Flour were 19,387 brls. Exports of Wheat in Flour were equal to 37,246 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher.

CORN—A fair trade and better undertone, the close showing the December up ⅜@½c and May ½c higher Several of the larger commission houses were conspicuous on the buying side, part of which was credited to interests which have sold freely of late Early offerings were very moderate The small receipts, urgent demand for the cash article and decreasing stocks were among the strengthening influences. Receipts were only 123 cars, making 844 cars this week, against 2,409 cars one year ago and 107 cars are estimated for to-morrow. Liverpool quoted spot ¼@½d lower and futures off ⅛d Receipts there the past three days 256,000 bu The weather was fairly favorable. Map showed local rains in Iowa Illinois and few traces in Missouri. Showers were predicted for Indiana, Illinois and Iowa, and fair and colder weather for Kansas and Nebraska A large elevator system in Nebraska estimated the crop of that State 265,000,000 bu and claimed with favorable weather a large percentage would grade No. 2 in December. Argentine shipments again liberal at 2,012,000 bu, making 73,709,000 bu since January 1, compared with 61,237,000 bu in 1903. RYE—The market was quiet and steady Cash offerings, that is the fresh arrivals, light and demand fair Futures very quiet and steady. The receipts were four cars, and the withdrawals 800 bu No exports from New York. No. 2 in store nominally 78½c, and fresh arrivals free on board quotably 74@80c for ordinary to good.

Future Deliveries of No. 2 Rye—Quiet. October nominally 78½c December sold at 79c and closed at 78½c bid and 79c asked. May sold at 81½c, and closed at 81½c sellers

BARLEY—Was steady and firm. Offerings were again of a small volume and trade restricted in consequence All grades salable on the cash market. Full late prices obtainable There were small offerings of common to good malting Choice to fancy Barley very scarce, and also very few cars of feed on sale Screenings sold very well and choice brought a shade over recent quotations Forty-five cars inspected in Increased sales of Screenings were made at 28@38c for common to very choice, recleaned; sales mainly at 31@36c. Feed Barley salable at 36@37c local, depending on quality, and very little obtainable Malting, low grade, usually small berry, some heavy, but dirty, ranged at 38@39c. Clean, fair to good, at 40@44c, and large berry, heavy quotable at 45@48c, with fancy 50@52c. Bids for to-arrive failed to bring sales; sellers' views are above those of buyers

SEEDS—It was slow and dull in this market. Offerings very moderate of all lines but with demand slow the feeling generally was heavy

Timothy—There was a dull, slow market. Futures were offered at the reduced prices noted yesterday, with no regular bids Cash offerings smaller, not important Some Seed delivered on to arrive sale proved to be so much below the sample by which it had been sold that 15c reduction had to be allowed Contract grade was offered at $2 60 spot or October delivery, at $2 70 for January and at $2 80 for March Country lots of fair to good quality were quotable at $2 30@2 35, high grade Seed about $2 40@2 45, and choice to fancy $2 50@2 65. Rough, dirty or badly hulled about $2 10@2 25, and low grade $1 75@2 00; inferior lower. Futures inactive

Flax—There was a weaker tone to the market and prices were quotably ½c—easier. Offerings small, very little was done and easiness due to outside influences Local receipts 5 cars or 4,500 bu, and 1 car or 1,002 bu taken out. Minneapolis got 47 cars and Duluth 75 cars. No. 1 Northwestern cash was $1 16½ bid, and $1 10 bid for No 1 Rejected, depending on quality, quotable at $1 08@1 14. October was $1 10 bid, and $1 12½ was paid for December.

Clover—An unsettled, easy feeling was said to prevail, but with offerings small little was done and nothing new especially developed Quotable as follows: Contract grade, spot or October delivery quotable at $12 25. Country lots common to choice, $8 60@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 50

Other Seeds—Nothing of the lines quoted below offered on sale Market lifeless and prices nominal as follows: Hungarian at 80c@$1 00 for common to choice. Millet, common, was quotable at 75@90c for common to choice German at 80c@$1 00, Broom Corn Millet at 90c@$1 00, Siberian at 60@80c, and Early Fortune about 75@90c Mustard about 75c@$1 00 Buckwheat, good milling spot Wheat, quoted at $1 35, but no quotations or bids to arrive.

HOG PRODUCTS—Only a fair business was transacted in Hog Products in a speculative way and the undertone to the market was stronger in a general way Outside orders were fair, and local trading was moderate. Hogs were in only moderate supply, and prices were higher, and the Corn market was stronger in a general way "Shorts" bought sparingly, and there was a little investment inquiry on behalf of parties who surmise that the decline in prices of Hogs has been checked for the present Trading was mainly in January and May. Aggregate offerings were not very large. Prices ruled higher on all the leading articles, but after the early orders were provided for prices settled back slightly, and the market in a general way closed rather steady The receipts of Hogs at the leading Western packing points were estimated at 33,900, compared with 30,900 one year ago Foreign markets were steady and unchanged for Meats, while Lard was firmer and 3d higher Domestic markets were quiet and steady. Receipts of Products were good of Lard and Meats about 6 cars. Shipments were moderate—of Lard and Meats about 116 cars Demand on shipping account was light and offerings were moderate Exporters made some inquiries, but bids were below the views of sellers. Sales were very small, with feeling dull, and prices favored buyers.

Mess Pork—Trade was fair in the market for Mess Pork, and the feeling was stronger Trading almost exclusively in the deferred deliveries. Offerings were not very large, and the demand was fair. Market was rather firm at the opening and prices were 7½c higher, which was followed by a further improvement of 10@12½c. At the advance, there was a little inclination to sell and prices settled back 5@7½c, and the market closed comparatively steady Shipping demand was light and offerings were moderate Cash lots were quotable at $11 00@11 10

OCTOBER—Quiet and quotable at $10 95.

DECEMBER—Quiet and quotable at $11 10

JANUARY—In rather good demand, with moderate offerings. Sales were made at $12 47½@12 60. Opened at $12 47½ sold to $12 60, to $12 55, to $12 60, to $12 52½, to $12 57½, to $12 55, and closed steady

Lard A fair trade was reported in the Lard market, and the feeling was stronger. Offerings were not very large, and the demand was fairly active A little more done in the near deliveries, but the bulk of the business was in January and May. Foreign advices were more favorable to holders Market opened stronger, and prices were about 2½c higher, which was followed by a further improvement of 5@7½c, and the market closed comparatively steady Demand on shipping account was only fair, with moderate offerings Cash lots quotably steady at full October figures, closing at $7 30@7 32½ Loose lots in fair request with moderate offerings Prices were quotable at 25c discount on October figures Leaf Lard was in fair demand, with rather light offerings. Quotably steady at about $7 50. Neutral in light demand, with moderate offerings Prices quotably steady at $8 87½@9 00 for No 1, and $8 37½@8 50 for No. 2

OCTOBER—In moderate request, with limited offerings Sales were made at $7 25@7 32½. Opened at $7 25, sold to $7 32½, to $7 30, and closed steady

DECEMBER Quiet with small sales at $7 17½.

JANUARY—Offerings were not very large, and the demand was fair Sales were made at $7 20@7 27½ Opened at $7 20, sold to $7 25, to $7 22½, to $7 25@7 27½ to $7 22½@7 25, and closed steady

MAY Demand was fairly active, and offerings were moderate Sales were made at $7 27½@7 35. Opened at $7 27½, sold to $7 32½@7 35, to $7 32½, and closed steady

Short Rib Sides—Trade was fair in the market for Short Rib Sides, and the feeling was firmer. Trading chiefly in January and May contracts. Offerings were not very large, and a fair miscellaneous demand prevailed. Market opened rather steady at the closing figures of Thursday, and the competition for the offerings resulted in an advance of 5@7½c, and the appreciation was fairly well supported to the close Shipping demand was light, and offerings were moderate. Cash lots quotable at $7 25@7 37½, according to weight.

OCTOBER Sold moderately and ruled steady at $7 20

JANUARY In rather good demand with fair offerings. Sales were made at $6 50@6 57½ Opened at $6 50, sold to $6 52½@6 55 to $6 52½, to $6 57½, to $6 52½@6 55, to $6 55, to $6 52½@6 55, and closed steady

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, Oct. 20.]

There has been continuance of generally favorable conditions in the Western agricultural districts, and the previous encouraging position and indications of leading crops are well maintained. The later returns concerning Corn strengthen the evidences of favorable situation, and are suggestive of little or no occasion for disappointments as to results in comparison with recent calculations. The autumn-sown Wheat is in a very promising start, a large part of it making a good appearance and favorable stand. To some extent there is lack of desirable moisture, but this has not prejudiced the situation in some sections the seeding is not fully completed. As previously stated the indications are that some increase in area will be shown in comparison with last year, making due consideration all sections.

The weather has been so favorable for maturing and drying out the Corn that in many places cribbing is expected to be under way within a few days. But it will be some weeks before husking and cribbing will become general. The average quality of the Grain will be superior to last year, although there will be considerable in the central region that will be more or less injured from the stalks having been prostrated.

Pasturage in an excellent condition in nearly all sections of the West.

In Ohio the recent advices are in line with previous returns. The new crop Wheat is coming up finely—a much amount of it having been completed. Pastures generally good. Corn cutting begun in various localities, and early fields being husked, but not much Corn dry enough for cribbing or shipping. Wheat crop largely sold. Clover Seed deficient in yield.

In Indiana the general indications concerning Corn are maintained and the Grain maturing well. The stalks are down badly in many fields, a circumstance to which some injury is expected. New crop Wheat starting finely—acreage deficient. Seeding practically through. Pastures in good condition. Clover Seed turning out better than earlier expectations in yield and quality.

In Illinois Corn is generally ripening well and is in large excess of good quality. Cutting and considerably Cribbing has begun to a small extent, but will not be general for some weeks. Wheat crop having an excellent start and some increase in acreage indicated. Pastures in good condition. Clover Seed probably somewhat better than expected in yield.

In Iowa the Corn is generally maturing well and in some sections will soon be ready for cribbing. Gathering has begun in several places and excellence of quality is noted. Pastures in good shape.

In Kansas the Corn crop is practically all matured, and cribbing will be inaugurated to considerable extent within a few days. Some Corn being marketed now. Wheat seeding practically finished and the crop making a good start, with an increase in acreage. Pastures generally fine.

Primary receipts and shipments of Wheat this year and last since the end of June compare as follows, in round figures, reported by barrels:

	1904.	1903.
Receipts	32,550,000	76,150,000
Shipments	26,500,000	36,100,000
Net receipts	45,000,000	40,000,000

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, Oct. 20.]

There has been a continuance of fairly liberal offerings of Hogs, the numbers being considerably in excess of the movement a year ago. Total Western packing 395,000 Hogs, compared with 385,000 the preceding week and 370,000 two weeks ago. The corresponding time last year the number was 300 000 and two years ago 365,000. From March 1 the total is 12,450,000, against 12,315,000 a year ago, an increase of 145,000. The quality of current offerings continues very satisfactory, evidences of betterment in some instances. Prices are further considerably reduced, prominent markets at the close averaging about 60 per 100 lbs., compared with $5.50 a week ago, $5.90 two weeks ago, $5.30 a year ago, $6.65 two years ago, and $6.05 three years ago.

The speculative Provision market was rather quiet the past week and values had a downward trend most of the time, with more steadiness shown at the close. The increased supply of Hogs and the lower prices for them together with some weakness in the Grains were the factors of influence with traders. At the close of the week there were some recoveries around, and compared with a week ago there is but little change to note for the leading articles at Chicago. The export clearances of Product were fair, although below the large exports of the preceding week, but they were decidedly larger than for the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	314,000	764,000
Bacon, pounds	10,350,000	9,850,000
Total, Meats	11,9-9,000	9,-84,000
Lard, pounds	11,750,000	11,241,000
Total, Product	23,689,000	21,025,000

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since March 1, at undermentioned places compared with last year, as follows:

MEXICO'S GOLD BASIS.

[From the Daily Stockholder, Oct. 19.]

The shares of the Mexican Central Railroad have been vigorously "bulled," the price having been run up some 10 points on the reports industriously circulated that Mexico would go on a gold basis at the end of the current year. Advices from Mexico indicate, however, that there is no likelihood of a change in the monetary system of that country for a long time to come. It can be stated with positiveness that, while this question continues to receive at the hands of the Government the attention which its importance demands, no decision has yet been reached. The Government is most desirous that what may finally be done in this matter shall be well done than that it be quickly done. Finance Minister Limantour, in a newspaper interview, said it never had been the intention of the Mexican Government to propose the introduction of the Gold standard in its literal, typical form as it exists in England, the United States, Germany and France. He added:

"Such a change would be too radical and drastic. Besides it would ruin interests that have been built up under the protection of a high exchange premium. Our object is, while retaining Silver currency, to regulate it in such a manner as to give it a fixed relation to the Gold currency of foreign nations. The Government desires to move in this question with caution, and, above all, to avoid anything that might have the pressure on public opinion. Popular sentiment will be won over to the cause of monetary reform by degrees. The Government does not wish to propose a measure of this importance unless it knows that the people are fully persuaded of the wisdom and expediency of that measure, as it realizes that public confidence is one of the essentials of the success of any currency system. Any step like that would be a question of this nature is to be avoided."

THE WORLD'S COMMERCE.

[From the Wall Street Journal.]

The statements issued by the Bureau of Statistics of the world's commerce, put in the form of a comparative table, makes the following showing:

	Exports	Imports.
United States	$1,743,227	$1,121,536,000
Europe	5,408 000,000	$ 301,000,000
Other countries	2,428,187,773	2,290,470,720
Total	$10,515,000 000	$11,809,000,000

Reduced, roughly, to percentages, the comparison is as follows:

	Exports.	Imports.
United States	16	9
Europe	54	75
Other countries	24	16
Total	100	100

All Europe imports $1,803,000,000 more than she exports. The United States has an exporting excess of $474,333,000, and other countries of $38,-668,993.

This exhibit, on the surface so unfavorable to Europe, is explained by the fact that the great European imports consist very largely of food and raw products, while her exports are of these raw products converted into manufactured articles. Moreover, it is the total commerce of a country, rather than the balance of trade, that constitutes prosperity, though this fact is commonly overlooked.

The Bureau of Statistics called attention to the fact that the international commerce of the world, jumping exports and imports together, is no more than the inland commerce of the United States. In reality the latter is twice the volume of the world's commerce, for imports of one country are exports of another, so that the aggregate of the world's commerce may be measured by the total of imports.

Here again there is an interesting comparison. The $22 000 000 inland commerce of the United States is free trade between the 45 States, protected by a high tariff against foreign invasion. The $11,900,000,000 international commerce of the world is, as a rule, a commerce subject to an import tax.

VALUE OF THIS YEAR'S CROPS.

[From the Boston News Bureau.]

We now know enough about this year's crops to make a guess at their value to the farmers. It is probable that the harvest of 1904 is the most valuable ever raised in this country. A rough estimate on the basis of the Government's late crop report shows an aggregate value of the six cereals, and Cotton, Hay and Potatoes of $3,200,-000,000.

We compare the value of this year's crops with the Government reports of the values of the crops of the last two years:

	1904.	1903.	1902.
Corn	$986,000,000	$952,800,000	$1,047,000,000
Wheat	551,000,000	443,000,000	422 000,000
Oats	266,000,000	262,000,000	251,000,000
Rye	19,000,000	15,500,000	17,000 000
Buckwheat	9,000,000	8,000,000	8,000,000
Hay	750,000,000	853,200,000	742 000,000
Potatoes	158,000,000	151,000,000	134,000,000
Cotton	500,000,000	617,300,000	490,700,000
Total	$3,260,000,000	$3,052,000,000	$3,087,700,000

In making the estimate of the farmer's take this year's crops we have made the best guess possible at this time of the year as to the prices which the farmers will receive. These estimated prices compare as follows with the Government's prices for the last two years:

	1904.	1903.	1902.
Corn, bu	.80	$0.83	$0.66
Wheat, bu	1 00	.69	.63
Oats, bu	.30	.34	.30
Rye, bu	.70	.56	.59
Barley, bu	.45	.45	.45
Buckwheat, bu	.50	.50	.50
Hay, tons	8.50	8.08	9.06
Potatoes, bu	.55	.51	.47

THE GAIN PER DAY.

[From the Wall Street Journal, Oct. 17.]

A few days ago we estimated that we had gained during September on balance of trade over $1,000,-000 a day.

Our estimate was on a very conservative basis, the object being not to overstate the facts. The official figures of foreign commerce during September show that the gain was $1,676,000 a day, a record breaker. The nearest approach to it for September exports in a number of years, and which is $370,000 a day more than the average gain of the preceding six years. This is shown by the following table:

September—	Exports.	Gain per day.
1898	$41,000,000	$1,366,000
1899	39,174,000	1,305,800
1900	46,333 000	1,-60,000
1901	46,460,000	1,-23 000
1902	37,702,000	1,256,700
1903	38,-85,000	1,-61,600
Average of six years	41,-79,000	1,300 000
1904	50,-35,000	1,676 000

Of this immense gain, Cotton was responsible for $22,542,425 during the first nine days, or over $750,000 a day. Thus nearly 45 per cent of our excess of exports over imports in September rose due to Cotton. The calculations of these figures on the exchange situation is obvious and they explain, in part, the continued easy money in spite of the large shipments in currency to the South and West in the past eight weeks.

OUR TRADE WITH CANADA.

[From the Orange Judd Farmer.]

In view of the general interest in the subject of reciprocity with Canada, official figures will be worth studying. They show that the exports of the United States to Canada have doubled in seven years—from $151,000,000 in 1897 to $305,000,000 in 1904. They exceed the past fiscal year, the total being $298,000,000, compare with $40,000,000 in 1897, exhibiting a much slower growth. The following table gives the United States trade with Canada for a series of years:

Fiscal years.	Exports from United States	Imports to United States
1904	$181,-27,000	$91,400,000
1903	133,256,000	84,781,000
1902	109,615,000	48,-76,000
1901	105,780,000	42,486,000
1900	92,319,000	39,999,000
1899	87,-71,000	31,-20,000
1898	83,114,000	31,870,000
1897	84,900,000	40,-30,000
1896	40,-82,000	39,912,000
1895	29,460 000	32,988,000
1870	30,-95,000	26,295,000
1860	25,695,000	28,572,000

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 30 to 40; partly cloudy. Northwest—Temperature 40 to 50; partly cloudy. West—Temperature 46 to 54; partly cloudy. Southwest—Temperature 46 to 56; partly cloudy. Ohio Valley—Temperature 42 to 48; generally clear.

Indications are for occasional cloudy and showery weather in Western lake region. There will be no material change in temperature in any portion of the district.

ITEMS OF GENERAL INTEREST.

The Procter and Gamble Company has declared the regular quarterly dividend of 2 per cent on its common stock, payable Nov. 15 to holders of record Oct. 31.

The harness and saddle manufacturing establishment of E. Rehkopf & Co., Paducah, Ky., was burned, Wednesday. The loss is $60,000, partly covered by insurance.

The Reading Company has applied to the New York Stock Exchange to list $18,030 000 noncumulative 4 per cent first preferred stock, $42,000,000 noncumulative 4 per cent second preferred stock, and $70,000,000 common stock.

Reports were current in Chicago, Tuesday, that the Illinois Brick Company would pay up its back dividends for last year, and declare a dividend for the current year. The company is said to have some immense contracts on hand.

A Chicago brokerage firm with which the pool in Bethlehem Steel stock is said to be identified, Thursday, sent out a suggestion for retiring the common stock of the company by exchanging the bonds and preferred stock of the company for it at a price well above the present market.

The International Power Company has just completed the purchase of the entire works and plants of the Consolidated Condenser Company of Chicago, and has increased its capital stock for the reason for believing next year will be a busy one for car building."

The Detroit correspondent of the *Northwestern Miller* writing under date of Oct. 19 says: "Almost all reports from the Wheat fields are favorable. The weather is all that could be desired. The average date for sowing Wheat was Sept. 17 for the State and the acreage sown is as large as per cent for the State, although many millers report much larger acreage than that of last year."

The Northern Pacific Railway Company declared the regular quarterly dividend of 1½ per cent and an extra dividend of one fourth of 1 per cent, payable Nov. 1. Books close Oct. 21 and reopen Nov. 2. These dividends make a total of 6¼ per cent for the present calendar year. In dividends 1½ per cent was declared, and in April and July 1½ per cent and an extra one-fourth of 1 per cent in each instance.

The Grand Forks *Herald* says: "The people of Bartlett, N. D., are wondering whether the State of North Dakota or Washington is best entitled to recognition by the Great Northern Railway Company in the matter of grain shipments to terminal points. The elevators here are practically closed for the want of cars to relieve them, and at the same time Jim Hill continues to haul Grain from a State bordering on the one and handling the bulk line of road to Minneapolis and other points."

The Rock Island statement on the surface makes a very bad showing, indicating a surplus of only about $50,000 for the year after paying the dividends on the preferred stock. Friends of the management say this is due wholly to the fact that the company expended $1,000,000 of the earnings on improvements and betterments during the year, which commenced July 1, the earnings would show up much better. The plan of refunding the debt of the company is said to be making regular progress.

The earnings of the Northwestern Elevated Railroad Company, Chicago, for the fiscal year ended June 30, 1904, as reported in the annual financial statement issued, Thursday, show a decrease in gross earnings increased over the previous year $82,172. Operating expenses increased $18,635. Net earnings were therefore $63,536 less than in the previous year. The surplus applicable to stock was $303,54, or 4.06 per cent on the $7,500,000 preferred stock, as compared with $183,410, or 3.67 per cent, in the preceding fiscal year. No dividends were paid.

The Winnipeg correspondent of the *Northwestern Miller* writes as follows under date of Oct. 18: "The weather is still unfavorable for the threshing and other outdoor work, and there is a large quantity of Wheat coming into the market, a considerable amount of it is tough and has to go to the drying elevator. The railways have about all the cars they can handle. The new crop movement would only stay free there would be such a quantity of Wheat offered for transportation as would swamp them. The grades are keeping up well, most of the cars going out being No. 1 hard grades. The threshing returns continue to show an average yield of about 18 bu per acre."

The Indianapolis correspondent of the *Northwestern Miller*, writing under date of Oct. 19, says: "There se ms no doubt about the Corn crop in the Ohio Valley this year. The writer has just completed a trip through Western and Southwestern Indiana to the furthermost corner and has heard nothing but good reports. Corn stalks of extraordinary length have been exhibited. One grown in Vanderburg County measured 18 feet, another, in Posey County, measured 18 feet 7 inches. The recent gale did little or no damage to Corn in Western and Southwestern Indiana, but enough, however, to cause considerable loss in sections between Corn rows. Reports from the Corn section of Ohio are still better. Ohio never had a better Corn crop than it has this year."

"Buying of Oregon and Washington Wheat for shipment to Chicago and other Eastern markets has ceased," says a press report from Portland. "The inland canals supply cars to handle the traffic, and business is practically at a standstill. It is estimated that from 12,500,000 to 15,000,000 bu have already been sold on Eastern account, and that over one-third has been forwarded. Efforts have been made to secure water transportation to the Eastern seaboard, but these have failed owing to the lack of available tonnage. There is practically no export business. Universal prices have declined steadily in the face of the strength maintained by the American markets, and the 52 cents asked by exporters of shipowners precludes any possibility of profit in this kind of trading."

The receiver of the United States Ship Building Company will sell at Newark next Monday all the shares of the capital stocks of the various subsidiary companies. The stock of the Bethlehem Steel Company was sold some time ago for $7,600,-000, and will not be included in Monday's receivership auction. The securities to be sold include 12,0 0 shares of Crescent Ship Building Company, 10,000 shares S. L. Moore & Sons Co., 1,000 shares Bath Ship Building Company, 1,000 shares of the Hyde Windlass Company, 500 shares Eastern Ship Building Company, 10,000 shares of the Harlan & Hollingsworth Company, and 13,000 shares of the Union Iron works. All of these will have to be bought in by the reorganization committee, acting in the interest of Charles M. Schwab and his friends, who will control the reorganization company and direct its policy. The par value of the securities to be sold to the highest bidder is $4,500,-000. The price they will bring is problematic. On the same date the ship building companies' book account is to be sold for less than $1,000,000, the upset price fixed by the court. They, too, will be bought in by representatives of the reorganization committee.

The following table exhibits the number of Hogs estimated packed from March 1 to date in this city as compared with the returns of previous years.

1904	3 050,000	1901	3,662,000
1903	3,693 000	1900	4 154,000
1902	3,759,000	1899	4,162,000

The weekly statement of the New York banks shows the following changes: Increases—Reserves on all deposits, $1,896,050; Reserves, less United States deposits, $1,910,925; Loans, $3,917,000; Specie, $2,170 500; Legal Tenders, $1,055,100; Deposits, $6,549,100; Circulation, $702,800. Banks hold $17,853,925 in excess of legal requirements.

The receipts of Flour and Grain at Chicago for the past week were equal to 4,929,000 bu and the shipments were equal to 4,060,000 bu. For the corresponding week in 1903 the receipts were equal to 7,039,000 bu, and the shipments to 4,711,000 bu. These figures are supposed to include the through shipments of Flour.

In Local Securities there was a broad trade and a ragged market. The pool in Illinois Brick advanced common ½ and preferred 3 points. Small advances were made in Swift's, Diamond Match, Metropolitan preferred. Western Stone advanced 6 points over the last trade. Biscuit common weakened, and preferred advanced. Can shares were steady.

Authorities on the Iron and Steel situation say the movement of Iron and Steel already sold is large, and increasing. Buying is of excellent character, and is by no means confined to a few large transactions. The railroads are in the market for more supplies, and the car works are ordering large lots of material for early delivery. Structural material is being ordered in greater quantity, the local trade being especially active.

Export clearances for the past week from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 90,000 brls of Flour and 8,000 bu Wheat, against 93,000 brls of Flour and 62,000 bu of Wheat the preceding week, a decrease of 3,000 brls of Flour and a decrease of 54,000 bu of Wheat. For the corresponding week last year the exports were 220 000 brls of Flour and 1,079,000 bu of Wheat.

Stocks in New York were again heavily traded in, 970,700 shares. Sentiment was "bullish" being based on improvement in general business and better prospects for Railroad earnings. Realizing sales were of liberal volume on the rise, and most Stocks suffered a setback at the close. Those making important gains were Erie, Pennsylvania, Delaware and Hudson, Rock Island, Manhattan and Copper. The losses were in St. Paul, Reading, and Ontario and Western.

If the crop of Wheat in the Northwest is 155,000,000 bu, and farmers require 20 000 000 bu for seeding, and interior mills 65,000,000 bu for grinding—making a total of 85,000,000 bu—it should not be expected that the movement should be as large as last year. The reduced crop will be reflected in the movement only—not in the quantity required for interior milling and for seeding, and the latter will be of the best quality. The receipts of Wheat at Minneapolis and Duluth since September 1 have been about 28 000,000 bu, compared with 29,000,000 bu for the corresponding time last year.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market reported in good, healthy condition and prices steady, as quoted on the second page.

WINTER WHEAT—Was in moderate demand, with a little more disposition on the part of millers to buy. There were sales of about 30,000 bu of mixed grades reported. The market was quoted steady. No. 2 Red in store quotably $1 15@1 16¼, and fresh arrivals free on board at $1 19@1 2; No. 3 Red fresh arrivals free on board sold at $1 10@1 16½. No. 4 Red fresh arrivals free on board sold at $1 01 for ordinary to $1 13½@1 15½ for choice. No 2 Hard fresh receipts nominally $1 16@1 15. No 3 Hard fresh arrivals free on board quotable at $1 04@1 12, with sales of a fancy car at $1 19. No. 4 Hard sold at $1 00@1 12.

SPRING WHEAT—Ruled quiet and unchanged. Good Wheat fair sale and steady, but the very poor Wheat dull and weak. No. 1 Northern fresh arrivals free on board were nominally $1 17@1 20. No. 2 Northern fresh receipts free on board nominally $1 14@1 17. No. 3 Spring quotable at $1 05@1 16, with a sale at $1 16. No. 4 fresh receipts of hard variety free on board sold at 0@65c for very poor, at 95@96c for fair, and at $1 10@1 12 for choice.

REGULAR WHEAT—A large trade and choppy unsettled market, with close ⅛c lower for December, while May lost ⅛@½c. The early tone was stronger, influenced chiefly by the commission house buying, a good share of which was credited to the Southwest. Local "shorts" covered on the upturn. At the advances established in prices, the offerings increased, the selling being led by local warehouse interests and market weakened. Liverpool quoted spot steady and futures ⅛d higher. London and Antwerp unchanged. Berlin declined ⅛d and Buda Pesth ⅛c. Map showed light rains or snow in Minnesota, but generally fair weather predicted. Local weekly receipts 1,062,000 bu and shipments 861 000 bu. Primary receipts this week were 7 666 000 bu, against 9 365,000 bu last week, and 6,585,000 bu in 1903. Arrivals in the Northwest were 5,175 cars, against 5,586 cars last week, and 4,167 cars one year ago. A sale of 250,000 bu Oregon was reported to a Southern miller, making 1 2 0,000 bu bought by same concern for their future needs. A Minneapolis paper reported a miller there as buying 1,000 000 bu cash Wheat at Winnipeg to be milled in bond. Kansas City reported 25 000 bu cash sold to go to Minneapolis, making 250,000 bu sold to go there the past two days. Continental Wheat stocks Oct. 1. 43 360.000 bu; Sept. 1, 21,792,000 bu; Oct. 1, 1903, 30 140,000 bu. The Prussian official crop report up to Oct. 15 made the condition of Winter Wheat 76 per cent, against 78 per cent a year ago. Australian shipments were smaller at 584,000 bu. The Minneapolis *Market Record* estimated the yield in the three Northwestern States at 170,000,000 bu. Winnipeg had 359 cars; last year, 259 cars. English farmers' deliveries were 68 000 bu at 91¼, against 300,000 bu last week at 92c and 320,001 bu one year ago at 77¼c. The English visible increased 1,079,000 bu, compared with 2 159,000 bu increase one year ago. *Broomhall* estimated the world's shipments this week at 11,200,000 bu. Receipts at Duluth 405 cars, at Minneapolis 480 cars, total of 883 cars, against 795 cars yesterday, 930 cars a week ago, and 711 cars last year. Local receipts included 9 cars Winter, 27 cars Spring and 5 cars mixed, a total of 41 cars, against 1 cars last year. Included in the above was no contract grade. There were also 20 cars and no bu taken from unlicensed elevators. The estimated receipts for Monday are 84 cars. The withdrawals were 26 300 bu. Receipts at Western points were 1,313,070 bu, against 1,057,3 2 bu last year. At Eastern points 14,0 1 bu, against 171,292 last year. Shipments from Western points 513,2 6 bu, against 1,068,700 last year, and from Eastern points no bu, against 177,076 bu last year. Shipments of Flour were 33,334 brls. Exports of Wheat in Flour were equal to 150,003 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher early and lower later.

OCTOBER—Entirely nominal and closed about $1 14.

DECEMBER—Sold at $1 15@1 16¼. Opened with sales at $1 15¼ to $1 15½; sold to $1 16, to $1 15½, to $1 15⅝, to $1 16¼, to $1 15¼ to $1 15½, to $1 15⅝, to $1 15, and closed at $1 15@1 15⅛.

MAY—Sold at $1 13⅞@1 15⅛. Opened with sales at $1 14⅜ to $1 14, sold to $1 14⅜, to $1 14⅝, to $1 14¼, to $1 15⅛, to $1 14⅝, to $1 14¾, to $1 14@1 14⅛, to $1 14⅜, to $1 14⅛, to $1 14¼, to $1 13⅞, and closed at $1 13⅞.

JULY—Sold at 98¾@99⅞c. Opened at 99½c, sold to 99¾c, to 99⅛c, to 99⅞c, to 98¾c, to 98⅞c, to 98¾c, and closed at 98¾c.

CORN—Only a moderate trade, the market being without special feature, and the close ⅛c lower for December and ⅜@½c off for May. Floor traders were moderately "bullish" at the start on the better cables, small receipts and cash situation, early action of Wheat also being a "bull" help. Later offerings increased and prices ruled lower. Liverpool quoted spot ¼d better and futures ⅜d higher. Receipts were only 112 cars, against 14 cars last year, and but 78 cars estimated for Monday. Map showed generally cooler weather, with light frosts at Omaha and heavy at Davenport. Generally fair weather was predicted over Sunday. Local weekly receipts were 753,000 bu and shipments 1 073,000 bu. Primary receipts 1,?49,000 bu, against 2 132,000 bu last week and 3 491 000 bu one year ago. The Adams farm in Iowa was reported yielding 75@80 bu to the acre and crop estimated at 54,000 bu. Shipping demand reported fair and sales 135,000 bu. Withdrawals here 79,001 bu and exports nil. Western receipts were 253,000 bu; last year 661,000 bu. Shipments 234,0 0 bu and 658,000 bu respectively. Local receipts 121,0 0 bu and shipments 137,000 bu. Car lots were in good demand and light supply. Prices were little changed. No. 2 sold in store at 3¼c over December and closed about 52¾c to go to store. No 2 Yellow closed at 55¼c. No. 3 sold at 55½c for yellow and closed at 52¼@52½c. No. 3 Yellow sold at 55½c and closed at 54¾@55c. No. 4 that was yellow sold at 55c.

Corn by sample—Offerings were small and the demand good. Feeling steady and prices without special change, but closed easy. Sales on track and free on board: No. 4 sold at 52½@55¼c. No 3 at 53½@55¼c. No 3 Yellow at 55½@56c. No 2 at 55½c. No 2 Yellow at 56¼c. No. 3 White at 54c. Billed through: No. 4 at 51¾@54¼c. No. 3 at 52@52½c. No. 3 Yellow at 54¾@55c. No. 3 White at 53c.

Future Deliveries of No. 2 Corn—Moderately active and firm early, but weakened and closed ¼@⅜c to ½c lower.

OCTOBER—Inactive and quotable 3c over December, and closed at 51⅝c.

DECEMBER—Sold at 48¼@49c. Opened at 49c to 48⅞ and sold at 48¾c to 48⅞@49c, to 48¾c, to 49c, to 48⅜c, to 48½c, to 48¼c to 48¼@48⅜c and closed at 48¼@48⅜c bid.

MAY—Sold at 45¼@45⅞c and 45⅞c. Opened at 45¾c to 45⅞c, and sold at 45⅝c, to 45¾@45⅞c, to 45⅝c, to 45¾@45⅞c, to 45⅝c, to 45⅞c, to 45¼@45⅝c, 45⅜@45½c and closed at 45⅜@45½c asked.

JULY—Sold at 45@45⅛c and 45½c. Opened at 45½c, and sold at 45@45⅛c, and closed at 45@45⅛c.

OATS—Were moderately traded in, and although firmer early, weakened at the last and closed at the bottom at a net loss of ⅜@½c. The break was in sympathy with other Grains. Receipts were 112 cars, with 151 cars expected Monday. Withdrawals were 48,350 bu. Seaboard clearances, 725 bu. Cash sales, 50,000 bu. Car lots to go to store were steady to ¼c lower. No. 4 sold at 29c. No 4 White at 29c. No. 3 White at 29¾@30c. Standard at 29¾c. No. 2 at 29c. No 2 White at 31c. Standard in store closed at 29⅛c.

Oats by sample were rather slow and prices steady to ¼c lower. Sales on track and free on board: No. 4 at 28c. No 4 White at 29@29¾c. No. 3 White at 29¾@30½c. Standard at 31@31c. No 2 at 29½c. No. 3 at 28c. No. 3 White at 28¼@29¼c. Standard at 29@29¼c.

Future Deliveries of Contract Oats — Were firmer early and lower later.

OCTOBER—Closed at 29¼c.

DECEMBER—Sold at 28¾c and at 29¼@29⅜c. Opened at 29⅛c, sold to 29¼@29⅜c, to 28¾c at close.

MAY—Fair trading. Sold at 30¾c and at 31¼@31⅜. Opened at 31⅛c to 31⅜c, sold to 31¼@31⅜c, to 30¾c, to 30¾@30⅞c at close.

RYE—The market was again steady. The demand for the fresh arrivals was good and offerings light with sales of choice showing about 1c advance. Futures and cash lots in elevator quiet and unchanged—not much disposition to trade. The receipts were only two cars. There was withdrawn from public elevators 7 600 bu and from private warehouse two cars. No exports from New York. No 2 in store nominally 78@78½c, and fresh arrivals sold at 81@82¼c—outside for choice. No 3 sold at 79c, and No. 4 at 75c.

Future Deliveries of No. 2 Rye—Quiet. October nominally 78½c. December sold at 79c. May 81½c asked.

BARLEY—Was firm. For feed Barley there was ½c further advance and the influence of this was to some extent felt in the malting grades, especially the cheaper grades. At the same time the malting demand was not sufficient or competitive enough to lead to bidding better prices particularly. Arrivals remain very moderate, a circumstance which made trading quiet in spot Barley. No sales of Screenings reported. They had a nominal range of about 2@4c for poor to fancy. Feed Barley, good brought 37½c, very thin or very dirty nominally a shade below. Malting, low grade, usually small berry some heavy, but dirty, ranged at 38@39c. Clean, fair to good, at 40@43c, and large berry heavy quotable at 45@48c, with fancy 50@52c. Posted receipts to-day 36 cars. To arrive lots inactive; buyers and sellers apart; for some fancy up to 54c was bid.

SEEDS—Were dull and most lines rather heavy. Timothy was weak and Clover was just a shade lower, while Flax and the rest ruled about steady, though nothing was done.

Timothy—Was dull and heavy. Cash Seed possibly 2½@5c lower and buyers indifferent about doing anything. Outside orders said to be small. Some outside holders are manifesting more desire to sell and this tends to create a weak feeling. There were cash sales from $2 40 for a little high grade down to $1 50@2 00 for low grade. Country lots of fair to good quality were quotable at $2 25@2 32½, high grade Seed about $2 40, and choice to fancy $2 45@2 55. Rough, dirty, or badly hulled about $2 00@2 20, and low grade down to $1 50. Futures were offered at former prices. October at $2 60, January $2 70 and March at $2 80. A couple of cars of January were taken.

Flax—Was entirely nominal. The market was devoid of trading, for there was no Flax offered, either for present or future delivery. Prices presented no change from yesterday's quotations. Local receipts 4 cars or 3 600 bu and there was no output. Receipts at Minneapolis 61 cars and at Duluth 99 cars. No. 1 Northwestern cash quotably $1 16½ bid, and $1 10 bid for No. 1. Rejected, depending on quality, quotable at $1 08@1 14. October was $1 10 bid, and $1 12½ was paid for December.

Clover—Was said to be unsettled, with an easy feeling and prices quoted a trifle lower. Quotable as follows: Contract grade, spot or October delivery quotable at $12 15. Country lots common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 50.

Other Seeds—There were no regular offerings. The only thing noticed was a few samples of Millet submitted for bids. Prices nominally as of late quoted. Hungarian at 80c@$1 00 for common to choice. Millet, common, was quotable at 75@90c for common to choice German at 80c@$1 00, Broom Corn Millet at 90c@$1 00, Siberian at 80@85c, and Early Fortune about 75@90c. Mustard about 75c@$1 00. Buckwheat, good milling spot Wheat, quoted at $1 35, but no quotations or bids to arrive.

HOG PRODUCTS—Only a moderate trade was reported in Hog Products. Outside orders were light, and local trading was on a moderate scale. Offerings were not very large and the demand was only fair. Near deliveries were dull and dragging, while the deferred were stronger and slightly higher early, but settled back again toward the close. Hogs were in moderate supply and higher. Fair receipts expected during the coming week. Receipts at the leading Western packing points were estimated at 55,100, compared with 59,500 one year ago. Foreign markets were rather easy for Meats, and Liverpool quotations were reduced 1s on Hams and Cumberland Sides, while Lard was steadier and 3d higher. Domestic markets were quiet and rather easy. Receipts of Products were good—of Lard and Meats about 24 cars. Shipments were fair of Lard and Meats about 137 cars. Shipping demand was light and offerings were moderate. Prices were without material change, with small sales.

Mess Pork—Trade was moderate in the market for Mess Pork, and the feeling was easy for the near, and somewhat stronger for the deferred deliveries. The latter opened rather firm, with fair miscellaneous buying, and prices were about 5c higher, which the followed by a further advance of 2½@5c. Later, the feeling was easier, and prices settled back 7½@10c all around, and the market closed rather steady. Shipping demand was light and offerings were moderate. Cash lots quotable at $10 90@11 00.

OCTOBER—Dull, with a few trades at $10 87½@10 90, and closed quiet at $10 90.

NOVEMBER—Quiet, with small sales at $10 97½@11 02½, and closed at $10 97½.

DECEMBER—Demand light and offerings were small. Sales limited at $11 10@11 12½, and closed quiet at $11 10.

JANUARY—In fair request, with moderate offerings. Sales were made at $12 55@12 65. Opened at $12 60 to $12 62½, sold to $12 60, to $12 55, to $12 60, to $12 62½, to $12 55, and closed steady.

MAY—Demand moderate, and offerings were not very large. Sales were made at $12 50@12 55. Opened at $12 55, sold to $12 52½, to $12 55, to $12 50, and closed steady.

Lard—Trade was only fair at the Lard market and the feeling was steadier. Foreign markets more favorable to holders. Offerings were not very large, and the demand was fair. Prices ruled 2½@5c higher, but outside figures were not fully supported at the close. Near deliveries slow sale. Demand on shipping account was limited, with moderate offerings. Cash lots quotably steady at about October figures, closing at $7 27½@7 30. Loose lots in fair request, with moderate offerings. Prices were quotable at 25c discount on October figures. Leaf Lard was in fair demand with rather light offerings. Quotably steady at about $7 50. Neutral in light demand, with moderate offerings. Prices quotably steady at $8 87½@9 00 for No. 1, and $8 37½@8 50 for No. 2.

OCTOBER—Quiet and rather dull at $7 30.

NOVEMBER—Called for sparingly, and offerings were moderate. Sales were made at $7 30@7 35, and closed quiet at $7 30.

DECEMBER—Quiet and quotable at $7 20.

JANUARY—Demand moderate, and offerings not very large. Sales were made at $7 27½@7 30. Opened at $7 27½ to $7 30, sold to $7 27½, and closed quiet at $7 27½.

MAY—Offerings were moderate and the demand was light. Sales were made at $7 35@7 37½. Opened at $7 35, sold to $7 37½, to $7 35 and closed steady.

Short Rib Sides—Only a moderate business was reported in the market for Short Rib Sides and the feeling was stronger. Offerings were not very large, and the demand was fair. Near deliveries dull. Deferred deliveries were advanced 2½@5c, but the improvement was not supported to the close. Shipping demand was light, and offerings were moderate. Cash lots quotable at $7 25@7 37½, according to weight.

OCTOBER—Dull and slow sale. A few trades were made at $7 15@7 20, and closed quiet at $7 15.

JANUARY—In fair request and offerings were not very large. Sales were made at $6 55@6 60. Opened at $6 60, sold to $6 57½, to $6 60, to $6 55, and closed steady.

MAY—Called for moderately, and offerings were rather light. Sales were made at $6 67½@6 72½. Opened at $6 72½, sold to $6 67½@6 70, and closed quiet.

Other Meats—A very small trade was reported. Offerings were fair and the demand limited. Domestic trade rather light. Exporters not inclined to trade to any extent. Green Meats offered moderately, with a small inquiry, and prices ruled lower. Pickled Meats were in moderate request, with fair offerings, and prices favored buyers. Dry Salted Meats were in moderate demand with fair offerings, and prices were steady. Smoked Meats called for moderately and prices without material change. Closing prices were as follows:

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO FRIDAY EVENING, October 21, 1904.

The money market shows no new features, a number of the Chicago Banks have made marked gains in deposits since their last statement and country deposits are not running down as they usually do at this season. Interest rates are 4½ to 6 per cent, with most of the general business loans at the outside figure. There is some cheaper money out, but it requires the best of collateral, and it is only an exceptional loan that gets a lower rate. There is a better feeling in financial circles, and for the present there is nothing disturbing. Business conditions have improved, but the demand for money is not as good as the banks would like. In New York rates were easy at 1¾ to 2 per cent on the Stock Exchange and 3½ to 4½ per cent on time. The situation is best shown by one of the best posted bankers in the country, who says: "Certainly the outlook to-day, with currency uncertainty given way to a securely fixed standard of value, with a sound and satisfactory banking position, and with no left over panic consequences to be reckoned with, as was the case ten years ago, certainly such a position offers reason for the presumption that we are in as favorable a position for development in the next ten years as we were in the beginning of the last. In ten years railroad gross earnings have increased from $1,200,000,000 to $1,900,000,000, and that with an actual increase, we will have railroad earnings of $2,600,000,000 ten years from now, while, if the percentage of increase of the last decade were to be maintained, the figures would reach $3,000,000,000. I am convinced that the possibilities of another great business expansion are at hand, but connected with those great possibilities are great responsibilities. The bankers of this country will, in the wisdom of the administration of their trust, or in their lack of wisdom, have great influencing on the beginning, the extent and the length of this next period of prosperity."

New York Exchange was 10 to 20c discount per $1,000 and closed at 15c.

Foreign Exchange was firmer. Supplies of bills are liberal and sufficient to satisfy requirements. Shippers' sixty day documentary sterling bills on London ranged at 482 to 483½.

A better feeling is developing in manufacturing and business interests. The securing of the Corn crop has done much towards creating confidence and putting the West in better shape. The buying of goods is liberal in volume, and the movement of merchandise over Eastern and Western roads is giving them a large traffic. Interior distributers who have not bought their usual stocks have taken more freely of late. There is a disposition on the part of the manufacturer to expand their output and the outlook is regarded as more favorable for more than a year. Prices are not advancing to any extent but there is more confidence in the maintenance of the present level. In Iron and Steel the improvement is quite marked. Purchases of finished material enlarging and specifications on old business is more liberal. There is a large tonnage ahead which is only waiting the outcome of the election to be placed. Pig Iron is firmly held at the recent advance, but business is not as large as a few weeks ago, although consumers in general are taking hold fairly. The production is increasing and consumption is also enlarging. Wire nails are selling to a greater extent than last year. The movement of light hardware is expanding. Building materials of all kinds are meeting an increased demand and the movement of lumber in all directions is heavier, while prices are stiffening. Coal is being shipped into the West in larger quantities but there is still some weakness in values regarding certain grades which are in excessive supply. Sugars sold at 10 points decline for granulated. Drugs, chemicals, paints and oils were sold in larger volume. Collections are improving as farmers have been selling considerable Grain, and canceling their indebtedness to interior merchants.

Coton in New York declined in the early trading, but reacted partially. There was active speculation and a good range of values. The statistics were most "bearish", but with unfavorable weather in the South arrested the downward tendency and started a good rolly. Receipts are running ahead of last year and exports are large. Closing prices were 21 to 35 points lower than the previous week.

Local Securities were active and averaged higher, but the best prices were not maintained. The increased speculative trading was largely a reflection from Wall Street. A feature was the early scarcity of Swift shares and active buying on orders from Boston. Prices advanced materially, but reacted from the top figures on profit-taking. Can and Biscuit shares were heavily traded in, advancing early and weakening later. The selling of Can was on prospects of sharp competition in the near future, but these were denied later and the price reacted. Elevated shares were irregular, with fair business, Northwestern and Metropolitan preferred selling to a higher level. Pneumatic Tool made good advances of late both in its shares and its bonds. Bonds were active and averaged higher.

In the New York stock market trading reached the highest record in two years and neared the 9,000,000-share mark on two days. There was an excited market with a higher range, followed by numerous sharp reactions. There was more buying by the public, as there always is on an advancing market, and towards the close enormous taking of profits by the largest interests that have been the leaders in the advance. More prosperity talk and the future good effects of the improvement in business on manufacturers and the railroads, and the easy money market were all factors calculated to make a strong and advancing stock market. Leaders in the "bull" movement displayed extreme confidence in the upward course of values and the buying of some of the leading shares was extremely heavy. St Paul, Erie, Missouri Pacific were among the most prominently traded in. The rise in these shares was also the greatest at times. The buying of Erie was somewhat of a puzzle, as it was announced that it will issue $34,000,000 new stock for improvement. There were rumors that Rock Island interests are getting into Missouri Pacific and of changes likely to be made in Missouri, Kansas and Texas. A warning was sent out by the leaing banking interests against reckless speculation, which in some quarters had a good effect. Railroad statements were in the main more favorable, showing a good improvement. The statements of the Republic Iron and Steel and Crucible Steel Company were unfavorable. The former showed a loss of $8,404,601 in sales as compared with last year and a reduction of 40 per cent in production in the first part of the year. Also a loss of $2,817,132 in profits as compared with the previous year. Europe was a heavy buyer and the "short" interest was forced in several times. The close showed liberal gains for the week. Bonds were active and higher. Total sales for the week were 9,489,000 shares, against 5,941,000 shares the previous week and 3,209,000 shares for the same time last year.

COMMERCIAL.

A fair amount of interest was manifested in commercial circles on the Chicago Board of Trade during the past week. Outside interest was not very pronounced, still there were a fair number of orders received from the larger speculative cities. Local professionals were inclined to trade in larger quantities and price changes were quite frequent within the range established. "Bear" interests were inclined to be more conservative in their operations, while "bull" lerders manifested more confidence in the future outlook. The movement of Grain and Live Stock appeared to be the principal factor in shaping the course of values. Few new features, however, were developed, and the activity in Wall Street no doubt detracted some interest from the local Grain and Provision markets. Considerable realizing of "long" lines was a feature in the leading markets the closing days. Money is going into the interior in fair quantities and indications point to rather free selling of such articles of farm products as growers may have on hand. Should the weather prove seasonable the coming month coarse Grains no doubt will come forward more freely.

Private and press reports from Europe both refered to the excellent progress in seeding and fall work. Planting is well advanced in the United Kingdom and in progressing activity in France with indications for an enlarged acreage in Wheat. The weather in Germany was reported most favorable for seeding and supplies of native Wheat are said to be very fair. In Roumania and Bulgaria good progress has been made in seeding and an increase in acreage is expected in both countries. Dry weather was reported in Southwestern Russia but elsewhere in that country conditions were generally favorable. Arrivals of Wheat at the ports are smaller and several railways have a partial Grain blockade which is believed to be owing to scarcity of cars. Beneficial rains were reported in Australia and the crop situations in India and Argentine continues favorable.

Weather conditions in this country were seasonable the past week. Temperatures in most sections were above normal, and the Corn crop is maturing rapidly. Indications are for a much larger marketable crop than a year ago. Winter Wheat in most sections was reported as doing nicely, though in certain districts of Illinois and Missouri Hessian fly has appeared, but is as yet confined to a limited area.

The movement of Grain from the farms and interior elevators was fair the past week. Weather conditions in most sections were favorable for marketing Grain. In certain districts, however, there was a tendency on the part of growers to hold in anticipation of better prices. In the Northwest there was some letup in the receipts of Wheat at interior and line elevators, but the arrivals at the principal points of accumulation made a very good showing notwithstanding. In the Southwest the movement of Grain was moderate. Wheat receipts were smaller, while the shipments from distributing points were larger. The movement of Grain through the South toward the Gulf was larger, and the grading of the new Corn was reported excellent. Through the Central and Middle West the movement of Grain was moderate. Across the line in Canada the movement of Wheat was only limited to the carrying capacity of the railroads. The first importations of Manitoba Wheat duty paid were reported at Duluth. The movement of Grain toward the seaboard was fair. Considerable Corn was forwarded, the lake rate being 1¼c. Exports of Flour and Wheat were meagre, while Corn clearances are gradually enlarging. Bookings for forward shipment were moderate. According to the official visible supply as compiled by the Secretary of the Chicago Board of Trade there was another increase in Wheat, Oats, Rye and Barley and a decrease in Corn. *Bradstreet's* showed a heavy addition in the world's supply of Breadstuffs, while a liberal decrease was reported in Corn.

The leading speculative markets on 'Change were moderately active and the volume of business very fair the past week. Outside interest was not very marked, still there were a goodly number of orders received, chiefly however, from the larger speculative centers. Rather an unsettled feeling was prevalent most of the week and price changes were frequent. Sentiment the opening days leaned more to the "bear" or selling side of the principal Grain markets, the favorable weather being the potent factor. Liquidation was quite general and lower prices were established on all the leading articles. At the declines recorded the demand improved, "shorts" covering freely and a fair rally in prices occurred. Wheat was strengthened by the more active and general demand for the cash article, and was easily the leader, coarse Grains advancing in sympathy. The trade in Hog Products was fairly active, with the trade mainly in the deferred deliveries. Prices were somewhat irregular, but closing quotations show but little change from those of last Friday. Hogs were in fair supply and prices easier. Packing of the West for the week was reported 95,000 ahead of last year and for the season 12,460,000, against 12,415,000 last year, an increase of 45,000 Hogs.

Only a moderate trade was reported in the cash Grain markets the past week, business being curtailed to a great extent by the very moderate offerings. The demand was good for all descriptions and the meager receipts sold readily. Wheat was wanted and the better grades were scarce. Considerable competition among buyers and higher prices ruled. Corn, too, sold well, and an active demand was reported for cargoes. Holders were very firm in their views and relatively higher premiums were obtainable for Yellow. Oats were in good request at the prices ruling. Rye was firm and Barley very steady. The trade in Seeds was moderate. Timothy was easy. Hay was quiet and steady. Hog Products were in moderate demand, with fair offerings. Sales chiefly to the domestic trade. Hogs were in fair supply and prices easier. Cattle sold well at higher prices and Sheep were steady.

FREIGHTS—Traffic East and West is more active, and cars are getting scarce on Eastern roads. The tariff is as follows:

To—	From Chicago. Domestic.	From Chicago. Export.	From Miss. River. Domestic.	From Miss. River. Export.
Boston	19½	13½	22½	16
New York	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News	14½	11	16½	14½

Flour rates are 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 3c per bu on Wheat and Corn.

Ocean rates on Grain are easy with a light demand for tonnage. Rates on Grain are ¾@1d per bu from New York and 1d from Boston. Through rate on Wheat from Chicago to Liverpool is 6 27c per bu and Corn 6 15c. Flour 19c per 100 lbs and Provisions 35⅛c per 100 lbs.

Lake rates are steady, with a light demand for boats, at 1⅝c on Wheat and 1⅛c on Corn to Buffalo.

FLOUR—Millers and sales agents alike were unanimous in reporting the local market in good healthy condition. The business booked was at very satisfactory prices, quotations in some instances 25@30c higher than last week. Millers were very independent in their views and dictated prices. The steady advance in cash Wheat values was mainly responsible for the attitude of manufactures of Flour. The smaller interior millers of the Southwest were reported in many intances booked from thirty to sixty days ahead. Sales were almost exclusively to the local and domestic trade only an occasional lot being worked for export. Offerings from the outside were moderate and consignments were meager. The output in the Northwest this week was heavy at 529,000 brls, compared with 555,000 brls for the corresponding week in 1903. City mills are all running full time and the outlook is bright for an active trade with the approach of winter weather which increases consumption. Stocks here in second hands are moderate and the large consumers and retail dealers are carrying much smaller supplies than customary at this season of year. One of the leading local manufacturers of Flour said this week: "Millers are disturbed to find that even choice Wheat does not go as far in making Flour on this crop as usual. It takes from 5 bu to 5 bu and 10 lbs of good Spring Wheat weighing from 52½ to 54½ lbs per bu to make a barrel of Flour, instead of the 4½ bu which the trade figures on usually. The Bran is unusually thick on the kernals, which are more or less shrunken, and while this Wheat makes a fine strong Flour of the best quality, a better Flour than we could make from the Spring Wheat crop last year, it takes more Wheat to make it. This applies particularly to the Spring Wheat, though even in milling Winter Wheat a larger amount is required than usual to make a barrel of Flour." The week closed steady at the following prices:

MILLSTUFFS—The market ruled easier during the week, with moderate receipts and a light demand. Bran in bulk sold at $15 25@16 00 and in 100-lb sacks, sacks included, at $16 75@17 00. Middlings in bulk sold at $17 25. Shorts in sacks sold at $17 00@18 00.

WINTER WHEAT—Ruled firmer during the past week and prices were advanced 1@3c. There has been a fair business; the various interests bought, but millers were not so anxious to purchase as last week, and the last days of the week had almost entirely withdrawn from the market. Choice Wheat sold well. There were several round lots sold out of store, besides the car lot sales of fresh arrivals by sample on track. The improvement in prices was in sympathy with the advance in the speculative market. The stock of No 2 Red in store was 297,000 bu, and a year ago was 1,491,000 bu. For the week receipts were 128 cars and 15,000 bu by canal and 31,200 bu by lake, against 255 cars the previous week. There were withdrawn from public elevators 262,650 bu, and from private warehouses 145 cars and 121,000 bu. No. 2 Red in store ranged during the week at $1 16¾@1 18, down to $1 15½@1 17, and up again to $1 17¾@1 19¼. Fresh receipts free on board were quotable during the week at $1 17@1 22. No. 3 Red fresh arrivals free on board sold at $1 13@1 19—outside for very choice, and ranged down to $1 10 for common. No. 4 Red fresh receipts free on board sold at 95c@$1 14 for ordinary to very choice. No Grade Red sold at $1 16@1 18 for choice. No. 2 Hard fresh arrivals free on board ranged at $1 11@1 16. No. 3 Hard fresh arrivals free on board sold at $1 01@1 15 for ordinary to very choice. No. 4 Hard sold free on board at $1 04@1 08, and at the river at $1 02@1 05.

SPRING WHEAT—The market has ruled rather firm during the past week that is for good milling grades of Wheat, and quite dull for the very poor Wheat. There has been a fair business during the week, trading being held in check by the only moderate receipts. A fair demand existed for the choice Wheat, all the offerings being taken up readily by the different buyers, especially the hard variety, which brought a premium. Some very poor, shrunken light weight Wheat was received, and that was found to be slow sale, and could only be disposed of at a very large discount. The sales of No. 4 during the week showed a range of 45c between the poor and the best. Buyers wanted the choice Spring Wheat, especially the hard variety, but did not bid up any for the offerings. The receipts for the week were 222 cars, against 293 cars the previous week. There were withdrawn from public elevators 8,000 bu and from private warehouses 17 cars. No. 1 Northern fresh arrivals free on board were quotably at $1 18@1 20. No. 2 Northern fresh arrivals free on board was quoted during the week at $1 14@1 20 but quotations entirely nominal with a sale at the river at $1 18¼. No. 3, Spring fresh receipts free on board ranged at $1 07@1 17. No. 4 Spring fresh receipts free on board sold at 80@75c for poor, at 85c for ordinary, at $1 00@1 06 for fair to good and at $1 09@1 14 for good to choice to hard variety.

REGULAR WHEAT—The Wheat market was unsettled and sensitive most of the week, the close showing the December 2⅝@2¾c higher, while May gained 2⅛c. A feature was the relative strength of the December, which at one time was quoted 1⅝c over May. The early tone was weak and the market received indifferent support. Liquidation of "long" property was quite general and prices gradually declined, December touching $1 11½ and the May $1 10½. The favorable crop news from abroad and "bearish" statistics, coupled with the liberal receipts and fine weather on this side, all combined to create a "bearish" feeling and "longs" became discouraged. The declining tendency of values on the Continent as well as in the United Kingdom also worked against the price. World's shipments were again large at 11,368,000 bu; previous week, 11,381,000 bu; one year ago 11,904,000 bu. Russia contributed 5,232,000 bu, against 3,872,000 bu during the same week in 1903. The quantity on ocean passage decreased 56,000 bu and is now 40,064,000 bu, against 31,632,000 bu one year ago. The visible supply increased 2,622,000 bu, against 1,427,000 bu increase same week in 1903. Total is now 23,410,000 bu, against 22,295,000 bu in 1903 and 27,654,000 bu in 1902. Local public stocks increased 47,000 bu, and are now 2,365,000 bu, against 2,121,000 bu same date in 1903. Local stocks in all positions were reported at 4,750,000 bu, an increase last week of 347,000 bu. Stocks one year ago, 3,589,000 bu. Contract stocks increased 50,600 bu and are now 1,536,000 bu, against 1,540,800 bu one year ago. *Bradstreet's* available supply increased 7,457,000 bu, compared with 5,289,000 bu increase same week in 1903. English visible supply of Wheat increased 1,278,000 bu, compared with a decrease of 84,000 bu last week, and an increase of 1,269,000 bu the corresponding week last year. Stocks of Wheat in public warehouses in Liverpool were reported 4,240,000 bu, compared with 3,992,000 bu one week ago and 2,864,000 bu for corresponding week a year ago. At the decline, and around $1 11½ for December and $1 10½ for May "shorts" covered freely and investment buying led by the Southwest was much in evidence. The strength of the December was reflected in May and before the demand was satisfied the former touched $1 16¼ and the latter $1 11⅞. The strength in cash values in the Southwest as well as in the Northwest, talk of smaller receipts and reports of Hessian fly in Illinois and Missouri all acted as "bull" influences and helped stimulate values. Advices from the Northwest the first of the week suggested that the movement was at its height and that farmers had sold out their holdings pretty closely. Hexton, N. D., where the crop was good, wired that 70 per cent had been marketed. Duluth claimed that receipts of good milling Wheat did not increase and the demand for what they had was becoming keener all the time. Country elevators reported deliveries light. Whether the weather was responsible or whether it is because the farmers are well sold up it will take several weeks yet to determine. Primary receipts this week, however, were liberal and from June 27 to October 17 aggregate 83,467,000 bu, compared with 76,091,000 bu in 1903 and 106,620,000 bu in 1902. Exports were again small at 1,066,000 bu, making 21,686,000 bu since July 1, against 49,398,000 bu in 1903. Bookings on the coast were again meager and disappointing. "This country will do a large export trade in Corn, Oats and Barley during the first quarter of next year," said one of the leading New York exporters who was here Monday. "The extent of this business will, of course, depend on prices. As regards Wheat New York has only one buyer—the one big mill there. It has been offered Wheat from all sides, the European continent included, and of quality to suit. German Wheat a fortnight ago was only 2c out of line for import, duty added. A break here prevented the closing of the transaction. If we should get a sudden boom in Wheat prices in this country it will be the duty of the mills to import Wheat from any quarter, just as some of the Northwestern mills are doing from Manitoba." Foreign crop news was "bearish" and *Broomhall's* summary on the outlook was as follows: "United Kingdom—Fall seeding is well advanced. France—Seeding is progressing actively with predictions of increased acreage. Offerings from farmers are larger. Germany—The weather continued most favorable for seeding. Supplies of native Wheat are now fair. Sweden—The fall crops were seeded under favorable conditions. Roumania and Bulgaria. Good progress has been made in seeding, and an increase in acreage is expected in both countries. Russia—Weather in Southwest is drouthy, but elsewhere conditions are generally favorable. Arrivals of Wheat at the ports are smaller and several railways have a partial Grain blockade which is believed to be owing to scarcity of cars. Australia—Recent reports of beneficial rains are confirmed. India—Crop situation continues favorable." The Buenos Ayres *Standard* of Sept. 8 said: "Taking the country as a whole, indications point to large crops. There is a decrease in the Flax Seed acreage, but the areas of Wheat, Corn and Alfalfa will undoubtedly be considerably increased." The *Modern Miller* and *Price Current* both reported the new crop on this side as having a good start. Argentine shipped 1,108,000 bu this week and since January 1 aggregate 85,141,000 bu, as against 59,616,000 bu one year ago. The visible there was reported 2,688,000 bu, as against 2,576,000 bu one week ago and 4,284,000 bu one year ago. Cable advices received the last of the week claimed the new crops there were doing well.

CORN—There was a very good speculative trade in the Corn market the past week and the close shows the December 1¼@1⅜c lower than last Friday, while May lost but 1 16c. Transactions, as was the case last week, were mainly local and a good deal on the professional order. The situation at the start was weaker and lower prices were established under quite general liquidation, influenced in the main by the favorable weather and satisfactory reports regarding the maturing of the new crop. Galveston reported the new Corn arriving there grading well, with a considerable percentage No. 2 and several cars of new and old mixed were received here this week. Reports from Illinois, Iowa and Nebraska, as a rule, all referred to the excellent quality of the new crop and an early movement was predicted. Before the decline was checked, December sold off to 47½c and the May to 44⅝c. The premium of the former narrowing to about 1⅞c, as against 4½c last week. There was considerable pressure on the December and market acted as though "shorts" had provided for their outstanding contracts pretty well on the week's bulges. At the decline, however, around 47½c for December and 44¾c for May the market ran into resting orders, and investment buying became general. The small receipts, decreasing stocks and excellent demand for the cash article were among the strengthening factors. Stocks here in all positions were reduced last week by 1,036,000 bu and are now down to 3,312,000 bu, 1,395,000 bu smaller than a year ago. Country acceptances were small and receipts for the week were only 614 cars, against 697 cars last week and 2,409 cars one year ago. Shippers, too, were after the cash article and round lots of No 3 Yellow sold to go East equal to 6⅛c over December in store. December rallied and touched 49⅛c, and the May went to 46⅝c. Realizing and profit-taking by "longs" followed and December reacted to 48c, while the May touched 45⅝c, when the "shorts" came in and a rally of ½@1c occurred. World's shipments last week were 4,081,000 bu, against 4,438,000 bu previous week, and 3,874,000 bu one year ago. The quantity on ocean passage decreased 418,000 bu, to 19,724,000 bu, against [illegible] 000 bu one year ago. The visible supply decreased 356,000 bu, against 13,000 bu increase one year ago. Total is now reported 4,109,000 bu, against 8,[illegible] bu last year and 2,231,000 bu two years ago. Local public stocks decreased 283,000 bu, and are now 1,751,000 bu, against 1,656,000 bu same time in 1903. Contract stocks were reduced 268,000 bu, to 1,7[illegible] bu, compared with 1,391,000 bu same date in 1903. *Bradstreet's* available supply decreased 1,078,000 bu, against 42,000 bu increase for the same period last year. Foreign markets were comparatively firm and the export demand is expected to improve in the near future. Clearings this week were reported 727,000 bu and since July 1 aggregate 10,[illegible] bu, against 17,032,000 bu one year ago. Bookings on the coast are gradually enlarging and mainly for December and January shipment. Receipts through the West showed quite a marked falling off compared with those of a year ago and further reductions in the available supply are likely. The local outward movement was fair and would have been larger but for the firm views of cash holders. Argentine shipments were again liberal this week at 2,922,000 bu, which makes a total of 73,700,000 bu since January 1, as compared with 61,237,000 bu for the same period in 1903. The visible there was reported at 4,654,000 bu, against 4,735,000 bu one week ago and 4,284,000 bu one year ago.

OATS—Sold at the lowest prices of the season and had a good reaction. The close was at a gain of ½@¾c, at 29¼c for December and 31⅛@31¼c for May. Trading was slow at the start but became more active with other Grains and made a good reaction. A large "short" interest has been created, and with May down to within a fraction of 30c, the "bears" began taking profits. The selling pressure was greatly reduced, particularly from hedgers, as country offerings and terminal receipts have materially decreased, both here and in the Northwest. The increase in stocks is also smaller, but they are still enormous. *Bradstreet's* available supply increased 855,000 bu, the smallest appreciation in over a month, but they are 35,[illegible] 000 bu, compared with 13,180,000 bu last year. The visible supply increased 1,251,000 bu, and is 2[illegible] 000 bu, against 7,880,000 bu last year. Stocks in all positions in Chicago increased 191,000 bu and are 11,005,000 bu. Of contract they are 3,522,0[illegible] bu, an increase of 238,000 bu. In the sample market business was better, both on local and shipping account, and cash sales were liberal. It is not easy, however, to secure cargo lots, as holders have their Oats mostly placed for May and do not care to disturb their hedges. The seaboard did a fair export business, making sales to English ports. Russian Oats, however, are offered relatively lower in European markets than America. A large business might be transacted for January, February and March loading were exporters willing to speculate on ocean rates. Receipts for the week were 896 cars, against 934 cars the previous week and 1,450 cars last year. Export clearances were 62,[illegible] bu, against 84,000 bu the previous week, and 140,[illegible] bu last year.

RYE—The market has ruled rather steady during the past week, with some sales of cash at slightly higher figures. For some reason the market for futures has been rather neglected—buyers and sellers at least sufficiently apart in views to prevent trading, and very little business was done in a speculative way. On the other hand, cash the fresh arrivals, met with a good demand by the various interests and was taken up readily. The best samples were picked up generally by millers and distillers, and the other lots mostly by speculators. There were a number of cars received during the week, which graded No. 3 and No. [illegible] bulk inspecting No. 2. For No 2 prices varied [illegible] depending some on the quality. The receipts for the week aggregated 54 cars, against 60 cars the previous week. There were withdrawn from public elevators 800 bu and from private warehouses 5 cars. The visible supply increased 20,0[illegible] bu, and was reported at 1,519,000 bu, against 961,000 bu a year ago. Local stock in store was 644,000 bu and a year ago was 452,000 bu. No 2 in store ranged at 77½@78½c; fresh arrivals free on board sold at 77½@81½c for ordinary to very choice, with sales billed through at 80c, and at the river at 75½@79½c. No. 3 fresh receipts free on board sold at 73@80c, and No. 4 at 72@73c. Future deliveries of No. 2 quiet. October was nominal, 78@78½c. December was nominal at 78½@79½c. May nominal at 81@81½c.

BARLEY—The market was at last relieved from the steady pressure of low grades on sale, from which it has been suffering for some weeks. There was considerable decrease in the receipts the past week. A good export demand soon cleaned up the market for the cheaper grades, and about [illegible] advance followed, with late in the week buyers plenty and sellers scarce. Low grade malting was stimulated somewhat by this change, and also toward the end became stronger. Good to choice malting at all times was in demand and firm, and so scarce that little was done, aside from a little more business in to-arrive lots. The falling off in movement of under grades was perhaps due to the low prices which lately have prevailed, and the good to choice Barley seems to have been rather held back, the country not being in a hurry to market it. In some cases, when an improved feeling became apparent some to-arrive lots were withdrawn, and in a number of cases where bids were made they were refused. There were inspected in 367 cars, compared with 572 cars the week before and 585 cars two weeks ago. Output was 29,800 bu No 5. This ought to show materially in the next report of local stock, as it takes out the greater part of the grade most prominent in the local stock. There had been no withdrawals for several weeks. Exports from New York were 48,168 bu, the week before they were 37,626 bu and two weeks ago 8,462 bu. Visible supply increased 262,000 bu and was given as 5,556,000 bu, compared with 4,885,000 bu the same time last year. Local stock did not change; it was given as 41,729 bu, mainly No. 5; a year ago it was 7,565 bu. Sales of Screenings were over a wide range, 25@33c for poor to fancy. Feed Barley, good opened at 36c and advanced to 36½@37c. Low grade malting was 37@39c

to $8.40@ later, and fair to good improved at $8.25@8.30 to 40@45c, while high grade was 45@ and some fancy sold up to 55c.

Seeds—There was a fair degree of activity in timothy considering the season, and under free offerings the feeling was steadier with a small demand. Prices advanced fairly and then eased somewhat, being at all times quiet. There were the only changes at all marked or of interest in the market. Clover was quiet and unchanged and other kinds for the most part nominal. The Buckwheat on the crop came to market.

Timothy—Several days during the week a fairly liberal quantity of timothy seed was offered, and as the offerings would be small, altogether the supply was good. Arrivals according to the figures were not so large as a week ago. Trade in spots was brisk. It is the slow season and a slight decrease in the output appears. There was a steady tone to the market. Few buyers were present and no competition existed. Prices did not change materially and from this standpoint, the features considered, the market it would be said did very well. Very little high grade Seed was received but offerings were more of a rough sort. In a speculative way nothing was doing and offerings to sell were both very moderate and neither side seemed anxious enough to bids to yield to the other side, though asking and bid were 10c. apart. Contract specs for October delivery was held early at $2.65 and declined to $2.60. January early was nominally $2.75 and declined later at 30c; closing at $2.65 bid. March opened at $2.80 with $2.80 bid and later it was easier at $2.80. For country lots fair to good the market was about $2.20@2.35, high grade Seed sold at $2.40@2.45, and choice to fancy at $2.50@2.60, rich, dirty, or badly bulled about $2.10@2.25, mow grade $1.70@2.00; inferior lower.

Flax—There was some advance in prices—about the improvement was based on changes in Northwest. Business in this market has continued of a very small order in cash Flax, as well in futures. Arrivals have been small. It was rumored that early weather in the Northwest was favoring the movement. Little in the way of offering outside orders would seem to have been done from the small output reported. There was a small lot of Northwestern stocks, but supplies remain liberal. Receipts decrease, the market became weaker, and about ic of the early advance was lost. Eighteen cars came in during the week, compared with 39 cars and 115,000 bu for the previous week, and 14 cars or 110,000 bu two weeks ago. There were withdrawals of only 2,500 bu, against 115,000 the week before, and 30,000 sold bu two weeks ago. Local stock did not change, remaining at 16,617 bu; a year ago it was 39,315 bu. Minneapolis decreased 315,631 bu, receipts, 433,840 bu. At Duluth there was 297,321 bu decrease, with 4,318,976 bu there. No. 1 cash was nominal; none of this grade coming on sale; closed at $1.09 early to $1.11 later, and closed at $1.08. No. 1 Northwestern from store in this city closed at $1 16@. Rejected was nominally 90c@$1 00. Prices for the grade above. October delay advanced in a nominal way from $1.09 to $1.11 and closed at $1.10. Now and then a selling of for December delivery would sell, and prices changed from $1.11 to $1 13@; closed at $1.12@.

Oats—There has been no open market business to speak of the past week. Some days a few lots would appear on sale and then again there would be no. The weather was fine and it was reported that the country was offering more freely, and order demand said to be rather tame. There was no speculative interest whatever in the market. Prices were not subject to change and were quoted the same day to day over a range as follows: October delivery was quoted at 31@32 5. Contract spot Seed the same. Country lots common to choice, 28 @ 32@30; very poor lower, and fancy above. Fair to good, 30@ 31@.

Other Seeds—There were no changes in prices the past week. Values continue for the most part nominal. The market remained about nominal and without sales, aside from occasional lots of wild mustard. Prices quoted during the week are shown in the table of prices elsewhere given. Movement of Seeds under the head aggregated totals for the week as follows:

BUCKWHEAT—The first of the new crop came on the market. The Wheat was good, a little moist, and sold at $1 35 per 100 lbs.

Hay—Receipts for the week were 3,815 tons, against 1 683 tons for the previous week. Shipments for the week were 391 tons, against 198 tons for the previous week. Strictly choice are a shade better. Prairie Hay was quiet and rather good demand during the past week. The offerings of these grades were small and a steady feeling prevailed. Although the quality was good and medium grades were smaller than during the previous week, the amount on sale was large, for the season that the demand was so light, that conditions favorable on both sides existed. Receivers were unable to dispose of them promptly. The market ruled very dull and prices declined 50@$1 00 per ton. Quotations at the close ranged as follows: Timothy, $12 00@13 00; No. 1 Prairie, $11 0 @11 50; No. 2 Timothy, $9 00@10 00; No. 1 Timothy, $8 00@9 00; Choice Prairie, $11 00@11 50; No. 1 Prairie, $9 50@10 00; No. 2 Prairie, $8 00@9 00. No. 1 Packing Hay, $6 00@7 00. No. 2 Packing Hay, $5 00@5 50. Inside prices on Prairie Hay for State and occasionally for Kansas, Nebraska and Iowa Hay. Sales ranged as follows: Choice Timothy, $13 00 for Timothy, $7 00 for Threshed Timothy, $5 50@6 00 for Slough, and $6 00@10 50 for Iowa and Kansas Prairie Hay. Rye Straw sold at $8 00@9 00 and Oat Straw at $6 00@7 00.

Hops—Very little business transacted in Hops for consuming during the past week, and no particular changes to note. Offerings were fair, and the demand was limited. Brewers were not looking for purchase and outside parties accepted only small quantities. No material changes in prices reported. Ask for Prime State, 1903 crop, 30@ 32c; 31 @. Oak Park Barrels were quiet and prices nominal at $1 07@$1 10. Lard Tierces were quiet and slow sale at $1 25@1 27½. Iron bound Lard Tierces were quiet and nominally unchanged at $1 17½@1 20 for six hoop and $1 25@1 27½ for eight hoop. Cleo Tierces were quiet at $1 25@1 27½.

Hogs—The receipts of Hogs during the week were fair, and the quality not very good—a little less than during the week previous. The market in a general way was quite active, but the feeling was comparatively easy. Packers accepted a good proportion of the offerings and shippers provided for their orders from the Eastern markets. Prices on the whole ranged declined 20@40c, and the market closed comparatively steady at the reduction. Sales during the week were made at $4 75@5 40 for light, $4 65@5 00 for rough packing, $4 80@5 00 for mixed and $5 00@5 02½ for heavy packing and shipping lots, with the bulk of the trading within the range of $4 75 @5 40 for fair to good, and about the same about 2,800 Hogs remained in the pens unsold. Pigs were in fair supply, and rather good demand, and sales were made at $4 40@5 00, according to size and condition. Shipping Pigs were largely wanted, packing points were fair, and the quality fairly good.

PACKING—A fair business was transacted at the packing houses during the past week. Hogs were in fair supply and prices lower, and this feature incorporated a little more activity. Manufacture of Products was largely of descriptions most in request. Meats were freely selected. Other cuts of Pork made sparingly. Lard produced in fair quantities, and the average yield was moderate. A fair proportion passed in tanks. Domestic cuts of Hams made in fair quantities. Smoked bulk cured by manufacturers. Skinned Hams made moderately, and only a small proportion sold from the block. Boneless Rib Hams nearly neglected. Shoulders made sparingly, with a fair proportion sold to the retail trade. Picnic Hams made in fair quantities, and the bulk cured by manufacturers. Long Clears made in fair quantities for the Dressed Meat and retail trades. Foreign fancy and special cuts of Meats made sparingly.

PROVISIONS—Only a fair trade was reported in Hog Products during the past week, and the feeling was somewhat unsettled. Outside orders were not very large, and local trading was only on a fair scale. Hogs were in fairly good supply, and prices ruled lower, which had a temporary effect on the market. The strength manifested in Grain encouraged a little buying at times. Near delveries met with little favor, and the bulk of the trading was in January and May contracts. Transactions for January delivery based on about 84 5 for Live Hogs. The favorable weather for planting Corn had a little effect early in weakening the markets for the longer deliveries. Supplies of the speculative articles are gradually decreasing, and the production is rather light. Returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited an increase of 95,000 Hogs, and the total packing for the summer season is now 65,000 Hogs in excess of the corresponding time last year. Foreign markets were rather easy early in the week, and prices ruled lower on the leading articles, but toward the close a little more steadiness was manifested, especially in Meats. Domestic markets was inclined to quietness—the rush apparently has subsided temporarily—and prices favored buyers. The receipts of Products from the Interior were moderately large, as interior packers appear to be willing to sell at current prices. Shipments were fair and widely distributed, a large proportion for export. Early in the week, the feeling was rather firm, and prices were advanced moderately, due partially to the demand from "shorts." As the improvement, there was considerable pressure to sell, influenced to some extent by the decline in prices of Hogs, and prices declined sharply. This reduction brought buyers into the market again, especially for the deferred deliveries, and prices rallied again. While outside prices were not fully supported, the market closed rather steady. Near deliveries were traded in sparingly, and were rather slow sale. Moderate deliveries were made on October contracts. In the shipping branch of the trade, apparently little interest was manifested. Offerings were moderately free in a quiet way, while the demand was only fair and for small quantities. Exporters purchased very sparingly. Orders from abroad were moderate for future delivery, but bids were below the views of sellers. The demand for the domestic trade proved rather light, as dealers appear to be well stocked up for the present. Prices rather inclined in favor of buyers. Stocks of all kinds are fair for the season of the year.

Pork—The market for Mess Pork attracted fair speculative attention during the past week, and a good business was transacted in a jobbing way on hand and in January and May contracts. Stock on hand decreasing very slowly. Market somewhat unsettled, and fluctuations in prices were frequent. Early in the week the feeling was rather firm, with miscellaneous buying, and prices were advanced 17½@20c. At the advance, there was considerable pressure to sell, while the demand was light, and prices regularly declined 32½@35c. This reduction encouraged "shorts" to purchase to some extent, and a firmer feeling was developed. Prices advanced 47½@50c. Toward the close, the feeling was not so strong, and prices settled back 5@7½c, and the market closed rather steady. Demand on shipping account was moderate in the way of filling small orders, and prices were firm in favor of buyers. At the close, cash lots were quotable at $14 50@11 40. Other cuts of Pork were in light request, and prices were unchanged. Mess Pork is quotable at $14 50@15 00.

Lard—A fairly good speculative trade was transacted in the Lard market during the past week. Feeling somewhat unsettled, and prices ruled rather lower. Offerings were moderate, and the demand was fairly active. Foreign advices indicated little change in that quarter—prices rather inclined in favor of buyers. Exporters accepted a few lots, but markets generally rather easy. Stock on hand slowly decreasing. Deliveries on October contracts were moderate. Bulk of the trading was in January and May contracts. Early in the week, there was a fair miscellaneous inquiry, while the offerings were moderate. Prices were advanced 10@12½c. At the improvement, there was some pressure to sell, and prices declined sharply, and prices declined 17½@20c. At the decline, there was quite a good demand, and prices were advanced 2@2 5c all around. Toward the close, the feeling was not so strong, and prices settled back 2½@3c, and the market closed comparatively strong. Demand on shipping account was only fair, and offerings were rather free. Some export sales reported, but most of the small trades were made at $7 50@7 75, and the market closed rather steady at $7 70. Neutral was called for moderately, with no particular pressure to sell. Feeling was rather easy and prices were lower, closing at $8 87½@9 00 for No. 1, and $8 37½@8 50 for No. 2.

Short Rib Sides—A fairly good business was transacted in Short Rib Sides during the past week. Offerings were moderately free, and the demand was fairly active. "Shorts" accepted fair

quantities. Manufacture was moderate. "Longs" were rather scarce unless out their holdings in the near deliveries. October irregularly receded $5@10c on the whole range, and closed quiet at the decline. Deferred deliveries were stronger early in the week, and prices were advanced 10@12½c. At the improvement offerings were somewhat enlarged, and a weak feeling was manifested. Prices irregularly receded 10@15c on the whole range. At the reduction, buyers again took hold, while the offerings were moderate. Prices rallied again 2½@2½c. Toward the close, the feeling was not so strong, and prices receded 5@10c, and the market closed comparatively steady. Good deliveries were made on October contracts. The demand on shipping account was moderate and offerings were rather free. At the close, cash lots were quotable at $7 25@7 37½, according to weight.

Green Meats—Trade in Green Meats was comparatively light during the week just closed, and the feeling was easy. Offerings were not large, and the demand from all sources was comparatively small. Local curers were not inclined to purchase, while outside parties forwarded only limited orders. Holders show to grant concessions in prices, and buyers backward in meeting their views. No trades made public for future delivery. Shipments were comparatively moderate. Hams were in small request and prices were about 4c lower. Regular for November, December and January delivery quotable at 8½@8¾c. Skinned Hams were light demand and dull at 4@4½c decline. Shoulders were in small request and prices ruled slightly lower. Picnic Hams were dull and dragging and prices ruled about ¼c lower. Bellies were quiet and prices favored buyers.

Pickled Meats—Only a moderate business was reported in the market for Pickled Meats during the past week, and the feeling was easy. Offerings were fair in a quiet way, and the demand was moderate and for small quantities. Foreign advices were unfavorable to holders. Orders from the domestic trade were light. Holders rather slow to grant concessions. Supplies of all kinds are fairly liberal. No sales made public for future delivery. Hams were in small request and offerings were moderate. Prices ruled about 4c lower. Skinned Hams were in moderate demand to fill small orders, and prices ruled about 4@5½c lower. Shoulders were in rather light demand, and prices were slightly lower. Picnic Hams were in limited demand and prices were about 4c lower. Bellies were called for in small quantities, with little change to note in prices.

Dry Salted Meats—Trade in Dry Salted Meats was on a moderate scale during the past week and the feeling was easier. Offers were fair, and the demand was light. Trade only in small lots and for small quantities. Foreign markets were rather easy early in the week and prices were lower on some descriptions, but were steadier toward the close. Domestic markets were rather quiet, with prices favoring buyers. Supplies of all kinds are fair. Foreign cuts of Hams were neglected, and prices favored buyers. Shoulders were in small request, and prices were without material change. Long Clear sides were in active, and prices nominally 5@7½c lower. Extra Long Clear Sides inquired for, with only nominal offers. Short Clear Sides were in light request for delivery sixty to ninety days ahead, but held above the views of buyers. Extra Short Clear Sides were called for moderately, and prices ruled slightly lower—closing at $7 30@7 35. Extra Short Rib Sides were called for moderately, and prices ruled lower—closing at $7 25@7 30. Long Rib Sides were in light request, and prices were moderate. WHEAT IN THE NORTHWEST.

[From the Minneapolis Market Record, Oct 21]

Our report on this year's Wheat acreage as compared with the acreage given by the census report for 1900, which gave Minnesota an acreage of 6,560 707 acres North Dakota 4,451 251 acres and South Dakota 3,981,659 acres, shows a falling off in Minnesota of 12 points, an increase in North Dakota of 13.3 points, and a decrease in South Dakota of 3.7. This is an acreage considerably larger than the acreage as given by the Department of Agriculture for this year, and, if correct, would mean a crop of some 20,000,000 bu larger than that indicated by the report published in the *Market Record* last month, which showed a crop of 154,000,000 bu for the three Northwestern States

The weather this season has been more favorable for farm work than it was a year ago, but there is still a considerable amount of Grain to be threshed In Minnesota it is shown that the amount still unthreshed is 18.6, North Dakota 21 5 and South Dakota 11 per cent of the crop

The movement this year is not much different from that of a year ago, while the inspection shows the percentage of No 3 Wheat or better to be practically the same as that of last year

The receipts at Minneapolis and Duluth up to date are 30 413,811 bu, against 30,018 422 bu in 1903 Last year the fall movement was curtailed considerably by the long spell of wet weather during September and October and also by the millstrike in October. This year, however, everything has been favorable for the movement The weather has been desirable for the most part Country roads have been good and prices have been high, all of which were inducements to the free marketing of Grain from first hands

The Grain inspection shows that up to the present time 24.2 per cent of the total receipts at Minneapolis was Rejected and No Grade and 17 4 No 4, the new grade established this year to take care of the damaged and shrunken Wheat, weighing 49 lbs. and over, and of which there is a considerable amount due to the rust just before harvest. The inspection for the same time a year ago shows the amount of Rejected and No Grade to be 41 6 per cent of the total receipts. There has been a great deal of speculation as to what would become of this light weight Wheat this year. So far it has found a fairly ready sale to millers outside of the Northwest where it is being used to mix with heavier weight Winter Wheat.

Threshing has progressed very favorably so far and about 32.5 per cent of the crop in Minnesota, 45 5 in South Dakota and 48 per cent in North Dakota is estimated has been marketed

The movement of Wheat from Aug. 1 up to present time to Minneapolis and Duluth amounts to 30 413 811 bu At country mills, say 15,000,000 bu, and now in country elevators 6,700,000 bu, or a total of 52 117,841 bu During the next nine months the following requirements will have to be met: Minneapolis mills, 53,000,000 bu; Duluth-Superior mills, 6 000 000 bu, country mills, 51 000,000 bu; for seed, 18 000,000 bu besides the amount that will be wanted for shipment from Minneapolis and Duluth to mills outside of the Northwest. The situation is suggestive of high prices for cash Wheat the balance of the season

THE WEATHER CONDITIONS.

Weather forecast for 36 hours Minnesota, generally fair, cooler southeast; rising temperature Sunday North and South Dakota and Nebraska, fair to-night and Sunday; rising temperature Sunday. Iowa, fair; cooler. Missouri and Kansas, fair to-night and Sunday. Illinois and Indiana, fair; cool to-night and Sunday.

ARGENTINE CROP AREAS.

[From the Corn Trade News, Oct. 12.]

Official returns show that the acreage under Wheat in Argentina has increased 20 per cent, that under Flax Seed decreased 20 per cent. The area under Wheat in the four chief provinces (Santa Fe, Buenos Ayres, Cordoba and Entre Rios) last year was 10,236,000 acres, Flax Seed 3,646,000 acres. Very little Grain or Seed is grown outside the provinces mentioned. An increase of 20 per cent for Wheat on last year's acreage means an addition of 2,000,000 acres, while 20 per cent decrease on the Flax Seed area is 730,000 acres The yield of Wheat is usually 12 to 13 bu to the acre, Flax Seed about 11 bu

ITEMS OF GENERAL INTEREST.

Corn crop of Nebraska is estimated at 265,000,000 bu, and the quality good.

The rate of discount of the Bank of Bombay has been advanced from 4 to 5 per cent.

The business section of Wills Point, Texas, was swept by fire. Thursday. Loss, $150,000.

Nearly an entire block in Pembina, N. D., was burned, Thursday, causing a loss of $100,000.

Fire at Oakwoods, Texas, Thursday, destroyed the stores of the Star Grocery Company. Loss, $70,000.

The Chicago Hydraulic Pressed Brick Company's plant at Porter, Ind., was destroyed by fire, Thursday. Loss, $150,000.

Baltimore had several cars of new Corn, Friday, which was in fine condition. A message from there said: "Exporters seem to have lost all interest in Corn. They apparently can do no business, and ship brokers tell me there is no inquiry for freight room "

The directors of the Pressed Steel Car Company will meet the latter part of this month to act on the quarterly dividends on the preferred and common stocks, namely, 1¾ per cent and 1 per cent respectively. From the present indications these rates will be maintained.

River Plate Review of Sept. 17 says: "This year there is every prospect of our having a bumper Wheat crop The area sown is about 20 per cent increase on that of last year, so that if everything goes on as it is at the present time we should have a crop of over 112,000,000 bu Wheat for export.".

Of the $7,000,000 5 per cent bonds which the stockholders of the Crucible Steel Company have authorized the management to issue, only $6,000,000 will be put out in the near future. These will be offered first to the stockholders at not less than 95, with the probabilities that the offer will be at 97½ and interest.

Berlin cables report that much needed general rains have benefited all crops, but cold weather is retarding their progress. On a scale of two signifying good and three medium, the Prussian crop report for the middle of October shows the condition of Winter Wheat to be 2.6 and of Winter Rye 2.7.

The American Tobacco Company has been chartered at Trenton, N. J., with $180,000,000 authorized capital stock. Of this $100 000,000 is common and $80,000 000 6 per cent cumulative preferred. The merger includes the American, Consolidated and Continental Tobacco Companies. The main office will be in Jersey City.

The Pacific Coast Company's annual report for the year ended June 30, issued, Thursday shows gross earnings of $5,902,972, an increase of $296,218; total expenses, $4,717,943; net earnings, $1,185,029, a decrease of $26,918. The year's surplus is $1,717,267, an increase of $266,726. Repairs and renewals caused the increase in operating expenses.

It is reported that the Sloss-Sheffield Steel and Iron Company has decided to accumulate Iron up to the amount of 300 000 tons at its furnace bank, expecting the market to advance from $2 00 to $6 00 per ton by Jan. 1. Southern companies have been refusing for some time to make contracts for next year's delivery, while Northern furnaces have been willing to make contracts for the first and even the second quarter of 1905, but have demanded a premium for the same.

The General Electric has sufficient orders for turbines to keep both the Lynn and Schenectady portions of the plants devoted to this part of the business busy for two years. Present contracts booked for turbines of the Curtis model aggregate 51,000 K. W. and approximate in value $16 000,000. These are in the main for Japan. Orders aggregating 15 000 K. W. have come from China, Russia and England. The Japanese and Russian orders were placed before July. At present the company is accepting no further turbine contracts.

The most important contract for new ships ever placed on the great lakes was closed, Thursday, with the American Ship Building Company by the Pittsburg Steamship Company, the marine end of the United States Steel Corporation It calls for the building of four steamers the largest ever constructed on fresh water They will be duplicates in size cost $430,000 each, or $1,720,000 for the four ships Two are to be built at the yard of the Chicago Ship Building Company at South Chicago, but it has not yet been decided where the keels of the other two will be laid According to the contract the new ships are to be delivered ready for service between May 1 and July 1, 1905.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Continue in good demand and very firmly held.

WINTER WHEAT—Was quiet and steady. The milling demand was limited and trading was confined to a few cars of fresh arrivals. No. 2 Red in store nominally $1 18@1 19⅜, and fresh arrivals free on board nominally $1 21@1 22 No. 3 Red fresh arrivals free on board sold at $1 15@1 19. No. 4 Red fresh arrivals free on board sold at 95½c @$1 16—outside very choice. No. 2 Hard fresh receipts free on board quotable at $1 14@1 16. No. 3 Hard fresh arrivals free on board sold at $1 08, and ranged at $1 07@1 12, with a sale of choice at the river at $1 14 No. 4 Hard fresh receipts free on board sold at 93@95c and a choice car, mostly soft, sold billed through at $1 15½.

SPRING WHEAT—Ruled quiet and unchanged. Good Wheat fair sale and steady, but the very poor Wheat dull and weak. No. 1 Northern fresh arrivals free on on board were nominally $1 18@1 21 No. 2 Northern fresh receipts free on board quotably $1 14@1 17, with a sale at $1 15. No. 3 Spring quotable at $1 05@1 15, with a sale free on board at $1 13 and at the river at $1 12. No. 4 fresh receipts free on board sold at 90c@$1 00 for common to fair, and was quotable at 60c@$1 12 for very poor to choice. A sale at the river at $1 03.

REGULAR WHEAT—A large trade and strong market, the close showing the December up ¾c while the May gained ⅞c. The higher cables and decline in British consols owing to the Baltic fleet incident, started the market higher, but at the advance considerable "long" property came out and prices settled back, the decline being checked by large purchases for a local elevator concern. Liverpool quoted spot steady to ½d higher and London was ¼d lower to ¼d higher. Paris was steady to ¼c lower. Antwerp was unchanged. Buda Pesth came 1⅜c lower and Berlin a shade easier. World's shipments were 10,920,000 bu. Russia contributing 4,720,000 bu, against 11,368,000 bu the previous week and 12,832,000 bu one year ago. The quantity on ocean passage decreased 1,408,000 bu and is now 35,656,000 bu, compared with 30,784,000 bu in 1903. The visible supply increased 1,236,000 bu, against 189,000 bu increase last year. Total is now 24,655,000 bu, against 22 484 000 bu in 1903 and 29,918,000 bu in 1902. Local public stocks decreased 83,000 bu and now include 2,282,000 bu, compared with 1,856,000 bu same date in 1903. Map showed snows in Manitoba and South Dakota and local showers through North Dakota. Continued cool conditions were predicted Springfield, Mo., reported the Hessian fly in that vicinity and many fields turning yellow. St. Charles County, Mo., also reported the appearance of the fly Northwest cars were 191 smaller than last year, while primary receipts were about the same as in 1903. Kansas City and St. Louis received 337,000 bu, against 202,000 bu last year. Liverpool stocks, 4,448,000 bu, increased 208,000 bu last year. Stock one year ago, 2,920,000 bu Winnipeg had 243 cars, against 225 cars last year. The report that Russia had apologized to Great Britain for the action of the Baltic fleet caused values to rule easier. Clearances were meagre and but no boat loads accepted at the seaboard. Kansas City advices as to the amount of Wheat on the farms in Southwest and cash situation were quite "bullish" Receipts at Duluth 144 cars, at Minneapolis 677 cars, total of 821 cars, against 683 cars Saturday, 994 cars a week ago, and 1,012 cars last year. Local receipts included 8 cars Winter, 13 cars Spring and 16 cars mixed, a total of 27 cars, against 78 cars last year. Included in the above was no contract grade. There were also 27 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 107 cars. The withdrawals were 18,500 bu. Receipts at Western points were 1,302,380 bu, against 1,367,055 bu last year. At Eastern points 19,631 bu, against 381,277 last year. Shipments from Western points 730 158 bu, against 491,678 last year, and from Eastern points no bu, against 112 814 bu last year. Shipments of Flour were 4,392 brls. Exports of Wheat in Flour were equal to 22 014 bu.

CORN—Only a moderate speculative trade, but the feeling was a little unsettled, close showing December up ⅜@½c, while May gained ⅛@¼c. The start was higher, but market was rather tame and uninteresting and soon developed an easy tone, with cash and commission houses the principal sellers. At the decline the demand improved and situation became stronger Country acceptances were small and receipts light at 101 cars, against 362 cars last year, and 137 cars estimated for to-morrow Liverpool quoted spot steady and futures ⅛@½d higher. Stocks there 788,000 bu, decreased 68,000 bu last week World's shipments were 3,600,000 bu, against 4,080,000 bu the previous week and 3,909,000 bu one year ago. OATS—Were moderately traded in, and closed ⅛@¼c higher for the deliveries most actively traded in A feature was the buying of 300 600 bu July and selling of May at ⅛@¼c difference At one time changes were made even The flurry in Wheat had little effect in Oats. Cash houses were fair sellers of the May Cash sales were 150,000 bu. Country acceptances were small. The local stocks in public houses increased 175,000 bu and the visible increased 646,000 bu Arrivals 162 cars, with 186 cars expected to-morrow. Withdrawals from store were 116,600 bu. Seaboard clearances 0,282 bu. Car lots to go to store were steady to ½c lower. No. 4 White sold at 29@29½c. No. 3 White at 29½c.

Oats by sample were in moderate request and steady to ½c lower. Offerings were liberal Sales on track and free on board. No. 4 at 28¼@28½c No. 4 White at 28¾@29½c No. 3 at 28¾@29½c. No. 3 White at 29½@30½c Standard at 29¼@31¼c. No 2 White at 31¾@32c Billed through: No Grade 25@28c. No. 4 White at 29¼c. No. 3 White at 29¾@30c. Standard at 30@30½c. No. 2 at 29@29½c. Future Deliveries of Contract Oats — Were moderately traded in and closed firmer.

OCTOBER—Closed at 29⅜c

DECEMBER—Sold at 28⅝@28¾c and at 29c. Opened at 29c, sold to 28⅝@28¾c, to 29c, to 28¾@28⅞c at close

MAY—Active. Sold at 30⅞@30¾c and at 31@31⅛c Opened at 31c to 31⅛c, sold to 30⅝@30¾, to 31c at close.

JULY—Sold mainly at 30¾c, and closed at 30⅞c These are the first trades of the season.

RYE—Was dull and featureless for the deferred deliveries, but fresh receipts in good demand and firm, with sales of choice at 1c higher prices. There were 12 cars received and there were no withdrawals. No exports from New York. The visible supply increased 132,000 bu, and local stock was 657,000 bu, against 634,0 0 bu last week. No. 2 in store nominally 79c and fresh arrivals to go to store sold at 81c and free on board at 81@83c—top prices for choice. No. 3 sold at the river at 79c.

Future Deliveries of No. 2 Rye—Nothing doing. October 79c asked. December 78½c bid and 79c asked. May 81c asked.

BARLEY—A steady to firm feeling prevailed. A little more Barley of the malting variety appeared on sale; low grade or feed was scarce. Of the latter there was hardly sufficient on sale to fill all wants. At last week's advanced prices it was wanted. Of malting there seemed to be enough to go around. The demand was not on a large scale at all. To arrive Barley very quiet At current cash prices it could be sold, but at such figures it seems the country at present does not care to sell. Posted inspected in 58 cars. Local stock last week, in consequence of withdrawals then noted, decreased 30,000 bu and only a small quantity remains. Visible supply at the same time gained nearly half a million bushels, and is shown to be nearly 1,000 000 bu larger than a year ago. There were sales of Screenings at 23½@37c for poor to choice with fair to good going at 32@35c. Feed Barley in good demand at 37½c local, poor cars somewhat lower, and river billed at 30@36¼c. Malting, low grade, usually small berry, some heavy, but dirty, ranged at 38@40c. Clean, fair to good, at 41@43c and large berry, heavy quotable at 45@48c, with fancy 50@52c.

SEEDS—Future delivery Timothy was dull and easy, while cash Seed was salable and steady. Flax was a shade lower. There were no other changes. Entire market remains quiet

Timothy No special change to note in to-day's market. Futures were offered at previous prices and no regular demand appeared that suggested dullness. Cash offerings were moderate and consignments were taken with about former prices paid. Contract grade offered at $2 60 for present or October delivery, at $2 70 for January, and at $2 80 for March Country lots of fair to good quality were quotable at $2 25@2 35, high-grade Seed about $2 40, and choice to fancy $2 45@2 55. Rough, dirty, or badly hulled about $2 00@2 20 and low-grade down to $1 50

Flax—To-day's quotations were ½@1c below those of Saturday The market ruled very quiet and presented nothing of interest. Weakness due entirely to outside influence Offerings here very small. Posted 4 cars or 3,600 bu received and none out Minneapolis receipts 93 cars, and Duluth 79 cars. No change in local stock last week Reported in regular houses 18,647 bu against 126 211 bu a year ago No. 1 Northwestern cash sold at $1 15½, and $1 09½ bid for No. 1 Rejected depending on quality, quotable at $1 08@1 12 October was $1 09½ bid, and December sold sparingly at $1 12.

Clover—There was said to be an easy feeling in the market, but no change quoted. There were no consignment offerings Quotable as follows: Contract grade spot or October delivery quotable at $12 15. Country lots common to choice, $8 00@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 60

Other Seeds—Inactive; nominal as follows: Hungarian at 80c@$1 00 for common to choice. Millet, common, was quotable at 75@90c for common to choice German at 80c@$1 00 Broom Corn Millet at 90c@$1 00, Siberian at 80@90c, and Early Fortune about 75@90c. Mustard about 75c@$1 00 Buckwheat, good milling spot Wheat, quoted at $1 35; no quotations or bids to arrive.

HOG PRODUCTS Trade was only moderate in the market for Hog Products, and the undertone to the market was stronger Outside orders were somewhat limited, and local trading was only fair. Near deliveries were dull and rather slow sale. Deferred deliveries were in fair demand, with moderate offerings. Prices ruled slightly higher on the latter, but the appreciation was not supported to the close. Hogs were in fair supply and higher Receipts at the leading Western packing points were estimated at 45,800, compared with 48 000 one year ago. Foreign markets were steady, and prices were unchanged Domestic markets quiet and dull. Receipts of Products were liberal—of Lard and Meats about 34 cars Shipments were fair—of Lard and Meats about 128 cars. Very little demand on shipping account, and offerings of all kinds were moderate. Sales were small, and prices inclined in favor of buyers The exports for the week, compared with the corresponding week in 1903, exhibited increases of 1,150 brls Pork, 8,311,000 lbs Lard, and 2,342 boxes Meats.

Mess Pork—Trade was moderate in the market for Mess Pork, and mainly in the longer deliveries. Offerings were not very large, and the demand was only fair. Trade chiefly on local account. Market opened stronger and prices were 5c higher, and a further appreciation of 2½@5c was gained. Toward the close, the feeling was easier, and prices settled back 7½@10c, and the market closed rather steady. Shipping demand was light, and offerings were small Cash lots quotable at $10 95@11 00.

OCTOBER—Quiet and quotable at $10 92½.

DECEMBER—Rather quiet with limited sales at $11 12½@11 20, and closed at $11 12½

JANUARY—In fair request, with moderate offerings Sales were made at $12 55@12 65. Opened at $12 60, sold to $12 65, to $12 55, to $12 57½, to $12 55, and closed steady.

MAY Demand light and offerings small. Sales were made at $12 50@12 57½ Opened at $12 57½, sold to $12 50, and closed steady.

Lard—Only a fair business was reported in the Lard market, and the feeling was stronger. Offerings were not very large and the demand was only fair. Foreign advices were unchanged. Market opened rather firm at 2½c advance, and a further improvement of 2½c was gained, but receded again toward the close 2½@5c, and the market closed rather steady. Exports rather liberal. Demand on shipping account was limited, with moderate offerings Cash lots quotably steady at about October figures, closing at $7 32½@7 35 Loose lots in fair request, with moderate offerings Prices were quotable at 25c discount on October figures. Leaf Lard was in fair demand, with rather light offerings. Quotably steady at about $7 50 Neutral in light demand, with moderate offerings Prices quotably steady at $8 87½@9 00 for No 1, and $8 37½@8 50 for No. 2.

OCTOBER—In light request and offerings were fair Sales were made at $7 32½@7 35, and closed quiet at $7 32½

DECEMBER—Quiet and quotable at $7 17½@7 20.

JANUARY—Demand was fair, and offerings were moderate. Sales were made at $7 27½@7 32½. Opened at $7 30, sold to $7 32½, to $7 27½, and closed steady.

MAY—Offerings were moderate and the demand was fair. Sales were made at $7 32½@7 40 Opened at $7 37½, sold to $7 37½@7 40, to $7 37½, to $7 40, to $7 32½@7 35, to $7 35, and closed steady.

Short Rib Sides—Only a moderate business was transacted in Short Rib Sides, and the feeling was stronger. Offerings were not very large and the demand was fair Trading almost exclusively in January and May deliveries Near deliveries dull. Opening sales were made at 5c advance, and a further appreciation of 2½c was gained, but prices receded again 5@7½c, and the market closed steady. Shipping demand was light, and offerings were moderate. Cash lots were quotable at $7 25@7 37½, according to weight.

OCTOBER—Quiet and easy, with small sales at $7 15

JANUARY—In rather good demand with moderate offerings. Sales were made at $6 55@6 62½. Opened at $6 60, sold to $6 57½, to $6 60@6 62½, to $6 55, and closed steady.

MAY—Offerings were not very large, and the demand was fair. Sales were made at $6 67½@6 75. Opened at $6 72½, sold to $6 75, to $6 72½, to $6 72½@6 75, to $6 67½@6 70, and closed steady.

Other Meats—A very small trade was reported. Offerings were fair and the demand limited. Domestic trade rather light. Exporters not inclined to trade to any extent. Green Meats offered moderately, with a small inquiry, and prices ruled steady Pickled Meats were in moderate request, with fair offerings, and prices favored buyers. Dry Salted Meats were in moderate demand with fair offerings, and prices were steady. Smoked Meats called for moderately and prices without material change. Closing prices were as follows:

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, Oct 11.]

United Kingdom Farmers in the United Kingdom continued to be favored with very seasonable weather for plowing and seeding, the only complaints being from districts in Eastern counties which have not yet had sufficient moisture. It is confidently expected that there will be some recovery in the Wheat acreage, for not only is there favorable weather but prices are much more satisfactory, last week's official average for native Wheat of 30s 2d, comparing with 25s 10d in the corresponding week of last season. We still hear many complaints of poor threshing results, but it is pleasing to note there are some exceptions.

Russia—It is confirmed that Southern districts have generally had sufficient rain to permit of plowing and seeding, but there are exceptions, as Odessa still reports dry weather there; in the centre also the weather is too dry. The Northern parts are being favored with exceptionally good weather, and it is hoped that the late spring crops will yet ripen. Stocks at the ports are of good size, and exports are very large, but the crop movement now is slackening. We have recently had quite a favorable report on the last crop from our correspondent at Nicolaieff, covering the Southwest and South of Russia, and as we know that the crops in the East and Southeast were good, it appears that the Empire must have a better crop than most people have been expecting.

Roumania—Seeding is making good progress with favorable weather. Supplies to the ports keep small, but it now appears that the Braila stock is quite large.

Austria-Hungary—Seasonable weather prevails and fall seeding is making good progress. The mills and warehouses at Buda Pesth and Vienna are filled with Wheat and Flour and it is claimed that sufficient foreign Wheat has already been bought to provide import requirements.

Australia—Private cable advices received in Liverpool to-day confirm the report of our Adelaide correspondent that the crop will be a light one owing to unfavorable weather. One cable from Sydney reports that the crop of New South Wales is compromised owing to drouth, and another from Victoria says the position is uncertain, but the crop will be much lighter than last year's.

Argentina—Our cable of last Friday again reported that the new crops are growing well with seasonable weather. During the past seven days, however, there have been some reports much less favorable. There is nothing very definite so far, but it is claimed that the crop did not tiller well. It may be remembered that when seeding started the weather was much too dry for the work, and it is quite possible that the dry seed-bed may have had an unfavorable influence on the crop.

India—The crop is being seeded under favorable conditions. Shipments last week were lighter.

France—The weather is still very favorable for fall seeding, as growers get busy with field work, offerings naturally tend to decrease and their smallness has been a feature on provincial markets for some time.

Italy and Spain—Good sowing rains have fallen.

Germany—The weather is now quite favorable for plowing and seeding, but sufficient rain has not yet fallen to permit of the resumption of interior navigation. The Potato crop continues to receive more favorable mention than it did some time back.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 22 to 34; snow at Winnipeg .38; partly cloudy. Northwest—Temperature 32 to 46; cloudy. West—Temperature 40 to 50; cloudy. Southwest—Temperature 44 to 72; partly cloudy. Ohio Valley—Temperature 38 to 46; cloudy.

Indications are the storm will continue East, followed by cooler weather, but accompanied by little precipitation.

ITEMS OF GENERAL INTEREST.

Earnings of Swift and Company so far this year are reported to have been at the rate of 13 per cent on the stock.

Business failures in the United States and Canada for the past week were 254, against 214 the previous week and 305 for the corresponding week last year.

The president of the Mergenthaler Linotype Company in his annual report shows that the net receipts for the year ending Sept. 30 were $59,863 in excess of those of the previous year.

Receipts of Western range Cattle at Chicago for the entire season promise to reach a total of at least 250,000, against 209,875 for the season of 1903. In 1902 arrivals were 309,300, and in 1901 only 140,478.

The directors of the Great Lakes Towing Company have declared an initial dividend of 1¼ per cent on the preferred stock, payable Jan. 1. The resolution states that 7 per cent will be paid annually in the future.

The annual report of the Dominion Iron and Steel Company for the fiscal year ended Dec. 31, 1903, showed net profits for the year of $341,890; deductions for bad debts of $226,313, and a surplus for the year of $115,676.

The Buenos Ayres *Standard* of Sept 13 says: "Advices from outside are most favorable. In general, camps and stocks are in good order, and crops looking well. Even where rain is lacking there seems to be no apprehension of loss."

The Baltimore circular states that of the estimated deficit of 11,000,000 bu in the Hungarian Wheat crop this year, 7,000,000 bu have already been bought, and granaries in Vienna public and private, are full to the roof of Wheat and Flour.

The tonnage scale in the merchant mill of the Illinois Steel Company at Joliet, Ill., expired. Friday, and a scale reducing wages 10 to 15 per cent was put into effect. The scale in the rod mill will expire Nov. 1, and a reduction is expected there.

The Armour Packing Company is negotiating for the purchase of the Gibbons-Pinkett company's business, Cleveland Ohio. If the negotiations are concluded, Cleveland will become an important distributing point for the Chicago packers.

The president of the International Banking Corporation was in Chicago, Friday. He reported conditions generally favorable. Here and there, he said, one finds "sun spots" in the outlook for prosperity, such as poor crops in certain localities.

Kansas City Grain people figure that there is only 9,000,000 bu Wheat left in Kansas that can come to market. They estimate the crop at 60,000,000 bu, of which 33,000,000 bu has been marketed. Seed requirements and home consumption are 18,000,000 bu, leaving 9,000,000 bu to be handled the next eight months.

Conflicting reports came from the Northwest, Friday, in regard to country offerings. One message from Minneapolis said: "An elevator company which operates 104 houses said they received only 1,900 bu Thursday." Another message said reports from the North indicate that farmers' deliveries are increasing.

The number of United States money orders issued during the last fiscal year passed 50,000,000 for the first time in history. Net revenues of the department were $2,528,403 an increase of $258,494 over the previous year. The gross revenues were $3,526,676. There are 36,031 domestic and 6,913 international money order offices in operation.

Application has been made to the New York Stock Exchange by the Federal Mining and Smelting Company to list $10,000,000 preferred stock and $5,000,000 common stock. The company, which has an authorized capital issue of $30,000,000, is controlled by what is known as the Rockefeller-Gould-Sweeny combination. The American Smelting and Refining Company smelts its ore.

The pamphlet report of the Union Pacific Railroad Company for the fiscal year ended June 30 last, issued Friday, shows: Gross earnings, $55,279,231, increase $1,204,012; operating expenses, $29,026,007, increase $1,686,723; net earnings, $26,252,624, increase $2,517,319. After receipt of other income and payment of total charges there remained a surplus for the year of $4,713,156, a decrease of $330,018.

So far this year at the three markets, Chicago, St. Louis and Kansas City, 24,980 cars of quarantine Cattle were received, as against 33,617 cars received the same period last year, a decrease of 8,637 loads. Quarantine Cattle receipts at Chicago, Kansas City and St. Louis amounted to 721 cars last week, 582 cars the week before and 812 cars two weeks ago. During the same period last year 1,157 cars were received and 1,094 cars two years ago.

The manager of one of the largest line elevators in the Northwest wired Friday: "We believe farmers have marketed about 50 per cent of their Wheat crop in Minnesota and South Dakota. They are in position to peddle it out now only as market suits. Fifty per cent of the Wheat in our territory is seldom marketed before Nov. 15. We cannot help feeling that our Wheat receipts in the Northwest will be much lighter in the near future."

The gross earnings from traffic of the Baltimore and Ohio Railroad Company for September, 1904, including the Baltimore and Ohio, the Baltimore and Ohio Southwestern, Ohio River Railroad, West Virginia Short Line, Ripley and Mill Creek Valley, Pittsburg and Western, Pittsburg, Painesville and Fairport, Pittsburg, Cleveland and Toledo, and the Pittsburg Junction, were $6,048,760, an increase of $20,691 when compared with September, 1903. The expenses were $3,530,299, a decrease of $88,007. The net earnings from traffic were $2,518,461, an increase of $108,698.

A prominent capitalist says that Erie Railway shares are a feature because the big interests in Wall Street have it and must make a market for it. He says it is the only one of the big Eastern railroads that has not been recapitalized, and the time is probably ripe for an important deal along such lines.

Grain rates "at and east" of Buffalo will be advanced Nov. 1 and again on Nov. 16 to the following scale:

	Nov. 1, cents.	Nov. 16, cents
Wheat and Flax	4.05	5 00
Corn and Rye	3 05	4 00
Oats	3.00	3 00
Barley	3.05	3 75

Bradstreet's report of the available supply for the past week shows the following changes:

	1904, bu.	1903 bu.
Wheat east of Rockies	Inc. 2,839,000	Inc. 3,428,000
Europe and afloat	Inc. 700,000	Inc. 1,046,000
Total	Inc. 3,539,000	Inc. 4,474,000
Corn	Dec. 1,169,000	Dec. 1,381,000
Oats	Dec. 347,000	Dec. 292,000

Stocks in New York closed mostly lower. There was a sharp reaction from the wild advance at the start. There were rumors of a settlement of the Northern Securities case, and heavy buying which carried Western Railway shares up 1 to 3½, St. Paul and Union Pacific leading. The greater part of this gain was lost, and on most shares a decline established. Industrials followed Railway shares up and down, breaking under realizing sales. Sales to noon were 1,101,000 shares. Money 2 per cent

Broomhall's weekly foreign crop summary says: "United Kingdom, France and Germany—Fall seeding is progressing favorably Supplies of native Wheat are moderate to fair. Italy and Spain—The weather has generally been seasonable, although there are some complaints of drouth. Roumania and Hungary—The winter crops are starting well as the result of beneficial rains. Russia—Weather conditions favor fall seeding, except in a few sections in the South and Center. Receipts at the ports are fluctuating. Argentine and India—No fresh news has been received, but it is believed the crops are making normal progress."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand reported very fair and market firm as recently quoted

WINTER WHEAT—The market was quiet and the feeling weaker, with the closing irregularly 1@2c lower. Millers holding back and market rather dull. No. 2 in store quotably $1 17⅝@1 19, and fresh arrivals free on board nominally $1 19@1 21 No. 3 Red fresh arrivals free on board sold at $1 16, and ranged at $1 15@1 18 No 4 Red fresh arrivals free on board sold at 95@98c, to $1 14½ for choice. No 2 Hard fresh receipts free on board sold at $1 12, and was quotable at $1 12@1 15 No. 3 Hard sold at $1 13, and was quotably as low as $1 05 No. 4 Hard sold at the river at 95c.

SPRING WHEAT—Ruled quiet and 1@3c lower. Good Wheat fair sale, but the very poor Wheat was very dull and weak No. 1 Northern fresh arrivals free on on board were nominally $1 18@1 20 No. 2 Northern fresh receipts free on board quotably $1 14@1 16. No. 3 Spring quotable at $1 05@1 15, with sales free on board at $1 10@1 14, and at the river at $1 03. No 4 Spring sold free on board at 65@70c for very poor, at 95c for fair and $1 05 for good, and sold at the river at 76c@$1 03.

REGULAR WHEAT—Just a fair trade and mainly local and professional. Feeling, all things considered, was easy, and the close 1¼@1⅜c lower for December and 1¼c off for May. Offerings at the start were moderately free, influenced to a great extent by the irresponsive cables and weakness at Minneapolis Market for a while acted as though the "short" interest had been eliminated to a great extent on yesterday's advance. The political situation abroad, however, being still unsettled caused "bear" interests to act with unusual caution and as the session advanced the demand improved and undertone became stronger. The bulge in Corn was an indirect help but the advance was due principally to the buying by local professionals The late break was on "bear" news from the Northwest on existing milling conditions Liverpool quoted spot unchanged and futures were steady to ⅛d higher. Receipts there the past three days 1,072,000 bu, and none of the same from America London came 1d higher. Paris was ½@1c lower Berlin declined ⅜c Liverpool affected by the large arrivals of India Wheat. Stocks here in all positions reported 4,568,000 bu, a decrease last week of 257,000 bu. Stock one year ago 5,582,000 bu Contract stocks decreased 61,759 bu, and now include 1,474,518 bu, compared with 1,178,815 bu. *Bradstreet's* available supply increased 3,539,000 bu, against 4,474,000 bu increase same week in 1903. Minneapolis reported there was 5 to 20 per cent of the Wheat still in shock throughout the Dakotas and that the weather the past ten days has impaired the quality. Fair weather was predicted for the Dakotas and Minnesota. London reported cargoes on passage neglected. Primary receipts were 114,000 bu less than a year ago while Northwest cars were 48 larger. Kansas City and St. Louis received 176,000 bu, against 446,000 bu same date in 1903 Toledo reported the stock of No 2 Red down to 25,000 bu Kansas City estimates for to-morrow only 87 cars Winnipeg had 629 cars against 305 cars one year ago Duluth reported the sale of 35,000 bu cash to go East. Late advices from Minneapolis intimated the milling capacity would shortly be reduced and several mills shut down Clearings were limited and 5 boat loads accepted at the seaboard. European advices as to the progress with seeding and the start of winter crops were in the main favorable. The late heavy selling was credited to Northwest. Receipts at Duluth 408 cars, at Minneapolis 459 cars, total of 867 cars, against 821 cars yesterday, 1,062 cars a week ago, and 819 cars last year. Local receipts included 34 cars Winter, 35 cars Spring and 21 cars mixed, a total of 90 cars, against 152 cars last year. Included in the above was no contract grade. There were also 1 car and no bu taken from unlicensed elevators The estimated receipts for to-morrow are 80 cars The withdrawals were 44,100 bu. Receipts at Western points were 1,114,705 bu, against 1,229,118 bu last year. At Eastern points 39,602 bu, against 228,670 last year. Shipments from Western points 354,557 bu, against 678,704 last year, and from Eastern points no bu, against 31,800 bu last year. Shipments of Flour were 5,118 brls. Exports of Wheat in Flour were equal to 23,031 bu.

Future Deliveries of Regular Wheat—Fair trade at lower prices.

CORN—A better trade and stronger market, the close being ⅜c higher for December, while May gained ¼@⅜c The small receipts, strong position of the cash article, decreasing stocks and higher cables were among the "bull" influences. The demand for December was more general, and the premium over May widened at one time to 3⅜c Receipts were only 150 cars, against 604 cars last year, and but 72 cars are estimated for to-morrow. Liverpool quoted spot ⅛d higher to ⅛d lower, and futures ⅜@½d higher Receipts there the past three days 314,000 bu, of which 48,000 bu came from America Stocks here in all positions reported at 2,646,000 bu, a decrease last week of 666,000 bu Stock one year ago reported as 1,655,000 bu Contract stocks decreased 204,000 bu, and now include 1,486,000 bu, against 1,446,000 bu in 1903. *Bradstreet's* available supply decreased 1,169,000 bu, compared with a decrease of 1,381,000 bu same week in 1903. A good demand prevailed for cash and 100,000 bu No. 2 sold at 3¾c over December in store and later 4¼c over was bid. Western receipts were only 291,000 bu, against 701,000 bu a year ago and shipments 262,000 bu and 369,000 bu respectively. The map showed low temperatures West and Southwest, generally below the freezing point in Iowa and Nebraska and fair Weather was predicted for Illinois, Missouri, Indiana, Nebraska and Kansas. Ames, Ia., reported Corn yielding on an average 40 to 55 bu to the acre. Pekin, Ill., reported husking returns meagre, but generally 10 per cent below expectations. Southwestern markets were all higher. Local arrivals 123,000 bu and shipments 166,000 bu. Withdrawals 103,000 bu exports 108,000 bu. Seaboard reported 3 boat loads accepted. Car lots were in good demand and light supply Prices were ½@1c higher. No 2 quoted 3½@3¾c over December in store and closed to go in at 53¾c. No. 3 Yellow closed at 56¼c. No 3 closed at 53½c. No. 3 Yellow sold at 56¼@56½c and closed at 56c. No. 4 sold at 54@55½c, outside for yellow.

Corn by sample—Offerings were again very small and the demand good Feeling was stronger and prices in some instances 1c higher. Sales on track and free on board No Grade new sold at 46@46½c. No. 4 at 53¼@56c No 3 at 54@55½c. No 3 Yellow at 56¼@56½c. No 2 Yellow at 56½c. No 3 White at 54@54¼c. Billed through No. 4 at 52@55c. No. 3 at 52½@55c. No. 3 Yellow at 54¾@55¼c. No. 2 Yellow at 54¼@56c. No. 3 White at 52¾c.

Future Deliveries of No. 2 Corn—Fairly active and stronger and closed ¼c to ⅜c higher.

OCTOBER—Inactive, but quotable 3⅞c over December, and closed nominally at 53c.

DECEMBER—Sold at 48½@49⅜c. Opened at 48½c to 48¾c, and sold at 48⅝c, to 49c, to 48¾c, to 49⅛c, to 48⅞c, to 49⅛c, to 49c, to 49⅛c, and closed at 49⅛c bid.

MAY—Sold at 45⅝@45½c and 46⅛c. Opened at 45⅝@45½c and 45½c, and sold at 45¾c, to 45½c, to 45¾@45⅞c, to 45⅝@45¾c, to 46⅛c, to 45¾c, to 46c, to 45⅞@46c, and closed at 45⅞@46c asked.

JULY—Sold at 45⅜@45⅝c. Opened at 45⅝c, and sold at 45⅝c, to 45½c, to 45⅝c, to 45½c, and closed at 45½c bid.

OATS—Were stronger and advanced ⅛@¼c at the best and closed at a net gain of ⅛@¼c Smaller offerings and a decrease of 347,000 bu in the available supplies, which for the present have reached a maximum, were the strengthening influences. They started "shorts" to covering and induced buying for a rally Cash sales here were 150,000 bu and at New York 50,000 bu Private elevator stocks decreased 1,171,000 bu and in all positions 996,000 bu. Contract stocks increased 175,000 bu last week and are 3,698,000 bu. Arrivals 172 cars, with 65 cars expected to-morrow. Seaboard clearances 2,000 bu Car lots to go to store were steady to ⅛c higher No. 3 White sold at 30c Standard in store closed at 29⅜c.

JULY—Sold at 30¾@30⅞c and at 31⅛@31¼c. Opened at 31c; closed at 31⅛c

RYE—Was quiet and steady. Trading limited, both in cash and futures No special change in prices There were 12 cars received and one car withdrawn from private warehouse. No exports from New York No. 2 in store nominally 78@78½c and car lots fresh arrivals sold free on board at 82@83c

Future Deliveries of No. 2 Rye—Quiet and steady October nominally 78½c. December sold at 79c and May at 81c

BARLEY—In the Barley market this was one of the most quiet days of the season. Of all grades the offerings were much smaller than customary. It did not seem to make much difference to maltsters. These buyers were indifferent as to medium and common grades in their line of goods Good to choice they were ready to take, but of such Barley none to speak of was offered. Late, buyers for feed were on the market at recent prices Very little of this grade was secured; it was not on sale. Posted inspected in, 62 cars. Little business being done, values for some grades were little better than nominal. Screenings sold sparingly at 30c for ordinary and were quotable at 28@37c for poor to choice. Feed Barley wanted at 37½c local for good, some heavy sold at 38c and poor cars quotably lower Malting, low grade, usually small berry, some heavy, but dirty, ranged at 39@40c; clean, fair to good, at 41@43c and large berry, heavy, quotable at 45@48c, with fancy 50@52c.

SEEDS—Little business was done, more in the speculative Timothy market than elsewhere. There were no price changes to speak of; in some particulars Flax was weaker

Timothy—More speculative interest was shown Some changing was done from January to March at 10c difference in favor of latter. There also were fair buying orders for March in the regular way. They were easily filled for there were sellers of all that was wanted Prices were not materially changed, but feeling in the market heavy Not much cash Seed offered. It was slow, easy, but not changed. Contract spot or October delivery obtainable at $2 60 January sold in exchange at $2 70 March in exchange sold at $2 80, in the regular way at the same, and closed at $2 80 sellers Cash sales reported at $2 35@2 50 and country lots of fair to good quality quotable at $2 25@2 35, high-grade Seed about $2 40, and choice to fancy $2 45@2 55. Rough, dirty, or badly hulled about $2 00@2 20, and low-grade down to $1 50

Flax—A dull easy market was quotable There was no business done Prices were unchanged to ½c lower. Nothing offered either for cash or future delivery. Four cars or 3,600 bu were received; none reported taken out Northwestern movement fairly liberal Minneapolis got 42 cars and Duluth 168 cars No. 1 Northwestern cash salable at $1 15½, and $1 19 bid for No 1 Rejected, depending on quality, quotable at $1 08@1 13. October bids reduced to $1 09, and December remained salable at $1 12.

Clover—Small lots of uneven quality were offered, ranging from good to inferior quality, and sales were over a correspondingly wide range of prices. The market was said to be without essential change, and quotably steady for good lots, weak for common and poor Quotable as follows: Contract grade, spot or October delivery quotable at $12 15. Country lots common to choice, $7 00@12 00; very poor lower, and fancy above Fair to good, $10 25@11 50

Other Seeds—There was no change quoted from late nominal prices. The market was without offerings. Hungarian at 80c@$1 00 for common to choice. Millet, common was quotable at 75@90c for common to choice. German at 80c@$1 00, Broom Corn Millet at 90c@$1 00, Siberian at 60@80c, and Early Fortune about 76@78c Mustard about 75c@$1 00 Buckwheat, good milling spot about $1 35; no quotations or bids to arrive.

HOG PRODUCTS—A little more life was manifested in the market for Hog Products and there was a moderate increase in trade Hogs were in rather good supply and lower, and this feature encouraged a little miscellaneous selling, especially of the deferred deliveries Demand was only fair Outside orders were rather light and local trading was fair. Prices declined materially on all the leading articles, and the market closed rather steady around inside figures Bulk of the business was in January and May Receipts of Hogs at the leading Western packing points were estimated at 59,500, compared with 2,700 one year ago Foreign markets were steadier and Bricks were quoted 6d higher Domestic markets were quiet. Receipts of Products were fair—of Lard and Meats about 16 cars. Shipments were moderate—of Lard and Meats 118 cars Demand on shipping account was light and offerings were moderate Sales of scattering lots to fill small orders, and prices were without material change

Mess Pork—Trade in Mess Pork was fair, with the bulk of the business in January contracts Offerings were moderately free, and the demand was only fair. Trading chiefly on local account. Market opened rather easy at 5@7½c decline, and a further reduction of 7½@15c was irregularly established. Later, a little more steadiness was manifested temporarily, and prices rallied 2½@5c, but receded again 10@12½c at the close, and the market closed steady Shipping demand was limited, and offerings were moderate. Cash lots were quotable at $10 90@11 00.

OCTOBER—Quiet and quotable at the close at $10 90

NOVEMBER—Quiet. Sold early at $10 95.

DECEMBER—Demand was light, and offerings were small. Sales were made at $11 05@11 07½, and closed quiet at $11 05

JANUARY Offerings were moderately free, and the demand was fair. Sales were made at $12 32½@12 50. Opened at $12 47½ to $12 50, sold to $12 45, to $12 50, to $12 45, to $12 47½, to $12 40, to $12 45, to $12 32½, and closed steady

Fire, Sunday, completely destroyed the tannery of F. Krehl & Sons at Girard, Ohio, causing a loss that is estimated at $30,000. Insured for $10,000.

The Pennsylvania Steel Company has declared a regular semi-annual dividend of 3½ per cent., payable Nov. 1. Books close Oct 21 and reopen Nov. 2.

Several parties, Friday, filed in Jersey City an appeal from Vice Chancellor Pitney's decision refusing to enjoin the merger of the Tobacco companies.

The Montana Ore Purchasing Company has declared the regular quarterly dividend of $2.00 per share, payable Nov 14. Books close Oct 31 and reopen Nov 14.

The commissioners of Essex County, Mass., have awarded the $125,000 six months refunding notes to the Suffolk County Savings Bank of Boston at 2 47 per cent discount.

The St Joseph and Grand Island Railroad for the year ending June 30 makes a poor exhibit. Gross earnings decreased $73,942; operating expenses increased $54,494.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to Oct. 8 have amounted to 5,440,000 bu, against 1,096,000 bu in the previous year, and 1,216,000 bu in 1902.

The annual report of the Minneapolis and St. Louis makes a poor showing, with a loss in gross amounting approximately to 17 per cent compared with the previous year. The decrease in net was over 18 per cent.

The Dominion Government has signed another contract with the Lake Superior Corporation for 10,000 tons of Steel rails for the Intercolonial Railway. The first order, which was for 10,000 tons, has been accepted.

The shipments of Flax Seed from India from April 1 to date amounted to 15,472,000 bu (Calcutta 2,964,000 and Bombay 5,558,000 bu), against 14,144,000 bu last season (Calcutta 9,168,000 bu and Bombay 4,976,000 bu), and 10,423,000 bu in 1902 (Calcutta 7,112,000 bu and Bombay 3,312,000 bu).

The receiver for the Third National Bank, Chicago, is about to pay a third dividend to the shareholders in that institution. This will make the total amount outstanding, $738,240, there being 7,324 shares. This is the third dividend, the first being 10 per cent. second 5, and this making 12 in all.

The receipts of Pig Iron at Boston for the week ended Sept. 22 amounted to 3,628 tons, against 4,804 tons in the previous week and 912 tons in the same week last year. The total receipts at Boston for the year, Jan. 1 to Sept. 22, amounted to 209,134 tons, against 185,697 tons in the same period last year.

A Pittsburg dispatch says that the Westinghouse Electric and Manufacturing Company is contemplating a bond issue of from $20,000,0000 to $25,000,000. According to influences closely affiliated with the management of the company, the business is constantly growing and capital requirements are expected to be beyond present facilities.

A New York dispatch says: "In a circular to holders of Des Moines and Fort Dodge Railroad securities E. C. M. Rand invites unlike action to obtain an accounting from the Chicago, Rock Island and Pacific, the lessee of the railroad, for the payment of the correct amount which has been due from year to year since the date of the lease."

An official of the American Car and Foundry Company says that conditions in the car manufacturing line have shown considerable improvement during the last few weeks. The company has orders on its books for something like 15,000 cars, and within two months a couple of years ago it was not unusual for the company to have orders aggregating between 35,000 and 40,000 cars.

The Buenos Ayres *Standard* of Sept. 10 says: "We see by Entre Rios advices that the farmers on the Government colonies have done very well this season, so well that all have paid up their arrears, and some have also bills not matured. Their growing crops are also doing well. News from Cordoba states late rains have saved all the crops, which now, with the beautiful mild weather, are looking magnificent. The area is much larger than last year's."

The report has been circulated that the question of placing stock of the Distillers Securities Corporation on a 5 per cent instead of 4 per cent dividend basis is being considered, but it can be stated on the highest authority that the report is not true. The policy of the company will be to make the stock absolutely safe, no matter what emergencies in both good and bad times, before any consideration will be given to increasing the dividends on the stock.

The official crop bulletin for Italy, covering the period from Sept. 1 to 20, says that the persistent rain during the decade has hindered in many districts the completion of the vintage, but it has fostered field work and sowing has begun in some provinces. The yield of Olives is somewhat unsatisfactory, especially in the Provinces of Pisa, Lecce and Catanzia. Fine weather is desired all over the country, as, should the rain not cease, it might cause serious damage.

Dornbusch's Buda Pesth correspondent, writing under date of Oct. 8, says: "The Flour market reports no change in the general situation, which is quiet. Millers find it difficult to sell export flour, even at bottom rates, as second-hands have still large supplies to dispose of. The total sales this week barely amount to half the production, and stocks have increased. Stocks of Bran are small, and although there was little activity, transactions were at fairly previous prices."

Buenos Ayres *Herald* of Sept. 13 says: "Great alarm is felt in some of the agricultural districts owing to the appearance on the borders of the province of vast clouds of locusts. Preparations have been made to meet a possible invasion, and send to the Province of Santa Fe for fifty aeroplanes recently used in Texas for fighting the winged enemy. The colonists appear more disposed than formerly to aid in the destruction, as the ravages of locusts have proved the efficiency of such endeavors when well directed."

During the last few months the Laclede Gas Light Company of St. Louis has been making extensive improvements in the plant and equipment of its property. Its president states that the mains have been increased fifty miles since April 1. The capacity of the plant has been increased about 50 per cent. Since April 1 the company has made 10,000 new installations. Of the $1,000,0.0 bonds taken by a Chicago banking firm over $750,000 have been placed within the last week.

There was a good deal of conjecture about the reason for the declaration of the semi-annual dividend of 2 per cent on Reading first preferred. The usual annual dividend of 4 per cent on the first issue was declared in July and was paid Sept 9. The dividend declared Wednesday is payable March 9, and was not expected to be declared until January, 1905. In some quarters it was believed the early action was taken in order to pave the way for the declaration of a dividend on Reading common.

The sale of the Clover Leaf Railroad to the Pere Marquette-Cincinnati, Hamilton and Dayton system is practically assured President Shontz of the Clover Leaf, Thursday, admitted that the road was practically sold, but declined to name the purchaser pending the execution of the final papers. "The Clover Leaf will soon be taken up by a system larger than any system," said President Shontz. "The price I named was for cash, and it was sufficient to make our investment in the Clover Leaf satisfactory to us."

The *Iron Trade Review* says: "People who were around the Canadian Pacific Railway depot, Sunday, could have had no mistaken impression about the grain moving Eastward rapidly, as during the day seven trains were loaded with Winnipeg for Fort William This is one of the largest day's shipments on record During the afternoon the huge trains were pulling out, each engine having its full quota of cars, and the yards looked full all night. The trains were but a few minutes apart, and every available train crew was pressed into service."

Judge Grosscup entered an order in his court Monday, that will provide a large sum for the improvement of the street car service on the North Side and West Side lines. Chicago. He ordered the receivers of the Chicago City Railway Co. to set aside 22 per cent of the earnings of the North Side lines and 24 per cent of the West Side company's income for maintenance, depreciation and other purposes. He instructed the receivers to pay for recent equipment out of this fund, and directed that the creation of the fund date back to the beginning of the receivership.

The Pillsbury-Washburn Flour Milling Company has applied to the treasury officials at Washington to have Palisade mill and the Minneapolis Union elevator "bonded," so that Canadian Wheat can be ground into Flour and exported. The mill has a capacity of 4,000 brls of Flour a day. The action necessitates the placing with the Government of a bond of $60,000, not to speak of the employment of Government officers. There is a duty of 25c per bu on imported Wheat, but when the manufactured article is exported there is a drawback of 99 per cent of the duty.

Of the $45,000,000 new 5 per cent bonds which Colorado Fuel and Iron Company shareholders are authorized to issue, about $17,000,000 will be offered to stockholders at once. For the $17,000,000 thus offered the company must get approximately $15,000,000 cash to buy the properties now held by John D. Rockefeller and George J. Gould for the $12,991,200 cash advanced by them to the company in 1903. The underwriting syndicate agreed to underwrite the issue without regard to much of the new issue of bonds and stock as may be necessary to provide the cash requirements for redemption of property.

Thomas W. Lawson makes the statement that the dividend of 50c per share declared by the Amalgamated Copper Company on Thursday is the last it will declare at that rate. Hereafter 25c a year will be paid semi-annually. Mr. Lawson adds: "The amount of Amalgamated stock purchased in the open market for the company in excess of 800,000 shares, or $25,000,000 par, for the stock advances too rapidly it will be sold and probably net the company 100 per cent profit. If not sold, it will receive two-fifths of the declared dividend."

The London *Agricultural Gazette* of Oct. 10, says: "Another week of favorable weather has helped forward the preparation of land for the crops of the current cereal year, and the sowing of Wheat and other winter varieties of Grain. Rye and Tares sown before last week have come up well and are growing fairly, though a slight frost on Saturday morning intimated that the season of cessation of growth was approaching its suspension. All kinds of tillage are in a particularly advanced position, in strong contrast to that which was presented a year ago. It may be predicted that a partial recovery in the acreage of Wheat will be shown when the next agricultural returns are issued."

Buenos Ayres *Handels Zeitung*, Sept. 12, says: "The outlook for next Wheat crop is becoming more promising every day. The parched districts of Cordoba have, during the last week, had abundant rain, which although late, is still in time to save a large portion of the crop An official report from Sante Fe predicts a splendid crop. The strong July and August frosts have not damaged the young plants, but have done good in preventing too rapid growth and in checking weeds. The only fears of farmers are on account of a probable invasion of locusts, which, however, have so far not advanced to an extensive alarm. In view of the above reports and the increased acreage under Wheat this year, the prospects point to an almost certain exceptionally abundant yield in the said provinces."

The Buenos Ayres *Handels-Zeitung* of Sept. 16 says that the crop prospects were improving almost daily. The drouth-stricken area in Cordoba has been to some extent improved by rains, while in Santa Fe the damage done by the severe frosts in July and August was not so serious as was expected, and, with favorable subsequent rains in this province, an extraordinarily large crop was probable. Last year Santa Fe produced 1,065,000 tons, or 39,360,000 bu, on 2,886,0.0 acres. The final official estimate of last year's total Argentine crop is now published: it gives the yield as 3,379,100 tons, or 124,000,000 bu, whereas the preliminary official estimate last March was 3,726,000 tons, or 138,000,000 bu. The area was 7,140,000 acres. This final estimate of last year's crop seems reasonable, leaving, as it does, a surplus of about 88,000,000 bu, of which about 8,000,000 bu have already been exported since Jan. 1.

The *Mark Lane Express* of Oct. 10 says: "Final harvest returns, now seeing the light in various quarters, are indicative of a very short yield of Wheat. The average per acre in Suffolk, for example would be only 26 4 bu, so that the above calculation, which has had especial prominence, must be deemed an extreme of pessimism. Our original estimate of 28 bu per acre for the county, arrived at by threshings in Norfolk, though reports from counties south of the Thames are far more satisfactory, and those from the Midlands and on to Humber are good If the Government returns in December put the yield at less than 28 bu we shall be somewhat surprised, but at the very worst it has to be remembered that these returns record neither quality nor weight. The latter is a vital element, even on an estimate confined to quantity, and a yield of 26 4 bu weighing 63 lbs per bu will go further than one of 27 bu weighing only 60 lbs per bu."

The Standard Milling Company reports net earnings for the fiscal year ended August 31 last of $414,784. These figures compare with $341,249 in the previous year. The profit and loss surplus on August 31 last was $1,317,181, as against $937,8.0 in 1903. This showing forms a striking contrast to that made by a number of other industrial concerns during the past year.

ITEMS OF GENERAL INTEREST.

New York Exchange 5c discount.

Documentary Sterling firm at 483.

Chicago Bank Clearings to-day, $28,713,809.

The National City Bank of New York declared a dividend of 4 per cent, payable Nov. 1.

Deliveries on October contracts to-day were 5,000 tcs Lard and 30,000 lbs Short Rib Sides.

Reported that 64,000 bu Wheat and 24,000 bu Corn were taken at the seaboard to-day for export.

Ten packers purchased 25,100 Hogs to-day; shippers, 4,000; left over, 7,500 Market closed weak.

Richard W. Rathborne, Esq, Flour Inspector on the Chicago Board of Trade since 1863, has resigned owing to ill health.

Average cost price of Hogs at Chicago, Tuesday, was $5 20, against $5 32 Monday, $5 06 a week ago, and $5 30 a year ago.

Estimated receipts for to-morrow: Wheat, 78 cars; Corn, 62 cars; Oats, 81 cars; Rye, 3 cars; Barley, 32 cars; Hogs, 24,000

Reuter's agency reports that splendid monsoon rains have fallen in Queensland, New South Wales, Victoria and South Australia, insuring a bountiful harvest

Husking returns show Corn yields are equal to the Government figures in Nebraska, but below the estimate for Iowa. In Central Illinois Corn is soft but sound averaging 45 to 50 bu per acre.

Cotton in New York was well supported early, as cables came higher Commission houses were good buyers. Neill's estimate is for a minimum crop of 12,000,000 bales. Prices sold off and closed 9@13 points lower.

Local Securities were not as freely traded in as of late, and prices moved irregularly. Can, Box Board and Metropolitan Elevated preferred declined. Chicago Telephone advanced 2½. Title and Trust gained ½

The Jamestown, N. D., *Alert* reports Flax threshing in that vicinity yielding 10@16 bu per acre. In Benson County, ninety miles north, about half of the acreage of Wheat was unthreshed, the yield being large and the weather wet.

Eastern traffic men will meet in Chicago, Thursday, to consider advancing Grain rates from Chicago to the seaboard. It was stated, Tuesday, by several prominent traffic officials, however, that there would be no change in the rates. Should this prove to be the case it will be unprecedented in the history of Eastern roads.

Stocks in New York closed lower. The unsettled condition abroad was rather against heavy buying. Stocks in London showed better than expected. Price changes were rapid and wide Western Railway shares were mostly ! to 2⅛ higher, but declined and with few exceptions closed lower. Money, 2 per cent.

During the first thirty-five minutes of the session on the New York Stock Exchange, Tuesday, 108,600 shares of Union Pacific were dealt in within a range of a quarter of a point. This is believed to be a record in the history of the Stock Exchange for dealings in any one Stock at a time, and for narrowness of fluctuations on such an amount.

The *Wall Street Journal* says: "The balance sheet of the Republic Iron and Steel Company, dated June 30, 1904, reveals the cause of the recent issue of $7,000,000 notes. It shows a loss of nearly $1,200,000 in working capital for the year, following other large losses in previous years At the close of the fiscal year 1900 the company had a net working capital of about $6,700,000, the loss in four years being about $4,300,000, or 64 per cent. The company has paid about this amount in dividends in the last four years."

Broomhall's Liverpool cable says: "Wheat decline in America yesterday caused opening loss of ⅛d to ¼d. Later, prices advanced ¼d in December, ⅜d in March, and ½d in May under influence of a fair demand for Russian cargoes in nearby positions, and owing to nervousness over the political situation Opening Corn prices were unchanged, but a good demand for Corn on spot and for La Plata parcels, together with the scarcity of American offerings caused net advance later of ½d."

The Melbourne *Age*, dated August 31, contains a preliminary estimate by the Government Statist of the area under Wheat this year in Victoria, viz: 2,300,000 acres, of which it is estimated 2,240,000 will be cut for Grain, against 1,968,000 acres last year. At date of report the indicated yield was considered to be 28,000,000 to 30,000,000 bu, but much may have happened since then; however, it may be mentioned that the State of Victoria appears to have been more favored recently as to rainfall than the others. Last year Victoria raised 28,500,000 bu of Wheat

North British Agriculturist of Oct. 12 says: "Generally speaking, the dry and hard element has been the ruling character of the weather, so that in the latest districts, where the Grain harvest is not yet finished, there has been considerable progress made with harvesting operations during the week. In all the earlier districts where Potatoes are largely grown the work of harveting this important crop is now the most pressing work of the farm. The crop is generally bulking well, and very little complaint is heard on the scare disease. As a whole the Turnip crop is much better than at one time anticipated. Pastures are passibly fresh for the time of the year"

A broker who studies the railroad situation closely says: "I look for the next railroad contest to be over the control of Erie. The Rock Island people are figuring on its possession. Gould says he must have an entrance into New York for his system, and the Erie is the most available one Morgan and the Vanderbilts have 50,000 or 100,000 shares in it, and neither these investments, nor the Pennsylvania, want Gould in the trunk line situation between them. Harriman has a foot in Erie and Hill had a bigger one in it before Harriman awakened to the situation. I understand George F Baker went into Erie to represent the Moore Brothers and their Rock Island associates. It is also understood that John W Gates will be in the market with them"

The City and the Galena elevators, Chicago, were declared "irregular" by the Board of Trade directors, Tuesday. The action was taken at the request of the proprietors, who announce that they will take care of the outstanding receipts. There is only 37,383 bu of Grain in the City and 35,869 bu in the Galena elevator. They contain 40,000 bu No. 2 White Corn, 20,519 bu No 2 Rye and 12,752 bu No. 4 Spring It is said that the part of the property on which the City elevator stands will be required in straightening the river, and it is expected will be taken by the drainage board. The Galena elevator is one of the oldest in the city, situated near State Street bridge, and not advantageously located for rapid railroad communication.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Is ruling firm under a fair local and domestic demand.

WINTER WHEAT—Was reported dull and weak, excepting for very fancy Wheat, which was about steady. Local millers out of the market, and a good many samples were carried over. No. 2 Red in store quotable at $1 16⅝@1 18¼, and fresh arrivals free on board quotable at $1 12@1 20 and sold billed through at $1 19 No. 3 Red fresh receipts free on board sold at $1 17½, and was quotable at $1 15@1 17½. No 4 Red fresh receipts free on board sold at $1 05@1 08, with sale of a choice car soft at $1 14. No 2 Hard fresh receipts free on board quotable at $1 13@1 16 and a choice car billed through sold at $1 17 No. 3 Hard in store sold to the extent of 250,000 bu at 2¾c under December and fresh receipts free on board ranged at $1 05@1 13.

SPRING WHEAT—Ruled very quiet and easy. Good Wheat fair sale, but the very poor Wheat was very dull and weak No 1 Northern fresh arrivals free on on board were nominally $1 18@1 20 No 2 Northern fresh receipts free on board quotably $1 14@1 16. No. 3 Spring quotable at $1 05@1 15. No 4 Spring sold free on board at 6@80c for poor, and at $1 05 for good, with a sale at the river at 70c No Grade sold at 61c

REGULAR WHEAT—Just a moderate speculative trade was reported, but the tone, nevertheless, was quite unsettled Closing prices showed the December off ⅝c, while the May lost ⅝c Market started out steady, but the commission-house trade was light. Later on, the demand for December became more general and the situation turned quite firm. The course of values was rather surprising to "shorts" in view of yesterday's liquidation by the Northwest and many covered on the rise. Toward the close the selling pressure was renewed and the market again became weak. Consols were lower and Wall Street weak, both of which acted as indirect strengthening factors. A Liverpool cable from an influential source read. "Unrestful political feeling." Public Liverpool cable quoted spot unchanged and futures ⅛d higher. London was ⅛d lower Paris came unchanged to ⅛c lower. Antwerp was steady. Liverpool was steadied to some extent, due to a better demand for Russian cargoes in nearby positions and to the nervousness over political situation owing to Baltic incident. Omaha reported the sale of 10,600 bu No 3 Hard at a price equal to $1 21 in Chicago. Minneapolis reported the cash demand better than yesterday Kansas City reported the sale of 30,000 bu Pacific Coast Wheat to go to Southwestern mills. St Louis reported inquiries there for No 2 Red to ship to Toledo. It was rumored a sale of 250,000 bu No. 2 Hard was made here. Primary receipts were 346,000 bu smaller than reported a year ago, the arrivals in the Northwest being 103 cars less Kansas City and St Louis received 146,000 bu, against 275,000 bu one year ago Map showed snow in the Northwest, two inches at Duluth, but milder conditions were generally predicted by the signal service. Kansas City estimates for tomorrow only 62 cars Clearances were again small, and but 8 boat loads accepted at the seaboard. The stock at Minneapolis were reported increased 700,000 bu so far this week A feature was the selling on the hard spots by a leading house with Northwest connections Kansas City *Star* estimated but 21,500,000 bu Wheat left in Kansas or 33 per cent of the crop and predicted Oklahoma will be out of Wheat in twenty days. Receipts at Duluth 199 cars, at Minneapolis 468 cars, total of 667 cars, against 867 cars yesterday, 730 cars a week ago, and 770 cars last year. Local receipts included 10 cars Winter, 10 cars Spring and 9 cars mixed, a total of 68 cars, against 91 cars last year. Included in the above was no contract grade There were also 8 cars and 8,000 bu taken from unlicensed elevators The estimated receipts for to-morrow are 78 cars. The withdrawals were 26,100 bu. Receipts at Western points were 1,043,800 bu, against 1,389,686 bu last year. At Eastern points 391,025 bu against 297,803 last year. Shipments from Western points 327,062 bu, against 685,250 last year, and from Eastern points no bu, against 212,180 bu last year. Shipments of Flour were 6,702 brls. Exports of Wheat in Flour were equal to 31,569 bu

Future Deliveries of Regular Wheat—Fair trade and prices lower.

OCTOBER—Entirely nominal, with the closing about $1 12⅞.

DECEMBER—Sold at $1 13⅝@1 15¼. Opened with sales at $1 14⅝ to $1 14½; sold to $1 14⅞, to $1 14¼, to $1 14⅝, to $1 14½, to $1 15¼, to $1 14⅝, to $1 15⅛, to $1 14½, to $1 14⅝, to $1 13⅝, to $1 13⅞, to $1 13⅞@1 14, and closed at $1 13⅞@1 14.

JULY—Sold at 97⅞@99⅛c. Opened at 98¾c; sold to 98⅞c, to 98½c, to 99⅛c, to 97⅞c, to 98c, and closed at 98c.

CORN—A moderate trade and stonger tone, the close showing the December up ⅝@¾c and May ⅛c higher. The small receipts and strong position of the cash article induced general covering by December "shorts," there also being a fair commission house demand for the May Selling was scattered, partly by elevator interests. Receipts were only 72 cars, compared with 302 cars last year and but 62 cars estimated for to-morrow A good call existed for cargoes and No. 2 sold equal to 4⅜c over December in store. Cables were stronger, Liverpool quoting spot up ½d and futures ⅛@¼d better. Liverpool reported a good demand for spot and La Plata parcels Omaha wired that husking returns showed equal to Government figures in Nebraska, but below the estimate for Iowa Decatur, Ill., wired "Husking in Central Illinois well under way Corn soft but sound Average 45 to 50 bu to the acre" The map showed favorable conditions for improving the grading of new Corn and generally fair and warmer was predicted for the Corn belt. Southwestern markets were firm. Western receipts were 231,000 bu or 358,000 bu less than a year ago, and shipments, 179,000 bu, were 593,000 bu less Local arrivals 136,000 bu and shipments 59,000 bu Withdrawals 67,000 bu and exports 102,000 bu Car lots were in fair demand and limited supply Prices were firm and ½@1c higher No. 2 closed to go to store at 55c and No. 2 Yellow at 57c. No. 3 closed at 51½c, and No 3 Yellow at 56½c. No. 4 that was yellow sold at 56¼c

Corn by sample—Demand fair and offerings were light. Feeling was strong and prices ½@1c higher. Sales on track and free on board: No. 4 sold at 51½@57c. No 3 at 53@56c No 3 Yellow at 57@57¼c. No. 2 Yellow at 57@57¼c No 3 White at 55c. Billed through: No 4at 52½@55½c. No. 3 at 55½c. No. 3 Yellow at 56c. No 3 White at 63½c.

Future Deliveries of No. 2 Corn—Fairly active and stronger, and closed ⅛c to ⅝@¾c higher

OCTOBER—Inactive but quotable 4⅛@4¼c over December, and closed nominally at 54c

DECEMBER—Sold at 49⅛@50c—sparingly at 50c Opened at 49⅜c to 49½c, and sold at 49½@49⅝c, to 49½c, to 49¾c, to 49½c, to 50c very sparingly, to 49¾c, to 49⅞c, to 49¾@49⅞c; closed at 49¾@49⅞c.

MAY—Sold at 46@46⅜c. Opened at 46⅛c to 46¼c and sold at 46⅛@46¼c, to 46⅜c, to 46@46⅛c, to 46¼c, to 46⅛@46¼c, to 46⅛c to 46¼@46⅜c, to 46c, to 46@46⅛c, and closed at 46@46⅛c asked

JULY Sold at 45¾@45⅞c Opened at 45¾c, and sold at 45⅞c, to 45¾@45⅞c and closed at 45¾@45⅞c asked

OATS—Were liberally traded in and closed ⅛c higher. December was bought by cash houses and May by commission houses generally The strength in Corn gave the market a better tone On the advance several of the large commission houses sold. Cash sales were 50,000 bu. Arrivals 67 cars with 81 cars estimated to-morrow Seaboard clearances 12,000 bu Acceptances in the West were slightly increased. Car lots to go to store were ¼@½c higher. No 4 White sold at 30½c. No 3 White at 30½c. Standard in store closed at 30c.

Oats by sample were in good demand and ¼@½c higher, supply being light. Sales on track and free on board No. 4 White at 28¾@30½c No 3 at 29½c. No. 3 White at 30¼@31¼c Standard at 31¼@31½c. No. 2 at 30c. No 2 White at 32c Billed through. No. 3 White at 30½c Standard at 30½@31¼c. No. 2 at 29½c. At the river. No. 4 at 28½c. No 4 White at 28@29¼c No 3 at 29c No 3 White at 29@29½c. Standard at 29¾c

Future Deliveries of Contract Oats—Were higher on moderate trading

OCTOBER Sold at 29⅝@30c closed at 30c.

DECEMBER Sold at 29⅛@29⅞c Opened at 29⅛c, sold to 29⅞c, to 29⅞c at close.

MAY—Good trading Sold at 31¼@31½c Opened at 31¼c to 31⅜c, sold at 31½c, to 31⅜@31½c at close.

JULY—Sold at 31¼@31⅜c Closed at 31⅜c

RYE Was quiet and steady. Very light trading in fresh receipts on account of small arrivals Futures neglected Only one car received There were no withdrawals from store here and no exports from New York. No. 2 in store nominally 78½c, and car lots fresh receipts sold at 81@83c.

Future Deliveries of No. 2 Rye—Neglected. October nominally 78½c. December 79c bid A change of October to December was made at ½c difference May nominally 81c

BARLEY—Was strong and very quiet. It was firm under small offerings; latter circumstance prevented much business being done. The market favored sellers and yet in prices no material change developed though possibly a little better could be done Malting buyers are for the present easy for supplies. They showed little interest There was not much use in showing an interest when so little Barley was offered. Feed buyers were taking what they could get at full late prices. Arrivals of Barley have fallen off materially, due it is said to the late low level of prices. To arrive Barley quiet; few lots offered. Some fine Wisconsin sold at 51c and choice Minnesota at 48@51c. Only 33 cars were inspected in to-day Poor screenings sold at 29c and values quotable over a range of 28@37c for poor to choice recleaned Feed Barley, good salable at 37½c, extra heavy at 38c and thin nominally lower; sold at the river at 36½c. Malting, low grade, usually small berry, some heavy, but dirty, ranged at 39@41c; clean, fair to good, at 42@43c, and large berry heavy, quotable at 45@48c, with choice to fancy 50@54c.

SEEDS Only a small business was done There were no developments of importance Contract Timothy seemed just a little stronger and that was about all that appeared in the way of news.

Timothy—Ruled very quiet Cash offerings have become small Demand very tame, and yet the few consignments received were salable at former prices Nothing was done in futures The market seemed a little steadier, for at the prices at which recently there have been sellers there were to-day buyers to that extent the market turned. Cash Seed, country lots quotable at $1 85@2 55 for low grade to fancy, inferior lower; fair to good, $2 30@2 35; high-grade Seed $2 40@2 45, and rough, dirty or hulled, $2 15@2 25 Contract spot or October was $2 60 bid. January was $2 70 bid and $2 72½ sellers, and March $2 80 bid, with $2 82½ asked

Flax—Was nominally unchanged There was no Flax offered, either spot or future delivery Only 1 car or 900 bu received and none taken out of here. Minneapolis got 50 cars and Duluth 120 cars. No. 1 Northwestern cash salable at $1 15½, and $1 09 bid for No 1. Rejected, depending on quality, quotable at $1 08@1 13 October bids reduced to $1 09, and December remained salable at $1 12.

Clover—Was called steady for good quality and easy for common Not many consignments on sale, but a fair number of samples are coming and more of these are of commoner grades No change noted in prices. Contract grade, spot or October delivery remains quotable at $12 15. Country lots common to choice, $7 00@12 00; very poor lower, and fancy above. Fair to good, $10 25@11 60

Other Seeds—Nothing was done. There were no offerings. Nominal prices were as follows: Hungarian at 80c@$1 00 for common to choice Millet, common, was quotable at 75@90c for common to choice. German at 80c@$1 00 Broom Corn Millet at 90c@$1 00, Siberian at 60@80c, and Early Fortune about 75@90c Mustard about 7@$1 00 Buckwheat, good milling spot about $1 35 no quotations or bids to arrive

HOG PRODUCTS—A comparatively small trade was reported in Hog Products, and chiefly in the early part of the session. Outside operators were not inclined to trade to any extent, and local trading was somewhat limited. Offerings were moderate, and demand was only fair. Market opened rather easy, as the receipts of Hogs were rather good and prices lower, and a few trades were made at slightly reduced prices. Later a little more steadiness was manifested, and prices advanced moderately on all the leading articles. Toward the close, prices settled back again and closed rather steady. Trading chiefly in January and May contracts Receipts of Hogs at the leading Western packing points were estimated at 69,2 0 compared with 71,000 one year ago. Foreign markets were quiet, and Lard was quoted 3d lower. Domestic markets were quiet and unchanged Receipts of Products were good of Lard and Meats about 25 cars Shipments were moderately large—of Lard and Meats about 178 cars Demand on shipping account was limited, and offerings were moderate. Buyers and sellers were apart in views, and sales were light at about former figures

Mess Pork Very little business was transacted in Mess Pork, and mainly in January contracts Offerings were rather light, and the demand was limited Early sales were made at 2½c decline, but a firmer feeling was manifested later, and prices rallied 7½@10c, but receded again 5@7½c, and the market closed quiet and rather steady Shipping demand was small and offerings were limited Cash lots were quotable at $10 87½@11 00

OCTOBER Quiet, with small sales at $10 85

JANUARY In moderate request and offerings were rather light. Sales were made at $12 30@12 40. Opened at $12 30, sold to $12 40, to $12 32½, and closed steady

MAY Inactive Closed nominally at $12 35

Lard Rather a light trade was reported in Lard and the feeling was unsettled Offerings were moderate and the inquiry was only fair Foreign advices unfavorable to holders. Market opened rather easy and prices were about 2½c lower Later, the feeling was steady, and prices rallied 5@7½c, but settled back again 5@7½c toward the close, and the market closed rather steady Demand on shipping account was limited, with moderate offerings. Cash lots quotably steady at about October figures, closing at $7 10@7 12½ Loose lots in fair request with moderate offerings Prices were quotable at 17½c discount on January figures. Leaf Lard was in fair demand, with rather light offerings Quotably steady at about $7 37½. Neutral in light demand, with moderate offerings Prices quotably steady at $8 75@8 87½ for No. 1 and $8 25@8 37½ for No. 2

OCTOBER Quiet and steady with small sales at $7 10@7 12½, and closed at $7 10

JANUARY—Called for moderately, and offerings were somewhat limited Sales were made at $7 07½@7 15 Opened at $7 07½, sold to $7 15, to $7 07½@7 10, and closed steady

MAY—Offerings were moderate, and the demand was only fair Sales were made at $7 17½@7 25. Opened at $7 22½, sold to $7 22½@7 25, to $7 17½, and closed quiet

Short Rib Sides Trade in Short Rib Sides was moderate and the feeling was comparatively steady Offerings were not very large, and the demand was only fair Market opened rather easy at the opening, and prices were about 2½c lower Later, the feeling was stronger and prices rallied 5@7½c, but rallied again 2½@5c, and closed steady around medium figures Shipping demand was light and offerings were moderate Cash lots quotable at $7 12½@7 25, according to weight.

OCTOBER Quiet and steady, with small sales at $7 15

JANUARY—In fair request, and offerings were moderate Sales were made at $6 40@6 45 Opened at $6 40, sold to $6 45, to $6 40@6 42½, to $6 42½, to $6 40@6 42½, and closed steady

MAY Offerings were not very large, and the demand was moderate. Sales were made at $6 52½@6 60 Opened at $6 52½ to $6 55, sold to $6 60, to $6 57½, and closed steady

Other Meats—A very small trade was reported. Offerings were moderate and demand limited. Domestic trade rather light. Exporters not inclined to trade to any extent Green Meats offered moderately, with a small inquiry and prices were steady Pickled Meats were in moderate request, with fair offerings, and prices favored buyers Dry Salted Meats were in moderate demand with fair offerings, and prices were steady Smoked Meats called for moderately and prices without material change Closing price were as follows.

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, Oct. 20.]

Wheat—There was an absence of decisive activity in the Coast Wheat markets during the past week. The European cargo market showed very small activity; the Eastern markets displayed no animation, but values were firmly maintained, and our local exporters were unable to buy Wheat at present quotations European buyers are not anxious to purchase freely, evidently waiting to see what kind of crops Argentina, Australia and India will produce There is apparently very little change in the freight situation, and cars are being furnished exporters in a dragging way for Wheat to go East purchased thirty days ago. The railroads are struggling with this car shortage, and working night and day to keep shippers supplied with cars and have been overworked to keep things moving While the congestion is not serious, it is causing considerable embarrassment to shippers, as buyers are clamoring for their Wheat, and most of the Eastern buyers are anxious to get their Grain while the high prices continue. Sellers in the interior have not changed their views as to values. They argue that with an Eastern crop known to be smaller than that of a year ago that prices must advance. The outlook for higher prices at present is better than for many years past, and undoubtedly the same will go higher after the turn of the year. Wheat sales during the week have been small and mostly purchased by Flour mills, as the Flour demand keeps up and very few mills are without orders. The Wheat market here is not as active as a year ago, and is still much below its normal condition, and many dealers are not happy over the condition of affairs. Where they expected to be doing a large trade at this time, they are doing only a moderate amount, and the present outlook for any activity in the near future is none too bright. Quotations for club Wheat range for export and Eastern shipment from 83c to 85c; bluestem, 86c to 88c per bushel; valley Wheat is quoted on the basis of 85c per bushel. Portland

Flour—There has been no cessation in demand, and the aggregate of business continues from fair to large in the case of various mills. The character of the orders is very satisfactory, the majority of them being small, bearing evidence that buyers have been forced to purchase on account of depleted stocks. Eastern orders continue to come in freely, and most of the mills have orders booked until Jan. 1, and to run 24 hours per day would not complete them to that date. California demand showed some improvement during the week, and many new orders have been booked for future delivery. The export business shows some improvement, and many new orders for October and November delivery have been received, and shipments to China and Japan the next two months will equal those of a year ago. Steamers sailing in these months have all their Flour space engaged, and extra steamers will be provided to take the surplus stock abroad. The demand from the United Kingdom is also better, and we have dispatched two cargoes so far this month, and several more vessels have been chartered to carry Flour. South America is in the market for Flour, and evidently some business with that country will be accomplished this season. The attitude of various millers toward the situation differs. The majority look upon the same as satisfactory, and conditions point to a good, steady trade until spring. Others, however, say the same will only last a few months. We differ with the latter, and think that this will be the most prosperous season millers have had in years. We quote export brands $3 60 to $3 75 per barrel; patents, $4 50 to $4 75, and straights from $3 75 to $4 00 per barrel; valley from $3 75 to $3 90 per barrel.

INDIAN NOTES.

In the Punjab, where this season's Cotton crop promises to be a good one, picking has already commenced in places. In the United Provinces the crop is also doing well, except that in the Cawnpore district, which devotes a large area to Cotton, the crop has unfortunately been damaged by excessive rain. In the Central Provinces, where there is also a very large area under Cotton this year, prospects continue good, and there ought to be a large yield when picking begins. —Sept. 24

The rains have been gradually decreasing during the week, and to-day's meteorological report shows that they are more or less confined to the southern part of the Peninsula. The position is very much the same as it was at the end of last week, crop reports from almost everywhere being satisfactory. *Times of India*, Sept. 24

BOMBAY, Sept. 23.—The cyclonic storm, referred to in our last mail report, has disappeared, and fine weather is now experienced in all parts of the northern half of the Peninsula. The storm recurved from this side of India and gave heavy rain to the United Provinces. In the Southern districts fair rain has fallen in many parts of the country. The general reports received from all the growing districts are satisfactory. In some quarters no more rain is required, as sufficient has already fallen to bring the crops to maturity. In others one more rainfall is necessary within a few weeks to complete the good resulting from last week's downpour. Swarms of young locusts are reported in some districts, causing considerable anxiety.

Reports to hand of the Cotton crop are very good and with the increased acreage planted this year, a large outturn in many important districts is anticipated. The prospects of the food and oil seeds crops have improved very much with the good rains experienced in September. For the present all famine relief works have been postponed.

There is a fair quantity of speculative business going on locally, but export trade is chiefly confined to Wheat. The high range of freight now current in Bombay has checked oil seeds for the present.—*Bombay Price Current.*

CANADIAN FLOUR TRADE.

[From the Montreal Trade Bulletin, Oct. 21.]

The *Trade Bulletin* has frequently pointed out the difficulty experienced in quoting prices of Flour in this market to represent actual values, as there is often such a wide range in the sales of precisely the same grade of Flour as to make one price look ridiculous to another on one and the same day Take for instance sales reported during the present week of Ontario 90 per cent patents and we have a range of $5 25 to $5 45, the last named figure being, we presume, for jobbing lots, although we are assured by some dealers that they have to pay $5 40 for car lots laid down here. On the other hand, we know sales of 90 per cent patents laid down here at $5 25. Sales are also reported of 90 per cents at $5 45 cost and freight St. John's, Nfld. There is very little doing in the way of new business for Newfoundland, as the large dealers there are said to have bought extensively before the last rise, and can therefore sell even below present prices in this market. American Flour is too high to compete with Canadian brands in the Newfoundland market.

The United States Cast Iron Pipe Company has declared the regular quarterly dividend of 1¼ per cent on its preferred stock, payable Dec. 1. Books close Nov. 10 and reopen Dec. 1.

AUSTRALIAN WHEAT CROP PROSPECTS.

[Special Correspondence to Dornbusch.]

SYDNEY, Sept. 6.—Climatic conditions are still somewhat unsatisfactory for the requirements of the growing Wheat crops throughout the Commonwealth. Although the recent rainfall has stimulated both natural and artificial herbage it has proved insufficient for the proper development of the growing crops. In the northern and western areas of New South Wales especially more rain is badly needed. Statistics to date respecting the area under crop further confirm that a larger acreage has been planted with Grain this year than last. It must be remembered, however, that a year ago a continuous rainfall promoted a prolific growth, while this season only scattered showers have fallen, which will in all probability greatly reduce actual production when the crops reach maturity.

Total exports of Breadstuffs from the Commonwealth to date show an equivalent of 31,260,000 bu of Wheat. The local market price has come back during the week to 3s 4½d per bushel.

THE HOP SITUATION.

[New York Producers' Price Current, Oct. 22.]

There has been little if any further change in the general Hop situation during the week. Actual business in this State and on the Pacific Coast has been lighter, owing to the comparatively light remaining stocks in growers' hands, and the indifference of owners about selling at present offers. Rarely if ever before in the history of the Hop trade has so much of the crop passed out of growers' hands at so early a date in the season. In this State 35@36c are promptly offered for choice growths but attracting few sellers, some of whom have their ideas as high as 40c, but the highest price we have heard of as yet has been 37c, which was paid for selections by a Western brewer. On the Pacific Coast 31@31½ are freely offered for choice and 30c obtainable for most any good useful Hops, but offerings limited. Foreign advices continue firm. On the local market there has been fair activity and holders here very firm in their views.

Indications are for generally fair weather in this forecast district except for rain or snow flurries in Western Lake Region. Temperatures will be somewhat lower in this section, but will rise again in Northwest Thursday

ITEMS OF GENERAL INTEREST.

A second fire at Troy, Ohio, Monday, caused a loss of $150,000. The first one did $75,000 damage.

The United States Steel Corporation has declared the regular quarterly dividend of 1¾ per cent on its preferred stock.

The Norfolk and Western Railway Company has applied to the New York Stock Exchange to list $5,000,000 4 per cent divisional first lien and general mortgage bonds of 1944.

Directors of the National Carbon Company have declared the regular quarterly dividend of 1¾ per cent on preferred stock, payable Nov. 15. Books close Nov 5 and reopen Nov. 16.

Officials of the Quaker Oats Company say all plants of the company are running full capacity, and sales are larger than a year ago. The margin of profit is also greater on account of lower prices for Oats.

Steps have been taken by the Pere Marquette and the Michigan Central Railroads to comply with the ruling of the Inter-State Commerce Commission in the Michigan Fruit case by obtaining a reduction in the rates charged for icing.

A Kingston, Ont., dispatch says: "There is a rumor that the New York Central has secured control of the Folger steamboat line on the St. Lawrence River and that it will be operated next season in connection with the railroad line."

A letter from Ames, Iowa, says: "Corn in this section is as good or better quality than 1895 was at this date, but not as many bushels as we had that year. It will run from 35 to 70 bu per acre. Average from 40 to 55 bu. Oats from 30 to 40 bu per acre and good."

A dispatch from Kankakee, Ill., says that a Chicago party, representing a Cattle syndicate, has purchased 203 acres of land near that city for $61,000 It will be used as a feed yard for preparing fancy Cattle for the market. A large sales amphitheatre will also be built.

Upon application of E. Bement's Sons, extensive manufacturers of Stoves and farm implements, Lansing, Mich., the affairs of that corporation were placed in the hands of the Detroit Trust Company, Monday, which will liquidate all liabilities. The capital is $1,250,000.

The Lackawanna Tunnel Railroad Company of New York City was incorporated at Albany, Monday, with a capital of $300,000, to construct and operate a railroad through one or more tunnels under the Hudson River to Hoboken, N. J. It is said that no time will be lost in starting the work.

The Richelieu and Ontario Navigation Company has passed its November dividend. It has paid 6 per cent for more than ten years. The company lost a steamer last spring, and there has been some falling off in business on account of the competition of the St. Louis exposition. It has $3,132,000 stock.

The Winnipeg *Commercial* of Oct 22 says: "The weather is still broken and dull. We have had about two days of sunshine this week, and the rest of the time it has been dull. On several of the days of the week there were rainstorms. Threshing proceeds but slowly and farm work is a month behind."

It is said that an agreement has been reached between the Baltimore and Ohio and the holders of Cleveland, Lorain and Wheeling preferred stock whereby 5 per cent dividends are to be paid henceforth on the stock; 2½ per cent dividend is to be paid practically at once, and 2½ per cent semi-annually hereafter.

In accordance with merger agreement of Sept. 9 the American Tobacco Company has invited stockholders of the present American Continental and Consolidated companies to convert ther stock into the common stock, preferred stock and obligations of the new company upon the terms arranged through deposits of their holdings with the Morton Trust Company.

The directors of the American Radiator Company will hold their regular quarterly meeting the first week in November to act on the preferred dividend and transact such other business as may come up for their consideration. Whether or not dividends on the common stock will be discussed at that time cannot be learned.

The Cincinnati, New Orleans and Texas Pacific Railway's report in pamphlet form was issued Monday. The income account shows a surplus after charges and dividends on the preferred stock of $274 324, a decrease of $[illegible]0,628. A dividend of 2 per cent on the common stock was paid Dec. 1, 1903, out of surplus net earnings accumulated prior to June 30, 1903. The amount of $60,000 was charged to profit and loss.

The receiver of the United States Shipbuilding Company sold at auction, Monday, at Newark, N. J., all that portion of the corporation's property adjudged to be mortgaged to the Mercantile Trust and the New York Security and Trust Companies. The only bidder, George R Sheldon, who represented the Sheldon reorganization committee, offered $50,000. For the capital stock of the seven subsidiary companies, the only bid, of $200,000, was not satisfactory, and Mr. Smith refused to sell.

"The California Wheat crop is short and will have to draw its supplies from the North Pacific Coast States," said a Chicago commission man, Tuesday, who is back from several weeks spent on the Pacific Coast. "Washington, Oregon, and Idaho have about 52,000,000 bu. They have 16,000,000 bu sold for the East and for export. A considerable quantity will have to go to California, and a great deal will be exported in the shape of Flour. Trade with the Orient in Flour having increased lately."

In his annual report to the stockholders of the St. Joseph and Grand Island Railway Company, the vice-president says: "The through business of the company, freight and passenger, increased during the fiscal year, the freight 18.63 per cent and passenger traffic 30.09 per cent The big bridge over the Missouri River was completed. The bridges over the Wolf, Nemaha and Blue River were strengthened, and lighter rails have been replaced by 6,300 tons of Steel rails weighing 80 lbs to the yard. All the equipment ordered the previous year has been delivered."

According to statements made by leading interests in the United Lead Company, the management intends to enter into active competition with the National Lead Company in the white lead business. To this end the United Lead Company will begin the erection of two white lead plants—one at Perth Amboy, N. J., and the other at Granite City, Ill. It is claimed that the former will have a white lead capacity of 100 tons per day, while the latter will have an output of nearly double that amount. Both these plants will also turn out other lead products. Funds have been underwritten by a syndicate, and the amount required will be between $1,000,000 and $1,500,000.

The *Corn Trade News* of Oct 13 says: "Fall seeding in France is being done under excellent conditions; the rains of last week were very favorable for starting growth. Country markets are rather easier and declines of 6d per qr have been reported. At yesterday's Paris weekly market there was a similar decline, but holders are very slow to make any concession, for they find it very difficult to replace at the present time; however, millers hope that when seeding is finished and threshing resumed supplies will be much more liberal, and in the meantime the Paris stock is slowly increasing. Our Dieppe correspondent says that growers fear the import duty may be suspended if prices are forced much higher. 'Dear bread' also continues to be mentioned in the political newspapers."

The United States Steel Corporation owns the Duluth and Iron Range Road and the Duluth, Missabe and Northern Railway, the two forming its principal ore carriers independent of its lake fleet. In the last fiscal year the two roads made dividends of 150 per cent each on the common stock, the Duluth and Iron Range paying out $4,503,000 in dividends, and the Duluth, Missabe and Northern $3,768,750. The Duluth and Iron Range carried on its operation for 45 94 per cent of the earnings The total expenses of administration were $1,839,011, and its total earnings, $4,0[illegible]3,215, the dividends being greater than the earnings and being paid out of the surplus. In the twenty years the road has been in operation it has paid but three dividends, each a liberal one. The Duluth, Missabe and Northern, operating 171 miles of road, earned $3,701 416, and used $1,836,484 for operation The surplus in its treasury, after paying $3,768,750 in dividends, was, on June 30 last, $3,163,565.

Shares of the Pan-American Banking Company to the amount of 2,000 are being offered for subscription in the East by the Mount Vernon National Bank of Boston The stock is offered until Nov. 3. The price is $200 per $100 share, payable 10 per cent on allotment, 20 per cent in one month, 20 per cent in two months. 25 per cent in three months, and 25 per cent in four months. The authorized capital and surplus of the company are $850,000 each, of which $300,000 each has been previously subscribed. The Pan-American Banking Company is one of two concerns organized to take over the affairs of the International Bank and Trust Company of America, which latter went into receiver's hands last December; the other company is the Pan-American Securities Company. The Pan-American Banking Company is the active or operating company. Offices have already been established in New York and in Boston. Branches are also operated in Chicago and in Mexico, and preparations are now being made to open branches in New Orleans, San Francisco, Vera Cruz, Tampico, Guadalajara, Santiago, Rio Janeiro, Buenos Ayres, and Lima.

The directors of the Pressed Steel Car Company will meet the latter part of this month to act on the quarterly dividends on the preferred and common stocks, namely 1¾ per cent and 1 per cent, respectively. From the present indications these rates will be maintained, inasmuch as the dividends distributed to the common stockholders this year were earned in 1903. Earnings during 1904 have suffered in consequence of the small demand for railroad cars. It is doubtful if the company this year has earned much more than the amount necessary to pay the dividend on the preferred stock, which requires $875,000 annually, while in 1903, in addition to the preferred dividends, the company earned about 14 per cent on the common stock. If there is any curtailment in the dividend on the common stock it would naturally take place during 1905, in which year, according to the custom of the directors, the surplus earnings of 1904 would be available for such purpose. It looks as though the surplus after preferred dividends for 1905, however, will be rather insignificant, and if such is the case a reduction in the common dividend in 1905 would not cause a surprise in well informed quarters.

The fiftieth annual report of the Chicago, Burlington and Quincy Railroad Company, covering the fiscal year ended June 30 last, was issued, Monday. Since Oct. 1, 1901, the railroads and properties of the company have been operated under lease by the Chicago, Burlington and Quincy Railway Company. During the year the railway company paid as rental, dividends at the rate of 7 per cent per annum on the stock of the railroad company. These dividends amounted to $726 667 The dividends on the stock of the railroad which was deposited as collateral security for the Northern Pacific-Great Northern joint Chicago, Burlington and Quincy 4 per cent bonds were applied directly to the payment of interest on those bonds, the payments amounting to $8,603,082. After paying all operating expenses and fixed charges the original Burlington company earned a surplus of $3,980,167. The total amount to the credit of the sinking fund at the beginning of the fiscal year was $21,697,725. This was increased during the year by $1,408,674, of which $721,717 was paid directly from earnings of the year, and the remainder, $686,957, was the accumulation of interest on bonds held in the funds. This increase was used in purchasing $1,408,000 bonds, of which $512,000 was canceled and $896 000 remains in the sinking fund investments

Average cost price of Hogs at Chicago, Wednesday, was $5 11, against $5 20 Tuesday, $5 32 Monday, $5 10 a week ago, and $5 14 a year ago.

By a unanimous vote the Duluth Board of Trade, at a meeting held Tuesday afternoon, voted to change the rate of commission on Wheat from 1 per cent to 1c per bu.

At a meeting of the lake line managers and the Central Traffic Association, held in Chicago, Wednesday, it was agreed to allow the lake rates on Grain and Grain Products now in force to stand during the remaining weeks of navigation.

The weekly Bank of England's statement shows a decrease of $1 164,445 in bullion. The proportion of the bank's reserve to liabilities is now 53.88 per cent, against 76.53 per cent last week, and compares with an advance from 44⅞ to 45⅝ per cent in this week last year.

Local securities were active, but averaged lower. The chief losses were on Chicago Telephone, Carbon, Swifts, Metropolitan Elevated common and South Side Elevated preferred. Can preferred made the best gain.

The Harlan & Hollingsworth plant of the United States Shipbuilding Company has been sold in Wilmington by a special master. The purchaser was George R. Sheldon of New York, representing the reorganization committee. The price was $685,000.

Cotton in New York was active and irregular, selling higher and lower than yesterday's close. Liverpool was lower On the advances, realizing sales were the feature. Foreign political news had an unsettling influence. Closing sales were 9@11 points lower.

The Cincinnati *Price Current* reports the packing of the West for the week at 370,000 Hogs, compared with 395,000 for the week previous and 310,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 12,830,000 Hogs, compared with 12,625,000 for the corresponding time last year—an increase of 205,000 Hogs.

The Cincinnati *Price Current*, in its weekly crop summary, says: "Wheat crop in fine promise. Enlarged area. Corn husking not generally active. Results fully supporting crop estimates and better quality. Little interior trading in Corn. Pastures good. Hog movement enlarging. Wheat prices unjustifiably high under supply and demand situation."

The San Francisco *Commercial News* of Oct. 20 says: "The Northern Hop market has lost none of its strength even though the export demand has fallen off, sales continue to be reported at 31c for choice Advices from New York state that 90 per cent of the crop of that State has been sold. In California the stock left in growers' hands is less than 2,000 bales."

Dornbusch of Oct. 14 says: "Our house in Buenos Ayres cabled this afternoon: 'Approximate official returns estimate an increase in Wheat acreage of 22 per cent, and a decrease in Flax Seed of 19 per cent compared with last year.' The above indicates a Wheat area this season of 12,476,000 acres, and of Flax Seed 2,345,000 acres, compared with 10,226,170 and 3,636,156 acres respectively last year."

Stock values in Wall Street were influenced by European complications and Gold exports. Trading was heavy, nearly 1,000,000 shares to noon. The disposition was to take profits, and lower were recorded on all values. The breaks were so severe that they brought out good support, and fair reactions from inside figures were made, but last sales showed losses of ½ to 1¾ on Western Railway shares and 4 points on Ontario and Western. Money 2¼ to 2½ per cent.

Broomhall cables: 'Our agent at Novorossisk reports that Wheat harvest in the region of the Caucasus was splendid The quality is excellent. The Grain is arriving freely and he expects a large business will be done this winter. A semi-official Russian report states that in the railway region in Siberia the Wheat crop was generally an average one. In the government of Emelsk it was above the average and in Akmolinsk below the average with the quality fair.'

Traffic officials of Eastern railroads, Wednesday, agreed to advance on Dec 5, rates on Grain and Grain products. On shipments for export the increase in the rate from Chicago to New York will be 1½c per 100 lbs On domestic shipments the increase will be 2½c per 100 lbs. This will make the new basis of rates from Chicago to New York 20c on Grain and Grain products for domestic consumption, 15c on Grain for export, and 16½c on Grain products for export.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The demand is not as brisk or as general as lately noted and sales are more difficult to effect. Prices are more in buyers favor.

WINTER WHEAT Ruled easier early and closed firmer A better demand existed and there were sales of 100,000 bu of Hard Winter Millers showed more disposition to buy No 2 Red in store nominally $1 17¾@1 19½, and car lots fresh arrivals quotable at $1 18@1 20 No. 3 Red fresh receipts quotable at $1 14@1 17, with sales at $1 16 both free on board and choice billed through No. 4 Red fresh receipts free on board sold at $1 10½@1 11 No . Hard fresh arrivals free on board sold at $1 18, and was quoted at $1 12@$1 15, outside very choice No 3 Hard fresh arrivals sold at $1 07, and was quotable at $1 13@1 12.

SPRING WHEAT—Was in good demand and sales of 75,000 bu of Nos. 1 and 2 Northern were reported Millers more disposed to purchase. The feeling was weak early and stronger later. No 1 Northern fresh arrivals free on board were quotable at $1 18@1 19, and No. 2 Northern at $1 12@1 16 No 3 Spring sold free on board at $1 11 for hard variety, and quotable at $1 05@1 16, depending on quality, with sales at the river at $1 10@1 12 No 4 Spring sold free on board at 95c for fair and at $1 03@1 08 for good, with very poor quotably down to 60@70c; sales at the river at 85@95c.

REGULAR WHEAT—A large trade and decidedly nervous, unsettled market, with final figures ⅜c higher for the December and ⅛c better for May. The market started out very strong under the influence of the foreign political situation. British Consols were off 7-16 and the Grain markets on the other side all very strong There was a rush on the part of "shorts" to cover, under which prices advanced sharply, May touching $1 14. At the improvement in prices speculative offerings increased, due chiefly to assurances from Washington that the differences between Russia and Great Britain would be amicably adjusted. May declined to $1 12¼, a good many stop orders being executed on the break. Around the above figures local professionals purchased and a full 1c recovery occurred. Liverpool quoted spot steady to 1d higher and futures ⅛@⅜d higher. London was quoted ½d higher Paris was up ½@¾c. Antwerp steady and unchanged Primary receipts were 280,000 bu smaller than last year, the arrivals in the Northwest being 319 cars less Kansas City and St Louis received 149,000 bu, compared with 189,000 bu last year. The *Price Current* reported the Wheat crop in fine promise with an enlarged area Duluth wired: 'Foreigners accepted all of our Manitoba offers and sent bids for more at higher figures" Kansas City wired that contract stocks there had decreased 79,000 bu so far this week. New York early in the day reported selling there for foreign account. *Broomhall's* agent at Novorossisk reported that the Wheat harvest in the Caucasus region was splendid; the quality is also splendid, and the Grain is arriving freely. He expects a large business will be done this winter A semi-official Russian report stated that in the railway region in Siberia the Wheat crop was generally an average. In the Government of Emselsk it was above the average and in Akmolinsk below the average with the quality fair Argentine shipments were estimated at 800,000 bu Minneapolis reported stocks increased 825,000 bu so far this week. Kansas City estimates for to-morrow only 71 cars Winnipeg received 387 cars, compared with 183 cars last year Cash sales here said to aggregate about 175,000 bu. Receipts at Duluth 132 cars, at Minneapolis 356 cars, total of 488 cars, against 667 cars yesterday, 813 cars a week ago, and 807 cars last year. Local receipts included 41 cars Winter 38 cars Spring and 9 cars mixed, a total of 88 cars, against 105 cars last year. Included in the above was 1 car contract grade There were also 4 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 33 cars The withdrawals were 28,250 bu. Receipts at Western points were 944,865 bu, against 1,121,514 bu last year. At Eastern points 47.800 bu against 188,790 last year Shipments from Western points 461,497 bu, against 783,260 last year, and from Eastern points no bu, against 327,018 bu last year. Shipments of Flour were 6,158 brls. Exports of Wheat in Flour were equal to 27,711 bu

Future Deliveries of Regular Wheat—Good trade and market irregular.

OCTOBER—Entirely nominal, and closed about $1 13⅜

MAY—Sold at $1 12¼@1 14. Opened with sales at $1 13½ to $1 14; sold to $1 13¾, to $1 13⅝, to $1 13⅝, to $1 13⅜, to $1 13⅛, to $1 13¼, to $1 13½, to $1 12⅞, to $1 13⅛, to $1 12⅜, to $1 12⅝, to $1 12¼, to $1 13⅛, to $1 13, to $1 13¼, to $1 12⅞, and closed at $1 12⅞ bid.

JULY—Sold at 97⅞@99c. Opened with sales at 99c to 98⅞c; sold to 98⅝c, to 98¾c, to 98¼c, to 98½c, to 98c, to 98½c, and closed at 98½c.

CORN—A fair trade and much stronger market early in the session, extreme figures not being maintained the close being ⅛@¼c higher for December, while May gained ⅜@½c The start was stronger on the foreign political situation, the small receipts and strength of cash values also being dominant factors "Shorts" covered freely and there was a good commission house demand, particularly for the December, which at one time was quoted 4½c over the May, but at the close the premium was only 3⅝c At the advances established local professionals sold, and profit-taking was a feature, causing values to recede, floor traders in many instances being "long" Receipts were only 82 cars, against 351 cars last year, and but 76 cars estimated for to-morrow Liverpool quoted spot steady to ½d higher, and futures ⅛@⅜d better. Shipping demand was good and holders firm Sales 50,000 bu Western receipts were but 197,000 bu, against 745,000 bu last year; shipments 279,000 bu and 289,000 bu respectively Local arrivals 66,000 bu and shipments 173,000 bu. Withdrawals here 100,000 bu and exports 15,000 bu. Seaboard reported 8 boat loads accepted. Argentine shipments were estimated at 2,800,000 bu. Map showed clear and cool weather generally, killing frosts at Dubuque and light frosts through Oklahoma. Fair and warmer conditions were predicted. The *Price Current* reported that Corn husking is not as yet generally active, but results so far supporting fully crop estimates and quality better than last year. Car lots were in good demand and limited supply. Feeling firm and prices ½c higher. No. 2 sold at 57¼c for high color, and closed at 55½c. No 2 Yellow closed at 57½c. No 3 closed at 55c. No. 3 Yellow closed at 57c. No 4 sold at 56½@57¼c for yellow.

Corn by sample—There was a good demand and the offerings were small. Feeling stronger and prices were about ½c higher. Sales on track and free on board: No Grade sold at 45½@50c for new. No 4 at 53@57¼c. No. 3 at 55½@56½c. No 3 Yellow at 57¾c. Billed through: No Grade at 47c for new No. 4 at 54@56¼c. No. 3 Yellow at 56@56¾c. No. 2 Yellow at 56¾@57c

Future Deliveries of No. 2 Corn—Fairly active and unsettled, closing ⅛c to ⅜@½c higher.

OCTOBER Inactive, but firm and quotable 4c over December and closed nominally 54c

DECEMBER—Sold at 49¾@50¾c Opened at 50⅛c to 50⅜c and sold at 50¼c, to 50¾c, to 50¼c, to 50⅝c, to 50⅛c, to 50⅜c, to 49¾c, to 50¼c, to 50⅛c, and closed at 50⅛c bid

MAY Sold at 46⅛@46¾c. Opened at 46½c to 46¾c and sold at 46½@46⅝c, to 46⅝c, to 46½c, to 46⅜c, to 46⅜, to 46⅛c, to 46⅛c, to 46½c, and closed at 46½c asked.

JULY—Sold at 45⅞@46c and 46⅛c Opened at 46c, and sold at 46⅛c, to 45⅞@46c, to 46@46⅛c, and closed at 46@46⅛c

OATS—Were higher with other Grains and on the war scare. The best trading was at the start. "Shorts" were good buyers and on the bulge of ⅜c "longs" took profits. Closing sales were at gains of ⅜c on December and ⅛c on May and July. Cash sales were 75,000 bu here and 30,000 bu at the seaboard, the latter for export. Seaboard clearances were 3,000 bu Arrivals 82 cars and were under last year's. Estimates for to-morrow 85 cars. Withdrawals 46,750 bu. Car lots to go to store were ¼c higher. No. 4 White sold at 30¼c. Standard in store closed at 32c

Oats by sample were steady to ¼c higher Offerings were smaller and demand better. Sales on track and free on board: No 4 White at 29½@31c. No. 3 White at 30¼@32c. Standard at 31@31½c. No. 2 at 30c@30½c. No. 2 White at 32c. Billed through: No. 4 White at 35¼c. No. 3 White at 30¾@31c Standard at 31c. No. 2 White at 31@31½c At the river No 4 White at 28¾@29¼c. No 3 White at 29¼@29¾c

Future Deliveries of Contract Oats — Were higher, with moderate trading.

OCTOBER -Closed at 30c

DECEMBER—Firmer. Sold at 29⅛@29¼c and at 29⅝c Opened at 29⅜c sold to 29⅝c, to 29⅛@29¼c. to 29½c at close.

MAY—Fairly traded in. Sold at 31¼@31⅜c and at 31⅝c. Opened at 31⅛@31¼c sold to 31¼c, to 31¼@31⅜c, to 31⅝c; closed at 31⅝c asked.

JULY Sold at 31¼@31½c. Opened at 31⅜c; closed at 31½c.

RYE Ruled firm, with light trading: December was 1c higher, and a car of fresh receipts also sold at a higher figure Receipts four cars, and one car was taken out of private warehouse No exports from New York No. 2 in store nominally 79@79½c, and a choice car fresh receipts free on board sold at 84c. No. 3 fresh receipts sold free on board at 80c.

Future Deliveries of No. 2 Rye—Quiet and firm. October nominally 79½c. December sold at 80c May 81c bid and 82c asked.

BARLEY—Was quotably firm In a general way, in fact in about every way, the market was in about the same state as presented the past day or two. Offerings remain small Buyers were on the market for all grades so that arrivals were salable: all grades were taken Choice to fancy Barley was especially strong. Trade in spot Barley quiet and in to arrive lots nothing doing. Latter very sparingly offered and very firmly held. Only 25 cars inspected in. Sales of Screenings were at 28@36c for poor to good quality; choice, recleaned, bright, possibly might do a little better. Low grade Barley, feed, like yesterday, sold mainly at 37½c, some, heavy, nice cars at 38c and a little poor down to 35c. Malting low grade small berry, some heavy, but dirty, ranged at 40@41c; clean, fair to good, at 12@43c, and large berry, heavy, quotable at 45@48c, with choice to fancy 50@52c. Fancy in a round lot up to 54c.

SEEDS—Nothing worth mentioning was done outside of a fair trade in Timothy Steadiness was general and Flax prices were a shade higher.

Timothy Steadiness prevailed in the market for Timothy Full late prices were bid for futures. Moderate March delivery sales were made, but no trades in deliveries this side There was a fair supply of cash Seed on the market. The quality averaged rather better than of late. Cash lots were taken. For these also prices were without essential change. Nine cars were submitted as contract Seed, and passed as such. Contract spot or October delivery was $2 60 bid and $2 62½ asked. January was held at $2 72½ March delivery sold at 2 80 Country lots on the cash market quotable at $1 85@2 55 for low grade to fancy, inferior lower; fair to good, $2 30@2 35, high-grade Seed $2 40@2 45, and rough, dirty or hulled $2 15@2 25

Flax -There was a firm market. Prices were advanced 1c for all but December delivery and for that ½c advance was bid There was no trading, for the market was bare of offerings. Rail receipts 2 cars or 1,800 bu and 112,000 bu came by lake; none of this offered. Output 1 car or 604 bu. At Minneapolis the receipts were 43 cars, at Duluth 46 cars. No 1 Northwestern cash salable at $1 16½, and $1 10 bid for No 1 Rejected, depending on quality, quotable at $1 08@1 14. October bids raise 1 to $1 10, and December was salable at $1 12½.

Clover—In very small supply. Quotably steady for good qualities and easy for common but no changes noted Contract grade, spot or October delivery remains quotable at $12 15 Country lots common to choice, $7 00@12 00, very poor lower, and fancy above. Fair to good $10 25@11 50

Other Seeds—No trading, for there were no offerings. The several lines salable as follows. Hungarian at 80c@$1 00 for common to choice Millet, common, was quotable at 75@80c for common to choice, German at 80c@$1 00 Broom Corn Millet at 90c@$1 00 Siberian at 80@85c, and Early Fortune about 75@90c Mustard about 7c@$1 00 Buckwheat, good milling spot about $1 35

HOG PRODUCTS—Speculative trading was moderate in Hog Products, and the undertone to the market was unsettled Offerings were fair, while the demand from all sources was moderate. Outside orders were rather light, and local packers and speculators were not inclined to trade to any extent Trading chiefly in January and March contracts. Prices ruled somewhat irregular Early, the feeling was rather firm and prices ruled higher, mainly in sympathy with the strength in Grains and a rather steady Hog market After the early orders were provided for, and the Grain markets ruled easier, there was a little pressure to sell, while the demand was light, and a weak feeling prevailed Prices receded to inside figures. Toward the close the market ruled stronger, with a fair rally in prices closed steady. Near deliveries rather dull. Receipts of Products were fair—of Lard and Meats about 18 cars Shipments were moderate—of Lard and Meats about 109 cars Foreign markets were quiet and Lard was quoted 3d lower. Domestic markets quiet. Receipts of Hogs at the leading Western packing points were estimated at 65,000, compared with 58,600 one year ago Packing of the West for the week exhibited an increase of 60,000 Hogs compared with the corresponding week last year Demand on shipping account was light, and offerings were moderate. Sales were limited, and feeling dull generally, with prices favoring buyer

Mess Pork—Only a moderate business was transacted in Mess Pork, and the feeling was unsettled. Offerings were fair, and the demand was moderate Trading almost exclusively in the deferred deliveries. Market opened firmer, with a fair inquiry, and prices were 5@7½c higher, which was followed by a further improvement of 5c Later, a weaker feeling was developed, and prices settled back 7½@10c Toward the close ruled firmer and prices rallied 7½@10c, and the market closed rather steady. Shipping demand was light, and offerings were moderate. Cash lots quotable at $10 87½@11 00.

OCTOBER—Quiet, with small sales at $10 85.

JANUARY—In fair request, and offerings were not very free. Sales were made at $12 35@12 45. Opened at $12 40, sold to $12 45, to $12 40, to $12 45, to $12 35, to $12 45, to $12 42½@12 45, and closed steady.

MAY—Met with a little more favor, and offerings moderate. Sales were made at $12 35@12 52½ Opened at $12 50, sold to $12 35, to $12 52½, and closed steady

Lard—A fair business was reported in the Lard market and the feeling was steadier. Offerings were fair, and the demand was moderately active Foreign advices less favorable to holders Market opened firmer, and prices 2½@5c higher, which was followed by a further advance of 5@7½c, mainly on May contracts Later, a weaker feeling was developed, and prices settled back again 5@7½c, but toward the close prices rallied again 2½@5c, and the market closed rather steady Demand on shipping account was limited, with moderate offerings. Cash lots quotably steady at about October figures, closing at $7 15@7 17½ Loose lots in fair request, with moderate offerings. Prices were quotable at 20c discount on January figures Leaf Lard was in fair demand, with rather light offerings. Quotably steady at about $7 37½. Neutral in light demand, with moderate offerings Prices quotably steady at $8 75@8 87½ for No. 1, and $8 25@8 37½ for No. 2.

OCTOBER—Demand was rather light, and offerings were moderate Sales were made at $7 12½@7 17½ Opened at $7 12½, sold to $7 17½, to $7 15, and closed steady

NOVEMBER Offerings were moderate, and inquiry rather light Sales were made at $7 15@7 17½, and closed quiet at $7 15

JANUARY—In moderate demand, and offerings were fair Sales were made at $7 12½@7 17½ Opened at $7 17½, sold to $7 12½, to $7 17½, and closed steady

MAY—Offerings were fair, and the demand was moderately active. Sales were made at $7 22½@7 30 Opened at $7 22½ to $7 25, sold to $7 27½@7 30, to $7 27½, to $7 30, to $7 22½, to $7 25@7 27½, and closed steady

Short Rib Sides—Trade was fair in the market for Short Rib Sides, and the feeling was stronger Offerings were not very free, and the demand was fair Trading almost exclusively in January and May contracts Market opened rather firm and prices were 5@7½c higher. Later, a weaker feeling was developed, and prices receded 2½@5c, but rallied again to outside figures, and the market closed steady. Shipping demand was moderate, and offerings rather light Cash lots quotable at $7 12½@7 25, according to weight.

OCTOBER Quiet and steady, with small sales at $7 20

JANUARY -Demand was fair and offerings were not very large. Sales were made at $6 45@6 50. Opened at $6 50, sold to $6 45, to $6 50, to $6 47½@6 50, to $6 50, and closed steady

†Flour made by mills outside of St. Louis, but controlled in that city

Minneapolis Flour output last week decreased 16,795 brls compared with the previous week One of the large mills was closed down Thursday afternoon, which accounts for the decrease. This week one of the smaller mills was started up on Monday in addition to those running last week, and the large one before referred to will probably be in operation before the end of the week. For the current week the output will approximate 300,000 brls.

Minneapolis millers did not find the Flour market a very satisfactory one during the past week. The rapid advance of Wheat in the latter half of last week had a most detrimental effect on buyers in that it frightened them from purchasing. Sales during the week did not, in the case of most millers, come up to the output, and the prospect is that, unless the Wheat market settles down and fluctuates less violently, Flour sales will be small During the week car-lot sales to numerous buyers constituted a large proportion of the total amount, and from all indications the trade is pursuing a very cautious and conservative policy. Millers express themselves as thinking that this is best for both buyer and seller. Any inclination buyers had to replenish their stock of Flour was effectively killed by the erratic and advancing Wheat market. Shipping directions are coming in slowly and millers are sometimes hard put to to find an outlet for their product.

The advance in Wheat has completely dampened any small amount of ardor foreigners had to purchase Patent. They can not afford to pay the prices millers are forced to ask. Home millers compete successfully for trade which a year ago would have been thought to be wedded to American Flour, and importers can do nothing but hope for better times, when American prices will be more in line with other world's markets. There is a good demand from the United Kingdom for both first and second clear, but prices are not satisfactory, and millers have to make sacrifices so as to be able to dispose of their surplus of these grades.

Millfeed is dull and weak in the East, but Minneapolis millers are well sold ahead and will not make concessions in price. The only thing they will do is to demand shipping directions; this as far as prompt stuff is concerned Offal for later shipment is strong and some are inclined to think will go higher before the end of January.

Minneapolis and outside millers ask $6 00@6 40 in wood for Patent, f o b Minneapolis.

Eastern prices to-day (Oct. 22) asked by Minneapolis and outside mills for Patent in wood were: Boston rate points, $6 85; New York rate points, $6 80; Baltimore rate points, $6 70; Philadelphia rate points, $6 75; Albany rate points, $6 80; Rochester and Syracuse rate points, $6 75; Buffalo rate points, $6 65; Michigan, $6 35 in sacks; Iowa, Illinois and Wisconsin, $6 40 in sacks

Our cables to-day state that the Glasgow Flour market is steady, with stocks of American Flour very light, and receipts heavy of Australian. In Liverpool the same quietness prevails that has ruled for some time. Flour is a dragging sale in London, with better demand for Minnesota Clear than for any other grade. European Flour is being freely offered at low prices Amsterdam cables that c i f. offers and spot prices are still too far apart to admit of much business.

THE GROSS INCOMES OF NATIONS.

[From the Boston News Bureau, Oct. 21.]

The dispute over fiscal questions in England has brought out estimates of various statisticians as to the aggregate annual income of the three leading European nations.

The highest estimate for England is £2,000,000,000, which is a growth of £1,560,000,000 in sixty years. The income per head is estimated at £47. The estimated income of the people of France in 1892 was 25,000 000,000 francs, or 650 francs per capita. Saltbeer estimated the income of the people of Prussia at 10,000,000,000 marks in 1890, and that of the people of Saxony at 1,700,000,000 marks in 1894

While these estimates make no pretense to accuracy they are carefully computed by the best statisticians and show a growth of income far in excess of the growth of population.

In this country the increase of wealth has been greater in recent years than that of any other nation. A leading banking house in a late report on the financial and commercial situation, makes much of the point that in the recent world's increase of Gold the holdings in the United States have increased 25 per cent more than other nation's.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, Oct. 26.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of 42 "outside mills" with a daily capacity of 32,000 brls, from Jan. 1, 1904, to Oct. 16, 1904, with comparisons:

	1904 Flour, brls.	1904 Wheat, bu.	1903 Flour, brls.	1903 Wheat, bu
Minneapolis	10,486,015	47,187,000	11,560 190	52,021 000
Duluth	633,830	2,852,000	838,135	3,772,000
42 outside mills	5 426,260	24,418,000	5,623,785	25,307,000
Totals	16,546,105	74,457,000	18,022,110	81,100,000

These figures represent the approximate consumption of 6,643,000 bu less Wheat this year than in 1903. This has occurred from the mills of Minneapolis and Duluth as well as the outside mills turning out 1,476,005 brls less Flour than in 1903.

THE EGYPTIAN COTTON CROP.

The following is the Alexandria General Produce Association's resume of answers received in September, 1904: There were some fogs in the first half of September and the weather was cooler than it should be. This occasioned delay in the opening of bolls. Fortunately there has been a good return of heat, and Cotton has been ripening in a normal way The crop has lost what was thought its early character and now appears to be a few days late; moreover, cultivators are abstaining from offering their crops and are delaying the picking. Up to now the yields from the ginnings are less satisfactory than in 1903. The Upper Egypt crop is good. To sum up, although the reports are not so favorable as those received in August, we are induced to maintain the opinions expressed in our last report.

BEAN CROP OF CALIFORNIA.

[From San Francisco Commercial News, Oct. 20.]

M. L. Wolff, now in the South, says the Bean crop around Santa Monica is 85,000 to 90,000 bags; the amount in warehouse at Santa Monica is 50,000 bags. Of Ventura County he says the crop will be fully 300,000 bags At Somis they had last year 35,000 bags; at present there have been hauled 15,000 bags, and 4,000 to 5,000 bags to be hauled will bring the crop to 20,000 bags—over one-half of last year. Camarillo has in 28,000 bags; last year, 65,000 bags—over one-half as much Oxnard has over 30,000 bags in and will have three-fourths as many as last year; Santa Paula will have more than last year; Saticoy, three-fourths; Montalvo, say two-fifths; Ventura, fully one-half as many. These are figures and nearly facts

GRAIN IN NORTHWEST CANADA.

The Northwest Grain Dealers' Association of Manitoba, furnishes the following crop report of Manitoba and the Northwest Territories:

	Acres.	Yield per acre—bu.	Total yield—bu.
Wheat	3,420,411	17.5	59,857,190

Barley	392,669	26.8	10,520 350
Flax	46,540	11.4	530,550

Percentage of Wheat No. 4 and under 30 per cent. Percentage of threshing done 65 per cent. Wheat inspected and passed Winnipeg to Oct. 15, 7,000,000 bu.

THE WEATHER CONDITIONS.

Extreme Northwest—Temperature 30 to 42, clear. Northwest—Temperature 24 to 34; clear. West—Temperature 28 to 38; clear, except raining .02 at Chicago; killing frost at Dubuque, Iowa. Southwest—Temperature 26 to 54, fair. Ohio Valley—Temperature 32 to 42; clear.

Indications are for generally fair weather in this forecast district, except probably unsettled in northern lake region. Temperatures somewhat higher in this section, but no material change Northwest.

ITEMS OF GENERAL INTEREST.

Hudson County, New Jersey, has awarded the $800,000 4 per cent semi-annual fifty-year park bonds at 103.77

The $20,000 Lawrence, Mass., 4 per cent one to ten-year funding coupon bonds were awarded, Wednesday, at 102.557.

The $25,000 3½ per cent ten-year municipal loan of Fall River, Mass., dated Nov. 1, 1904, was awarded, Wednesday, at 100.557.

A receiver was appointed, Tuesday, for the Big Tree Lumber Company, Charleston, W. Va. The liabilities are $65,000, and assets $150,000

The American Glue Company has declared the regular semi-annual dividend of 2 per cent on its common stock, payable No 1 to stock of record Oct. 24.

The Kansas City *Star* is out with an estimate of only 21 000,000 bu Wheat left in Kansas, or 33 per cent, and says Oklahoma will be out of Wheat in twenty days.

The Chicago, St Paul and Omaha reports $1,220,995 gross earnings for September, an increase of $120 384. Gross for three months was $3 046,500, a decrease of $21,600.

Directors of the Pacific Express Company, which is controlled by the Missouri Pacific, Union Pacific and Wabash, have declared the regular quarterly dividend, payable Nov. 1.

The new United States Telephone Company, which plans a trunk line from Chicago to New York, has arranged to buy several plants in the Philadelphia district, along the proposed line.

Wall Street believes the Northern Securities case has been settled and that a huge deal is on to unite the Western lines in such a way as to end ruinous competition The attainment of harmony and stable rates is part of the plan

Articles of incorporation were filed with the Illinois Secretary of State for the Rockdale, Momence and Southeastern Railway Company, Monday The principal office is at Joliet, and the capital stock is placed nominally at $10,000.

According to one of the largest manufacturers of finished Steel products, producers of Bessemer pig have put up the price 50c a ton within the last two days. As high as $14 00 a ton Pittsburg has been paid for Bessemer Iron for immediate wants. There is very light buying of Bessemer for future delivery on the basis of current quotation.

A bulletin issued, Tuesday, by the Census Bureau gives a summary of the reports on Cotton ginned in the United States in the present year up to Oct 18. The reports cover ninety-six counties in eleven States and show a total of 426,883 running bales, as against 292,369 running bales reported from the same counties for the same period last year.

The directors of the Pressed Steel Car Company, at their meeting, Wednesday, in New York City, decided to pass the quarterly dividend of 1 per cent on the common stock As the dividends on the common stock in the past have been declared from the surplus of the preceding year, the action is taken to mean that no dividends will be paid on the common stock for an entire year. The regular quarterly dividend of 1¾ per cent was declared on the preferred stock.

A party at Grand Forks, N. D., wired: "Around Larimore, thirty miles west of here, 60 per cent of threshing to do yet. This is at the south end of Langdon-Edmore territory, where but little threshing had been done up to the latter part of last week. They need two weeks of good weather and it doesn't look very favorable just at present. We have had snow up here on the 26th of October that stayed by us all winter, and it is snowing hard now."

In an extended review of the world's Wheat situation a London Grain firm says: "America, though reduced to such an insignificant condition as an exporter, still exercises considerable influence on the minds of operators, especially in the other exporting countries, and it is fairly safe to say that if America, owing to the undoubtedly strong position there, should allow prices to rise much higher, all other shippers will endeavor to obtain higher prices for their produce, and, in our opinion, this is one of the strongest features in the situation."

The Pennsylvania Railroad Company has placed an order for 6,200 cars, 6,000 of which are to replace damaged and worn out cars on the lines east and west of Pittsburg. The orders have been about equally distributed among the American Car and Foundry, Pressed Steel Car, Standard Steel Car, and Cambria Steel companies. Two hundred are Steel Coke cars, and with 600 ordered several weeks ago will be built by the Cambria Steel Company. The Philadelphia and Reading Railroad will also place a large order for cars in a few days.

The Chicago *Inter Ocean* says: "The report has been circulated that the question of placing the stock of the Distillers' Securities Corporation on a 5 per cent instead of 4 per cent dividend basis per annum is being considered, but it can be stated on the highest authority that the statement is not true. The management, while willing to distribute a portion of the surplus earnings in dividends, is also desirous of creating a larger surplus. The policy of the company will be to make the surplus sufficiently large to meet all emergencies in both good and bad times before any consideration will be given to increasing the dividends on the stock."

Judge Baker, of the United States Circuit Court at Indianapolis, Tuesday, handed down an order formally dissolving the receivership of the Vandalia Railroad The order becomes effective Nov. 1. The order of Judge Baker is that the receiver of the road shall forthwith pay in full the coupons matured March 1 and Sept. 1 of this year on all outstanding mortgage bonds of the Terre Haute and Peoria Railroad Company, but without any interest on these coupons. On Nov. 1, 1904, according to the order, the receiver shall deliver to the Terre Haute and Indianapolis Railroad Company possession of the railroad owned by that company and of the St. Louis, Vandalia and Terre Haute Railroad and of the Terre Haute and Peoria Railroad.

According to the *Railway Gazette*, the following orders for new equipment have been placed within the past ten days: Toledo and Ohio Central, 200 box cars, Maine Central, 10 refrigerator cars; Burlington 10 passenger coaches; Hidalgo and Northwestern, 12 flat cars and 10 box cars; Western Pacific, 200 ballast cars and 100 miscellaneous cars; Santa Fe, 25 freight cars; Cincinnati, Hamilton and Dayton, 4,000 freight cars; Swift Refrigerator Transportation Company, 100 refrigerator cars; a total of 700 cars ordered by this company since Sept. 23. The New York Central and Hudson River is in the market for 25 locomotives Cincinnati, Hamilton and Dayton has ordered 9 locomotives from the Baldwin Locomotive Works for Nov. 15, 1904, delivery. The Burlington is considering the purchase of 25 freight locomotives and 1,000 box cars.

According to a retired Iron manufacturer who retains an interest in current developments, the United States Steel Corporation is playing a very shrewd game just now. He said: "It would not surprise me if the Steel Corporation shut down some of its own furnaces and bought Pig Iron from merchant furnaces. The latter are not well provided with ore having restricted the amount brought down from the mines on account of the poor outlook. Navigation is about to close. If the Steel Corporation should buy a large amount of Pig Iron from the merchant furnaces, the latter would exhaust the ore supply before it could be replenished and during the first quarter of 1905 there might be something like a famine for outside consumers This condition would give the Steel Corporation absolute control for a considerable period of the raw material supplies, and would enable it to advance the price of finished material."

The United States Cast Iron Pipe and Foundry Company has completed about one-half of its fiscal year and it is authoritatively stated that the financial results for the half year have slightly exceeded those of the corresponding period of 1903. The general condition of the pipe trade is good, but the indications are that they will be better before the close of the year. The company's managers are looking for a good volume of business during 1905 and the gross profits for the fiscal year, which will end May 31, 1905, will doubtless run ahead of 1903, when they amounted to $1,303,810. The company is one of the largest users of Pig Iron in the world and a large demand for pipes also means large purchases by the company of Pig Iron with which to make the pipes. It is pointed out that while current orders are of good proportions they show a smaller margin for profit than when normal conditions prevail in the Iron and Steel industry, but as business improves, higher prices can be obtained with greater benefit to the company. In a short time the directors will act on the quarterly dividend on the preferred and the 5 per cent established three months ago will be maintained.

A circular which has been issued providing for an advance to a part of the holders of the Northern Securities stock is dated Oct. 19 and signed by Baring Bros. & Co (Ltd.) of London. In that circular the bankers state that they are authorized by James J Hill to make an advance to holders of 2,000 shares or less of Northern Securities stock who reside in Great Britain or on the Continent of Europe of $2 25 a share. The offer will be open until Oct. 31, 1904 A representative of Mr. Hill stated emphatically that the offer was purely a personal matter on the part of Mr. Hill and was prompted by a desire to relieve small European holders of Northern Securities stock from the inconvenience and hardship which they have encountered by reason of not receiving dividends on their Northern Securities holdings regularly, simply because the company was restrained by the pending litigation from making these distributions. Mr. Hill's representative said that this plan did not foreshadow anything and meant only what was expressed in the terms of the circular. An official of the Northern Securities Company said that to the best of his knowledge there was no ground for the rumors that a settlement of the Northern Securities situation had been effected.

The Electrical Securities Corporation is a promoting company. It will aid likely electrical ventures in the lighting, traction, and power fields. The General Electric people, who will direct its policy, have felt for a long while the need of a company of this character to give financial backing to meritorious enterprises. Both the General Electric and Westinghouse Companies have been obliged to go more or less into promotion schemes in connection with their business of manufacturing electrical machinery. The new corporation will do this in place of the General Electric Company. The Electrical Securities Corporation will be both an investment company and a promoting company. In the great electric revolution which we are now going through the possibilities of profitable investment of capital in electric enterprises all over the world are enormous. This new company, including in its management, on the one side, men of high attainments in electric engineering and manufacturing and, on the other, men of equally high attainments in the field of finance, would appear to be admirably equipped to develop new enterprises and to bring them before investors. Naturally, the General Electric Company will benefit by its intimate connection with the management of the new company. Every enterprise brought under the wing of the Electrical Securities Corporation will give profitable business to the General Electric Company
